

CHOCOLAY TOWNSHIP
PLANNING COMMISSION MEETING
TUESDAY, JANUARY 26, 1993

Present: Estelle DeVooght, Max Engle, William Sanders, Mike LaPointe.

Staff Present: Mike Farrell, Director of Planning & Research and Jeanette Collick, Recording Secretary

Absent: Scott Emerson, Don Wickstrom

Public Present: Terry Huffman, Daniel DiLoretto, Steve Blondeau, Rich Reader

PUBLIC HEARING

Bill Sanders, Chairperson, called the Public Hearing to order at 7:30 p.m.

Conditional Use #26 - Prince of Peace Church:

There was no public comment received. Bill Sanders, Chairperson closed the public hearing regarding Conditional Use #26.

Lot Split Request #9 - Diloreto:

Bill Sanders, Chairperson open the public hearing for Lot Split Request #9

Dan DiLoreto - 301 West Main Street - provided the Planning Commission members information from Richard E. Lomax, PS Manager Subdivision Control Unit, County Zoning Review Unit from the Department of Commerce regarding lot splits.

Mr. DiLoreto stated there are four (4) ownership parts in Part B. There are seven (7) individual parcels. Dan DiLoreto owns 2 parcels, Mr. Drobney owns four (3) parcels, Huefelder owns one (1) parcel and Mr. Menze owns one (1) parcel.

Mr. DiLoreto also stated that according to the letter he received from Mr. Lomax that the 100' that he was requesting to change wasn't a lot split because since it is two (2) descriptions and is considered continuous ownerships it is considered as one division. Also in the letter he received from Mr. Lomax it was stated that since it was Mr. DiLoreto's desire to change his descriptions by enlarging parcel A by 100' and since both parcels A and F are to remain in his ownership, the revising of the descriptions can be done and be in compliance with the Subdivision Control Act.

Mr. DiLoreto stated the reason he wanted to add 100' to his lot with the house on it was because he wanted to add more equity to his home.

He has talked to realtors, county people, township people and state people and everyone has a different opinion on what constitutes a lot split.

Terry Huffman - 165 West Main Street - has no problems with Dan DiLoreto being able to change 100' from his vacant lot and adding it to the one with his home on it.

There were no other public comment regarding Lot Split #9 so Bill Sanders, Chairperson closed the public hearing on Lot Split #9.

Recreation Plan Update:

Bill Sanders, Chairperson open the public hearing regarding the Recreation Plan Update.

Mr. Richard Reader asked what the plans were regarding the Green Garden and Chocolay River part of the Recreation Plan.

Mike Farrell, Director of Planning & Research said at this point in time the Township would like to upgrade it for a small park/picnic area and access to the river. This would not be for motorized vehicle, but access for canoes.

Mike Farrell also commented that the recreation plan is required by state law to update the plan every five years. We need to do this in order to receive state grants and the Township has guidelines to go by to apply for the grants.

There were no other comments regarding the public hearing for the Recreation Plan Updates. Bill Sanders, Chairperson closed the public hearing regarding the Recreation Plan Updates.

Bill Sanders, Chairperson closed the Public Hearing.

Regular Meeting Called to Order:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 7:40 p.m.

Roll Call:

Roll call was taken with Estelle DeVooght, Max Engle, William Sanders, and Mike LaPointe present.

Scott Emerson and Don Wickstrom were absent.

Approval of Minutes of December 14, 1992:

Bill Sanders noted that on page 2 the motion should have read Rod Smith moved, Bill Sanders second that the following language be added to Section 209 (C): (the word second should be inserted).

Max Engle noted that on page 4 under Unfinished Business (A) the last sentence read Mike asked that the Planning Commission table the topic and ask the Township Board for an extension until March to bring this back to the Board. It should have read back to the Board. (The work back was corrected to read back to the Board.

Max Engle moved, Mike LaPointe second that the Planning Commission Meeting Minutes of December 14, 1992 be approved as corrected.

Carried 4-0

Approval of Agenda/Additional Items for Agenda:

Bill Sanders, Chairperson asked if there were any addition or changes for the agenda.

Bill Sanders moved, Estelle DeVooght second to accept the agenda.

Carried 4-0

Public Comment:

Steve Blondeau - 417 Cherry Creek Road - provided the Planning Commission material regarding the outcome of the Zoning Board of Appeals Meeting. He stated he does not want to go back to the Zoning Board of Appeals. He stated he was not notified of the meeting that was held on December 3, 1992.

Bill Sanders felt the Zoning Board of Appeals members were not responsible for notification of the meeting. The Zoning Board of Appeals acted on information given them.

Mike Farrell stated that Steve Blondeau brought it to the Township Board at the Regular Board Meeting held on January 18, 1993. The Township Board recommended that Mike get the Township's Attorney to get an opinion on if the Zoning Board of Appeals could hold another hearing regarding the matter that was held on December 3, 1992.

Mr. Blondeau stated that this has caused him to be about six (6) months behind and that he as the applicant was not in attendance at the Zoning Board of Appeals Meeting and there were other people in attendance who knew about the meeting. How did they know about the meeting and he didn't.

Estelle DeVooght said that the Zoning Board of Appeals members had to have known to be in attendance.

After much discussion on what had taken place, Bill Sanders, Chairperson said we should wait and see what the Township Attorney's opinion is and that it is not the township's intent to operate as board and/or commission by not notifying the applicant and/or persons involved.

Mike Farrell stated that the Planning Commission is only one of the process.

It was stated that when the Planning Commission discussed the Mining Mineral Extraction Ordinance, they did not include the flooding as a park. It was also stated that the Mining & Mineral Extraction Ordinance was not targeted at any parcel.

Mike Farrell stated that it was consulted with Harley Andrews, Township Attorney for the language of park.

Steve Blondeau went over some of the comments from Mark such as the webster dictionary meaning of park.

Mr. Blondeau felt that the Township would have to allow him to get minerals out.

Mike Farrell commented that the Planning Commission could not accomplish anything at the moment and would have to obtain the information from the attorney regarding this and try to get things worked out.

Bill Sanders apologized to Steve regarding the notification of the meeting.

Bill Sanders asked if there were any more Public Comment. There were none. The Public Comment was closed.

NEW BUSINESS:

A. Consider Conditional Use #26 - Prince of Peace Church

Henry Summers - 1883 M 28 East was present on behalf of the Prince of Peace Church regarding the Conditional Use for the church.

He gave a presentation of the addition for the church. There would be seating for 200. Parking would be on M 28 and Riverside Road. Cost is approximately \$240,000, which \$200,000 is raised already.

4

Having fund drives for the other \$40,000, which will be used for utilities, pews, etc.

Bill Sanders asked if the parking was sufficient. Henry Summers said the parking was rearranged from the other plan to obtain 80 parking spaces, which would be on the lower level.

Mike Farrell stated that there was a problem with the parking pertaining to the requirement in the Zoning Ordinance regarding the open space landscaping. About eight spaces would have to be taken out for required open space.

Mike Farrell told Henry Summers he would have to come in a talk with the Zoning Administrator to define the parameter.

Bill Sanders moved, Max Engle second that the Chocoday Township Planning Commission approve the addition to the existing conditional use, as portrayed on the plans submitted with the following conditions:

1. That the necessary parking required and landscaped open space as specified in the Chocoday Township Zoning Ordinance, be established and approved by the Township Zoning Administrator prior to obtaining a Zoning Compliance Permit.
2. That Zoning Compliance Permit be obtained from the Chocoday Township Zoning Administrator prior to start of construction.
3. That the necessary permits as required by Federal, State and Local Agencies be acquired prior to project commencement.

Carried: 4-0

B. Consider Lot Split Request #9 - DiLoreto

Mike Farrell asked that the Planning Commission to table the Lot Split Request #9 DiLoreto until the next Planning Commission meeting so he can obtain information from the County Plat Board and Mr. Lomax concerning the issued raised by Mr. DiLoreto.

Dan DiLoreto stated that these were continuous lots and according to Richard Lomax because it would not be changing ownership that this would not be considered a lot split.

Some of the Planning Commission members said that they thought anytime you change a lot line you create a lot split.

Bill Sanders supported Mike Farrell's suggestion about tabling the lot split until he can obtain the information from the Plat Board and Mr. Lomax.

Estelle stated maybe we would have to change the interpretation of a lot split

Bill Sanders moved, Max Engle second that the Lot Split #9 - DiLoreto be tabled until the next Planning Commission and Mike Farrell obtain the information from the Plat Board and Mr. Lomax.

Carried 4-0

Unfinished Business:

A. Consider Recreation Plan Update:

Mike Farrell went through the Short Term, Long Term Projects and the Financial Plan of the Recreation Plan (pages 29 & 30).

There was discussion and view points on various parts of the priority of the Financial Plan. Some members felt that some of the

items that were listed should have a more higher priority than others, such as a basketball court over a tennis court and score board, etc.

There was discussion on the Green Garden Chocolay River Site.

Mike LaPointe felt that a letter should be written from the Planning Commission to inquire what impacts this would have and what the DNR plans are.

It was felt that if the Board approves to apply for a grant for the Update Recreational Plan, priorities could be moved around.

DNR approval for the grant is in April.

Estelle DeVooght moved, Bill Sanders second that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the Recreation Plan Update be approved with the Action Plan and the Basis for Action Plan as attached.

Carried 4-0

Planning Director's Report:

Mike Farrell told Steve Blondeau that he will try to find out how his process stands and what he will have to do to proceed and get back to him for the next Planning Commission Meeting.

Mike Farrell said he would like to review sections of the Recreation Plan at every Planning Commission Meeting to update the plan. The Planning Commission on a yearly basis would then make their suggestions to the Township Board.

He also stated that this Fall another survey may be conducted regarding the Recreation Plan.

The Planning Commission By Laws were read and reviewed. Mike Farrell will get these mailed out to the Planning Commission members before the next meeting.

It was also stated that the Zoning Ordinance should be addressed for changes, etc.

Strategic Planning - It was suggested that it may be a possibility for the Planning Commission to ask the Township Board to consider setting up a Recreation Commission to work on the Recreation Plan in conjunction with the Planning Commission.

When going over the Planning Commission portion of the yearly budget, Mike Farrell would like the Planning Commission to go over it before submitting it to the Township Supervisor.

It was also suggested that the officers of the Planning Commission and Mike Farrell have a meeting to set up the agenda for the Planning Commission.

Mike Farrell stated there are some things, such as advertising for rezonings, etc. that would have to be done before the agenda is set up. It was stated any advertising for rezoning, etc. that could be done before the officers met to set up the agenda.

Mike Farrell stated that the Planning Commission still has the changing of Willow Road name coming back. It was felt that just an informal hearing would have to be held. Public Hearing is not required.

Mike Farrell introduced Jeanette Collick who is going to be the Recording Secretary for the Planning Commission.

Public Comment:

Mike LaPointe reported on the Watershed Council and the Conservation District grant.

Adjournment:

There being no further business Estelle DeVooght moved, Max Engle second to adjourn. The meeting was adjourned at 9:40 p.m.

CHOCOLAY TOWNSHIP

PLANNING COMMISSION MEETING

TUESDAY, FEBRUARY 23, 1993

Present: Estelle DeVooght, Max Engle, William Sanders, Mike La Pointe, Scott Emerson, Don Wickstrom

Staff Present: Mike Farrell, Director of Planning & Research & Jeanette Collick, Recording Secretary

Public Present: Tracy Pierce, John Evans, Mark Larson, Randy Moore, Milt Gere, Wm. Stenglein, Gary Niemela, Liisa Niemela, Karen Lynd, Betty Herman, Terry Eilders

PUBLIC HEARING:

Bill Sanders, Chairperson called the Public Hearing to order at 7:30 p.m.

Conditional Use - Faith Assembly of God Church

Bill Sanders, Chairperson opened the public hearing for Conditional Use # 27 - Faith Assembly of God.

Mike Farrell, Director of Planning & Research gave a brief explanation what this pertained to.

This is a R-1 Single Family Zoning District. Churches are permitted in a R-1 Zoning District under a conditional use.

This particular piece of property is a piece of vacant land North of Dana Lane Subdivision along M 28 East. They are looking at a 40 x 60 building with a parking lot constructed.

Mark Larson - 33A W. Park - At present time their congregation is approximately 50 people. First phase will hold their present congregation and will be a small building. At this time approximately 2500 square feet. As the congregation grows, they hope to add to it. The church will blend in with the surrounding area.

There were no other comments regarding the Conditional Use #27 - Faith Assembly of God. Bill Sanders, Chairperson closed the public hearing regarding the Faith Assembly of God Church.

Private Road Request - Niemela:

Bill Sanders, Chairperson opened the public hearing on the Private Road Request for Gary Niemela.

Mike Farrell, Director of Planning & Research gave a brief explanation what the applicant is requesting to do.

Within the proposed plan for the private road the maintenance would be up to the land owners of the development to provide for road maintenance. Mr. Niemela is proposing that the road would be gravel to start with. He anticipated black topping it after all the parcels are sold and developed. He would also be in contact with the State Highway Department for their requirement for access off U.S. 41.

Gary Niemela - 6200 U.S. 41 South - We plan on putting in total of eleven (11) homes and will comply with all the Township's laws and regulations.

Milt Gere - 108 Surrey Lane - questioned if the utilities would come off U.S. 41 South?

Gary Niemela stated they would.

There were no other comments regarding the Private Request Bill Sanders, Chairperson closed the public hearing.

Regular Meeting Called to Order:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 7:45 p.m.

Roll Call:

Roll Call was taken with Estelle DeVooght, Max Engle, William Sanders, Mike La Pointe, Scott Emerson and Don Wickstrom present.

Approval of Minutes of January 26, 1992:

Max Engle moved, Estelle DeVooght second that the Planning Commission Meeting Minutes of January 26, 1993 be approved as presented.

Carried 6-0.

Approval of Agenda/Additional Items for Agenda:

Bill Sanders, Chairperson asked if there were any additions or changes for the agenda.

Mike Farrell, Director of Planning & Research stated that Terry Eilders had a concern on camps, which may fall under public comment, but should be moved to an additional items under New Business (c).

Estelle DeVooght moved, Mike LaPointe second to approve the agenda with the addition of C regarding establishment of camps.

Carried 6-0.

Public Comment:

Bill Sanders, Chairperson opened the Public Comment section of the agenda.

Karen Lynd - 1507 M 28 East - had a concern regarding the Faith Assembly of God Church regarding the location of the entrance, what are the future plans of the church for an expansion, and traffic.

Mark Larson - 333A West Park - stated that as far as the traffic is concern, they have been in contact with the State Highway Department and they said based on the access to M 28 East and the fact that there is flat land there would be no problem with traffic and they would have to have an approved entry way, which would be 24' wide and be curbed. With any future expansion, they may have to talk meet requirements for the acceleration lane. He then proceeded to show on the plans where this would be.

There was concern on the traffic flow on Dana Lane property.

Bill Sanders asked if there any further public comment. There were none. The Public Comment section was closed.

New Business:

Consider Conditional Use #27 - Faith Assembly of God:

Mike Farrell Director of Planning & Research stated that the applicant has an option to purchase the land and the church was pursuing a conditional use permit to determine whether a church could be built in that location.

Scott Emerson had a concern regarding lighting and land and the structures of homes in the area.

Karen Lynd questioned the impact the church would have on property taxes.

It was stated that churches are exempt from taxes, but do obtain services provided by the Township such as, garbage pickup, police protection and fire protection. Taxes do not get absorbed by adjacent property owners and property evaluations won't go up within the surrounding areas because churches are exempt.

Mike Farrell, Director of Planning stated this would be a Conditional Use and would go strictly with the property and they would have to meet certain criteria set by the Planning Commission, such as design, landscaping, parking that is set in the Township Zoning Ordinance.

Betty Herman - 1487 M 28 East had a concern regarding traffic and vacant land regarding snowmobiles, four wheelers - could this be rerouted?

Mike Farrell, Director of Planning & Research stated that is a problem everywhere.

There was discussion on lighting and if the minister would be living at the church. It was stated that this would be used for a church only, not as a residence and there are no plans for residency.

Mike La Pointe moved, Scott Emerson second that the Chocoday Township Planning Commission approve the application and plans, as submitted, for a conditional use permit to construct a church on the following described property:

Section 10, T 47 N, R 24 W

That part of Gov't Lots 1, 2, and 3 commencing 772.47 feet West and 170 feet North of the East 1/4 Corner of Section 10 then 80 58' West 1039.29 feet to POB then South 9 01' West 150 feet, then North 80 58' West 520 feet then South 00 47' West 81.64 feet, then North 89 12' West 440 feet, then North 00 47' East 145.23 feet, then North 80 58' West 40 feet, then North 9 01' East 150 feet, then S 80 58' East along the South E/W Right of Way of M-28 to POB.

with the following conditions.

1. That the applicant consult with the Township Planner and Zoning Administrator on proper vegetative landscaping necessary to screen the proposed development from adjacent properties.
2. That final engineered plans showing the structure, parking and landscaping be submitted to the Planning Commission for their review and approval.
3. Should the final plans be determined, by the Planning Commission, to be a major change from the preliminary plans submitted an additional public hearing may be required.
4. All plans be reviewed by the Township Zoning Administrator and conform with all established regulations as stated in the Chocoday Township Zoning Ordinance #34.
5. That Zoning Compliance Permit be obtained from the Chocoday Township Zoning Administrator prior to start of construction.
6. That the necessary permits as required by Federal, State and Local Agencies be acquired prior to project commencement.
7. That non-fulfillment of any of the conditions as set forth in this approval shall constitute a violation of the conditional

use permit and may lead to the revocation of the conditional use permit.

8. That the applicant comply with all of the Michigan Department of transportation for access off M 28.

The penalties for violation of this ordinance shall be the same as those penalties set forth in Section 707 of the Chocolay Township Zoning Ordinance.

Motion Carried 6-0.

Private Road Request - Gary Niemela:

Mike Farrell, Director of Planning & Research stated that the developer has been in contact with the Michigan Department of Transportation and it appears there is not problem with road access to U.S. 41 South.

Mike Farrell, Director of Planning & Research stated he received a letter from Greg Seppanen and he is in favor of approval of the road.

Mike LaPointe asked if the road meets standards.

Mike Farrell stated that as far as our Zoning Ordinance it does meet the standards - 18' of improved surface, and is 66' Right of Way.

Mr. Niemela is proposing a width of 20' of gravel and plans on paving in the future. The reason he is not going with a public road is that he plans on keeping in touch with the surrounding trees and nature that is in the area.

Bill Sanders, Chairperson asked if Mike Farrell check on the name and if there was a conflict with the name. There were no conflicts.

Max Engle asked if the road was already there?

Mike Farrell, Director of Planning stated yes that Mr. Niemela has been doing some logging in that area and thinning wood lots on those parcels.

Scott Emerson had a concern on the green area on the West side of the road that was shown on the plans. Mr. Niemela stated that was existing pine plantation and plans on doing some thinning in there, but no hardwood would be cut down and the same with the North with the wetlands pond and Cherry Creek. Everything would remain the same.

Bill Sanders, Chairperson asked if there were any other questions or comments regarding the Private Road Approval for Gary Niemela. There were none.

Scott Emerson moved, Don Wickstrom second that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the requested private road application and plans be approved, as submitted, with the following conditions.

1. The developer will provide, at their own expense, street signs and posts per township specifications and maintenance of the signs and post to be the responsibility of the owner(s).
2. A covenant be established on the parcel deeds identifying the private road status and the responsibility for road maintenance, right-of-way maintenance, and drainage maintenance.
3. That open access to the private road be maintained for

essential public services.

4. The proposed roads be named Lara Lei Trail and Partridge Trail as shown on the plans submitted.
5. That applicant comply with all requirements of the Michigan Department of Transportation for access to U.S 41 Highway.

Carried 6-0

RP Zoning District

Mike Farrell, Director of Planning stated a concern was raised in the past dealing with RP District, which is Resource Production.

There was concern on camps complying with Single Family Dwellings. The requirements in the Zoning Ordinance is 800 square feet for a dwelling.

There was a concern on house trailers being put on these parcels.

Another concern was that every time someone wants to put a camp in RP District the Planning Commission would have to hold a public hearing and enter in the process.

It was suggested that the Planning Commission might want to look into a text amendment and consider a public hearing on this.

After much discussion it was decided that the Planning Director do some research on the above and bring information back to the Planning Commission.

Unfinished Business:

A. Consider Single Principle Structures per lot language:

It was stated proper planning was necessary. One of the problems the Board had with the existing language was the impact it would have on a current developer who had been given the go ahead to put multiple structures on a parcel. He would be in violation if he put any more structures on the parcel.

The Director of Planning & Research felt it was important looking into the development of the Township that specific things be addressed, one of them being single principle structures on a parcel.

In having multiple structures on a parcel, you are creating problems down the road where that owners may sell half the lot and create problems with setbacks and parking. The method of using a PUD was also discussed at length. It was stated using the PUD route may be very expensive.

After much discussion on the above it was decided that maybe a joint meeting with the Township Board to discuss zoning issues would be the best method.

It was also requested that Mike Farrell, Director of Planning & Research look into PUD and Principle Structures.

B. Consider Rezoning #66 - Text Amendment C-1 Conditional Use of Specialty Retail Sales:

There was discussion on the definition of one of kind or unique, it would be hard to find a special retail of one of kind. The Board wanted unique taken out because of the definition of unique.

The Board also suggested looking at allowing drive-in restaurants and establishments cooking and preparing food for consumption off premises.

The Director of Planning & Research recommended that we don't include drive-in restaurants or establishments cooking and preparing food for off premises consumption.

Special retail sales and the usage of that shop is limited to a small clientele for that specific use versus a take-out restaurant such as Mc Donald's where you have a high impact usage at certain periods of time.

Scott Emerson suggested the word quaint meaning unusual or difference in character.

There being no further discussion, Bill Sanders moved, Max Engle second that the Chocoy Township Planning Commission recommend to the Township Board that the following language be considered as conditional uses within the C-1 district.

* ADD TO SECTION 209 (C)

Specialty retail sales where the type of sales has no outdoor display or storage and is compatible with nearby residential uses.

Carried 6-0.

C. Consider Lot Split Request - DiLoretto:

Mike Farrell, Director of Planning & Research stated he received a letter late Friday, February 19, 1993 from Richard Lomax, which supported what Dan DiLoretto submitted to us that a lot split isn't a lot split until the property is sold. Mike Farrell said he feels uncomfortable with that interpretation and is waiting for verbal clarification from Mr. Lomax. Until he gets that information he would request that the Planning Commission table this request. Mike Farrell, Director of Planning & Research has been in contact with Dan DiLoretto and explained to him we would not move forward with this until we have a concrete definition of what actually entails a lot split.

Mike Farrell also talked to the Marquette County Plat Board and they can't believe the interpretation of the lot split.

Max Engle said what he couldn't understand is that if it wasn't a lot split until it was sold and lots of record are recorded. There is nothing to stop them from selling those lots to another person and once they are sold what recourse, if any does anybody have at that point?

Mike Farrell, Director of Planning & Research state the recourse we would have is to say that this lot has not been granted a lot split and deny the present owner the ability to build on it.

Mike Farrell, Director of Planning is waiting for more information and clarification on a lot split.

Estelle DeVooght stated it still changes a legal description.

Mike Farrell, Director of Planning & Research also requested Mr. Lomax to provide him with other examples in other locations where this has actually taken place.

After much discussion on this topic, it was decided to have this tabled until the Director of Planning received information on this.

Planning Director's Report:

Mike Farrell, Director of Planning & Research stated that he supplied the Planning Commission with the By-Laws and gave them an opportunity to read them. He suggested that some changes should be

made.

Mike Farrell, Director of Planning & Research stated he would put the By-Laws together with the changes discussed, he is not going to change the intent of the By-Laws, but just bringing it up to date.

Snowmobile Trails - #77 Senate Bill that will be going to the Senate in the near future with a change in the requirements that they ride with the flow of traffic.

DNR designated trails on right of way side of the highway that can be ridden in both directions on the trail.

Township Board will be receiving information on this and they can take a look at it.

Scott Emerson had a concern for a local ordinance on the time, etc. for snowmobiles.

Public Comment:

Gary Niemela complimented the Planning Commission on the way they can even disagree in a friendly manner and talk things through. he thanked the Planning Commission for approval of the private road and said he won't let the Commission down.

Max Engle requested that the definition of park that was presented to the Planning Commission a few meetings ago be given to the Zoning Board of Appeals with past minutes that specifically discussed the flooding area.

Scott Emerson asked what happened at the Zoning Board of Appeals. It was stated that it was a cloudy issue regarding proper notification.

It was suggested that process of notification and fees structures be established.

Planning Commission Committee Meeting to be held Monday, March 5, 1993 at 4:00 p.m.

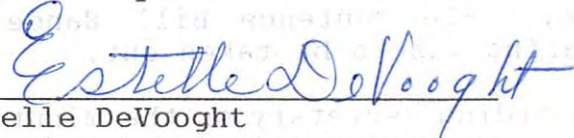

Adjournment:

There being no further business, Bill Sanders moved, Estelle DeVooght second to adjourn. The Planning Commission Meeting was adjourned at 9:30 p.m.

 Jeanette R. Collick

CHOCOLAY TOWNSHIP
PLANNING COMMISSION MEETING
TUESDAY - MARCH 23, 1993

PRESENT: Estelle DeVooght, Max Engle, Bill Sanders, Mike LaPointe,
Dave Wurster

ABSENT: Scott Emerson and Don Wickstrom

STAFF PRESENT: Mike Farrell, Director of Planning & Research
Jeanette Collick, Recording Secretary
Mark Maki, Director of Assessing & Zoning

PUBLIC PRESENT: Duane Hastrich, Trudy Hastrich, Robert Wallinger,
Tracy Pierce

PUBLIC HEARING:

Bill Sanders, Chairperson call the Public Hearing to order at 7:30 p.m.

CONDITIONAL USE #28 - HASTRICH:

Mike Farrell, Director of Planning & Research gave a brief explanation what this pertained to.

Trudy and Duane Hastrich have requested that the Chocolay Township Planning Commission consider granting a conditional use permit to operate a specialty retail business selling canoes, kayaks and paddlesport accessories at 600 Willow Road.

Duane Hastrich stated he would wait for questions when this would be discussed on the agenda.

There being no further comments regarding Conditional Use #28, Bill Sanders, Chairperson closed the Public Hearing.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 7:45 p.m.

Bill Sanders, Chairperson welcomed Dave Wurster to the Planning Commission.

ROLL CALL:

Roll call was taken with Estelle DeVooght, Max Engle, Bill Sanders, Mike LaPointe and Dave Wurster present.

Scott Emerson and Don Wickstrom were absent.

APPROVAL OF MINUTES OF FEBRUARY 23, 1993:

Bill Sanders, Chairperson noted that on page 2 of the minutes the public hearing was closed twice. The sentence Bill Sanders, Chairperson closed the public hearing was to be taken out.

Mike LaPointe complimented the recording secretary on the minutes.

Mike LaPointe moved, Max Engle second that the Planning Commission Meeting Minutes be approved as corrected.

Motion Carried 5-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders, Chairperson asked if there were any additions or changes for the agenda.

Bill Sanders moved, Max Engle second to approve the agenda items as presented.

Motion Carried 5-0.

PUBLIC COMMENT:

Robert Wallinger - 149 E Main Street requested permission to address each item as presented.

Bill Sanders, Chairperson informed him there was a Public Comment section the beginning and the end of the meeting.

Mark Maki - asked the Planning Commission if they received a letter from Steve Blondeau dated March 17, 1993 that was sent to the office to the Chocolay Township Board, Chocolay Township Planning Commission and Mark Maki.

Mike Farrell, Director of Planning & Research stated that he didn't receive that document in time to put in the Planning Commission's packet.

In that document Steve Blondeau commented that on January 26, 1993 he had written a letter to the Township requesting an exemption from the Mining & Mineral Ordinance. Basically the ordinance provides certain conditions that someone could be exempt from the Mining Permit the conditions are spelled out in 404 E regarding the hauling of material on an annual basis to exceed a maximum amount and talks about normal hours of operation and traffic flow.

Mark Maki stated that the letter was sent to Mike Farrell, Director of Planning & Research, not to him, Mike did forward the letter to Mark on February 4, 1993.

The just of Mr. Blondeau's letter is that he made an application on January 26, 1993 and that he didn't hear anything. Mark wrote a letter to Ivan Fende, Township Supervisor stating basically that the January 26th letter from Mr. Steve Blondeau that was sent to Mike Farrell was forwarded to him on February 4th and he responded with a letter to Steve Blondeau on February 9, 1993 that he had received the application and he wouldn't be reviewing it before March 1, 1993 and would let him know if any further information would be requested.

On March 3, 1993 Mark sent Steve Blondeau a letter stating that he needed to provide Mark with some more information.

Mr. Blondeau's letter basically indicates that Mark stalled him in the process. Mark was at the Planning Commission to indicated that he received the letter on February 4th and he responded to Mr. Blondeau on February 9th stating that he wouldn't be reviewing it until March 1st. Mark just wanted to clarify these issues with the Planning Commission.

Mark also stated that the problem here is that Steve will not contact Mark directly. He contact other people and then complains that he doesn't know what is going on. Mr. Blondeau has to share some of the responsibility to the fact that he isn't willing to contact Mark on zoning issues he should have a representative to contact Mark directly, and Mark indicated this to Ivan Fende, Township Supervisor and Ivan agreed this would be a good idea.

The Zoning Board of Appeals is going to hold another hearing on this issue.

Bill Sanders thanked Mark for the information.

Robert Wallinger - 149 E Main Street inquired about the green brochure if it was the DNR permit and how to apply for it. He stated that the road that Mr. Blondeau put in was through wetlands and there was concern for this.

He also made a comment on Mr. Blondeau being absent from a meeting that was to benefit him.

Mike Farrell requested that under New Business VIII A - Consider Conditional Use #28 Hastrich be moved to VII B.

No one was opposed to the item being moved up on the agenda. Bill Sanders asked if there were any further public comment. There were none. The Public Comment section was closed.

NEW BUSINESS:

LOT SPLIT - DILORETTO:

Mike Farrell, Director of Planning & Research stated he has a meeting with the County Civil Council early next week.

Mike tried to get in touch with Mr. Diloretto to let him know.

The issue has been dealt with as far as the change in his lot description he can do that.

Mike is trying to get the Chief Civil Council's interpretation on how the County looks at the two lot splits that were issued to Drobny.

Once Menze's parcel is pulled out of that plat it would be down to three owners, which will allow someone to split off and go through the lot split process to sell the lot. Theoretically you have to obtain a lot split before you can sell a lot.

The Township has already granted two lot splits to Drobny, which says that he has the ability to sell those and that is why Mike needs to obtain the information. If we did the lot split at a point when we probably shouldn't have then we still may not be able to have a request from Mr. Diloretto.

Mr. Diloretto stated that those lot splits were requested by Huefelders - one lot split, not two.

Mike Farrell stated there were two lot splits that were issued by the Township.

Huefelder had one lot and she split it into two, which isn't really a lot split because she owns both parcels.

Mike stated that none of this should have been considered as a split from the interpretation he received from the State because they have never changed the number of ownerships of the property and they still have four ownerships.

Mr. Diloretto stated that Huefelders split a lot that she owned into two descriptions which wasn't a split and that is what he wants to do to his property.

Mike stated that in actuality no splits may have occurred to this date, but the Township has granted two splits.

Mike has to find out from the County on how they view this lot split. We cannot act upon Mr. Diloretto's request or any type of lot split.

Mr. Diloretto asked if as far as his request is the Township Planning Commission denying it as in his original request back in January.

Mike Farrell stated he is being denied at this time because it would be illegal for the Township to act upon it at this time and that is going to be his recommendation to the Planning Commission.

It is illegal because we cannot grant a lot split in a situation where a violation of the State Plat Act may occur.

Estelle DeVooght asked if he changes the description what happens if he decides to sell it once he changes the description?

Mike Farrell stated if Mr. Diloretto sells it and the person he sells it to comes back to us and requests to put a structure on it, we deny the Zoning Compliance Permit to put a structure on it at which time the person's recourse is to go to the County and the County will basically take a stand like they did to Huefelder and

say that person wants his/her money back, he would have to give that person their money back.

Mr. Diloretto - prior to Drobny's even buying that house and property he was granted a lot split and that lot split was approved by the Township so that was actually the first lot split.

It was noted that this was Mr. Diloretto's existing lot where his house is now.

The County enforces the ordinance. We cannot take any action on the Township level that would be in violation of the Sub Division Control Act. After the County has identified what they feel is necessary and Mr. Diloretto can comply with that, then the Planning Commission will sit down and take a look what has to be done for a lot split.

If it turns out that Mr. Lomax's opinion regarding a lot split is correct that you cannot stop the changes in a lot, but you can prevent the selling, then he would urge the Planning Commission to amend the Zoning Ordinance to indicate language that would say that no lot split should be approved unless it is in compliance with the Zoning Ordinance and amend the Lot Split Ordinance to not allow specifically spell out that no lot split should be granted for any lot unless the lot is being built on.

Bill Sanders moved, Estelle DeVooght second that the Lot Split Request be tabled until addition information is obtained.

Motion Carried 5-0.

Condition Use #28:

Mike Farrell gave a brief explanation what this pertained to.

The applicant, Trudy and Duane Hastrich have requested that the Chocolay Township Planning Commission consider granting a conditional use permit to operate a specialty retail business selling canoes, kayaks and paddlesport accessories in the old laundromat at 600 Willow Road (Willow Road/Silver Creek).

Estelle DeVooght read a letter that was written to the Chocolay Township Planning Commission by Kay Beauchamp - 261 Silver Creek Road stating she was against the Conditional Use Permit #28.

Duane Hastrich stated the issues that was in Ms. Beauchamps letter has all been addressed in the application.

The renovation of the building and land will result in a more pleasing natural appearance. Trees, shrubs, foundation plantings, flower boxes, hanging plants will be installed. Lawn areas will be upgraded and maintained.

In the future there are plans for an addition of 32' x 20' to the North wall of the structure.

Estelle DeVooght thought instead of the type of business with the amount of people living in that area - a little party store being put there, the residents would go for it.

Mike Farrell stated that the building has been vacant for a number of years.

It was asked if this could be sold as a resident. It could, but the owner would have to demolish the building.

Mr. Hastrich stated that according to the letters Mike Farrell sent out to the property owners within 300 feet there was only one response against his conditional use being granted.

Mr. Hastrich said the last thing in closing is that he feels they have presented in their letter that he is willing to follow all of Mark's and Mike's guidelines to see that this plan is acceptable.

Also the suggested motion Mike Farrell presented to the Planning Commission with the addition of # 4 "Should plans be considered to expand existing building beyond existing walls the necessary variances be acquired prior to amending conditional use to allow such an expansion." Under #2 (the last sentence - and if lighting is used other than typical flood lights they must be of the low sodium vapor type lamp) be struck.

Max Engle moved, Bill Sanders second that the Chocolay Township Planning Commission approve the application and plans, as submitted, for a conditional use permit to operate a specialty retail business selling canoes, kayaks and paddlesports accessories on the following parcel:

Section 7, T 47 N, R 24 W

Commencing at the Northwest corner of said Section 7; thence South 01 degree 08'00" East, 268.69 feet along the West line of said Section 7 to the South right-of-way line of Silver Creek Road; thence North 88 degree 20'15" East, 556.18 feet along the said South right-of-way line of Silver Creek Road to the Point of Beginning of the land to be described; thence South 02 degree 04'00" East, 140.00 feet; thence North 88 degree 20'15" East, 131.10 feet; thence North 01 degree 00'11" West, 140.52 feet along the West line of the East 33 feet of the Northwest Quarter of the Northwest Quarter; thence South 88 degree 20'15" West, 117.21 feet along the said South right-of-way line of Silver Creek Road to the Point of Beginning.

More commonly known as 600 Willow Road.

With the following conditions:

1. Business hours be limited to the hours between 9:00 a.m. and 6:00 p.m. and by appointment at other times.
2. Exterior lighting must be shielded so that it does not project onto residential properties.
3. Advertising signs be limited to structure mounted signs and must comply with the Township sign regulations.
4. Should plans be considered to expand existing building beyond existing walls the necessary variances be acquired prior to amending conditional use to allow such an expansion.
5. All plans be reviewed by the Township Zoning Administrator and conform with all established regulations as stated in the Chocolay Township Zoning Ordinance #34.
6. That Zoning Compliance Permit be obtained from the Chocolay Township Zoning Administrator prior to start of construction.
7. That the necessary permits as required by Federal, State and Local Agencies be acquired prior to project commencement.
8. That non-fulfillment of any of the conditions as set forth in this approval shall constitute a violation of the conditional use permit and may lead to the revocation of the conditional use permit.

The penalties for violation of this ordinance shall be the same as those penalties set forth in Section 707 of the Chocolay Township Zoning Ordinance.

Motion Carried 4-1.

Principal Structure Definition:

Mike Farrell read the clarification out of the County Ordinance. He wants the Planning Commission's comments on this and would like to schedule a Public Hearing.

Principal Structure means the main building to which premises is

devoted.

The Planning Commission felt the definition looks fine.

Max Engle had a concern with principal use. - The main use is allowed within one Zoning area. You may have several different uses within one building - you may have retail sales in part and maybe some office space in another and both are allowed in the C-2 Zoning District, but when you say this, both uses are allowed on the same lot.

Estelle they are in the same structure and they are internal.

Mike Farrell asked Mark Maki when he issues a Zoning Compliance Permit how does he view it if someone comes in with one structure is for office and retail on the same structure?

Mark noted he looks under it in a C-2 Zoning District. The way about this is to try to make it so that you have one main building - because if you have more than one main building then you have problems.

Mark used Engle Nook Gallery as an example. One building - but used for office space and the type of business it is being used for. That isn't a problem.

The key is to eliminate it to one primary permitted structure and not worry about how many uses allowed on the structure.

You could also define Accessory Structure to the extent that you put limits.

Dwelling Definitions/General Regulations:

Mike Farrell, Director of Planning and Research noted that issues come up more often and this is the time to deal with definitions of dwellings. Mobile homes should also be dealt with. At present, mobile homes are only allowed in Mobile Home Parks and the mobile home subdivision in Chocolay Township.

Mike Farrell explained the definitions to the Planning Commission. Also discussed were the general regulation that would allow certain types of mobile homes such as 18' width and conform in design to a regular home was discussed.

This has been upheld in court.

Mike Farrell pointed out the difference between a modular and a mobile home. A mobile home has a title. A modular does not.

Bill Sanders had a question on Item A and what the question marks in the second line meant?

Mike Farrell took the information from the original ordinance. It may have something to do with storage area.

There was also a concern on Item C - regarding what code takes affect. Maybe and/or should be added.

There was also a concern on item G regarding roof over hangs. This should be dealt with for water drainage. Mike will do research with the Health Department on this.

There was also a question regarding camps. Could a mobile home be used, if it met the criteria.

Another possibility may be under the Recreational Structure from the County Ordinance. It allows certain types of structures.

There were no other comments regarding the dwelling definitions and general regulation text.

Mike Farrell will sit down with Mark Maki to see how he would

enforce the general regulations and then set up a public hearing in May or June on language we would be comfortable with.

Recreation Planning:

Mike Farrell suggested a joint meeting with the Planning Commission and the Township Board to discuss aspects of planning in the future.

Also at that time maybe a Recreation Committee could be set up to deal with recreation.

Mike Farrell went over the Recreation Plan that was put in the Planning Commission's agenda packet. He noted this is the copy that went to the DNR for the recreational grant.

Items regarding trails, bike paths, signage and fencing were discussed.

After discussion on the various issues it was noted that the Beaver Grove Recreation Area was a great investment and would get alot of use.

It was also discussed on who determines who gets the use of the both parks. It was noted that the Department of Public Works does the scheduling of the recreation areas.

It was also noted that Chocolay would be hosting all soccer activities this year due to the closing of the soccerfield at Bothwell.

Mike Farrell said he and Larry Gould will pick a topic from the Recreation Plan for the next Planning Commission meeting.

Planning Director's Report:

Mike Farrell, Director of Planing & Research stated that he would like to have a joint meeting with the Township Board before the next Planning Commission meeting to discuss future plans for Chocolay Township.

It was suggested that the joint meeting be held April 20th or 21st preferably the 21st.

Public Comment:

Bill Sanders, Chairperson asked if there were any public comment. There were none so the public comment section of the Planning Commission meeting was closed.

Informational Items and Correspondence:

- 1. Correspondence from Gary Niemela - thanking the Planning Commission for support of their proposed development.
- 2. Correspondence from DNR - Chocolay River Plans.

Adjournment:

There being no further business, Bill Sanders moved, Estelle DeVooght second to adjourn. The Planning Commission Meeting was adjourned at 9:55 p.m.

Motion carried 5-0.

Estelle DeVooght

 Jeanette R. Collick
 Recording Secretary

Jeanette R. Collick

 Estelle DeVooght
 Planning Commission Secretary

CHOCOLAY TOWNSHIP

PLANNING COMMISSION

TUESDAY - APRIL 27, 1993

AS AMENDED

PRESENT: Estelle DeVooght, Max Engle, Bill Sanders, Mike LaPointe,
Dave Wurster, Scott Emerson

ABSENT: Don Wickstrom

STAFF PRESENT: Mike Farrell, Director of Planning & Research
Jeanette Collick, Recording Secretary
Mark Maki, Director of Assessing & Planning

PUBLIC PRESENT: Terry O'Dovero, Bob Cambensy, Peter O'Dovero,
David Weeks, Duane Carlson, Arvo Rantanen, Philip La Combe, John
Renfrew, Ileana Renfrew, Brian Maniko, John Janofski, Rhonda Luce,
Jo Gerrish, Cathy DeVooght, John DeVooght, Susan Goodwin, Richard
Goodwin, Jean Reynolds, Davis W. Reynolds, Drek Peura, John J.
Arvon, Jim Murdy, Lainey Murdy, Terry Huffman, Barbara Dupras, Ron
Clement, Elsa Clement, Bob Curry, Marian Lindquist, Scott
Lindquist, Don Balmer, Jack Hetherington, Suzanne Harding, Howard
Harding, Jude Catello.

PUBLIC HEARING:

Bill Sanders, Chairperson called the Public Hearing to order at
7:30 p.m.

**REZONING #67 - TEXT AMENDMENT - FEES, NOTIFICATION, PUBLICATION,
DEFINITION, AND PARKING:**

Mike Farrell, Director of Planning & Research gave a brief
explanation what this pertained to.

The applicant, Chocolay Township Planning Commission, has
petitioned the Chocolay Township Board to amend the Chocolay
Township Zoning Ordinance with language regarding:

1. Section 101, add definition - principal structure

THIS WOULD BE THE MAIN structure or building to which the premise
is devoted to.

2. Section 105, set additional regulations.

This would be setting up language which will require the Zoning
Board of Appeal to advertise their meetings, put notices in the
newspaper five days prior to their meetings and to notify the
applicant, all owners, residents within 300 feet of the property to
be directly affected by a zoning decision.

The time, place and nature of the meeting, the area included and
where and when written comment will be received shall be contained
in the notification.

3. Section 500, change parking requirements

Off street parking for fast food take-out establishments and drive
in restaurants.

Previously it was .10 time floor area in square feet, we are
changing it to be 1.5 spaces per 100 square feet of floor area.

4. Section 702, change fee structure.

Amend fees for applications for Planning Commission or Zoning Board of Appeals, which would consists of:

Planned Unit Development
 Conditional Use Permit
 Variance Application
 Zoning Amendment
 Non-conforming Use Permit
 Home Occupation
 Zoning Appeal

Fees for this would be established by resolution of the Township Board.

There being no further comments regarding Rezoning #67, Bill Sanders, Chairperson closed the public hearing regarding Rezoning #67.

PRIVATE ROAD REQUEST #3 - O'DOVERO:

Bill Sanders, Chairperson opened the public hearing for Private Road Request #3 - O'Dovero.

Mike Farrell, Director of Planning & Research gave a brief explanation on the application requesting approval for a private road with access off M 28 E.

Pete O'Dovero, developer of the project turned this portion over the Bob Cambensy, engineer for the project.

The project consists of constructing a private road with access coming off M 28 East where the abandoned railroad is located.

The entrance off M 28 E will be constructed under a permit from the Michigan Department of Transportation. The road right of way that is being proposed is 66 feet in width with the cul-de-sac right-of-way being 160 feet, which is the same as the Marquette County Road Commission standards. The private road would have 20 foot wide paved asphalt surface.

He explained the three potential drainage schemes, which he preceded to show on the various maps.

Scheme #1. Has essentially two paths of drainage along the ditches of the road. One at the Northwestern end of the road and which goes directly between the proposed lots 12 and 13 and with discharge in the flood plain area would then percolate toward the river.

Scheme #2. Areas of discharge would be near the bridge which is proposed to be built across Silver Creek. Again this would discharge right to the creek in those areas.

One of the questions that may come up would be, what would this possibly do to contribute to the flooding conditions of the Chocolay River or Silver Creek?

Scheme #3. Is the take off from the second one and would have the water discharging in the detention ponds that would be constructed in front of the low areas.

The project would be served with Sanitary Sewer. There is an existing manhole on the lot lying between 40 and 41 in Riverside Addition of Lakewood.

The project is not dealing with septic tanks and any pollution going into the ground.

Each lot would have its own private well.

With the construction of the roadway the developer has to comply

with the Soil Erosion & Sedimentation Act. Cannot start any construction of the road until the permit is in hand.

There will be a number of protections in specifications in that permit as far as any sediments going into Silver Creek or Chocolay River.

John Renfrew - 234 Riverside Road - Concern was with the drainage going into the river. He inquired as to the plans to check the river drain off. Also another concern of his was the use of fertilizers on lawns and going into the river. He was also concerned for the radical impact it would have on the wildlife. He was also concerned about the aesthetics. We have a scenic river that has not been developed.

Bob Cambensy - Engineer - stated these would be single family homes on 200 foot lots and exceeds the zoning requirements. The developer is not planning on cutting all the trees down. People are going to have money invested in these lots also. These would be single family homes.

Duane Carlson - 206 Riverside Road - Concern about wells and earthmoving. Also concerned about property values declining.

Suzanne Harding - 169 E. Main - concern about condominiums, fertilizers, multiple dwellings.

Bill Sanders, Chairperson stated this was a request for a private road approval, not type of homes being built.

Bob Cambensy stated there is twenty-two (22) parcels proposed. No different than twenty-two (22) single family detached homes.

Howard Harding - 169 East Main concern on the proposed road being a through cut off M 28 East. There are approximately eight (8) children probably not over the age of twelve (12) that live on that section of East Main Street where there is a possibility of traffic getting through from the proposed private road.

Mr. Harding was also concerned about the capacity of the Township's Sanitary Sewer - will it handle the homes being proposed to be built if the private road approval goes through?

Mr. Harding was also concerned about the flood plains.

Mr. Cambensy stated that the developer would not be able to obtain a permit if this was in the flood plain. The Township's Sanitary Sewer System will handle the development.

Mr. Harding was also concerned about the additional chemicals from private well coming down stream, the bridge capacity and school bus access.

Mr. Cambensy stated the bridge would have a 80,000 pound capacity

Resident from Baker Street asked why the developer want to go with a private road versus a public road?

Mike Farrell, Director of Planning & Research explained that to go public, you must meet the standards set by the Marquette County Road Commission.

If approved for private road the maintenance has to be provided by the developer and/or association.

Private roads are allowed in our Zoning Ordinance.

Barb Dupras - 177 East Main Street - asked if clarification from last property owner in the proposed development could be obtained that there would not be access off East Main Street.

Bob Cambensy, Engineer - said the last property line is

approximately 20 feet.

Possibly a fence could be put up.

Dave Weeks - 5 Grove Street - concern on drainage. Spoke towards the selection of drainage schemes and the significance of difference of opinion with the drain commissioner at the County and what is the preferred method to litigate storm water construction runoff.

Ileane Renfrew - 234 Riverside Road - Recreation and aesthetics are beautiful and wanted to know if the developer is providing any protection for the environment. She was also concerned about buffer zones, marinas and dogs.

Alan Rose - 174 Riverside Road - Concern that at present he felt there were too many homes by the river. Why do we want to build the river up any more?

Davis W. Reynolds - 175 East Main Street - Concern what happens at the end of the road if the lots do not sell for five or six years and who would monitor the motorized vehicles getting through? It was stated that possibly a barrier at the end of the development to established so there wouldn't be any through traffic.

Also was concerned about when/if the proposed private road was approved, where would the building of the road start, would it start off M 28 East or would it start at East Main Street?

Don Balmer - 101 Forest Road - concern on description of building or developing in a flood plain and would like to see restrictions and to make sure that if it is the DNR's problem the Army Corps of Engineers doesn't come along and say it is a flood plain so what build on it anyway.

Jude Catallo - 190 Lakewood Lane - would like to urge that this be issued under a Conditional Use Permit.

Sedimentation problem was also a concern that may get worse and cost the Township more money.

She also felt that the Comprehensive Plan should be followed.

Mike Farrell, Director of Planning & Research explained setbacks.

Elsa Clement - 198 Riverside - concern about cutting trees, setbacks and construction concern.

Philip La Combe - 202 Riverside Road - Concern regarding river bank is falling, flow of water and loosing front part of home. What is the developer going to do regarding unanswered questions.

Another resident from East Main Street - How far along has the project been approved, what do we have to say about the approval?

Duane Carlson - 206 Riverside Road - concern about the private road becoming public roads. Jacobson Subdivision was given as an example.

Bill Sanders, Chairperson stated after the Planning Commission it will go to the Township Board for their approval or denial.

Howard Harding - 169 E Main Street - Concern regarding the winter time and the ice freeze build up. When Lake Superior starts to ice down, river may start to back up. Gave the example of Bayou Road in 1985 and had to use dynamite to open the river.

Rich Vivian - 125 Bayou Road - He was subject to the ice conditions and they were not only caused by the rain, but when the dam broke at Lake LeVasseur.

As far as a private road, he lives on a private road and pays no

less taxes than someone being on a private road.

We have a need to improve the river itself.

Nobody wants to assume the responsibility such as the DNR, Army Corps of Engineers and the Township Board.

John Renfrew - 234 Riverside Road - Chocolay Comprehensive Plan - areas of concern. Protection of rivers and streams for benefit of all. Township Board to do environmental assessments and investigate past record of developer.

Resident from 270 Riverside Road stated it may seem emotional but the trees not be moved out because of the view. That may be a problem with our forest and no one cares.

Elsa Clement - 190 Riverside Road - Concern on the embankment and how it would be protected.

Matt Calcaterra - 170 E Main Street - Slope becomes very sandy acceptable for erosion. Look more closely at the end of E Main Street.

Jim Murdy - 274 Riverside Road - unanswered questions on the impact the road and development is going to have.

Bill Sanders, Chairperson asked if there were any further public comments regarding Private Road Request #3 O'Dovero.

There being no further comments regarding Private Road Request #3 - O'Dovero, Bill Sanders, Chairperson closed the public hearing regarding Private Road Request #3 - O'Dovero.

CONDITIONAL USE PERMIT #29 - GIBBS - GOLF COURSE PERMIT AMENDMENT:

Mike Farrell, Director of Planning & Research explained that the applicant, Chocolay Downs Golf Course, has requested that the Chocolay Township Planning Commission consider granting an amendment to allow the construction of facilities to house golf carts as part of the existing conditional use permit. This would be a building with a roof to protect carts that people would want to keep at the Golf Course.

There were no public comments made regarding the Chocolay Downs Golf Course, Bill Sanders Chairperson closed the public hearing session regarding the Conditional Use Permit #29 - Gibbs Golf Course Permit Application.

There being no further public hearings, Bill Sanders, Chairperson closed the public hearing session of the meeting.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 8:30 p.m.

ROLL CALL:

Roll call was taken with Estelle DeVooght, Max Engle, Bill Sanders, Mike LaPointe, Dave Wurster and Scott Emerson present.

Don Wickstrom was absent.

APPROVAL OF MINUTES OF MARCH 23, 1993:

Max Engle moved, Mike LaPointe second that the minutes of March 23, 1993 be approved as presented.

Motion Carried 6-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Scott Emerson moved, Bill Sanders second that New Business be moved up on the agenda before Old Business.

Motion Carried 6-0.

PUBLIC COMMENT:

Cathy DeVooght - 6341 U S 41 South distributed information regarding her item on the agenda for review when the Planning Commission considers her request.

John Renfrew - 234 Riverside Road stated that notices were delivered late regarding the hearing not within 5-15 days prior to the hearing. Some notices were distributed yesterday or the day before. Some people not given ample time to give a written opinion or voice one.

Mike Farrell, Director of Planning & Research stated that there were no notices from the Township delivered in person and he was not aware of any other notices being delivered.

Steve Blondeau - requested that when single structure per lot was going to be discussed he would like to be informed.

Bill Sanders, Chairperson asked if there were any further public comment. There were none. The Public Comment section was closed.

Bill Sanders, Chairperson called a five (5) minute recess.

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 8:45 p.m.

NEW BUSINESS:

Private Road Request - O'Dovero:

Estelle DeVooght, Planning Commission Secretary read letters from Mr. & Mrs. Davis Reynolds and Mr. Burt Sparhawk that were received at the Township Office today regarding the Private Road Request - O'Dovero.

There was also a letter that received from Darryl Sundberg that was sent to Mr. Cambensy basically saying that he supports the option that would drain the water directly to the river and not require detention.

Bill Sanders, Chairperson stated what the intent for the Planning Commission was to review the application for a private road.

Mike Farrell, Director of Planning & Research stated that there is very little that we can do regarding the types of houses, etc.

We have a definition in our Zoning Ordinance that pertains to what a condominium unit is and that is to reflect to minimum standards set on a platted residential lot. Basically that is the only requirement we have. The review of condominiums is dealt with on the County and State levels.

After much discussion and various comments that were already presented at the public hearing regarding the buffer, policing of the area at the end of E. Main Street, bridge, drainage, permits, it was asked if Mr. O'Dovero would bring in the final plans for residents to look at?

Mr. O'Dovero had no problem in doing this with the final plans.

There were concerns regarding where the majority of the construction for the road would take place. Would it be off M 28 East or E. Main Street.

Mr. O'Dovero stated that the majority of the work would be done off M 28, but some of the equipment may have to be hauled through East

Main Street, but this would be tried to be kept at a minimal.

There were no problems with the road name being Chocolay River Trail, but consideration will have to be given to naming part of the road with an East due to the short section of road that services lots, three, four, and five.

Mike La Pointe moved, Bill Sanders second that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the requested private road application and plans be approved, as submitted, and amended, with the following conditions:

1. The developer will provide, at their own expense, street signs and posts per township specifications and maintenance of the signs and post to be the responsibility of the owner(s).
2. A covenant be established on the parcel deeds identifying the private road status and the responsibility for road maintenance, right-of-way maintenance, and drainage maintenance and also noted that the private road will not be maintained at public expense.
3. That open access to the private road be maintained for essential public services.
4. The proposed roads be named Chocolay River Trail and East Chocolay River Trail as shown and added to the plans submitted.
5. That applicant comply with all requirements of the Michigan Department of Transportation for access to U.S 41 Highway.
6. That the applicant obtain all the necessary permits from Local, State, and Federal agencies that are required for the development of the road. These may include Soil Erosion Permit, Inland Lakes and Streams Permit, Floodplain Regulatory Authority review, as well as any others that may be required for the proposed road.
7. Measures be taken to eliminate ORV traffic from East Main Street onto the proposed road and a 6 foot high burn vegetation barrier be included.
8. All construction related activities gain access to the property off M-28 Highway and no construction activities on East Main Street for access except where necessity requires access of East Main for bridge construction.
9. Drainage Scheme A as submitted be used.

Motion Carried 6-0.

CONSIDER CONDITIONAL USE #29 - GIBBS:

Max Engle moved, Estelle DeVooght seconded that Conditional Use #29 be moved after the request from Cathy & John DeVooght - Waive Rezoning.

Motion Carried 6-0.

REQUEST FROM CATHY & JOHN DEVOOGHT - WAIVE REZONING FEE:

Cathy DeVooght read a letter that she presented to the Township Planning Commission that was not included in their packet. She also presented a copy to the Marquette County Planning Commission, Dave Gillis-CUPPAD, Chocolay Township Clerk and copies to the public.

She asked what the normal amount of days for a rezoning request.

Mike Farrell, Director of Planning & Research stated it was

anywhere from 60 to 120 days.

Mike Farrell stated that no other fees were waived for any individual cases. The Planning Commission or Township Board was the petitioner.

Our Ordinance does not provide to waive a fee.

There was a question regarding the lot split of 9 1/2 acres in March 1977 RP changed to RR-2.

It was stated that the issue for the Planning Commission to discuss was the waiver of the fee, not the rezoning.

Bill Sanders moved, Mike LaPointe second that the waiver of the Rezoning Fee be denied.

Motion Carried: Ayes: 6 Nays: 0 Abstain: 1

CONSIDER CONDITIONAL USE #29 - GIBBS:

Bill Sanders moved, Max Engle support that the Condition Use Permit #29 - Gibbs be tabled until the May Meeting.

Motion Carried 6-0.

REZONING #67 - TEXT AMENDMENT - FEES, NOTIFICATION, PUBLICATION, DEFINITION, AND PARKING:

Mike Farrell, Director of Planning & Research went through the proposed changes regarding:

- Section 101 - Definitions
- Section 105 - Administrative Standards & Procedures
- Section 500 - Off-street parking requirements
- Section 702 - Fees

Bill Sanders moved, Scott Emerson second that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the following amendments to the Chocolay Township Zoning Ordinance be approved.

AMENDMENT

Section 101 of the Zoning Ordinance of the Charter Township of Chocolay shall be, and the same hereby is amended by the addition thereto of the following language:

PRINCIPAL STRUCTURE, The main structure or building to which the premises is devoted.

REPEALER AND AMENDMENT

That portion of Section 105 of the Charter Township of Chocolay Zoning Ordinance entitled "ADMINISTRATIVE STANDARDS AND PROCEDURES" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be, and the same hereby is amended by the addition thereto of the language, which is underlined:

SECTION 105: ADMINISTRATIVE STANDARDS AND PROCEDURES

- (A) Whenever, in the course of administration and enforcement of this Ordinance, it is necessary or desirable to make any administrative decision, then, unless other standards are provided in this Ordinance, the decision shall be made so that the result will not be contrary to the spirit and purpose of this Ordinance or injurious to the surrounding neighborhood.
- (B) Where a public hearing is required in the administration of this Ordinance, the Zoning Board of Appeals and the Planning

Commission shall:

- (1) Base their decision upon facts presented at a public hearing preceded by notice in a newspaper of general circulation in the Township of at least 5, but not more than 15 days. A rezoning or amendment shall be preceded by two notices, the first not less than 20 but not more than 30 days prior to the hearing and the second not more than eight days prior to the meeting.
 - (2) Notify, by personal service or by mail, the applicant, all owners, residents, or managers of property adjacent to or within 300 feet of the property to be directly affected by a zoning decision.
 - (3) Set forth in all notifications, the time, place, and nature of the meeting, the geographic area included in the zoning proposal, and where and when written comments will be received.
 - (4) Permit interested parties at the hearing to present and rebut information either supporting or opposing the zoning action under consideration.
 - (5) Prepare a comprehensive summary record of the hearing, including an exact record of motions, votes, and other official actions.
 - (6) Set forth in writing and in detail, any denial, approval, conditional approval, or order and the facts supporting such decision.
 - (7) File the record, written testimony or documents submitted with regard to the hearing, and the decision with the Township Clerk to be open to public inspection.
 - (8) Comply with all other requirements under law.
- (C) Where a public meeting of the Zoning Board of Appeals is required in the administration of this Ordinance, the Zoning Board of Appeals shall:
- (1) Place a notice of the meeting in a newspaper of general circulation in the Township of at least 5 days prior to the meeting.
 - (2) Notify, at least 5 days prior to the meeting, by personal service or by mail, the applicant, all owners, residents, or managers of property adjacent to or within 300 feet of the property to be directly affected by a zoning decision.
 - (3) Set forth in all notifications, the time, place, and nature of the meeting, the geographic area included in the zoning proposal, and where and when written comments will be received.
 - (4) Permit interested parties at the hearing to present and rebut information either supporting or opposing the zoning action under consideration.
 - (5) Prepare a comprehensive summary record of the hearing, including an exact record of motions, votes, and other official actions.
 - (6) Set forth in writing and in detail, any denial, approval, conditional approval, or order and the facts supporting such decision.
 - (7) File the record, written testimony or documents submitted with regard to the hearing, and the decision with the Township Clerk to be open to public inspection.

(8) Comply with all other requirements under law.

(D) All administrative guides or rules developed to assist the Zoning Board of Appeals or the Planning Commission in the administration of this Ordinance shall be filed with the Township Clerk and be open to public inspection.

REPEALER AND AMENDMENT

That portion of Section 500 of the Charter Township of Chocolay Zoning Ordinance entitled "OFF-STREET PARKING REQUIREMENTS" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be, and the same hereby is amended by the repeal of the following language contained within brackets [], and amended by the addition thereto of the language, which is underlined:

Fast food take-out establishments and drive in restaurants	[.10 times floor area in square feet] <u>1.5</u> <u>per 100 sq. ft. of</u> <u>floor area</u>
---	---

REPEALER

Section 702 and all sub paragraphs thereof of the Charter Township of Chocolay Zoning Ordinance as adopted May 9, 1977 and any and all Amendments thereto of said Section 702 of the Charter Township of Chocolay Zoning Ordinance adopted SUBSEQUENT to May 9, 1977, shall be, and the same hereby are, repealed. This repeal shall be effective as of the date of the following Amendment.

AMENDMENT

Section 702 of the Zoning Ordinance of the Charter Township of Chocolay shall be, and the same hereby is, amended to read as follows:

SECTION 702 FEES.

Neither the Township Planning Commission nor the Zoning Board of Appeals shall consider any of the following until there is first paid a fee.

- (A) Planned Unit Development;
- (B) Conditional Use Permit;
- (C) Variance Application;
- (D) Zoning Amendment;
- (E) Non-conforming Use Permit;
- (F) Home Occupation;
- (G) Zoning Appeal;

The Township Board, by resolution, shall set the fees for the above matters. The Township Board, by resolution, may change these fees, from time to time, as they determine appropriate.

Motion Carried 6-0.

DISCUSS SEASONAL ROADS, ZONING COMPLIANCE, AND PRIVATE ROADS:

Mike Farrell, Director of Planning & Research read a memo written by Larry Gould, Supervisor of Department of Public Works regarding seasonal roads.

1. Whereas the Marquette County Road Commission has established a

system of seasonal county roads and whereas several county roads in the Township have been included in the seasonal system and whereas the Township does not wish to incur the expenses of the improving or reconstructing these roads to change the road status, therefore the Board adopt a policy of not cost sharing in any improvements to a seasonal county road and that if that a season county road is reclassified by the Marquette County Road Commission to year round status that it must be updated by others to the current road standards of a new county road before the Township will consider it for future improvements.

2. I move that the issue of seasonal county roads and issuance of zoning compliance permits for residential structures on seasonal county road be referred to the Township Planning Commission to prepare appropriate wording for incorporation into the Zoning Ordinance and that the Planning Commission also review the current standards for private roads to determine if changes in the Ordinance are warranted.

It was stated that seasonal roads are not plowed by the County Road Commission.

Mike Farrell said the Township Board would like the Township Planning Commission to back up the County Road Commission and to put language into the Zoning Ordinance regarding this.

Mike Farrell suggested that he and Mark Maki, Zoning Administrator sit down and come up with language that would pertain to this and bring this back to the Planning Commission at their May meeting. This language would consist of slopes, curves, grades, paving, gravel etc.

This would be for roads in the future, not the ones that are in existence.

Bill Sanders moved Scott Emerson second to support the language regarding the seasonal roads to come back to the Planning Commission at their May meeting.

Motion Carried 6-0.

Bill Sanders moved, Max Engle second to table items under Old Business:

A. Dwelling Definitions/General Regulations and

B. Recreation Planning.

Motion defeated.

Scott Emerson moved, Estelle DeVooght second to table item A - Dwelling Definitions/General Regulations.

Motion Carried 6-0.

RECREATION PLANNING:

Mike Farrell gave a report on the various types of trails.

Don Elzinga is the local person to get in contact with dealing with the North Country Trail. It was suggested that possibly Don Elzinga attend a Planning Commission Meeting in the near future to give a presentation and discuss this trail through Chocolay Township.

Scott Emerson suggested that the survey be used for the kinds of trails.

Mike Farrell also suggested that possibly a recreation ad hoc committee be set up regarding recreation.

Mike LaPointe asked about the joint meeting between the Planning Commission and the Township Board,

PLANNING DIRECTOR'S REPORT:

Mike Farrell, Director of Planning & Research said the Township Board at their April 19th meeting didn't want to have a Special Meeting, but would be willing to have a joint meeting on May 3, 1993.

It was a consensus of the Planning Commission to have a joint meeting of the Township Board and the Planning Commission and to be the first item on the agenda.

Some of topics for the joint meeting could be as follows:

1. Recreation
2. Private Roads
3. Principal Structures
4. Language - Condominiums
5. Aesthetics - Landscaping
6. General Planning
7. Ad Hoc Committee
8. Lighting

Bill Sanders, Chairperson asked when the road ranking would be taking place?

Mike Farrell, Director of Planning said as soon as the frost is out of the ground.

PUBLIC COMMENT:

Max Engle suggested that something needs to be done to make the 9 1/2 acres of Cathy & John DeVooght's property useable.

It was felt it may be the Township's responsibility to do something to make this a buildable lot.

It was felt by some of the Planning Commission members no matter what the history of the property, something needs to be done.

The Planning Commission members commended Bill Sanders, Chairperson for a job well done in chairing the meeting.

Mark Maki, Director of Assessing & Zoning had a question regarding Rezoning #67. He also felt that high standards are necessary in the approval of private roads and commented about clearcutting of forest lands with the possible need to control this activity.

INFORMATIONAL ITEMS AND CORRESPONDENCE:

There were no informational items or correspondence.

ADJOURNMENT:

There being no further business, Bill Sanders moved, Max Engle second to adjourn. The Planning Commission Meeting was adjourned at 11:20 p.m.

Motion Carried 6-0.

CHOCOLAY TOWNSHIP

PLANNING COMMISSION

TUESDAY - MAY 25, 1993

PRESENT: Estelle DeVooght, Max Engle, Bill Sanders, Mike LaPointe, Dave Wurster, Scott Emerson, Don Wickstrom

STAFF PRESENT: Mike Farrell, Director of Planning & Research

PUBLIC PRESENT: Wm Dorrow, John Clark, K. Schmidt, J.W. Hlinak, Gary Haput, Mike Bungo, Norma Bugno, Alan Pierce, George Schmidt, Mark Leist, Pat Leist

PUBLIC HEARING:

Bill Sanders, Chairperson called the Public Hearing to order at 7:30 p.m.

REZONING #68 - R-2 TO R-4:

Mike Farrell, Director of Planning & Research gave a brief explanation what the applicant was planning on rezoning parcel 1-6 from R-2 to R-4.

George Schmidt - 232 Silver Creek Road (Applicant) said he would like the property changed from R-2 to R-4 to complete the construction of the Mobile Home Park.

John Hlinak - 234 Silver Creek Road (former owner of Bide A Wile Mobile Home Park) - No objections on lot 4 which he owns. Lots 1-4 already zoned R-4 is what was started 10-12 years ago and Mr. Schmidt is now at the point for construction in that area. There were mobiles on those lots in the past.

Patricia Leist - Willow Road - about a year ago it was brought up that Willow Road was in bad condition and it is now being maintained on a volunteer basis by members of the road. Father Gauthier and members of the church did asphalt part of Willow road up to the creek.

Her main concern was that the trailer park would be accessing off Willow Road. Her understanding at the last meeting when this was discussed this was not suppose to access off Willow Road and it has. There are permanent mailboxes and a light pole there.

Mark Leist - 730 Willow Road - His objection to this was if this is passed, the traffic on Willow Road even go higher and the bridge on the road cannot take this traffic. He felt if it is passed then another access should be off the road for fire protection, ambulance service, etc. and people have access coming in and out of there and we do not have that now.

John Clark - 750 Willow Road - Concern on the extra traffic on Willow Road.

William Dorrow - 740 Willow Road - Why change from R2 to R-4 Zoning?

Al Pierce - County Road 456 - Little Lake - When this was discussed at the Planning Commission at a past meeting - he was engaged to represent Mr. Schmidt and present his case for rezoning to the Planning Commission. Since that time there has been several changes in improvements in the mobile home park. Some changes involve the land that Mr. Schmidt has regarding frontage of Willow Road, as well as an agreement that he has obtained additional parcels. Another major change since the last time this was

presented was that Mr. Schmidt does have some legal access to Silver Creek Road via easement.

The road way itself has been improved from the condition that it was in the last time.

Mr. Schmidt has demonstrated a desire to meet the requirements of the Township sewer utilities. The expansion, if approved will continue to add to the Township's Sewer Utility fund.

The Master Plan that the Township has adopted identifies the need for the diversity of housing types within Chocolay Township. There are relatively few areas within the Township where mobile homes can be placed. Without expansion of the mobile home park this would be certainly one area where this diversity could be encouraged.

One of his observations as these lots are developed and are made for occupancy, they would be immediately filled, as there is definite need throughout the County for this type of development.

One of the major issues that came up the last time this was discussed involved Willow Road. Willow Road has been a problem for the Township for many years and the problem will probably continue for sometime in the future.

It is his observation that Mr. Schmidt is developing the Mobile Home Park would be maintaining the road for the benefit of his renters and whatever damage occurred he would have to be in a position for maintaining and keeping up because simply his renters need to drive out on a relatively smooth road.

In closing he wanted to add his voice that hopefully the Planning Commission would consider recommending approval to the Township Board for this revision of the Zoning District and that it would bring its districts to include performance for existing patterns of land ownership and to allow for the development of the improved park land.

Patricia Leist - inquired if there are plans to asphalt from the drive out to the other drive to the other asphalt section to Willow Road.

Resident also talked to Father Gauthier because the church put in the asphalt portion of Willow Road and he had a concern because of the heavy trucks and trailers going over that asphalt and there were already wear and tear. She felt there should be some kind of joint action for the maintenance and repaving, etc.

William Dorrow concern about 16' proper road right of way.

Bill Sanders, Chairperson asked if there any further public comments regarding Rezoning #68 - R-2 to R-4.

There being no further public hearings, Bill Sanders, Chairperson closed the public hearing session of the meeting.

REGULAR MEETING CALLED TO ORDER:

ROLL CALL:

Roll call was taken with Estelle DeVooght, Max Engle, Bill Sanders, Mike LaPointe, Dave Wurster, Scott Emerson and Don Wickstrom present.

APPROVAL OF THE MINUTES OF APRIL 27, 1993:

Mike LaPointe correction on page 9 - the motion read Bill Sanders moved, Mike LaPointe second that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the requested private road application and plans be approved, as submitted, and amended, with the following conditions.

Correction to read that Mike LaPointe moved, Bill Sanders second the motion.

Bill Sanders - page 3 - 3rd paragraph last sentence it should say but the area would then percolate towards the area.

Bill Sanders - page 1 - 3rd sentence from the bottom - Mike Farrell introduction. This would be the main structure.

Bill Sanders, Chairperson asked if there any other corrections regarding the minutes of the April 27, 1993?

There were no further corrections.

Max Engle moved, Mike LaPointe second that the minutes of April 27, 1993 be approved as corrected.

Motion Carried 7-0.

APPROVAL OF MINUTES FROM MAY 3, 1993 SPECIAL MEETING THE TOWNSHIP BOARD:

Mike LaPointe stated that the minutes were awfully abbreviated.

Estelle DeVooght didn't take any minutes at all at that meeting and wasn't requested to do so.

Item #1 - Single Structure per lot read from the minutes.

Mike Farrell, Director of Planning & Research stated that these were minutes that were excerpts of the Township Board minutes. Identical to the Board minutes and there was no Secretary at the meeting.

Bill Sanders, Chairperson asked if there were any further amendments to the May 3, 1993 Special Meeting?

Scott Emerson - Recreation - on the 4th line (add hiking trails development.)

Scott Emerson - #7 Lighting Regulations - he suggested that we utilize regulations existing in certain cities of the West such as Tucson, Denver utilized for glare of the commercial zones that was a suggestion. He felt this was something that should be pursued.

Bill Sanders, Chairperson asked if there any other questions and/or comments of the minutes of May 3, 1993.

Bill Sanders moved, Don Wickstrom second that the Special Planning Commission Meeting Minutes of May 3, 1993 be approved as amended.

Motion Carried 7-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders, Chairperson asked if there any other additions to be added to the agenda?

Mike Farrell - request that under New Business Item A under New Business be moved to Item A under Old Business.

Bill Sanders, Chairperson asked if anyone was opposed to that request? Nobody was opposed.

Bill Sanders asked if there were any other changes for the agenda? There were none.

Max Engle moved, Scott Emerson second to approve the Agenda as corrected.

Motion Carried 7-0.

PUBLIC COMMENT:

No Public Comment - Bill Sanders, Chairperson closed the first Public Comment Section of the meeting.

NEW BUSINESS:**CONSIDERATION OF REZONING #68 - R-2 TO R-4:**

Bill Sanders, Chairperson said now is the time if you had questions regarding Rezoning #68 - R-2 to R-4.

Bill Sanders, Chairperson had a question for Al Pierce that we said there is now legal access to Silver Creek Road and asked if it showed up on the map. It did not.

Al Pierce stated that with one of the property acquisitions that Mr. Schmidt had obtained from Mr. LeBeouf he had received an access easement directly to Silver Creek Road. Those rights were also extended by the document to the Schmidts.

Mr. LeBeouf had an easement - he also transferred those rights along with ownership of the land to Mr. Schmidt that would access to Silver Creek Road so there is a legal access from the stream up to Silver Creek Road.

Dave Wurster - question on the viability of the bridge. How is it constructed and how sound is it, etc.

There are two or three culverts.

Resident said if a new bridge be put in, it could be a big difference. When the old one was washed out, we did have access to the South side which we don't have anymore.

Mike Farrell - a couple of things that may be added that in reviewing the Comprehensive Plan - the statements that were made that low income and low cost housing in general are not available in the Township that still holds true at this time. The most recent census of 1990 shows that we have 2,340 structured homes in the Township.

2,001 - Single Family
120 - Multi-Family
219 - Mobile Homes

That brings mobile homes up to 9.3 percent. Down from 1980 percent of mobile homes which was 10 percent.

Mike Farrell has been approached by numerous people where can mobile homes be put in the Township? At this point we are limited to the two mobile home parks and Brookfield Subdivision.

Mobile home parks in the Township make up about four hundredths of the total land owners of the Township.

It was stated the people are renting the lots, but own their own trailers.

Scott Emerson asked what kind of residential development we should encourage? What do people want?

Estelle DeVooght - Single Family.

Scott Emerson - What is the projected growth for the next 10 years? What percentage of our projected growth and need for housing is this going to represent?

We should develop parcels as Single Family homes like the majority of the Township wants to do.

Bill Sanders, Chairperson - parcel are proposed to be rezoned.

Three of the six lots have mobile homes on them now. One of the parcels in between also has a mobile home, two parcels are vacant.

Max Engle - the additional lots we are looking at on the parcel that Mr. Schmidt is talking about rezoning are less than 1/2 of what he was talking about putting in the first place.

It looks like approximately 14 additional lots.

After much discussion, Bill Sanders, Chairperson said he had no problems with that being rezoned to R-4. The only problem he had was the access to Willow Road.

Mike Farrell, stated Willow Road is a private road. There was a Willow Road issue and it was suggested in the past that the residents on Willow Road try to establish an association so that road could be maintained. It was attempted a number of times by Willow Road residents and Mr. Clark contested to that.

Mike Farrell said he went out to look at the road where the Church and Mr. LeBeouf has taken great stride in maintaining the road up to his apartments structure.

The road has been improved up to County Standards with gravel and going to ditch the sides for drainage.

Question is Willow Road an approved private road?

Mike Farrell stated that was in existence prior to our Zoning Ordinance so that is grandfathered in as a private road.

Max Engle - His concern before was the road. Mr. Schmidt has shown good faith on what he has done on the road and far as upgrading the road, it is in considerably better shape than it used to be.

Dave Wurster asked why was it changed to R-2 in the first place?

Mike Farrell stated the previous owner requested the change.

John Hlinak (previous owner) - the reason was if the mobile home was pulled off lot 1 - the blank lot 4 or 5 he was unable to replace it under R-4 because the lots did not meet mobile home specs so he requested it be changed back to R-2 so that if a customer came in he could obtain them as tenants. At this point, Mr. Schmidt is now doing what he had planned to and started to develop South of Silver Creek Road. At this point it does meet specs of mobile home parks.

Bill Sanders asked if anyone from the audience had any other questions or comments.

William Dorrow stated the road can be given a one shot in the arm to make it look good. Drive it in the rough season when he tried to maintain and upgrade the road and it was in terrible shape.

His concern was that the Township is saying that they won't drive a fire truck across it.

John Hlinak said they did put the fire truck on the bridge that he built when his house burnt a year and half ago.

When Mr. LeBeouf owned that property he had to change it because he still under easement that is South of the creek. If it goes out again the land owner is going to have to replace it.

Bill Sanders - the Planning Commission doesn't want this to turn into a Willow Road discussion.

Max Engle said if there is going to be some added traffic it would seem to get the culvert replaced if he has the mobile park there and a number of trailers that have to be serviced by the road. It would seem that there would be a better chance to have the culvert

replaced if it does go out than if it wasn't there and if he didn't have access to Willow Road. Granted there may be some added traffic that would maybe cause a slight deterioration factor, but then you would have a better change of getting the culvert replaced with Mr. Schmidt there than without him there.

Bill Sanders said since this was last brought up in front of the Planning Commission we know that the applicants have upgraded a section of the road, the church has upgraded their section adjacent to Silver Creek Road and even some of the neighbors have. Has anyone else made any attempt to upgrade?

The road is upgraded and in better shape than it was a couple of years ago.

There was a comment regarding added traffic going out of Silver Creek with regards to the apartments, two churches, the school and new development around the area. Something the Township needs to do is that we need a stop light before someone gets killed.

Bill Sanders felt that in addition to the reasons given in the staff report the applicant has shown good faith to attempt to upgrade Willow Road from his development to North.

Bill Sanders moved, Max Engle second that the Chocoyay Township Planning Commission recommend to the Chocoyay Township Board that the following parcels be rezoned from R-2 to R-4 as requested in Rezoning #68; Section 7 T47N, R24W

Parcel #1 - The N. 100' of the S. 426' of the W. 300' of the NE 1/4 of the NW 1/4

Parcel #2 - That part of the S. 400' of the NW 1/4 of the NW 1/4 adjoining E. of Willow Road.

Parcel #3 - N 1/4 of the NW 1/4 of the SE 1/4 of the NW 1/4.

Parcel #4 - N. 100' of the S. 226' of the W. 150' of the SW 1/4 of the NW 1/4 of the NW 1/4.

Parcel #5 - S. 100' of the W. 150' of the SW 1/4 of the NE 1/4 of the NW 1/4.

Parcel #6 - E. 150' of the W. 300' of the S. 100' of the NE 1/4 of the NW 1/4.

for the following reasons:

1. The rezoning request meets the Township Comprehensive Plan guidelines.
2. It will provide housing opportunity for present and future residents.
3. It should meet the needs of individuals searching for lower income housing.

Discussion:

Scott Emerson was concerned about a buffer in regards to R-4 Zoning adjacent to other property.

Max Engle - doesn't think the Planning Commission can stipulate that.

Mike Farrell, referred to the Plan that was submitted.

Scott Emerson asked about adjacent to Silver Creek?

Bill Sanders asked are there any State Guidelines for mobile home park buffers?

Mike Farrell said Mr. Schmidt plans were approved prior to the new regulations for trailer parks. It does comply with older regulations.

Bill Sanders - the request is to approve the rezoning, not the plans.

There were no other discussion.

Motion Carried 6-1.

CONSIDER USE #29 - GIBBS:

Mike Farrell explained the cart storage facilities. Since opening the golf course this year Mr. Gibbs perceived the need for a building for carts owned by the golf course.

Mike recommended approval be granted for the developing of the cart structure.

Joe Gibbs said the building will be built part way in the hillside where part of it is exposed and part of it will be concrete block.

The object is to keep the carts in the cart structure when not being used so that the dew and frost, etc. won't get on them. This is approximately for 12 rental carts.

Scott Emerson moved, Max Engle second that the Chocoday Township Planning Commission approve the addition to the existing conditional use, as portrayed on the plans submitted with the following conditions:

1. That Zoning Compliance Permit be obtained from the Chocoday Township Zoning Administrator prior to start of construction.
2. That the necessary permits as required by Federal, State, and Local Agencies be acquired prior to project commencement.

Motion Carried 7-0.

Mike Farrell noted that the Chocoday Downs Plat was approved by the Chocoday Township Board and was not at the County.

DISCUSS AND REVIEW TEXT CHANGES FOR ZONING ORDINANCE - PRIVATE ROADS, MOBILE HOMES, SINGLE PRINCIPAL STRUCTURES, DENSITY REQUIREMENTS, SETBACKS, ACCESSORY STRUCTURES:

MOBILE HOMES:

Mike Farrell went over the language for developing and establishing living space and general standards in the township.

This would allow for most types of homes in residential areas, but would eliminate single wide mobile homes.

He is uncomfortable with language that would require the Zoning Administrator to use his judgement on the compatibility with the residents of the areas.

The Commission discussed camps in Rural Districts.

Mike Farrell said the township has two individuals that have gone and built. The Zoning Administrator has come upon them and notified them that they are not in compliance and are illegal.

More discussion on camps continued:

Scott Emerson said we need to insure some sort of quality.

Bill Sanders said it was stated that the Planning Commission couldn't do that. If someone doesn't care what their yard looks

like, you can have as many laws as you want and they still wouldn't care.

Scott Emerson said that is so, but you could write language that would not be overly discriminating but at least require some minimum standards.

Mike Farrell stated it gets into enforcement. At this point we do not enforce building codes, that is handled by the County.

Bill Sanders stated if somebody builds a camp they also have to obtain a building permit.

Scott Emerson asked do you need a building permit for a mobile home?

Bill Sanders said there is a permit. It is not a general building permit. It may be issued by the Department of Transportation or Department of Commerce.

Mike Farrell will try to put together some information dealing with the options that were discussed.

Scott Emerson suggested that Mike contact Planning Societies out of the State concerning hunting camps.

It was asked if we were a member of CUPPAD. The Township hasn't been a member of CUPPAD for a couple of years.

PRIVATE ROADS:

Mike Farrell went over the language on private roads.

Mike Farrell went over the table presented in the Planning Commission's packet regarding R-1, R-2, and R-3 districts are residential areas. Districts that are currently being built up - most of the lots are close to what our minimum lot size are. He is suggesting that those areas because of residential development occurring at least a pavement of 20 feet. That is an asphalt surface - 2" of asphalt with 5" of gravel and 2 foot shoulders.

Mike explained the County Standards.

R-4 Districts - are mobile home districts. Those requirements and necessary codes have to be met in the Mobile Home Code. We do not have to deal with the issues on private roads in mobile home parks.

Mike also suggested that road be wider in commercial districts, 30 feet of 2" Bituminous base, 5" gravel base, 4" gravel shoulder. The reason he is suggesting that it be wider is because if a private road has been developed for commercial uses, you have deliveries that have to be made, large trucks and customers use of the road. This is for safety standards, etc. it is necessary for wider roads.

One of the other items that were brought up and was circulated to the staff was maybe C-1, C-2, C-3 districts we may want to require that those roads be brought up to County Standards to all season roads. Possibly in C-3 district because that is more an industrial type of business and may have more heavier types vehicles going on. Will have to do more research and will find out exactly what all season standards are.

Max Engle asked what the difference between a private road and driveway.

Mike Farrell said a private road is for public use and driveway if for private land owners use.

Bill Sanders stated if you were going to develop a parcel that didn't have access to a road and you have an easement across the neighbor's property to get to that house that would be a private

One of the other items that were brought up and was circulated to the staff was maybe C-1, C-2, C-3 districts we may want to require that those roads be brought up to County Standards to all season roads. Possibly in C-3 district because that is more an industrial type of business and may have more heavier types vehicles going on. Will have to do more research and will find out exactly what all season standards are.

Max Engle asked what the difference between a private road and driveway.

Mike Farrell said a private road is for public use and driveway if for private land owners use.

Bill Sanders stated if you were going to develop a parcel that didn't have access to a road and you have an easement across the neighbor's property to get to that house that would be a private road across that easement.

Mike Farrell said nobody can develop property in the Township unless it has access to public or private road.

Max Engle - concern him - not necessarily the asphalt and the gravel in the residential area and understands there was dust problems on Karen Road and that was a public road. C-2 and C-3 concern - it basically a road being used for business of their own deliveries why should we require a 30' lift with a base. A lot of businesses aren't for a public use. It may be used for just their vehicles that may be just dropping off things and their workers and employees. A 30' paved road is a little excessive.

Mike Farrell - just putting out information to the Planning Commission to get their ideas and input.

After discussion it was felt that it needs some quality standards.

SETBACK/ACCESSORY BUILDING:

Mike Farrell - present Zoning Ordinance states that an attached accessory doesn't exceed 14' in height and not exceed 720 square feet be located within 6' of side lot lines and 20 feet of rear lot lines.

Mike gave an example of one individual that was less than 720 square feet came in and wanted to put an addition on that structure that would increase it up to 1,000 square feet and had to deny him. He then requested another Zoning Compliance Permit to put another structure exactly next door to it which had to be granted.

Mike will do more research on this.

PUD:

Mike Farrell recommended to the Planning Commission to change PUD minimum acreage.

Discussion on 2 acres, 5 acres or 10 acres for both residential and commercial.

Scott Emerson would support 5 acres for both commercial and residential PUD. More flexibility within a commercial zone will be better looking.

Max Engle - example of Blondeau's - it is not a PUD but on a 2 acre parcel and is a nice looking project.

Bill Sanders agrees residential should be more.

Mike Farrell explained what some advantages of a PUD are.

Bill Sanders said we need to look into the commercial size for PUD in conjunction with Permitted Principal Use.

Scott Emerson suggested Mike get some ordinances from other townships to see how we can improve the greenery, the expansion, tree ordinances protection for our natural beauty.

He suggested a time frame be set up for each meeting for uses that were brought to the Board.

Bill Sanders said the Planning Commission should plug away at these and do the best they can.

Max Engle and Estelle DeVooght felt Side Condos need to be top priority at the moment.

Mike Farrell stated he and Mark Maki are going over a site condo ordinance compared to the Zoning Ordinance and subdivision control ordinance. Mike has discussed this with the township attorney.

Language may be available for a public hearing in June.

PLANNING DIRECTOR'S REPORT:

Mike Farrell informed the Commission about the North Country Trail.

Scott Emerson inquired about private funds availability for trail development.

Mike Farrell stated private funding doesn't realistic foresee meeting the needs development of trails, etc. Trails means acquisition of land and land doesn't come cheap.

The Commission discussed the creation of an Ad Hoc Recreation Committee.

Max Engle felt 5-7 members was not enough members and you don't want an unruly committee, but you are limiting the participation of the public. Maybe a number should be more in the neighborhood of 25 members.

The Board will decide on the number on the Committee and responsibilities of the committee.

Mike showed a proposed amendment to the O'Dovero P.U.D. that will be considered at the next Board meeting. The Planning Commission felt that there would be no problem in granting the requested amendment.

PUBLIC COMMENT:

Bill Sanders asked if there was any way to deal with numerous documents given to the Planning Commission by the public at meetings?

Mike Farrell said he would look into this problem.

Scott Emerson want to work on some of the top priority items addressed by the Board and the Planning Commission.

No other public comment, the meeting was adjourned at 10:45 p.m.

Estelle DeVooght

Estelle DeVooght
Planning Commission Secretary

CHOCOLAY TOWNSHIP

PLANNING COMMISSION

TUESDAY - JUNE 22, 1993

PRESENT: Estelle DeVooght, Max Engle, Bill Sanders, Mike LaPointe,
Dave Wurster, Don Wickstrom

ABSENT: Scott Emerson

STAFF PRESENT: Mike Farrell, Director of Planning & Research
Jeanette Collick, Recording Secretary
Mark Maki, Director of Assessing & Zoning

PUBLIC PRESENT: Ray Hosking, Dan DiLoreto, John Sutton, Lee
Ruehle, John DeVooght, Cathy DeVooght, Clyde D. Vadnais,
Joan Olson, Terry Huffman

PUBLIC HEARING:

Bill Sanders, Chairperson call the Public Hearing to order at 7:30
p.m.

REZONING #69 - RP TO RR-2:

Mike Farrell, Director of Planning & Research gave a brief
explanation what this pertained to.

Cathy & John DeVooght have requested the Planning Commission
consider rezoning property described as:

Section 28 T47N, R24 W

That part of the Southwest Quarter of the Northwest
Quarter lying west of Little Lake Road

They are requesting that this be rezoned from RP to RR-2.

Estelle DeVooght, Planning Commission Secretary read a letter into
the record from Joe Wietek - dated June 19, 1993 and Cathy DeVooght
- dated June 21, 1993 which were not received in time for the
delivery of the Planning Commission's packet.

Cathy DeVooght - 6341 U S 41 South (Applicant) read a letter from
herself dated June 16, 1993, which was included in the Planning
Commission's agenda packet regarding Lucille Scotti's letter of
June 14, 1993.

Cathy DeVooght also referred to the Intent of RR-2 zoning on page
18 of the Chocolay Township Ordinance dated May 1977.

Cathy also stated that this land was unsuited for Forest Production
and farm land.

Clyde Vadnais - 1912 West Ridge - interested in buying this
property and building a home on the property. It is a nice piece
of property.

Bill Sanders asked if there were any further public comments
regarding the public hearing on Rezoning #69 - RP to RR-2.

There being no further public comments Bill Sanders closed the
public hearing session regarding Rezoning #69 - RP to RR2.

REZONING #71 - TEXT AMENDMENT:

Mike Farrell, Director of Planning & Research stated this was
concerning proposed language regarding Section 101 definitions for
single family, two family and multi family dwellings. Section 401

General Regulations and Section 506 - Uses Permitted, Minimum Size and Fees (B) Minimum Planned Unit Development Size.

It was also stated that a PUD is meant to be flexible.

Mike Farrell is suggesting - 5 acres for commercial PUD and 10 acres for residential PUD.

Mark Maki is in support of a change for residential PUD. Two acres is not a large enough parcel for Residential PUD. Making a district larger allows for site planning.

Bill Sanders asked if there were any public comment on Rezoning #71 regarding Text Amendment?

There being no further public comments Bill Sanders closed the public hearing session regarding Rezoning #71.

PRIVATE ROAD APPROVAL - HOSKING:

Section 18, T 47 N, R 24 W

Beginning at the Northwest Corner of Lot 46 of Woodvale No.3; Thence North 0°23'54" East, 142.86 feet along the West line of Lot 45, Woodvale No.3; Thence North 19°41'03" East, 68.15 feet along the West line of Outlot I and including Outlot I of Woodvale No.3; Thence North 5°10'33" West, 150.00 feet along the West Line of Lot 44 of Woodvale No.3; Thence North 78°09'49" West, 150 feet along the South line of Lot 42 of Woodvale No.3; Thence South 82°39'34" West, 435.31 feet, Thence South 6°45'32" East 300.00 feet to the Northwest corner of Lot B; Thence South 87°39'52" East 532.18 feet to the northwest corner of Lot 46 of Woodvale No.3, to the point of beginning.

Cathy DeVooght asked what the property was rezoned as.

It was stated the property is rezoned R-1.

Bill Sanders asked if there were any more public comment regarding Private Road Request - Hosking.

There being no further public comments Bill Sanders closed the public comment session regarding the private Road Request - Hosking.

There being no further Public Hearings, Bill Sanders closed the Public Hearing session of the meeting.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 8:00 p.m.

ROLL CALL:

Roll call was taken with Estelle DeVooght, Max Engle, Bill Sanders, Mike LaPointe, Dave Wurster and Don Wickstrom present.

Scott Emerson was absent.

APPROVAL OF MINUTES OF MAY 25, 1993:

Bill Sanders asked if there were any additions or corrections to the minutes of May 25, 1993. There were none.

Estelle DeVooght moved, Don Wickstrom supported that the minutes of the May 25, 1993 Planning Commission be approved as presented.

Motion Carried 6-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders, Chairperson asked if there were any additions or changes for the agenda. There were none.

Bill Sanders moved, Max Engle supported to approve the agenda items as presented.

Motion Carried 6-0.

PUBLIC COMMENT:

Cathy DeVooght reserved comment for New Business - A - Consider Rezoning Request #69 - RP to RR-2.

Dan DiLoreto - 301 West Main - requested that under Old Business - Consider Lot Split - DiLoreto to be tabled. He wants time to review written responses from Mike Farrell and Mark Maki. Mr. DiLoreto just found out at 4:40 p.m. today that this item was being placed on the Planning Commission Agenda tonight.

Mark Maki - comment on One Structure Per Lot. This item has been discussed since January 1992. No disposition had been made.

There being no further Public comment, Bill Sanders closed the first Public Comment session of the Planning Commission Meeting.

OLD BUSINESS:

CONSIDER LOT SPLIT - DILORETO:

Bill Sanders stated that Mr. DiLoreto has requested that the Planning Commission table this until he had the time to respond to written comments from Mike Farrell and Mark Maki.

Mike LaPointe moved, Estelle DeVooght supported that item under Old Business - Consider Lot Split - DiLoreto be tabled until the July Meeting.

Motion Carried 6-0.

NEW BUSINESS:

Consider Rezoning #69 RP to RR-2:

Don Wickstrom asked if this circuit court decision - is this the same issue.

Mike Farrell stated this was the same parcel.

After discussion on this it was stated that the Planning Commission is not dealing with the back history on this land.

Cathy DeVooght said the pre trial is set for August 23, 1993 for the current law suit.

Mike Farrell gave the history of the adoption of the Zoning Ordinance.

Clyde Vadnais - why doesn't the Planning Commission want to rezone the property?

Cathy DeVooght stated they have requested this to be rezoned three different times.

Max Engle asked if documentation of notification is on file when properties were changed from RP to RR-2.

It was stated property owner Notification isn't given when the whole zoning ordinance is being considered for final adoption.

Mark Maki stated the Township adopted an Ordinance in August 1976. At that time the property was zoned RR-2 as well as Little Lake Road to DeVooght's house and Karen Road beyond Engle's house. That

Ordinance was then voted out and County Ordinance - January 1977 was used. County used the same maps as the Township had because CUPPAD had developed them and when the County adopted the ordinance, they adopted the same maps as Chocolay. As the Township started working on the ordinance they got rid of the open space land because that was one of the objectives they expanded some of the commercial and some other change. On March 30, 1977 they held a public hearing on the proposed new ordinance. At that time the map showed the areas on Little Lake Road and Karen Road as RR-2. On March 31, 1977 the Planning Commission held another meeting and at that meeting the 840 acres were changed to RP.

Bill Sanders inquired if in 1976 this parcel along with a considerable amount of land was RR-2?

Mark Maki said this was correct.

Bill Sanders inquired when that Ordinance was voted out and when the 1977 ordinance was adopted, was this parcel zoned RP? He also inquired if this parcel was always zoned RP in the new Ordinance.

Mark said yes this was correct.

John DeVooght - March 31, 1977 he received the news paper in New Orleans and it showed what the property was going to be.

Bill Sanders thanked Mark Maki for information pertaining to the Zoning Ordinance.

Max Engle - as he stated before - he didn't know if this was the place to change it, at this point looking at the way the RP District is now changing 28.5 acres in that area basically puts it in the middle of RP except for the one side of the 28.5 acres.

Cathy DeVooght stated it didn't. It abuts RR-2 and will not be a spot zoning.

Max Engle stated it abuts RR-2 on one side.

Cathy DeVooght stated this is correct, but should be changed back to the way it was. She paid \$100 for this rezoning request, she didn't pay to get any other problems fixed. She paid for her problem to get fixed.

Max Engle said he understands what she is saying, but he also sits on the Planning Commission about rezoning and he is trying to make a statement and he also feels that under the circumstances that a variance probably should be granted, but he doesn't sit on that board.

Cathy DeVooght - stated she has been bounced back and forth from the Zoning Board of Appeals, Board and the County. A stand has to be taken on this. Either you are for or against it, you can't be in between.

Bill Sanders stated the Planning Commission will make a decision tonight.

Cathy DeVooght - stated Lucille Scotti, Joe Wietek, Estelle DeVooght and Rene DeVooght all whole heartedly supported the RR-2 District when it suited them. After Cathy & Johnny bought the property, they didn't want the RR-2 for them, so they changed the whole area. This is history between them and Cathy and John, but it proves that every time they try to get their property rezoned that they cannot obtain it.

Estelle DeVooght - this is not true - she is speaking for herself (Estelle DeVooght) - Cathy was living in New Orleans and didn't even live here when the property went to David DeVooght, it didn't have anything to do with her and Johnny - so she doesn't see why Cathy is bringing up old stuff, when they went around with the petition. The petition was circulated in a straight line.

Bill Sanders stated this was not part of the 1977 Zoning Ordinance. The 1977 Zoning Ordinance as adopted, this parcel was RP period. It makes sense to either rezone that parcel to RR-2 or it doesn't.

Anything happening prior to the 1977 Zoning ordinance being adopted is removed. The ordinance is what it is.

Cathy DeVooght - in the Zoning Ordinance it states what provisions for rezoning and appeals are and included as part of the ordinance. She has applied three times now for rezoning, when is she going to get provided with a rezoning?

Mike Farrell stated just because someone submits an application for a rezoning, doesn't mean that the rezoning will be issued.

Cathy DeVooght read two letters that were provided in the Planning Commission agenda packet from the following:

Chuck Schwennen - regarding soil samples
dated May 29, 1991

Mike LaPointe - USDA Soil Conservation Services regarding the
parcel & soil
- date wasn't clear, but approximately 1991

Mike LaPointe - comment on the letter that was sent to Cathy DeVooght and the recommendation from Mike Farrell regarding #4. It reads:

"The Comprehensive Plan encourages the preservation of prime agricultural and forest production areas from more intense types of land use."

This parcel is not a prime agricultural soil and forest production area. He would have a hard time including that as part of the recommendation to approve or deny the rezoning.

Based on the soil conservation study, it does clarify that the soil is not prime agricultural and forest production. He did go on site and looked at the parcel.

Bill Sanders stated that in planning to rezone property when a parcel can be used for what it is zoned and doesn't see anything that precludes using that parcel for RP and agrees with Mike LaPointe that the soil is not prime agricultural land, maybe you can't use it to grow a lot of crops, but Township does not have a lot of land in RP or open space that is prime agricultural land, but it is used what it is rezoned as.

Cathy DeVooght stated it is 10 acres of unbuildable property and cannot be used for nothing.

Bill Sanders stated the zoning goes with the land, not the people. Maybe the applicant doesn't see any value of that land as RP to grow Christmas trees or whatever, but the fact is it is RP land and can be used for a permitted use in that district. He supports the recommendation on that basis.

Dave Wurster inquired if we know the total number of nonconforming properties in the Township?

Mike Farrell stated there is a number of them that are grandfathered in prior to the adoption of the present Zoning Ordinance.

If they were a lot of record prior to the adoption of the present Zoning Ordinance they are buildable as a parcel in that Zoning District.

Bill Sanders stated there may not be a lot of legal parcels that are less than a 20 acre minimum required in RP, but that does not have any bearing on that land is zoned RP to drive planning in that

direction. If there are parcels there that are too small to conform with a 20 acre minimum that there is no basis or reason to zone everything RR-2,

Dave Wurster stated there is alot of basically RR-2 construction out in that particular area.

He compared it to when Bide-A-Wile was rezoned. One of the reasons the Planning Commission used for rezoning that area was that it was basically the zoning was R-4 all the way around it. The RR-2 property that existed in that particular area had mobile homes sitting on them already. IT made sense to the majority of the Planning Commission at that time that it was being used for mobile homes, it is primarily to put in housing in that area and would like to keep mobile homes in that area, R-2 in the middle of R-4.

Maybe we should be looking at particular areas being considered for rezoning from RP to RR-2. In this area it was at one time zoned RR-2, up until the adoption of the present Zoning Ordinance in 1977. At one particular time somebody said this was a good place for housing. Didn't know the reason why it was said and that now is not a good place for housing. Now we want it rezoned to have it RP.

Should we not take a look at this. There are 20 parcels out in this particular area that are in affect in RR-2. There are parcels that are five acres, four acres, or three acres or whatever and are dotted all over the place. Do we take a look at this and maybe this whole area should be rezoned back to RR-2. Is that an appropriate use for that particular area at this particular time? Do we then basically make any nonconforming use of the property out there conforming?

Maybe we should be looking at more than this particular parcel. In doing this one, it may be called spot zoning. Taking the whole section and say for all practical purposes this is already zoned RR-2 property.

We as a board of the township board should be looking at the whole area and have in fact an RR-2 out there already. Unless it can be shown a compelling reason why it was changed to RP in the first place and why it should stay that way.

Bill Sanders stated that is not the issue tonight, we are here looking at one parcel of land.

Reference to Bide-A-Wile Mobile Home Park project, the configuration of that is initially different than what we are looking at presently.

Mike Farrell stated present zoning is preservation for agricultural lands. As more land gets developed and encroaches on the agricultural land, the higher demand for land is in that area, more pressure is put on the farmers, using the open space land subdividing. We need to use zoning as a protection to control the cost of service to the Township. If we would allow the expansion of the RR-2 in that location, it could eventually allow more expansion there, then you are encroaching on family farms and those types of things that have been there for a long period of time.

Cathy DeVooght - concerning - Laurich - to say you cannot take a little corner and make it RR-2 is ridiculous. Because that is exactly what they did nor Laurich. It is stuck out there in the middle of RP. It is what was done for Laurich.

Don Wickstrom inquired when Mike Farrell explained the area there was a line which went from Townsend's property across and below that was the RP.

Mike Farrell said yes this was so.

Don Wickstrom inquired has any of the 840 acres been rezoned to RR-

2? As he looks at the map, the Laurich property is North of the line.

Mark Maki stated that the 840 acres that was rezoned and changed on the tentative maps on March 31, 1977 all still remain in RP.

Don Wickstrom asked if the little sliver of property that is being discussed in his opinion would this be a spot zoning.

Mark Maki stated it abuts the RR-2 on both sides.

Don Wickstrom stated as Max Engle pointed out earlier it abuts only on one side.

Max Engle wanted to comment on the R-4 - basically when the Planning Commission rezone the R-4, we did that and eliminated some spot zoning that was there in the past.

He then stated there are at least 10 lots on Karen Road that are in the RP District and they are non-conforming.

Approximately another 5-10 lots along Little Lake Road at least they are scattered throughout the whole area, they are not all in one spot. There is section along Karen Road - six in a row, Poplar Trail and there is some more up there. There is no pattern where you can take a section out and say they are already small lots, they will make a RR-2 area.

Estelle - doesn't think there is any small parcels from the line to the end of the Chocolay line on Little lake Road. The only one may be Mrs. Hansen's. Doesn't think there are any other properties where there are houses. Is this true?

Max Engle inquired where is the end of the Township line on Little Lake Road?

Estelle DeVooght - Dupras house is the last property just pass their house. Dupras camp and they own 150-160 acres. Close to 8,000 acres that are zoned RP in that block.

Bill Sanders stated the fact that you cannot build on a parcel doesn't make a parcel valueless.

Cathy DeVooght wanted to inform everyone that out of approximately 5,000 people in the township, there are no more than approximately five farms in the whole township. Doesn't know who we are protecting this farm land for. Everyone who moves to this Township doesn't want a farm, they want to live here because it's pretty and five acres to build a house is more than enough for a person to maintain.

She read the petition to void the petition that was provided for in the agenda packet that pertained to the voiding of the petition that was circulated by Rene DeVooght that the zoning remain as presented at the public hearing on March 30, 1977.

Bill Sanders inquired what the date on the petition was?

Cathy DeVooght stated the date was April 28, 1977, was presented to the Board on May 9, 1977 and specifically asked to void the petition that was circulated by Rene DeVooght.

Max Engle commented that he hasn't changed his mine on the petition. If we were talking about the whole 800 acres, he might consider that. When we are talking about 28.5 acres in an area of approximately 5,000 acres that is another matter.

Cathy DeVooght is requesting that be changed. Mr. Wurster said he thinks it should be changed to RR-2. She stated Max supported the fact that it should be rezoned RR-2 back in 1977.

Max stated about 800 acres he did.

Cathy DeVooght - all that got changed by that petition - whatever got changed should be back to the way it was.

She asked Mike LaPointe what his opinion was?

Bill Sanders moved, Don Wickstrom supported that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that Rezoning Request #69 to rezone that part of the Southwest Quarter of the Northwest Quarter lying west of Little Lake Road, Section 28, T47N, R24W, from RP to RR-2 be denied for the following reasons:

1. There are numerous buildable lots presently in the RR-2 zoning district.
2. Past and present policies of the Township have been to restrict development into areas that have been identified by the Comprehensive Plan as areas of particular concern.
3. The owner of the north portion of the property requested for rezoning is strenuously opposed to the rezoning.
4. The Comprehensive Plan encourages the preservation of lands for agricultural & forestry production from more intense types of land use.

Motion Carried 5-1

Cathy DeVooght asked when this would go to the Marquette county Planning Commission?

Mike Farrell stated as soon as the minutes have been prepared, he will take them to the County Planning Commission. From there it goes back to the Township Board.

CONSIDER PRIVATE ROAD APPROVAL - HOSKING:

Mike Farrell gave a brief explanation on the proposed Private Road Request - Hosking.

Private road would be built to township specifications - 18' width and meets the Marquette County Road Commission's specifications for 18' wide gravel road. It has a 66' right of way. It is provided for drainage. There is a cross section looking to put in 1' ditches on each side - 18' of improved surface, 2" gravel. The end of the road will be developed as a cul-de-sac per County Specifications.

Mike sent this up to the County Road Commission for their review and has not heard back from the County at this point. On face value they didn't have any problems with the connection to Woodvale.

In his suggested recommendation he would have Mr. Hosking meet all County Road Commission requirements.

Estelle inquired how many acres does this consist of?

Mike Farrell stated the lot is approximately 4.3 acres.

Water would drain towards Woodvale.

Ray Hosking explained the drainage.

Ray Hosking stated he went to the County to obtain a building permit. He then came to the Township and talked with Mike Farrell and Mike recommended him to apply for a rezoning.

Bill Sanders stated when this was discussed at the Zoning Board of

Appeals Meeting, he didn't think the people were opposed to the project, but they were opposed that he wouldn't have to go through the Private Road Request approval and most of the members gave their support if he would go through the Planning Commission's process.

Ray Hosking stated the road will be worked into the natural terrain of the area. One house will be developed.

Mike Farrell stated that a Soil Erosion Permit be obtained if the private road request is approved.

Mike Farrell stated he would like to see two addition items added to the recommended motion, which would be:

7. All ditches be seeded and mulched.
8. Ditch the donut hole in cul-de-sac to eliminate runoff to property.

Mike LaPointe moved, Bill Sanders supported that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the requested private road application and plans be approved, as amended:

1. The developer will provide, at their own expense, street signs and posts per township specifications and maintenance of the signs and post to be the responsibility of the owner(s).
2. A covenant be established on the parcel deed identifying the private road status and the responsibility for road maintenance, right-of-way maintenance, and drainage maintenance.
3. That open access to the private road be maintained for essential public services.
4. The proposed road be named Norway Trail.
5. That applicant comply with all requirements of the Marquette County Road Commission for connection to the county road system.
6. That the applicant obtain all the necessary permits from Local, State, and Federal agencies that are required for the development of the road.
7. All ditches be seeded and mulched.
8. Ditch the donut hole in cul-de-sac to eliminate runoff to property.

Motion Carried 6-0.

A ten minutes recess was taken.

REZONING #71 - TEXT AMENDMENT:

Mike stated the proposed language in Section 101 - definitions submitted remain in tact.

Under Section 401 - General Regulations language concerning the building code (storage areas in a home, etc.) wasn't deemed necessary in our Zoning Ordinance. This was omitted.

Max Engle suggested item number (F) submitted in the agenda packet be amended to read:

The dwelling has not less than two exterior doors with the second door being in either the rear or side of the dwelling; and contains permanently attached steps connected to said exterior door area or to porches connected to said door area where a difference in

elevation requires the same.

Section 506 Uses Permitted, Minimum Size and Fees:

Reason to create a PUD is to provide adequate planning in the development process with the ability to relax in zoning regulations, if appropriate. Larger parcel is needed.

Able to put in place some new planning concerns.

The PUD process was explained.

We have two (2) Planned Unit Developments (PUD) in the Township. O'Dovero's and the Angel Home.

Estelle DeVooght moved, Bill Sanders supported that we waive the reading and that the Chocolay Township Planning Commission recommend the Chocolay Township Board approve the following text amendments with changes as discussed.

(replace Sec. 101 Definitions with)

SECTION 101 DEFINITIONS

(add definitions to Sec. 101 Definitions and delete Multiple Dwelling, Single-family Dwelling, and Two-family Dwelling definitions)

DWELLING, SINGLE-FAMILY, a structure containing not more than one dwelling unit designed for residential use and conforming in all respects to the standards set forth in Section 401.

DWELLING, TWO-FAMILY, a structure containing not more than two separate dwelling unit designed for residential use and conforming in all respects to the standards set forth in Section 401.

DWELLING, MULTI-FAMILY, a structure containing three more dwelling unit designed for residential use, with or without separate kitchens or dining facilities, and conforming in all respects to the standards set forth in Section 401. These may include apartment houses, apartment hotels, rooming houses, boarding houses, fraternities, sororities, dormitories, row houses, townhouses, and similar housing types, but not including hotels, motels, hospitals, or nursing homes.

(Replace Sec. 401 General Regulations with)

SECTION 401 GENERAL REGULATIONS

Every single-family dwelling, two-family dwelling, and multi-family dwelling shall have a minimum floor area of 800 square feet, and every dwelling unit in a multi-family dwelling shall have a minimum floor area of 600 square feet, provided:

(A) If computing the required floor area not more than 50 percent of the minimum floor area in the structure shall be below the average level of the finished ground surface adjacent to the exterior walls of the dwelling.

(B) It has a minimum width across any front, side or rear elevation of 18 feet and complies in all respects with the Marquette County Building Code, including minimum heights for habitable rooms. Where a dwelling is required by law to comply with any federal or state standards or regulations for construction and where such standards or regulations for construction are different than those imposed by the Marquette County Building Code, then and in that event such federal or state standards or

regulations shall apply.

- (C) It is firmly attached to a permanent foundation constructed on a site in accordance with the Marquette County Building Code and shall have a wall of the same perimeter dimensions of the dwelling and constructed of such material and type as required in the applicable building code for residential dwellings. In the event that the dwelling is a mobile home, as defined herein, such dwelling shall, in addition thereto, be installed pursuant to the manufacturer's setup instructions and shall be secured to the premises by an anchoring system or device complying with the rules and regulations of the Michigan Mobile Home Commission.
- (D) In the event that a dwelling is a mobile home as defined herein, each mobile home shall be installed with the wheels and under carriage removed. Additionally, no dwelling shall have any exposed towing mechanism, under carriage or chassis.
- (E) The dwelling is connected to a public sewer and water supply or to such private facilities approved by the local health department.
- (F) The dwelling has either a roof over-hang of not less than six inches on all sides, or alternatively with windows sills and roof drainage at collection points along the sides of the dwelling; has not less than two exterior doors with the second door being in either the rear or side of the dwelling; and contains permanently attached steps connected to said exterior door areas or to porches connected to said door areas where a difference in elevation requires the same.
- (G) The dwelling contains no additions or rooms or other areas which are not constructed with similar quality workmanship as the original structure, including permanent attachment to the principal structure and construction of a foundation as required herein.
- (H) The dwelling complies with all pertinent building and fire codes. In the case of a mobile home, all construction and all plumbing, electrical apparatus and insulation within and connected to said mobile home shall be of a type and quality conforming to the "Mobile Home Construction and Safety Standards" as promulgated by the United States Department of Housing and Urban Development, being 24 CFR 3280, and as from time to time such standards may be amended. Additionally, all dwellings shall meet or exceed all applicable roof snow load and strength requirements.
- (I) The foregoing shall not apply to mobile homes located in a licensed mobile home park or zoning district R-2 except to the extent required by state or federal laws or otherwise specifically required in the ordinance of the Township pertaining to such parks and zoning district.

(replace the language in Section 506 Uses Permitted, Minimum Size and Fee, B. with the following)

The Planned Unit Development District shall not be less than ⁵⁰ ~~five~~ ^{two} (2) acres in actual lot size for a commercial or light industrial development and ten (10) acres in actual lot size for any residential development and shall be capable of being planned and developed as one integral unit. The minimum lot width of a parcel zoned PUD shall be not less than 200 feet.

Motion Carried 6-0.

PLANNING DIRECTOR'S REPORT:

Mike Farrell said he would try to have a representative from the North Country Trails attend the July Planning Commission Meeting.

He has not obtained permission from the Township Board to place the ad for the Ad Hoc Committee for Recreation.

PUBLIC COMMENT:

Estelle DeVooght inquired about the new companies that have taken over in Harvey on U.S. 41.

Mike Farrell stated since the adoption of the present Zoning Ordinance, it is zoned commercial and contractors are purchasing residences in that area for businesses. They are strictly businesses, nobody is living in them. A building permit (change) is required.

Don Wickstrom inquired about M 28 & Kawbawgam Road - building of Leo Glass.

Mike Farrell stated he does have a zoning compliance to build an office building. There has been a stop work order placed on the structure on the rezoning because he wasn't meeting the requirements.

Bill Sanders stated the rezoning has been tabled. He thinks there may be a six (6) month period if you have a building permit and you don't do anything, it elapses.

Mike Farrell stated he talked to Harley Andrews about the paper work being brought into the meeting and handed out at the meeting. We can't limit public input, but recourse would be to table the item.

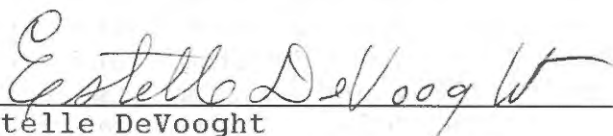

There being no further public comment, Bill Sanders closed the last public comment section of the agenda.

INFORMATIONAL ITEMS AND CORRESPONDENCES:

Chocolay Township Board Minutes - April and May.

ADJOURNMENT:

There being no further business the Planning Commission Meeting was adjourned at 10:00 p.m.

 Estelle DeVooght
 Planning Commission Secretary

 Jeanette R. Collick
 Recording Secretary

CHOCOLAY TOWNSHIP

PLANNING COMMISSION

TUESDAY - JULY, 27 1993

PRESENT: Estelle DeVooght, Max Engle, Mike LaPointe, Scott Emerson

ABSENT: Bill Sanders, Dave Wurster, Don Wickstrom

STAFF PRESENT: Mike Farrell, Director of Planning & Research
Jeanette Collick, Recording Secretary
Mark Maki, Director of Assessing & Zoning

PUBLIC PRESENT: Susan Wirtanen, Gary Gorsalitz, Diane Mankee, Mike Cauley, Lee Stuer, Rick Heikkila, Donna J. Heikkila, Mark A. Heikkila, Kerri S. Heikkila, Dale W. Berquist.

PUBLIC HEARING:

Max Engle, Vice Chairperson called the Public Hearing to order at 7:35 p.m.

PRIVATE ROAD REQUEST - HEIKKILA:

Mike Farrell, Director of Planning & Research gave a brief explanation what this pertained to.

This private road request would be about 1/4 mile long off Timberlane.

Mark Heikkila - 268 Timberlane - Petitioner said he was in attendance to try to get Private Road approval so he can get a Zoning Permit.

Lee Stuer - Rumely - Needs access to his property which is beyond Mark Heikkila's property. At the time he bought his property it was suppose to become a County Road. The road was suppose to be open.

Mike Farrell - stated a petition was signed to have the County abandon the seasonal road. He also stated at the present time there are two processes:

1. Private Road process to have access and
2. Go back to the County to have them petition to have the road put back in.

The petition that was signed was to abandon that road. The property owners asked for that and the County Road Commission concurred with that and abandon it, and in that process you gave up access to that property.

Mark Heikkila asked if that allows for an easement?

Mike Farrell stated he would have to get easement from the private land owners prior to getting access.

Dale Berquist - 420 West Park Street asked if his son signed the petition? It was stated yes he did.

He also asked if the proposed road was going to end at Mark Heikkila's property? His son owns property after Mark Heikkila's property.

Mike Farrell stated the proposed road will go all the way to the section line.

Donna Heikkila - 244 Shot Point - Thinks there is a

misunderstanding regarding the petition. The road was made seasonal and was a County road to start. It was put in the paper and if you had any comments regarding the road being seasonal that you were suppose to appear. When it was put in as a legal description nobody was aware and didn't notice it in the paper. That was when the road was made seasonal, which meant nobody could get a zoning permit to build unless it was made a private road or a county road. They met with Mr. Beerling and Mike Farrell and they suggested the only way to do this is to put a paved County Road or an approved private road and people had to sign the petition to abandon it. She doesn't think it was their intent to abandon the County Road if the County was going to take care of it.

It was asked if this seasonal road gave access to the two property owners.

It was stated this was not paved. County gave up all rights when this was abandoned. There is no road.

A resident asked if the proposed private road would give access to the two property owners beyond the Heikkila's property.

According to the petition that was signed by the property owners the County was under the impression that they didn't want access.

Mike Farrell suggested that the property owners need to go to the County Road Commission regarding the petition that was signed.

Joe Gibbs - Eagle Pass Trail - When it was abandoned wasn't everything abandoned in Section 10 except 800' so the property owner could get into his property? Wasn't there an exception to that?

Mike Farrell stated that is something he would have to look into, but the general practice when the County abandoned the road, they abandoned all of it, otherwise it would end up with a county road with access only across a private road. Ultimately, the only other way you can get to the other segment is to use a private road that doesn't belong to the County or the public.

Mike Farrell said he has been in contact with the County and the County wasn't aware that they still own the land. County Road Commission has to take action on this. He advised the property owners to contact the Road Commission to see what action could be taken.

Mark Heikkila - petitioner - not looking into putting in a fancy road, just wants access to get to the property.

Mike Farrell stated the proposed private road would need to be extended approximately 800' to access to two parcels in Section 10.

Scott Emerson commented this was a two rut road.

Bob Johnson - stated he has built a kennel and has approximately 50 dogs. Hope there won't be any complaints made to Chocolay Township regarding the dogs and the kennel.

Some of the property owners that were in attendance stated he would probably get complaints because of the barking at various times during the night.

Donna Heikkila - 244 Shot Point - this is not going to be a different road. The road is there. Cannot obtain a building permit without private road approval.

Estelle DeVooght asked a question regarding the standards of the road.

Mike Farrell stated the proposed road doesn't meet the township Standards

There being no further public comments Max Engle closed the public comment session regarding the Private Road Request - Heikkila.

There being no further public hearings, Max Engle closed the Public Hearing session of the meeting.

REGULAR MEETING CALLED TO ORDER:

Max Engle, Vice Chairperson called the Regular Meeting of the Planning Commission to order at 7:50 p.m.

ROLL CALL:

Roll call was taken with Estelle DeVooght, Max Engle, Mike LaPointe, and Scott Emerson present.

Don Wickstrom, Bill Sanders, and Dave Wurster were absent.

APPROVAL OF MINUTES OF JUNE 22, 1993:

Max Engle asked if there were any additions or corrections to the minutes of June 22, 1993. There were none.

Estelle DeVooght moved, Max Engle supported that the minutes of the June 22, 1993 Planning Commission be approved as presented.

Motion Carried 4-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Max Engle, Chairperson asked if there were any additions or changes for the agenda.

It was requested that under New Business (A) - Presentation - North Country Trail - Gene Elzinga be moved up after the approval of the Agenda.

Mike LaPointe moved, Scott Emerson supported to approve the agenda with the change of the presentation of the North County Trails be approved.

Motion Carried 4-0.

PRESENTATION - NORTH COUNTRY TRAIL - GENE ELZINGA:

Gene Elzinga gave a presentation on the North Country Trails and its history.

They would like to bring the North Country Trails to Chocolay Township.

He presented the proposed routes.

North Country Trails is one of eight National scenic trails. When completed it will stretch across seven states, with a section running through the U.P. When completed it will be 3200 miles long and pass through seven states. (New York, Pennsylvania, Ohio, Michigan, Wisconsin, North Dakota.) Approximately 850 miles of the trail is in Michigan, with approximately 350 miles in the U.P.

Overall coordination for the trail is provided by the National Park Service. They provide planning assistance and some funds for trail construction. However, no money has been allocated for land acquisition.

The North Country Trail Association works closely with the National Park Service to administer nationwide trail activities. Except for a paid executive director it is a volunteer organization representing the various local chapters along the route.

The North Country Trail Hikers (NCTH) is a chapter of the Association and is responsible for the U.P. segment of the trail

where it passes over private land. The trail on public land is administered by the responsible agency such as the DNR, and the National Forest and Park Services. They work closely with these agencies and in some cases have assumed responsibility for building and maintaining the trail within their jurisdiction.

The major task of the NCTH is planning the trail route and contacting landowners for permission to cross their land.

Another major task of the NCTH is to organize volunteer efforts for trail construction and maintenance.

This trail would be for non-motorized vehicles.

Scott Emerson suggested that possibly the trail could go through Hotel Place, W Main Street - 41 & 28 a more aesthetic route would be created.

Max Engle thanked Gene Elzinga for the presentation.

Scott Emerson moved, Mike LaPointe supported that the Planning Commission supports the concept of the North Country Trail being made through Chocolay Township and we would like to see the trail being consistent and being dove tailed in with our Recreation Plan.

MOTION CARRIED 4-0.

PUBLIC COMMENT:

Joe Gibbs - 125 Eagle Pass Trail he commented on the following:

- (1) Signs - Eagle Pass Trail & M 28 E - Temporary Status.

Would like to see this as a permanent sign.

Sign regarding the opening of the golf course. Would like the Planning Commission include in the Zoning Ordinance allowing temporary status. This sign will probably be down in November.

- (2) Parking area - gravel now.

He said according to the Zoning Ordinance he is required to have a green area. There are two rows of parking.

If he would have a small green area, it could be neglected because maintenance for that would be a low priority. Also the maintenance when snow plowing could be a hazard.

Scott Emerson stated that green area could be made attractive with trees, etc. It would also be shade for parked cars.

Max Engle asked how many parking spaces are there? There is approximately 60-70. Green area required every 50 or more. Eighteen square feet within.

Mike Farrell stated that maybe the golf course is an unique situation. He would look into the planting for parking area. It may be different than a commercial because of the golf course being mainly green area.

This was approved as a Conditional Use, not a PUD. We accepted the plan under a Conditional Use. Parking lots & greenery requirements were in that Conditional Use.

Scott Emerson asked if Mr. Gibbs was made aware of this when the plans were submitted. It was stated yes he was made aware of this.

Another suggestion was that it could be made attractive by putting in some greenery and a couple of picnic tables.

Mike Farrell stated that we may need to expand to allow trees to

grow.

Mark Maki responded to the following:

(1) Signs - Advertising the Golf Course. There is no provisions in the R-1 District for signs. Thirty-two square feet is allowed for Churches, schools. There are 2 thirty-two foot signs presently for the Golf Course.

Normally signs have to be on the property. Golf Course does not have frontage on the property that the signs are on.

May have to obtain a variance from the Zoning Ordinance or the County Road Commission permission to have the sign advertising the golf course.

Gentz's have the same problem when they open the golf course.

Mark also gave Jack's and Snyders. They both have green areas on them.

The Zoning Board of Appeals is dealing with a variance now regarding parking lot and greenery.

There being no further Public Comments, Max Engle closed the first Public Comment session of the Planning Commission Meeting.

OLD BUSINESS:

A. CONSIDER LOT SPLIT - DILORETO:

Mike Farrell stated he received a call from Dan Diloreto that he was out of town and couldn't make the Planning Commission Meeting and would like this tabled until August.

Moved by Scott Emerson, supported by Estelle DeVooght to table the Lot Split Request for Mr. Diloreto until August.

MOTION CARRIED 4-0.

NEW BUSINESS:

B. CONSIDER ROAD NAME CHANGE - WILLOW ROAD:

Mike Farrell explained there is a section of Willow Road with access from Ortman Road that is owned by one land owner who is requesting the name change.

Presently there are two roads named Willow Road. You cannot drive through.

It could be a life and death situation for emergency services such as fire trucks, police, and other emergency personnel.

The owner is requesting the name be changed to Donna. The other suggested name was Besola Trail. These names are in the honor of her mother.

There is a conflict with the street being named Donna. There is a road in the Township called Dana Lane and some emergency personnel could get confused.

The Township Board has the final decision on the road name.

Mike Farrell said there were seven (7) property owners who live on that end of Willow Road were contacted.

Gary Gorsalitz - 915 Willow Road - said this could be an inconvenience with changing of the name because of all the documents the property owners may have, such as: insurance agents, employers, banks, friends, relatives, post office, credit card companies, utilities, etc.

Scott Emerson commented it could mean a life & death inconvenience if emergency personnel heard the wrong information.

Gary Gorsalitz stated he has lived on Willow Road for approximately 22 years and if the road name change be granted, it would be an unnecessary name change. There may be some legalities in this change.

Sue Wirtanen - 975 Willow Road - against the name change. She works 40 hours a week and feels spending time with her children is more priority than changing addresses on all of the necessary documents that would have to be changed. When she has to use directions to get to her address she says entrance is off Ortman Road. We now have a new landmark and people could say entrance by Cherry Creek School.

Mark Maki stated name is difficult. There is no sense having two roads called Willow Road. Granted it may be an inconvenience for property owners on that end of Willow Road now, but somewhere in the future the Township may be held liable if a life or death situation would arise in the future and the road name has been discussed and emergency situations were discussed and the name wasn't changed.

Mike Cauley - 945 Willow Road - He has lived on this end of Willow Road for approximately 21 years and feels that there may be some legalities in changing the name of this street.

Mike Farrell stated that the petitioner owns the land and the road.

Estelle DeVooght asked if the petitioner owns the land, could they shut off the access to the road.

Mike Farrell stated he would like to look into the legal issues pertaining to this. He would like to request this to be tabled until he can obtain information from the township attorney on the legal precedents of this change.

Gary Gorsalitz - 915 Willow Road suggested if the road name be changed, to possibly change it to South Willow Road.

Mike Cauley - 945 Willow Road - stated that the statement regarding emergency personnel getting to the correct end of the road, he has had to use the fire department and they had no trouble responding to his address. If a road name change is necessary, he would support South Willow Road.

Scott Emerson stated that the request by the petitioner is to change the name of the road, not to compromise.

Diane Mankee - 935 Willow Road - the woman making the request hasn't lived there and neither has the petitioner's mom.

Mike Cauley asked who has control over road names? It was stated that the Chocolay Township Board has the final say.

Scott Emerson moved, Estelle DeVooght supported that the Planning Commission table the changing the name of Willow Road until the legalities precedents are obtained.

MOTION CARRIED 4-0.

C. CONSIDER PRIVATE ROAD APPROVAL - HEIKKILA:

Mike Farrell stated we have run into a couple of snags:

1. Road layout - site plan incorporating the cross section of the cul-de-sac.
2. He stated he received a response from one property owner that hasn't agreed to be a part of the road.

Mike stated that there are two recommendations, which are (1) deny the private road or (2) table the until we can come up to an agreement.

He received land contracts and nobody was aware that the County still owned property where the road was abandoned.

After discussion and comments that were made during the public hearing, it was felt by the property owners were misinformed by the petition that the signed.

Mike Farrell stated there was no recommendation by the Township to abandoned this road when the petition was presented at a meeting with the land owners, township personnel and county.

Mark Maki stated that if the road was seasonal that land owners could obtain a zoning permit.

Estelle DeVooght gave an example of when the end of Karen Road was abandoned.

Max Engle stated that this would either have to be denied or tabled until Mike Farrell could obtain the information requested. Planning Commission cannot approve property that isn't owned by them.

Max Engle moved, Scott Emerson supported that the Private Road Approval for Heikkila be tabled until Mike Farrell can get a legal opinion information back to the Planning Commission with maintenance agreement.

MOTION CARRIED 4-0.

D. CONSIDER BUDGET:

Mike Farrell stated he presented the Planning Commission the proposed budget. He stated he is proposing the per diem for the Planning Commission Members remain the same and he is also proposing to keep the recording secretary for the Planning Commission.

He stated that in the 1993 budget he purchased the overhead projector and this has shown potential for the meetings.

It was suggested that a Cam Corder be purchased. Mike Farrell and Mark Maki thought maybe this could come from the Planning and Zoning Department's budget under Capital Improvements.

PLANNING DIRECTOR'S REPORT:

Mike Farrell gave a brief explanation on what happened with the DeVooght's Rezoning at the Township Board Meeting on July 19, 1993. It was voted 4-2 to deny the rezoning. It was also suggested by the Township Board that the Planning Commission look into rezoning that property all the way down to Karen Road. Mike Farrell stated he would do research on this and get the information back to the Planning Commission in the Fall.

Estelle DeVooght had a question regarding the clay being moved from property on Little Lake Road and if a Soil Erosion permit was obtained.

Max Engle asked if this would be in violation of our Mining & Mineral Extraction Permit.

It was stated the owner could say this was site preparation for building houses and sand necessary for septic, etc.

Mike La Pointe stated Soil Erosion Permits are more or less for Lakes and Streams Sedimentation.

It was suggested that possibly a local ordinance be made to deal

with blowing, etc.

It was also stated that the Mining & Mineral Extraction Ordinance does not deal with the typical site plan preparation.

It was suggested that the Mining & Mineral Extraction Ordinance be amended to deal with top soil.

It was also suggested that the ordinance maybe amended to say that no topsoil be removed off residential property.

Mike Farrell will research this and come back to the Planning Commission with language pertaining to this.

PUBLIC COMMENT:

Mark Maki commented on his memo to the Planning Commission regarding one principal structure per lot. He also demonstrated the reason for having one principal structure per lot.

Reason were:

- (1) Traffic -
- (2) Setbacks improper
- (3) Parking inadequate
- (4) Landscaping abandoned for parking lot
- (5) Access insufficient.

It was suggested that the Planning Commission send back to the board and require some minimum language for frontage be set.

Mike Farrell stated he would have to talk to Harley Andrews regarding fees.

Mike Farrell stated he would try to have some language regarding principal structure per lot for the August or September meeting.

Estelle DeVooght suggested that possibly the buildings could be connected.

It was stated that the problem is that nothing is spelled out regarding landscaping.

Scott Emerson stated he contacted the Michigan Municipal Planning League and received an ordinance regarding the Big Tree Ordinance and would like the Planning Commission to look into this language for an ordinance for Chocolay Township.

Mike LaPointe asked if a Recreation Sub-Committee has been formed. At the joint meeting of the Planning Commission and the Township Board permission was granted to have the Recreation Sub-Committee formed. It was stated that at that time three members board was being considered.

Mike Farrell stated he would like Township Board approval for the ad to be put in the paper requesting people to serve on the Recreation Ad Hoc Committee.

Mike Farrell also explained how this committee would work and how the grants for recreation were obtained through the DNR.

Scott Emerson inquired if the township was aware that there are acquisitions for land for recreation and parks.

Mike LaPointe would like to see the Recreation Ad Hoc Committee up and running. He stated he would be willing to help out on this committee.

INFORMATIONAL ITEMS AND CORRESPONDENCES:

A. Memo from Mark Maki, Director of Assessing & Zoning.

ADJOURNMENT:

There being no further business, the meeting was adjourned at 10:20 p.m.

Estelle DeVooght
Planning Commission Secretary

Jeanette R. Collick

There are no minutes for the meeting in October, 1993.

There was no meeting scheduled.

CHOCOLAY TOWNSHIP

PLANNING COMMISSION

TUESDAY, SEPTEMBER 28, 1993

AS CORRECTED

PRESENT: Bill Sanders, Dave Wurster, Mike LaPointe, Estelle DeVooght, Scott Emerson, Max Engle

ABSENT: Don Wickstrom

STAFF PRESENT: Mike Farrell, Director of Planning & Research
Jeanette Collick, Recording Secretary

PUBLIC PRESENT: Wells Chapin, Karen Chapin, Joe Gibbs, Dan Trotochaud, Mike Bonanni

PUBLIC HEARING:

Bill Sanders, Chairperson called the Public Hearing to order at 7:35 p.m.

REZONING #72 R-1 TO PUD:

Mike Farrell, Director of Planning & Research gave a brief explanation.

Gibbs Energy Ltd (Dan Trotochaud-developer) has petitioned the Planning Commission to rezone a parcel of property located in the South 1/2 of Section 10, T47N R24W, from the current zoning classification of R-1 to PUD.

Thirty-three (33) condos are being proposed, which would be duplexes, triplexes and fourplexes. These would be completed in three (3) separate phases.

The steps in obtaining a rezoning to PUD include going to the Planning Commission for approval of the preliminary plans and then after getting approval from the Planning Commission, the Township Board then approves the preliminary plans.

The developer has one year to finalize plans as specified in their preliminary approval and receive final approval from the Township.

Dan Trotochaud - 26 Specker Circle gave a brief explanation regarding the golf course joint venture.

Wells Chapin - 1777 M 28 E stated the golf course is very nice looking and very well maintained. Also felt Dan Trotochaud would do a good job in developing the condos at the golf course and thought the project would be a good idea.

There being no further comments, Bill Sanders closed the public hearing regarding Rezoning #72.

REZONING #73 TEXT AMENDMENT - FEES:

Mike Farrell stated the Planning Commission had a public hearing on April 27, 1993 and went through the process for approval. There was a sentence that should have been added which states [except that such fee shall not be required where the township or any official body thereof is the moving parts.]

There being no further public comment, Bill Sanders closed the public hearing session regarding Rezoning #73.

There being no further public hearings, Bill Sanders closed the Public Hearing session of the meeting.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 7:50 p.m.

ROLL CALL:

Roll Call was taken with Bill Sanders, Estelle DeVooght, Mike La Pointe and Dave Wurster present.

Don Wickstrom, Max Engle, and Scott Emerson were absent.

APPROVAL OF THE MINUTES OF JULY 27, 1993:

Bill Sanders asked if there were any additions or corrections to the minutes of July 27, 1993. There were none.

Dave Wurster moved, Mike La Pointe supported that the minutes of the July 27, 1993 Planning Commission be approved.

MOTION CARRIED: 4-0

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders asked if there were any additions or changes for the agenda?

Mike Farrell requested an addition be made under New Business, which will pertain to a letter to be written to the Zoning Board of Appeals regarding landscaping.

Bill Sanders moved, Estelle DeVooght supported to approve the agenda with the addition of the letter to the Zoning Board of Appeals regarding the landscaping.

MOTION CARRIED: 4-0

PUBLIC COMMENT:

Mike Bonanni - 116 Alderbrook - voiced his concern regarding Whitty's Auto Body located at 6568 U.S. 41 south in Beaver Grove pertaining to junk cars and would like to request that something be done.

He stated he has property adjacent to the Auto Body Shop. He is concerned with his well and possible drainage of oil, battery acid, anti-freeze, etc. draining into the soil.

Mike Farrell stated he has spoken with Mr. Ruzinski and he does have a conditional use permit and is in a C-3 Zoning District.

He also requested well protection information, but has not received any information at present.

Mike Farrell also stated that Mr. Ruzinski commented that when he obtains the vehicles, he pulls out the oil pan, drains the radiator, etc.

Mike also explained that Mr. Ruzinski uses junk cars for his business to obtain parts and he feels he gets them hauled out in a timely fashion. He has to get 15 cars for a company to come and get them.

Mike Bonanni stated he didn't have a problem with the vehicles that are being fixed. He has a problem with the ones that are smashed. He also stated that the painting and sandblasting are being done outside.

Mike Farrell stated the Planning Commission doesn't have any jurisdiction, but will see what has been done and will give Mr. Bonanni a call.

OLD BUSINESS:

There were none.

NEW BUSINESS:**CONSIDER REZONING #72 R-1 TO PUD:**

Dan Trotochaud - 26 Specker Circle (developer - Gibbs Energy, Ltd.)

for the condominiums gave a presentation of what he planned on doing. The condos would mix well with the golf course.

The development of condominium projects in Michigan is closely regulated by statute. Act 59 of the Michigan Public Acts of 1978, as amended, by Act 538 of Acts the Michigan Public Acts commonly referred to as the Condominium Act, for the most part constitute the regulatory provisions of the laws of this State. They are enforced and supervised by the Condominium section of Commerce located in Lansing, Michigan.

The proposed plan includes 33 residential condominium units, all of which are planned as residential units. Phase One would include 11 of those units, Phase Two would include 11, and Phase Three would include 11 units. The time frame would be construction of Phase One - Spring of 1994, Phase Two - Spring of 1995, and Phase Three - Spring of 1996.

The land, shared utility systems, and most structural elements of the building will be general common elements to be used and maintained in common by all co-owners of units. The common elements will be maintained by Chocloy Downs Condominiums Association on behalf of all co-owners.

The private road running within the project is for the use of the co-owners and their guests. Chocloy Downs, A CONDOMINIUM, is served by mail, septic, gas, electric, telephone and cable service.

There are approximately (13.3) acres of land which is also located in the expandable area which may eventually become accessible to the Condominium co-owners.

We are proposing 33 condos vs. 20 single family lots. The wells and septic for this project will be adjacent to each complex, complexes will range from 2 to 4 units, each building will have two drain fields with the site for a third if necessary.

With two bedroom condos you have 66 bedrooms on this 13.3 acre parcel. The density of this condo project is 15,180 square feet per unit, or 123 x 123 feet per unit.

There will be more than adequate space for green areas and recreational opportunities within the plan as shown in the plot.

It is the intent of the developer to establish an escrow account that would be available to cover the cost of maintenance and replacement of each units well and septic system. An initial amount will be deposited at the time of first occupancy and a percentage of each units maintenance fee will be deposited until this escrow account is deemed adequate to cover any cost related to the system.

Grass, ground shrubs will be in the final plans.

With the Condominium Act you are required to form an Association. They basically control the whole project.

Rules and maintenance fee from the Association will follow. Rules and regulations must be put in the association.

Condos must be maintained by the Association.

The lighting will be aesthetically pleasing and each building will be clearly identified for emergencies.

It was stated forming an Association is very costly. Would like approval of the Preliminary Plans before going through the expense.

He stated that this a joint partnership and he has the time to obtain the permits, check on the legalities, etc. that is why he is the developer.

The following is a list of questions/concerns that were asked by the Planning Commission and answered by Dan Trotochaud.

Estelle DeVooght - once the building is bought, who is responsible

for the exterior/interior maintenance of the condos?

Dan Trotochaud - the Association would be the responsible for the exterior maintenance. The interior maintenance is the responsibility of the person living in the condo.

He plans to be a member of the Association and he intends to continue to be actively involved once the condo project is completed. He will assure that the maintenance, etc. is being done immediately.

There was a concern on the Master Deed of how maintenance would be provided?

Dan Trotochaud stated he would be looking at professional services available in the area and the community. When something needs to be done, he wants to be assured that it would get done and by hiring a professional, it would get done right away.

Mike Farrell - Concern on the density for the Ordinance for private roads and sanitation pickup. Certain density must be met.

Discussion on garbage pickup. Home owners put out garbage to street or a dumpster to be used.

Dan Trotochaud stated that he felt a dumpster would not be used.

Planning Commission members stated they liked the idea of the garage on the end of the condos, the maintenance agreement and the natural vegetation.

Mike Farrell - because we are working with a PUD as a requirement, we could require the Master of Deed would be filed at the County Clerk's Office.

There are deadlines for certain phases of a PUD.

It was asked who sets up the Association Rules and Regulations. it is set up by the Association.

It was stated maintenance fees taken in must be spend by the Association for maintenance. Developer can't spend it elsewhere.

There was a concern for the roof line. Mike Farrell stated he spoke with some members of the fire department and they inquired if fire breakers would be used.

Dan Trotochaud stated fire breakers would be used.

A question concerning the septic systems was asked.

There is a clause in a state act that says that if a developer of the Association ever failed to maintain their wastewater system that it becomes the responsibility of the local unit of government to maintain it.

The officers has discussed this before and the conclusion was that the developer set aside a certain amount of land and escrow account for usage so if there is a failure of the wastewater system, it wouldn't be a burden of the township to replace that system.

Scott Emerson arrived at the Planning Commission Meeting at 8:20 p.m.

It was stated 12 spaces are reserved for septic system, 8 of which will be developed.

It was a consensus by the Planning Commission that a more detailed site plan be presented before approval of the preliminary plans by the Planning Commission. They requested that the site plan show more graphics for density, septic system location, wells, condo placements, type of road. The Planning Commission likes the concept, but wants to see a more detailed plan layout.

Estelle DeVooght inquired if these were the same 38 lots as before when approval was given.

Mike Farrell stated this was a different development.

Mike Farrell stated we need something more concrete before preliminary approval can be given, even with conditions.

Dan Trotochaud - inquired that a more detailed sketch for Phase 1 for preliminary approval be presented and as a condition Phase 2 and Phase 3 will be evenly spaced.

Max Engle arrived at 8:30 p.m.

It was suggested a more detailed preliminary approval for Phase 1 be done and Phase 2 and Phase 3 would be comparable to Phase 1.

Mike Farrell stated in a PUD you are allowed a percentage of flexibility.

He also stated when preliminary approval would be granted that one of the conditions would be to request a letter from the DNR stating exactly what is required.

Bill Sanders stated the Township could request a public hearing.

After much discussion on questions and comments that were asked and answered, Dan Trotochaud stated he had no problem with submitted the plan, but doesn't want to tie himself in and spend a lot of money and possibly not obtain approval.

Mike Farrell stated he would meet with Dan Trotochaud and go over what he plans on presenting to the Planning Commission for their next meeting.

Estelle Devooght moved, Bill Sanders supported that the Planning Commission table approval of the preliminary plans for the condo project until more detailed information is obtained for the next Planning Commission.

MOTION CARRIED: 6-0

Mike Farrell concern about the future development of the golf course. There may be a possibility that a lagoon system may be required. it was suggested that maybe some land may be set aside for a lagoon system.

Joe Gibbs stated possibly 1/3 of the lots couldn't be developed because one side faces the Varvil Center and is unbecoming. It was suggested that maybe a buffer be put, the density wouldn't be there.

Dan Trotochaud thanked the Planning Commission for their time and consideration and would have the more detailed plans at the next Planning Commission.

It was stated that a decision would be made within 45 days.

CONSIDER REZONING #73 - TEXT AMENDMENT - FEES:

As discussed in the Public Hearing the sentence [except that such fee shall not be required where the township or any official body thereof is the moving party] be added.

Bill Sanders moved, Mike La Pointe supported that the Planning Commission recommend to the Chocolay Township Board that the following amendment to the Chocolay Township Zoning Ordinance be approved.

AMENDMENT

Section 702 of the Zoning Ordinance of the Charter Township of Chocolay shall be, and the same hereby is, amended to read as follows:

SECTION 702 FEES.

Neither the Township Planning Commission nor the Zoning Board of Appeals shall consider any matter until there is first paid a fee

as required below, except that such fee shall not be required where the township of any official body thereof is the moving party.

- (A) Planned Unit Development;
- (B) Conditional Use Permit;
- (C) Variance Application;
- (D) Zoning Amendment;
- (E) Non-conforming Use Permit;
- (F) Home Occupation;
- (G) Zoning Appeal;

The Township Board, by resolution, shall set the fees for the above matters. The Township Board, by resolution, may change these fees, from time to time, as they determine appropriate.

MOTION CARRIED: 6-0

LANDSCAPING ORDINANCE:

Parking Lot Areas. Bill Sanders said this was the item that was added to the agenda. At the last Zoning Board of Appeals meeting one of the items that were requested by Steve Blondeau that he wouldn't have to comply with Section 513 of the Zoning Ordinance requiring 51 or more parking spaced to meet zoning, the zoning requirements for green space. He doesn't want to do that. It has been to the Zoning Board of Appeals three times. You are required 3 votes one way or the other to take action. Each time it has been 2-2, 2-1, or whatever. Three members have to vote to give a variance. Two not to give variance.

As he sees it there has been no hardship or practical difficulty presented and he feels the Planning Commission should send a letter to the Zoning Board of Appeals in support of 513 and request a variance not be granted.

Scott Emerson moved, Estelle DeVooght supported that a letter be drafted to the Zoning Board of Appeals that the Planning Commission is in favor of green space being provided in Section 513 of the Zoning Ordinance.

MOTION CARRIED: 6-0

PLANNING DIRECTORS REPORT:

Mike Farrell stated he has a student intern from NMU that has knowledge or ordinances and is going through different ordinances and information regarding landscaping (green areas) and will be in attendance at the next Planning Commission Meeting and give a report.

Mike Farrell felt that at the present time with budget constraints and staff time, the Township could not hire additional staff to enforce a landscape ordinance. It probably should be an amendment to the Zoning Ordinance and enforced by the Zoning Administrator.

Mike also stated at the next Planning Commission meeting he would give his recommendation and the intern student would give his. The Planning Commission would also voice how they feel it should be done.

Mike La Pointe asked if the landscape ordinance amendment would be commercial only or would it pertain to residential also?

It was a consensus of the Planning Commission that this would be dealt with on a commercial basis only.

Mike Farrell pointed out in the June 22, 1993 minutes regarding language in Section 506 regarding PUD the minutes read "The Planned Unit Development District shall not be less than five (5) acres in actual lot size for a commercial or light industrial development

and ten (1) acres in lot size for any residential development and shall be capable of being planned and developed as one integral unit. The minimum lot width of a parcel zoned PUD shall not be less than 200 feet." The five (5) should be corrected to read two (2) for a commercial PUD.

Scott Emerson moved, Max Engle supported that the minutes of June 22, 1993 be corrected as pointed out.

MOTION CARRIED: 6-0

Mike Farrell also stated the single structure per lot amendment would be going to the Township Board and he inquired if it was the consensus of the Planning Commission that if there is an existing project in place, are they to be considered grandfathered in? It was stated yes, this is correct.

It was agreed that the next Planning Commission Meeting would be Thursday, November 4, 1993.

Mike Farrell stated there would be a lot of items being dealt with at the next Planning Commission meeting. Some of the issues are as follows:

1. Diloretto Case
2. Willow Road Name change
3. Gibbs Energy Ltd. PUD - Preliminary Approval
4. Landscaping Amendment - Intern.

PUBLIC COMMENT:

Estelle DeVooght inquired if anything could be done to get ABC True Value to clean up their property?

It was suggested that she write a letter to the Zoning Administrator to request that something be done.

Mike Farrell stated that the Chocolay Watershed Council will be receiving a grant. Mike La Pointe stated it was called Adopt a Stream.

There being no further Public Comment, Bill Sanders closed the last Public Comment section of the agenda.

INFORMATION ITEMS AND CORRESPONDENCE:

Correspondence to Marquette County Road Commission - School Crossing.

Mike Farrell stated that a concerned resident from the Bide-A-Wile Mobile Home Park has requested that the Township have a crossing guard for the children to cross from the mobile home park and cross Silver Creek Road to the School.

He stated he has done research on this, and yes the Township has the responsibility if the County Road Commission deems it necessary. If after the County Road Commission does the survey and deems it necessary.

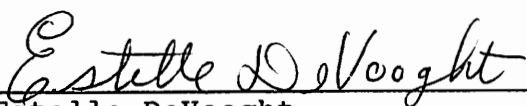

ADJOURNMENT:

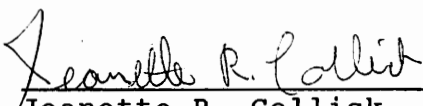

There being no further business, Bill Sanders asked that a motion be made to adjourn the meeting.

Mike La Pointe moved, Estelle DeVooght supported to adjourn the Planning Commission Meeting.

MOTION CARRIED: 6-0.

The Planning Commission Meeting was adjourned at 9:35 p.m.

There was no meeting scheduled.

CHOCOLAY TOWNSHIP PLANNING COMMISSION

THURSDAY, NOVEMBER 4, 1993

PRESENT: Bill Sanders, Dave Wurster, Mike La Pointe, Estelle DeVooght, Max Engle, Don Wickstrom

ABSENT: Scott Emerson

STAFF PRESENT: Mike Farrell, Director of Planning & Research
Jeanette Collick, Recording Secretary
Jay Rithel, Student Intern

PUBLIC PRESENT: Bob La Jeunesse, Dorothy La Jeunesse, Lori La Jeunesse, Bobbi Sue Pecotte, Bob Pecotte, Anne Pecotte, Mike Donnelly, Bob Cambensy, Carol Hicks, Joe Gibbs

PUBLIC HEARING:

Bill Sanders, Chairperson called the Public Hearing to order at 7:30 p.m.

PRIVATE ROAD #7 - La JEUNESSE:

Mike Farrell, Director of Planning & Research gave a brief explanation.

The applicant is requesting private road approval for a road located in Section 28 and Section 29 T47N R24W with access off of County Road Little Lake Road. The purpose of the road approval is to construct a single family dwelling on a 5 acre parcel in Section 29 T47N R24W.

The proposed road will have an 18 foot wide gravel base and a 66 foot right of way. Easement for a cul-de-sac will be provided. The applicant would like to request permission not to have the actual cul-de-sac be developed because the road will only serve one house at this time. The private road is necessary because the lot does not contain the necessary 300 feet of frontage on Little Lake Road.

Bob La Jeunesse stated there is only one house being proposed to be built. About 50 years ago there was a driveway, now an apple orchard is there.

There being no further comments, Bill Sanders closed the public hearing regarding Private Road #7 - La Jeunesse.

There being no further public hearings, Bill Sanders closed the Public Hearing session of the meeting.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 7:30 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Estelle DeVooght, Dave Wurster, Mike La Pointe, Max Engle, and Don Wickstrom present.

Scott Emerson was absent.

APPROVAL OF THE MINUTES OF SEPTEMBER 28, 1993:

Bill Sanders asked if there were any additions or corrections to the minutes of September 28, 1993?

Bill Sanders noted that on page 5 the third paragraph from the bottom reads The officers has discussed this before and the

conclusion was that the developer set aside a certain amount of land for usage so if there was a failure of the wastewater system, it wouldn't be a burden of the township to replace that system.

It should be corrected to say The officers had discussed this before and the conclusion was that the developer set aside a certain amount of land and escrow account for usage so if there was a failure of the wastewater system, it wouldn't be a burden of the township to replace that system.

He also noted that on page 6 4th paragraph reads Mike Farrell stated we need something more concrete before preliminary plat approval can be given, even with conditions.

It should be corrected to read Mike Farrell stated we need something more concrete before preliminary approval can be given, even with conditions.

Max Engle moved, Dave Wurster supported that the minutes of the September 28, 1993 Planning Commission be approved as corrected.

MOTION CARRIED: 6-0.

PUBLIC COMMENT:

Anne Pecotte - 197 Old Kiln Road wanted to reserve comment when Road Ranking is discussed on the agenda.

Mike Donnelly - 150 Old Kiln Road also wanted to reserve comment when Road Ranking is being discussed on the agenda.

There being no further public comment, Bill Sanders closed the first public comment session of the Planning Commission.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders asked if there were any additions or changes for the agenda?

Bill Sanders would like approval for the item under Old Business, Item C. pertaining to the discussion of Landscape Language for Zoning ordinance be moved to New Business, item C.

Bill Sanders moved, Don Wickstrom supported to approve the agenda with the change of the discussion of the Landscape Language for Zoning Ordinance be moved to New Business item C.

MOTION CARRIED: 6-0.

OLD BUSINESS:

A. Discuss Zoning Ordinance Language dealing with:

1. PUD
2. General Standards for houses

Mike Farrell stated he took the language to the Township Board concerning the above issues:

Regarding general standards for houses - The sentence "and shall have a wall of the same perimeter dimensions of the dwelling". The Board felt this eliminated the ability to put a house on a foundation using a cantilever design.

The Board would like the Planning Commission to consider taking "and shall have a wall of the same perimeter dimension of the dwelling".

He would like the consensus of the Planning Commission to send the language pertaining to the General Standards for house with "and shall have a wall of the same perimeter dimension of the dwelling" removed.

Bill Sanders moved, Max Engle supported language for General Standards for house to eliminate the sentence as was discussed above.

Language regarding PUD

Language stating "ten (10) acres in actual lot size for any residential development."

It was the consensus of the Planning Commission to have five (5) acres for a commercial PUD and ten (10) acres for a residential PUD.

The rationale why the Planning Commission wanted to have a minimum of ten (10) acres for a residential PUD was stated in the Planning Commission minutes from the meetings of May 25, 1993 and June 22, 1993.

Mike Farrell stated the PUD process creation and why units of government offer a PUD. Advantages of a PUD provides more opportunity to create quality and innovative development in the Township.

Mike La Pointe inquired what the Board thought on the language for the PUD?

Mike Farrell stated that they were concerned there was a number of smaller parcels in the Township and would be tying their hands if they wanted to build through a PUD process.

After much discussion and comments by the Planning Commission members it was agreed that Mike would present his comments to the Board.

The following motion was made by the Planning Commission for the Township Board's concern on the language "ten (10) acres in actual lot size for any residential development".

Estelle DeVooght moved, Don Wickstrom supported that Mike Farrell go back to the Township Board and state that the Planning Commission has reviewed the language concerning the PUD and wants to leave the language in regarding ten (10) acres in actual lot size for a residential development.

MOTION CARRIED: 6-0.

B. CONSIDER REZONING #72 - PUD:

Mike Farrell stated that Dan Trotochaud was out of town, but Joe Gibbs, Bob Cambensy and Carol Hicks were present to answer questions that may come up.

Mike Farrell was in contact with the DNR pertaining to the sewage/wastewater disposal and the DNR doesn't have any problems with the individual septic tanks and drain field concept. What they do need is that if preliminary approval was granted, then the developer could sit down and put together plans so they can determine what the water flow would be so they can tell them what would be required for those drain fields. That is one of the conditions that is in the recommended motion for approval.

Bills Sanders inquired on the Act 98 process.

The Township really does not have the option to accept the responsibility that they go to that system.

Mike Farrell stated this is an option in the suggested motion under B. 2. d. Wording for the establishment of an escrow account in the Township's name for the possible maintenance and or replacement of the wastewater system should the developer/association fail to continually operate the system."

Mike Farrell stated this was discussed with the developer and he had no problems with the above option.

Estelle DeVooght - does the DNR keep a handle on these things?

Mike Farrell stated yes they do.

Estelle DeVooght - if the DNR is voted out next year, what then?

Mike Farrell - somebody will be regulating the sewage disposal.

May fall back on the County Health Department and the County Health Department has been working right along with the developer, the DNR and Mike Farrell and what the criteria are and they are meeting the criteria.

Bill Sanders inquired how phase 2 and 3 would work on the entry drive? Would they access off Brewer?

Carol Hicks stated yes they would all access off Brewer. Phase 2 would be North continuing East for Phase 3.

Mike Farrell stated one of his concerns and he discussed this with Dan Trotochaud was the siting of the structure. As shown on the plans the building is within 25 feet of the County road right-of-way. In zoning R-1 we require a 35' rear set back. As part of the condition, he is suggesting that buildings be adjusted to set back 35 feet. Dan told Mike that wouldn't be a problem.

Based on the number of rooms per unit obtained estimates of 200 sq. feet of drain field per family. 1600 square feet of drain field and that is what was showing on the plans presented.

Mike Farrell also stated that Mr. Trotochaud suggested that additional land be set aside that cannot be developed on or built on for a replacement, should one be necessary.

In the process of the field being put in, Mr. Trotochaud is considering putting in a system that has an oversized tank or two (2) tanks put in series so that you get more settling of the waste in essence you can get longevity of the field. He is also proposing to set up a three (3) field dosing system, where you hold back wastes until you get a volume then you dose one field so that the entire field gets saturated instead of a typical residential field.

Mike Farrell stated in one of the suggested conditions is that he lays out specifically how he plans to deal with the wastewater.

Mike Farrell stated he would like in writing from Mr. Trotochaud the concepts he proposed to use. If he is proposing dosing, he put it in writing so we are approving that in his PUD. If he isn't proposing dosing then don't put it in writing, but he has talked about this.

Bill Sanders inquired regarding the setback.

Mike stated that is presented in the suggested motion under General Conditions #5 "Structure location shall comply with setbacks from property lines as established in the zoning ordinance for the R-1 Zoning District."

After various comments and discussion pertaining to Rezone #72 to PUD the following recommendation was made.

Mike LaPointe moved, Bill Sanders supported that the PUD for the Condo be approved with conditions.

There were some discussions concerning the preliminary approval before seeing the Condo plans in its entirety.

They had no problem with the plan, but would like to see it in its entirety.

It was suggested that the preliminary approval be tabled until the Planning Commission meeting on November 23.

Mike La Pointe moved, Bill Sanders moved to rescind the above motion regarding the preliminary approval with conditions.

MOTION CARRIED: 6-0.

Mike La Pointe moved, Max Engle supported that preliminary approval for the PUD #72 be tabled until the Planning Commission meeting to be held on November 23, 1993 when the plan would be sketched in its entirety.

MOTION CARRIED: 6-0.

NEW BUSINESS:

CONSIDER PRIVATE ROAD REQUEST - LA JEUNESSE:

Bill Sanders inquired if there was a conflict with the name of the proposed private road.

There was no conflict of the name being Anna's Trail.

Estelle DeVooght asked if this was a lot of record?

Bob La Jeunesse stated that this was in an abstract that was changed before the Zoning Ordinance went into affect.

Mike Farrell pointed the proposed land on the map and stated this was not always a lot of record.

Max Engle inquired how many acres is this parcel?

Mike Farrell stated this would be a five (5) acre parcel.

Max Engle - if it is not a twenty (20) acre parcel why is it in that zoning district any way?

Mike Farrell stated the parcel is in a RR-2 zoning district.

Don Wickstrom inquired on the easement - cul-de-sac not be required. He was thinking about the private road approval and conditions required for Mr. Hosking's private road approval. Would the recommendation be the same?

Mike Farrell stated not at this point, but if the one of the conditions regarding the cul-de-sac be approved he would contact mr. Hosking and also take this condition back to the Township Board to amend the requirement for the cul-de-sac. The easement would still remain.

After much discussion and comments, the following motion was made:

Max Engle moved, Bill Sanders supported that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the requested private road #7 application and plans presented by Robert LaJeunesse be approved, as submitted, with the following conditions.

1. The developer will provide, at their own expense, street signs and posts per township specifications and maintenance of the signs and post to be the responsibility of the owner(s).
2. A covenant be established on the parcel deed identifying the private road status and the responsibility for road maintenance, right-of-way maintenance, and drainage maintenance.
3. That open access to the private road be maintained for essential public services.
4. The proposed road be named Anna's Trail.
5. That applicant comply with all requirements of the Marquette County Road Commission for connection to the county road system.
6. That the applicant obtain all the necessary permits from Local, State, and Federal agencies that are required for the development of the road.
7. Easement for the cul-de-sac be established, but the construction of the cul-de-sac not be required at this time, although should any additional use of the private road other than the proposed one single family residence be requested, the construction of the cul-de-sac must be completed prior to any zoning compliance being granted.
8. The easements for the private road including the cul-de-sac be recorded with the County Register of Deeds and a copy the recorded easement provided to the Township prior to any zoning compliance being granted.

MOTION CARRIED: 6-0.

Max Engle suggested that Mike Farrell go to the Board on December 6 regarding the number of private roads in Chocolay Township.

It was suggested that one way to deal with the private road issue would be when getting approval of a zoning compliance permit.

CONSIDER ROAD RANKING:

Mike Farrell gave a brief summary on how the road ranking was done.

He stated that if the road ranking came under maintenance, the Road Commission pays 100%, if the ranking came under construction, the cost is split 50% Road Commission and 50% Township.

Below is a list of road rankings:

Maintenance:

1. BAA (Mangum)
2. BH (Greenfield)
3. BH (Green Garden)
4. BLB (Country Lane)
5. Reservoir
6. CRBC (Little lake Road)

Gravel Roads recommended to be paved:

1. Old Kiln Road
2. Gentz Road

Mike Farrell stated that according to Chocolay Township Comprehensive Plan criteria for road ranking are locations, zoning districts, density, etc.

As far as recommendations from staff, we feel that Reservoir Street has had problems for a number of years, intersection is in bad shape.

Mangum Road - Has been brought up to quality standard from U S 41 back to Greenfield Road.

Greenfield and Country Lane - the last time Country Lane was ranked high and the residents on that road commented they didn't want the road paved.

One of the residents from Country Lane stated there were only three residences on that road the County goes through there with the grader once or twice and feels that is sufficient.

Mike Farrell stated then there is Old Kiln Road and Gentz Road as projects for paving a gravel road.

The staff recommends that Old Kiln Road be given substantial priority over Gentz Road. At this point there are only three residents that have access on Gentz Road.

In the future more use of Gentz Road is anticipated, but as a commercial use for a golf course and it is the staff's perception that the Township shouldn't put a large investment in a road if ultimately a commercial operation would be benefiting from the improvement.

It is the staff's recommendation that Old Kiln Road be paved before Gentz Road as this pertains to resident's use more than commercial use.

Anne Pecotte - 197 Old Kiln Road - the section of the road she would like to see pave is 3/10 of a mile, which is just beyond the houses on Old Kiln Road where people are living. There are six (6) homes in this area and at some times there are twenty (20) children and this does include a teaching family home. The population does fluctuate up and down.

Residents have been waiting approximately 18 years and has been ranked number 1 for 18 years. During this time one other road was ranked number 1 with Old Kiln. Residents on this road have been waiting a long time. More homes have been put in and feels that

this is more reason to have the road paved.

She has been in contact with John Beerling from the Road Commission. When the staff drove down Old Kiln Road it probably wasn't after a rain storm or not in the Spring of the year because it probably wouldn't be rated as it is. Right now the road is so bad that if you go more than 10 miles per hour you would damage your vehicle. Basically whenever there is a rain storm, there is an environmental concern because half of the road washes into Cedar Creek.

The road is in such poor deteriorating condition that the buses for the Marquette Area Public School systems have refused to drive the buses down this year and the children have to walk down to the paved corner of Cherry Creek Road. There is also a dust problem. Basically very muddy and would like to have the staff reconsider paving Old Kiln Road.

Inquired how long did the people on Mangum Road wait.

Estelle DeVooght stated they waited longer than 18 years and did more complaining.

Mike Farrell stated 1 1/2 miles of paving was being considered for Mangum Road.

Anne Pecotte stated the residents on Old Kiln Road is requesting 3/10 of a mile of paving.

Mike Donnelly - 150 Old Kiln Road - Glad Old Kiln is ranked #1 again. Two years ago when the ranking was done there wasn't a differential between paved and gravel roads. Both Old Kiln Road and Mangun Road were on the list. Mangum Road was ranked as number 1, Old Kiln was number 2. There was a cost analysis done by the Township and the County Road Commission as far as what the cost would be. The costs are probably listed in the past minutes.

There has been some other paving done, including some sections of Lakewood Lane had been resurfaced and part of Cherry Creek Road and put ahead of some of the other roads that were on the list. It seems like a never ending battled of getting up there on the list for paving, but then seems like going backwards. Now there is a differential between repaving and paving.

Mike Farrell stated that the list was combined a couple of years ago.

Mike Donnelly stated gravel road are the lowest on the totem pole. It is getting to a point that when you come around the curve there is a foot and half (1 1/2) ravine and when it rains, the side of the road washes out and go on the black top and it makes it very harry coming around that part of Cherry Creek Road that is all blacktopped because all the gravel washes on its and makes it just like an ice rink in the middle of Summer time because somebody puts on their brakes and slides across the gravel and slides onto the black top. It does wash down right into the creek time after time. He would hope that some of the roads that are not in residential areas that you are looking at, that Old Kiln Road being zoned residential that they be given priority over some of the roads that are zoned agricultural.

Estelle DeVooght feels that Little Lake Road should be removed from the road ranking list because from Shimon Court to Fassbender Road that they are they only ones that live there except possibly one other person that lives within that section.

Mike Farrell stated that the road ranking was broken into two (2) categories, that doesn't mean that the paved roads be upgraded before the gravel roads would be paved.

After discussion on the road ranking priority, Bill Sanders stated that the Planning Commission should look into the total points and come up road ranking.

Mike Farrell gave a perception where things stands as far as revenue sharing for the units of government. Ultimately the State may pull revenue sharing dollars away from us. We possibly may have to go out and pass millages for these types of things. The

Township commits itself to road construction projects and we sign a contract with the Marquette County Road Commission that is generally paid off over a four-five year period. The township commits itself to a number of dollars every year for that. As he perceives this, the Planning Commission will make their recommendation on the road ranking, then it will go to the Township Board who will take a look at those recommendations and would direct Larry Gould and myself to back to the Road Commission for costs on the top three if they concur with the recommendation of the Planning Commission. They could change the priority ranking.

Estelle DeVooght asked what happened to Fassbender Road? Did Chocolay have to kick in money or did the County pay for that?

Mike Farrell indicated that was all maintenance. That was completely covered by the Road Commission. The Road Commission determines if it is maintenance or construction.

Moved Bill Sanders, Estelle DeVooght supported that the Planning Commission recommend the following list for road ranking approval to be considered by the Township Board.

1. Reservoir
2. Old Kiln Road
3. Mangum Road
4. Greenfield Road
5. Green Garden Road
6. Little Lake Road
7. Gentz Road
8. Country Lane

MOTION CARRIED: 6-0.

Mike Farrell stated the Road Ranking List will be on the agenda for the Township Board for December 6, 1993.

DISCUSS LANDSCAPE LANGUAGE FOR ZONING ORDINANCE:

Mike Farrell introduced Jay Rithel, Intern that has been working on a presentation for the Landscape Ordinance.

Jay Rithel gave a presentation on the landscape ordinance.

It was suggested that the landscape ordinance be enforced for commercial businesses and multi family.

One of the suggestions were that it may be reviewed when obtaining a zoning compliance permit.

It was asked how long would it take for a landscape ordinance to be put together.

Mike Farrell said it could be possible to have a landscape ordinance in about six months.

It was also suggested that instead of having green space for every 18 parking spaces, maybe it could be a larger green area incorporated.

After much discussion on the landscape ordinance it was suggested that get the feeling what direction the Township Board wants on the landscape ordinance before the Planning Commission puts alot of work into and then nothing more is done on it.

Mike Farrell stated he would ask the Supervisor if the Landscape Ordinance could be put on the Township Board Agenda for the meeting on December 6, 1993 for discussion. He would like a couple of the members from the Planning Commission to attend also.

The Planning Commission thanked Jay Rithel for the fine presentation he gave regarding a Landscape Ordinance.

PLANNING DIRECTOR'S REPORT:

Mike Farrell stated that the Zoning Ordinance has been bought up to date through April 1993 (amendment 34 iii) and presented the Planning Commission members with a copy. Since then there are amendments 34 jjj, kkk, and lll to in the Zoning Ordinance. He

would like to update the Zoning Ordinance on every two years.

At the last Board meeting there was a discussion on creating an Ad Hoc Committee consisting of residents from the township to review our Zoning Ordinance on an annual basis with the Planning Commission for changes in the ordinance. He perceives this as a roll of the Planning Commission and also what he should be doing and whole heartedly accept help with it. If the Board is going to move ahead with this he would like to make recommendation to the Board that Ad Hoc Committee consists of a cross section of the residents of the Township. It is not just a group of business people that perceives that certain changes would be made. The Board has decided to look into this a little farther at the next Board meeting.

Recreation Ad Hoc Committee - Mike Farrell hopes to have an ad in the newspaper towards the end of November asking for applicants for the Recreation Ad Hoc Committee.

PUBLIC COMMENT:

Dave Wurster - concern on the access of business onto the highway very close to intersection and very hard to get in and out, right now the type of developments we have around here is not to bad and the amount of traffic that we have is not to bad. We already put one traffic light on Silver Creek and U.S. 41 intersection because the development has gotten so heavy and people couldn't get in and out of there. Thinks it may get worse with the development of Cherry Creek School, but Jack's entrance is very close to the intersection and traffic is backed up sometimes that you can't turn left into Jacks. Now that the new school is there traffic is only going to get heavier at times. We may want to think that down the road we do something about some of the things regarding access roads, traffic light or making sure that there is a stipulation that there is a certain distance from major intersections that driveway, etc. come in.

Mike Farrell stated that the Ad Hoc Committee to review the zoning ordinance could perceive as one of their recommendations to recommend some of the commercial and residential properties be changed.

Estelle DeVooght inquired if the person at the end of Little Lake Road and U.S. 41 was starting a used car lot. There are approximately six (6) vehicles that are advertised for sale.

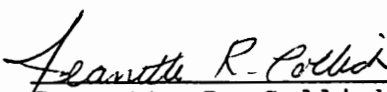

Mike Farrell stated he would talk to Mark Maki about it.

There being no further public comment, Bill Sanders closed the second public comment section of the Planning Commission.

ADJOURNMENT:

There being no further business the Planning Commission Meeting was closed at 10:10 p.m.

 Estelle DeVooght
 Planning Commission Secretary

 Jeanette R. Collick
 Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION

TUESDAY, NOVEMBER 23, 1993

PRESENT: Bill Sanders, Dave Wurster, Mike La Pointe, Estelle DeVooght, Max Engle,

ABSENT: Scott Emerson, Don Wickstrom

STAFF PRESENT: Mike Farrell, Director of Planning & Research
Jeanette Collick, Recording Secretary

PUBLIC PRESENT: Dan Trotochaud, Joe Gibbs

PUBLIC HEARING:

There were no public hearing.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 7:30 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Estelle DeVooght, Dave Wurster, Mike La Pointe, and Max Engle present.

Scott Emerson and Don Wickstrom absent.

APPROVAL OF THE MINUTES OF NOVEMBER 4, 1993:

Bill Sanders asked if there were any additions or corrections to the minutes of November 23rd 1993? There were no additions or corrections.

Max Engle moved, Estelle DeVooght supported that the minutes of the November 23rd 1993 Planning Commission be approved as presented.

MOTION CARRIED: 5-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders asked if there were any additions or changes for the agenda?

Mike Farrell stated he would like to add under New Business, item B. Private Roads.

Bill Sanders moved, Max Engle supported to approve the agenda with the addition of the discussion of private roads under item b.

MOTION CARRIED: 5-0.

PUBLIC COMMENT:

Bill Sanders asked if there were any public comments. There were none. The first Public Comment section of the Planning Commission was closed.

OLD BUSINESS:

A. CONSIDER REZONING #72 - PUD:

Dan Trotochaud stated that the only addition to the memo dated November 16, 1993 that was provided in the Planning Commission's agenda packets was concerning Item B. concerning quantitative data regarding density and ratios for Phase I. Phase II and III will be similar.

Mike Farrell stated he distributed a revised memo as provided by Dan Trotochaud to the Planning Commission before the meeting.

Some of the concerns that were discussed with Dan Trotochaud were solid waste, recycling-DNR, setbacks and noise.

Dan Trotochaud stated that there will be a compost site and a wood chip walking path.

The setback concern will be addressed in the final plans and will be followed as building code department regulations.

The noise concern - the walls will be double insulated for noise and fire proof.

Mike Farrell stated that the final plans will be substantially in compliance.

Estelle DeVooght inquired why the development is going under Gibbs Energy Ltd.

Mike Farrell stated Dan Trotochaud and Joe Gibbs were partners in the PUD. Joe Gibbs is the property owner. The applicant must be the property owner for a PUD.

There was also a concern on who was responsible for the maintenance. Dan Trotochaud stated that the Association will be the responsible for the maintenance.

The escrow account would be to cover the replacement and maintenance of the wastewater system should the developer/association fail to service the system.

After the concerns were discussed on the Rezoning #72 - R-1 to PUD the following motion was made.

Mike LaPointe moved, Bill Sanders supported that the Chocolay Township Planning Commission recommend to the Township Board that the requested rezoning #72 to rezone property from R-1 to PUD be granted preliminary approval based upon the plans and written text submitted with the following conditions:

Provide to the Township prior to Township final approval:

1. Final version of the master deed for the condominium development.
2. Approved Act 98 permit from the DNR.
3. Approved well permits.
4. Site plan showing plans for addressing of the various units.
5. Approved Soil Erosion Permit.
6. Approval for access to County Road System.
7. Final language, acceptable to the Township Board, for the escrow account to cover the replacement and maintenance of the wastewater system should the developer/association fail to service system.
9. Final site Plan.

MOTION CARRIED: 5-0.

LANDSCAPE LANGUAGE FOR ZONING ORDINANCE:

Mike Farrell provided the Planning Commission with material for language that could be considered concerning the landscape portion of the zoning ordinance.

He went over some of the information that was provided regarding green areas for parking lots, snowplowing, etc.

Dave Wurster stated that CABA had inquired about landscaping for U S 41 - Harvey.

It was noted that cannot put anything on the highway right-of-way.

After discussion on some of the information provided, Mike Farrell stated that the possible language for the landscape conversion into the Zoning Ordinance probably would be on the agenda for the

Planning Commission meeting in February.

NEW BUSINESS:

A. RESOURCE CONSERVATION & DEVELOPMENT - REQUEST FOR PROJECTS FOR CONSIDERATION (NO MATERIAL, WILL DISCUSS)

Mike Farrell stated this is an agency that request projects and provide technical support and possible funding.

He presented this to the Township Board, but had no response.

Some of the projects that have been worked on stabilization of banks, Chocolay Watershed Council.

At the present time they are working with the Chocolay Watershed Council on their By-laws and possible grants.

Other projects that may be considered are tourism, recreational opportunities, well capping.

Mike Farrell a possibility may be to doing something with the Township property on Green Garden Road.

There may be a possibility of a joint effort for a project with the Charter Township of Marquette.

Mike stated he wanted to inform the Planning Commission and possibly at their January meeting a list could be obtained for various projects that may be considered by the Resource Conservation & Development.

Mike LaPointe stated that other projects that have been work on are stabilization of Silver Creek, dry fire hydrants, soccerfield, and beach grass project.

PLANNING DIRECTOR'S REPORT:

Mike Farrell stated that there is a concern on the number of private roads and some problems with them.

One of the suggestions was that possibly the driveway versus a private road.

It was stated that maybe requirements for private roads could be changed. Issues concerning private roads may be discussed at a future meeting of the Planning Commission.

PUBLIC COMMENT:

There was none.

ADJOURNMENT:

There being no further business the Planning Commission Meeting was closed at 9:10 p.m.

CHOCOLAY TOWNSHIP PLANNING COMMISSION

TUESDAY, DECEMBER 28, 1993

AS CORRECTED

PRESENT: Bill Sanders, Mike La Pointe, Estelle De Vooght, Max Engle, Don Wickstrom, Scott Emerson

ABSENT: Dave Wurster

STAFF PRESENT: Mike Farrell, Director of Planning & Research
Jeanette R. Collick, Recording Secretary

NO PUBLIC PRESENT:

PUBLIC HEARING:

There were no public hearings.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 7:35 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Estelle DeVooght, Mike La Pointe, Max Engle and Don Wickstrom present.

Scott Emerson and Dave Wurster were absent:

APPROVAL OF THE MINUTES OF NOVEMBER 23, 1993:

Bill Sanders asked if there were any additions or corrections to the minutes of November 23, 1993? There were no additions or corrections.

Mike La Pointe moved, Estelle DeVooght supported that the minutes of November 23, 1993 be approved as presented.

MOTION CARRIED 5-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders asked if there were any additions or changes for the agenda?

There were none.

Bill Sanders moved, Max Engle supported the approval of the agenda as presented.

MOTION CARRIED: 5-0.

PUBLIC COMMENT:

There was none.

OLD BUSINESS:

DISCUSS HOME DEFINITIONS AND GENERAL STANDARDS LANGUAGE:

Mike Farrell stated under home definitions there was a concern on the following:

DWELLING, TWO-FAMILY, a structure containing not more than two separate dwelling unit designed for residential use and conforming in all respects to the standards set forth in Section 401.

There was a concern regarding the renting of a room within the dwelling. It was stated that this couldn't be controlled.

It was suggested that the definition of two family be eliminated and be incorporated in multi-family. The definition would also include duplexes.

Another concern the board had was:

SECTION 401 GENERAL REGULATIONS:

(A) If computing the required floor area not more than 50 percent of the minimum floor area in the structure shall be below the average level of the finished ground surface adjacent to the exterior walls of the dwelling.

Mike Farrell informed the Planning Commission that he is talking with a representative from the County Building Codes Department for the proper egress and ingress regulations.

Mike will bring the language back to the Planning Commission in January and then will take the suggested language back to the Township Board in February 1994.

Bill Sanders stated that the Township language is more stringent than the Building Codes. If it wouldn't be a conflict with the Building Codes, possibly "livable space" could be incorporated in the language.

Estelle DeVooght moved, Mike LaPointe supported that this be tabled until the next Planning Commission Meeting when further information can be obtained.

MOTION CARRIED: 5-0.

DISCUSS LANDSCAPE LANGUAGE FOR ZONING ORDINANCE:

Mike Farrell stated that with budget restraints and limited manpower in the Township creating a wood lot/landscape ordinance wouldn't be feasible.

Commercial Landscape - parking lots would be advisable to enforce with our zoning ordinance.

Mike also stated that there are books at the Township Office concerning landscape ordinances that are available for the Planning Commission Members to use.

Scott Emerson arrived at the meeting at 7:50 p.m.

Landscaping - Parking Area Examples:

1. Landscape Strip
2. Perimeter
3. Interior Parking

Commercial/Multi-family:

Must be a through fare - area Right of Way to parking area. Our present ordinance deals with percentage of parking areas.

Setbacks from Right of Way.

Mike gave examples of a landscape ordinance used by Prince George County - East Coast. Requirements are established for three areas: along the public right-of-way, along the parking lot's perimeter, and in the lot's interior.

LANDSCAPED STRIP:
Option 1: - Parking Lot Landscaped Strip:

Minimum 10' - wide landscaped strip - planted with a minimum of one shade tree and 10 shrubs per 35 linear feet of street frontage.

Option 2: - Landscaped Strip:

Earth berm placed with a minimum of one shade tree and five shrubs per 35 linear feet.

Option 3: - Landscaped Strip:

Plant landscaped strip along street frontage with a minimum of one shrub tree and five shrubs per 35 linear feet.

Option 4: - Parking Lot Landscaped Strip:

Plant landscaped strip along street frontage with a minimum of one shade tree per 35 linear feet.

Option 5: - Parking Lot Landscaped Strip:

Existing woodlands:

Option 6: - Parking Lot Perimeter:

10' landscaped strip, maximum tree planting area - within property line.

It was also suggested that maybe we shouldn't be dealing with the number of parking spaces, but deal with the total parking area.

Estelle DeVoght stated that wood chips and rocks shouldn't be considered green space.

Mike suggested maybe it should be incorporated in our zoning ordinance with green space, not just shrubs.

Max Engle stated that the maintenance of this landscaping should be a priority.

Scott Emerson stated it may be better off to put landscaping in for a low maintenance.

Mike Farrell suggested a buffer between two parking area for noise, lights, etc. Shrubs to be groomed.

It was stated we have interior landscaping in our present ordinance. Certain percentage left as green area - commercial.

It was suggested that square footage may be better to go with than the number of spaces.

Scott Emerson stated that there are some ordinances that are more stringent than ours.

Scott Emerson suggested with easy maintenance we need some control on types of species, possibly approval by the Soil Conservation District.

Mike La Pointe - the Soil Conservation does suggest different types of species for different zones that will grow.

Mike Farrell gave the example of what was stated in the Township's Zoning Ordinance of what not to be planted.

Bills Sanders stated we shouldn't be too restrictive on the types of species that should be planted.

Don Wickstrom gave an example of an incident where Poplar trees had cracked.

Scott Emerson suggested that trees that may be bulldozed be replaced by ones that would fit the environment of the area,

Estelle DeVooght commented on the excellent job the Kingdom Hall did on preserving the natural habitat of the area.

Scott Emerson suggested that possibly the County hire a person to oversee landscaping enforcement.

It was suggested that possibly incentive/credits for commercial/multi family to leave certain species of trees, etc.

It was also suggested that possibly an Ad Hoc Committee be set up for encouraging the use of certain species to maintain.

It was also suggested that permits for landscaping to be able to have signs more closer to the edge of the property right-of-way advertising for the business.

NEW BUSINESS:

REVIEW ZONING ORDINANCE FOR POSSIBLY CHANGES:

Mike Farrell stated the township is required by law for the Planning Commission to review the Zoning Ordinance for possible changes.

He also discussed changes with Mark Making as problems and/or changes he perceived.

The following list of suggested changes and/or problems:

1. Camps as recreation structures in RP Districts:

Eight hundred square feet is presently required. A possible change would be to reduce size and establish a larger setback.

2. Commercial Districts - C-1, C-2, C-3:

No minimum lot size/frontage:

Mike Farrell gave the example of the Boy Scout Office has two or three businesses on one lot and wants to split, but there is no minimum size required.

A possibility for new development would be to require a larger lot.

It was also stated that some of the businesses can't meet the minimum parking requirements.

3. Private Roads:

It was stated in our Zoning Ordinance that all private roads must be designated as trails.

This should be changed.

4. Submittal of two names:

It was also stated that when proposing to develop a private road, you are required to submit two names.

There is no conflict with this and may not be necessary.

5. Ordinance more stringent on standards for private roads:

We require an improved gravel base.

A possibility would be to extend driveways so the persons are not required to go through the private road process.

6. Mining Mineral Extraction:

Top soil product to be mined should be more defined.

A possibility would be to require a grading permit for top soil. The permit would put the person removing the top soil on notice. Possible spot checks on the removal of top soil and designate what his top soil.

This would be considered a top priority item to be worked on.

If a grading permit is obtained, a possibility to be exempt if a soil erosion permit is obtained.

The owner of the land has to obtain a permit.

Language for the removal of Top Soil is priority item to be worked on.

7. Parking Spaces Requirement:

Should be revamped for certain types of uses.

8. Zones:

Mike Farrell presented and discussed the various zones and their locations in Chocolay Township.

We had some requests for multi-family, but not located in our sewer district.

C-1 & R-3 - spot zoned.

Kawbawgam Location:

There was a question on a zoning compliance permit for Mrs. Glass's property. It was stated he does have a zoning permit.

Most residents do not want it zoned for commercial.

Brookfield Subdivision:

Brookfield Subdivision - In this subdivision land can be bought and mobiles homes can be placed on the land.

C-2 - (U S 41 S, Mangum Road)- Tire Shop (Perry's Party Store-location), Trudell's, Grover Restaurant, Engle (Nook Gallery, Kassels.

C-3 Superior Trucks:

In this area the township owns a strip of property that was obtained for recreational activities.

There is limitation on the disposition of the land. It was suggested a possible use would be a recreational trail.

The Township presently has two (2) recreational areas (Silver Creek Recreation Area and Beaver Grove Recreation Area) and there are projects that need to be completed as stated in the Comprehensive Plan.

PUD - Angel Home:

Located on Cherry Creek Road. There is presently a three (3) year hold on this project.

RR-4 - Trailer Court - expansion on Willow road.

Commercial Business:

It was stated - Wahlstrom's, Blondeau, and Meister has some parcels to expand in this area.

There hasn't been a large demand for commercial.

It was asked if we want to allow for expansion for commercial on M-28?
 Don Wickstrom inquired when Wahlstrom filled in the property, what was proposed to be built?

Mike Farrell stated it was proposed for multi-family, but a wetlands permit couldn't be obtained.

Scott Emerson stated possibly C-3 could be converted to C-2.

Resource Conservation & Development - request for projects for consideration:

After discussion the following ideas for projects that may be considered were:

1. Bike Path on Cherry Creek Road & Ortman Road.
2. Overpass to Cherry Creek School.
3. Stabilization - Old Kilm Road.
4. Recreation Property - Green Garden Road.

PUBLIC COMMENT:

Mike LaPointe inquired about the Ad Hoc Committee for Recreation.

Mike Farrell stated this was put on hold and would be formed in the near future.

PLANNING DIRECTOR'S REPORT:

Mike Farrell gave a report on the Chocolay Watershed Council.

He stated that approval of the by-laws have come through.

A public notice advertising for a Planner would be advertised in the newspaper.

It was stated a student intern provided information of property owners that the watershed pertained to.

Newsletter and guidelines for council members were established.

The council members will consist of one member from the townships involved, excluding Chocolay Township. Chocolay Township will have two (2) representatives. The reason for the two (2) representatives is that Chocolay Township has taken the lead role.

The other committee members will be from the DNR (2 members), Health Department, Road Commission, Drain Commissioner and five (5) committee members at large.

The Watershed Council will serve as an advisory group for concerns for run-offs, etc. This will be informational, not regulatory.

There will be a demonstration on Karen Road in the Spring of 1994 for sedimentation process.

Mike Farrell also gave an update on the well water contamination in the Harvey area. He stated that the number of contaminated wells have increased from six (6) to twelve (12). Those residents are on bottled water. He stated that the DNR, Health Department and the Township is trying to see what water system would be best. Either a public water system or a new well to be driven.

It was asked if the source of the contamination problem has been obtained. No it hasn't.

The bottled water is being provided under Act 307.

Remediation has been taken for about six (6) to eight (8) months.

The DNR decides what way is best.

It was asked that Mike Farrell obtain what impact the Township has on the water system and bring the information back to the Planning Commission.

It was stated that when the Kawbawgam area wells were having problems that they were monitored on a quarterly basis.

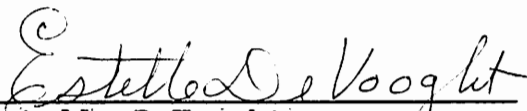

It was also stated that Gentz's and Gibb's wells were both monitored.

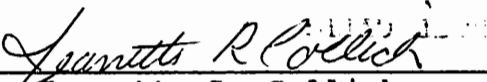

PUBLIC COMMENT:

There was none.

ADJOURNMENT:

There being no further business, the Planning Commission Meeting was adjourned at 10:25 p.m.

CHOCOLAY TOWNSHIP PLANNING COMMISSION

CHOCOLAY TOWNSHIP PLANNING COMMISSION

TUESDAY, JANUARY 25, 1994

AS CORRECTED

PRESENT: Bill Sanders, Dave Wurster, Estelle DeVooght, Max Engle,

ABSENT: Scott Emerson, Don Wickstrom & Mike La Pointe

STAFF PRESENT: Mike Farrell, Director of Planning & Research
Jeanette Collick, Recording Secretary

PUBLIC PRESENT: Cathy DeVooght, John DeVooght, Sharon M. Burns

PUBLIC HEARING:

There were no public hearings.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 7:33 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Estelle DeVooght, Dave Wurster, and Max Engle present.

Scott Emerson, Mike La Pointe and Don Wickstrom were absent.

APPROVAL OF THE MINUTES OF DECEMBER 28, 1993:

Bill Sanders asked if there were any additions or corrections to the minutes of December 28, 1993

Estelle DeVooght noted that there was a grammar error on page 4 - third paragraph it reads: Estelle DeVooght stated that wood chips and rocks doesn't seem it should be considered green space.

It should be corrected to read: Estelle DeVooght stated that wood chips and rocks shouldn't be considered green space.

Bill Sanders stated that on page 4, paragraph 11 it states: Bill Sanders suggested by using a minimum landscaping it would give developers more flexibility.

Paragraph 11 should be deleted from the minutes.

Bill Sanders asked if there were any more correction or additions to the minutes of December 28, 1993. There were none.

Estelle DeVooght moved, Max Engle supported that the minutes of December 28, 1993 be approved as corrected.

Motion Carried: 4-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders asked if there were any additions or changes for the agenda?

Cathy DeVooght - 6341 U S 41 S - stated she distributed information to the Planning Commission members regarding rezoning #69 regarding the Marquette County Planning Commission's recommendation and would like to request that the Chocolay Township Planning Commission consider the item at the meeting tonight or the Planning Commission Meeting in February.

The Planning Commission stated they would consider hearing the information regarding Rezoning #69 tonight.

Max Engle moved, Bill Sanders supported that an addition to the agenda under New Business A - Consider Rezoning #69 be added to the agenda and be considered before Old Business.

Motion Carried 4-0.

Bill Sanders moved, Max Engle supported the approval of the agenda with the addition of New Business A - Consider Rezoning #69 as discussed.

Motion Carried 4-0.

PUBLIC COMMENT:

Bill Sanders asked if any of the public had any comments or wanted to reserve time during any particular agenda item?

Cathy DeVooght stated she would like to reserve time under New Business, A - Consider Rezoning #69.

Bill Sanders asked if there were any further comments under the first Public Comment section. There were none. They first Public Comment section was closed.

NEW BUSINESS:

CONSIDER REZONING #69:

Mike Farrell stated that the Chocolay Township Board requested the Township Planning Commission to review the Rezoning #69 based on the recommendations made by the Marquette County Planning Commission and bring back comments to the Township Board after the Planning Commission has reviewed the Marquette County Planning Commission's recommendations.

Mike Farrell presented an overlay of Section 28. He is recommending to the Planning Commission not to rezone #69 based on the same reasons that was stated in the June 23, 1993 Planning Commission Meeting minutes.

Estelle DeVooght inquired if the Township Planning Commission or the Township Board would make the final decision.

Mike Farrell stated that rezoning #69 is dead. This is a whole new process.

Bill Sanders stated we either agree with the County Planning Commission's recommendations or stick to the Township Planning Commission's recommendations as stated in the June 22, 1993 minutes.

Cathy DeVooght read the letter dated January 15, 1994 that she delivered to all the Planning Commission Members and went over the history and information pertaining to rezoning #69. She feels that what she is requesting is reasonable and RR-2 and RB are compatible with each other. The land is not prime farm or forest land.

She also stated that before the present Zoning Ordinance was adopted, the Wieteks made approximately six (6) property splits.

Scott Emerson arrived at the meeting at 7:55 p.m.

Cathy DeVooght also stated that basically there are 1-5 acre lots and 10 acre lots. She stated there are two (2) farms in the RR-2 District, which are the Reader Farm on Greenfield Road and the Heitman Farm off U S 41 South.

John DeVooght stated the land pertaining to this rezoning is not good farm land.

The Planning Commission Members discussed various issues regarding Section 28 and pertaining to rezoning #69 including the following:

Extend public services, the 1977 Zoning Ordinance and map, spot zoning, the Comprehensive Plan and the ability to utilize land.

Bill Sanders moved, Scott Emerson supported that the Planning Commission recommend to the Chocolay Township Board not to consider

rezoning Section 28 (rezoning #69) as recommended by the Marquette County Planning Commission on July 9, 1994, but for the reasons stated at the Chocolay Township Planning Commission Meeting of June 22, 1993.

Motion Carried: 3-2

OLD BUSINESS:

A. Discuss Home Definitions and General Standards Language:

Mike Farrell stated that the language for Home Definitions and General Standards as discussed at a previous Planning Commission went to the Township Board for their review and discussion for approval. They referred it back to the Township Planning Commission for more review and changes.

After discussion and comments by the Planning Commission the following motion was made:

Scott Emerson moved, Bills Sanders supported that language pertaining to Home Definitions and General Standards be approved as discussed and referred back to the Chocolay Board for approval.

DWELLING, SINGLE-FAMILY, a structure containing not more than one dwelling unit designed for residential use and conforming in all respects to the standards set forth in Section 401.

DWELLING, MULTI-FAMILY, a structure containing two more dwelling units designed for residential use, with or without separate kitchens or dining facilities, and conforming in all respects to the standards set forth in Section 401. These may include apartment houses, apartment hotels, rooming houses, boarding houses, fraternities, sororities, dormitories, row houses, townhouses, and similar housing types, but not including hotels, motels, hospitals, or nursing homes.

(Replace Sec. 401 General Regulations with)

SECTION 401 GENERAL REGULATIONS

Every single-family dwelling and multi-family dwelling shall have a minimum floor area of 800 square feet, and every dwelling unit in a multi-family dwelling shall have a minimum floor area of 600 square feet, provided:

(A) It has a minimum width across any front, side or rear elevation of 20 feet and complies in all respects with the Marquette County Building Code, including minimum heights for habitable rooms. Where a dwelling is required by law to comply with any federal or state standards or regulations for construction and where such standards or regulations for construction are different than those imposed by the Marquette County Building Code, then and in that event such federal or state standards or regulations shall apply.

(B) It is firmly attached to a permanent foundation constructed on a site in accordance with the Marquette County Building Code and constructed of such material and type as required in the applicable building code for residential dwellings. In the event that the dwelling is a mobile home, as defined herein, such dwelling shall, in addition thereto, be installed pursuant to the manufacturer's setup instructions and shall be secured to the premises by an anchoring system or device complying with the rules and regulations of the Michigan Mobile Home Commission.

(C) In the event that a dwelling is a mobile home as defined herein, each mobile home shall be installed with the wheels and under carriage removed. Additionally, no dwelling shall have any exposed towing mechanism, under carriage or chassis.

(D) The dwelling is connected to a public sewer and water supply or to such private facilities approved by the local health department.

(E) The dwelling complies with all pertinent building and fire codes. In the case of a mobile home, all construction and all plumbing, electrical apparatus and insulation within and connected to said mobile home shall be of a type and quality conforming to the "Mobile Home Construction and Safety Standards" as promulgated by the United States Department of Housing and Urban Development, being 24 CFR 3280, and as from time to time such standards may be amended. Additionally, all dwellings shall meet or exceed all applicable roof snow load and strength requirements.

(F) The foregoing shall not apply to mobile homes located in a licensed mobile home park or zoning district R-2 except to the extent required by state or federal laws or otherwise specifically required in the ordinance of the Township pertaining to such parks and zoning district.

Motion Carried: 5-0.

B. Discuss Landscape Language for Zoning Ordinances:

Mike Farrell provided the Planning Commission Members with material on various types of landscape information pertaining to a landscape ordinance.

After discussion on the landscape issue it was stated that landscape language is a high priority item and be considered for an agenda item for the February Planning Commission Meeting.

Some of the comments and concerns were:

1. More green space in parking areas.
2. Landscape be considered part of the Zoning Ordinance.
3. Enforcement may be a problem.
4. Preservation of wood lot areas.
5. Information be distributed when a Zoning Compliance Permit is obtained.
6. Alternative for enforcement may be able to be on a cost sharing basis with other townships in the area.

Mike Farrell stated Chocolay Township is a member of the Marquette County Townships Association (MCTA) and would inquire if there is any interest from other townships concerning the cost sharing of enforcing a landscape ordinance.

It was also requested that the survey that was done within the last couple of years be distributed to the Planning Commission Members.

C. Zoning Ordinance Changes - Sign Regulations.

Mike Farrell distributed suggested language to the Planning Commission members pertaining to signs. There was a general discussion on the following:

SEC. 809 TOURIST DIRECTIONAL SIGNS.

In addition to the signs permitted in Section 802, 803, and 804, off-premises signs directing motorists to facilities within the township required by tourists, hunters, and fishermen shall be permitted upon permit granted by the Zoning Board of Appeals upon finding that substantial number of motorists who might seek the advertised establishments pass the proposed location; that such establishment has no other sign visible from the same road; that consent of the property owner has been obtained; and that placement of the sign will not cause any hazard or significant obstruction of any scenic view; provided, however, no such sign shall have any area exceeding 100 square feet or a height in excess of 10 feet.

Tourist directional signs located in any R-1 or R-2 District shall not exceed 32 square feet or a height in excess of 10 feet. Signs permitted by this section must not be located within any state highway, county road or private road right of way or easement.

Mike Farrell commented that some tourists, hunters, fishermen, etc find locations of golf courses, recreational areas, etc. hard to find without some type of sign information.

SEC. 811 SIGNS PERMITTED IN RR-2 AND RP IN CONJUNCTION WITH CONDITIONAL USES:

Signs permitted in RR-2 and RP in conjunction with conditional uses shall not exceed 60 square feet and a height not exceeding 10 feet is permitted. Signs permitted by this section must not be located within any state highway, county road or private road right of way or easement. [shall be subject to the height and setback requirements of Sec. 300.]

At present tourist signs are not permitted in the R-1 or R-2 district. Off premise signs are needed for Chocolay Downs Golf Course and Gentz Golf Course.

SEC. 812 SIGNS PERMITTED FOR GOLF COURSES

One sign identifying each golf course, having an area not exceeding 60 square feet and a height not exceeding 10 feet is permitted. Signs permitted by this section must not be located within any state highway, county road or private road right of way or easement.

Mike Farrell commented Chocolay Downs Golf Course is non-conforming advertising in a subdivision. Permit was good for two (2) years advertising the located of the Golf Course. Permit expired January 1, 1994.

Must obtain permission from adjacent property owners. Property owners has to be off the right-of-way.

No lighted signs.

Sign would be on private property.

State Highway Department doesn't foresee the sign as a problem.

Waiting word from the County Road Commission.

Present sign is less than 32 square feet.

Planning Commission members doesn't foresee Chocolay Downs Golf Course as a problem.

Estelle DeVooght inquired when Gentz's Golf Course would be opening?

Mike Farrell stated possibly three (3) holes in the Summer of 1994.

Mark Maki's Memo - Regarding Suggested Zoning Amendments

Mike Farrell stated some of the issues address in the memo from Mark were discussed at a previous Planning Commission Meeting.

Section 212: RP District:

- * Remove campgrounds, day camps, winter sports facilities, kennels, trails from permitted to Conditional Uses on 20 acres. This will insure that these uses are compatible and lot sizes adequate.

Max Engle stated that possibly kennels could become a problem.

- * Add camps (recreational structures) to RP with setbacks.

Comment was made regarding the possibility of reducing the minimum square footage, but restrict to certain zoning districts.

Estelle DeVooght inquire about day camps.

Mike Farrell stated that in the present Zoning Ordinance there is no definition of day camps.

Currently no provision for camps in Zoning Ordinance.

Section 300:

*1. Put minimum lot sizes for C-1, C-2, C-3 areas. This will provide for adequate frontage for useable lots and unnecessary driveway culverts.

Comment was made that there is a need for minimum lot size for C-2, C-3 areas.

2. Spell out height for detached accessory buildings (14 feet).

Comment was made that the Township Board in the past was not in favor of height requirements.

3. Increase green areas in Commercial areas from 10 to 15%.

The Planning Commission members agreed that this is a priority item and should be considered in the Zoning Ordinance.

4. Make it illegal to create lots which do not meet the minimum set forth in each district. The Township has spent 1,000's of dollars in court fighting over these unbuildable lots. It's better to stop it right away.

It was suggested a way to avoid this would be possibly at the Register of Deeds Office in that they wouldn't accept any non-conforming lots if it didn't fall within the township's zoning.

It was also stated that when a person enters into a land contract it is not required to record them at the Register of Deeds Office.

Section 402 Frontage Requirements (Private Roads):

Change requirement of two names to one.

The Planning Commission members felt one (1) name was sufficient.

Change private road designation requiring "trails" name (delete) as this no longer realistic. private roads are being developed in residential areas now.

The Planning Commission Members agreed that for future requirements for private roads that either blvd. or lane be used, not trails.

More restrictive road requirements in R-1 such as paving versus gravel.

The Planning Commission Members agreed with Mark's suggestion regarding restrictive road requirements, such as paving versus gravel.

Section 403 Waterfront Setback:

Require setback for all waterfront lots.

30' setback to preserve natural area should be changed and required to protect the waterfront, flood way, etc. on all lots.

It was suggested that we may want to require setbacks pertaining to waterfront.

Scott Emerson suggested that possibly the Chocoy Watershed Council to go over the scientific criteria for the Chocoy River.

Parking:

Increase parking spaces for offices 1 per 300 square feet to 1 per 200 square feet.

Scott Emerson suggested that this could possibly be considered in the landscape ordinance.

Mike Farrell stated he would look in the Planning Magazine dealing with parking areas over the next couple of months regarding stalls, large to small and the pros and cons.

Mining Text:

Eliminate topsoil from requiring a mining permit. It makes no sense to have a two month permit process for a 1 week removal process.

It was suggested that possibly a grading permit process be obtained for the removal of top soil.

PLANNING DIRECTOR'S REPORT:

Mike Farrell discussed the following issues during the Planning Director's Report:

Faith Assembly of God Church will be coming back to the Planning Commission for consideration of the final approval of the Conditional Use Permit.

At the February Planning Commission meeting zoning issues and the map should be an item of priority.

Mike stated that the Annual Report of the Planning Commission were distributed. Urged the Planning Commission members to review it and be prepared to add or delete items for the February Planning Commission Meeting to put in the final report.

He stated he attended a MTA conference down state and one of the issues he brought up was to have more workshops for continuing education of Planning Commissions. It was felt that the lack of attendance on previous workshops were not well attended and the nearest one would probably be in the area of Gaylord. Some of the Township Planning Commission members felt that the workshops were well attended when they were in Marquette.

Mike stated he would continue to provide the Planning Commission with handouts on landscaping information. He also stated there are other booklets in the office that the Planning Commission Members could check out.

Mike stated that the Planning Commission members discuss concepts of planning at a regular meeting.

Another topic on the February Planning Commission Meeting will be the renaming of Willow Road.

Mike checked with the township attorney on the precedent of the renaming of the road. There are no precedent in the renaming of any road.

The applicant has submitted a new name which is Riverd Rivard Trail.

Mike stated safety issues should be a priority in this case. Mike will try to have someone from emergency personnel from the various emergency services to provide information regarding the response on locating the correct entrance on Willow Road when various emergency situations have occurred.

Prioritized zoning issues should be done at a Planning Commission meeting.

A calendar on the various schedule of events that will be taken up at the Planning Commission Meetings will be prepared.

Hotel Place - It was stated that the deed excludes the road.

Leo Glass's property on Kawbawgam Road. It was stated that it is no-conforming.

It was also asked if anything has been requested on the Wahlstrom's property. Not at this point.

PUBLIC COMMENT:

There was none.

ADJOURNMENT:

There being no further business the Planning Commission Meeting was closed at 10:15 p.m.

CHOCOLAY TOWNSHIP PLANNING COMMISSION

TUESDAY, FEBRUARY 22, 1994

AS CORRECTED

PRESENT: Bill Sanders, Dave Wurster, Mike La Pointe, Estelle DeVooght, Don Wickstrom

ABSENT: Scott Emerson & Max Engle

STAFF PRESENT: Mike Farrell, Director of Planning & Research
Jeanette Collick, Recording Secretary

PUBLIC PRESENT: Mark Larson, John Evans, Sharon Burns, Gary Gorsalitz, Christine Gorsalitz

PUBLIC HEARING:

There were no public hearings.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 7:33 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Dave Wurster, Estelle DeVooght, Mike La Pointe and Don Wickstrom present.

Scott Emerson and Max Engle were absent.

APPROVAL OF THE MINUTES OF JANUARY 25, 1994:

Bill Sanders asked if there were any additions or corrections to the minutes of January 25, 1994?

Mike Farrell noted that on page 7 it read comment was made that there is a need for minimum lot size for C-2, C-2, C-3 areas.

It should read comment was made there is a need for minimum lot size for C-1, C-2, C-3 areas.

Mike Farrell also noted that on page 9 last sentence reads the applicant has submitted a new name which is Rivord Trail.

It should read the applicant has submitted a new name which is Rivard Trail.

Bill Sanders asked if there were any more correction or additions to the minutes of December 28, 1993. There were none.

Bill Sanders moved, Estelle De Vooght supported that the minutes of January 25, 1994 be approved as corrected.

Motion Carried: 5-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders asked if there were any additions or changes for the agenda?

There were none.

Estelle De Vooght moved, Don Wickstrom supported that the Agenda be approved as presented.

Motion Carried 5-0.

PUBLIC COMMENT:

Bill Sanders asked if any of the public had any comments or wanted to reserve time during any particular agenda item?

Gary Gorsalitz - 915 Willow Road requested to reserve time under Old Business A - Consider Request to Change Willow Road Name.

Mark Larson - 333A W. Park requested to reserve time under Old Business B - Consider Assembly of God Church - Conditional Use.

Christine Gorsalitz - 915 Willow Road requested to reserve time under Old Business A - Consider Request to Change Willow Road Name.

Bill Sanders asked if there were any further comments under the first Public Comment section. There were none. The first Public Comment section was closed.

OLD BUSINESS:

A. CONSIDER REQUEST TO CHANGE WILLOW ROAD NAME:

Mike Farrell read previous letters from property owners that were presented at the Planning Commission Meeting held on July 27, 1993. He also went over comments made by property owners made at the July 27, 1993 Planning Commission Meeting.

Scott Emerson arrived at the Planning Commission Meeting at 7:45 p.m.

Estelle De Vooght read letters from Greg Zyburt (Chocolay Township Police Chief), Shirley Murphy Furr, Mike Farrell and Chocolay Township Volunteer Fire Department stating that they are in favor of Willow Road name being changed to Rivard Trail.

Gary Gorsalitz - 915 Willow Road - residing since 1977 commented he feels the road should not be changed for the following reasons:

1. Potential Costs
2. How many wrong access incidents have occurred before the 911 system?
3. How many from South end of Willow Road have occurred?
4. Police Department and Fire Department - knows addresses from above 900 Willow Road can be accessed from Ortman Road.
5. When a 911 phone call is made the address is automatically given.
6. Police Department & Fire Department have maps and are professional enough to find the directions.
7. Expense - professional business - how many incidents have occurred at the North end prior to 922 start up?
8. Inconvenient request - feels the request is being used as a convenience - not as an emergency basis.
9. Taxes are being paid.

Christine Gorsalitz - 915 Willow Road - commented on the following:

1. Residence since 1977.
2. 1979 road was blocked off. Houses were marked.
3. Given assurance by Fire Department personnel and access was very noticeable for access by Ortman Road.
4. Police response before 911 system - response was within 10 minutes. Her daughter called and a police officer responded in sufficient time.
5. Young children have a hard time remembering addresses. Children know their address and if the Road name is changed, they may give the old address and may not remember the new name. Feels this should be considered a safety factor.
6. When emergency calls have been made, they have been responded

to adequately.

Mike Farrell presented the area 900 and above on the overlay.

Bill Sanders inquired how many property owners were for and against the road name previously.

Mike Farrell stated 5 out of 7 property owners were against the road name being changed.

Don Wickstrom inquired why the Police and Fire Department considered the safety concern now? Why wasn't it brought to the Planning Commission before?

He also commented it is an expense to the people that this change would affect.

Dave Wurster inquired if Willow Road would ever go through?

Mike Farrell state - no, Willow Road is a private road.

Gary Gorsalitz - 915 Willow Road stated Willow Road was blocked off in 1979. There was a fence across and could be opened up.

After much discussion on the name change of Willow Road the following questions and comments were given:

Willow Road is a private road and an unusual situation.

Willow Road is not up to public standards.

Not enough right-of-way.

Lots were sold without ownership of the road.

911 calls -- a non-resident may not know the area and address numbering of Willow Road and you may make a mistake on the correct access to use.

According to our township attorney - road is owned by one person and that person is making the request and not precedent not being able to change the name.

Has anything been done by the property owners regarding the legitimate expense. Possibly a date be set to give property owners to change address on checking accounts, savings accounts, letterhead, credit cards, etc.

Willow Road is an old issue and there are new staff on fire department and other emergency services that are not familiar with Willow road.

Does the Planning Commission have the right to deny the road name change?

Property owner wants to change the name in a memorial to her mother.

It was suggested possible a N & S Willow Road for a name change instead of Rivard Trail.

It was noted that the request to change the road name to Rivard Trail and there was no conflict with the proposed name.

It was stated we must rely on the Police and Fire Department regarding their opinion for emergency purposes and changing the name of the Road.

Applicant has went through the application procedures.

It was asked if the applicant had been approached on the costs that would occur to the property owners when/if the road name would be changed.

The applicant has not been approached on this .

Mike Farrell stated he did tell the owner costs would be occurred by the property owners, but did never talked actual dollars and cents.

It was asked when this name change went to the Township Board that a possible time frame in changing the name and addresses to be incorporated with their recommendation such as 6 months to a year.

What is stopping the applicant to change the name in the future again?

Mike Farrell stated the Township Board has rights to name the road in the community.

Mike Farrell stated that in talking with the zoning administrator that if an emergency occurred and the emergency personnel went the wrong way on the road and didn't perceive the road name change and something happened, the township may be liable.

It was felt that if the time was 6 months to 1 year it would just provide more time to spread the cash expense for the property owners that the road name would affect.

Estelle De Vooght moved, Bill Sanders supported that the Planning Commission recommend to have the name of Willow Road with access off Ortman Road to be changed to Rivard Trail and take affect on October 1, 1994.

MOTION CARRIED 4-2.

B. CONSIDER ASSEMBLY OF GOD CHURCH - CONDITIONAL USE:

Mike Farrell stated the applicant, Faith Assembly of God Church, was provided a conditional use permit February 23, 1993 Planning Commission Minutes to build a church at the property on Dana Lane. The Conditional Use Permit was granted for the purchase of the land. One of the conditions was that the final plans be submitted to the Planning Commission for review and final approval for compliance with original plans. Mike stated he has reviewed the final plans and feel they do not constitute a major change from the plans submitted.

Mark Larson - 333A Park Street - Marquette - Applicant for Faith Assembly of God has went over the final plans with Mike Farrell and Mark Maki.

Mark Larson made comments on the following:

1. Landscaping will be done in the Spring. Trees will be planted that will grow in the area.
2. Parking lot paving - The parking lot will not be paved until the money comes in. A reprocessed asphalt will be used until then.
3. Vinyl siding will be used on the two sides not facing the road. The reason for this is that the vinyl siding could be removed if an addition would be built.

The following questions and comments were made by the Planning Commission members.

What action does the Planning Commission have to do to approve the site plan?

Mike Farrell stated that conditions 4 - 8 have to be complied with and may want to include condition #1 - vegetation.

The Planning Commission Members commented on the very nice job that the Faith Assembly of God Church has done to preserve the land and the natural preservations.

Mike La Pointe moved, Bill Sanders supported that the Chocolay Township Planning Commission approve the final plans for the Faith Assembly of God as presented with the conditions listed below:

1. That the applicant consult with the Township Planner and Zoning Administrator on proper vegetative landscaping necessary to screen the proposed development from adjacent properties.
2. All plans be reviewed by the Township Zoning Administrator and conform with all established regulations as stated in the Chocolay Township Zoning Ordinance #34.
3. That Zoning Compliance Permit be obtained from the Chocolay Township Zoning Administrator prior to start of construction.
4. That the necessary permits as required by Federal, State and Local Agencies be acquired prior to project commencement.
5. That non-fulfillment of any of the conditions as set forth in this approval shall constitute a violation of the conditional use permit and may lead to the revocation of the conditional use permit.
6. That the applicant comply with all of the Michigan Department of transportation for access off M 28.
7. Vinyl siding will be placed on the Southeast and Southwest sides of the church.
8. Buffer is 75 feet.

MOTION CARRIED 6-0.

C. DISCUSS LANDSCAPE LANGUAGE FOR ZONING ORDINANCE (ONGOING DISCUSSION):

Mike Farrell stated he would like have the Planning Commission to consider to have a committee of three Planning Commission members to look through the landscape information and present language back to the Planning Commission for consideration of possible enforcement of the Landscape Ordinance.

Scott Emerson and Dave Wurster volunteered to be on the committee to review this information and present it to the Planning Commission for consideration of a landscape ordinance.

Scott Emerson commented on the material provided.

D. ZONING ORDINANCE CHANGES - PRIORITIES (ONGOING DISCUSSION):

Scott Emerson presented the following list he felt would be considered high priority items for the Planning Commission to work with:

1. Landscaping Ordinance
2. Ground Water
3. Re-zoning
4. Private Roads

Under landscaping the following suggestions were made that may be considered:

1. Screen buffer

Do we want to focus on both commercial and residential?

The Village of Harvey was given as an example.

2. Lighting
3. Power - underground
4. Setback - wetlands
5. Woodland - preservations

6. Trees - specific types be planted and preserved.

It was also suggested possibly sub headings under each item be considered such as:

- a. Enforcement
- b. Development
- c. Justification
- d. Addition Information

It was also inquired if the Planning Commission is going to have support from the Board before putting in alot of time and effort in the landscaping issue?

Don Wickstrom thought that the Planning Commission would possibly obtain support from the Board. It was recommended that once the Planning Commission get the priorities set up that we present an outline (preliminary sketch) to the Township Board.

Mike Farrell stated he felt the Board would be receptive to the landscaping ordinance, but cost may be a key factor. The outline approach is a good aspect.

Scott Emerson stated good communication with the Board is another key factor.

The following comments were made under Groundwater Contamination:

Scott Emerson felt the Planning Commission should have input on the Watershed Council.

Scott Emerson inquired about the groundwater contamination in Harvey.

He stated that there was a 1988 survey done by the DNR. It was stated that there were eleven (11) hot spots identified in that report. Harvey Inn was a gas station at one time. It was suggested that the Township try to obtain a copy of the 1988 survey.

Mike Farrell stated he is constantly identifying the sources of contamination. Waiting for the State to take appropriate action.

Mike also stated he is on the GEM Board. Chocolay Watershed is also looking into the matter and probably will be doing an inventory and identifying the trouble spots.

It was also stated that Chocolay Township is being considered a model for the project by Michigan Tech.

Mike Farrell stated a site was chosen for a possible well system. Location will probably be by the Silver Creek Recreation Area.

The following comments were made regarding rezoning:

Mike Farrell presented an overlay regarding the R-1 Zoning District:

The following were suggestions regarding steps for zoning approval:

1. Site Plan View
2. Septic & Well
3. Run-off.

The following were suggestions regarding Zoning Ordinance Changes:

1. Top soil:

It was suggested that consideration be given to not allow the removal of top soil in Agricultural or Residential areas.

2. It was suggested that we need more commercial area. Possible the Village concept.
3. It was suggested possibly the Northeast side - US 41 - M 28 & Cherry Creek Road be considered for commercial expansion.

Mike Farrell stated he would take a look at the zoning district maps and take an inventory on the density in each of the three districts and at a Planning Commission meeting put together re-zoning maps.

Comment on the Old Jack's building:

It was stated just certain it was zoned just for certain types of business because there is a minimal parking area.

Square footage for camps should also be considered for when working on zoning ordinance.

The following comment was made regarding Private Roads:

Scott Emerson stated that when considering private road standards the specifications should comply with the County Road standards.

Mike Farrell stated he would schedule a Planning Commission Executive Committee meeting and present issues to the Planning Commission on specific items and a time period to get them done.

The Planning Commission Executive Board consists of Bill Sanders, Max Engle and Estelle DeVooght.

CONSIDER ANNUAL REPORT:

Dave Wurster inquired about money in continuing education.

Mike Farrell stated this money budgeted for the Planning Commission members and Planning Director to attend training seminars and workshops.

Scott Emerson moved, Don Wickstrom supported to approve the Annual Report as written and present it to the Township Board.

MOTION CARRIED 6-0.

NEW BUSINESS:

REVIEW PLAT - ELDERWOOD SUBDIVISION:

Mike Farrell presented information pertaining to the Elderwood Subdivision.

He stated this would be accessed by sewer.

It also meets the County Road standards.

Mike Farrell showed a portion that would not be able to built on. It was stated that possibly this could be designated for wildlife or recreational use, such as a bike bath.

Mike Farrell stated that we could require that an easement for recreational use be obtained. The Township has ninety (90) days to act on this. It also goes to the Drain Commissioner, Marquette County Road Commission, DNR and the Health Department.

It then comes back for the final approval on lot size, lot configuration and layout.

Larry Gould also has to review it for the sewer concept.

PLANNING DIRECTORS REPORT:

Mike Farrell stated the following workshops are scheduled for the Planning Commission members to attend, if the wish to do so:

1. February 28, 1994 from 6:00 p.m. - 9:00 p.m. - Skandia Community Center - Cost is \$2.00. This workshop is being put

on by CUPPAD.

2. March 9, 1994 from 1:00 p.m. - 5:30 p.m. - Gaylord
3. March 30, 1994 from 8:30 a.m. - 5:00 p.m. - Gaylord.

Dave Wurster stated he would be interested in attending the workshop on March 30, 1994.

Mike Farrell stated that the Chocolay Watershed Council has adopted the By-laws Procedures for the Council.

The Chocolay Watershed Council consists of members from the (Technical) DNR, Marquette Health Department, Soil Conservation Department, Drain Commissioner, Sands Township (1 representative), Chocolay Township (2 representatives), and (non-technical) 5 appointments at large. Technical members can't hold an office.

Grant has been tentatively approved. It is a one (1) year grant. Planning position will provide the inventory and identify the problem spots.

Inventory is micro soft accessible.

MEMORIAL:

Mike Farrell stated a local church wishes to establish a memorial garden to deposit cremations, if members of their congregation wishes to do so.

It was inquired if their were any regulations on this use and operating under a conditional use?

Prince of Peace Lutheran Church is the church inquiring about the memorial.

Mike La Pointe will obtain a set of plans and bring to the March 22, 1994 Planning Commission Meeting.

After discussion on this it was stated that some of the Planning Commission members were in favor of this type of use.

Dave Wurster will get information from his church on this for the March 22, 1994 Planning Commission Meeting.

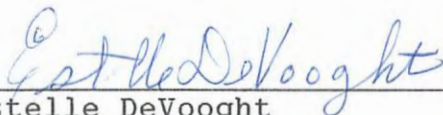

PUBLIC COMMENT:

Bill Sanders inquired if the Planning Commission felt a roll call vote was necessary for the motions in the minutes. After discussion the Planning Commission unanimously agreed if the Chairperson of the Planning Commission felt it necessary to have a roll call vote, then one would be taken. If not the motions will be stated in the minutes as it is being none currently.

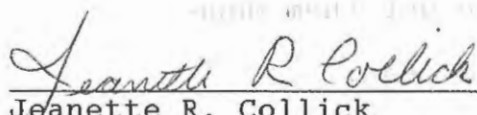

There being no further Public Comment, Bill Sanders closed the second Public Comment section of the Planning Commission meeting.

ADJOURNMENT:

There being no further business the Planning Commission Meeting was closed at 10:00 p.m.

Estelle DeVooght
Planning Commission Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION

TUESDAY, MARCH 22, 1994

AS CORRECTED

PRESENT: Bill Sanders, Max Engle, Estelle DeVooght, Dave Wurster,
Mike LaPointe

ABSENT: Scott Emerson & Don Wickstrom

STAFF PRESENT: Mike Farrell, Director of Planning & Research
Jeanette Collick, Recording Secretary

PUBLIC PRESENT: Sam Elder, Bob Cambensy, Dan Trotochaud, Jane
Surrell

PUBLIC HEARING:

There were no public hearings.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 7:34 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Dave Wurster, Estelle DeVooght, Mike La Pointe and Max Engle present.

Scott Emerson and Don Wickstrom were absent.

APPROVAL OF THE MINUTES OF FEBRUARY 22, 1994:

Bill Sanders asked if there were any additions or corrections to the minutes of February 22, 1994?

On page 5 - Motion regarding Willow Road, it stated Motion Carried 5-0. It should have stated Motion Carried 4-2.

Page 8 - Suggested regarding Zoning Ordinance Changes: It stated:

1. Top Soil

It was suggested that this be incorporated into the Mining Mineral Extraction Ordinance or not even be able to remove top soil or possible rezoning may be given.

It should be changed to read:

1. It was suggested that consideration be given to not allow the removal of top soil in Agricultural or Residential areas.

Page 9 paragraph stating: Mike Farrell stated he would schedule and Planning Commission Executive Committee and to prioritized and present to the Planning Commission on specific items and a time period to get them done.

It should read:

Mike Farrell stated he would schedule a Planning Commission Executive Committee meeting and present issue to the Planning Commission on specific items and a time period to get them done.

Page 10 Paragraph stating: Mike Farrell stated a local church wishes to establish a memorial garden to have deposits cremations, if members of their congregation wishes to do so.

It should read:

Mike Farrell stated a local church wishes to establish a memorial garden to deposit cremations, if members of their congregation wishes to do so.

Bill Sanders asked if there were any further corrections or additions to the minutes of February 22, 1994 minutes. There were none.

Bill Sanders moved, Mike LaPointe supported that the minutes of February, 1994 be approved as corrected.

Motion Carried: 5-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders asked if there were any additions or changes for the agenda?

Mike Farrell requested that under Old Business - Item C - Elderwood Plat Review be added.

Under New Business - Item B - Chocolay Watershed Appointments be added.

Bill Sanders asked if there were any further changes for the agenda. There were none.

Bill Sanders moved, Mike LaPointe supported that the Agenda be approved with additions as discussed.

Motion Carried 5-0.

PUBLIC COMMENT:

Bill Sanders asked if any of the public had any comments or wanted to reserve time during any particular agenda item?

Dan Trotochaud reserved time when the Chocolay Downs PUD was being discussed and Bob Cambensy and Sam Elder reserved time when the Elderwood Plat was being discussed.

Mike Farrell requested that under New Business - item A - Groundwater Education in Michigan (GEM) be moved up on the agenda when Jane Surrell - Marquette County Health Department returned. Bill Sanders asked if there were any further comments under the first Public Comment section. There were none. They first Public Comment section was closed.

OLD BUSINESS:

CHOCOLAY DOWNS PUD - DISCUSSION OF PLANS:

Mike Farrell stated that Dan Trotochaud obtained a market study regarding the types of condos desired by proposed residents.

Dan Trotochaud stated that in the market study that was obtained that prospective buyers wanted detached units or duplexes.

He would like to obtain more flexibility to change the design of the condos from triplexes and fourplexes to detached units or duplexes. He is not proposing to change the intent or the way it is laid out. He is still proposing the three (3) clusters, he would like the Planning Commission to grant permission to change the type of housing.

The information regarding each phase would be put in the Master Deed. There will still be 30' set backs and a space between the units. There will be grass and shrubs and the walking path with each unit. Each unit costs approximately \$129,000 - \$149,000 to build.

Some prospective buyers want a model to be built. They are interested in quality of the condo.

Each phase consists of the following:

1. Seek preliminary approval
2. Reservations
3. Construction

He also stated that each phase would have a Master Deed and One Association. Each phase would have a representative on the association.

There will still be 33 units and 11 in each phase completed.

Mike Farrell stated Mt. Trotochaud would still have to obtain approval from the Fire Department concerning the radius for the curb for fire protection.

He also talked with Mr. Trotochaud regarding the escrow for the replacement of septic system.

Mr. Trotochaud stated he would keep the Planning Commission informed regarding any problems and/or progress of each phase of the project.

It was stated there was very little change of ground coverage. It was less than 2%.

Estelle DeVooght inquired where the garage would be. It was stated the garage would be on the end of each building.

The Planning Commission members had no problem with the concept.

Bill Sanders moved, Estelle DeVooght supported to recommend to the Township Board to allow the Chocoy Downs P.U.D. to construct detached or duplexes as presented and discussed tonight.

Motion Carried 5-0.

NEW BUSINESS:

GROUNDWATER EDUCATION IN MICHIGAN (GEM) PRESENTATION:

Jane Surrell - representative from the Marquette County Health Department gave a presentation on groundwater contamination in Marquette County. She presented information on the overhead and a movie regarding groundwater. GEM stands for Groundwater Education in Michigan.

Marquette County has 122 contaminated wells, and in the top 23% in the State.

ELDERWOOD PLAT:

Sam Elder and Bob Cambensy gave a presentation of the proposed Elderwood Plat:

Mike Farrell gave the planning commission members a copy of a memo from Larry Gould and Mike Farrell addressing a number of concerns that the plat needed to be aware of and/or incorporate into the plat. These concerns identified were:

1. Complete set of plans and specifications for the proposed sewer extension must be submitted to the Township Office for review and approval. A majority of the sewer to service the subdivision was installed with Cherry Creek Road Sanitary Sewer extension, but there is to be extensions off of the existing main as well as the possibility of additional leads to serve additional lots.

2. A question was raised on the availability of municipal sewer for lots 4, 5, and 6. It appears that the sanitary sewer may need to be extended on Juliet Street to service the area and the question was also raised about the availability of gravity sewer for these lots since some of that area is very low. We also discussed lots 18, 19 & 20 that was proposed for on site septic systems if they could be approved by the County Health Department. Since that meeting and subsequently submitted to Bob Cambensy, the Township's Subdivision Control Ordinance requires that all lots of platted subdivision within a quarter mile of the sanitary sewer be serviced.
3. We talked about a variety of easements for the municipal sewer as well as the Township's inquiry about the possibility of a easement from Judy Street to the proposed street which would allow access to Cherry Creek Road and the Cherry Creek School.
4. The pond area or part of the pond area is to be designated as a drainage area and we discussed the possibility of having the entire pond area dedicated and restricted if it is needed for drainage retention for the subdivision and other upstream areas.
5. Also discussed was the possibility of the utility easement from the end of the Township's Sewer on Veda Street Southwesterly to Ortman Road to provide future access for Township Sanitary Sewer Extension to service the area South of Ortman Road.
6. We discussed the possibility for the need of a cul-de-sac at the end of Veda Street for the turn around of vehicles as well as the possibility of needing frontage for the end lot to meet zoning requirements.
7. When the preliminary plat is filed with the township there is mandatory \$200 filing fee.
8. We discussed the availability of the sanitary sewer service for the New Life Church property which is located adjacent to and North of the proposed development. The developer was to check with the representatives to determine if they would like access to the Cherry Creek Road Sanitary Sewer Extension or if they still anticipated making a connection to the sewer at the end of Juliet Street. It appeared to us that it would be more cost effective for them to connect to the sewer in the new Elder development.
9. The proposed cul-de-sac at the end of Juliet Street was shown on property owned by the New Life Church. Sam was to discuss this with the Church.
10. As part of the construction for the new plat the sewer leads for the existing sewer under the proposed road would have to be extended to the lot lines.
11. It appeared that the draft plan had a 125 foot frontage on the lots but it was requested that this be shown on the preliminary plat.

Most of the concerns identified by Larry Gould and Mike Farrell were addressed on the plans provided except for:

1. Wastewater service for lots 18, 19 and 20.
2. Wastewater service for the New Life Church Property.
3. The consent of the New Life Church for the cul-de-sac at the end of Juliet Street.
4. Extension of wastewater leads to lot lines under proposed roads.

These concerns would need to be dealt with prior to submission of the plat for final preliminary approval.

Bill Sanders moved, Max Engle supported that the tentative preliminary approval of the Elderwood Subdivision be granted as submitted and be presented to the Township Board on April 1, 1994.

Motion Carried: 5-0.

ZONING ORDINANCE CHANGES - PRIORITIES:

Mike Farrell stated he would not be in attendance at the April 26, 1994 Planning Commission Meeting.

Mike Farrell stated that the Executive Committee met and came up with a tentative priority list for Planning Issues to be discussed.

After going over the tentative priority list the following comments and concerns were made;

Landscape ordinance:

What does the Township Board want regarding the landscape ordinance?

It was commented that the Board was receptive to the green space regarding landscaping.

It was suggested that the Landscape Committee present an outline form regarding the landscape ordinance to the Planning Commission and to the Township Board.

Parking Requirements:

It was suggested to possibly look at the types of uses, such as compact car, fast foods, etc. versus the amount of spaces.

Groundwater Contamination:

It was suggested that possible Chocoy Township and Sands Township could combine in an effort regarding groundwater protection.

Mike Farrell explained the survey that Chocoy Township is presently conducting concerning the Harvey area.

Budget:

Mike Farrell stated he would like the Planning Commission to have more input regarding their portion of the budget.

Comprehensive Plan:

This should be updated every ten (10) years.

Planning Director's Report:

Mike Farrell stated he would like to have the Executive Committee set the agenda for the next Planning Committee at each of the meetings either before or after the meeting. He also stated that he has to have thirty (30) days notice to put rezonings in the paper.

It was also suggested to consider a possible time for adjourning the meeting would be appropriate.

He also stated he would like to have more educational seminars for the Planning Commission Members to attend.

The Planning Commission members felt that the Executive Committee would meet for approximately ten (10) minutes after each Planning Commission Meeting to set the agenda for the next Planning

Commission Meeting.

Mike Farrell gave the information regarding the Township Board's decision on the abandonment of County Road BU (Joe Gibbs).

Mike Farrell stated that he met with the Zoning Administrator regarding the memorial garden at Prince of Peace Church and both felt it was not necessary to amend the Zoning Ordinance.

Mike Farrell stated two appointments from Chocolay Township for the Watershed Council are Larry Gould and Rod Smith. He will keep the Planning Commission updated on the Chocolay Watershed Council.

PUBLIC COMMENT:

Mike LaPointe stated an ad would be advertised in The Mining Journal regarding the other five (5) appointments for the Chocolay Watershed Council.

Mike Farrell stated that the County Commission and the Drain Commissioner has been working on a Stormwater Ordinance for approximately 2 - 2 1/2 years. It is presently in draft 5 form.

Mike LaPointe commented that there will be a workshop for groundwater on May 4, 1994.

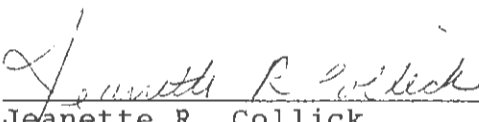

There being no further Public Comment, Bill Sanders closed the second Public Comment section of the Planning Commission meeting.

ADJOURNMENT:

There being no further business the Planning Commission Meeting was closed at 10:00 p.m.

CHOCOLAY TOWNSHIP PLANNING COMMISSION

TUESDAY, APRIL 26, 1994

AS CORRECTED

PRESENT: Bill Sanders, Max Engle, Dave Wurster, Mike LaPointe**ABSENT:** Scott Emerson, Don Wickstrom, and Estelle DeVooght**STAFF PRESENT:** Jeanette Collick, Recording Secretary**PUBLIC PRESENT:** None.**PUBLIC HEARING:**

There were no public hearings.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 7:34 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Max Engle, Dave Wurster and Mike LaPointe present.

Scott Emerson, Don Wickstrom, and Estelle DeVooght were absent.

APPROVAL OF THE MINUTES OF MARCH 22, 1994:

Bill Sanders asked if there were any additions or corrections to the minutes of March 22, 1994?

Bill Sanders noted that on page 1 regarding top soil it states:

1. It was suggested that consideration be given to not allow the removal of top soil in Commercial or Residential areas.

It should be changed to read:

1. It was suggested that consideration be given to not allow the removal of top soil in Agricultural or Residential areas.

Bill Sanders asked if there were any further corrections or additions to the minutes of March 22, 1994. There were none.

Max Engle moved, Bill Sanders supported that the minutes of March 22, 1994 be approved as corrected.

MOTION CARRIED: 4-0.

Estelle DeVooght arrived at the meeting at 7:36 p.m.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders asked if there were any additions or changes for the agenda?

Bill Sanders requested under New Business B. Presentation of Chocolay Watershed Council be added.

Bill Sanders asked if there were any further changes for the agenda. There were none.

Bill Sanders moved, Dave Wurster supported that the agenda be approved with the addition as discussed.

MOTION CARRIED 5-0.

Scott Emerson arrived at the Planning Commission Meeting at 7:40 p.m.

PUBLIC COMMENT:

No public was in attendance. Bill Sanders closed the first Public Comment section of the meeting.

OLD BUSINESS:**RECREATIONAL STRUCTURES/CAMPS IN RP AND OS DISTRICTS:**

The following comments were made by the Planning Commission members concerning structures/camps in RP and OS Districts:

RR-2 40 acre minimum and granted under a conditional use.

OS not granted under a conditional use.

RP granted under a conditional use with larger setback restrictions. Possibly the building be screened in for ~~from~~ permitted uses. Eight hundred (800) sq. ft. seem too large for a camp. Four hundred (400) sq. ft. more reasonable, also may eliminate small trailers. This may also protect neighbors from a eye sore building.

Conditional Use in RR-2 - not a permanent residential structure. The tepees were given as an example.

It was stated that there are some nice looking small camps.

It was also stated that adequate screening of a building seemed to be more critical than the type of building for a camp. It was also suggested that a possibility of planting trees be considered for a barrier for a building.

It was stated that it doesn't appear to be a huge enforcement problem.

After the above discussion the following were recommendations for Camps and Recreational Structures:

1. Granted under Conditional Use in RR-2.
2. Granted under Permitted Use in RP & OS with conditions.
3. Minimum structure size.
4. Adequate screening.
5. Define temporary/permanent seasonal.

WATERFRONT SETBACKS:

The following comments and inquiries regarding waterfront setbacks were made by the Planning Commission.

The waterfront setbacks of concern were part of Lake Superior - 30' Creeks (Harvey Area) - 100'.

It was stated that the elimination of 902 would not include the existing setbacks.

Vacant lot would be 100'

Occupied would be 30'.

It was stated that having the 100' setback the habitant of the area could be destroyed if filled in. It was inquired if a house would be on the lot presently, would this be grandfathered in? it was stated yes.

It was also stated that if 902 would be eliminated that a public hearing would have to be held. Also notification would have to be published.

It was also stated that for a porch to be added onto the back of a house, a variance would probably be needed.

TOP SOIL REMOVAL:

The following comments were made by the Planning Commission members concerning the removal of top soil.

It felt the grading permit section provided in the packet is more involved, if it could be enforced.

It was stated that possibly if the soil couldn't be used for growing agricultural crops then it may be okay.

It was asked if there was a way to regenerate the top soil once it is removed? Yes there is a way, but it is very time consuming.

It was also asked how can you determine the amount of top soil, when no definition of top soil is stated.

It was suggested that a performance bond be required by the person removing the top soil. It was suggested that a possibility of cost sharing for the enforcement of the top soil ordinance be consolidated with other townships.

It was also suggested that the person wanting to remove top soil would possibly have to go through an improvement process. It was stated that the improving process could take many years to regain the top soil.

It was stated that if the permit part of being able to remove top soil was not followed through, then the performance bond, all or a part of, would be forfeited.

After the above discussions regarding the removal of top soil that the Planning Commission review the grading permit section of the ordinance from Schoolcraft County that was provided at the meeting. It was also suggested to research for more top soil language.

TRAIL DEVELOPMENT:

The following items of concerns regarding recreation/trail development were made by the Planning Commission:

It was stated that a high priority item regarding the trail development would be the forming of the Ad Hoc Recreation Committee.

1. How should we acquire the land?

It was suggested that we purchase the land outright.

It was also suggested discussed that possibly look into the acquiring of land by condemnation. The Board was not in favor of this.

2. Should the easement limit the use of the property?

It was suggested that the use be limited to non-motorized, such as: bike path, skiing, walking.

It was stated that you cannot guarantee the use be limited to non-motorized. It was suggested that the local police department would have to enforce the non-motorized use.

3. How wide should the easement be?

4. What kind of capital needs to be set aside by the Township for a trail development program?

5. What additional work load will trail maintenance put on township resources?

It was suggested that the Planning Commission obtain a detailed copy of the budget of the Township to review reallocation for trail development. Also the greatest number of people that would be benefited by the trail development should be considered.

6. Where do we want the trails to go?

It was unanimously suggested that a means of linking recreation areas, schools and residential areas be considered the top priority. An example of this would be, an easement on Cherry Creek Road for a path.

It was also stated that the township should consider combining with the North Country Trails organization to see what direction they are considering going in.

It was suggested that the Planning Commission obtain a large map of Chocolay Township to determine where trails may be able to be developed.

NEW BUSINESS:

ACCESS CONTROL:

The Planning Commission had the following comments and concerns for access control:

Landscaping may help traffic control.

It was suggested that the business area by True Value, Vet Clinic, etc. possibly have one common access control.

Driveways should be designed for safety reasons.

It was suggested that limit access instead of lot size be considered.

This would possibly be more flexible for a PUD development.

PRESENTATION - CHOCOLAY WATERSHED COUNCIL:

Mike LaPointe gave a slide presentation of the Chocolay Watershed Council on the membership and the goals were.

He stated that the by-laws were formed and voted on by the membership.

A newsletter is going to be used to inform the public involved on what is going on in the council.

The council plans to work with agencies to correct problems that are occurring.

Funding sources have been identified. Grants have been applied for. Project Planner will be working on this part of the plan.

Soil maps that are going to be used have been color coded.

Fred Rydholm will be doing a history of Chocolay Township.

Jane Surrell - Marquette County Health Department - will be educating land owners on groundwater.

The Chocolay Watershed Council is hoping to have a plan put together for the implementation of the program for three (3) years and obtain the funding to get the goals accomplished.

Rules and regulations will involve all local units of government.

Rod Smith and Larry Gould are the representatives from Chocolay Township.

Chocolay Township has been very supportive in providing the meeting place for the Chocolay Watershed Council.

PLANNING DIRECTOR'S REPORT:

Due to Mike Farrell being on vacation and out of town there was n Planning Director's report.

PUBLIC COMMENT:

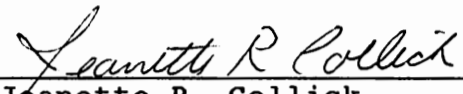

There being no Public Comment, Bill Sanders closed the second Public Comment section of the Planning Commission meeting.

ADJOURNMENT:

There being no further business, the Planning Commission Meeting was closed at 9:40 p.m.

Estelle DeVooght
Planning Commission Secretary

Jeanette R. Collick
Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION

TUESDAY, MAY 24, 1994

PRESENT: Bill Sanders, Max Engle, Estelle DeVooght, Dave Wurster

ABSENT: Scott Emerson, Don Wickstrom & Mike La Pointe

STAFF PRESENT: Mike Farrell, Director of Planning & Research
Jeanette Collick, Recording Secretary
Mark Maki, Director of Assessing & Zoning
Suzanne Collins - Summer Intern Student

PUBLIC PRESENT: Mike Rucinski, Kay Rucinski, Pat Ferguson, Billy R. Jenkins, Tom Waselesky, Ken Hoog, Gloria Hoog, Dolores Salmi, Sylvia Barclay, Michael Bonanni, Dale G. Pelvit, Gary Baldwin, Nancy Baldwin

PUBLIC HEARING:

Bill Sanders, Chairperson called the Public Hearing to order at 7:30 p.m. He explained the process for public input and comments.

Conditional Use #30 - Mike Rucinski:

Bill Sanders stated Mike Rucinski, applicant has requested that the Chocolay Township Planning Commission consider granting a conditional use permit to allow the storage of materials that is business related, but not displayed for sale on property that is part of a business within the C-3 Zoning District. The request is being requested for 6570 U S 41 South.

Mike Rucinski - 109 Birchbrook - business located at 6570 U S 41 South.

There are three (3) businesses at the same location, which are: Northern Automotive Electric, Pelco Metal Fab, and Whitty's Auto Body.

Northern Automotive Electric is an auto repair facility.

Pelco Metal Fab builds custom vehicles and does frame-up restorations of classic cars.

Whitty's Auto Body is a body shop.

Mike Rucinski stated that utilizing parts from disabled vehicles is a vital part of their business. He explained that all the disabled vehicles are drained of gasoline, motor oil, transmission fluid, and antifreeze. They are stored behind a 6' high metal fence and are not visible from the highway or adjacent residential property. They have applied for a EPA Federal I D number and the hazardous wastes are picked up by appropriate EPA approved disposal companies.

The items that have to be drained are drained in a double container. There is a shelter put up for sand blasting and a special kind of sand is used and is stored in a special barrel.

Delores Salmi - 111 Alderbrook - concern about what would be done with the shells of the vehicles after parts are taken off.

Mike Rucinski - 109 Birchbrook - stated the business needs to have 8-12 vehicles before anyone from a scrap yard would come and get them. He is not running a junk yard and there is a fence for the storage of these vehicles.

Billy R. Jenkins - 362 S. Big Creek Road - concern on hazardous wastes and security with children.

Mike Bonanni - 116 Alderbrook - has talked to Mark Maki for sometime to get some clean up done on the property and presented

some photographs regarding the property at 6570 U S 41 South. he is also concerned about groundwater contamination, property values, aesthetics value, and consider this to be an eye sore. He requested to go on record of being opposed to the approval of this conditional use.

Gloria Hoog - 108 Alderbrook - agrees with Mr. Bonanni's comments and is also concerned about the fragile aquifer in the area.

Ken Hoog - 108 Alderbrook - concern about the junk yard in the area, ground water, and the property values.

Mike Bonanni - 116 Alderbrook - stated he received a letter from Mark stating that Mr. Rucinski is requesting a conditional use to operate a junk yard.

Scott Emerson arrived at 7:40 p.m.

Dolores Salmi - 111 Alderbrook - inquired as to why some people received one letter and some others received a different letter.

Bill Sanders asked if there were any further public comment regarding Conditional Use #30. There were none.

Bill Sanders closed the public hearing.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the meeting to order at 7:45 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Max Engle, Dave Wurster, Estelle DeVooght, Mike LaPointe and Scott Emerson present.

Don Wickstrom was absent.

APPROVAL OF THE MINUTES OF APRIL 26, 1994:

Bill Sanders asked if there were any additions or corrections to the minutes of April 26, 1993

Bill Sanders noted that on page 2 paragraph stating: RP granted under a conditional use with larger setback restrictions. Possibly the building be screened in for permitted uses. Eight hundred (800 sq. ft. seem to large for a camp. Four hundred (400) sq. ft. more reasonable, also may eliminate small trailers. This may also protect neighbors from a eye sore building.

Should be corrected to read: RP granted under a conditional use with larger setback restrictions. Possibly the building be screened in for ~~from~~ permitted uses. Eight hundred (800 sq. ft. seem to large for a camp. Four hundred (400) sq. ft. more reasonable, also may eliminate small trailers. This may also protect neighbors from a eye sore building.

He also noted that on page 4 paragraph stating: It was also suggested that possibly look into the acquiring of land by condemnation. The Board was not in favor of this.

Should be corrected to read: It was also ~~suggested-~~ ~~discussed~~ that possibly look into the acquiring of land by condemnation. The Board was not in favor of this.

Bill Sanders asked if there were any further corrections or additions to the minutes of April 26, 1994. There were none.

Bill Sanders moved, Scott Emerson supported that the minutes of April 26, 1994 be approved as corrected.

MOTION CARRIED: 6-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders requested that if there were no objections that under new Business, Item A - Conditional Use #30 - Mike Rucinski be moved before Old Business.

Bill Sanders asked if there were any further changes for the agenda? There were none.

Mike LaPointe moved, Scott Emerson supported that the agenda be approved with change as discussed.

MOTION CARRIED: 6-0.

PUBLIC COMMENT:

Mark Maki, Director of Assessing & Zoning reported that he sent the Planning Commission a memo dated January 1994 and commented on the following:

Camps & Recreational Structures RP District - based on criteria, minutes states not a big enforcement problem. In most cases the problem is when we find them basically brought Mark's request to the Planning Commission. His impression was that the Ordinance would probably not stand up and not allowing camps/recreational structures in Resource Production Districts.

Minimum lot sizes - C-1, C-2, C-3 - easiest way to control number of driveways on the highway.

Also requests the Planning Commission to make it illegal to create lots that do not meet minimum lot size requirements. Stop the creation of lots that do not meet the requirements.

There have been a number of cases where a number of people create lots that are not buildable and the problem is that it ends up costing the township money if it would have to go to court. The easiest way to solve that problem is to stop the creation of lots that do not apply to the Ordinance. If you put a provision in the Ordinance that somebody can't do it, once they do it, then it can be stopped immediately. It would be a lot less costly to enforce it at that end than past experiences has shown us that those problems do not go away. They end up in court and cost money that is unnecessary. The real issue is that this is not the purpose of for the creation of a lot that doesn't comply with the Ordinance. He would like the Planning Commission to consider that.

C-2 - offices - Parking spaces do not seem to be adequate. Increase number of parking spaces.

Top Soil - Require Mining Mineral Extraction process. It takes approximately three (3) months to secure all the permits, public hearing, Planning Commission and the Township Board submitting detailed plans to remove top soil off 10 acres of property. If the basic intent is not to allow the removal of top soil, that may be another issue. He thinks by having it as a Mining Mineral Extraction operation, it is not going to be realistic for the judge to enforce the ordinance.

Golf Course R-1 zones. Currently the ordinance doesn't provide for golf courses. Should provide some type of signage for golf courses.

Number of business in C-3 district with outdoor storage. Example: Marquette City ordinance doesn't allow outdoor storage, requires all retail storage inside. Suggested that we consider to put a limit of a certain percent on outdoor storage.

Bill Sanders asked if there were any further public comment. There were none. He closed the first public comment section of the regular meeting.

NEW BUSINESS:

CONDITIONAL USE #30 - MIKE RUCINSKI:

Mike Farrell stated he looked at the site, he does have a fence up almost all around the perimeter and would like to recommend that he enclose it completely and provide a gate that can be locked when the business isn't in operation and would eliminate access of kids in the neighboring area in the storage area and also that they deal with vehicles appropriately by draining all the fluids from the vehicles and store these in disposable and appropriate fashion.

It was inquired as how long the business has been in operation. Mike Rucinski stated about 5 years.

Estelle DeVooght read letters from: Trudell Plumbing & Heating Inc. dated May 23, 1994 and also from Dorothy Arnold, Jan Brondyke and Scott Porter dated May 24, 1994.

Oil drained in a double wall container and stored inside of building. 300 gallon capacity.

Gasoline is drained right a way.

15-20 gallons of anti freeze fluid are kept in the shop in 5 gallon pails.

Freon - no method yet - no air conditioning.

Security - willing to put a fence all the way around.

Scott Emerson questioned on how long tires would be stored.

Mike Rucinski stated they are presently stored in a van. Used tire business on U S 41 in Beaver Grove for \$1.00 per tire.

Delores Salmi inquired who would be policing and how often to be sure these fluids, etc. are being disposed of properly?

She also inquired on ground water contamination.

Mike Rucinski stated that fluids are drained from the vehicle inside before the vehicles are outside.

Delores Salmi also had a concern on floor drains and if the fluids go into the septic system.

Mr. Rucinski stated there are no operating floor drains.

Mike Bonanni presented photographs of the yard of the business at 6570 U S 41 South. These photographs were taken approximately 1 - 2 weeks ago.

Mike Rucinski pointed out where the fence would be.

Bill Sanders stated in a C-3 district you have the right to operate a business.

The following comments were made during the discussion pertaining to Conditional Use #30 - Mike Rucinski.

Possibility to do this under a Conditional Use Permit.

Concern on a vegetative screen being place on the outside of those parts of the fence that are facing the residential neighborhood. How would this get done and who would be responsible to make sure this got done.

Question on the number of vehicles - fabricating, trailers, etc.

There was a comment on this and very little material - 10 tons.

How many is there now? It was stated there was approximately 18 - 19.

Mike Bonanni inquire who looks after the policing? Mike Farrell stated the Zoning Administrator would enforce the conditions that are applied to the Conditional Use Permit.

It was asked who maintains the policing of the Quik Lube in Harvey. Would the DNR enforce this or it on a complaint basis? There has been not complaints regarding this.

It was stated that Mr. Rucinski has applied for the EDA license, Social Security No. of business for the environmental purposes and ID requirements. Do they monitor the conditions. It was stated the DNR monitors these conditions in the UP.

There was also concern about the basin sludge that settles in the

bottom of a barrel in an enclosed system. It was stated that there is another filter in another barrel.

It was stated that when gas stations remove tanks it is self reporting through the DNR.

Concern on furniture solvents and degreasing agents.

Mike Rucinski state these solvents used for cleaning the parts. Fluid is pumped out into a barrel and a basin is used and as you wash the parts, the sludge settles into the bottom of the barrel and the whole barrel then gets picked up. It is in an enclosed system.

It was stated that the fire department has a hazardous waste, chemicals, and flammable survey on the businesses of Chocolay and needs to know the location of the solvents and flammable fluids. The chemical survey form for the businesses in Chocolay Township are required to be filled out on an annual basis.

It was stated that the monitoring is difficult to do. You need a specialist on hazardous waste.

Mike Rucinski stated that businesses have to take precautions. If precautions are not taken and not monitored and corrected, the business could loose everything.

It was felt by some of the Planning Commission members that by the various pictures that were presented that the area should be cleaned up more.

Mike Farrell went over the general standards of the Chocolay Township Zoning Ordinance.

It was felt that a new site plan needs to be done on what the property would look like once the proposed items would be done. It was felt there was not enough information to approve the conditional use permit and the applicant should be given an opportunity to have a new site plan on what is being proposed.

There was a concern on the aquifer flow. The ground water contamination should be monitored.

It was also stated that another owner of the business may not be as responsible as what Mr. Rucinski is proposing to do.

Mr. Rucinski stated that the cars are picked up on a timely basis. He also stated that thirty (30) vehicles would be tops for storage for all three (3) businesses combined.

After discussion the following were of concern by the Planning Commission.

It was stated that the request is to store a number of vehicles.

Should have adequate screening and vegetation - vehicle be stored.

There was a concern on the number of tires. It was stated that tires are stored in a van as suggested by the DNR and tires are stored inside. You have to pay to get rid of tires.

Protection of the aquifer is of great concern.

Need a more detailed site plan on what is being proposed.

Tom Waselesky - 361 South Big Creek - Has been dealing with junk cars for approximately thirty (30) years and junk cars aren't worth anything. Also township should look into monitoring the garbage that has been dumped in the woods.

Bill Sanders moved, Max Engle supported that the Conditional Use #30 - Mike Rucinski be tabled until the June 28, 1994 Planning Commission and obtain the following:

1. A more detailed site plan.
2. Shallow well point.

3. Monitoring groundwater
4. Vegetation species.
6. Storage options.
7. Type of Fence.

Also the following conditions be taken into consideration:

1. The area in which vehicles and other materials are to be stored shall be screened from view by a six (6) foot opaque fence.
2. The area in which vehicles and other material are to be stored shall be secured with a gate and locked during the times that the businesses are closed.
3. All fluids and/or parts that could cause possible contamination must be removed from the items being stored within the fenced area. This includes but is not limited to anti-freeze, gasoline, motor oil, transmission fluid, batteries, brake fluid, freon from air conditioners and diesel fuel. These fluids and/or parts shall be removed at a designated location with appropriate flooring material that will not allow the dripping of fluids onto the ground. Storage of the fluids and/or parts removed shall be in an approved containers, that is in a safe location that provides for secondary containment, and shall be disposed of in an environmentally safe and legal method.
4. A vegetative screen be placed on the outside of those parts of the fence that are facing the residential neighborhood. This screen is intended to break up the line of the fence thus giving the adjacent residential area a more aesthetic view. This screen shall consist of trees and bushes of varying heights and anticipated potential heights.
5. There shall be no more than 30 vehicles and 10 tons of scrap stored at this site at any one time. Each vehicle frame with or without its other components shall constitute one vehicle.
6. No items stored within the fenced area shall exceed eight (8) feet in height and no vehicles shall be stacked upon one another.
7. Plans be prepared showing the fence and vegetative plantings and be submitted to the Township Planning Director for approval based upon established conditions for permit approval.
8. All plans be reviewed by the Township Zoning Administrator and conform with all established regulations as stated in the Chocolay Township Zoning Ordinance #34.
9. That Zoning Compliance Permit be obtained from the Chocolay Township Zoning Administrator prior to start of construction.
10. That the necessary permits as required by Federal, State and Local Agencies be acquired prior to project commencement.
11. That non-fulfillment of any of the conditions as set forth in this approval shall constitute a violation of the conditional use permit and may lead to the revocation of the conditional use permit.

MOTION CARRIED 6-0.

The Planning Commission commended Mike Rucinski on the job he is doing.

Mike Farrell stated that the public hearing process of Conditional Use #30 was already taken care of so no public notice will be sent for the June 28, 1994 Planning Commission Meeting.

He also responded to the question that was raised during the public hearing regarding the two (2) different letters that Mr. Bonanni received. One was the public hearing notice concerning the

conditional use and the other letter was a response from Mark Maki regarding questions that Mr. Bonanni had.

OLD BUSINESS:

Mike Farrell requested that the Executive Committee meet after the regular Planning Commission meeting to set the agenda for the June 28, 1994 meeting.

The following items were discussed at the regular Planning Commission Meeting of April 26, 1994 and the minutes reflected the issued discussed:

1. Recreational Structures/Camps in RP & OS Districts
2. Waterfront Setbacks
3. Top Soil Regulations
4. Trail Development
5. Commercial Access Control
6. Landscape Language Update

It was brought to the Planning Commission members' attention that Paul Smith was trying to obtain ten (10) year contracts for the removal of top soil on 2 - 3 acres of land and paying a dollar figure for the tops soil or sod.

It was felt that sod and top soil removal guidelines should be set up.

There was also a question on the legality of getting out of one of these contracts if a person would sign.

There is a big concern on the top soil removal. Mike Farrell has spoken with the township attorney and not removing top soil is really a hard issue to deal with.

Mike will do more research on this and try to obtain more concrete answers.

Mike La Pointe will contact CUPPAD and try to obtain answers for the removal of the tops soil and sod.

It was stated that basically the enforcement of the removal of top soil could be enforced under the grading permit in our Zoning Ordinance.

Basically in Marquette County, the removal of top soil is being regulated through a Soil Erosion Permit. If somebody obtains a Soil Erosion Permit, you do not have to obtain a Grading permit. Mike Farrell will pursue this further and if time allows, he will put some language together and contact the Executive Committee and run it past them and if they feel that they would like to have a public hearing at the next Planning Commission Meeting then he will schedule a public hearing.

Estelle De Vooght - Trail Development - this should be considered a priority item. Mike Farrell will try to obtain more information on trail development and present it to the Planning Commission.

Scott Emerson - Waterfront Setbacks - this should be considered a priority item. Public Hearing should be set as soon as possible.

Scott Emerson - Commercial Access - Mike Farrell stated the rationale Mark has given is legitimate rationale, but may cause commercial area the last few years is to concentrate the commercial in one location and if you create minimal lot size you get away from that approach. Another approach was basically to establish within the township certain distance between accesses to the highway based upon speeds of the roads they are accessing. This would be a more viable approach than limit lot sizes.

Scott Emerson - Landscape Ordinance - Key in the design in the Landscape Ordinance is to eliminate the number of driveway access.

Mike Farrell inquired if the Planning Commission wanted to deal with the access as part of the landscape issue or deal with it as a separate issue.

Dave Wurster felt it would be better to deal with it as part of the Landscape Ordinance before the Landscape ordinance is full blown.

Max Engle commented that the Township Board is looking at businesses in a more concentrated area and not spread out through the township and if minimum lot sizes are used, basically you are going to spread out commercial districts.

NEW BUSINESS:

CONSIDER AMENDMENT TO SIGN REGULATIONS FOR GOLF COURSES:

Mike went over the memo dated May 10, 1994 from Mark Maki that was sent to the Planning Commission regarding Signage for Golf Courses. Language to this extent is very important. Presently none of the golf courses we have can legally have a sign up on their premise.

In addition to this, in the future we will be dealing with off premise signs. Both of the golf courses in the Township are off county roads and state highways. As far as legitimate directions to them for notification for public who may be looking for them an on premise sign will not do the job.

EXAMPLE: Downs Golf Course - an on premise or off premise sign would be back somewhere by the pro shop. Somebody going down the highway wouldn't be able to see the sign.

The same situation would happen to Gentz's Golf Course.

Max Engle - sign for Downs Golf Course? Does Mr. Gibbs own the land on either side of the road?

Mike Farrell stated Joe Gibbs does own the land as you get to the intersection of Brewer Drive and Eagle Pass Drive. That is where his pro shop is. he has a pocket of developed plats and it breaks where his green is and his pro shop is there and another section of plats. There is room by the pro shop to put a sign up.

The problem with both of the golf courses is that the travelled road being County Road 480 and M 28 East, we don't have anything in our ordinance that would allow a sign to be placed on those locations.

Scott Emerson - suggested possible a small sign - directional sign on the order of the Michigan Department of Transportation signs.

Mike Farrell - Example - Gibb's Sign - and that would be the type of sign we would allow for on the highway, which would be 32 square feel (the size of a 4' x 8' sheet of plywood).

He also stated that the State Highway Department is looking at what they can do to allow a sign on M 28.

The language for on premise signs is ultimately good language and what he would like to do would be to advertise and have it as a public hearing for the June Planning Commission Meeting.

The size of the sign would be limited to sixty (60) square feet.

He will do more research on language on signs for the June Planning Commission meeting.

Tourist Directional Signs - not allowed in our R-1 and R-2 district and Downs Golf Course is an R-1 district, that is why a tourist directional sign cannot be placed there.

Tourist Directional Signs are permitted by Zoning Board of Appeals approval. Mike will talk with Mark and see what he thinks about possibly taking the R-2 and R-2 district restrictions of the tourist directional sign.

PLANNING DIRECTOR'S REPORT:

Mike Farrell reported on a workshop that Bill Sanders and he had attended that was held on Wednesday, May 18, 1994 in Escanaba pertaining to planning.

Mike Farrell inquired if the Planning Commission would be willing to have a special planning committee dealing with strategic planning. This would be advertised in advance and have volunteers for ideas and input. The Planning Commission members felt this would be a good idea.

Mike Farrell also stated that in July in Marquette there is going to be a general planning commission workshop. This would be just a basic entry level workshop. Mike will try to arrange to pay for any members of the Planning Commission that may be interested in attending the workshop. Workshop very important since the County no longer has county wide zoning, hopefully there would be a good turnout.

Mike Farrell stated that through the Marquette County Townships Association (MCTA) possible and agenda could be set up for all the Planning Commissions and possible the stormwater ordinance.

Scott Emerson also suggested that possibly a joint meeting with Sands and Chocolay could be set up.

Another suggested agenda item for the Marquette County Townships Association (MCTA) would be a county wide ordinance dealing with the disposal of used tires. A suggestion would be any business selling tires could add a fee on tires taken in. Possibly make it mandatory that tire dealers add the fee in.

Mike Farrell stated that the Planning Commission terms for Bill Sanders, Max Engle and Dave Wurster were expired. All three (3) members responded that they would be willing to serve on the Planning Commission.

Mike Farrell introduced Suzanne Collins - summer intern student who would be working with planning, garbage, etc.

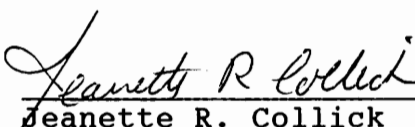

PUBLIC COMMENT:

There being no Public Comment, Bill Sanders closed the second Public Comment section of the Planning Commission meeting.

ADJOURNMENT:

There being no further business, the Planning Commission Meeting was closed at 9:45 p.m.

 Estelle DeVooght
 Planning Commission Secretary

 Jeanette R. Collick
 Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION

TUESDAY, June 28, 1994

PRESENT: Bill Sanders, Mike La Pointe, Max Engle, Estelle DeVooght, Scott Emerson

ABSENT: Don Wickstrom

STAFF PRESENT: Mike Farrell, Director of Planning & Research
Jeanette Collick, Recording Secretary
Suzanne Collins - Summer Intern Student

PUBLIC PRESENT: Several public were in attendance.

PUBLIC HEARING:

Bill Sanders, Chairperson called the Public Hearing to order at 7:30 p.m. He explained the process for public input and comments.

REZONING #74 - TEXT AMENDMENT - WATERFRONT SETBACKS:

Mike Farrell, Director of Planning & Research explained the applicant, Chocolay Township Planning Commission has petitioned the Chocolay Township Board to amend the Chocolay Township Zoning Ordinance with language that will establish waterfront setbacks for that portion of only the Chocolay River located in Section 902 of the Chocolay Township Zoning Ordinance. Section 902 is that part of the Chocolay River NorthM-28 extending all the way to Lake Superior. This would re-establish the 100' setback in this area.

John Renfrew - 234 Riverside Road - would that also put restrictions on cutting trees.

Mike Farrell explained presently the Zoning Ordinance limits any development within 30' of the river and has always been in affect in this area. This would re-establish a 100' setback and no structures could be built within 100' from the river's edge. This would be for new lots. This would mean if there are any new lots that are developed, they would have to meet the 100' setbacks.

John Renfrew - 234 Riverside Road - Very much in favor for increasing protection along the Chocolay Rivers.

Susan Harding - 169 E Main Street - Does it protect cutting down trees?

Mike Farrell indicated you can cut within 30' of the river's edge, but you have to leave them natural 30' from the river.

Nydia Renfrew - 34 Riverside Road - What penalties are there for destroying the setbacks.

Duane Carlson - 206 Riverside Road - Very much in support of the 100' waterfront setback.

Jim Murdey - 274 Riverside Road - Support the 100' setback. Inquired on existing lots, does that include new construction within a 100' range?

Mike Farrell explained if you have an existing house right now and is within 100' of the river, it is considered non-conforming. If this was adopted, this would be non-conforming, you could put an addition on the house. You couldn't put it within 30' of the river.

Scott Emerson - what happens if the house would burn down?

Mike Farrell explained you could replace it in its existing location.

Bill Sanders inquired about penalties.

Mike Farrell stated that it would be in a violation of our Zoning Ordinance at which point an appearance ticket would be issued. There is a standard procedure that is followed:

1. Two (2) appearance tickets are issued.
2. Goes to the Chocolay Township Board to decide whether the Board wants to pursue it through court action or to reverse it or take whatever action the Board feels is appropriate at that point.

Mary Reichel - 270 Riverside Road - How is it established to the Board regarding the destroying of the trees.

Mike Farrell indicated that is a problem with any regulation ordinance. Enforcement is always a problem to a certain extent. We have to rely on the public to keep aware of what is going on. If staff is made aware of it, appropriate action would be taken before it is too late.

Susan Harding - 169 E. Main Street - What steps are taken for the passage of the waterfront setbacks?

Mike Farrell explained:

1. The Planning Commission's recommendation goes to the County Planning Commission.
2. County Planning Commission reviews it and see if the proper procedures were taken in the process in making amendment to our ordinance and will make a recommendation as they feel is appropriate.
3. The recommendation then comes back to the Chocolay Township Board at which time they will review at the input from the Township Planning Commission and the County Planning Commission and will make a decision.
4. If the Township Board approves it, they would have to publish it in the newspaper and at the next meeting they would adopt it in the Ordinance.

Duane Carlson - 206 Riverside Road - Is the passage up for a public vote?

Mike Farrell - no it is not.

Scott Emerson inquired about a boat dock.

Mike Farrell explained that a dock wouldn't be allowed that a permit for a dock would have to be issued through the DNR.

Bill Sanders asked if there were further comments regarding the public hearing for Rezoning #74. There were none.

Bill Sanders closed the public hearing regarding Rezoning #74.

REZONING #75 - TEXT AMENDMENT - RECREATIONAL STRUCTURES:

Mike Farrell explained the applicant, Chocolay Township Planning Commission has petitioned the Chocolay Township Board to amend the Chocolay Township Zoning ordinance with language that will establish minimum structure sizes and setbacks for recreational structures in the RR-2, OS and RP Zoning Districts.

Recreational structure, a cabin, cottage, camp, hunting camp, mobile home or other similar structure used intermittently for recreational or vacation purposes and which is not a permanent place of domicile or residency of the owner, his or her agents, lessees, heirs or assigns.

Every recreational structure shall have a minimum floor area of 150 square feet and comply with the stated or conditional requirements of this ordinance and/or the Planning Commission.

Bill Sanders asked if there were any comments regarding the public hearing for Rezoning #75. There were none.

Bill Sanders closed the public hearing regarding Rezoning #75.

REZONING #76 - TEXT AMENDMENT - GOLF COURSE SIGNS:

Mike Farrell explained the applicant, Chocolay Township Planning Commission, has petitioned the Chocolay Township Board to amend the Chocolay Township Zoning Ordinance with language that will establish regulation for on-premises signs for golf courses.

Bill Sanders asked if there were any comments regarding the public hearing for Rezoning #76. There were none.

Bill Sanders closed the public hearing regarding Rezoning #76.

PRIVATE ROAD BLONDEAU:

Mike Farrell explained that the applicant, LeRoy Blondeau, has requested the Chocolay Township Board approve a private road to be constructed and paved, private road is to be an extension from the end of existing Edgewood Drive to the Northeast across Cedar Creek. Existing pavement to be sawcut at joint.

There is no conflict with the proposed road being named Edgewood Trail.

On the site plan it is being proposed for about five (5) lots and looking to construct a bridge over Cedar Creek and is being constructed out of pre cast concrete beams. Weight capacity will far exceed any vehicles that will would be driven across it. It is beams off an old highway overpass.

John Renfrew - 234 Riverside Road - inquired the provision of drainage to the water way.

Mike Farrell - plans that have the design on this has been submitted for dealing with the drainage going into the river.

Mike Angeli - 155 Edgewood - inquired if this was the only entrance to the private road being proposed.

Mike Farrell - yes.

Mike Angeli - 155 Edgewood - Would this be developed for mobile homes?

Mike Farrell - this property is zoned R-1 - Single Family Residential.

LeRoy Blondeau - applicant - 1st house being proposed is around the \$200,000 range.

Greg Gagnon - 100 Edgewood Drive - Would the proposed road become a part of Edgewood Drive or will it remain a private road? Would the property owners along the private road follow the covenant of the Edgewood Drive?

LeRoy Blondeau - applicant - No, it would remain a private road. The property owners along the proposed private road would have their own covenant to follow.

It was inquired how large the lots would be?

LeRoy Blondeau - applicant - There would be two (2) lots with ten (10) acres and three (3) lots a little less than ten (10) acres.

Edward Diercks - 160 Edgewood Drive -If there are no other entrances onto the proposed private road, how are the trucks, tractors, etc. getting in there presently?

LeRoy Blondeau - applicant - Private property owner is granting permission to go through.

Steve Kotaniemi - 180 Edgewood Drive - Who is going to be responsible for snow removal and maintenance of the proposed private road?

LeRoy Blondeau - applicant - It will not be by the County, but by the owners of the lots. The proposed road would be black topped to the bridge. It will maintained close.

Bill Sanders asked if there any further comments regarding the public hearing for private road request. There were none.

Bill Sanders closed the public hearing regarding the private road request.

CONDITIONAL USE #31 - CHOCOLAY TOWNSHIP BOARD:

Mike Farrell explained the applicant, Chocolay Township Board, has requested that the Chocolay Township Planning Commission consider granting a conditional use permit to allow the placement of spectator bleachers at the soccerfield at the Silver Creek Recreation Area.

Because this is zoned R-3 - Multi Family recreational activity on the parcel requires a conditional use permit. At this time the Township because of a liability issue that was brought up last year - existing bleachers for spectators for the soccerfield at the Silver Creek Recreation Area gets bombarded with baseballs when you are sitting there for the soccer games. The intent is to move the bleachers to the side of the parcel that was recently purchased.

Gene Perket - 269 Silver Creek Road - inquired about the 66' County Right-of-way.

Mike Farrell stated the Township has contacted the Marquette County Road Commission to see if they would turn over that Right-of-way to us. Township hasn't received the paperwork on this, but it has been confirmed that we are going to be receiving it.

At this point there is no specific intent for the use of this 66' right-of-way, but at a future date it may be used for an access road for a specific use.

Bill Sanders asked if there were any further comments for public hearing for Conditional Use #31. There were none.

Bills Sanders closed the public hearing regarding Conditional Use #31.

There were no further public hearings.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the meeting to order at 7:55 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Max Engle, Estelle DeVooght, Mike LaPointe and Scott Emerson present.

Don Wickstrom was absent.

APPROVAL OF THE MINUTES OF MAY 24, 1994:

Bill Sanders noted that the minutes were dated for May 26, 1994. Correct date should be May 24, 1994.

Bill Sanders asked if there were any further additions or corrections to the minutes of May 24, 1994? There were none.

Max Engle moved, Estelle Devooght supported that the minutes of may 24, 1994 be approved with the date corrected.

MOTION CARRIED: 5-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders requested that if there were no objections that under New Business items A-E be moved after Old Business item A

(Conditional Use #30 - Mike Rucinski).

Bill Sanders asked if there any further changes for the agenda? There were none.

Estelle DeVooght moved, Bill Sanders supported that the agenda be approved with the changes as discussed.

MOTION CARRIED: 5-0.

PUBLIC COMMENT:

Mark Larson - Faith Assembly of God Church Representative - inquired because of the overhead costs involved if the Planning Commission would consider approving the Conditional Use to allow all four (4) sides vinyl versus two (2) sides vinyl that was proposed in the original Condition Use.

It was a consensus of the Planning Commission members that this was a minor change.

The Planning Commission inquired if another public hearing would be necessary for this change for the Faith Assembly of God Church.

Mike Farrell indicated that a public hearing was not necessary if they consider this a minor change.

Planning Commission members felt this was just a minor change and gave the Faith Assembly of God Church the go ahead to vinyl all four (4) sides of the building.

Bill Sanders asked if there were any further public comment. There were none. He closed the first public comment section of the regular meeting.

OLD BUSINESS:

CONDITIONAL USE #30 - MIKE RUCINSKI:

Mike Farrell stated that at the last meeting, the Planning Commission asked Mr. Rucinski to come back with an updated site plan where he proposed to do the planting of the trees and to show the other items we showed under conditions, which was the gate and fence.

Another item the Planning Commission was the monitoring wells. Mike Farrell followed up on some information and contacted Sundberg Carlson & Associates, Marquette County Health Department and Department of Natural Resources.

Both the Marquette County Health Department and Department of Natural Resources felt that this particular project didn't warrant monitoring wells.

He did follow up on information regarding costs if the Planning Commission did feel that monitoring wells were necessary.

1. Sundberg Carlson & Associates - you could put 3 monitoring wells in for a cost of approximately \$3,000 - \$5,000.
2. DNR - felt to get the initial system up you could do monitoring - the cost would be between \$15,000 - \$20,000. You are looking at \$500 - \$600 per test per well. Tests would be on a quarterly basis.

Very expensive process of monitoring wells.

The other recommendation that was added to the previous one that was made was dealing with the tires and felt it was important that the Planning Commission set a limit of tires stored on site and require that they are stored within some type of structure. Presently they are being stored in a van, which at some point in time would be removed from the site. Important that a structure be established for this.

His recommendation is to have Conditional Use #30 be approved with conditions as presented in the Planning Commission's report.

The following comments questions and comments were made:

Type of Fence -

It is a 6' opaque metal fence and show on the overlay where the fence would be placed.

It is used for security purposes as well as aesthetic purposes.

30 Vehicles for Storage -

Applicant responded - the reason 30 was the number given is because presently there are 15 vehicles and there are 3 businesses and must have at least a dozen cars or so before someone will pick this up. Winter time nobody wants to pick them up.

Landscaping adjacent land -

Applicant responded that yes landscaping would be performed on the site line.

Tires -

Applicant responded to the issue dealing with tires.

1. Normally cars go to the junk yard with tires on them
2. In approximately 5 years that he has been in business there, approximately only 50 tires have been accumulated.
3. All cars on premises have tires.

Mike Farrell stated that the tires that are on the vehicles are not being proposed as conditions, but the number of tires that are stored on site were. Those are the ones that would cause problems with the insects, not the ones on the vehicles.

Suggestion for landscaping was White Spruce would be better than Jack Pine.

Applicant stated a protective screen that would grow in the location would be Jack Pine, Poplar and a type of Sugar Plum Tree.

Bill Sanders moved, Mike La Pointe supported that the Chocolay Township Planning Commission approve the application and plans submitted for a conditional use permit for the storage of vehicles and scrap steel as part of the businesses being conducted on the following parcel:

T47N, R24W, Section 21,

Part of the NE1/4 of the SE1/4 Beginning 437.52 ft. West of the NE corner thereof then West 396.36 ft., then South 41 degrees 51 minutes East 267.35 ft., then East 119.85 ft., then North 47 degrees 15 minutes East 136.26 ft., then East 75.14 ft. then Northwesterly along US-41 150 ft. to Point of Beginning.

More commonly referred to as 6570 US-41 South.

With the following conditions:

1. The area in which vehicles and other materials are to be stored shall be screened from view by a six (6) foot opaque fence.
2. The area in which vehicles and other material are to be stored shall be secured with a gate and locked during the times that the businesses are closed.
3. All fluids and/or parts that could cause possible contamination must be removed from the items being stored within the fenced area. This includes but is not limited to anti-freeze, gasoline, motor oil, transmission fluid, batteries, brake fluid, freon from air conditioners and diesel fuel. These fluids and/or parts shall be removed at a designated location with appropriate flooring material that will not allow the dripping of fluids onto the ground. Storage of the fluids and/or parts removed shall be in an approved

containers, that is in a safe location that provides for secondary containment, and shall be disposed of in an environmentally safe and legal method.

4. A vegetative screen be placed on the outside of those parts of the fence that are facing the residential neighborhood. This screen is intended to break up the line of the fence thus giving the adjacent residential area a more aesthetic view. This screen shall consist of trees and bushes of varying heights and anticipated potential heights. Should any of these trees and/or bushes die they will be replaced within a reasonable amount of time.
5. There shall be no more than 30 vehicles and 10 tons of scrap stored at this site at any one time. Each vehicle frame with or without its other components shall constitute one vehicle.
6. On site storage of tires shall be limited to 50 tires and that such storage be in an enclosed structure.
7. No items stored within the fenced area shall exceed eight (8) feet in height and no vehicles shall be stacked upon one another.
8. The fence and vegetative plantings conform to the plans submitted and approved as part of this Conditional Use Permit.
9. All plans be reviewed by the Township Zoning Administrator and conform with all established regulations as stated in the Chocloy Township Zoning Ordinance #34.
10. That Zoning Compliance Permit be obtained from the Chocloy Township Zoning Administrator prior to start of construction.
11. That the necessary permits as required by Federal, State and Local Agencies be acquired prior to project commencement.
12. That non-fulfillment of any of the conditions as set forth in this approval shall constitute a violation of the conditional use permit and may lead to the revocation of the conditional use permit.

MOTION CARRIED: 5-0

NEW BUSINESS:

REZONING #74 - TEXT AMENDMENT - WATERFRONT SETBACKS:

Scott Emerson moved, Bill Sanders supported that the Chocloy Township Planning Commission waive the reading and recommend to the Chocloy Township Board that the following amendment to the Chocloy Township Zoning Ordinance be approved.

REPEALER AND AMENDMENT

That portion of Sec. 403 of the Charter Township of Chocloy Zoning Ordinance entitled "WATERFRONT SETBACKS" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined, and the removal of the of the language in brackets([]).

[SEC.] SECTION 403 WATERFRONT SETBACK.

All new structures on lots abutting any body of water, including but not limited to inland lakes, rivers, streams, creeks, impoundments, and Lake Superior, [excepting that portion of only the chocolay river located in section 902,] shall maintain a minimum setback of 100 feet as measured from the edge of a river or the edge of a lake's shoreline. Setbacks may be extended beyond the 100 foot minimum, if after site plan review by the Zoning Administrator, the Planning Commission finds that the environment quality, scenic or aesthetic value, water quality, or recreational value of the water resource or use would be endangered or create harm or nuisance to adjacent property. These provisions do not apply to any nonconforming parcel of land or use on a recorded plat, or described in a deed or land contract executed and delivered prior to the effective date of this Ordinance.

The part of that setback which lies within 30 feet of the water's edge shall be maintained in its natural condition. Natural conditions may be modified if the Zoning Administrator finds that such modifications will be consistent with management practices which will prevent soil loss, will not increase run-off, and will provide the shoreline with adequate protection without altering the inherent characteristics of the water body. Trees and shrubs in a space 50 feet wide may be trimmed or pruned for a view of the fronting waters and for access thereto. No change shall be made in its natural grade. A lot shall be regarded in its natural condition when there is at least one tree or shrub having a height of at least 15 feet for each 100 square feet of area thereof in wooded areas or sufficient natural ground cover in open areas. All uses shall be subject to this setback except marinas, boat liveries, bathing facilities, fishing piers, commercial fishing docks, recreational docks, and associated facilities when located and designed so as not to unreasonably interfere with, degrade or decrease the enjoyment of existing uses and water resources.

In areas identified as erosion control districts in this Ordinance, the restrictions and regulations imposed in those districts shall govern if such restrictions or regulations impose higher standards or requirements.

MOTION CARRIED: 5-0.

REZONING #75 - TEXT AMENDMENT - RECREATIONAL STRUCTURES:

This would be a conditional use under the RR-2, RP and OS Zoning Districts.

1. RR-2 - requirement of 40 acres.
2. RP & OS - requirement of 20 acres.

RR-2 Zoning District - 40 acre parcel there is still enough room that the proposed camp could still be isolated and not impact the Rural Residential homes that are in those areas.

RP & OS Zoning Districts - They would be allowed in 20 acre parcels because those areas tend to have the larger parcels in and have a camp on a 20 acre parcel would not impact the other larger parcels based upon setbacks.

Comments and discussion by Planning Commission Members -

- If 20 acres in OS, why 40 acres in RR-2? Twenty (20) acres would seem to be enough room particularly if this would be a conditional use.

Mike Farrell stated his recommendation is based upon his perception and discussions with staff members and they felt with the RR-2 Zoning District you need to be a little conservative with the approach for camps in those areas and felt 40 acres versus 20 acres would be more appropriate.

- Do staff know where all the camps are placed?
- Are the camps just left to deteriorate?

The only way to regulate is through investigation and travel throughout the township and take appropriate action through a violation process.

Those coming into the office know they need a permit and would probably maintain it, especially if the Planning Commission is going to set conditions based on setbacks.

Bill Sanders moved, Scott Emerson supported that the Planning Commission recommend to the Chocoy Township Board that the following amendment to the Chocoy Township Zoning Ordinance be approved.

REPEALER AND AMENDMENT

That portion of Sec. 101 of the Charter Township of Chocoy Zoning Ordinance entitled "DEFINITIONS:" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language,

which is underlined, and the removal thereto of the language that is in brackets.

[SEC.] SECTION 101 DEFINITIONS: As used in this Ordinance.

Recreational structure, a cabin, cottage, camp, hunting camp, mobile home or other similar structure used intermittently for recreational or vacation purposes and which is not a permanent place of domicile or residency of the owner, his or her agents, lessees, heirs or assigns.

AMENDMENT

That portion of SECTION 401 of the Charter Township of Chocolay Zoning Ordinance entitled "GENERAL REGULATIONS:" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined.

SECTION 401 GENERAL REGULATIONS

Every single-family dwelling and multi-family dwelling shall have a minimum floor area of 800 square feet, and every dwelling unit in a multi-family dwelling shall have a minimum floor area of 600 square feet, provided:

- (A) It has a minimum width across any front, side or rear elevation of 20 feet and complies in all respects with the Marquette County Building Code, including minimum heights for habitable rooms. Where a dwelling is required by law to comply with any federal or state standards or regulations for construction and where such standards or regulations for construction are different than those imposed by the Marquette County Building Code, then and in that event such federal or state standards or regulations shall apply.
- (B) It is firmly attached to a permanent foundation constructed on a site in accordance with the Marquette County Building Code and constructed of such material and type as required in the applicable building code for residential dwellings. In the event that the dwelling is a mobile home, as defined herein, such dwelling shall, in addition thereto, be installed pursuant to the manufacturer's setup instructions and shall be secured to the premises by an anchoring system or device complying with the rules and regulations of the Michigan Mobile Home Commission.
- (C) In the event that a dwelling is a mobile home as defined herein, each mobile home shall be installed with the wheels and under carriage removed. Additionally, no dwelling shall have any exposed towing mechanism, under carriage or chassis.
- (D) The dwelling is connected to a public sewer and water supply or to such private facilities approved by the local health department.
- (E) The dwelling complies with all pertinent building and fire codes. In the case of a mobile home, all construction and all plumbing, electrical apparatus and insulation within and connected to said mobile home shall be of a type and quality conforming to the "Mobile Home Construction and Safety Standards" as promulgated by the United States Department of Housing and Urban Development, being 24 CFR 3280, and as from time to time such standards may be amended. Additionally, all dwellings shall meet or exceed all applicable roof snow load and strength requirements.
- (F) The fore going shall not apply to mobile homes located in a licensed mobile home park or zoning district R-2 except to the extent required by state and federal laws or otherwise specifically required in the ordinance of the Township pertaining to such parks and zoning districts.

Every recreational structure shall have a minimum floor area

of 150 square feet and comply with the stated or conditional requirements of this ordinance and/or the planning commission.

REPEALER AND AMENDMENT

That portion of Sec. 208 of the Charter Township of Chocolay Zoning Ordinance entitled "DISTRICT RR-2." as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined, and the removal thereto of the language that is in brackets.

[SEC.] SECTION 208 DISTRICT RR-2.

- (A) **INTENT.** To establish and maintain for low intensity use those areas which, because of their location and accessibility to existing utilities, paved public roads, community facilities, and public services, are suitable for wide range of very low density residential and recreational activities.
- (B) **PERMITTED PRINCIPAL USES.** The growing and harvesting of timber, and the raising of livestock. Agricultural produce, trees, shrubbery, flowers, etc., which are grown on the premises may also be marketed on the premises. Detached single family dwellings are permitted on lots five acres or more with 300 feet of lot width. Boarding stables on lots of 20 acres or more.
- (C) **CONDITIONAL USES.** Resorts, riding stables, parks, campgrounds, kennels, and day camps on lots of 20 acres or more. Hunting and shooting preserves, winter sports facilities, and trails on lots of 20 acres or more. Recreational structures on lots of 40 acres or more. Unlighted golf courses on lots of 60 acres or more.

REPEALER AND AMENDMENT

That portion of Sec. 212 of the Charter Township of Chocolay Zoning Ordinance entitled "DISTRICT RP." as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined, and the removal thereto of the language that is in brackets.

[SEC.] SECTION 212 DISTRICT RP.

- (A) **INTENT.** To establish and maintain for low intensity use those areas which because of their location, accessibility and natural characteristics are suitable for a wide range of agricultural, forestry, and recreational uses.
- (B) **PERMITTED PRINCIPAL USES.** The growing and harvesting of timber, livestock, campgrounds, day camps, riding or boarding stables, winter sports facilities, parks, kennels, trails, agricultural produce, trees, shrubbery, flowers, etc., which are grown on the premises may also be marketed on the premises. Detached single-family dwellings are permitted on tracts of 20 acres or more.
- (C) **CONDITIONAL USES.** Resorts and lodges on lots of 20 acres or more. Hunting and shooting preserves on lots of 20 acres or more. Recreational structures on lots of 20 acres or more. Unlighted golf courses on lots of 60 acres or more.

REPEALER AND AMENDMENT

That portion of Sec. 213 of the Charter Township of Chocolay Zoning Ordinance entitled "DISTRICT OS." as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined, and the removal thereto of the language that is in brackets.

[SEC.] SECTION 213 DISTRICT OS.

- (A) **INTENT.** To preserve as open space those lands which because of their soil, drainage or topographic characteristics, are unsuitable for development.

- (B) **PERMITTED PRINCIPAL USES.** Growing and harvesting of timber and bush fruit, and agricultural produce, livestock, and wildlife management.
- (C) **CONDITIONAL USES.** Single-family residences, resorts, and other recreational uses, on lots of 20 acres or more, where such development can be accomplished without significant adverse environmental impact. Recreational structures on lots of 20 acres or more.

MOTION CARRIED: 5-0.

REZONING #76 - TEXT AMENDMENT - GOLF COURSE SIGNS:

Mike Farrell stated the sign would be approximately 6' x 10' - on site for Downs Golf Course and would be by the pro shop, about ¼ mile off the highway.

Mike LaPointe moved, Max Engle supported that the Chocolay Township Planning Commission waive the reading and recommend to the Chocolay Township Board that the following amendment to the Chocolay Township Zoning Ordinance be approved.

REPEALER AND AMENDMENT

That portion of Sec. 802 of the Charter Township of Chocolay Zoning Ordinance entitled "SIGNS PERMITTED IN THE R-1, R-2, AND R-4 DISTRICTS" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined, and the removal of the of the language in brackets([]).

[SEC.] SECTION 802 SIGNS PERMITTED IN THE R-1, R-2, AND R-4 DISTRICTS.

One sign identifying each subdivision or mobile home park per vehicle entrance, having an area not exceeding 20 square feet and a height not exceeding eight feet is permitted. During development of a subdivision or other property for a period not exceeding two years, one sign, naming the subdivision or other property, developer, contractors and subcontractors, engineers, architects, brokers, and financial institutions involved, and advertising the development, having an area not exceeding 50 square feet and height and not exceeding 12 feet, is permitted in the subdivision, together with signs having an area not exceeding six square feet each and a height not exceeding six feet, directing the public to or identifying models. Signs permitted by this Section, listed above, are exempt from the setback requirements of Section 300.

On premise signs for golf courses are limited to one sign per course with a total area not exceeding 60 square feet provided that the sign is setback 5 feet from the front lot line and setback 30 feet from a side lot line.

MOTION CARRIED: 5-0.

PRIVATE ROAD #8 - BLONDEAU:

Mike Farrell - a number of concerns were raised at the public hearing and also referred to a questions and comments in memorandums that were distributed to the Planning Commission members from mark Maki, Director of Assessing & Zoning and Larry Gould, D.P. W. Supervisor and the Fire Department were addressed in his report.

Slope of the road. As to the road in approaching the bridge it is creating approximately a 10% slope. County Road specifications are at 8% and they will not adopt a road if it is over an 8% slope.

The plans submitted also shows a T on the end. In past approved roads the Planning commission required that a cul-de-sac as per county road specs with a 160' radius be put on the end of the road. This is waived under certain circumstances where there is only one driveway coming off the end of the cul-de-sac, which is appropriate at this time.

Until when an additional driveway is coming off that cul-de-sac that cul-de-sac be developed to that.

Bridge weight capacity - Engineer for Blondeau did say he would be submitting a letter to the township certifying weight capacity and the weight capacity will be equivalent to MDOT highway specifications, which is about 100,000 pounds. The bridge is being constructed isn't really an issue.

Mike Farrell stated in his recommendation that he made, he is asking if the Planning Commission is going to approve the private road that they require the developer to put some comments or statements in the deed as a covenant so that the purchasers of the property along the private road are aware that this road doesn't meet County standards and that no public dollars will be spent to maintain this road. Private roads are a private road and are not dealt with public funds.

At such time if the owners wish to make it a public road, they can do so by bringing it up to public roads standards and then the Planning Commission would consider adopting it.

Mike Farrell indicated that he would like the Planning Commission in the process of approving the private road request that they consider a covenant be placed in there so that the purchasers of the property are aware that this is a private road.

He went over the recommended conditions as written in his memo to the Planning Commission dated June 24, 1994.

The Planning Commission's recommendation would go to the Chocolay Township Board if they felt these conditions were necessary, they would approve this with these conditions and would be binding to the approval.

Estelle De Vooght inquired if the cul-de-sac was built in the swamp?

It was stated it was not. It was pointed out on the plans where it would be.

Scott Emerson inquired about a culvert.

It was stated that more than one culvert would probably be put in.

Concern regarding a Soil Erosion Permit. It was stated that a Soil Erosion Permit has been applied for.

Mike Farrell explained how the drainage would be done.

In the process of the permit being issued, they will have to comply with the DNR Specifications for inland lakes and streams for the bridge.

Mike La Pointe inquired about DNR Sediment Traps and inquired if there would be access to these traps and if the private road would be blocked from people walking in this area.

LeRoy blondeau stated this wouldn't be blocked.

It was inquired if the proposed private road is an extension of Edgewood Drive, how come it isn't a County Road?

The proposed private road will be Edgewood Trail.

Mike Farrell explained the Chocolay Township Ordinance requires all private roads being named with a Trail definition.

Bill Sanders moved, Max Engle supported that the Chocolay Township Planning Commission waive the reading and recommend to the Chocolay Township Board that the requested private road application and plans be approved, as submitted, with the following conditions:

1. The developer will provide, at their own expense, street signs and posts per township specifications and maintenance of the signs and post to be the responsibility of the owner(s).
2. A covenant be established on the parcel deeds that notifies the purchasers of property on the private road that the private road does not meet county standards and the responsibility for road maintenance, right-of-way maintenance.

and drainage maintenance belongs to the owners of the private road and also noted that the private road will not be maintained at public expense.

3. That open access to the private road be maintained for essential public services.
4. The proposed road be named Edgewood Trail.
5. That applicant comply with all requirements of the Marquette County Road Commission for connection to the public road system.
6. That the applicant obtain all the necessary permits from Local, State, and Federal agencies that are required for the development of the road. These may include Soil Erosion Permit, Inland Lakes and Streams Permit, Wetlands Permit and Flood plain Regulatory Authority review, as well as any others that may be required for the proposed road.
7. That the bridge design be certified by an engineer as to its weight capacity and that the bridge's weight capacity not be less than 80,000 pounds.
8. That a cul-de-sac easement be placed at the end of the road as per County Road Commission detail.

Estelle DeVooght inquired if the owner of the lots get requirements of the covenant regarding the maintenance of the road?

Mike Farrell indicated this would be required on their deed and identify that no public funds would be spent on the maintenance of the private road.

It was explained it was up to the owners of the association to maintain the road. Property purchasers would have to be made aware of who is responsible for the maintenance of the road.

He also indicated conditions of the approval of the proposed private road #8 - Blondeau would be going to the Chocolay Township for final approval at a Special Chocolay Township Board Meeting on Wednesday, July 6, 1994.

MOTION CARRIED: 5-0.

CONDITIONAL USE #31 - CHOCOLAY TOWNSHIP BOARD:

Mike Farrell as explained during the public hearing process, the Township purchased land on Silver Creek Road adjacent to the Silver Creek Recreation Area.

The reason the Township purchased the land was for future expansion for recreational opportunities and possibly a well field for the proposed water system.

The land that the township recently purchased was approximately six (6) acres.

The reason for the Conditional Use Permit is to be able to move the spectator bleachers for the soccerfield so they won't be getting hit with balls from the baseball field.

At a future Planning Commission date the Chocolay Township Board may be coming back to have that area rezoned to public lands, but presently it is zoned R-3 - Multi-Family, but the Zoning Administrator said presently the land is zoned R-3 and needs a conditional use.

If the Conditional Use is approved, the spectator bleachers will be moved.

The future use beyond putting beyond putting some bleachers is a subject the Planning Commission will have to address. A possible suggestions would be an update to the Recreation Plan and look at expanding the recreational area.

The Township will possibly be looking at it as a backup for a well field for the public water system that we are looking at to install

this Fall.

There is a 66' right-of-way that was deeded to the township and would be most likely be used as a driveway at some future date when the area would be developed for a potential use,

Gene Perket questioned on the water contamination?

Mike Farrell explained the water system project.

Questions and comments from Planning Commission Members.

- Chocolay Township needs to look at the recreational survey and possibly consideration for bike path, trails, etc.
- At the last Township Board Meeting that was discussed to a certain extent.
- Planting of trees should be considered.
- Trees have already been cut down.
- Reminder that this may be a concern for providing maintenance. Maintenance is done with a riding lawn mower.

Bill Sanders moved, Mike La Pointe supported that the Chocolay Township Planning Commission approve the application for a conditional use permit to allow the placement of spectator bleachers on the following property;

T47N, R24W, Section 6,

The South 400 feet of the fractional SW 1/4 of the fractional SW 1/4.

With the following conditions:

1. The planting of two to three (2-3) trees as per the D.P.W. Supervisor's discretion and be placed not to be a burden to performing the tasks of the D.P.W.

MOTION CARRIED: 4-1.

OLD BUSINESS:

TOP SOIL:

Mike Farrell has looked at language and contacted federal and state planning agencies, department of agriculture and none has ever heard of a problem with the top soil removal and had no type of language and suggestions.

By the July Planning Commission meeting hope to formulate language dealing with top soil based upon our grading permit.

TRAIL DEVELOPMENT:

Mike Farrell obtained literature dealing with dedication of lands. It primarily deals with plat approvals. Townships can adopt an ordinance that requires dedication of land to the township for plat approvals.

At this time Chocolay Township doesn't have any plats coming up that he is aware of.

We did get voluntary approval from the Elderwood Plant. He dedicated land for trails through there.

There was a question regarding trails for site condos.

Mike Farrell stated essentially under site condos in essence you have one (1) lot and that would be like coming up to one land owner and trying to obtain access through their property for a trail.

When you develop a plat, you are dedicating a road to public use, establishing particular lots, so then you can establish public access through those lots for a trail or establish a recreation area.

Suggestion was made to possibly utilize and combine with North Country Trails Association which is for non motorized vehicles.

It was stated the present bike path may be designated as part of North Country Trails.

It was also suggested when looking at the development of trails that schools, etc. be taken into consideration.

Recreation Ad Hoc Committee be set up. Mike La Pointe volunteered to be on the committee to get this set up. Once the committee gets set up and going, it will be self running.

Mike Farrell will check with the Township Supervisor to see what course of advertising for this committee would be needed and used to see who would be interested in serving on this committee.

ACCESS CONTROL:

Mike Farrell stated no further information has been obtained. Needs to be discussed more. Impression from the Planning Commission that they didn't want to establish minimum lot sizes and to go with access control.

He would like to go out and measure some of the existing driveway accesses to see what some of the spacing are and see how it would apply to the language in he literature that were previously discussed.

LANDSCAPE ORDINANCE:

Mike Farrell stated we need to move ahead with our Ad Hoc Committee on Landscaping. An outline needs to be set up and bring back to the Planning Commission to discuss.

Scott Emerson and Mike Farrell will get together and discuss information regarding a landscape ordinance and bring information to the Planning Commission at a future meeting.

PLANNING DIRECTOR'S REPORT:

1. Training workshop in Marquette - July 27th. This is a basic workshop for Zoning Board of Appeals and Planning Commission Members.

Scott Emerson will check his schedule to try to attend the workshop and let Mike know by July 18th so he can be registered.

2. Linda Rossberg, Michigan State Cooperative Extension Service, will be attending a meeting in the near future on strategic planning.
3. July Planning Commission Meeting - Budget. There are a number of items that the Planning Commission needs to include in their budget. One item is a computer software program called ARC Info.

Mike has arranged with NMU that Chocolay Township be used as a model for their new GIS System. If we are able to purchase the computer software, we will be able to load their GIS System data. GIS stands for Geographical Information System.

It's like taking a number of maps showing specific items and putting them together and take the information you want to see and how they impact each other.

Cost for the software is approximately \$600.

3. Memo from Mark Maki - Court Ruling Right-of-way.

Mike Farrell brought the Planning Commission members up to date of the recent court case the Township had dealing with right-of-ways.

As the court action Township was told as a township we have no standing in the right-of-way of roads and highways. This means we cannot enforce our zoning ordinance in those right-

of-ways and cannot limit signs, etc. in our zoning ordinance for usage in the right-of-ways.

Presently we are working with the Michigan Department of Transportation (MDOT) to find out what their requirements are and how they are going to enforce their requirements in the right-of-way.

Planning Commission member felt Township should appeal the decision.

Mike Farrell stated we got our recommendation from the township attorney that the Judge's determination was on very sound ground.

Township is looking to see what we can do to help MDOT to enforce their Rules & Regulations.

Their rules may be stringent, but the enforcement may not be, that is the concern we have.

The Planning Commission members are very concerned about the possibility of the placement of signs on the right-of-way.

It was suggested that the Township will have to complain to MDOT and they will have to take action on the enforcement.

Another way of enforcement was through out Police Department through the Motor Vehicle Code. This deals with the placement of obstructions in the right-of-way as far as safety concern.

There is no plan to appeal the case that went to court.

4. Fire Department - Private Roads

Mike Farrell stated the Township Fire Department requests that we establish some minimum standards for private roads.

We had a number of situations where private roads are developed in OS and RP districts where private road approval isn't required.

A resident can go out and build their own road in a OS and RP District and not get approval for it and build a year round residence and then come back to the Township and requests, garbage pick up, police protection, fire protection, etc. and the road cannot be passed 3/4 of the year. Example of J H Lane was given.

This would be a future agenda item.

PUBLIC COMMENT:

Mike Farrell gave an update on the Chocolay Watershed Council. A Project Manager was hired and received confirmation of additional grant dollars. A 4H group did a maintenance on Silver Creek from the highway down to the Chocolay River. There will be more demonstration projects in the future.

Planning Commission members were concerned with top soil project that was off U S 41 South.

Mike Farrell stated property owner and hauler have a soil erosion permit. Health Department have money from the property owner and hauler to be sure re-vegetation is going to take place.

It was felt that something had to be done regarding the dust from this being hauled. Mike Farrell will contact the enforcing agency and State Motor Vehicle Carrier regarding this situation.

There being no further Public Comment, Bill Sanders closed the second Public Comment section of the Planning Commission meeting.

ADJOURNMENT:

There being no further business, the Planning Commission Meeting was closed at 10:20 p.m.

CHOCOLAY TOWNSHIP PLANNING COMMISSION

TUESDAY, July 26, 1994

PRESENT: Bill Sanders, Mike La Pointe, Max Engle, Estelle DeVooght, Kevin Weissenborn

Scott Emerson arrived at 7:40 p.m.

ABSENT: Don Wickstrom

STAFF PRESENT: Mike Farrell, Director of Planning & Research
Jeanette Collick, Recording Secretary

PUBLIC PRESENT: Rita Hodgins, MSU

PUBLIC HEARING:

Bill Sanders, Chairperson stated there were no Public Hearings scheduled.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the meeting to order at 7:30 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Max Engle, Estelle DeVooght, Mike LaPointe and Kevin Weissenborn present. Scott Emerson arrived at 7:40 p.m.

Don Wickstrom was absent.

APPROVAL OF THE MINUTES OF JUNE 28, 1994:

Bill Sanders inquired if there were additions or correction to the minutes dated June 28, 1994. There were none.

Mike LaPointe moved, Max Engle supported that the minutes of June 28 1994 be approved as presented.

MOTION CARRIED: 5-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders requested that if there were no objections that under New Business Item A (Strategic Planning - Rita Hodgins Presentation) be moved before Old Business.

Bill Sanders asked if there any further changes for the agenda? There were none.

Estelle DeVooght moved, Bill Sanders supported that the agenda be approved with the change as discussed.

MOTION CARRIED: 5-0.

PUBLIC COMMENT:

Mike Farrell, Director of Planning & Research introduced Kevin Weissenborn (newly appointed Planning Commission Member) to the Planning Commission.

Mike Farrell also informed the Planning Commission that Dave Wurster presented a letter of resignation.

The Planning Commission members welcomed Kevin Weissenborn to the Planning Commission.

The majority of the Planning Commission members inquired if the Township Board could consider appointing another member to the Planning Commission as a representative for them?

It was stated that possibly after the election another member may be appointed.

Bill Sanders asked if there were any further public comment. There were none. He closed the first public comment section of the regular meeting.

NEW BUSINESS:

STRATEGIC PLANNING - RITA HODGINS PRESENTATION:

Rita Hodgins - Eight (8) years employment with MSU gave an overlay presentation on Strategic Planning. Copies of the overlay will be distributed to the Planning Commission members at the next meeting.

Strategic Planning is a systematic approach to matching strengths with opportunities resulting in actions framed by a vision for the future.

Why develop a strategic plan?

1. To improve performance.
2. To stimulate forward thinking and clarify future direction.
3. To solve major problems.
4. To survive - even flourish - with less.
5. To build teamwork and expertise.
6. To influence rather than be influenced.

Benefits of strategic planning:

1. Challenges leaders to address important issues.
2. Provides communication channels.
3. Builds team effort and participation.
4. Provides management and decision-making tools.

Getting started:

1. Form a planning committee.
2. Identify participants from various segments of the community.
3. Engage the total community.

It was suggested that two (2) individuals from each sector of the community should be involved.

To broaden the involvement of the total community, the more volume you will have, such as:

1. Youth issues.
2. Elderly issues.

It was suggested that the size of the task force consist of twenty-five (25) to thirty (30) people.

Planning Commission can be part of the task force. Township Planning Commission can identify the task force. Volunteer is very important.

Communicate with the community. It was suggested that a box be designed and placed at local stores to collect ideas from the community.

Another example of communication with the community was through a newsletter.

It was inquired what the MSU Extension's purpose would be?

1. Meet with the task force and give them an understanding of the process.
2. Conducts all the sessions.
3. Records all the information.
4. Fed by the task force.
5. Would hold a retreat with the task force.
6. Print final document.
7. Logo or title for the project.
8. Provide personnel support.

It was stated that we need to identify a group and segments of the community.

It was inquired if we would involve to many groups? It was stated no.

What would the time line be for the Strategic Planning and what has to be done to get this going?

1. When would the Planning Commission like to do this?

It was suggested to avoid Summer. Possibly Fall or Winter would be a better time.

2. The township would hold the initial meeting for the task force and the sponsors and all the people involved would come to these sessions.

Example of a group was the Chocolay Watershed Council.

3. Need strong leadership as Co-Chair.
4. Obtain a list of people and get constrictive for contact.

MSU will explain to the task force.

Need to identify:

1. What do you want for the future?
2. Problems.
3. Strengths.
4. Strategies.

It was inquired what amount of time is required for the commitment for this project?

MSU response:

Meet three (3) times.

First meeting will be approximately forty-five (45) minutes.

One three (3) hour meeting.

Final meeting - plans finished - about five (5) hours.

Task force - about five (5) hours plus - Contacts takes the most amount of time.

It was inquired about commitment from the Township Board? Mike Farrell talked to the Supervisor and he will make the Board aware of what the Planning Commission wants to do.

It was suggested that the Planning Commission go to the Township Board with the plans, if we want to move ahead with the Strategic Planning.

The Planning Commission members felt that possibly January through March would be appropriate dates to do the Strategic Planning.

Rita Hodgins, MSU will provide the outline for the Chocolay Township Board.

The Planning Commission members thanked Rita Hodgins, MSU for her time and the fine presentation.

OLD BUSINESS:

TOPSOIL REMOVAL:

Mike Farrell went over the language regarding topsoil removal that was provided to the Planning Commission that was included in their agenda packet, memo dated July 21, 1994.

It was suggested that a requirement could be made that temporary stone (crushed rock) about a 50' x 20' strip be laid depending on the size of the truck before the vehicle goes onto a county road. This is not required in the Soil Erosion permit.

It was also stated that the Marquette County Health Department determines if a Soil Erosion Permit is required.

During the discussion of topsoil removal the following suggestions were made:

1. We could require a Grading Permit and performance bond.
2. Encourage concerned citizens to contact the various agencies to do their job in overseeing the stripping of the topsoil.
3. Planning Commission to write a letter to appropriate agencies to enforce Act 347 in Chocolay Township.
4. Add another regulation on township level.
5. Write letter to the various enforcing agencies to make them aware that the enforcing agency is not enforcing the Soil Erosion Permit properly.
6. Write letter to enforcing agency regarding wind erosion.

It was suggested that a letter be drafted and reviewed by the Executive Committee of the Planning Commission and if they agree will send the letter with the Chairperson's signature to the agency that enforces the Soil Erosion Permit

It was suggested that a copy of this letter be sent to the following agencies and they send a letter stating they are in support of something be done regarding wind erosion.

1. Chocolay Township Board
2. Chocolay Watershed Council
3. Marquette County Health Department
4. Michigan Department of Public Health

TRAIL DEVELOPMENT:

It was felt that topic could be incorporated with the Strategic Planning.

Mike Farrell went over the information provided to the Planning Commission members in their agenda packet and gave them an update.

He suggested that this could be another part of the Strategic Planning process.

We can ask the developer to give easements, but we cannot force them to give easements.

He will try to obtain more information.

COMMERCIAL ACCESS CONTROL:

Mike Farrell stated he talked to some of the businessmen in the area and some of them were for access control and some were not.

It was felt that the safety issue here should be considered a priority when dealing with access control.

We can only deal with future developments, all other businesses would be grandfathered in.

He will keep the Planning Commission informed.

LANDSCAPE LANGUAGE PROCESS - UPDATE:

Mike Farrell stated he provided Scott Emerson with more literature, but they have not been able to meet yet. They will review the information regarding the Landscaped Ordinance and bring back suggested language for a Landscape Ordinance for the Planning Commission Members to review.

It was suggested that we should move ahead to put language together for green space parking areas for commercial and multi family districts. This should also be incorporated in the Strategic Planning.

NEW BUSINESS:

CONSIDER PLANNING COMMISSION BUDGET:

Mike Farrell went over the proposed budget for 1995 for the Planning Commission.

POSTAGE:

The Planning Commission members felt that due to the Strategic Planning postage should be raised to \$600.

COMPUTER SOFTWARE:

The Planning Commission members felt that the purchase of computer software, Arc View will enable the Township to utilize the G.I.S. (Geographical Informational System) developed by NMU, Geography Dept. This software would benefit both the Planning and Zoning Departments as well as the DPW Department.

CAM CORDER:

The purchase of a cam corder would be used by the Planning and Zoning Departments as an aid in presenting information to the Planning Commission and the ZBA. it would also be used by the zoning department to document zoning violations, nuisance cases, etc. The projected cost included the cost of one case of high quality video tapes.

The cam corder would also be used by the Police Department, Fire Department and Department of Public Works Department.

Mike Farrell informed the Planning Commission that due to the rising costs of the landfill tipping fees, there will be a Special Millage Election on September 13, 1994 for two (2) mills for ten (10) years for sanitation collection.

If passed, the millage will generate approximately \$158,000.

If the millage is denied, other alternatives would be either to charge a fee or possibly Chocoday Township will purchase a certain color bag with Chocoday Township printed on them, charge a certain price per bag and distributed through the various stores for pick up.

There was discussion regarding curbside recycling.

Inquires and statements made regarding recycling:

1. If we would have township curbside recycling, township would probably have to hire additional manpower staff.

2. When base closes, volume would be reduced at the landfill.
3. A Bond was purchased and because less volume being at landfill, would not mean tipping fees would be reduced. Bond still have to be paid.
4. Curbside recycling be suggested in the Strategic Planning.

PROJECTOR SCREEN:

There was a consensus that we purchase a projector screen for the meeting room that could be mounted on the wall above the windows for use with an overhead projector and slide projector.

Mike Farrell encouraged the Planning Commission to be represented during the budget process.

STORMWATER MANAGEMENT ORDINANCE:

Mike Farrell informed the Planning Commission on the ordinance and gave a brief summary on the ordinance and informed them that the County is looking to adopt the Stormwater Management Ordinance around October 1994. Each unit of government has received a copy of the Draft 6 of this ordinance. The Planning Commission was informed that Larry Gould, D.P.W. Supervisor has the Township's copy of the Stormwater Management Ordinance.

PLANNING DIRECTOR'S REPORT:

Mike Farrell informed the Planning Commission that based on a split vote at the July 18, 1994 Township Board Meeting, the Township Supervisor informed the Zoning Administrator not to enforce the Zoning Ordinance.

The Board wants to get involved of the enforcement of the zoning ordinance. He informed the Planning Commission of the process.

The Township Attorney will be in attendance at the August 15, 1994 Board meeting regarding the enforcement of the Zoning Ordinance.

Mike informed the Planning Commission that Mark Maki will still enforce the Zoning Ordinance.

It was inquired if there was anything the Planning Commission members could do regarding the enforcement of the Zoning Ordinance? They were encouraged to attend the next board meeting.

It was also inquired about the right-of-way enforcement. The Planning Commission was informed that the State has a State Vehicle Code. MDOT is the enforcing agency. The Township waiting for correspondence from MDOT on the enforcement of the right-of-way.

MEMO FROM MARK MAKI - CHOCOLAY DOWNS GOLF COURSE:

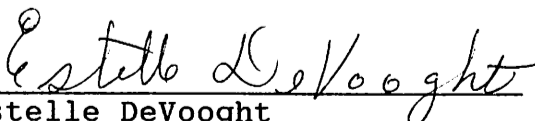

Mike Farrell brought the Planning Commission up-to-date on the Choccolay Downs Golf Course.

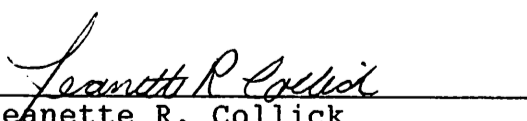

PUBLIC COMMENT:

There being no Public Comment, Bill Sanders closed the second Public Comment section of the Planning Commission meeting.

ADJOURNMENT:

There being no further business, the Planning Commission Meeting was closed at 10:50 p.m.

 Estelle DeVooght

CHOCOLAY TOWNSHIP PLANNING COMMISSION
TUESDAY, August 23, 1994
AS CORRECTED

PRESENT: Bill Sanders, Max Engle, Estelle DeVooght, Kevin Weissenborn

Scott Emerson arrived at 7:40 p.m.

ABSENT: Don Wickstrom and Mike La Pointe

STAFF PRESENT: Mike Farrell, Director of Planning & Research
Jeanette Collick, Recording Secretary
Mark Maki, Director of Assessing & Zoning

PUBLIC PRESENT: John DeVooght, Cathy DeVooght

PUBLIC HEARING:

Bill Sanders, Chairperson called the Public Hearing to order at 7:30 p.m.

Conditional Use #32 - Chocolay Downs Golf Course:

There were no public comment on the Conditional Use #32 - Chocolay Downs Golf Course.

Bill Sanders closed the public hearing regarding Conditional Use #32 - Chocolay Downs Golf Course.

There being no further public hearings, Bill Sanders closed the Public Hearing session of the meeting.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 7:35 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Max Engle, Estelle DeVooght, and Kevin Weissenborn present. Scott Emerson arrived at 7:40 p.m.

Don Wickstrom and Mike La Pointe were absent.

Bill Sanders informed the Planning Commission that according to the By-Laws that after the fourth (4th) absence of a meeting that the member missing the meeting should be replaced.

Due to work commitments Don Wickstrom has exceeded the absences allowable under the By-laws.

It was suggested that possibly after the November 8, 1994 General Election that Max Engle could be the Board Representative on the Planning Commission.

Max Engle was congratulated on winning the Primary Election.

It was inquired when Max would become a Board member.

It was explained that if he wins the November Election and after he has been sworn in, he can serve on the Township Board.

APPROVAL OF THE MINUTES OF JULY 26, 1994:

Bill Sanders inquired if there were additions or corrections to the minutes dated July 26, 1994? There were none.

Kevin Weissenborn moved, Bill Sanders supported that the minutes of July 26, 1994 be approved as presented.

MOTION CARRIED: 5-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Estelle DeVooght moved, Max Engle supported that the agenda be approved.

MOTION CARRIED: 5-0.

PUBLIC COMMENT:

Cathy DeVooght commented on the time spent on top soil removal.

NEW BUSINESS:**STORMWATER MANAGEMENT ORDINANCE:**

Mike Farrell explained the Stormwater Management Ordinance to the Planning Commission.

The Stormwater Management Ordinance is proposed to be a County wide Ordinance and doesn't want to step on other ordinances.

Scott Emerson moved, Kevin Weissenborn supported that the Planning Commission approve the concept of the Stormwater Management Ordinance as outlined in Draft #5 and this be enforced county wide.

MOTION CARRIED 5-0.

TRAIL DEVELOPMENT:

Mike Farrell stated nothing new to report on trail development, but is on the agenda to keep active.

Estelle DeVooght inquired about a letter regarding trails that she received.

Mike Farrell stated that he didn't think this would be pertaining to North Country Trails.

COMMERCIAL ACCESS CONTROL:

Mike Farrell stated noting ~~nothing~~ new to report on Commercial Access Control, but is pursuing more information and is on the agenda to keep active.

Mark Maki stated that Marquette City owns all their roads except Washington Street.

LANDSCAPE LANGUAGE PROGRESS:

Scott Emerson stated he is still interested in working with Mike Farrell on the Landscape Ordinance, because of work load, it may not be until November that he could meet.

Mike Farrell stated he was still in process of gather more information regarding landscaping.

It was also suggested that the Landscape Ordinance could be dove tailed in with the Strategic Planning.

TOPSOIL REMOVAL:

Mike Farrell stated we received a verbal response from the County Health Department on the letter that was written, but waiting for a written response.

It was stated that the County Health Department accepted the letter as support for enforcement.

NEW BUSINESS:**CONDITIONAL USE #32 - CHOCOLAY DOWNS GOLF COURSE:**

It was stated that minimal contact has been made with Mr. Gibbs regarding this issue.

It was commented that the gazebo is already there.

It was stated that the concern is with the use of the gazebo.

It was commented that possibly a vegetative screen be placed between lot 14, not fencing.

It was stated no zoning permit will be granted until all the conditions have been met, which are:

- a. That proper screening be established to make the cart storage facilities generally inconspicuous from adjacent land uses.
- b. That monitoring wells be implemented as per Marquette County Health Department recommendations and that monitoring data be provided to the township.
- c. Establish water use estimates.
- d. Estimating contaminant loading calculations.

It was also reported that the County has put a stop work order on the golf course. This is being enforced by the County.

Mark Maki suggested that we get the applicant to meet these conditions. The golf season will soon be over and should be a reasonable time to have these conditions be met.

Another concern is that alcohol consumption be dealt with.

It was suggested that a letter be put together to see what conditions Joe Gibbs hasn't met.

Max Engle moved, Bills Sanders supported that Conditional Use #32 - Chocolay Downs Golf Course be tabled until Joe Gibbs can comment and meet the conditions and that the issue of the consumption of alcohol be discussed.

MOTION CARRIED 5-0.

ELECTION OF OFFICERS:

Estelle DeVooght moved, Scott Emerson supported that Bill Sanders be Chairperson.

Estelle DeVooght moved, Max Engle supported that nominations be closed.

Kevin Weissenborn moved, Scott Emerson supported that the Planning Commission continue with the same officers which are:

Bill Sanders - Chairperson
 Max Engle - Vice-Chairperson
 Estelle DeVooght - Secretary
 Mike La Pointe - Vice-Secretary

Scott Emerson moved, Kevin Weissenborn supported that the nominations be closed.

MOTION CARRIED: 5-0.

It was stated that when Max Engle leaves, the Vice Chairperson will have to be voted on for replacement.

PLANNING DIRECTOR'S REPORT:

Mike Farrell informed the Planning Commission that a request for rezoning from R-2 to R-3 from a land owner on Willow Road would be on a future agenda for the Planning Commission.

Mike went over the letter from Pete La Rue regarding the semi trailer being used for storage.

It was a consensus of the Planning Commission that the semi-trailer at La Rue's being used for storage was not a problem, as long as it met the setbacks.

It was also suggested that dealing with outdoor storage should be a topic for a future Planning Commission agenda item.

Mike Farrell brought the Planning Commission up-to-date on the

recommendations for the Planning Commission budget. He informed the Planning Commission that the Supervisor recommended everything that Planning Commission proposed except the Cam corder.

He stated that the budget would probably be dealt with at the second September meeting of the Township Board. He will inform the Planning Commission when this would be on the agenda.

Mike Farrell also brought the Planning Commission up-to-date on the Public Water System.

Mike Farrell also informed the Planning Commission that the Gambling Casino for the Keweenaw Bay has been delayed indefinitely.

PUBLIC COMMENT:

There being no Public Comment, Bill Sanders closed the second Public Comment section of the Planning Commission meeting.

ADJOURNMENT:

There being no further business, Estelle DeVooght moved, Max Engle supported that the Planning Commission be adjourned. The Planning Commission was adjourned at 9:17 p.m.

Estelle DeVooght

Estelle DeVooght
Planning Commission Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION
TUESDAY, SEPTEMBER 27, 1994

PRESENT: Bill Sanders, Max Engle, Estelle DeVooght, Kevin Weissenborn, Mike La Pointe

ABSENT: Don Wickstrom and Scott Emerson

STAFF PRESENT: Mike Farrell, Director of Planning & Research
Jeanette Collick, Recording Secretary
Mark Maki, Director of Assessing & Zoning

PUBLIC PRESENT: Cathy DeVooght, Dr. Allan Olson, Gene Perket, Rev. Guy Thoren, Lori Deschaine, Ray Beauchamp, Jerome Le Beouf

PUBLIC HEARING:

Bill Sanders, Chairperson called the Public Hearing to order at 7:30 p.m.

Rezoning #77 - R-2 to R-3:

Mike Farrell, Director of Planning & Research explained the applicant - Paul Huard has petitioned the Chocolay Township Planning Commission to rezone parcels of property located in Section 7, T47N, R24W from the current zoning classification of R-2 to R-3.

The reason for the change is for 48 parking places.

Father Thorn - St. Louis the King Church - stated that the Church has no intention of rezoning.

Jerome Le Beouf - 612 Willow Road - stated his comments are addressed in the letter that is placed on file.

Estelle De Vooght read two (2) letters that were received by the Planning Commission regarding Rezoning #77.

Bill Sanders inquired if there were any further comments on Rezoning #77 R-2 to R-3. There were none.

The public hearing for Rezoning #77 was closed.

Rezoning #78 - R-1 to C-2:

Mike Farrell, Director of Planning & Research explained that the applicant, Ray Beauchamp - ABC Hardware, has petition the Chocolay Township Planning Commission to rezone a parcel of property located in Section 6, Township 47 North, Range 24 West

All that part of Government Lots 5 and 6 in Section 6, T47N, R24W in Chocolay Township, Marquette County, Michigan, more particularly described as follows: From a point on the South line of Government Lot 6 that is 200 feet East of the West 1/4 corner of Government Lot 6 and proceeding thence East along the Quarter Section Line 975 feet more or less to the West line of the present R.O.W. of U.S. 41 (75 foot R.O.W.); thence North along said R.O.W. 20 feet, thence West along the South line of Lot 1 of an unrecorded plat to the Southwest corner of lot 1 (Note: Lots were originally 300 feet deep of the Westerly R.O.W. line of Park Street in the Sergeant's Plat of Harvey); thence North 8° 01' West along the Westerly line of Lots 1 through 5 of said unrecorded Plat to the Northwesterly corner of Lot 5, this being the Point of Beginning. Thence continuing North 8° 01' West along the Westerly line of Lots 6 through 8 of said unrecorded Plat a distance of 300 feet more or less to the Northwesterly corner of said Lot 8; thence Southwesterly to a point which is 200 feet East and 622 feet North of the West 1/4 corner of Government Lot 6; thence South 300 feet more or less; thence Northwesterly to the Point of Beginning at the Northwesterly corner of said Lot 5.

from the current zoning classification of R-1 to C-2.

The purpose for this rezoning is to be able to access the property for business expansion, storage of pallet goods, expansion of the lawn and garden center and to provide additional customer and employee parking.

Dr. Allan Olson - 2318 U S 41 South inquired if this was the same request as a year ago.

Mike Farrell explained no. This would allow an additional 200' for rezoning.

Dr. Olson also inquired if plants, animals (endangered species) will be protected and if so how.

Bill Sanders asked if there were any further public comment regarding Rezoning #78 - R-1 to C-2. There were none.

There being no further public hearings, Bill Sanders closed the public hearing session of the Planning Commission meeting.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 7:40 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Max Engle, Estelle DeVooght, Kevin Weissenborn and Mike La Pointe present.

Don Wickstrom and Scott Emerson were absent.

APPROVAL OF THE MINUTES OF AUGUST 23, 1994:

Bill Sanders inquired if there were additions or corrections to the minutes dated August 23, 1994?

Max Engle noted that on page 3 under commercial access control it stated Mike Farrell stated noting new to report on Commercial Access Control, but is pursuing more information and is on the agenda to keep active. It should be corrected to read:

COMMERCIAL ACCESS CONTROL:

Mike Farrell stated noting ~~nothing~~ new to report on Commercial Access Control, but is pursuing more information and is on the agenda to keep active.

Kevin Weissenborn moved, Max Engle supported that the minutes of August 23, 1994 be approved as corrected.

MOTION CARRIED: 5-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

It was suggested that New Business be moved on the agenda following Old Business Item A.

Bill Sanders moved, Estelle DeVooght supported that the agenda be approved.

MOTION CARRIED: 5-0.

PUBLIC COMMENT:

Mark Maki commented on the Conditional Use Permit for Chocoyay Downs Golf Course. He stated Mr. Gibbs has not complied with the previous conditions that the Planning Commission had set.

He suggested that the Planning Commission write a letter to the Township Board to force Mr. Gibbs to comply with the conditions that were set.

Mark Maki also commented on comments that were made regarding the letter from Mr. La Rue in the August 23, 1994 Planning Commission minutes regarding the semi-trailer issue in C-2 zones.

Mark assumes that what the Planning Commission members meant was that Mr. La Rue's semi trailer used for storage met the setbacks according to the Zoning Ordinance and was not visible from U.S. 41 in that the one in question was.

He also commented that he wouldn't think the Planning Commission wouldn't want to promote semi-trailers along U S 41 for storage. It wouldn't make it attractive retail zoning district.

Cathy DeVooght commented that anyone serving on the Township Board, Zoning Board of Appeals, Planning Commission, Board of Review and Fire Department were in violation of the Pension Ordinance.

She also commented on the absence of Don Wickstrom and that according to the By-laws after three (3) absentes, a member should be replaced.

It was stated that the issue of the absentes was discussed at the August 23, 1994 Planning Commission meeting.

It was also stated that the Township Board decided on the Pension and Cathy was advised to take the issue of the pension up with the Township Board.

OLD BUSINESS:

CONDITIONAL USE #32 - CHOCOLAY DOWNS GOLF COURSE:

Mike Farrell stated that Mr. Gibbs has not commented on the letter that the Planning Commission sent him dated September 12, 1994.

Following questions were asked along with comments regarding the Conditional Use #32 - Chocolay Downs Golf Course.

- It was suggested that the Planning Commission send a follow-up letter to Mr. Gibbs informing him to attend the next Planning Commission Meeting or the Conditional Use would be denied.
 - During a conversation with the Marquette County Health Department, a staff member was informed that nothing has been done regarding the Monitoring Wells.
 - Zoning Director has written two more letters to Mr. Gibbs and has received no response.
- Township Board policy is the issuance of an appearance ticket.
- It was suggested that a letter from the Planning Commission be sent to the Township Board informing them that Mr. Gibbs has not met the conditions that were set forth regarding Conditional Use #32.
 - Monitoring wells should have been put in place immediately.
 - It was inquired if a Conditional Use can be revoked?
 - It was suggested to write a letter to Mr. Gibbs to give him another opportunity to meet the conditions.
 - It was suggested that a letter be sent to the Township Board raising concern that the conditions have not been met and that Board action along the lines of an injunction is appropriate.
 - Table the Conditional Use until the October Planning Commission Meeting.
 - Deny the Conditional Use, applicant has had adequate time to meet the conditions that were set forth.
 - Not going to change the fact that the applicant has met the conditions.

Estelle De Vooght moved, Kevin Weissenborn supported that Conditional Use #32 -Chocolay Downs Golf Course be denied.

A letter will be written and reviewed by the Planning Commission

Officers and be sent to Mr. Gibbs and forwarded to the Township Board.

MOTION CARRIED 5-0.

NEW BUSINESS: REZONING #77 - R2 TO R3:

The following questions and comments were received regarding Rezoning #77.

- It was inquired if John Roberts was contacted regarding the rezoning?
There was no response from Mr. Roberts.
- Outside of 200' the township couldn't require to hook up to the Township Sewer.
- Applicant plans on putting additional expansion of apartments.
- Suggested to table the rezoning until a response is obtained in writing from the Health Department regarding the septic system.
- It was stated that if Mr. Huard would hook up to the township sewer, the cost would be approximately \$4,000.
- In Michigan contracting zoning is not allowed.
- A letter was sent to the Marquette County Health Department inquiring about the septic service.
- Concern is the maintenance of the road.
- Land owner should be present at the meeting when this issue is discussed.
- Adequate plans for additional parking for his structure and the long term intent.
- It was explained that this wouldn't affect the church's use and what they can do.

Mike La Pointe moved, Bill Sanders supported that Rezoning #77 be tabled until a letter from the Marquette County Health Department is received and reviewed.

MOTION CARRIED: 5-0.

REZONING #78 - RAY BEAUCHAMP - ABC HARDWARE:

Ray Beauchamp explained what his intentions were regarding Rezoning #78.

- Doesn't plan on not preserving the endangered species.
- Not planning on leveling the whole area.
- Planning on maintaining the trees that are there.
- Not planning on paving, the trees will die.

The following questions and comments were asked and received regarding Rezoning #78.

- Needs to clean up the area in the back.

Mr. Beauchamp commented that they have been attempting to clean the area up, but is not through yet.

Planning on putting topsoil down.

- How large of an area would this be for?

Approximately one (1) acre.

- It was stated an Endangered Species Permit through the DNR could be obtain for the protection of the endangered species.

- Access would be limited for the expansion of the project. because there is no frontage.
- Present R-1 zoning is not practical.

Kevein Weissenborn moved, Bill Sanders supported that Rezoning #78 be approved.

MOTION CARRIED: 5-0.

OLD BUSINESS:

Cathy De Vooght requested that item E. (topsoil removal) be moved ahead of items B, C, and D.

TOPSOIL REMOVAL:

Mike Farrell stated that he had talked with Mr. Fred Benzie regarding the letter that was sent to the Health Department by the Planning Commission, but no response has been received at this time.

It was suggested that the Planning Commission keep abreast of the stripping of topsoil throughout the township and to see that the proper steps are followed.

LANDSCAPE LANGUAGE:

It was suggested that the Planning Commission address the Zoning Board of Appeals regarding the Landscape Ordinance, such as green space and parking areas.

Regulations to control trees and green space is important and possibly when a request is made to reduce these, that a hardship would be proven.

COMMERCIAL ACCESS CONTROL:

No information obtained.

TRAIL DEVELOPMENT:

No information obtained.

Mike Farrell will inform the new Director of Planning & Research of these ongoing projects.

PLANNING DIRECTOR'S REPORT:

Mike Farrell reported that the three text amendments: Water Front Setbacks, Recreational Structures and Golf Course Signs went to the Township Board.

The text amendment regarding Water Front Setbacks were passed by the Township Board.

The Township Board requested that the text amendment regarding Recreational Structures be referred back to the Planning Commission. Language concerning mobile homes needs to be cleaned up.

The Township Board requested that the text amendment regarding Golf Course Signs be referred back to the Planning Commission to obtain language regarding the type of advertising. The intent is to advertise for the Golf Course.

Mike Farrell stated that effective October 14, 1994 he will be resigning from his position at the Charter Township of Chocoley.

He will inform the new Director of Planning & Research of the Strategic Planning to begin January 1995 and also the ongoing projects that the Planning Commission are involved in.

He commended the Planning Commission for all their work and support they have given him while employed at Chocoley Township.

PUBLIC COMMENT:

Planning Commission members thanked Mike Farrell for all the support he has given them and much success to him in the future.

There being no further Public Comment, Bill Sanders closed the second Public Comment section of the Planning Commission.

INFORMATIONAL ITEMS AND CORRESPONDENCE:

Correspondence to Joe Gibbs - Planning Commission Questions.

ADJOURNMENT:

There being no further business, Mike La Pointe moved, Bill Sanders supported that the Planning Commission be adjourned. The Planning Commission was adjourned at 9:00 p.m.

There was no meeting scheduled.

CHOCOLAY TOWNSHIP PLANNING COMMISSION
TUESDAY, NOVEMBER 22, 1994
AS CORRECTED

PRESENT: Bill Sanders, Max Engle, Mike La Pointe, Estelle DeVooght
(arrived at 8:15 p.m.)

ABSENT: Scott Emerson

STAFF PRESENT: Karen Chandler, Director of Planning & Research
Jeanette Collick, Recording Secretary

PUBLIC PRESENT: None.

PUBLIC HEARING:

There were no public hearings scheduled.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 8:15 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Max Engle, Estelle DeVooght, and Mike La Pointe present.

Scott Emerson was absent.

APPROVAL OF THE MINUTES OF SEPTEMBER 27, 1994:

Bill Sanders inquired if there were additions or corrections to the minutes dated September 27, 1994?

There were no corrections.

Estelle DeVooght moved, Max Engle supported that the minutes of September 27, 1994 be approved as submitted.

MOTION CARRIED 4-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Due to Max Engle getting elected as trustee on the Chocolay Township Board and will be appointed as the Township Board representative on the Chocolay Township Planning Commission, he resigned as present Vice-Chairperson from the Planning Commission.

Mike LaPointe resigned as Vice-Secretary from the Chocolay Township Planning Commission and was unanimously elected to serve as Vice Chairperson.

Bill Sanders moved, Estelle DeVooght supported to accept the resignation of Mike LaPointe from Vice-Secretary and for the appointment of Vice-Chairperson.

MOTION CARRIED: 4-0

Bill Sanders moved, Estelle DeVooght supported that the agenda be approved as submitted.

MOTION CARRIED: 4-0

PUBLIC COMMENT:

There were none.

OLD BUSINESS:

CONSIDER COMMENT ON STORMWATER MANAGEMENT ORDINANCE:

The Planning Commission discussed the Stormwater Management Ordinance. It was stated that the Township Board submitted a letter to the Marquette County Board of Commissioners dated November 10, 1994. The Township Board asked that the County Board

refer draft #6 back to the committee and that the committee consider changing the ordinance so that it could be implemented on a watershed basis only.

It was stated there were some government entities that are against the Stormwater Management Ordinance.

The Stormwater Management Ordinance will be on the Marquette County Commission's agenda for December 1994.

DISCUSS SECTION 106 AMENDMENT - RE: NUMBER OF STRUCTURES PERMITTED ON A LOT:

After discussion on the number of structures per lot, it was suggest that the concern be placed on concentrating on area of commercial businesses rather than the expansion of commercial businesses.

There was also a concern for parking and access. Commercial access to control traffic on the highway. There are to many driveways on the highway.

After reviewing and discussing the number of structures per lot it was stated that a lot split can't be done until the proper parking is sufficient. It was suggested that this be put on a priority list and submitted to the Township Supervisor and the Township Board.

REVIEW OF ONGOING PROJECTS:

1. TRAIL DEVELOPMENT:

It was stated that when plats are being developed that the Planning Commission would like this to be considered as an easement.

Ad Hoc Committee for Recreation would be considered part of the Strategic Planning.

2. COMMERCIAL ACCESS:

This item should be placed on the priority list.

3. LANDSCAPE ORDINANCE:

This is an ordinance related item. It was commented that the Zoning Board of Appeals was contacted regarding the Landscape Ordinance, such as green space and parking areas and the approval of a hardship regarding meeting certain criteria. The Zoning Board of Appeals were against this. ~~The Zoning Board of Appeals would also need to support the landscape portion of the ordinance with variances required only in hardship cases.~~

4. TOPSOIL REMOVAL:

This is enforced by Soil Erosion through the County. It was suggested that if someone sees a potential problem with the removal of topsoil to contact the County by letter.

This item should be removed from the priority list.

5. Strategic Planning:

Karen Chandler brought the Planning Commission up-to-date on her meeting with Rita Hogins from Michigan State University regarding Strategic Planning.

It was suggested that the Planning Commission members give some thought on some residents that may be willing to serve on some of the various committees that were suggested for Strategic Planning.

It was suggested that the Strategic Planning be scheduled to start in February.

6. Condo Ordinance:

It was suggested that this be placed on the priority list.

7. Sign Ordinance:

It was suggested that this be on the priority list. Karen would draft up the Board comments for the Planning Commission Meeting in December.

NEW BUSINESS:**SEMI-TRAILERS AND OUTDOOR STORAGE:**

Mark Maki's memo dated October 19, 1994 regarding semi-trailers used as storage was discussed.

Karen Chandler informed the Planning Commission that Ivan Fende, Township Supervisor met with Mr. Menhennick and Mr. La Rue regarding this issue. Karen will check with Ivan on the outcome of that meeting and will report the appropriate action that was taken back to the Planning Commission.

PLANNING DIRECTOR'S REPORT:**1. CHOCOLAY DOWNS GOLF COURSE:**

Karen informed the Planning Commission that Mr. Gibbs will report on the items that were addressed in his memo to the Planning Commission in December 1994. If he cannot be in attendance, he will have information for them.

2. PAUL HUARD:

Karen informed the Planning Commission that Mr. Huard stated he plans on hooking into the Township Sewer and blacktopping Willow Road. He is also planning on building more apartments. This will be on the agenda for the January meeting.

It was also stated that when this was discussed at a previous meeting that St. Louis the King Church was against their piece of land to be rezoned.

3. RESIGNATION OF DON WICKSTROM AND KEVIN WEISSENBORN FROM THE PLANNING COMMISSION.

Karen informed the Planning Commission that both Don Wickstrom and Kevin Weissenborn have submitted their resignations from the Planning Commission.

4. PLANNING COMMISSION MEETING NIGHT:

After discussion, it was unanimously agreed by the Planning Commission members that starting January 1995 that the Planning Commission Meetings be changed to the second Monday of each month. Karen will check with Scott Emerson to see if this would fit his schedule.

PUBLIC COMMENT:

There were none.

INFORMATIONAL ITEMS AND CORRESPONDENCE:**A. LETTER TO HARLEY ANDREWS, ATTORNEY FROM MARK MAKI - follow up on Gibb's Conditional Use Permit:**

Joe Gibbs responded to the attorney's letter.

B. CURRENT ISSUES IN PLANNING & ZONING WORKSHOP:

It was suggested that Karen check with MTA to inquire if it would be possible to hold some planning seminars in the U.P.

ADJOURNMENT:

There being no further business, Mike La Pointe moved, Max Engle supported that the Planning Commission be adjourned. The Planning Commission was adjourned at 9:30 p.m.

There was no meeting scheduled.

CHOCOLAY TOWNSHIP PLANNING COMMISSION
 MONDAY, JANUARY 9, 1995
 AS CORRECTED

PRESENT: Bill Sanders, Max Engle, Mike LaPointe, Estelle DeVooght
 Scott Emerson, Steve Kinnunen

ABSENT: Dallas Peterson

STAFF PRESENT: Karen Chandler, Director of Planning & Research
 Mark Maki, Zoning Administrator

PUBLIC PRESENT: None.

PUBLIC HEARING:

There were no public hearings scheduled.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 7:35 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Max Engle, Estelle DeVooght, Mike LaPointe and Scott Emerson present. Bill Sanders welcomed new member Steve Kinnunen.

New member Dallas Peterson was absent.

APPROVAL OF THE MINUTES OF NOVEMBER 22, 1994:

Bill Sanders inquired if there were additions or corrections to the minutes dated November 22, 1994?

Scott Emerson had a question on the Landscape Ordinance on page 3. Zoning Board of Appeals in the past has not supported landscaping in the current zoning ordinance. The Landscaping Ordinance would need to be enforced if approved by the Township Board.

CORRECT NOVEMBER MINUTES TO INCLUDE: The Zoning Board of Appeals would also need to support the landscape portion of the ordinance with variances required only in hardship cases. AFTER the last sentence in REVIEW OF ONGOING PROJECTS # 3.

Max Engle moved, Mike LaPointe supported that the minutes of November 22, 1994 be approved as corrected.

MOTION CARRIED 6-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders inquired if there were any additions or changes for the agenda.

The election of the Vice-Secretary for the Planning Commission was discussed.

Scott Emerson inquired what the position of the Vice-Secretary entailed? It was stated that if the Recording Secretary wasn't present and the Secretary of the Planning Commission wasn't present, then the Vice-Secretary would take over the duties of Recording Secretary. Also if the Planning Commission Secretary wasn't present and the Recording Secretary is, then the Vice-Secretary would sign the minutes.

Mike LaPointe moved, Bill Sanders supported that Scott Emerson be elected as Vice-Secretary.

MOTION CARRIED 6-0.

Bill Sanders moved, Scott Emerson supported that the agenda be approved as submitted.

MOTION CARRIED: 6-0.

PUBLIC COMMENT:
There were none.

OLD BUSINESS:

STRATEGIC PLANNING PROCESS

Discussion followed on use and grouping of categories and listing of names for Team Captains.

1. **Business/Professional;** Duane Hastrich, CABA member, Lynn Frazier, Douglas LaBarr, Gary Menhennick
2. **Recreation/Tourism;** Andrea Beckman, Joan Spencer, Pat Liest, Greg Baldwin
3. **Education/Arts/Culture;** Jude Catallo, Nina Ittner, June Rydholm, Hugh Kahler, Pat Manning, Jim Carter, Judy Hanson
4. **Government Services/Land Use/Zoning;** Carl Lindquist, John Renfrew, Bruce Miller, Carol Hicks, John Porter, Gordie Uren, Linda Rossberg, Tom Thomas
5. **Agriculture/Forestry/Environment;** Gary Gorsalitz, Marilyn Heitman, Rod Smith, Chris Burnette, Bob Atwood, Fred Metzger, Dan or Eric Meister, Richard Reader, Keith Johnson
6. **Community at Large;** Dick Sanders, Marla Buckmaster, Dick Vivian, Elaine Hodge, Louise Borgoult, John Weting, Judd Johnston, Cliff Brin, Donald Salo, Alan Olson, Robert Fisher

Karen will call Rita Hodgins for a fact sheet of information to be used for listing of time requirements, number of meetings and follow up work required of both Team Captains and committee members. As we call each person, we can give them an idea of how much time will be needed to be committed to this project. This listing is a very good start.

Bill asked each member to make their phone calls and to get names back to Karen by January 20th.

CONSIDER TEXT CHANGES ON REZONING 75 & 76 AS PER THE TOWNSHIP BOARD'S REQUEST

Rezoning #75 was returned to the Planning Commission for further consideration to the wording for recreational mobile homes in the RR-2, OS, and RP Zoning Districts. The discussion of the Planning Commission was to allow smaller size structures for recreational purposes. Any conditional use would still come to the Planning Commission. It was decided to send the recreational structure definition back to the Board as originally submitted with the following motion:

Bill Sanders moved Mike LaPointe supported that the Planning Commission intends to allow mobile homes in this definition as a recreational structure, as they would be on large parcels and be subject to the conditional use review process.

Motion carried 6-0.

Rezoning #76 was returned to the Planning Commission to add the definition of signage being considered for golf courses. The County Planning Commission suggested that all conditional uses have the same sign regulation rather than to address just golf courses.

Schools & Churches are allowed signage of 32 sq ft. This change in the zoning ordinance would allow 60 sq ft for golf courses.

PROPOSED LANGUAGE: (Underlined)

SEC. 802 SIGNS PERMITTED IN THE R-1, R-2, AND R-4 DISTRICTS.

One sign identifying each subdivision or mobile home park per vehicle entrance, having an area not exceeding 20 square feet and a height not exceeding eight feet is permitted. During development of a subdivision or other property for a period not exceeding two years, one sign, naming the subdivision or other property,

developer, contractors and subcontractors, engineers, architects, brokers, and financial institutions involved, and advertising the development, having an area not exceeding 50 square feet and height and not exceeding 12 feet, is permitted in the subdivision, together with signs having an area not exceeding six square feet each and a height not exceeding six feet, directing the public to or identifying models. Signs permitted by this Section, listed above, are exempt from the setback requirements of Section 300.

On premise signs for golf courses are limited to one sign per course with a total area not exceeding 60 square feet provided that the sign is setback 5 feet from the front lot line and setback 30 feet from a side lot line.

Mike Farrell stated the sign would be approximately 6' x 10' - on site for Downs Golf Course and would be by the pro shop, about ¼ mile off the highway.

This issue was sent back for further research.

DISCUSS AMENDMENTS NEEDED TO ZONING ORDINANCE:

The issue is garages of larger sizes in the residential districts. We originally had no height size for garages and proposed a 14 ft height requirement, which was sent back to the Planning Commission. The zoning board of appeals needs to have clarification. There have been seven cases to the ZBA since 1990. The new wording would include the word average. There would still be a problem with second story garages. More people are building storage over the garage and some are using storage space for boats etc.

Suggested Language:

Height - The vertical distance between the average grade and the highest point of the roof surface for flat roofs, to the deck line of mansard roofs; the average height between the eaves and ridge for gable, hip, and gambrel roofs; and the average height between the lowest point and the highest point on a shed roof, excepting any chimney or antenna on a building.

No detached accessory building in a residential district shall exceed fourteen (14) feet in height.

No detached accessory building shall exceed the size of the main structure.

Intent of Planning Commission is to send this wording to the Board for any major question before a public hearing is held and move on before the spring building season.

Scott Emerson moved, Bill Sanders supported that the proposed amendment in the zoning ordinance for accessory buildings in R1, R2, R3 & LS/R be reviewed by the Township Board at their next session and the Planning Commission would appreciate comments.

Motion carried 6-0.

DISCUSS LOT SPLIT AND ZONING ORDINANCE

Primarily the result of DiLoreto case and the Cathy DeVooght case. This language amendment would make it a violation of the ordinance to create a lot that does not comply. This would have prevented and saved thousands of dollars of useless litigation. DiLoreto has taken the case to the Marquette County Circuit Court. If minimum lot sizes are in the zoning ordinance, the subdivision should correspond to lot sizes.

Lot split language should be brought back to the Planning Commission for a public hearing. The wording to be added to the ordinance is as follows:

Zoning Ordinance

Any lot created after the effective date of this amendment shall comply with the minimum lot width and lot area requirements for its respective zoning district.

Lot Split Ordinance

No zoning compliance permit shall be issued for any new

construction until a lot split approval pursuant to this lot split ordinance has been approved by the Township Board.

Karen was asked to review this wording with Mark and to bring it back ready for a public hearing.

DISCUSSION SECTION 106 AMENDMENT - RE: NUMBER OF STRUCTURES PERMITTED ON A LOT:

This problem centers around access control vs the number of structures per lot. The PUD concept at the Blondeau development should be considered.

The Planning Commission has sent the wording for one principle structure per lot to the Township Board. No action has been taken by the Board. The following motion is being sent back to the Board for action on this issue.

Bill Sanders moved Scott Emerson supported that the Planning Commission has discussed the proposed language for Section 106 text amendment with the Township Zoning Administrator and understands that plans approved by the Township prior to the effective date of this amendment will be grandfathered.

Motion carried 5-1.

NEW BUSINESS:

CONSIDER RECYCLING & REFUSE OPTIONS:

Scott Emerson had asked to place this on the agenda over concern for the millage election and the bag tag system. Scott suggested a quarterly report of projected property tax if millage passed vs the tags and the cost of the tags. ~~Scott thinks we may be collecting more than needed.~~

Curbside recycling has been suggested. Scott referred to a survey taken a few years ago. The questions on recycling showed that almost 85% were interested in curbside pick-up. Scott thinks a once a month pick-up could be possible for those item that Peninsula Sanitation already accepts.

The millage will be put back to the voters at the next general election. The ballot proposal language may need to be adjusted. If specific *curbside recycling* were included in the language the proposal would have a much better chance of passing.

Peninsula Sanitation is now charging 50¢ per bag for recyclable materials.

The general consensus of the Planning Commission is to have curbside pick-up. The budget did include \$5,000 this year for recycling.

To think that if 50% is recycled then the tipping cost would be reduced by 50% is a false assumption. There are specific fixed costs at the Landfill and those costs need to be covered.

Markets need to be found for recycled materials. How much would it cost to ship materials to Chicago?

Efforts will be made to have someone from Peninsula Sanitation come to a Planning Commission and explain their program. They should be asked to consider the cost of pick-up in Chocolay Township.

Karen was asked to check with the City of Marquette on their program with Peninsula and the City of Munising on their program with the tags.

PLANNING DIRECTOR'S REPORT:

Asked the Planning Commission to look over the Recreation Plan for any changes or updates. I have briefly looked over the Plan and the only changes would be to alter the plan to include different recreational objectives. If we want to continue with the Plan as submitted, then no changes are necessary at this time.

I have talked with Ivan on the temporary storage structures (semi-

trailers). Ivan spoke with both Gary Menhennick and Pete LaRue about their semi-trailers. Both would like to see language addressed for temporary structures with some type of screening and of short duration. I will get back with Mark about a possible solution.

PUBLIC COMMENT:

There were none.

INFORMATIONAL ITEMS AND CORRESPONDENCE:

- A. CORRESPONDENCE TO - KEVIN WEISSENBORN - *Thank you for serving*
- B. CORRESPONDENCE TO - DALLAS O. PETERSON - *New member*
- C. CORRESPONDENCE TO - STEVEN D. KINNUNEN - *New member*

Bill asked that Karen get in touch with Dallas Peterson.

Scott asked about the property out near Kawbawgam and to have it rezoned. This was talked about last fall. The priority list needs to be put out again. Scott had sent a three page letter on his list of priorities to Mike Farrell last year. The priority list should include a column to put out the fires and a proactive column. This will be brought back to the Planning Commission

ADJOURNMENT:

There being no further business, Mike LaPointe moved, Max Engle supported that the Planning Commission be adjourned. The Planning Commission was adjourned at 10:45 p.m.

CHOCOLAY TOWNSHIP PLANNING COMMISSION

MONDAY, FEBRUARY 13, 1995

PRESENT: Bill Sanders, Dallas Peterson, Steve Kinnunen, Estelle De Vooght, Mike La Pointe, Scott Emerson (arrived at 7:40 p.m.)

ABSENT: Max Engle

STAFF PRESENT: Karen Chandler, Director of Planning & Research

OTHERS PRESENT: Jeanette Collick-Recording Secretary, Richard Smith, Fred Metzger, Ron Thorley, Gene Elzinga, Mark Leppanen, Marla Buckmaster, Babs Sparhawk, Burt Sparhawk.

PUBLIC HEARING:

There were no public hearings scheduled.

PUBLIC HEARING:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 7:30 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Dallas Peterson, Steve Kinnunen, Estelle DeVooght, Mike LaPointe present. Bill Sanders welcomed new member Dallas Peterson.

Max Engle was absent - out of town.

APPROVAL OF MINUTES OF JANUARY 9, 1995:

Bill Sanders inquired if there were additions or corrections to the minutes dated January 9, 1995?

He noted that on page 5 under New Business - Consider Recycling & Refuse Options: the last sentence "Scott thinks we may be collecting more than needed." This sentence should be eliminated.

Bill Sanders moved, Dallas Peterson supported that the minutes of January 9, 1995 be approved as corrected.

MOTION CARRIED: 5-0.

APPROVAL OF AGENDA:

Bill Sanders requested that under New Business (A) Trails Development Presentation be moved before Old Business.

Bill Sanders inquired if there were any further additions or changes for the agenda? There were none.

Mike LaPointe moved, Bill Sanders supported that the agenda be approved as changed.

MOTION CARRIED: 5-0.

PUBLIC COMMENT:

Gene Elzinga - North Country Trails stated he would like to comment when the Trail Development Presentation was being made by Scott Emerson.

There were no further public comment. The first public comment session was closed.

OLD BUSINESS:

DISCUSS STRATEGIC PLANNING - CITIZENS CONTACTED:

Karen reported that we have enough Task Force People and we can add names for committee work

later. The next step is to contact the people who have agreed to become chairs. The Planning Commission members will have to decide which members will serve on which committee so they can get started. The step after that, letters will be sent out and set up a meeting date so it can be agreed upon how the process will go. The initial meeting will take about one hour. Planning Commission is the host. Each member will take a sub group and attend their meeting so you will have an idea what is coming out of that group.

There are six (6) different categories. Each Planning Commission member agreed to sit on the following categories:

AGRICULTURE/FORESTRY/ENVIRONMENT - Mike LaPointe

GOVERNMENT SERVICES/LAND USE/ZONING - Dallas Peterson

COMMUNITY AT LARGE - Bill Sanders

BUSINESS/PROFESSIONAL - Max Engle

Scott Emerson arrived at the meeting at 7:40 p.m.

RECREATION/TOURISM - Scott Emerson & Steve Kinnunen

EDUCATION/ARTS/CULTURE - Estelle DeVooght

It was agreed that there should be an initial meeting for all groups in about two - three weeks. This would probably be an evening meeting for about one hour.

Karen will write letters to the people on these committees on the date, time and place of the meeting. The Planning Commission members were requested to inform Karen the times that they wouldn't be available for the combined meetings.

NEW BUSINESS:

TRAIL DEVELOPMENT PRESENTATION:

Scott Emerson made a presentation on the overlay on suggested routes for the trails throughout Chocolay Township. This information will be placed in the Planning Commission Agenda Book in the Township Office.

Gene Elzinga - North Country Trails would like to obtain a pathway through Chocolay Township for that national trail.

During the presentation the following comments were made:

Extend bike path to Beaver Grove, Cherry Creek Road, M 28 E, and to Silver Creek Road. Safer access to both schools.

Non motorized in the Summer.

Try to facilitate motorized traffic on the existing bike path through the commercial zone and extend that bike path throughout the commercial zone and all the way down to our existing recreation area in Beaver Grove. Snowmobilers who have access to get from point A to B, such as a store, gas station, etc.

Possibly work on easements with future developers.

Possible tax break for residents that would possibly allow the trail on their property.

The widening of Cherry Creek Road is placed for the County Road Commission to do.

Control speed limit along Cherry Creek Road. It was suggested that the Planning Commission write

a letter to the Township Board to get emphasis for easements for bike path for trails in terms of incentive - possibly tax relief for residents granting easements for these trails through the Township.

The following recommendation was presented for consideration:

Amend the current rec plan to emphasize development of a bike path (trails) network through out the Section 902 area of the Township.

Work to immediately secure easements from property owners (by mid 1996).

Pass laws granting property owners a tax reduction in return for granting easements for planned trail development in Chocolay Township.

Work aggressively to obtain grants to help with bike path construction 1996 thru 2002.

Solicit CABAs support for the project.

Work closely with NCT Association for:

gain access for non-motorized traffic recreational use along MI Bell/WI RR right of way thru Section 902 Chocolay Township.

Link our trail network to theirs.

Purchase land for public park/nature trail adjacent to NCT route in Section 902 Chocolay Township.

Prohibit NCT snowmobile traffic thru residential districts in Section 902 (metal posts, signage, fines)

Gene Elzinga - snowmobile clubs and North Country Trails are working together to work trail access out.

North Country Trails takes the responsibility of clearing the land and maintaining the trails.

Planning Commission thanked Gene Elzinga, residents that were present and Scott Emerson for the presentation and comments on the trail development.

NEW BUSINESS:

Karen reported on the recycling forum that was held in Negaunee.

Peninsula Sanitation representative was not in attendance at the forum.

Representative from Great Lakes in Escanaba is going to be attending one of the CABA meetings that will be coming up.

A bag of compost was shown that Max Muelle from Marquette Township was doing.

Karen reported on the information that Larry obtained from Northern Refuse in Negaunee.

Cardboard is bringing in about \$130 per ton.

Newspaper and shredded office paper is going to the prison.

Escanaba has a building to store all the recyclables until there is a market for the materials being recycled.

Escanaba is a nonprofit organization - grant program and is maxed out. They are close to a trucking firm, so the truck never goes to Chicago empty. The truck is going with something on it and coming back loaded.

We need to address our local concerns.

There is also a couple of gentlemen from K I Sawyer that wants to start a recycling business out at K I Sawyer, and want to work with the Base Conversion Authority.

Skandia - West Branch Transfer Station is part of the household hazardous waste program and once a month they have a household hazardous waste pick up. They also contract for \$300 per month the townships pay an individual to take all the recyclables. Individuals have to separate their recyclables from their own refuse.

This would be the same with curbside recycling.

Karen reported that at the last Township Board meeting the millage was talked about, the Board talked about going out on bids for another garbage truck in the next year or two. They stated that before going out on bids for another garbage truck, they would like to obtain bids from a private sector on garbage pick up and that curbside recycling be included.

It was also stated that since the tag system the tonnage has gone down in about half. There are reasons such as some people are recycling, but there are also residents who have not been putting their garbage out. The barns may also have to be increased.

It was stated that possibly by April, clear glass may be recycled in the Township.

ECI - would like to obtain equipment and the buildings at the base to start up the recycling project.

IT was inquired as to what we can do to help get this started?

It was suggested that a letter be written to the Base Conversion Authority that we support the start up of this business. It was also suggested that a copy of our letter be sent to the other townships in the area to advise them to do the same.

It was also suggested that possibly a community compost site could be made available in the Township for compost recycling. Gentz Farm takes grass clippings, leaves, etc. It was suggested that a possible site for the compost site would be the township property in Beaver Grove near Superior Truck Service.

It was noted that on the questionnaire survey that one of the high priorities the township residents required was recycling.

It was stated that a memo from the Planning Commission go to the Township Board requesting that the Township use recyclable materials. The Planning Commission thought this was a very important step towards recycling and using recyclables and state also that the Planning Commission is in favor of the glass recycling.

DISCUSSION ON RECREATION PLAN GRANT APPLICATION:

Karen reported that with the April 1, 1995 deadline for the grant application, we do not have enough time to add the information regarding the trails through the Township.

It was inquired if there were matching monies available for trails. It was stated there were.

It was stated that we need to work on the recreation plan update for next year.

It was also noted that for at least a year that a Recreation Ad Hoc Committee should be formed. This should be taken into consideration under the recreation part of Strategic Planning.

It was also noted that a memo from the Planning Commission be written to Larry Gould that we are in support of the proposed recreation grant application, but would like the addition of trails be given consideration per the survey that approximately 79% of the residents of Chocoy stated that they would like to see be developed. This should be taken into consideration when updating the Comprehensive Plan/Recreation Plan for grant monies, etc.

It was stated that the Strategic Plan be rolling by mid April.

DISCUSS UPDATE ON SEMI-TRAILERS:

Karen will work with Mark and try to come up with language regarding regulations for semi-trailers and report back to the Planning Commission.

DISCUSS UPDATE ON JOE GIBBS:

During the discussion the following comments were made:

He is in violation of his conditional use permit.

He is requesting to have the monitoring wells condition removed.

Dan Trotochaud is working with Joe and he will be reporting the outcome to Karen.

The combined feeling of the Planning Commission members is to issue an appearance ticket.

State is requiring Joe to put up a shed with a concrete base to store all the fertilizer.

Obtain information from Mr. Benzing - Marquette County Health Department regarding what type of monitoring wells and regulations are required.

Obtain in writing what the Marquette County Health Department's official recommendations are regarding requirements for the golf course monitoring wells.

DNR could be contacted for potential contamination.

Send Joe Gibbs a letter from the Planning Commission that there is no plea bargaining for the monitoring wells. This was one of the conditions in the conditional use permit and needs to remain.

DISCUSS STATE RIGHT-OF WAYS:

After discussion on this project it was decided that a letter be written to the State Highway Department for enforcement of right-of-ways.

PLANNING DIRECTOR'S REPORT:

Karen reported that there will be a planning workshop training session either in Marquette or Escanaba this Spring or Summer and encouraged the Planning Commission Members to attend who are interested.

PUBLIC COMMENT:

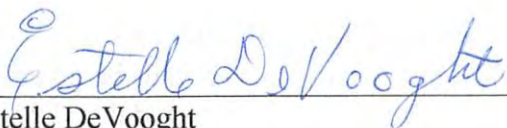

There were none.

INFORMATIONAL ITEMS & CORRESPONDENCE:

- A. Minutes from Chocolate Watershed Advisory Council.
- B. Correspondence from - Mark Maki - Street Names.
- C. Correspondence from MSPO - upcoming workshops.
- D. Correspondence from - DNR - Beaver Grove Recreation Development.
- E. Correspondence from - MCSWDA - WalMart will take used motor oil.
- F. Correspondence from - Karen Chandler - Eliminating Junk mail.

ADJOURNMENT:

There being no further business Bill Sanders moved, Scott Emerson supported that the Planning Commission Meeting be adjourned. The Planning Commission was adjourned at 10:20 p.m.

Estelle DeVooght
Planning Commission Secretary

Jeanette R. Collick
Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION**MONDAY, MARCH 13, 1995**

PRESENT: Bill Sanders, Dallas Peterson, Steven Kinnunen, Estelle DeVooght, Mike La Pointe, Max Engle

ABSENT: Scott Emerson

STAFF PRESENT: Karen Chandler, Director of Planning & Research
Bennita Grayhame-Malette, Intern Student

OTHERS PRESENT: Jeanette Collick-Recording Secretary, Tom Clark, Paul Marin, Richard Vivian, Bernard Kaukola, Dan Di Loreto, Lowell Riopelle, Darlene Johnson, Jim Herkins

PUBLIC HEARING:

Bill Sanders, Chairperson called the Public Hearing to order at 7:30 p.m. He explained the process of the public hearing.

PUBLIC HEARING - PRIVATE ROAD REQUEST #9 - ESTATE OF ELIZABETH HUEFELDER:

The applicant, Estate of Elizabeth Huefelder (deceased), c/o Paul Marin (Attorney) has requested the Chocolay Township Board approve a private road located within the following described property.

A parcel of land in Government Lots Two (2) and Four (4), Section Six (6), Town Forty-seven (47) North, Range Twenty-four (24) West, said parcel being partly located in the unplatted portion of said Government Lot 4 and partly in the Plat of the Village of Harvey, which Plat was recorded November 24, 1864, in Liber F of Deeds, Marquette County, Michigan, records, Page 624, and further described as follows: All that piece or parcel of land included within the boundaries of the area designated as "Hotel Place" and the street designated as "Dock Street" on the said Plat of the Village of Harvey, together with that certain piece or parcel of land located in that portion of said Government Lot 4 which is not included within the said Plat of the Village of Harvey and which is included within the extension of Dock Street as shown in said Plat in a Northerly direction along the same course of said Dock Street and with the same width as said Dock Street and continuing Northerly to its intersection with the Chocolay River Bayou, except that portion of Dock Street as extended included within the lands heretofore conveyed to one Howard B. Solomon.

Together with all rights of access over the said parcel so conveyed to Howard B. Solomon as reserved in a Deed from Philip B. Spear and Elizabeth B. Spear, husband and wife, grantors, to Howard B. Solomon grantee, which Deed was recorded August 16, 1951, in Liber 194 of Deeds, Marquette County, Michigan, records, Page 254, and subject to all rights of users granted to Howard B. Solomon in said Deed.

Paul Marin - 316 North Front Street - Mrs. Huefelder sold the road and the land East of the Road to the Chocolay Shores Development Company. When she sold the land she made arrangements for an easement for herself, heirs and successors to travel along Hotel Place and Dock Street. Prior to that a family member sold some other property to Mr. Solomon, which is now Mr. Riopelle's property.

The deed creating the easement allows access to the private road parcel. He referred to some of the materials that were in the agenda packet stating that the land was land-locked. He stated that this is not the case. A land-locked parcel would be a parcel that is completely surrounded by other parcels, which the owner would not have access. In this case the Huefelder's property has an easement to travel along Hotel Place and Dock Street to access this parcel.

He stated that the application was not filed to gain access to the property. It was filed because it was

Mr. Maki's interpretation of the Zoning Ordinance that an illegal lot split was created when Mrs. Huefelder sold a parcel of property to Mr. Di Loreto because then Mrs. Huefelder's parcel did not have access on a public road or an approved private road. The application was filed after litigation was commenced against Mrs. Huefelder and the same with some other people in order to resolve that impasse. He has had many discussions with Mr. Andrews (Township Attorney) and some of those discussions were presented in the memorandum that was provided in the packet.

He referred to reference in the memorandum that stated that by recognition if the Planning Commission approved as private road you are not making a legal blessing on this that the statement of title is going back to the Northern Iron Company. The applicant is satisfying the memorandum in that regard to filing the application and the Committee has the authority to granting the application.

He stated that looking through the materials that were provided the only opposition was the owners of the Chocolay Shores Development Authority and this would be to their advantage that if this approval was not granted, then they may be able to obtain the property on the other side of Hotel Place and Dock Street if perhaps no building permits could be issued to the parcel there and this would be to some financial advantage to the owners on the other side of the road to buy that property then at lower than fair market value.

When filing the application he stated he spoke with Karen and she had a question as to where the engineering surveys, site plans, grade specifications, sewer, culverts and the rest of the normal items that would come with the application for an approved private road. He referred to the correspondence that was provided in the agenda packet.

He stated that in his opinion this road is grand fathered in and that Hotel Place and Dock Street goes back to 1864 and has appeared on the maps of the Village of Harvey as a road, although it never was a public road. There is a road sign there and the road has been in existence for more than 100 years.

This is not the situation that the ordinance in compasses or in visions in the terms of asking for engineering studies. This is not a subdivision that is being created. This is not a road through the woods or fields where no road has never existed. This is road that has been there for more than 100 years. He is not in visioning that there would be a change in the use of the road. At the most there may be two building sites on the Huefelder parcel of real estate. There may only be one building site on that land. As he had a chance to look at the property in connection with this request and during the Spring break up and road restrictions going into affect the road to the credit of owners across the river is in remarkably good shape. It is better that some of other roads in the Township. There seemed to be one area slightly lower at the far end of the Chocolay Shores Apartments and other than that spot that had some pools of water and was hard to drive on and the only wet spot was in Mr. Riopelle's yard and the road itself seem to be in very good condition.

The Huefelder's estate has access to that property by virtue of the easement. They can get to that property anytime that they want now. There will not be any change of use if this application is granted and that is why he hasn't submitted any engineering at this point, especially when the application says gives us your proposed sewer, culverts, etc. There is no proposed change of use and the road has been in existence over 100 years we are not anticipating that there will be any of those changes.

Jim Herkins - owner of Chocolay Shores - referred to the letter from the owners of Chocolay Shores that was provided in the agenda packet.

Their concerns would be who would be using the road? What kind of restrictions? Noise and heavy traffic that would be disturbing the renters of the Chocolay Shores. They have had some experiences with snowmobiles and motorcycles, etc. He agrees that there is a grand fathered easement of the sorts, but nowhere do they see that the easement would provide for the building of an approved road to the point it would be a private road. Documentation from the Township shows what they expect to approve a private road.

A main concern would be who would be responsible for the maintenance of the road. Would there be an agreement and who would monitor this? Chocolay Shores has spent approximately \$8,000

in the past year for snow removal and annual summer maintenance.

Jim Herkins is opposed to the approval of the private road request.

Bernard Kaukola - 130 Bayou Road - has a parcel of property which is located West of Mr. Riopelle. Mr. Kaukola and Ray Hirvonen have a perpetual easement over Hotel Place and Dock Street.

Tom Clark - Suite 112 - 102 W. Washington Street - Representative for Dan Di Loreto. Dan has done a lot of work on this.

He referred to Block B of the Village of Harvey has never been subdivided into individual lots in the original plat. Block B has no access to a public road and has never had access to a public road, except a small portion on the West boundary.

The land on Main Street where property is owned by Mr. Menze, Mr. Drobny, to Chocolay Shores is owned by the Di Loretos that is not Block B, it is Block 1. That is a separate platted block. All of it fronting on Main Street. The only parcel of Block B that was on a public road goes to the East on U S 41. That is not a street, it is essentially an occupied portion that Mr. Menze owned for a number of years. Other than that parcel that one little tag, virtually West, the only part that Block B ever had on any street is the frontage shown on Hotel Place and Dock Street.

Mr. Di Loreto purchased the second portion of Block B, including the little lots on Main Street were the position of the Zoning Administration that (A) it was an illegal lot and (B) by creating a parcel in Block B that has no frontage on a public road. Block B never had frontage on a public road. Block B was considered a single lot. Block B never had access to a public road. It does have access to a platted road, which is Hotel Place and Dock Street. There are legal rights of access across that road. Not only by the easement, but also it was included in the original recorded plat. However, the fact that the other lots across the front on Main Street prevented from having access to Main Street. The only way and always has been to get access is by going down Hotel Place and Dock Street, unless you own Block B and the lot in front of it. At present Mr. Di Loreto owns a portion of Block B and the lots in front of it. He does not use Hotel Place and Dock Street for his access. He has not filed an application for Hotel Place and Dock Street for his access. He is not requesting that Hotel Place and Dock Street be granted to him. The access used to be off Hotel Place and Dock Street for the home that he had purchased from Mrs. Huefelder, but he put in a new driveway. The access is off a lot that is accessed off Main Street. There is no access across Hotel Place and Dock Street. Those parcels in Block B are all currently zoned Single Family Residential. The only non Single Family dwelling in the neighborhood is that of the business across the street on Hotel Place and Dock Street, which is Chocolay Shores, owned by Jim Herkins and Darlene Johnson.

The documents and deeds that were all filed to the Planning Commission were essentially documents to establish that this is not a road that just came into existence, but is in the original plat of 1864 and has a platted right-of-way of 80 feet at Main Street and proceeds North at least 300 feet before it tapers down to a 60 foot right-of-way.

He provided to the previous staff at Chocolay Township, but didn't know if Ms. Chandler has a copy of the court decision in the Court of Appeals in the State of Michigan that indicates that people who have land in a subdivision even though the road to that land has never been formally dedicated to the public use are still entitled to rights of the use of that land. A response has never been obtained to that item. This has gone on for a couple of years.

He also requested back in 1993 that the Township Planning Department and the Zoning Department provide him with the record of everything that they could tell him about private roads. In response to these records, the township indicated to him first of all that Chocolay Township had no documents which established any policy, procedure, requirement or practice with respect to private roads in existence prior to May of 1977. The Zoning Ordinance does provide for lots and roads that existed prior to the 1977 Ordinance. However, the application procedure and the new ordinance have no procedure established for trying to bring up to the Commission's attention for a pre-existing road - a grand fathered private road. There are no written policies in affect for those roads in affect prior to 1977, that is the response he has gotten from Chocolay Township.

Another request is that the Township provide copies of every piece of documentation where a pre-existing prior to 1977 private road has been approved. There are a number of them and he has the permit numbers and the discussion numbers and everyone that was provided to him, a private road was approved through a variance procedure through the Zoning Board of Appeals. All the documentation he obtained such as minutes from pre-existing private roads deal with Zoning Board of Appeals. Now they were informed that the Planning Commission was the appropriate place to go.

The Ordinance does not deal with pre-existing road, except that to the extent that it states that if you have a single lot which existed prior to May 1977 you had to have an easement in access of at least 20 feet in width in order to have access to that property for that approval. The lot he is pertaining to has been in existence since 1864. He feels that the approach here is that this private road has been in existence prior to 1977.

He spoke on the lot split issue and the law suit in circuit court. Part of the reason for the law suit is to allow a re-plat of a portion of parcel B to eliminate any of the issues on whether it is a potential lot split violation.

Jim Herkins - Chocolay Shores owner - spoke on the monitoring of the road if it was to be approved, such as enforcing speed, etc. He is opposed to the private road approval.

There were no further comments regarding the public hearing on Private Road request #9.

There were no further public hearings. The public hearing session of the March 13, 1995 Planning Commission was closed.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders called the Regular Meeting of the Planning Commission to order at 7:55 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Dallas Peterson, Steve Kinnunen, Estelle DeVooght, Mike La Pointe and Max Engle present.

Scott Emerson was absent -out of town.

APPROVAL OF MINUTES OF FEBRUARY 13, 1995.

Bill Sanders inquired if there were additions or corrections to the minutes dated February 13, 1995. There were none.

Dallas Peterson moved, Estelle De Vooght supported that the minutes of February 13, 1995 be approved as presented.

MOTION CARRIED: 6-0

APPROVAL OF AGENDA/ADDITIONAL ITEMS:

Mike La Pointe requested that under New Business (A) Private Road #9 - Estate of Elizabeth Huefelder be moved before Old Business.

Bill Sanders inquired if there were any further additions or changes for the agenda. There were none.

Mike La Pointe moved, Max Engle supported that the agenda be approved as changed.

MOTION CARRIED: 6-0.

PUBLIC COMMENT:

There were none. The first public comment session was closed.

NEW BUSINESS:

PRIVATE ROAD #9 - ESTATE OF ELIZABETH HUEFELDER:

Estelle inquired if the township attorney has resolved the case regarding the lot split?

Karen stated that to her understanding that it hasn't been resolved. She didn't look at what was going on with that case in respect to the private road application. They are entirely different issues.

Estelle - felt they were trying to put the two together and the Planning Commission couldn't decide one with the other.

Karen - the lot split has not been resolved in the circuit court.

Max Engle - is Willow Road and Bayou Road an approved private road?

Bill Sanders - Willow Road is not.

Max - there have been homes built on Willow Road since 1977. If Willow Road isn't an approved private road and was in existence prior to 1977 probably should have been taken up with the variance board and allow those lots to exist.

There was discussion regarding if Willow Road wasn't an approved private road prior to 1977 and homes were built on lots after that, why can't Mr. Di Loreto build on his Lot? It was stated that the reason he can't is that the Zoning Administrator has determined that the required lot split approval has not been obtained.

Bill Sanders inquired of Mr. Herkins on who takes care of the plowing and road maintenance of the road in question?

Mr. Herkins - County doesn't do any of the maintenance or snow plowing. The owners of Chocolay Shores spent about \$4,000 per winter on plowing and about \$2,000 in the Summer on maintenance.

Bill Sanders - Who would be doing the maintenance of the road if approved?

Paul Marin - Property that the Huefelder Estate owns would probably have one or two cars that go on the road, there should be some method where they would assist in the maintenance of the road. If it would be a suggestion from Mr. Herkins or Ms. Johnson for a condition placed of granting this application by the Board that there should be some even split of the costs to maintain the road, he doesn't think that would be a fair way to go about resolving this since Chocolay Shores has about twenty cars that would be traveling on the road.

Another suggestion he said that Judge Quinnell had said to settle the law suit perhaps Mr. Di Loreto could deed back to the Huefelder's a fractional/marginal 10 feet or 5 feet of property that would attach to the back of the Huefelder's property that would give the Huefelder's parcel access on Main Street and that would permit the development of the Huefelder parcel. He suspects that could be done without any problem. As far as developing another road or driveway 10 feet wide adjacent to this very wide road which the owners of the Hufelder's parcel would have access by virtue of their easement. It is not their intention to go into Circuit Court, get 10 feet back from Mr. Di Loreto and then go along Hotel Place. They don't want to do that.

The Private Road application was suggested by the Township Attorney and go through the proper channels/ That is why he is here, to be up front with the Township and not to be cutting deals in Circuit Court that allows us to do that road anyway.

Bill Sanders - inquired when the last two private roads were approved, did they meet all the requirements and bring the information into the Planning Commission? Yes, all the information required such as storm drainage, cross sections etc. were provided.

Estelle - stated the Planning Commission needs more concrete information to proceed with this application.

Jim Herkins - he has no desire or intention on ever buying the proposed property. He doesn't want

it. He would like to direct this to the ordinance in existence. For example the 63 foot setback from the center line of a private road would force Chocolay Shores to move their back apartments to the river. The other side of that road are wetlands, Michigan Bell put fiber optic cable under the road last year. These would be very expensive to move.

There were discussions on the private road and building permits, etc. We have to rule out the other information dealing with the case. We need more information to determine the private road request.

Estelle De Vooght moved, Mike La Pointe supported that Private Road #9 - Estate of Elizabeth Huefelder be tabled until more information is provided and the Township Attorney can be contacted.

MOTION CARRIED: 5-1

OLD BUSINESS:

STRATEGIC PLANNING:

Mike La Pointe stated that due to another commitment Tuesday, March 28, 1995 would not be a good date for him for the first meeting of the task force. The other Planning Commission members had no objections for the meeting to be held on Monday, March 27. Karen will contact Rita Hodgins to see if this date would be okay with her. Karen will also write a letter to the task force members to let them know of the meeting date and time.

It was also stated that under the Community at Large category, there is still another member needed. Karen will contact some of the other names of the people that were given to see if they could serve on the Task Force.

UPDATE ON CHOCOLAY DOWNS GOLF COURSE:

Karen brought the Planning Commission Members up to date on the Chocolay Downs Golf Course and went over the letter from Joe Gibbs. Dan Trotochaud asked to be the contact person when the Township works with Joe Gibbs..

Karen stated she did obtain a copy of the letter that was sent to Joe Gibbs from the Marquette County Health Department on where and what type of monitoring wells were required to be installed.

After discussing the letters and various correspondence the Planning Commission decided that a letter be written to the Chocolay Downs Golf Course via Dan Trotochaud regarding contaminants, tennis courts, pool, gazebo and specific dates these will be done and request a thirty (30) day deadline with an exception of June 1, 1995 for the monitoring wells to be put in.

It was also requested to obtain who would be responsible for obtaining the samples of the monitoring wells, who would pay and how often the sample would have to be taken. Karen will do research to see who would be responsible.

PLANNING DIRECTOR'S REPORT:

Karen introduced Bennita Grayhame-Malette. Bennita is an intern working at Chocolay Township in doing research.

Karen also reported that Ivan talked to the Board and would like the Planning Commission to do more research on the Section 106 of the Zoning Ordinance regarding more that one structure per lot in the commercial district and it would meet the landscape and parking requirements.

Karen brought the Planning Commission up-to-date regarding recycling in Chocolay Township. It takes 7,000 plastic milk jugs to make a bail. She also stated that the township is now doing clear glass recycling.

It was also stated that there would be an ad in the paper for volunteers for the strategic planning once it gets up and running.

PUBLIC COMMENT:

There was discussion on recycling and the landfill.

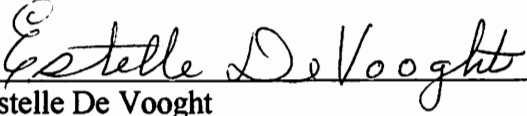

INFORMATIONAL ITEMS & CORRESPONDENCE:

- A. Correspondence to - Chocolay Township Board - use of recycled products.
- B. Correspondence to - Larry Gould - Recreation Grant
- C. Correspondence from - Mark Maki - Chocolay River Watershed
- D. Correspondence from - DNR - Proposing Land Parcels for Development Rights Acquisition
- E. Correspondence from - Marquette County Soiled Waste Management Authority - 1994 Annual Report
- F. Information on Chocolay Township - Drop-off Recycling

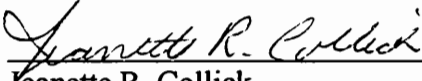

ADJOURNMENT:

There being no further business Mike La Pointe moved, Bill Sanders supported that the Planning Commission Meeting be adjourned. The Planning Commission meeting was adjourned at 9:40 p.m.

MOTION CARRIED: 6-0.

Estelle De Vooght
Planning Commission Secretary

Jeanette R. Collick
Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION

MONDAY, APRIL 10, 1995

PRESENT: Bill Sanders, Steve Kinnunen, Mike La Pointe, Scott Emerson**ABSENT:** Max Engle, Estelle DeVooght, Dallas Peterson (out of town)**STAFF PRESENT:** Karen Chandler, Director of Planning & Research**OTHERS PRESENT:** Jeanette Collick-Recording Secretary, K. Dale Stephenson, Mr. & Mrs. Paul L. Huard, Dan Trotochaud, Gene Perket, Mrs. Jerome Le Boeuf, Mark Maki**PUBLIC HEARING:**

There were no public hearings scheduled.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 7:35 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Steve Kinnunen, Mike LaPointe and Scott Emerson present.

Max Engle, Estelle DeVooght and Dallas Peterson were absent - out of town.

APPROVAL OF MINUTES OF MARCH 13, 1995:

Bill Sanders inquired if there were additions or corrections to the minutes dated March 13, 1995? There were none.

Mike LaPointe moved, Steve Kinnunen supported that the minutes of March 13, 1995 be approved as presented..

MOTION CARRIED: 4-0.**APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:**

Bill Sanders inquired if there were any changes or additional items for the agenda? There were none.

Karen informed the Planning Commission Members that there were three informational items that she supplied them with, which were:

1. Memo from Mark Maki regarding Highway-right-of-way.
2. Workshop on Wetlands.
3. Private Road Correspondence from Township Attorney.

Bill Sanders moved, Scott Emerson supported that the agenda be approved as presented.

MOTION CARRIED: 4-0.**PUBLIC COMMENT:**

Mark Make - 405 Riverside Road commented to the Planning Commission Members on Section 106 of the Zoning Ordinance regarding one structure per lot and the action that has been taken by the Township Board.

Bill Sanders inquired if there were any further Public Comment. There were none.

The first Public Comment Section was closed.

OLD BUSINESS:**DISCUSS REZONING #77 - R-2 TO R-3 PAUL HUARD PROPERTY:**

There was a presentation on the overlay regarding the parcels of property located in Section 7, T47N, R24W from the current zoning classification of R-2 to R-3.

Mr. Huard stated the reason for the rezoning was so there could be 36 more parking spaces for the apartments. He also plans to build his home with a breezeway attached to the apartment building to allow the renters to be able to do their laundry in the basement of his home.

He does not plan on building any apartments.

He stated that he would plan to blacktop Willow Road (16' wide) up to 50' up to the garage and plans to landscape the hill.

The parking places will be away from the apartment building for safety reason.

He plans on hooking up to the township sewer. The lateral is about 55' away.

After much discussion, the following questions and comments were made by the Planning Commission:

- The original application should be amended, if asking for something else.
- Site Plan needs to be brought in so it can be reviewed.
- Public Hearing set up.
- New building will be hooked up to the township sewer.
- Any additional additions would have to hooked up to the township sewer.
- St. Louis the King Church and George Schmidt - not in favor of the rezoning of their property.
- Requested Karen to write a letter to Fred Benzie to see if the new house would be required to be hooked up to the Township Sewer.
- Planning Commission needs to be concerned for the possibility of future expansion.
- Zoning goes with the land, not the person.

Scott Emerson moved, Steve Kinnunen supported that the Rezoning #77 from R2 to R3 be tabled until a site plan is presented to the Planning Commission showing the buffer, lighting for parking lot, vegetation and the location of the parking spaces and the attached new house.

It was also stated that Karen obtain the interpretation from the Health Department regarding the availability on the sewer versus the septic system.

Karen will send a letter to the Health Department requesting if the soils is suitable for use.

Mr. Huard will work with Karen on the items that have to be done for this rezoning to come back to the May Planning Commission Meeting.

MOTION CARRIED: 4-0.**DISCUSS PRIVATE ROAD REQUEST #9 - HUEFELDER ESTATE:**

Karen started that Paul Marin (Huefelder's Representative) was out of town.

The following questions and comments were made by the Planning Commission:

- Planning Commission should answer Mr. Marin's questions in the letter dated March 31, 1995 to

Karen.

- The question regarding the statement that was made by the Chairman saying that he wouldn't be able to grant a private road request if the petitioner had only an easement over the private road and did not own the ground under the road.

Chairman responded by saying he was uncomfortable with approving the private road when the property owner isn't the applicant, but that is only his vote, not necessarily the way the whole Planning Commission might vote.

- Karen spoke with Mr. Herkins about the maintenance agreement of the road. He has an attorney reviewing their options.
- What happens with Chocolay Shores regarding the setback, if this would be approved?
- The Township attorney said we could approve this on the easement.
- Mr. Marin has shown Interest to obtain the maintenance agreement.
- Is this a short-cut to get this out of the courts?
- Possibility to subdivide the lots and build some homes?
- The Planning Commission needs the information that was requested.
- Paul Marin needs to obtain the maintenance agreement with Jim Herkins and obtain the other Information requested by the Planning Commission.

DISCUSS UPDATE ON CHOCOLAY DOWNS GOLF COURSE:

Dan Trotochaud, developer for the condominiums comments on the various correspondence. A verbal update was given.

There are three units constructed. The Model has been open since January. Open house is every Sunday. There has been approximately fifty individuals viewing the units and they have all been impressed with the outcome of the model.

He is anxious to get the landscaping started. As soon as weather permits, this will begin. Some of the units will be occupied this May and some of the others this Summer. The well has been determined useable and has excellent water at 155 feet. Pump test was done - 100 gallons per minute for eight (8) hours - down to 6". There needs to be something over the well. No design yet, but will have something that will fit in as natural as possible. This is upscale housing. First unit sold at \$159,000. Looking at approximately \$200,00 for the second unit.

Golf Course - Dan is working with Joe and feels they are now on track.

Monitoring wells will be in by June 1, 1995.

Screening & Storage Buffer. Trees have been planted and new trees will be planted. Very important and wants to keep it natural. Letter dated 12-94 to Mark regarding fertilizer percentage, etc. Not putting a lot of fertilizer on golf course. The numbers Joe are using are conservative with other golf courses that Dan contacted. Gazebo - Joe feels it was rejected because he hasn't complied with the other information. The proper building permits needs to be obtained by Joe. Joe currently owns the lot next to the gazebo. Joe has closed the fire pit.

Planning Commission Members comments:

- We have given Joe everything he has asked for. The reason the gazebo was denied was for the lack of information that was required by the Planning Commission and nobody was in attendance at the meeting when requested.
- Joe has conditions to meet and hasn't met them.

- Would like to see a final plan for the golf course.
- Concerned with the possibility of water contaminants and a test of the contaminants to be done. It may be too late once the monitoring wells are in and contaminants show up in the testing.
- Would like to see a long range plan for the protection of the groundwater.
- Requested that a sample be done for the possibility of ground water contaminants when the monitoring wells are put in.

Dan inquired what is the time limit to have any requests done for the meeting. Karen stated that she has to receive the information ten (10) days prior to the next meeting.

The Planning Commission thanked Dan Trotochaud for the questions, comments and update on the golf course.

DISCUSS STRATEGIC PLANNING:

Karen stated that one more focus group is needed. The focus group needed is Government Services. A co-chairman is needed.

Karen will look at the list of people and contact another co-chair for the Government Services group.

Karen stated that due to Rita not being able to meet on April 18, the meeting would have to be scheduled to the 17th.

DISCUSS UPDATE ON TEXT AMENDMENTS IN PREPARATION OF PUBLIC HEARINGS:

It was stated PUD language calls for 2 acre parcel.

Karen stated she is contracting work with Mike Farrell.

The two main concerns are for the single structure per lot and the height requirement.

Some of the Planning Commission members felt all commercial development should obtain a PUD. The Planning Commission Members felt that deadlines be stated when contracting out. They felt that language should be brought back to the Planning Commission for the May meeting.

Karen also stated that Mike is looking into Recreational Structure and signs language.

NEW BUSINESS:

ANNUAL REPORT:

Karen presented the 1994 Annual Report for review.

There was one correction in the second line of the budget page that said About sixty percent of the 1994 Budget was allocated to Planning Commission Members' meeting per diem. The sixty percent should be changes to 51 percent.

PLANNING DIRECTOR'S REPORT:

Karen stated due to the School Election to be held on June 12, 1995 the Planning Commission would have to change the date of the meeting or the place of the meeting.

It was a consensus of the Planning Commission Members that the meeting remain for June 12, 1995 and be held in the fire hall meeting room.

PUBLIC COMMENT:

No public comment.

INFORMATIONAL ITEMS & CORRESPONDENCE COMMISSION

- A. Correspondence from - Mark Make to Randy Gentz - golf course development.
 B. Correspondence from - Marquette County RC & D Council - can assist with new projects.

PRESENT: Mike LaPointe, Steve Chalmers, Mike LaPointe, Randy Wilkinson, resource person for the Marquette County RC & D Council to request assistance for trail development and grant acquisition.

ABSENT: Mar. Engle, Dallas Peterson and Scott Emerson

STAFF PRESENT: Kater Chamber, Director of Planning & Research

OTHERS PRESENT: Jeanette Collick, Recording Secretary, Harry Huggs (Township road names) and Mark Maki

ADJOURNMENT:

There being no further business Mike LaPointe moved, Bill Sanders supported that the Planning Commission Meeting be adjourned. The Planning Commission was adjourned at 10:10 p.m. There were no public hearings scheduled.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 7:35 p.m.

Scott Emerson

Planning Commission Vice-Secretary

Jeanette R. Collick

Jeanette R. Collick

Recording Secretary

INFORMATIONAL ITEMS & CORRESPONDENCE:

- A. Correspondence from Mark Maki to Randy Gentz-golf course development.
 B. Correspondence from Marquette County RC & D Council-can assist with new projects.

Mike La Pointe commented that we should contact Randy Wilkinson, resource person for the Marquette County RC & D Council to request assistance for trail development and grant acquisition.

- C. Correspondence from-Mark Maki-Road names/off Sand River Road.

It was suggested that the property owners be contacted for their suggestions for road names.

ADJOURNMENT:

There being no further business Mike La Pointe moved, Bill Sanders supported that the Planning Commission be adjourned. The Planning Commission was adjourned at 10:10 pm.

Scott Emerson

Scott Emerson
 Planning Commission Vice-Secretary

Jeanette R. Collick

Jeanette R. Collick
 Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION

MONDAY, MAY 8, 1995

PRESENT: Bill Sanders, Steve Kinnunen, Mike La Pointe, Estelle DeVooght

ABSENT: Max Engle, Dallas Peterson and Scott Emerson

STAFF PRESENT: Karen Chandler, Director of Planning & Research

OTHERS PRESENT: Jeanette Collick-Recording Secretary, Harley Andrews (Township Attorney) and Mark Maki

PUBLIC HEARING:

There were no public hearings scheduled.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting of the Planning Commission to order at 7:35 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Steve Kinnunen, Mike LaPointe and Estelle De Vooght present.

Max Engle, Dallas Peterson and Scott Emerson were absent.

APPROVAL OF MINUTES OF APRIL 10, 1995:

Bill Sanders inquired if there were additions or corrections to the minutes dated April 10, 1995? There was a typo on page 3 - Benzing - should be spelled Benzie.

Bill Sanders moved, Estelle DeVooght supported that the minutes of April 10, 1995 be approved as corrected.

MOTION CARRIED: 4-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders inquired if there were any changes or additional items for the agenda. There were none.

Karen informed the Planning Commission Members that there were two informational items that she supplied them with, which were:

1. Memo from Mark Maki regarding information/comments from the April 10, 1995 Planning Commission Meeting.
2. Prioritize List for Item VII C under Old Business.

Estelle DeVooght moved, Mike La Pointe supported that the agenda be approved as presented.

MOTION CARRIED: 4-0.

PUBLIC COMMENT:

Jim Herkins - Chocolay Shores Apartments - inquired if a decision was going to be made regarding the Huefelder Private Road Request?

It was stated the Planning Commission was not making a decision on the request due to lack of information.

The Township Attorney was present to discuss the issues regarding the same issue.

Bill Sanders inquired if there were any further Public Comment. The first Public Comment Section was closed.

OLD BUSINESS:

Harley Andrews - Township Attorney updated the Planning Commission on the Huefelder Private Road issue.

The following comments and suggestions were made:

- The application be submitted for the private road request.
- Meets the zoning ordinance, drainage, etc.
- Make a determination assuming the Huefelder estate has the easement considering that the interested successor of the property in question to file an application for an approved private road.
- Determination - The Planning Commission decide either to consider or not consider the private road request. Don't make a decision tonight on the application.
- There is an easement already for Mr. Riopelle to travel back and forth.
- Chocoley Shores Apartments could have hard times, if this was approved.
- It was stated at a previous meeting that Mr. Diloretto doesn't use Hotel Place for an access.
- The applicant would have to comply with the township's standards for an approved private road request. There are criteria in the Township Zoning Ordinance.
- Question - passes the easement and gets the design and doesn't meet all the standards and the Planning Commission could approve with conditions, subject to approval by the Zoning Board of Appeals
- The Private Road could be approved with conditions.
- Condition could be a Maintenance Agreement for the road.
- Concern for an access for emergency vehicles - width of road, etc.
- If all the criteria isn't met, does the Planning Commission have to approve the private road request? The answer was no, you can vote the way you want. Cient has to go through the proper procedures.
- If the private road request is approved, can anyone use the road. It was stated yes. A concern was brought up regarding the usage, speed, etc. It was stated that some of the other private roads have "No Trespassing" signs on them.

After the above comments and discussion the following motion was made:

Mike La Pointe moved, Estelle De Vooght supported that the Planning Commission consider Private Road Request #9 - Huefelder Estate based on the easement and all the proper documentation be brought before the Planning Commission.

MOTION CARRIED: 4-0

The Planning Commission thanked Harley Andrews for the information.

STRATEGIC PLANNING:

Karen stated that she has a list of people who have received notices regarding the various groups.

An attendance should be kept track of for the groups.

Rita will have results to Karen sometime this week regarding the various committees.

There are about two hundred people involved in the Strategic Plan.

The meetings dates, times and places are being posted for the various committees.

The whole product regarding the Strategic Plan will be brought back to the Planning Commission. Co-Chairs will present the Strategic Plan to the Township Board.

DISCUSS AND PRIORITIZE TEST AMENDMENTS:

SECTION 106 - ONE STRUCTURE PER LOT:

Mike Farrell is working on this.

SECTION 300 - GARAGE HEIGHTS:

A public hearing has to be heard on this language.

RECREATIONAL STRUCTURES:

Board concern was for travel trailers or mobile homes as camps. Mike will do research on this and get back to Karen. Mike worked on this before.

This can also go back to the Board.

SIGNS FOR GOLF COURSES:

This can be sent back to the board.

Recreational Structures, Signs for Golf Courses and Garage Heights are to be dealt with right away.

SITE CONDO:

Marquette Township is dealing with site condo now. They are getting ready to put this in an ordinance form. Karen will obtain the Site Condo Language from Marquette Township.

This item will be an agenda item at the September 1995 Planning Commission Meeting.

LANDSCAPING:

This item will be an agenda item at the September 1995 Planning Commission Meeting.

ACCESS CONTROL:

This item will be an agenda item at the October 1995 Planning Commission Meeting.

PARKING REQUIREMENTS - NUMBER OF PARKING SPACES:

This item will be an agenda item at the July 1995 Planning Commission Meeting.

OUTDOOR STORAGE - SEMI TRAILERS:

This item will be an agenda item at the July 1995 Planning Commission Meeting.

MINIMUM LOT SIZES FOR C-1, C-2, C-3:

This item will be an agenda item at the October 1995 Planning Commission Meeting.

PRIVATE ROAD REQUIREMENTS & TRAILS STANDARDS:

Propose one for June 1995.

LOT CREATION:

Can't create a lot that doesn't apply with the Ordinance.

This item will be an agenda item at the October 1995 Planning Commission Meeting.

NEW BUSINESS:**REVIEW CHOCOLAY TRAIL ESTATES - SITE CONDO:**

Karen stated the Township Board approved the extension of the sewer. Bob Cambensy is overseeing the project.

Larry talked to Mr. O'Dovero about the possibility of trails being put in.

It was commented by a Planning Commission Member that the decision was made at a previous meeting that the condos would be isolated from East Main Street and the private road would not be an extension off East Main Street.

Karen will check on this and report back to the Planning Commission as to the conditions were on the approval of this project.

DISCUSS DRAFT DOCUMENT FOR MICHIGAN COASTAL NONPOINT SOURCE PROGRAM:

Mike La Points will be attending the meeting on May 9, 1995.

PLANNING DIRECTOR'S REPORT:

Information was presented regarding the Fire Department's Millage Fact Sheet.

Scrap Metal pick up within the Township will be the week of June 5, 1995.

Karen stated that there are expiring terms for the following Planning Commission Members as of May 24, 1995.

The following members terms will be expired on May 24, 1995:

Mike La Points
Scott Emerson
Dallas Peterson

Mike La Points stated he is still interested on serving on the Planning Commission. Karen contacted Dallas Peterson and he stated he is interested in serving another term on the Planning Commission. Karen left a message for Scott Emerson and waiting for his answer if he is going to service on the Planning Commission.

Karen stated a memo was written to the Chocolay Township Volunteer Fire Department regarding the usage of the Township Firehall for the June Planning Commission Meeting. It was suggested a member from the Fire Department that one of the schools be used for a meeting. Karen responded that the schools are not in session for June. The Fire Department decided that the June Planning Commission Meeting could be held in the Fire Department, but that a fireman would have to be present at the meeting. The June Planning Commission Meeting will be held in the Township Firehall.

Dan Trotochaud will be in attendance at the June Planning Commission Meeting.

Garage Heights Public Hearing will probably be at the June Planning Commission Meeting.

Estelle stated she had to work the School Election on June 12, 1994. She won't be in attendance at the Planning Commission Meeting until she is through working at the election.

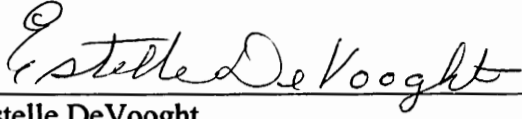

INFORMATIONAL ITEMS & CORRESPONDENCE:

- A. Correspondence from -Fred Benzie - Paul Huard's Rezoning Request.
- B. Correspondence to - Residents on Old Co. Rd. BBA - name request Township never received any response.
- C. Correspondence to - Karol Peterson Chairperson RC & D - requesting assistance for projects.

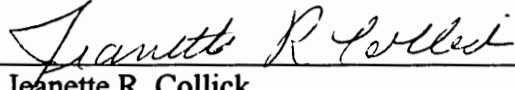

Bill Sanders reported on the Wetlands Workshop he attended. He will bring information on a Wetlands Ordinance.

ADJOURNMENT:

There being no further business Bill Sanders moved, Mike La Pointe supported that the Planning Commission Meeting be adjourned. The Planning Commission was adjourned at 10:00 p.m.

Estelle DeVooght
Planning Commission Secretary

Jeanette R. Collick
Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION

MONDAY, JUNE 12, 1995

PRESENT: Bill Sanders, Dallas Peterson, Mike La Pointe, Max Engle, Estelle DeVooght (arrived at 8:30 p.m.)

ABSENT: Scott Emerson and Steve Kinnunen

STAFF PRESENT: Karen Chandler - Director of Planning & Research

OTHERS PRESENT: Jeanette Collick-Recording Secretary, Larry Gould, Mark Maki, Cathleen Gentz, Anthony Gentz, Randy Gentz, Paul Marin, Bob Cambensy, Sam Elder, Julianne Le Bouef, Jerry Le Bouef, Darlene Johnson, Jim Herkins.

PUBLIC HEARING: Bill Sanders, Chairperson called the Public Hearing to order at 7:30 p.m. He explained the process of the public hearing.

PUBLIC HEARING - ZONING ORDINANCE TEXT AMENDMENT ON HEIGHT:

The proposed change is the definition of height. Currently our ordinance reads that height is at the maximum height. Over the last few years the Zoning Board of Appeals has dealt with a number of garage variances for heights. People find it very difficult to build under the 14' height requirement. In checking around, we found out that other community ordinances were very similar to Chocolay's, except they define the height as average on a gable roof as the average from the top to the eaves. They weren't encountering the problems that we were in terms of the ordinance. The Zoning Board of Appeals has basically brought this forth with the idea that if the definition of height was changed, people would therefore be able to build higher garages, which appears to be the custom. This would be more consistent with other communities ordinances, therefore should resolve most of the problems. This would allow for larger garages, but not as a full two story building.

There were no further comments regarding the public hearing on Zoning Ordinance Text Amendment on Height.

There were no further public hearings. The public hearing session of the June 12, 1995 Planning Commission was closed.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders called the Regular Meeting of the Planning Commission to order at 7:40 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Dallas Peterson, Mike La Pointe and Max Engle present. Estelle DeVooght (arrived at meeting at 8:30 p.m.)

Scott Emerson and Steve Kinnunen were absent.

APPROVAL OF MINUTES OF MAY 8, 1995:

Bill Sanders inquired if there were additions or corrections to the minutes dated May 8, 1995.

There were three (3) corrections:

- Page 3 - top sentence should be corrected to read: Question - passes the easement and gets the design and doesn't meet all the standards and the Planning Commission could approve with conditions, subject to approval by the Zoning Board of Appeals.

- Page 2 - fourth comment, the sentence should read - Determination - The Planning Commission decide either to consider or not consider the private road request. Don't make a decision tonight on the application.

- Page 3 - second from last paragraph it should read: **DISCUSS AND PRIORITIZED TEXT AMENDMENTS:**

Bill Sanders moved, Dallas Peterson supported that the minutes of May 8, 1995 be approved as corrected.

MOTION CARRIED: 4-0

APPROVAL OF AGENDA/ADDITIONAL ITEMS:

Karen Chandler requested that the following items be placed on the agenda under Old Business:

D. Extension of Elderwood Plat - Tentative Preliminary Approval

E. Rezoning #77 R2 to R3 - Paul Huard

Bill Sanders inquired if there were any further additions or changes for the agenda. There were none.

Dallas Peterson moved, Mike LaPointe supported that the agenda be approved as changed.

MOTION CARRIED: 4-0.

PUBLIC COMMENT:

Paul Marin - 316 North Front Street - reserved time on the agenda when the Private Road Request #9 - Huefelder was being discussed.

Mark Maki reserved time to bring the Planning Commission up-to-date on Chocloy Downs Golf Course and semi-trailer issues.

There being no further public comment, the first public comment session was closed.

NEW BUSINESS:

PRIVATE ROAD #9 - ESTATE OF ELIZABETH HUEFELDER:

He stated that the Planning Commission told him that even though this was a platted street more than 100 years old that the Commission was going to require the engineering topics that are set forth in the ordinance.

The Commission also suggested that he ought to explore the prospect of getting a maintenance agreement with Mr. Herkins and Ms. Johnson, owners of the Chocloy Shores Apartment Development.

There was also concern and discussion on whether the holder of a private easement would have sufficient legal standing to file and seek the designation of an approved private road.

Following the April Planning Commission Meeting he had an opportunity to discuss this with Harley Andrews and stated he thought it was clear on the last point about the holder of an easement being able to have sufficient legal standing to seek this designation. He received correspondence from Mr. Andrews that Mr. Andrews addressed this topic at the May Planning Commission Meeting, and said that yes legally we did have standing to seek this request. The Planning Commission, you have the opportunity to vote yes or no, depending on other factors, and based on that legal opinion of the Township Attorney, he then contacted Mr. Cambensy.

Mr. Marin did not want to spend the money if it was going to be the ultimate decision of the Planning Commission that no matter how many engineering studies or surveys or reports that were given to you that we didn't have the legal standing because they held an easement to the property.

He referred to correspondence dated June 9, 1995 concerning elevations and survey from Mr. Cambensy dated last Friday, Mr. Marin also gave Mr. Herkins and Ms. Johnson a copy of that correspondence.

Mr. Marin also stated he did send a letter to Ms. Johnson and Mr. Herkins to have an opportunity to meet with them and discuss a road maintenance agreement and received no response from them until today when Mr. Marin talked with Mrs. Johnson's son Randy, who is an attorney out in Oregon. They talked for about a half hour. Mr. Marin stated he told Mr. Johnson they have looked at the maximum development on the Huefelder parcel and that three family homes would be the potential future development of this parcel.

He showed the Planning Commission the proposed layouts of where the three single family homes would sit on the bayou.

Mr. Johnson stated he did not own the property and was speaking on Darlene Johnson's behalf. He felt a great relief that Mr. Marin was only talking about three family homes out there and he

said that he would talk to his mother about the conversation that took place and that it would be worthy of exploring the possibility of a road maintenance agreement. Because the conversation took place so late in the day at this time there is no maintenance agreement to be presented.

Mr. Marin would like the Planning Commission to consider this evening approving this designation perhaps subject to the entry of the road maintenance agreement.

Comments and discussion on the private road request:

- Still does not meet a 66' right-of-way.
- Huefelder Estate would dedicate an additional 6 feet along the eastern side to meet the 66' right-of-way to meet the criteria.
- As far as the potential development for the three additional homes, Mr. Marin would anticipate that a shared driveway would be put in.
- Shared driveways are not allowed. It has to be a designated private road. Building sites need frontage on an approved private road or a public road.
- South of Mr. Riopelle's property crossing the railroad tracks - condition could be met for a cul-de-sac.
- Parking in front of the buildings at Chocolay Shores should be taken into consideration.
- Major problem with the drainage.
- Increase of traffic.

The following motion was made after the above comments:

Max Engle moved, Mike La Pointe supported that the Planning Commission deny Private Road Request # 9 - Elizabeth Huefelder Estate due to the fact we have not received the proper information as requested to make a determination of a private road and applicant doesn't seem to want to supply that information.

MOTION CARRIED: 4-0.

DISCUSS WITH RANDY GENTZ ON GOLF COURSE CONDITIONAL USE:

Randy Gentz gave an up date on the Homestead Golf Course.

There are three holes completed. Drainage is complete.

He would like to obtain permission to open the driving range for the golf course.

There was a question on what a proper buffer is. Mark Maki stated it is up to the Planning Commission to decide what a proper buffer would be for the Homestead Golf Course.

The Planning Commission reviewed the plans for the golf course.

Due to wetlands into the original drawings, a little has been moved around, but basically the plans remained the same as when they were submitted.

The drawing was done by a reputable architect, he is assuming all the proper buffers were put into the plans.

About half the parking lot is completed.

As far as establishing base line information of the chemical properties of the soil and groundwater to be used for determining changes in the levels of contaminants, this was a vague item and wanted to know what the Planning Commission wanted on this?

This would be base line information on soil test and water testing to determine what, if any contaminants were in the soil or water.

There is a manual titled "Best Management Practices" established by the DNR for fertility and they address these issues for golf courses. It clearly spells out taking the soil sample tests.

For ground water according to the "Best Management Practice" they do address this also.

It was suggested that a copy of the "Best Management Practices" be obtained for the Township.

Homestead Golf Course is not sand, it has clay in it.

Concerning monitoring wells. Randy stated he has talked to Mr. Benzie on this and he felt that one of the monitoring wells could be Randy's own personal well. Randy would like to request that the monitoring wells be waived for the driving range.

Randy's well is about 60' deep.

These items would be just waived so the driving range could be open.

After reviewing the plan submitted, the Planning Commission members felt the buffers as submitted on the plan are natural and okay.

Road is adequate. Gantz's Sod Farm has been used as a township compost site for a number of years. There are no problems with trucks getting in and out.

Bill Sanders moved, Max Engle supported to approve the opening of the driving range for the Homestead Golf Course and that conditions relating to the monitoring wells, road upgrading be complied with prior to the opening of the golf course and that condition numbers 3 and 5 follow the DNR Best Management Practice.

MOTION CARRIED: YES - 3. ABSTAIN - 1.

Conditions #1 and #2 are addressed on the site plan.
 Cathy Gantz will contact Mark regarding the golf course sign.
 Estelle DeVooght arrived at the meeting at 8:30 p.m.

DISCUSS ROAD NAME FOR OLD BAA:

Karen stated that the County Road Commission maintains the bridge and that County Road BAA is designated as a Seasonal Road.

Estelle DeVooght moved, Bill Sanders supported to recommend to the Township Board that the road in Section 12 T47N R23W with the County Road BAA designation from Sand River Road to the seasonal road marking be named Railroad Lane.

MOTION CARRIED: 5-0.

EXTENSION OF ELDERWOOD PLAT - TENTATIVE PRELIMINARY APPROVAL:

Bob Cambensy stated that the developer would like to start phase 1 of the Elderwood Plat. There are no changes from the original plans.

Lot one sold.

There is a low spot on the end of Veda Street that will be used for drainage.

Bill Sanders moved, Mike La Pointe supported that approval for Phase I of the Elderwood Plat be given and that tentative preliminary plat approval be extended.

MOTION CARRIED: 5-0.

REZONING #77 R2 TO R3 - PAUL HUARD:

Karen stated that Mr. Huard has not brought in a site plan concerning this parcel and also he has not talked to the Health Department.

There has not been an answer regarding the soil sample tests and if it is suitable for on site septic.

Comment was made that Mr. Huard told the Planning Commission that he just wants to build a parking lot and he isn't building anything else, but he knows that if he is going to build anything else that he has to have a septic system. The present septic is close to the creek now. The health department approved the septic system so they must know where it is located. It may now meet current requirements, but until it goes bad, they probably won't bother him. If Mr. Huard asks for something else, then the health department may require him to hook up to the sewer.

He is looking to rezone his property, not anything else.

Mr. Huard hasn't come in with a site plan yet, as was required.

The land goes with the owner.

Planning Commission recommends, the Township Board makes the decision.

Estelle DeVooght moved, Bill Sanders supported that the Planning Commission deny the rezoning Request #77 R2 to R 3 - Paul Huard due to the request at the April Planning Commission to bring in more information and has not done so, and that according to the Comprehensive Plan it specifies that all R-3 should be placed in the Sewer District.

MOTION CARRIED: 5-0.

NEW BUSINESS:

REVIEW CHOCOLAY TOWNSHIP FIRE HALL EXPANSION:

Larry Gould explained the fire hall expansion and the reasons for the flat roof and being put on the North Side of the Fire hall.

Some Planning Commission members felt that the addition would be more aesthetic if it matched the Township Hall. Due to the placement of the addition, it will match the firehall.

Mike LaPointe moved, Bill Sanders supported that the addition for the firehall expansion be on the North Side of the present firehall.

MOTION CARRIED: 5-0.

DISCUSS TEXT AMENDMENT ON HEIGHT:

Mark Maki stated basically the problem is with the existing height requirement -people are building higher garages and these require higher door height.

If this height amendment to the zoning ordinance is passed, this will put the township in line with other entities regarding height.

Bill Sanders moved, Dallas Peterson supported that the Planning Commission recommend to the Chocolay Township Board that the following amendment to the "Chocolay" Township Zoning Ordinance be approved .

Proposed Language: (Remove language that is bracketed and add language that is Bold and Underlined)

[HEIGHT, means the vertical distance from the highest point on a structure, excepting any chimney or antenna on a building, to the average ground level of the grade where the walls or other structural elements intersect the ground.]

HEIGHT, means the vertical distance between the average grade and the highest point of the roof surface for flat roofs, to the deck line of mansard roofs; the average height between the eaves and ridge for gable, hip and gambrel roofs; and the average height between the lowest point and the highest point on a shed roof, excepting any chimney or antenna on a building.

F. No detached accessory building shall exceed fourteen (14) feet in height nor exceed the exterior perimeter dimensions of the principal structure on the lot.

Also footnote F be followed except in RR-2, RP, OS, PUD and Public Lands

MOTION CARRIED: 5-0

Mark updated the Planning Commission on Chocolay Downs Golf Course. Mr. Gibbs stated that he would have the monitoring wells in June 1, 1995. They are not in as of this date.

The Township has a problem in that there is an operation going on and has not complied with the conditions that were suppose to have been met.

Mark and Karen have talked with the Township Attorney about the enforcement of this zoning violation.

The Township Attorney felt that we could still pursue the enforcement and was willing to meet with the Township Board at some point to seek an injunction and corrective action taken.

Mark will be in the process of issuing required letters that he has to issue in order to bring Mr. Gibbs in compliance of the conditions.

It was suggested that the Best Management System from the DNR be used regarding this.

It was stated that Mr. Trotochaud guaranteed the Planning Commission the monitoring wells would be put in by June 1, 1995.

Karen stated that Dan asked her to pass onto the Planning Commission that he was going to come to the Planning Commission with the conditional use for the gazebo and also a well head cover for the condos.

Mr. Trotochaud asked that his apology be passed on the Planning Commission. He felt he has let the Planning Commission down, because he promised the Commission that the wells would be put in and they aren't there.

It was inquired what would happen if the golf course was sold? It was stated that the buyer would have to purchase the golf course with the conditions that had been set in the condition use permit.

Mark made his comments because he wanted to make the Planning Commission aware of the situation and reasons regarding it.

Karen stated that five monitoring wells were on the plans she reviewed of the Chocoley Downs Golf Course.

It was a consensus that Mr. Gibbs has been given more than ample time for the monitoring wells to be put in, but he hasn't even put any of the five in.

Semi Trailer Update:

Mark commented that the township was in court over this issue. One of the problems we have is, that in the case of the Harvey Oil, the semi trailer was put out, onto the highway right-of-way to avoid the Township's jurisdiction. County said they would require them to move it, but we aren't sure if they would or not. According to the judge the township has no jurisdiction on the highway right of way. We are powerless to do anything if it is on the right of way. She even went as far as to say the township police department couldn't do anything regarding this. That leaves it up to the State Highway Department.

The State Highway Department also told Joe Gibbs in April of 1994 that he had 45 days to remove his sign off the highway right of way, or they would charge him to remove it, but it is still there.

It was commented that the State Highway Department cannot manage the whole UP., but they could designate the Township to enforce the management for them. It was felt we should be able to do this being that it is in our township.

It was also commented that we are now stuck with the burden of enforcing the other semi trailer storage units, even though they were behind a building and off the right of way.

PLANNING DIRECTOR'S REPORT:

Karen stated that the golf course issue was covered. She will try to get a team together regarding the standards.

At the last Planning Commission Meeting it was inquired if the Chocoley River Estates private road request required a berm at the end of East Main Street. There is a requirement for a 6' high berm and vegetated barrier. That should be in there when they are done with their construction.

Karen gave the Planning Commission a calendar for July so they could make plans for the day long retreat for the Strategic Plan. Rita suggested that the calendar be filled out on the days that people could not attend or be available. July is a bad month. The Planning Commission Members are to get the calendars back to Karen by July 21 and these calendars would also be mailed out to the other Task Force Members.

On Tuesday, June 20, 1995 the Government Services Committee will meet at Wahlstrom's Restaurant at 6:30 p.m.

PUBLIC COMMENT:

Estelle DeVoght said people had been in voting and made the following inquiries:

1. Where do you get rid of old cars? It costs about \$20 for someone to pick up junk cars. West Branch Township put an ad in their newsletter of someone who would pick those vehicles up.
2. Why doesn't the Township plant flowers around the Town Hall? Larry stated that the rock had to be taken out and as soon as we get the manpower and the money, rock will be put back in. The Cherry Creek School Student Council planted the flowers around the tree by the Township Hall.
3. When will the driving range at Homestead Golf Course (Gentz's) be opened? The Planning Commission voted to allow the driving range to be opened. This item was dealt with before Estelle was able to be at the meeting.

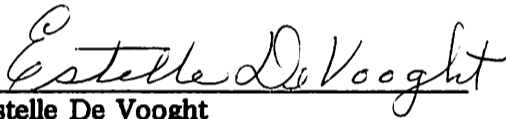

INFORMATIONAL ITEMS & CORRESPONDENCE:

- A. Information received from MCSWDA on Recycling Technologies.
- B. Correspondence from - Mark Maki - Zoning Ordinance/Mining - Public Comment RE: Sec 106 Amendment & recent Township Board Request to Study Further.
- C. Correspondence to - Scott Emerson, Mike La Pointe, Dallas Peterson - on reappointment to Planning Commission.
- D. Correspondence from - Marquette County Conservation District - Wildlife Habitat Workshop.

ADJOURNMENT:

There being no further business Max Engle moved, Bill Sanders supported that the Planning Commission Meeting be adjourned. The Planning Commission meeting was adjourned at 10:00 p.m.

MOTION CARRIED: 5-0.

 Estelle De Vooght
 Planning Commission Secretary

 Jeanette R. Collick
 Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION**MONDAY, July 10, 1995****PRESENT:** Bill Sanders, Mike La Pointe, Estelle DeVooght, Scott Emerson, Dallas Peterson, Steve Kinnunen**ABSENT:** Max Engle**STAFF PRESENT:** Karen Chandler, Director of Planning & Research Stacy Busch, Recording Secretary**PUBLIC PRESENT:** Roger "Pete" St. Onge**PUBLIC HEARING:** Bill Sanders called the Public Hearing to order at 7:34 pm.**CONDITIONAL USE #33** - Was presented by Karen Chandler.

The applicant, Roger N. St. Onge, has requested that the Chocolay Township Planning Commission consider granting a conditional use permit to allow a recreational structure on the following described property

Section 12, T47N R23W

NE 1/4 of SE 1/4, excluding 1 sq. acre in NE corner thereof and excluding SW 1/4 thereof.

Roger "Pete" St. Onge was present to discuss as an agenda item.

There being no public comment, Bill Sanders closed the public hearing regarding Conditional use #33.

CONDITIONAL USE #34 - Was presented by Karen Chandler. The applicant, Chocolay Township, has requested that the Chocolay Township Planning Commission consider granting a conditional use permit to allow a public park on the following described property:

Section 16, T47N R24W

Part of SW 1/4 beginning 1010' E and 50' N of SW corner thereof the N 969' th W 629.35' th S 969' th E along Co Rd 480 ROW 629.35 to POB.

There being no public comment, Bill Sanders closed the public hearing regarding Conditional Use #34.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the meeting to order at 7:40 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Estelle DeVooght, Mike LaPointe, Dallas Peterson and Steve Kinnunen present. Scott Emerson arrived at 7:45 pm.

ABSENT: Max Engle**APPROVAL OF THE MINUTES OF JUNE 12 , 1995:**

Bill Sanders inquired if there were any additions or corrections to the minutes dated June 12, 1995.

There were two (2) corrections.

* Page 7- 5th paragraph from the bottom should read-It was inquired what would happen if the golf course was sold?

Dallas Peterson moved, Bill Sanders supported that the minutes of June 12, 1995 be approved as corrected.

MOTION CARRIED: 6-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders asked if there were any additions or changes for the agenda?

Karen Chandler asked to pull NEW BUSINESS item C. Discuss changes to PUD on Cherry Creek Road-Angel Home. She stated that land was not ready for changes.

It was suggested to move NEW BUSINESS A. Discuss Conditional Use #33 up to OLD BUSINESS letter A.

Bill Sanders moved, Dallas Peterson supported to approve agenda with the changes.

MOTION CARRIED: 6-0

PUBLIC COMMENT: No public comment.

OLD BUSINESS:**Conditional Use #33-**

Karen Chandler stated that Conditional Use #33 is out in Section 12 at the county line. Alger County line comes down the Sand River Road. This request is for recreational structures. The Township just passed an Amendment to the ordinance to allow recreational structures in the RP district. Mr. Roger "Pete" St. Onge was present to ask for a Conditional Use. Mark Maki and Karen Chandler drove out to the property to check out the area. Mr. St. Onge intends to put a 14X60 foot mobile home on this parcel. He will be bringing in electric and going to the Health Department for septic and well permits.

Mr. St. Onge will be 800 feet down the easement roadway. The trailer will be placed 300 feet from the easement.

The Planning Commission asked Karen if she felt there was enough screening and if there were any problems with the location? Karen stated " screening was fine and so was the location."

Mike LaPointe moved, Bill Sanders supported that the Chocolay Township Planning Commission approve the conditional use permit request to place a recreational structure on this parcel in the RP district with the following conditions

1. That Zoning Compliance Permit be obtained from the Chocolay Township Zoning Administrator prior to start of construction.
2. That the necessary permits as required by Federal, State and Local Agencies be acquired prior to project commencement.

MOTION CARRIED: 6-0

AVAILABLE WORKSHOPS

Information on a Planning and Zoning Issues seminar being held in Marquette Tuesday August 22 and Wednesday August 23, 1995 at the Holiday Inn was presented. Steve Kinnunen, Dallas Peterson, and Estelle DeVooght would like to attend. Estelle DeVooght asked how many the budget would allow to attend?

OUTDOOR STORAGE-SEMI-TRAILERS AND PARKING

Karen Chandler asked if the parking requirements are for small cars. It was mentioned that we ask the Marquette City Zoning Administrator for a copy of their requirements. The size of each space and spaces needed per square foot of the building area should be reviewed.

Dallas Peterson asked if anything could be done with the cars on the corner of Shaws Service Station at the pedestrian overpass?

The Planning Commission would like to see semi-trailers become part of the Conditional Use process.

STRATEGIC PLAN DAY LONG RETREAT

Bill Sanders asked for a letter to be sent. Scott Emerson asked if the day is ok. Karen mentioned that the date would work out good for everyone attending.

Karen mentioned that Chocolay Township would be used as an example for Strategic Plans with Michigan Townships Association.

Mike LaPointe asked for the total number of people involved.

Karen Chandler noted that she would talk to Father Thoren about using the Church basement for the retreat and their gazebo for lunch.

Dallas Peterson asked what the next step would be after this? He also explained the Planning system in Wisconsin.

Steve Kinnunen asked for a recommendation, Dallas Peterson suggested that a news letter be sent.

Scott Emerson disagreed in that we already know what the public wants from the survey done in 1991. We should give them what they want.

Mike LaPointe is concerned that this plan could sit on the shelf. He also asked when will plan be done and what will be done?

Scott Emerson believe this should be a "Media Splash" with the Board present.

Estelle DeVooght asked if it could be on "News Extra?"

Dallas Peterson states that in some way the public should be involved.

Scott Emerson is exited about plan and how something is finally being done to improve the community.

Dallas Peterson asked if a series of special meetings would be more advantageous to try attending the day long retreat to co-op a broader community. Steve Kinnunen says that everyone will get to vote on the goals.

Scott Emerson requested a special meeting before the retreat, to get public opinion.

Mike LaPointe is concerned and asked if Rita could give us examples. Where is it really working?

NEW BUSINESS:

CONDITIONAL USE #34 - The applicant, Chocolay Township, has requested that the Chocolay Township Planning Commission consider granting a conditional use permit to allow a public park on the following described property:

Section 16, T47N R24W

Part of SW 1/4 beginning 1010' E and 50' N of SW corner thereof th N 969' th W 629.35' th S 969' th E along Co Rd 480 ROW 629.35 to POB.

Scott Emerson asked what is the reason for having more than one driveway?

Scott Emerson moved, Steve Kinnunen supported that the Chocolay Township Planning Commission approve the Conditional Use permit request to use this property as a public park with the following conditions:

1. That Zoning Compliance Permit be obtained from the Chocolay Township Zoning Administrator prior to use.
2. That the necessary permits as required by Federal, State and Local Agencies be acquired prior to project commencement.

MOTION CARRIED: 6-0

PLANNING COMMISSION 1996 BUDGET REQUESTS

Karen Chandler reviewed the current budget with the Planning Commission. Discussion then centered on the 1996 budget. The categories are as follows

PLANNING COMMISSION	12,440.00
ACCOUNT: <u>Per Meeting Compensation</u> #885.718	4,520.00
CATEGORY: <u>Commission members</u>	3,720.00
CATEGORY: <u>Secretary</u>	800.00
ACCOUNT: <u>Office Supplies</u> #885.727	210.00
CATEGORY: <u>Office Supplies</u>	210.00
ACCOUNT: <u>Postage</u> #885.729	400.00
CATEGORY: <u>Postage</u>	400.00
ACCOUNT: <u>Professional Services</u> #885.861	1,000.00
CATEGORY: <u>Professional Services</u>	1,000.00
ACCOUNT: <u>Membership/Publications</u> #885.882	410.00
CATEGORY: <u>Memberships</u>	260.00
CATEGORY: <u>Publications</u>	150.00
ACCOUNT: <u>Travel</u> #885.868	500.00
CATEGORY: <u>Travel</u>	500.00
ACCOUNT: <u>Advertising</u> #885.981	1,000.00
CATEGORY: <u>Advertising</u>	1,000.00
ACCOUNT: <u>Miscellaneous</u> #885.956	
ACCOUNT: <u>Capital Outlay</u> #885.957	4,440.00
CATEGORY: ☺ <u>Purchase of a Cam Corder</u>	900.00
CATEGORY: ☺☺ <u>Computer Software and Hardware</u>	3,500.00

The recording secretary has asked for an increase for public hearings. The consensus was to increase all meetings to \$50.

A memo will be written to the Township Supervisor in support of rejoining CUPPAD. We can use their expertise in several areas. It was also decided to increase Professional Services by \$500 to \$1,000. We need to be proactive and not reactive in planning and it seems we need more services to the Planning Commission.

Karen was asked to work with the Police Department for purchase of a cam corder. Other departments maybe able to use this equipment and the Board should be made aware of the benefits.

The computer software and hardware was left in the budget. It is possible other professional contracts maybe available. The Chocoley Watershed is currently mapping the area.

Scott Emerson asked what percent of the total general fund budget is spent on the Planning Department?

He would also like to see an economic report each quarter.

PLANNING DIRECTOR'S REPORT

Karen just received information today on P.A. 451. There will be a seminar on July 26 sponsored by SCA Environmental, Inc. As more information becomes available, it will be passed on to any member interested in attending.

PUBLIC COMMENT

No public comment.

INFORMATIONAL ITEMS AND CORRESPONDENCE

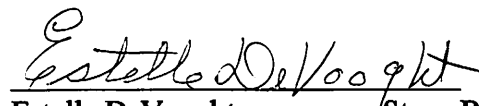

Correspondence from-Chocoley Watershed Advisory Council March 21, 1995 minutes.

Mike La Pointe stated that we should have Carl Linquist give an update on the Chocolay Watershed at the Planning Commission meeting in August. After the update is given to Planning Commission then have it presented to the Board.

Estelle DeVooght asked if any commissioners knew about the road Mead is building off Old Little Lake Road. Mike LaPointe suggested getting in touch with the DNR.

ADJOURNMENT

There being no further business, Bill Sanders moved, Mike LaPointe supported that the Planning Commission meeting be adjourned. The Planning Commission meeting was adjourned at 9:38pm.

CHOCOLAY TOWNSHIP PLANNING COMMISSION**MONDAY, AUGUST 14, 1995****PRESENT:** Bill Sanders, Dallas Peterson, Mike La Pointe, Max Engle, Estelle DeVooght , Steve Kinnunen**STAFF PRESENT:** Karen Chandler - Director of Planning & Research**OTHERS PRESENT:** Jeanette Collick-Recording Secretary, Rita Hodgins, Carl Lindquist, Pete La Rue, Chris Burnette, Jude Catallo**PUBLIC HEARING:**

There were no public hearings.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders called the meeting to order at 7:30 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Dallas Peterson, Mike La Pointe, Max Engle, Steve Kinnunen, Estelle De Vooght, present. Scott Emerson (arrived at meeting at 7:40 p.m.)

APPROVAL OF MINUTES OF JULY 10, 1995:

Bill Sanders inquired if there were additions or corrections to the minutes dated July 10, 1995.

- Dallas Peterson noted that on page 4 the sentence that reads "Dallas Peterson states that in some way the public will be involved." The Sentence should read: Dallas Peterson states that in some way the public should be involved.
- Dallas Peterson noted that on page 4 the paragraph that reads "Dallas Peterson asks if a series of special meetings would be advantageous to try attending the day long retreat to co-op a broader community. Steve Kinnunen says that everyone will have to vote on the goals." Paragraph should be changed to read - Dallas Peterson asked if a series of special meetings would be more advantageous to try attending the day long retreat to co-op a broader community. Steve Kinnunen says that everyone will get to vote on the goals.
- Bill Sanders noted that on page 4 the sentence reads: "Bill Sanders stated that we could not get a good consensus." The sentence should be eliminated.
- Mike La Pointe noted that on page 4 the paragraph reads: "Mike La Pointe is concerned and asked if Rita could give us examples. Does it really work?"

He stated his concern was where is it working? The sentence should be corrected to read Mike La Pointe is concerned and asked if Rita could give us examples.

Mike La Pointe moved, Dallas Peterson supported that the minutes of July 10, 1995 be approved as corrected.

MOTION CARRIED: 7-0**APPROVAL OF AGENDA/ADDITIONAL ITEMS:**

Bill Sanders inquired if there were any additions or changes to the agenda?

Bill Sanders suggested to put New Business Item A. Presentation by Carl Lindquist, Project Manager for the Chocolay River Watershed Project before Old Business Item A. Discuss Final Draft Of Strategic Plan with Task Force.

Bill Sanders inquired if there were any further additions or changes for the agenda. There were none.

Bill Sanders moved, Max Engle supported that the agenda be approved as changed.

MOTION CARRIED: 7-0.**PUBLIC COMMENT:**

Pete La Rue commented that there was property that was for sale on Silver Creek Road by the Silver Creek Recreation Area and the Township was asked if they would like to purchase it. The Township did not purchase the land. It was asked why?

It was commented that the Township should be looking into the possibility of purchasing land near the recreation areas for future use.

Karen will find out why the Township did not purchase the land that was in question.

NEW BUSINESS:**PRESENTATION BY CARL LINDQUIST PROJECT MANAGER FOR THE CHOCOLAY RIVER WATERSHED PROJECT:**

Carl Lindquist made an overlay and slide presentation on the Chocoday River Watershed Project.

The following questions and comments were made after the presentation.

- Would like support for the extension of the loan provided by the Township.
- The other member townships of the Chocoday River Watershed be involved in contributing.
- Performance Bond be considered.
- Very little local enforcement for mining and logging. These are regulated by the State. Some of these are exempt.
- There is a need to have restoration of the creek.
- What is the time limit to go to the other townships for the presentation? It would probably be over the winter.
- Need to get figures together and be more aggressive to go to the government entities for enforcement.
- Next meeting of the Chocoday River Watershed is in September and may be able to approach the other townships for the proper enforcement, etc.

Scott Emerson moved, Bill Sanders supported that the Planning Commission recommend to the Township Board they consider the interest free loan for the Chocoday River Watershed be extended at least a year with the possibility of continuing renewal in the future.

MOTION CARRIED: 7-0

Bill Sanders thanked Carl Lindquist for the presentation.

OLD BUSINESS:**DISCUSS FINAL DRAFT OF THE STRATEGIC PLAN WITH TASK FORCE:**

It was noted that the possibility of the lack of attendance of the task force members at the Planning Commission meeting was that they were probably on vacation.

Rita Hodgins went over the Strategic Plan.

Comments were as follows:

- A cover page and logo will be in the final draft.

- Willing to meet with a small group in early September for a time block of a couple of hours.
- Planning Commission members felt the Strategic Plan needs more punch for completion and get more people involved.
- Whole group to meet again and not rush through the plan. Needs momentum.
- Enthusiasm is out there.
- Wednesday, September 20, 1995 from 7:00 p.m. to 9:00 p.m. a group meeting will be held for the explanation of the Strategic Plan. The Vision Statement will be included with the notices that are going to be sent out.

DISCUSS EXTENSION OF SILVER CREEK ROAD TO COUNTY ROAD 553:

Karen presented an overlay regarding an easement through the honor camp property.

Following questions and comments were made:

- Increased traffic on Silver Creek Road is a concern.
- Police and Fire Protection Services.
- Sands has their own Fire Department volunteers who live in that area and respond to the Fire Hall in that area.
- County Sheriff and State Police respond in that area.
- Children living in that area attend Marquette Area Public Schools.
- There are existing roads that needs repair.
- County is asking if Chocolay Township would support the extension of Silver Creek Rd.
- Suggestion that possibly Sands Township pay Chocolay Township for police and fire protection in that area.

After the above comments , the Planning Commission agreed unanimously that a letter be sent to the Marquette County Resource Development Department that we do not support the extension of Silver Creek Road to County Road 553.

DISCUSS REQUEST FROM RESOURCE MANAGEMENT/DEVELOPMENT DEPARTMENT ON COUNTY-WIDE TRUCK ROUTE SYSTEM:

Karen presented an overlay on the roads/highways that would be involved in the county-wide truck route system.

- Tourism is covered under major roads.
- Conditions of the roads are as follows:

County Road 545 - poor
 U.S. 41 South - fair to poor
 M 28 East - good
 County Road 480 - good

- Priority of Roads:
 - (1) U. S. 41 South
 - (2) County Road 545
 - (3) M 28 East
 - (4) County Road 480

PLANNING DIRECTOR'S REPORT:

Karen presented the following for the Planning Director's Report:

- Mary Jane Lynch - Home Occupation:

Going to the Zoning Board of Appeals to increase the number of employees.

Possibly if Zoning Board of Appeals doesn't approve the increase the number of employees, she may be coming to the Planning Commission to seek approval.

If approved by the Zoning Board of Appeals, it is approved for 3 years. It is required to renew the home occupation. It is subject to review upon complaints.

- Paul Huard

Chocolay Township Board referred this back to the Planning Commission.

The Planning Commission Members stated that Mr. Huard needs to be present at the Planning Commission Meeting and needs to present a site plan as required.

Karen informed the Planning Commission Members that Mr. Huard will not be requested to pay the \$150 fee.

- Karen informed the Planning Commission that Dallas Peterson, Estelle De Vooght and Steve Kinnunen are registered for the Basic Planning and Zoning and Putting Zoning into Practice Workshop for August 22 & 23 at the Holiday Inn in Marquette from 8:30 a.m. to 4:00 p.m.

PUBLIC COMMENT:

Karen informed the Planning Commission that there may be a good possibility of being able to obtain the GIS System approved for next year.

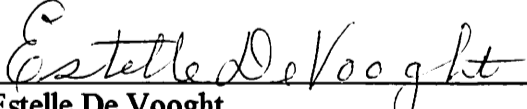

INFORMATIONAL ITEMS & CORRESPONDENCE:

- A Correspondence from - Mark Maki - Update on Golf Course Violations.
- B. Correspondence from - Mary Jane Lynch - Home Occupation.
- C. Correspondence from - Linda Rossbery and Kim Smith-Potts - results of community needs assessment.

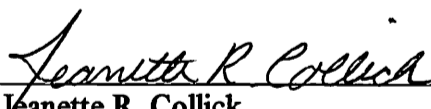

ADJOURNMENT:

There being no further business Dallas Peterson moved, Bill Sanders supported that the Planning Commission Meeting be adjourned. The Planning Commission meeting was adjourned at 9:50 p.m.

MOTION CARRIED: 7-0

There was no meeting scheduled.

CHOCOLAY TOWNSHIP PLANNING COMMISSION**MONDAY, OCTOBER 9, 1995****PRESENT:** Bill Sanders, Dallas Peterson, Mike La Pointe, Max Engle, Estelle De Vooght, Steve Kinnunen.**STAFF PRESENT:** Karen Chandler - Director of Planning & Research**OTHERS PRESENT:** Jeanette R. Collick-Recording Secretary, Betty Hill, Harold Pawley, Marla Buckmaster, Robert Mc Kee, Paul Huard, Mary Jane Lynch, Paul Capodelepo.**PUBLIC HEARING CALLED TO ORDER:****PUBLIC HEARING:**

Bill Sanders, Chairperson explained the process of the public hearing.

REZONING #80 HOME OCCUPATION - CHANGE DEFINITION OF HOME OCCUPATION:

Marla Buckmaster - 519 Lakewood Lane - opposed

- It would change the nature and character of the neighborhood.
- There are people opposed to businesses in residential areas.

Mary Jane Lynch - 271 Lakewood Lane - supports

- We can use more businesses.
- We need to compete with other townships.
- Important to have employment before you buy a building.

Betty Hill - 643 Lakewood Lane - against

- Invested in home in Chocolay Township this year.
- If this would be approved this would reduce property values.
- People don't want the noise, extra traffic, etc.
- Keep residential.

Harold Pawley - 643 Lakewood Lane - against

- Businesses should be kept in an area where it is zoned.
- Exceptional basis - people in the neighborhood should have a say.
- Decision shouldn't apply to the Township as a whole.

Mary Jane Lynch - 271 Lakewood Lane

- There would be two people working.

Bill Sanders and Estelle De Vooght read four letters into the record from:

- William Ralph - 345 Lakewood Lane - opposed to the change.
- Virginia Long - part-time resident - 729 Lakewood Lane -opposed.
- Betty J. Hill - 643 Lakewood Lane -opposed.
- James A. Hill -opposed.

There were no further public comment on Rezoning #80.

Bill Sanders closed the Public Hearing at 7:40. p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Dallas Peterson, Mike La Pointe, Max Engle, Steve Kinnunen and Estelle De Vooght present. Scott Emerson was absent.

APPROVAL OF MINUTES OF AUGUST 14, 1995:

Bill Sanders inquired if there were additions or corrections to the minutes dated August 14, 1995. There were none.

Mike La Pointe moved, Dallas Peterson supported that the minutes dated August 14, 1995 be approved as presented.

MOTION CARRIED: 6-0.

APPROVE OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders inquired if there were any additions or changes in the agenda. There were none.

Bill Sanders moved, Max Engle supported that the agenda be approved as presented.

MOTION CARRIED: 6-0.

PUBLIC COMMENT:

Robert Mc Kee - 633 Lakewood Lane -

Inquired how the definition of residency got to allow small businesses.

It was inquired as to when this was in the ordinance? Was it prior to 1977? Karen will find out. Estelle stated it has been long standing that people need to earn extra money. Earned in their home occupations.

Paul Capodelepo reserved comment for accessory buildings discussion.

Bill Sanders inquired if there were any further Public Comment. There were none. Bill Sanders closed the first Public Comment section.

OLD BUSINESS:**REZONING #77 - PAUL HUARD AMENDED APPLICATION:**

Karen stated that the Planning Commission has the amended application.

The Chocoley Township Board referred it back to the Planning Commission. The Board was concerned with relative issues and sewer hook up.

Karen referred to the memo dated October 9, 1977 to the Planning Commission regarding Rezoning #77 - Paul Huard.

Mr. Huard has twelve apartments and the ordinance calls for twenty-four parking spaces.

Board doesn't want to increase additional rental units.

The following comments were made by Mr. Huard:

- Presently there are seventeen vehicles and no place to plow snow.
- Parking lot is too close to the rentals.
- Thirty-six spaces would allow two spaces per tenant.
- Building has been updated inside and out.
- Presently there are only fourteen spaces.
- Thirty six spaces would also allow for visitors.
- Adding to West of the building for washers and dryers - possibly four, but will be hooked up to the Township Sewer for this building.
- Road will be double in width.
- The proposed 200 x 400 would connect to the first parcel.
- Apartment is R-3, rest of the parcel is R-2 and goes back to the Sicotte Subdivision.

The following questions/comments were made by the Planning Commission Members and the Director of Planning & Research:

- Extension of the road - 36' off the 100' for the road going out.
- It was required at a previous meeting that Mr. Huard provide a site plan.

- Rezoning is for R2 to R3. Mr. Huard plans to build a parking lot.
- There is enough room for a parking lot.
- Ordinance requires 24 spaces. Mr. Huard only has 14.
- Not planning on hooking the units up to the sewer.
- Township would be powerless to do anything if the parcel is rezoned as multi-family.

Mr. Huard drew a sketch on the black board on what he plans to do. He also showed where the septic and drain field were located. He also noted that it is the same type of drain field as Bell Memorial Hospital is using.

He has three sewer laterals on Willow Road beyond the 200' Sewer Ordinance requirement for hook-up.

Bill Sanders thanked Paul Huard for the explanation.

The following question/comments were made after the explanation and what is being planned.

- Planning Commission Members would like to see a site plan.
- You can't contract zone in a site plan.
- Karen was asked for her advise on the site plan. She stated you can't hold him to the site plan.
- Ordinance doesn't support a site plan for parking lots.
- The existing building meets the requirements in the ordinance.

After the above questions/comments were made the following motion was made.

Dallas Peterson moved, Max Engle supported that Mr. Huard consider 100 x 200 feet for a total square footage of 20,000. Less than required for additional buildings, yet enough for his parking lot. This rezoning would be a continuation of the current R-3 district in that area.

MOTION CARRIED: 5-1.

The above motion will be recommended to the Chocolay Township Board. Karen will inform Mr. Huard when this would be put on the Chocolay Township Board agenda.

It was a consensus to the Planning Commission to move New Business (A) Consider Rezoning #80 - Language change to Home Occupation before the balance of Old Business.

NEW BUSINESS:

CONSIDER REZONING #80 - LANGUAGE CHANGE TO HOME OCCUPATION:

Karen noted that copies of the following Townships home occupations were included:

Skandia, West Branch, Marquette and Sands Townships and the City of Marquette.

Sands Township gives the Zoning Administrator authority to approve home occupations. Chocolay Township gives the authority to the Zoning Board of Appeals.

It was inquired how many home occupations were in Chocolay Township? Karen will try to obtain an answer and get back to the Planning Commission as to how many home occupations are in Chocolay Township.

There are different types of home occupations, such as: beauty shops, selling insurance, office, dog grooming, etc.

It was inquired of Mary Lynch as to what type of home occupation she has. She makes caramel corn and chocolate. She has a licensed kitchen in her home.

The new definition would apply to anywhere in Chocolay Township. The definition change would allow one more person, other than the inhabitants.

The following questions and comments were made, both by representatives in the audience and the Planning Commission Members:

- Dog grooming businesses decrease property values.
- Signs advertising home occupations are in residential areas.
- When a business expands, the owner should invest in another building.
- Home occupations are subject to review every three years. You don't have to wait three years to complain on a home occupation.
- There is no way to enforce the policing of a home occupation.
- Business can grow slow and steady and be a good business.
- It is not primarily just another way for extra income.
- Residents want to remain residential.
- Can this be done on a case by case basis?
- Home Occupations is done by the Zoning Board of Appeals on a case by case basis.
- The Planning Commission was petitioned to change the ordinance, not a popularity contest.
- With low number of complaints on a home occupation, if there is a complaint then it should be looked at.
- Unfair to be on the defensive all the time.
- It was inquired on Mrs. Lynch's home occupation. Will the kitchen remain the same? Yes. The additional person is needed to make the chocolate and caramel corn. She sells and transports.
- Example was given that home occupations have no more transportation than some residents that have visitors.

Bill Sanders read Section 101 Definitions and the proposed language.

SECTION 101 DEFINITIONS

HOME OCCUPATION, means a use conducted entirely within an enclosed dwelling, but does not occupy more than one-fourth (1/4) of the total ground floor area of the dwelling unit, employs a maximum of one (1) person other than the inhabitants, thereof, is clearly incidental and secondary to residential occupancy, and does not change the character thereof. Specifically excluded is the storage and display of merchandise not produced by such home occupation, any activity similar to a generally recognized retail store or service establishment as permitted in any commercial district, any activity involving any building alteration, window display, construction features, equipment, machinery, or outdoor storage of which is visible from off the lot on which located.

The proposed language change being: employs a maximum of one (1) person other than the inhabitants.

The Zoning Board of Appeals requires that a person shows a hardship and this may be able to change. A business that would be adding another person wouldn't be showing a hardship.

Applications for Home Occupations are sent out to people within 300' of the business.

In Chocolay Township there only has been one in about three years that was not approved.

Mike La Pointe moved, Estelle Devooght supported that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the amendment to Section 101 Definition to the Chocolay Township Zoning Ordinance be denied.

MOTION CARRIED 5-1.

This recommendation would be recommended to the Township Board. Township Board can either agree or disagree with the Planning Commission's recommendation. It will be sent for review to the County Planning Commission before it goes to the Township Board.

OLD BUSINESS:

DISCUSS FINAL DRAFT OF STRATEGIC PLAN - PRESENTATION SET FOR TUESDAY, OCTOBER 24 AT THE CHERRY CREEK SCHOOL 7:00 P.M.:

The Township Supervisor or the Chairperson of the Planning Commission will read the Vision Statement of the Strategic Plan. Task Force people will also participate. Rita will be presenting an overlay.

The notice will be advertised in the stores, newspapers, community calendar, children that attend the Silver Creek and Cherry Creek Schools, Public TV 13, Bresnan Channel 8, and the various radio stations.

Planning Commission Members gave Karen written comments regarding the Strategic Plan.

Planning Commission thanked the Chocolay Watershed for being able to use the picture on the Strategic Plan.

REPORT ON BASIC PLANNING & ZONING AND PUTTING ZONING INTO PRACTICE WORKSHOP HELD AUGUST 22 AND 23 IN MARQUETTE:

It was noted that the workshop was very informative. Karen will be able to obtain information on various ordinances, etc.

NEW BUSINESS:

CONSIDER LANGUAGE FOR BED & BREAKFAST:

Karen noted that there was one bed and breakfast presently in Chocolay Township. The name is the Bayou Bed & Breakfast.

There has been some interest in the possibility of two more, one being on M 28 near Shot Point and the other being on Green Garden Road.

Karen presented the proposed language to the Township Attorney and he had no problem with the language.

The following comments were made regarding the Bed and Breakfast:

- Health Department requires inspections and licensing of the kitchen for more than eight bedrooms.
- Concern with the R-1 Districts - keep in RP and R2 Districts.
- People look in outlying areas, not commercial.
- Need to protect our residents.
- You can have up to three unrelated people living in your home now.
- Conditions could be: (1) pre-registered guests, (2) licensing by the Township Clerk, (3) enforcement.
- Most bed & breakfasts are in historical districts.
- Obtain more information from the American Planning Association.
- Could be more disruptive than person owning the apartment.
- More traffic.
- No knowledge of the neighborhood.

The Planning Commission agreed to table the proposed Bed and Breakfast language until they are petitioned by a request.

CONSIDER MEMO FROM ZONING ADMINISTRATOR - ACCESSORY BUILDINGS IN RR-2 AND RP DISTRICTS.

Following questions and/or comments:

- Original intent was requests for pole barns and/or garages allowed on five acre lots without residence on the lot first in the R2 and RP Zoning Districts.
- Businesses may request to build storage for materials, etc. without a residence.

Paul Capodelepo informed the Planning Commission that he is in a RP Zone. His intent was to build a three bedroom house, but financially cannot put up the residence at this time. He would like to put up a pole barn first.

In order to hook up power, he must obtain an address from the Zoning Administrator. Road should be named. He was given a temporary address of 902 Cherry Creek Road.

He is looking for the proper direction to go and is flexible.

He should apply for a Conditional Use Permit for a camp.

It was advised that he talk to a building inspector for basic safety reasons, etc.

The Planning Commission agreed unanimously that the language for accessory buildings in RR-2 and RP Districts be left as is and not accept the Zoning Administrator's recommendation.

PLANNING DIRECTORS REPORT:

Karen reported on the following:

- The GEM Groundwater Coalition meeting on Wednesday, October 4, 1995.
- Township will be in Court this week with Joe Gibbs.
- Karen will be attending the MSPO Annual Conference this week in Bellaire.
- An Economic Development Grant from Wal-Mart Corporation was awarded to Ivan Fende, Supervisor winner in the American Hometown Leadership Award program. The Township received this \$5,000 grant at their last meeting and placed it in an Economic Development Capital Improvements Fund.
- Superiorland Internet Training Center is now open at the Peter White Library.
- Karen would like to join the APA's Planning Advisory Services (PAS). Planning Commission still has \$500 in the professional services account. She contacted them for information on Bed & Breakfast's ordinances and they sent a very thorough review packet. The cost of this service to Chocolay Township will be \$420. The township is trying to make arrangements with the Marquette County Townships Association to purchase this service next year with our membership dues.
- Township is purchasing Windows and Word Perfect 6.1 for the computer system at the Township Hall.
- There will be a special township board meeting after the presentation of the strategic plan. The Planning Commission felt this would be beneficial to the Township.

PUBLIC COMMENT:

Estelle inquired about the upgrading of Little Lake Road. The one side of the road was stabilized.

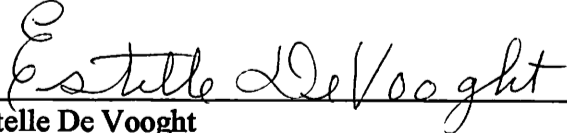

There being no further public comment, the last public comment section of the Planning Commission was closed.

INFORMATIONAL ITEMS AND CORRESPONDENCE:

- Correspondence from - MSPO - Workshop, County - Local Partnerships to protect groundwater, Grayling - November 14.
- Correspondence from - Michigan Rural Water Association - Workshop, Ishpeming - October 30.
- Correspondence from Mark Maki to Randy Gentz on golf course.
This was on the site plan that was presented at the June Planning Commission.
- Handout material from GEM.

ADJOURNMENT:

There being no further business the Planning Commission Meeting was adjourned at 10:30 p.m.

 Estelle De Vooght
 Planning Commission Secretary

 Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
OCTOBER 24, 1995
STRATEGIC PLAN MEETING**

The Chocolay Township Planning Commission and the Chocolay Township Board met on Tuesday, October 24, 1995 at the Cherry Creek School at 7:00 P.M. to consider the Strategic Plan. The Township Board meeting was opened by Ivan Fende At 7:00 P.M. The meeting was turned over to the Chocolay Township Planning Commission. Bill Sanders, Chairperson of the Chocolay Township Planning Commission opened the meeting at 7:05 P.M.

PLANNING COMMISSION PRESENT: Max Engle, Estelle DeVooght, Steve Kinnunen, Mike LaPointe, Bill Sanders, Scott Emerson.

ABSENT: Dallas Peterson.

Karen Chandler, Director of Planning and Research was also present.

TOWNSHIP BOARD PRESENT: Ivan Fende, Max Engle, John Greenberg, Don Wickstrom, Lois Sherbinow, Richard Bohjanen.

ABSENT: Arlene Hill

- 1) **OPENING STATEMENT & VISION STATEMENT - Bill Sanders**
- 2) **GOALS**

Community at Large

- a) Survey Community to assess acceptance of a community foundation & 'community center' concept - **John Renfrew**
- b) Develop a plan to communicate/educate people about planning goals and community issues - **Estelle DeVooght**
- c) Develop a promotional theme/campaign - **Estelle DeVooght**
- d) Create more community involvement activities - **Nheena Ittner**
- e) Form a committee to research/explore ways to work positively with the Keweenaw Bay Indian Community - **Steve Kinnunen**

Business Development

- a) Prepare a graphic representation of "The Vision" - **Ron Thorley**
- b) Define and implement development standards that will create our vision of a natural park-like business district with an identifying architectural theme that highlights the township's "natural" beauty - **John Weting**

Community Development

- a) Maintain the rural/natural landscape by preserving open space - **Bill Sanders**
- b) Earmark tracts of land for acquisition to fit with master plan. Include provisions for maintenance, tax support connectivity and green belt concepts - **Mike LaPointe**

Environment

- a) To inform residents, businesses and government about local environmental issues via an annual awareness/action day - **Chris Burnett**

Infrastructure

- a) Initiate a comprehensive recycling strategy - **Steven Kinnunen**
- b) Master plan, zoning ordinance and expanded infrastructure will reflect the "New Vision" of Chocolay - **Scott Emerson**

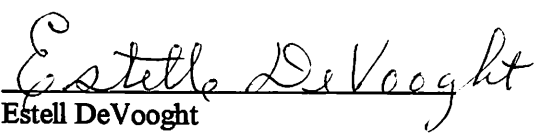

Implementation

- a) Review progress on the strategic plan in 6 months and 1 year to assess action - **Max Engle**

Rita Hodgins, MSU Community and Economic Development Agent spoke on the Chocolay Township Strategic Plan and its ability to assist future planning

The Planning Commission meeting was adjourned at 7:45 pm. By Chairperson Bill Sanders.

The Township Board meeting was recessed at 7:45 pm. By Ivan Fende. The Board will reconvene at 8:30 pm. On the Harvey groundwater contamination.

Estelle DeVooght
Planning Commission Secretary

Mary L. Sanders, CMC
Deputy Clerk

CHOCOLAY TOWNSHIP PLANNING COMMISSION

MONDAY, NOVEMBER 13, 1995

PRESENT: Bill Sanders, Dallas Peterson, Mike LaPointe, Max Engle, Steve Kinnunen, Estelle DeVooght (arrived at 7:40 p.m.), Scott Emerson (arrived at 7:45 p.m.)

STAFF PRESENT: Karen Chandler - Director of Planning & Research

OTHERS PRESENT: Jeanette R. Collick - Recording Secretary, LeRoy Blondeau, David Blondeau, Mark Maki

PUBLIC HEARING:

Bill Sanders, Chairperson explained the process of the public hearing.

CONDITIONAL USE PERMIT #32 - CHOCOLAY DOWNS GOLF COURSE:

Karen stated that Conditional Use Permit #32 was for the gazebo at the Chocolay Downs Golf Course.

Bill Sanders stated this was a supplement to the original use for a gazebo structure at the Chocolay Downs Golf Course.

Karen informed the Planning Commission that one person came into the office inquiring what this was about and she gave them a copy of the original application, but had not heard anything back from anyone else.

There was no further public comment on Conditional Use Permit #32

Bill Sanders closed the Public Hearing at 7:38 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Dallas Peterson, Mike LaPointe, Max Engle and Steve Kinnunen. Estelle DeVooght arrived at 7:40 p.m. Scott Emerson arrived at 7:45 p.m.

APPROVAL OF MINUTES OF OCTOBER 9, 1995 AND OCTOBER 24, 1995:

Bill Sanders inquired if there were additions or corrections to the minutes dated October 9, 1995 and October 24, 1995.

Karen noted that the October 24, 1995 minutes had only one correction which on page 1 under 'Community at Large, item 2 (e) Form a committee to research/explore ways to work positively with the Keweenaw Bay Indian Community' instead of Jim Carter it should be Steve Kinnunen.

Max Engle moved, Bill Sanders supported that the minutes dated October 9, 1995 and October 24, 1995 be approved as corrected.

MOTION CARRIED: 5-0.

APPROVE OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders inquired if there were any additions or changes in the agenda. It was suggested that under New Business, A. Discussion on Site Condo - LeRoy Blondeau be moved before Old Business.

Mike LaPointe moved, Dallas Peterson supported that the agenda be approved as changed.

MOTION CARRIED: 5-0.

PUBLIC COMMENT:

Bill Sanders inquired if there were any further Public Comment. There were none. Bill Sanders closed the first Public Comment section.

Estelle DeVooght arrived at 7:40 p.m.

NEW BUSINESS:

DISCUSSION ON SITE CONDO - LE ROY BLONDEAU:

Karen informed the Planning Commission that Larry, Mark, and she went over the conditions from the private road request # 8 and the Site Condo Development prints, dated November 10, 1995.

The following were concerns:

- #8 - That a cul-de-sac easements be placed at the end of the road as per County Road Commission detail.

There was concern regarding a T as opposed to the round cul-de-sac. Maybe it should be passed along to the Fire Department or write to Bob Menard, County Road Commission and have him look at it. The County Road Commission doesn't have jurisdiction over private roads, but one of the conditions it does say that a cul-de-sac be put in according to the County Road Commission details.

- All the lot sizes seem to be in compliance with the Zoning Ordinance.
- The bridge design be certified by an engineer as to its weight capacity and that the bridge's weight capacity not be less than 80,000 pounds.

At present there is only one home there, but if more were going to be developed there's more need for emergency services and we need a certified copy of the bridge design and capacity.

- The State Condo Acts requires that the Master Deed be filed with the Supervisor. It was suggested that copy also be filed with the Planning Commission.

Questions and comments were as follows:

- Why the T as opposed to the round cul-de-sac?

Wanted to preserve some trees and by putting a T cul-de-sac in instead of a round cul-de-sac, some trees would be able to be preserved.

- Would emergency vehicles be able to turn around?

There would be no problem for trucks, school buses, or emergency vehicle to turn around.

It was suggested that the Fire Department take a look at the private road to be sure that emergency vehicles would be able to turn around without a problem.

- Mr. Blondeau informed the Planning Commission that he has obtained all the necessary permits from the County Health Department for the well and septic.

Scott Emerson arrived at 7:45 p.m.

- T cul-de-sac was on the original set of plans for the private road.
- Bridge Certification was a requirement for the private road.
- Are there any plans for dealing with the land that joins the river? Each property owner will deal with the land joining the river.
- Bob Cambensy will provide the township with the necessary documentation.

OLD BUSINESS:**CONSIDER CONDITIONAL USE PERMIT #32:**

Bill Sanders stated this would be a supplemental hearing for Conditional Use Permit #32.

The reason for the supplemental hearing was that the motion never stated the reason why the Planning Commission denied the original request. We either need to supplement that motion by giving our reasons or change the motion.

The following were comments and questions regarding the Conditional Use Permit #32:

- Mr. Gibbs never responded to the questions that the Planning Commission specifically addressed in the letter of September 12, 1994.
- It was stated that according to the township attorney's letter dated October 11, 1995 to Mr. Gibbs' attorney that it was his understanding that Mr. Gibbs' voluntarily installing the monitoring is conditioned upon the Township granting to him whatever approvals may be necessary in order to enable him to complete his gazebo. In the same letter it was also stated that one of the conditions that would be recommended would be that the permit will not become effective unless the monitoring wells are installed and operational in accordance with Health Department recommendations within forty-five days; and, if those wells are not so installed within that period of time, the conditional use permit would be null and void.
- There was also a letter from Mr. Gibbs' attorney placed on file.

After the comments and discussion between the Planning Commission and Township staff, the following motion was made:

Mike LaPointe moved, Bill Sanders supported that Conditional Use Permit # 32 for the addition of a gazebo to Chocolay Downs Golf Course be approved with the following conditions:

- 1) That the permit will not become effective until the monitoring wells are installed and operational, in accordance with Marquette County Health Department recommendations, by December 5, 1995 and if those wells are not so installed within this period of time the conditional use permit would be null and void.
- 2) The Best Management Practices as printed by the DNR for Michigan Watershed/with the golf course supplement will be followed.
- 3) No alcohol will be consumed at the gazebo.
- 4) The gazebo will be operational only during daylight hours.
- 5) Proper screening be established to make the cart storage facility and the gazebo generally inconspicuous from the adjacent land uses.

MOTION CARRIED: 7-0.

DISCUSSION ON BMP'S FOR GOLF COURSES:

Karen informed the Planning Commission that the information provided in the agenda packet for Best Management Practices (BMP) is the information that she obtained that would be suitable for golf courses which are:

1. Fertilizer Management
2. Pesticide Management for Turfgrass and Ornamentals
3. Application Calculations and Calibration

The Planning Commission unanimously agreed that the Township follows the Best Management Practices (BMP) for any golf course in the Township.

It was also stated that when these are updated/revised for golf courses that the Township will have these available.

A letter to Randy Gentz dated August 29, 1995 from Mark Maki and another one dated November 8, 1995 were discussed.

Karen informed the Planning Commission that she went through the letter and looked at the minutes and some of the questions in the letter to Randy were answered.

She also has a copy of the site plan that Randy brought to the Planning Commission Meeting in July 1995. It is different that what he submitted in 1991 when he first came in.

It was stated that Randy changed it because of the wetlands and had to design the golf course around the wetlands.

The Planning Commission agreed that the site plan presented in July 1995 developed by Bills/Childs Associates, P.C. dated June 8, 1992 is the one that the Township work with.

BMP's address questions #3 and #5, questions number (3) Estimate contaminant loading amounts and number (5) Establish base line information on the chemical properties of the soil and groundwater to be used for determining changes in the levels of contaminants.

It was inquired what Randy Gentz is supposed to provide to the Township? It was stated that he should be documenting the samples and have a record of these according to the BMP.

It was stated that the Planning Commission waived the installation of the monitoring wells until he opened the golf course.

It was decided that the Planning Commission write Randy a letter to provide and clarify that the following items are being done on his golf course.

1. To follow the BMP base line data.
2. Sample water testing according to the Health Department regulation on his personal well.
3. Water usage estimates.
4. Clarification on pro shop and club house. Original plan call for a pro-shop and the revised plan calls for a club house. Are they the same thing?

Karen stated that another question she had was that Mark thinks that the Planning Commission is requesting that the road be paved. That was a recommendation from the County Road Commission. But was inquiring if that was a part of the Planning Commission's request. Mark referred to the letter from the Marquette County Road Commission of April 1, 1991.

NEW BUSINESS:

DISCUSSION ON CHOCOLAY RIVER ACCESS:

Bill Sanders inquired if this was a DNR project? Karen stated she was under the impression that the DNR was coming to the Township.

The site on Green Garden Road was a low priority, not the site that the DNR was talking about at present.

There were some questions at a Township Board Meeting whether or not we would want to include the DNR property in our Recreation Plan and make a decision on what the priority would be.

It was inquired if we would need a public hearing to add this to the Recreation Plan.

We could add this as a non-township source of recreation. We should inquire ways to team up with other agencies to improve recreation areas. Also inquire monies for grants, etc. resources for recreation should be considered.

It was suggested that Karen correspond back to the Board that this site would be discussed when the Recreation Plan is being reviewed in January.

DISCUSSION ON OFF-PREMISES SIGNS IN C-1 DISTRICT:

Karen informed the Planning Commission that Jeff Glass came into the office to obtain permission to put a sign advertising Gitche Gumee Campground on his father's property on Kawbawgam and M 28.

At one point we were talking about rezoning some of the property on Kawbawgam and M 28.

It was noted that the majority of the land use was residential. A public hearing needs to be done to get this resolved.

The citizens are the ones that want the rezoning too residential.

The office building on M 28 and Kawbawgam would then become non-conforming.

It was commented that multiple small signs advertising the campground may be better than one big sign.

It was suggested that Gitche Gumee Campground have a logo and then try to get the Department of Transportation blue signs with the logo on it.

DISCUSSION ON MEMO'S FROM MARK MAKI:

1. **Zoning Ordinance Amendments**
2. **Pole Barn & Garages in RR-2 & PR**
3. **Proposed Private Road "Deer Trail:**

Comments regarding pole barns & garages:

Mark informed the Planning Commission what is happening throughout the county is that people want to put up storage buildings, barns, garages to house the building materials and equipment as they are building their home site. It isn't so common in subdivision because typically when someone buys a lot in a subdivision, everything is put up at once.

When someone purchases a forty-acre lot, they may have a long range plan to develop it, but need something to store their materials and equipment. They need an address for their utilities, etc.

Chocoy Township Zoning Ordinance presently states you can't build an accessory building before your principal structure is on the site.

In the farming districts and rural areas it wouldn't be so uncommon because it would be similar to camps.

He commented that it may be more proper for the Planning Commission to make these decisions instead of the Zoning Board of Appeals. The Zoning Board of Appeals is supposed to be granting variances.

The Planning Commission could treat this as a conditional use and could probably put restrictions and also possibly a time limit on when the home site would have to be built.

Also, notifications are sent to the adjacent property owners.

Mini warehouses would not be allowed.

Comments regarding Zoning Ordinances changes:

Karen commented on Mark's memo regarding the zoning amendment changes discussed in May of 1995 by the Planning Commission to resolve a number of outstanding Zoning Amendment issues. She spoke with Ivan Fende, Township Supervisor regarding a joint meeting with the Planning Commission and the Township Board and he seemed to think that it probably wouldn't take place until at least January.

Some of these issues have been long term and we need to sit down, discuss, and group these. The Planning Commission has sent recommendation after recommendation to the Board and they send them back to the Planning Commission with little or no direction as to exactly what direction they want the Planning Commission to go.

Comments regarding Signs for Golf Courses:

About six months ago language was sent to the Township Board and they referred it back to the Planning Commission and it never got resolved.

It was commented that one word was to be clarified. The Planning Commission did clarify this was for the Golf Course, but apparently the wording never got back to the board.

Karen will check through the minutes on this wording.

Other changes that went back from the Township Board to the Planning Commission were the height requirement and one structure per lot language.

Comments on "Deer Trail":

It was inquired as why this was a trail and not a private road. Karen informed the Planning Commission that the private road requirements are not addressed in the RP and OS District.

This particular request ends up to be four established parcels for building sites. They are there and are building on them. The addresses are off Cherry Creek.

Karen informed the Planning Commission she will ask to Mark about why road frontages were not being required in the RP District.

Comments regarding the height requirement were discussed. It was suggested that we inform the Township Board that this is the fourth time this has come back to the Planning Commission and request from the Township Board exactly what do they want to be done on this?

Karen informed the Planning Commission that this was published, but then there was a problem with the Fire Department and we're waiting for their response to come back and then this will be taken back to the Township Board for their adoption. There was a question on the 30' height.

PLANNING DIRECTOR'S REPORT:

- 1) I attended the MSPO Annual Conference in Bellaire during October. The theme of this year's conference was "Vision Equals Reality." One major presentation was the "Michigan's Trend Future - Patterns on the Land - Our Choices-Our Future." I have the working papers for the ten of the eleven topics and I've included a handout for each of you. If you'd like to review each of the working papers, I have them on file and can lend them out for review.
- 2) I received information on Friday for a workshop titled "Anatomy of a Development." If anyone would like to go, please let me know.

- 3) Ivan Fende had reviewed the language proposed for the Bed & Breakfast that we discussed last month. He reported in his Supervisor's Report to the Township Board that the Planning Commission had reviewed the wording and decided to wait to be petitioned before working on the Bed & Breakfast amendment. The Board agreed to ask the Planning Commission to consider working on the amendment. I have copies for each of you on the "Bed & Breakfast Facilities - Zoning Controls" published by the Professional Association of Innkeepers International.
- 4) I will be meeting with CABA members on Wednesday morning to discuss the Strategic Plan. This is their regular monthly meeting held at Wahlstrom's at 7:30 a.m. I have prepared a list of committees and those who have signed up. Copies have been made for each of you.

PUBLIC COMMENT:

Karen informed the Planning Commission that the Fire Department's annual Santa Christmas party will be December 10, 1995 from 3:00 p.m. until 5:00 p.m.

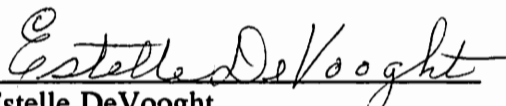

There being no further public comment, the last public comment section of the Planning Commission was closed.

INFORMATIONAL ITEMS AND CORRESPONDENCE:

- A. Correspondence from - MTA - attempts to disrupt meetings
 B. Correspondence from - Mark Maki - Strategic Plan/Comments - height amendment/definition of height
 C. Correspondence from - Stephen D. Dice - on "Chocolay plans for it's future."

ADJOURNMENT:

There being no further business the Planning Commission Meeting was adjourned at 10:15 p.m.

 Estelle DeVooght
 Planning Commission Secretary

 Jeanette R. Collick
 Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, DECEMBER 11, 1995**

NO PUBLIC HEARING

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting to order at 7:33 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Mike La Pointe, Max Engle and Estelle De Vooght present.

ABSENT: Steve Kinnunen, Dallas Peterson and Scott Emerson.

STAFF PRESENT: Karen Chandler - Director of Planning & Research

OTHERS PRESENT: Jeanette R. Collick-Recording Secretary

APPROVAL OF MINUTES OF NOVEMBER 13, 1995:

Bill Sanders inquired if there were additions or corrections to the minutes dated November 13, 1995. Estelle DeVooght moved, Mike La Pointe supported that the minutes dated November 13, 1995 be approved as presented.

MOTION CARRIED: 4-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders inquired if there were any additions or changes in the agenda?

Karen requested that the Planning Commission look at Conditional Use Permit #32 under Old Business.

Max Engle moved, Mike La Pointe supported that the agenda be approved as changed.

MOTION CARRIED: 4-0.

PUBLIC COMMENT: Bill Sanders inquired if there were any further Public Comment.

Karen informed the Planning Commission that Rita Hodgins will be holding a meeting on Tuesday, December 12, 1995 at 7:00 p.m. at the Chocoy Township Hall for an evaluation of the Mining Journal. CABA, 5 or 6 staff members, Board Members will be present. The meeting will last about one hour. She urged the Planning Commission Members to attend if they were interested.

There was no further Public Comment.

OLD BUSINESS:

DISCUSSION ON REZONING AT M-28 AND KAWBAWGAM ROAD:

Karen went over the information from her memo to the Planning Commission dated December 7, 1995. She noted that in March of 1991, Steve Blondeau wanted to rezone the corner parcel from C-1 to C-2. This request was denied.

In October 1991, Judd Johnston requested the rezoning of several lots from C-1 to R-3. The Planning Commission members at that time were leaning to R-1.

The following questions and comments were made:

- Eliminate spot zoning.
- Class A Status would be automatic.
- There was a concern regarding the motel/apartment building being non conforming and would burn down would they be able to build again? It was required that Karen would find out this information and report back to the Planning Commission.

- In reviewing the notes there didn't seem to be a problem with turning the Township property on M 28 from C-1 to R-1, but looking at the corner property and the other R-3 property there may be.
- On the corner property of Kawbawgam & M 28 there has been a stop work order.
- The residents don't want it rezoned too commercial. They want the entire area R-1.
- With nonconforming what percentage has to take place if the building was destroyed, such as fire to rebuild. Karen will check and report back to the Planning Commission members.

After discussion on the above topic it was decided that a Public Hearings be held in May 1996.

DISCUSSION ON HEIGHT OF ACCESSORY BUILDINGS:

Karen stated that at this time the language regarding the height of accessory buildings was still between the Fire Department and the Township Supervisor.

A representative from the Building Codes Department was in last week and don't see a problem with the height the way they would interpret our zoning ordinance.

The following questions and comments were made on the language for the accessory buildings:

- The 14' height has been Mark's interpretation and that is also what the Zoning Board of Appeals has ruled on.
- The language is foggy in our ordinance on what the height is for accessory buildings.
- The problem that comes in with the Fire Department at this point is because we would be changing the definition of height to average height, then not only your accessory building, but any building could be higher than what they may be able to approach.
- Building Codes has suggested that we add "the grade" as a definition and not horizontal slope.
- What if we added and no building should exceed the height of 30'? This way we could have the definition of average height with the stipulation that no building exceed 30' from grade to top of the building.
- It was also suggested that the accessory building height conform with the existing building (home).
- The word that the Board has trouble interpreting is average height. It was requested of the Township Board to be specific to exactly what they wanted the Planning Commission to write into the ordinance when they send it back and they haven't done that.
- It was requested that Karen check to see if the Township Board sent the height language back to the Planning Commission.
- If it was sent back to the Planning Commission then change the average height definition to no building can exceed 30' from the lowest grade to top of the building.
- The point of the height definition was to allow a garage to have a steeper roof to blend in with the house.
- If this has not been requested to go back to the Planning Commission, let the language go as is.
- This language has been published once. It needs at least four votes to pass. There was a quorum present at the Board Meeting to have this published. It has not been adopted.

DISCUSSION ON MEANING OF RESORT VS BED AND BREAKFAST:

Karen informed the Planning Commission that Bob Johnson, North Big Creek Road will be applying for a Conditional Use Permit. He came in and talked to Mark regarding a Zoning Compliance for a Bed and Breakfast, Mark informed him that we do not have a Bed & Breakfast.

Karen informed the Planning Commission that we do have resorts in RP District and Mr. Johnson is in Resource Production District, which consist of 20 acres or more.

Karen wanted to inform the Planning Commission that Mr. Johnson would be back with a Conditional Use for a Resort.

In the information that was presented to the Planning Commission on Bed & Breakfast at the November meeting, there is mention of Bed & Breakfast being a boarding house. Chocolay Township has no boarding house definition.

With Bed & Breakfast you can serve food, in resorts you cannot serve food. You would allow them to bring their own food in and prepare it in their kitchen. Our definition doesn't read this way. It is the health department's language.

Mr. Johnson doesn't want the license to serve food.

Resort is recreational, such as fishing etc.

Karen also reported that a lady on M 28 in a LS/R District would probably want a Bed & Breakfast. She could probably apply for a Resort as long as it meets the conditions of a resort.

In a LS/R District a resort could be applied for with conditions as long as it meets the conditions of a resort and it doesn't interfere with the surrounding land use.

Karen read the definition of a resort in various districts. Karen will meet with Mark and obtain his interpretation of a resort. It was commented that if restrictions are written out, it is better for both parties concerned.

DISCUSSION ON RECRUITING MEMBERS FOR COMMITTEES:

Karen informed the Planning Commission that Rita Hodgins is working on getting information from Ball State University on the expertise in visioning graphics. Once this process is started, the spark on interest will begin again. Finding a visual picture of Chocolay Township and our vision should start the other groups in the plan.

The cost for this would be from \$6,000 to \$10,000. We have about half the cost. Some of the topics that could be done by this committee could be the following:

- Map of Zoning Districts
- Graphics of buildings in commercial districts
- Landscape ordinance
- Water System
- What types of business are going to come in?
- Strategic Plan
- Will give use direction

CONDITIONAL USE #32 - CHOCOLAY DOWNS:

Karen informed the Planning Commission she met with Mark Maki, Harley Andrews and Mike Farrell last Friday for about one hour.

Harley informed her that the attorneys signed a court document that the monitoring wells will be in place by March 5, 1996. If the monitoring wells were not in by March 5, 1996, Mr. Gibbs would be in contempt.

She talked with Harley and he had asked if we could extend the action that took place at the Planning Commission in November 1995.

Estelle De Vooght moved, Bill Sanders supported that we do not extend the action that took place at the November 1995 Planning Commission on Conditional Use #32.

MOTION DENIED: 1-3.

Max Engle moved, Mike La Pointe supported that we extend the action that was taken the November 1996 Planning Commission regarding Conditional Use #32 from December 5, 1995 to March 5, 1996.

MOTION CARRIED: 3-1.

NEW BUSINESS:

DISCUSSION ON MEETING DATES FOR 1996:

The Planning Commission Members agreed unanimously that the meeting dates of the Planning Commission be held on the second Monday of each month for 1996.

PLANNING DIRECTOR'S REPORT:

Karen presented the following for the Planning Director's Report:

- 1) Met with CABA members on November 15. Rita Hodgins also attended. It was suggested a copy of the plan with an appendix (the outcome of all meetings) be distributed throughout the Township.
- 2) The Township has been encouraged to participate in the CABA Quarterly, which is one goal in our strategic plan.
- 3) We have received our membership information papers to PAS. As soon as possible, I will be working to get our first reports from them using our prioritized list of projects.
- 4) I have been in contact with MSPO, Executive Director David Downey about the Grass River Wetland Area near Traverse City. This area has been developed by a nonprofit corporation and the same concept should be looked into here to preserve our riverfront or bayou properties.
- 5) Rita Hodgins has been in contact with Ball State University about their community charrette's addressed in our Strategic Plan. The University planning staff would meet with Township officials in a pre-meeting conference to prepare for the charrette. After that meeting, they bring facility and students. They stay with area families, go to churches, eat at local restaurants and also prefer to have lunches made by the members of the community. This must be a local effort. The earliest they can meet with us would be May. The cost is between \$6,000 and \$10,000.

PUBLIC COMMENT:

There was a discussion on a house on Little Lake Road. It was brought to the Planning Commission's attention that this house was placed in a high area. There was a Zoning Compliance Permit issued. It was suggested that Karen check with the Health Department on the drain field, septic, etc.

There being nor further public comment, the second public comment section of the Planning Commission was closed.

INFORMATIONAL ITEMS AND CORRESPONDENCE:

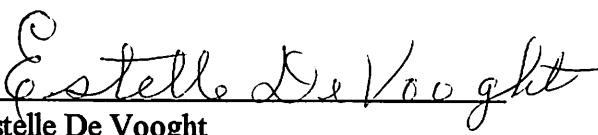

- A. Correspondence to - Mark Maki - memo w/letter to Randy Gentz.

It was asked if Mark was clear on information regarding Randy Gentz? He has not heard from Randy yet. It was stated by members of the Planning Commission that Mark is treating both golf courses the same. Randy was given permission on some of the items, but Joe was not. They are both different. Both of the golf courses are to follow Best Management Practices.

- B. Correspondence from - MSPO - Managing Traffic in Your Community. UP coordination efforts. Need to get more involvement and interest in the area.
- C. Correspondence from - Peter White Public Library - on upcoming INTERNET training center classes.

ADJOURNMENT:

Mike La Pointe moved, Bill Sanders supported that the Planning Commission meeting be adjourned. The Planning Commission Meeting was adjourned at 9:20 p.m.

 Estelle De Vooght
 Planning Commission Secretary

 Jeanette R. Collick
 Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, JANUARY 8, 1996**

PRESENT: Bill Sanders, Max Engle, Steve Kinnunen and Estelle De Vooght

STAFF PRESENT: Karen Chandler - Director of Planning & Research

OTHERS PRESENT: Jeanette R. Collick-Recording Secretary, Melvin Sweeney, Mark Heikkila, Carolyn Basal, Robert Basal, Robert Johns, Linda Johnson

PUBLIC HEARING:

CONDITIONAL USE PERMIT #35:

Bill Sanders, Chairperson called the Public Hearing to order at 7:35 p.m.

He informed those present of the procedures for the public hearing. You can comment now regarding the conditional use permit or reserve time during the Regular Planning Commission Meeting when this item is discussed.

Karen gave the background information regarding Conditional Use Permit #35. The applicant, Robert and Linda Johnson has requested that the Chocolay Township Planning Commission consider granting a conditional use permit to allow a resort on the following described property:

Section 9, T47N R24W

That Part of SE 1/4 of SE 1/4 Lying S of Chocolay River Exc Th W 75' Lying N of S 376.5' of and Exc E 50' of W 125' Lying N of S 426.5' Thereof.

She presented an overlay showing the property involved from the plat map. She read the definition of a resort in our Zoning Ordinance. **Resort**, means any parcel or tract of land under the control of any person wherein buildings or building space are offered for the use of the public or members of an organization, either free of charge or for a fee, for temporary living quarters incident to recreational use for any period less than one month.

Resort is in the ordinance as a conditional use in the RP Zoning District, which Johnson's are in. Resorts are allowed on lots 20 acres or more. This parcel meets the requirement.

Melvin Sweeney - 1715 Fitch Avenue:

Are there going to be any snowmobiles at this resort?

Bob Johnson - 545 N. Big Creek Road:

No. It is just what is out there presently, which is a dog kennel. He has had requests for people to take sled rides and would like to stay all night instead of driving back to a motel.

Robert Basal - 400 North Big Creek:

Concerned about the following:

- Increased traffic.
- Snowmobilers/four wheelers.
- Prison is there.
- Hunting.
- Needs more information.
- Some residents were against the resort because they thought it was going to be a large resort, not just used for sled dog rides.

Bill Sanders informed the residents in the audience that they will be given time during the Planning Commission Meeting when this topic is being discussed for questions and comments.

Bill Sanders read three letters into the record that were received from the following residents:

1. Mary Basal - dated January 2, 1996 - against.
2. Mary Sweeney - dated January 8, 1996 - against.
3. Eugene W. & Celia Blondeau - dated January 2, 1996 - against.

Karen spoke with Mrs. Blondeau over the phone and she stated she was definitely against the rezoning. Karen explained to her that it was not for a rezoning, but that it did come to the Planning Commission as a conditional use. The Planning Commission has more oversight with a Conditional Use and could put requirements on that Conditional Use as opposed to a rezoning.

The residents present stated that when the notices were sent the resort was not clearly defined. It doesn't specify what exactly is in the plan until you look at the plan. The reason for the public hearing is to be able to review the plans presented and everyone is on an even basis.

Bill Sanders closed the public hearing at 7:47 p.m.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting to order at 7:47 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Max Engle, Steve Kinnunen and Estelle De Vooght present.

ABSENT: Mike La Pointe, Dallas Peterson and Scott Emerson.

APPROVAL OF MINUTES OF DECEMBER 11, 1995:

Bill Sanders inquired if there were additions or corrections to the minutes dated December 11, 1995. Estelle De Vooght noted that on page 4 under Discussion on Meeting Dates for 1996 it reads: "The Planning Commission Members agreed unanimously that the meeting dates of the Planning Commission be held on the end Monday of each month for 1996." **It should be changed to read:** "The Planning Commission Members agreed unanimously that the meeting dates of the Planning Commission be held on the second Monday of each month for 1996."

Karen noted that on page 3 under Discussion on Meaning of Resort vs. Bed and Breakfast it reads: "Karen informed the Planning Commission that Bob Johnson, North Big Creek Road took out a Conditional Use Permit. He came in and talked to Mark regarding a Zoning Compliance for a Bed and Breakfast, Mark informed him that we do not have a Bed & Breakfast. Mark informed him that he would have to do a rezoning." **It should be changed to read:**

"Karen informed the Planning Commission that Bob Johnson, North Big Creek Road will be applying for a Conditional Use Permit. He came in and talked to Mark regarding a Zoning Compliance for a Bed and Breakfast, Mark informed him that we do not have a Bed & Breakfast."

Max Engle moved, Bill Sanders supported that the minutes dated December 11, 1995 be approved as corrected.

MOTION CARRIED: 4-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders inquired if there were any additions or changes in the agenda?

Max Engle requested that the Planning Commission move Conditional Use Permit #35 under New Business before Old Business.

Estelle De Vooght moved, Bill Sanders supported that the agenda be approved as changed.

MOTION CARRIED: 4-0.

PUBLIC COMMENT:

Melvin Sweeney - inquired as to how many dogs the Johnsons' had?

Bob Johnson - informed them that they had forty-three dogs presently and are licensed for fifty. There are no plans to run snowmobiles in that area. No access other than hiking trails.

Bill Sanders inquired if there were any further Public Comment.

There were no further Public Comments. The first Public Comment Section of the Planning Commission was closed.

NEW BUSINESS:

DISCUSSION ON CONDITIONAL USE PERMIT #35:

Bill Sanders informed the residents present that when he stated that the Planning Commission would be making a decision on Conditional Use Permit #35 tonight that doesn't necessarily mean that it has to be approved or disapproved. Another option would be to table this item.

He informed them that the advertisement in the paper was short to save costs on publishing. We weren't trying to be vague.

Bob Johnson - informed the Planning Commission that they presently have a home with five bedrooms and three baths. They presently have foster children, but plan to retire. They do give sled rides now. They have received requests from people to spend the night. The legal way for him to charge for people spending the night is to change the title to a resort.

He has no intentions of starting a resort of buildings/cabins for hunting and snowmobiling. The proposal is let people have access to travel and be able to rent a room. He needs the official designation to be able to be covered by insurance.

Karen went through and discussed the permitted uses and conditional uses in resource production. A permitted principal use under resource production is a kennel. Our definition of a kennel is four or more adult dogs. A commercial zone is not necessary because they meet the definition of a kennel in our zoning ordinance.

Regarding the concern for increased traffic: if the Johnson's intend to rent out four of their rooms, it could mean four more cars. It is more traffic, but we are not talking about a twenty-room resort. They estimate about 45% occupancy and there wouldn't be more than three cars every day.

The added noise could be a concern, but the dogs are already there and the kennel does meet the ordinance.

No food would be served by the Johnson's, but people could bring their own food and prepare it. In checking with the health department, if the Johnson's would be preparing the food, they would need to obtain a license. That is not their intention.

He has obtained a kennel license through the County and is licensed for up to fifty dogs.

Bob Johnson drew the trail on the overlay where the sled dogs would go. He has obtained permission from the adjacent property owners that he would need to go on for the trail.

People would not be bringing their dogs for sled rides.

Bob Johnson would be serving as a guide. As a licensed guide the State makes the rules and regulations to be followed.

It was stated that if there is a complaint that if a condition would be violated, a conditional use could be reviewed and terminated because of the violation.

After the questions, answers and discussion the following motion was made regarding Conditional Use #35.

Max Engle moved, Bill Sanders supported that the Chocoley Township Planning Commission approves the conditional use permit request to allow a resort on the following described property:

Section 9, T47N R24W

That Part of SE 1/4 of SE 1/4 Lying S of Chocoley River Exc Th W 75' Lying N of S 376.5' of and Exc E 50' of W 125' Lying N of S 426.5' Thereof.

With the following conditions:

1. That the existing single family residence is used as the resort and no additions or other detached buildings are used to house tenants.
2. That all hunting, fishing, and sled dog rides' take place on the private property of the applicant, or those lands permitted to be used by the property owner on designated trails or on State land.
3. Size of the kennel is limited to fifty dogs.
4. That a Zoning Compliance Permit be obtained from the Chocolay Township Zoning Administrator prior to use.
5. That the necessary permits as required by Federal, State and Local Agencies be acquired prior to project commencement.

MOTION CARRIED: 4-0.

Bob Johnson thanked the Planning Commission.

OLD BUSINESS:

There was a question on the absences of Dallas Peterson and Scott Emerson? Karen informed the Planning Commission members that Mike La Pointe contacted her and said he would be out of town for this meeting. The other two members never contacted her. She will check on how many absences they have had on the Planning Commission.

ANNUAL REVIEW OF RECREATION PLAN:

The 1993 Recreation Plan is on file with the DNR for Recreation Grant applications. If we were going to make any changes, a public hearing would have to be submitted to the Township board. The grant application is normally in the DNR hands by the first of April. The Planning Commission reviewed the plan at their first meeting in February last year. The 1993 Recreation Grant is good until 1998.

Karen went over the Recreation and Tourism meeting notes in the Strategic Plan. The number one hope, dream and vision was for a Master Plan for parks, picnic areas, residential areas, bike paths, trails and other recreational facilities and schools, then connect them improving access.

In updating the recreation plan we need to point more toward trails and bike paths.

Karen informed the Planning Commission that February 1, 1996 there is going to be a meeting with the Marquette County Tourism and basically the snowmobile organizations that want to talk about snowmobile trails throughout the area. They wouldn't be just talking about developing snowmobile trails, but also using them in the summer time and would hook up to North Country Trails.

Karen distributed the 1993 Action Program. During the Summer Youth Program in 1995 the complaint as that there was no shelter. Basically it is the same application as last year except the irrigation system. The Strategic Plan needs to be incorporated and emphasis for bike trails from schools etc.

After discussion on the lack of shelter for the recreation program and the amount of use the Beaver Grove Recreation area gets, it was suggested that maybe the pavilion get moved from the second phase to the first phase and other items in the first phase get moved to the second phase.

After comments and discussion on the recreation grant, the following motion was made.

Estelle De Vooght moved, Bill Sanders supported that the Planning Commission recommends to the Township Board that under the Recreation Grant that the pavilion be moved from the second phase to the first phase.

MOTION CARRIED: 4-0.

Another concern was for the expansion of the parking area.

It was suggested we keep the Recreation Plan on the agenda for their future meetings.

DISCUSSION ON CHOCOLAY RIVER ACCESS:

After discussion on the Chocoday River Access the Planning Commission members unanimously agreed that a letter be sent to the Township Board with a courtesy copy to Larry Gould that the township denies the request of developing access to the Chocoday River from Mangum Road and follow the Recreation Plan for development of the Township owned land on Green Garden Road.

It was also suggested that a letter be written to Mr. Dameworth thanking him for the work he has done on the river.

DISCUSS TOPICS FOR JOINT MEETING WITH TOWNSHIP BOARD:

Karen informed the Planning Commission that the joint meeting with the Township Board and the Township Planning Commission will be held on Monday, February 19, 1996.

The following items were suggested for the joint meeting:

1. Support of the Strategic Plan.
2. Ball State University community charrette's program.
3. Logo Contest - do advertisements - get community involved.
4. Ordinance updates. Height revision.
5. Home Occupations.

NEW BUSINESS:

DISCUSS ATTENDANCE AT WORKSHOP "BUILDING COMMUNITIES FROM THE INSIDE OUT":

The meeting is January 11, 1996 in the Peninsular Room at the Ramada Inn, Marquette. Karen is planning on attending.

PLANNING DIRECTOR'S REPORT:

Karen presented the following for the Planning Director's Report:

- 1) I have included information in your handout material from the County Health Department on Bed & Breakfast food service requirements. I have also included the State law on Bed & Breakfast and Mark's interpretation of the Bayou House Bed & Breakfast.
- 2) I have spoken with Ivan Fende about the Ball State University community charrette's program. If we can get the total commercial community behind this concept, he'd be willing to budget for such a project.
- 3) Supreme Court wouldn't hear the Sand River Aggregate case.
- 4) Judge Quinnell ruled against Dan Di Loretto. The road stays the same as it is.

PUBLIC COMMENT:

There was a question on the house located on Little Lake Road, such as if a Zoning Compliance Permit was obtained. Karen will find information on this and get back to the Planning Commission.

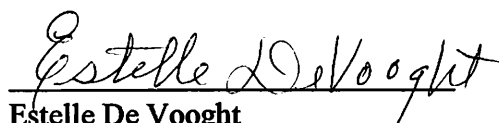

Karen informed the Planning Commission that Jane Surrell, Marquette County Health Department obtained a list of property owners from the Ridgewood, Fernwood, Candace area from the tax roll. There apparently has been a high nitrate in the water. They will be doing water sample testing on a door to door basis and hope to obtain at least 25 tests results.

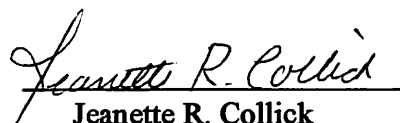

INFORMATIONAL ITEMS AND CORRESPONDENCE:

- A. Correspondence to - Mark Randolph, Mgr. - Grass River Natural Area

ADJOURNMENT:

Max Engle moved, Estelle De Vooght supported that the Planning Commission meeting be adjourned. The Planning Commission Meeting was adjourned at 10:15 p.m.

 Estelle De Vooght
 Planning Commission Secretary

 Jeanette R. Collick
 Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, FEBRUARY 12, 1996**

PUBLIC HEARING: No public hearings scheduled.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting to order at 7:35 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Estelle De Vooght, Mike La Pointe, Scott Emerson present. Max Engle (arrived at 8:05 p.m.)

ABSENT: Steve Kinnunen (out of town). Dallas Peterson.

STAFF PRESENT: Karen Chandler - Director of Planning & Research

OTHERS PRESENT: Jeanette R. Collick-Recording Secretary, and Dale Stephenson, Zach Aeschliman - NMU students.

APPROVAL OF MINUTES OF JANUARY 8, 1996:

Estelle De Vooght moved, Bill Sanders supported that the minutes dated January 8, 1996 be approved as presented.

MOTION CARRIED: 4-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders inquired if there were any additions or changes in the agenda? There were none.

Bill Sanders moved, Estelle DeVooght supported that the agenda be approved as presented.

MOTION CARRIED: 4-0.

PUBLIC COMMENT:

Bill Sanders inquired if there were any public comment. There were none. The first Public Comment Section of the Planning Commission was closed.

OLD BUSINESS

DISCUSS "BUILDING COMMUNITIES FROM THE INSIDE OUT":

Karen informed the Planning Commission that Michigan State University Extension will be conducting a meeting entitled "Communities Committed to Youth and Families" in two or three sessions. The first session will be held Tuesday, February 20 at 7:00 p.m. at the Chocolay Township Hall. The next session(s) will be held on the following Tuesday(s). This project is being conducted with the financial support of the W.K. Kellogg Foundation. Upon conclusion of the community plans, each community will have the opportunity to apply for some seed money to get started on or finish a project that has been identified.

This will fit in with our Strategic Plan goals of the Community at Large category in creating more community involvement activities for the community.

DISCUSS LAND USE SATELLITE CONFERENCE:

Karen informed the Planning Commission Members that she received information on the conference on Land Use with a satellite hook up. We've received the book and have asked that the Township receive a copy of the video tape of the conference. She urged the Planning Commission Members to review these at their convenience.

DISCUSS POSSIBLE WORDING FOR TEST AMENDMENTS:

HEIGHT:

The Planning Commission Members stated that in ordinances throughout the County and U.P. the word average is used. It was also stated that the Fire Department can still meet the requirements for fire protection if the word average is used.

The Planning Commission unanimously agreed that the Height language should be acted on as is on the agenda for the joint meeting of the Planning Commission and Township Board.

SITE CONDO:

Karen went over the Condominium language that she obtained from various other units. It was stated this language be passed onto the Assessor/Zoning Administrator to see if he would be able to enforce this language.

It was suggested that another requirement be added for Private Roads and frontage requirements.

Karen informed the Planning Commission that she would talk to the Onota Township Supervisor and report back to them regarding how this is working in their township.

Scott Emerson stated that he would like to see landscaping requirements along with underground power included in this ordinance, but felt it could be written into the total ordinance.

Karen was asked to also obtain Mark's opinion on the Condominium Language and bring this back to the Planning Commission.

BED & BREAKFAST:

Karen informed the Planning Commission that the Bed & Breakfast was approved in the City of Marquette.

Karen informed the Planning Commission that Judy Smith would probably be coming back to the Planning Commission regarding the property on M 28. Should this be handled as a Bed & Breakfast or a Resort? Karen went over the language pertaining to the resort.

The difference with the resort is that you cannot serve food without a food service license. The County Health Department issues permits for food service.

It was inquired as to how other Townships handle the Bed & Breakfast in their ordinances?

Max Engle arrived at 8:05 p.m.

Karen informed the Planning Commission that Bed & Breakfast was allowed in the Rural Residential in Sands Township.

It was suggested that Bed & Breakfasts be allowed in the Commercial District as a Permitted Used and Resorts be allowed in other districts with proper licensing for food. Resorts are allowed on lakeshore property as long as it is not obtrusive to neighbors.

Bill Sanders moved, Scott Emerson supported that Bed & Breakfast, means a use that is subordinate to a single-family detached dwelling unit in which transient guests are provided sleeping rooms (not to exceed four (4) rooms) and a breakfast only, in return for payment; is the owner's personal residence; is occupied by the owner at the time of rental; and, the length of stay of any guest is not to exceed 14 consecutive days and 30 days in one year as a permitted principal use in Commercial Districts.

This will be presented at a public hearing in March.

MOTION CARRIED: 5-0.

SECTION 106 PRINCIPAL USE OR MAIN BUILDING ON A LOT:

Karen went over the language she received on Section 106 at an MTA Conference workshop she attended.

In all Districts, no more than one (1) principal use or main building shall be placed on a lot, except for groups of related industrial or commercial buildings, or multiple family dwellings, contained within a single, integrated complex, sharing parking, access, and other similar site features.

Karen pointed out shared access and parking would take place if this language would be adopted.

It was required that Karen contact the Zoning Administrator and obtain what he thought of the proposed language and submit this back to the Planning Commission in March 1996.

It was stated that this language would allow more than one building per lot as long as the groups were of related nature.

The Planning Commission wants more concentrated uses in the commercial districts. Access is of great concern.

PUD is restrictive and too expensive.

It was suggested that Karen obtain information from the consultant to see what the track record of this language has been versus a PUD and bring the results back to the Planning Commission in March.

The following questions were suggested to ask the consultant.

- Has this created any problems?
- Address specific problems.
- Are developers happy with this?
- Track records, does this work?

DISCUSS & PRIORITIZE THE JOINT MEETING AGENDA:

After discussion of the various items the following were suggested for the Joint Meeting of the Planning Commission and the Township Board Meeting to be held on February 19, 1996.

1. Strategic Plan - Logo
2. Trails
3. Ball State University
4. Text Amendments

NEW BUSINESS

DISCUSS WATERFRONT SETBACK ORDINANCE LANGUAGE:

The following hi-lighted sentence was the topic of discussion regarding Section 403 Waterfront Setback.

These provisions do not apply to any nonconforming parcel of land or use on a recorded plant, or described in a deed or land contract executed and delivered prior to the effective date of this Ordinance. (May 1977).

It was suggested that Karen obtain in writing from Mark his interpretation of the sentence in question regarding taking it out of the ordinance and also run this past the Township Attorney.

PLANNING DIRECTOR'S REPORT:

Karen informed the Planning Commission of the following:

- Dallas Peterson returned his Planning Commission packet on Friday. He said his traveling has kept him from too many meetings and he would resign his position. Bill Sanders asked to get his resignation in writing.
- A letter from Township Attorney has been placed on file regarding the DiLoreto case.
- February 24, 1996 Workshop - Planning & Zoning Issues.
- Township Board is looking for an alternate for Library Council Representative.
- Township Board will be advertising for Planning Commission, Library Representative and Ad Hoc Committee for trails.
- The township is taking a wait & see attitude regarding the judge's ruling on the Casino. The Federal government has 60 days to appeal the decision.
- March 1, 1996 is the Court hearing for the Golf Course - the next step would be a fine of \$100 per day.

PUBLIC COMMENT:

Mike La Pointe informed the Planning Commission on some of the issues from the Chocolay Watershed Council.

It was stated that under Informational Items, the Kilmar property on Little Lake Road did have a permit.

It was suggested that Karen contact Pat Farrell at NMU to obtain specifics on a GIS system for the Township.

There was a question on how West Branch Township received a grant to improve their water system. Chocolay should look into this. We still have some residents on bottled water.

INFORMATIONAL ITEMS AND CORRESPONDENCE:

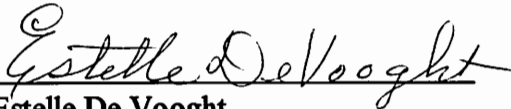

- A. Correspondence to - Chocolay Twp. Board - Chocolay River Access
- B. Correspondence to - Carl Lindquist - Chocolay River Access
- C. Correspondence from - Larry Gould - memo to Board
- D. Correspondence from - Ann Joyal, Seaborg Center - Chocolay Water Supply
- E. Correspondence from - Co. Health Dept. - Kilmar permit
- F. Troubleshooting your Zoning Ordinance - Workshop handout
- G. Memo from Mark Maki - Zoning Report
- H. Michigan Development Strategies Conference

ADJOURNMENT:

Mike La Pointe moved, Bill Sanders supported that the Planning Commission meeting be adjourned.

MOTION CARRIED 5-0.

The Planning Commission Meeting was adjourned at 10:15 p.m.

 Estelle De Vooght
 Planning Commission Secretary

 Jeanette R. Collick
 Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
JOINT MEETING - CHARTER TOWNSHIP OF CHOCOLAY BOARD
FEBRUARY 19, 1996**

PRESENT: Bill Sanders (Chairperson), Steve Kinnunen, Estelle De Vooght, Mike La Pointe, Scott Emerson and Max Engle (Board Representative).

ABSENT: None

STAFF PRESENT: Karen Chandler, Director of Planning & Research

OTHERS PRESENT: Jeanette R. Collick - Recording Secretary

Bill Sanders called the Planning Commission Meeting to order at 7:30 p.m.

Ivan Fende, Township Supervisor called the Board meeting to order.

Ivan Fende opened the Public Comment section of the joint meeting. He informed the public they could make comments on the agenda items after discussion unless they wanted to make comment at this time. Unlike regular Board meetings where comment can be reserved for agenda items, the nature of the joint meeting was for the Planning Commission and the Township Board to discuss items of common concern. There was no public comment at this time.

HEIGHT AMENDMENT:

Planning Commission stated that the language for height amendment has gone back and forth a few times. Planning Commission would like to know specifically what the Township Board wants regarding this language. Planning Commission has obtained information from the Fire Department on what information they needed and both have been satisfied with the outcome. Planning Commission would like the Board to take action on the Height Amendment language.

Township Board passed along information to the Planning Commission members regarding the use of average from the dictionary and provided other usages.

Planning Commission stated that there have been too many variance requests to the Zoning Board of Appeals. This definition as presented to the Board would probably eliminate 99% of the variances for height.

Planning Commission - most ordinances in the U.P. use the word average.

Fire Department - The Fire Department has a 14' roof ladder and a 35' extension ladder. Can't get much over a 25' angle. There are some potential problems.

Planning Commission - suggested using average height not to exceed 30'.

Township Board - appearance of separate structure relates to the principal structure.

Township Board - Main concern with the height is of the separate structure in how it would relate according to the neighborhood. Not offensive to neighbors or out of character with the neighborhood.

Township Board - Present day - 14' height is not high enough.

Planning Commission - Zoning Board of Appeals granted some variances as long as it wasn't out of character with the neighborhood.

Township Board - this may not solve all of the problems, but it would probably solve some of them.

Planning Commission - concern was if the maximum height would go more than 30 feet, the space may be used for living space.

Township Board - a maximum height should be picked for height of surrounding buildings.

Planning Commission - maximum height for the Fire Department to perform their duties should be not to exceed 25'.

Fire Department - Maximum height of 30' could be used and confident that maximum height not to exceed 30' would work.

Zoning Administrator - Maximum height would solve the majority problems of variances for the Zoning Board of Appeals.

Zoning Administrator - 30' height limit is the common maximum height with other ordinances.

Planning Commission - It seems that the main problem with the height amendment that there is no maximum height for the surround structures.

Planning Commission - there is a track record that the word average works in other ordinances, but an additional sentence onto the proposed language of maximum height could work.

Planning Commission asked for the Board's support for the proposed language as suggested with a height not to exceed thirty feet.

The height amendment portion of the joint meeting was closed.

ONE PRINCIPAL USE - SECTION 106:

The following language was read regarding Section 106 - One Principal Use:

In all Districts, no more than one (1) principal use or main building shall be placed on a lot, except for groups of related industrial or commercial buildings, or multiple family dwelling contained within a single, integrated complex, sharing parking, access, and other similar site features.

Township Board - see more benefits in the above proposed language.

Planning Commission - supports this suggested language and would like to see this included in our ordinance.

Township Board - Similar to a PUD regarding green areas and architectural designs.

Planning Commissioner - PUD is limited to 2 acres and that a PUD would rule out some of the smaller businesses.

Township Board - propose this language with a Site Plan Review and as a Conditional Use.

Planning Commission and Township Board agreed that this suggested definition would be moving in the correct direction.

SEMI- TRAILERS AND OUTDOOR STORAGE:

Township Board - okay for temporary storage as long as there isn't a large amount of semi-trailers in the township and are not creating a nuisance.

Planning Commission - agrees with the Zoning Administrator for flexibility.

Township Board - Memo dated October 19, 1994 - last sentence "This will prevent the possibility of the use of semi-trailers for cheap storage along the U.S. 41 highway frontage which I don't believe adds to the business appearance." This sentence should be omitted if the memo is used to set conditional use criteria.

Planning Commission - Depending on the parking of the trailer and not becoming a part of a sign.

Planning Commission - Suggested this be treated as a Conditional Use on a case by case basis.

Township Board - Not to be used as an alternative to outdoor storage.

Township Board - Conditional Use you could put limits.

Township Board - supports as a Conditional Use.

STRATEGIC PLAN:

Logo:

Planning Commission - Possibly a contest could be held to develop a symbol representing Chocloy Township with an identifying community spirit.

We could possibly coincide this activity with the Police Department. This process could be combined with unifying the township.

Planning Commission - the Police Department logo didn't entail community involvement. Need broader involvement of the whole township.

Township Board - The way the Police Department patch was designed it wouldn't do it justice in black and white.

Planning Commission - Contests would get community spirit and involvement.

Township Board inquired as to how long would it take to select a logo. It would probably take about two to three months. Possibly by June.

Township Board - This would delay the Police Department. Board may want to go separately for a Police Department Patch.

Planning Commission - gave examples of the Chocloy Watershed Council. There has been a great amount of work and hours in putting the Strategic Plan together. One of the top priorities in the Strategic Plan was more community involvement.

It was suggested that we use Northern as guidance and suggested that the Township Board advertise for logos within the community.

COMMUNITY'S CHARRETTE PROGRAM - BALL STATE UNIVERSITY:

Planning Commission - In the Strategic Plan the vision is "Where do we want to be in the future?"

Ball State would send a team to stay with residents in the Township and they would provide a graphic of our township vision as written in the Strategic Plan.

They can define, develop standards, landscape ordinance and a hub concept. And put it in a visual image for the future.

Township Board inquired as to the cost and where the money would come from if this was to be considered?

Planning Commission said the cost would be \$6,000 to \$10,000 and there was a grant from Wal-Mart that could possibly be used for this project.

Township Board - inquired as to how many communities have been involved in this process.

The Director of Planning & Research will inquire on how many communities have done a charrette and would like to see a project that this has been done and contact some of the customers where this has been done. Township Board wanted specific contacts.

Planning Commission - doesn't want to see this go by the way side.

TRAIL DEVELOPMENT MULTI USE TRAILS:

Planning Commission - trails are a big element in the Strategic Plan.

Planning Commission has done some preliminary work with the North Country Trails. There is a general interest in the community.

Planning Commission - there are grants available. Some of the interests regarding the trails in the Township were:

- 1) Trail to connect the two grade schools in the Township.
- 2) Bike Paths
- 3) Explore easements from the property owners.
- 4) Township abatements for easements from property owners.
- 5) Safety and Community interest
- 6) Hiking Paths.
- 7) Motorized in winter and hiking in summer.

Community at Large is interested in the above.

Township Board - Police Department should be drawn into this also - for seasonal restrictions, etc.

Township Board - concern for liability. Will have to obtain information on the state level regarding information on insurance, etc.

Planning Commission - There are a couple of subdivisions in the township that have granted easements for bikes and hikers.

Planning Commission - Township to advertise for Ad Hoc Committee to develop trails.

COMMERCIAL ACCESS CONTROL:

Township Board - Township is trying to get businesses to connect together. Example of Snyders, Holiday, M 28 was given.

Planning Commission - future access control off the four lanes in Harvey.

Businesses have to get involved.

Planning Commission commented to get community involvement may take a lot of dollars, but we need to get a structure going for the future.

PUBLIC COMMENT:

Bill Sanders opened the Public Comment Section of the joint meeting.

Steve Blondeau - Text amendment - will go to a future Planning Commission to give input on this.

Pete La Rue - Close to the highway for an access road. Ivan Fende stated the township would have to obtain information with the proper agencies.

Gary Menhennick - Strategic Plan - Communication with business and CABA. The Public Hearing was the same date and time as the annual CABA meeting.

Township Board - A Township representative went to the CABA meeting following the annual meeting and explained the Strategic Plan.

Gary Menhennick - Developers may need flexibility.

Township Board - Township has designated representatives to attend CABA meetings for communication and input to share concern and ideas and obtaining feed back from each other. This has to be a two-way communication.

Planning Commission - development standards cannot happen without CABA support. Focus groups must work together. It is very important for involvement to move forward. Ordinances should reflect what businesses and community want.

Le Roy Blondeau - snowmobile insurance liability. Ivan addressed that the township would have to address the proper state and federal agencies as to the extent of the liability for insurance for snowmobilers use of private property.

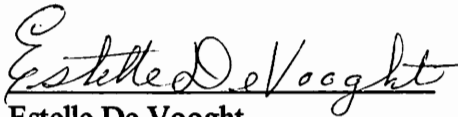

There being no further Public Comment Bill Sanders closed the public comment section of the joint Planning Commission meeting.

ADJOURNMENT:

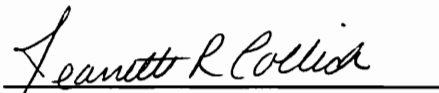

Steve Kinnunen moved, Scott Emerson supported that the joint meeting of the Planning Commission and Township Board be adjourned

MOTION CARRIED: 6-0

The joint meeting was adjourned at 9:10 p.m.

Estelle De Vooght
Planning Commission Secretary

Jeanette R. Collick
Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
WEDNESDAY, MARCH 27, 1996**

PRESENT: Estelle De Vooght, Mike La Pointe, Scott Emerson, Max Engle, Bill Sanders (arrived at 7:55 p.m.)

ABSENT: Steve Kinnunen (out of town)

STAFF PRESENT: Karen Chandler - Director of Planning & Research

OTHERS PRESENT: Jeanette R. Collick-Recording Secretary, Dale Stephenson, Jon Wennerberg

PUBLIC HEARING:

Mike La Pointe, Vice-Chairperson, called the Public Hearing (rescheduled from March 11, 1996) to order at 7:42 p.m.

CONDITIONAL USE PERMIT #36:

Karen presented an overlay regarding the property and site plan. The applicant, Star Industries, has requested that the Chocolay Township Planning Commission consider granting a conditional use permit to allow a warehouse, storage, transfer station and processing of recyclables for re-use on the property. The property is located behind the Varvil Center on Industrial Drive.

Presently there are three large pines on the property and Jon Wennerberg said he plans to preserve these trees.

Mike La Pointe inquired if there were any public comment concerning Conditional Use Permit #36?

Karen informed the Planning Commission that a letter from Mr. Sherbinow was received. He had no objections to the conditional use. She also received two calls, both inquiring where our recycling center was going in so they could start bringing their recyclables in and she informed them that this was not a commercial enterprise for disposal of recyclables and that Mr. Wennerberg was doing all his own hauling. Another call was a competitor from Gwinn and wanted to know what kind of recycling he was doing. She explained what it was and they were satisfied also.

There were no further public comments regarding Conditional Use Permit #36.

There being no further Public Hearings, Mike La Pointe closed the public hearing section of the Planning Commission Meeting.

REGULAR MEETING CALLED TO ORDER:

Mike La Pointe, Vice-Chairperson called the Regular Meeting to order at 7:50 p.m.

ROLL CALL:

Roll call was taken with Estelle De Vooght, Mike La Pointe, Scott Emerson, and Max Engle present. Bill Sanders (arrived at 7:55 p.m.)

ABSENT: Steve Kinnunen (out of town).

Karen informed the Planning Commission that Bob Whitaker was appointed at the last Township Board Meeting for the Planning Commission.

APPROVAL OF MINUTES OF FEBRUARY 12, 1996 & FEBRUARY 19, 1996:

Scott Emerson moved, Max Engle supported that the minutes dated February 12, 1996 and February 19, 1996 be approved as presented.

MOTION CARRIED: 4-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Mike La Pointe inquired if there were any additions or changes in the agenda? It was suggested that New Business (A) being moved up on the agenda before Old Business.

Scott Emerson moved, Estelle DeVooght supported that the agenda be approved as changed.

MOTION CARRIED: 4-0.

PUBLIC COMMENT:

Mike La Pointe inquired if there were any Public Comment.

Mark Maki commented to the Planning Commission on the Height Amendment and Section 106 Amendment. He commented that at the last meeting of the Township Board there seemed to be an agreement on behalf of the Board that they would find the language proposed, acceptable. Regarding height Amendment - take the existing height amendment as it was written and add that no principal structure could go over 30'. That would not be conclusive to farms, agricultural zones, etc. This language is what the Township Board and the Fire Department were comfortable with because they do not want to get buildings too high. The only buildings in the Township that is over 30' are the Togo building and also Benson House on M-28. Section 106 as put as a conditional use would probably work. He urged the Planning Commission to move on with this proposed language.

Mike La Pointe inquired if there were any other public comment. There were none. The first Public Comment Section of the Planning Commission was closed.

NEW BUSINESS:**CONSIDER CONDITIONAL USE PERMIT #36:**

The following questions and comments were asked and made regarding Conditional Use Permit #36:

- Is this property in a C-3 Zoning District? Yes.
- How are oil filters dealt with? They are crushed, picked up, and put in 55-gallon drums. State and Federal requirements are followed. Will there be a barrier between the sand and the bottom of the barrel. These are not stored outside.
- It was suggested that under conditions number two, the word "hazardous" be changed too combustible.
- A floor plan is already required from all businesses in the Township. This is to be submitted to the Fire Chief along with the Firefighter's Right to Know survey.

Bill Sanders arrived.

- Star Industries will not pick up any boxes of medical waste that are opened nor properly sealed. He disposes medical waste from various medical businesses throughout the U.P. He has had no problems with medical waste not being properly disposed of.
- Would there be any future plans to include the Township recycling? It may be feasible in the future. This presently is not a recycling business.
- There are no immediate plans to expand in the future.

Mike La Pointe inquired if there were any further question's and/or comments regarding Conditional Use #36. There were none.

Scott Emerson moved, Bill Sanders supported that the Chocolay Township Planning Commission approves the conditional use permit request to allow a warehouse, storage, transfer station and processing of recyclables for re-use on the following described property

Section 10, T47N R24W

Part of the SW 1/4 of NW 1/4 more fully described as commencing at the quarter corner common to Sections 9 and 10; thence N01°38'04"E, 183.09 feet along the line common to said Sections; thence S83°51'56"E, 353.86 feet to the Point of Beginning on the Southerly right of way line of a 66 foot wide private road easement; thence continuing S83°51'56"E, 255.28 feet along said right of way line; thence S89°11'57"E, 275.68 feet along said right of way; thence N00°02'57"W, 344.97 feet to the centerline of an overhead electric transmission line; thence N80°24'11"W, 525.06 feet along said electric line; thence S01°38'04"W, 401.54 feet to the Point of Beginning. Containing 4.57 acres, and subject to said 66 foot private road easement and the Southerly 10 feet of a 20 foot wide utility easement centered on the Northerly line of said described parcel.

with the following conditions

1. That on the site plan, the use of semi-trailers for medical waste be indicated and the semi-trailer for the shredded paper also be indicated.
2. That in addition to the site plan submitted, an actual floor plan indicating placement of combustible materials be submitted to the Fire Chief along with the Firefighter's Right to Know survey.

- 3. That any expansion of this conditional use permit, as indicated on the application, be brought back to the Planning Commission for review.
- 4. That Zoning Compliance Permit be obtained from the Chocoday Township Zoning Administrator prior to use.
- 5. That the necessary permits as required by Federal, State and Local Agencies be acquired prior to project commencement.

There was a question on use of semi-trailers as storage units. It was commented that the semi trailers are moving out on a regular basis. They are all licensed and should not be confused with the semi-trailer issue currently being discussed.

MOTION CARRIED: 5-0.

Bill Sanders, Chairperson chaired the meeting at 8:05 p.m.

OLD BUSINESS:

Mike La Pointe informed Bill Sanders of the comments that were made by Mark Maki regarding the Height Amendment and Section 106 amendments and stated Mark had no objections to the proposed wording of the amendments.

Karen informed the Planning Commission that the Township Board passed the Sign Ordinance with only one minor correction and that was the use of setback used as two words. We can now put signs on golf courses.

DISCUSS POSSIBLE WORDING FOR THE TEXT AMENDMENTS:

- 1. **HEIGHT:**
After discussion it was suggested that the F be omitted from RR-1 and C-3.

The following motion was made regarding Height Amendment.

Mike La Pointe moved, Bill Sanders supported that the Chocoday Township Planning Commission recommends to the Chocoday Township Board that the following amendment to the Chocoday Township Zoning Ordinance be approved as presented including the Table deleting F from RR-1 and C-3.

REPEALER AND AMENDMENT

That portion of Section 101 of the Charter Township of Chocoday Zoning Ordinance entitled "DEFINITIONS:" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined, and the removal thereto of the language that is in brackets.

SECTION 101 DEFINITIONS: As used in this Ordinance.

[HEIGHT, means the vertical distance from the highest point on a structure, excepting any chimney or antenna on a building, to the average ground level of the grade where the walls or other structural elements intersect the ground.]

HEIGHT, means the vertical distance between the average grade and the highest point of the roof surface for flat roofs, to the deck line of mansard roofs; the average height between the eaves and ridge for gable, hip and gambrel roofs; and the average height between the lowest point and the highest point on a shed roof, excepting any chimney or antenna on a building, providing that no structure shall exceed thirty (30) feet from the highest point on the structure to the average ground level of the grade where the walls or other structural elements intersect the ground unless specifically provided elsewhere in this ordinance.

REPEALER AND AMENDMENT

That portion of SEC. 300 of the Charter Township of Chocoday Zoning Ordinance entitled "HEIGHT AND PLACEMENT REGULATIONS." as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the

addition thereto of the language, which is underlined and the removal thereto of the language that is in brackets.

[SEC.] SECTION 300 HEIGHT AND PLACEMENT REGULATIONS.

- (A) Except as otherwise specifically provided in this Ordinance, no structure shall be erected or maintained between any lot line and the pertinent setback distance listed below and no structure shall be erected or maintained which exceeds the height limit specified below. Where there is no rear lot line as otherwise defined herein, the required rear setback distance shall be measured from a line through the point on the lot most distant from any front lot line of the same lot, which line shall be perpendicular to a line from said point to the closest point on any front lot line. If there is more than one such line, the rear setback shall be maintained from any one of them at the option of the owner. Where a lot fronts on two streets within 30 degrees of being parallel, but not of their intersection, no rear setback is required. The side setback requirement applies to a side lot line and also to any lot line which is neither a front, rear, or side lot line. All distances are measured in feet.

SCHEDULE OF REGULATIONS

<u>District</u>	<u>Front</u>	<u>Side</u>	<u>Rear</u>	<u>Height</u>
R-1	30	10B	35	30 F
R-2	30	10B	25	30 F
R-3	30	10B	25	30 F
R-4	30			30 F
LS/R	30	10B	30	30 F
RR-1	30		30	
RR-2	30			A
C-1*	30	5	20	30 F
C-2*	40	5	20	30 F
C-3*	40	5	20	30
RP	30			A
OS	30			A
PUD	E			
Public Lands	40	20	30	30

<u>District</u>	<u>Minimum Lot Size</u>	<u>Minimum Lot Width C</u>
R-1	25,000 sq. ft. D	125
R-2	25,000 sq. ft. D	125
R-3	25,000 sq. ft.	125
R-4	20 acres**	none
LS/R	25,000 sq. ft.	125
RR-1	2 acres	200
RR-2	5 acres	300
C-1	none	
C-2	none	
C-3	none	
RP	20 acres	none
OS	20 acres	none
PUD	2 acres	200
Public Lands	none	

Footnotes:

- A. Height at any point on a structure shall not exceed the horizontal distance to any lot line.
- B. A detached accessory building not exceeding 14 feet in height and not exceeding 720 square feet may be located within six feet of a side lot line and 20 feet from a rear lot line.

A detached accessory building less than 100 square feet and so located that no portion is located in the front yard setback is exempt from the provisions of this ordinance.

- C. Lot width shall be measured at front setback line.
- D. 18,750 sq. ft. where lot is served by public sewer and/or water supply.
- E. Setbacks and height limits are to be determined as required by the original zoning district. Any modifications are subject to the final approval of the Final Development Plan.
- F. No detached accessory building shall exceed fourteen (14) feet in height nor exceed the exterior perimeter dimensions of the principal structure on the lot.

* See Section 400

** See Section 205 (D) (1)

- (B) In Districts R-1, R-2, R-3, RR-1, RR-2, LS/R, RP, and OS, the minimum lot size and lot width regulations do not apply to any nonconforming parcel of land shown as lot in a recorded plat, or described in a deed or land contract executed and delivered prior to the effective date of this Ordinance.
- (C) There shall be a maximum floor area ratio of 25 percent in District R-3 and 80 percent in Districts C-1, C-2, and C-3.
- (D) There shall be a maximum ground coverage ratio of 30 percent in District R-3 and 40 percent in Districts C-1, C-2, and C-3.
- (E) There shall be a minimum landscaped open space of 30% in District R-3 and 10% in Districts C-1, C-2, and C-3. There shall be a minimum of 2.5% landscaped open space within the front yard setback.

MOTION CARRIED: 5-0.

SECTION 106: (One Principal Use)

Karen inquired if there was a public hearing on Section 106. The Planning Commission informed her that Section 106 was discussed at various times. A Public Hearing needs to be done.

According to the Zoning Ordinance, the Planning Commission doesn't do a site plan review, that is all up to the Zoning Administrator. It was suggested we put in the site plan review by the Planning Commission and the Zoning Administrator when changing Section 106. This would be the similar to the as review for PUD.

The Planning Commission members agreed to add the site plan into the ordinance when changing Section 106.

The following language was suggested for Section 106:

In all Districts, no more than one (1) principal use or main building shall be placed on a lot, except for groups of related industrial or commercial buildings, or multiple family dwellings contained within a single, integrated complex, sharing parking, access, and other similar site features as a conditional use in the R-3, C-1, C-2 and C-3 zoning districts.

It was suggested that the Township Attorney review the language for the Section 106 and also the Site Plan Review language that was in the packet and report back to the Planning Commission.

A public hearing needs to be set for May 1996 Planning Commission Meeting for the Site Plan Review and the language for Section 106.

Karen will draft the Site Plan Review for the Planning Commission for their April meeting to review it and possibly a Public Hearing will be held at the May 1996 Planning Commission Meeting.

Semi-Trailers and Outdoor Storage:

These will be dealt with as a Conditional Use by a case-by-case basis.

There was discussion on the various places that have semi-trailers used as storage.

Language will be worked on and a public hearing to be held, possibly May 1996.

Golf Course Signs:

Karen informed the Planning Commission members that now that the Board has passed the on premise sign amendment, Dan Trotochaud was in and what he has been suggesting to Joe Gibbs is that Joe use the property that is between the railroad tracks and M 28 and trade the property for property along that access road, it would be a continuous piece of property and he could place his sign then on his property.

The Planning Commission members felt that if you started changing this off premise signs you may be asking for trouble. We should wait and see what happens.

The Planning Commission members were informed that the Zoning Administrator has spoken with the State Highway Department regarding signs.

Site Condo:

Karen informed the Planning Commission Members that she had no further information on a site condo, but has spoken with Mr. Tim Hayden, Onota Township Supervisor regarding the Site Condo information that is used in his township. They have had no problems with this ordinance. It was suggested that we may be able to model after Onota Township. Onota Township is an adjoining township to Chocolay Township.

Waterfront Setback:

There was concern, could a residence be rebuilt if the house burned down. Would they fall under being grandfathered in or would they have to meet the 100' setback?

As the ordinance states presently if a house would burn down, the property owner would be non-conforming and would have to go back to the Zoning Board of Appeals for a variance.

The Planning Commission suggested that a letter be sent to Carl Lindquist and West Branch Township from Bill Sanders stating that we did discuss the setback about a year ago and we have a 100' setback.

NEW BUSINESS:

DISCUSS 1995 PLANNING COMMISSION ANNUAL REPORT:

There was a question regarding the \$4,200 for meeting compensation. Karen informed them that the meeting compensation is standard and noted that only 55% of the budgeted amount was used.

It was also inquired if there were monies left over in the Planning Commission budget could these monies be used to purchase items the Planning Commission would like to purchase. Karen informed the Planning Commission that she would come back to the Planning Commission in October with a balance that would be left in the Planning Commission budget and may be able to expend for books, etc.

The Planning Commission would like to see monies that may be left be contributed to the Ball State Charrette project.

Estelle questioned had Karen heard anything regarding the Ad Hoc Committee or the Logo Contest. Karen informed the Planning Commission that she received one call for the logo contest and six or seven people for the trail committee.

She also informed them that there will be a paid advertisement in the Mining Journal regarding these. She also informed them that Mark Maki volunteered to be on the trail's committee.

Scott Emerson informed her that he would be willing to come to the first meeting of the trail committee, but due to his schedule wouldn't be able to commit any further.

Bill Sanders will sign the copy of the 1995 Planning Commission Annual Report and forward to Ivan Fende, Township Supervisor.

DISCUSS KENNEL MEMO FROM MARK MAKI:

There was a memo dated March 6, 1996 from Mark Maki regarding kennels. He has received complaints from residents on North Big Creek.

After discussion on the memo, the Planning Commission agreed that the township has a kennel designation and it is working well and to leave as it is. They do not perceive it as a problem.

DISCUSS POLICY ON SEASONAL ROADS FROM MCRC:

After discussion on the literature received from the Marquette County Road Commission that was in the agenda packet, if a road was designated a seasonal road and became year round access, the Township would have to pick up a 50% of upgrading the road or portion of the road petitioned to be removed from the seasonal road system.

The Planning Commission agreed to have the road remain a seasonal road.

PLANNING DIRECTOR'S REPORT:

1. GIS System with NMU - no new developments on the grants for this project with the Chocoley Watershed.
2. Youth & Family meetings - Linda Rossberg has conducted three meetings here at the Township. Our next meeting will be Tuesday, April 2, 1996.
3. Golf Course Signs on Premises - Board has moved to publish and adopt.
4. Ad Hoc Committee for trails has been advertised once and I have been asked to advertise it again with the Logo Contest.
5. I have received a list of four communities, from Rita Hodgins, that have been involved with the Charrette's. I will be making contact within the next week.
6. I have picked up the Land Use video and the handbook. Both are available for your review.
7. Rita Hodgins and I met with the Lion's Club on Wednesday, March 6. I presented the Strategic Plan. I mentioned the Township Board has approved the logo contest and the Ad Hoc Committee for Trails. Rita talked about the community charrette. We received some good feedback from those present and met with them for about 45 minutes.
8. There may be a need to hold a special Planning Commission Meeting regarding Blondeau & Son's. We are looking at April 22, 1996 for the Special Planning Commission Meeting to be held for this purpose, if they come into the office with a request for a conditional use or PUD.

PUBLIC COMMENT:

The Planning Commission Members were informed that the Downs Golf Course has received another extension to get the monitoring wells in. The date of the extension for the monitoring wells to be put in is May 1, 1996.

The Planning Commission requested that this be the last extension granted.

Scott Emerson suggested that a letter be written to the Township Board supporting the D.P.W. Supervisor's recommendation that Chocoley Residents have an option regarding the tag issue versus a bin and pay a set fee for the use of the bin. The Planning Commission was in agreement for support to the Township Board that the Township give the residents' the option of leasing bins or purchasing garbage bag tags.

INFORMATIONAL ITEMS AND CORRESPONDENCE:

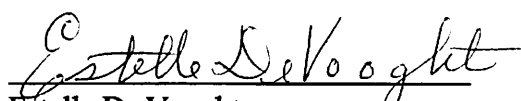

- A. Correspondence to - Chocoley Township Board - Recreation Plan Review
- B. Correspondence to - Steve Dupras - trail development
- C. Correspondence to - Dallas Peterson - thank you
- D. Correspondence from - MCSWMA - 1995 Annual Report

ADJOURNMENT:

Scott Emerson moved, Mike La Pointe supported that the Planning Commission meeting be adjourned.

MOTION CARRIED 5-0.

The Planning Commission meeting was adjourned at 9:50 p.m.

 Estelle De Vooght
 Planning Commission Secretary

 Jeanette R. Collick
 Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, APRIL 8, 1996**

PRESENT: Bill Sanders, Estelle De Vooght, Mike La Pointe, Max Engle, Bob Whitaker, Steve Kinnunen, Scott Emerson (arrived at 7:55 p.m.)

STAFF PRESENT: Karen Chandler - Director of Planning & Research

OTHERS PRESENT: Jeanette R. Collick-Recording Secretary, Dale Stephenson, Cathy De Vooght, Judy Smith

PUBLIC HEARING:

Bill Sanders, Chairperson, called the Public Hearing to order at 7:35 p.m.

Bill Sanders welcomed new Planning Commission Member, Bob Whitaker.

REZONING #81 BED & BREAKFAST:

Judy Smith - 2441 M 28 E - She made an inquiry in September of 1995 to Karen that she would like to open a Bed & Breakfast. The property is 7 miles down M-28 on the lake side of the highway. The property has been in the family since 1922. She informed the Planning Commission of the history of the property. The property is about 900' off the highway. The house is in a quiet area and can't be seen off the highway. She presented photographs of the house and property to the Planning Commission.

Cathy De Vooght - 6341 U S 41 S - informed the Planning Commission of the letter that was in their packet from her dated April 4, 1996. She noted that two words in her letter needed correction. In the first paragraph the word formally be changed too formerly and the second paragraph the word sight be changed to site. She requested that the letter presented in the Planing Commission packet be read aloud into the record.

Gerald Vashaw - 500 Baraga #3- (Brother of Judy Smith) and adjacent property owner stated he was in favor of the Bed & Breakfast.

Bill Sanders read the letter that was presented in the Planning Commission packet from Cathy De Vooght dated April 4, 1996 into the record.

April 4, 1996

Chocolay Township Board and Chocolay Township Planning Commission
Chocolay Township Hall
Marquette, Michigan

Re: Rezoning Request #81 PUBLIC HEARING RECORD
Bed and Breakfast Inns, Commercial Zones Only????

Dear Chocolay Township Board and Chocolay Township planning Commission

Across the country, Bed and Breakfast Inns are more often dotted in residential neighborhoods and rural areas than commercial zones. Why? Because they've almost always formally been someone private home, or an abandoned lighthouse, or barn, or etc. They are places that offer tranquility, beauty, interesting history, lovely vistas, or some other attribute. They are nothing like hotels and motels on e typically finds in commercial zones.

The new Bed and Breakfast Inn in Harvey, The Bayou Place, used to be someone home, though, for years, it's been zoned commercial. That commercial zoning isn't what makes it a sensible sight for a Bed and Breakfast. It's the lovely old house that's situated beside a quiet bayou, along with the general charm of the place that does that.

Kim and Chet Taylor aren't stupid people. They didn't turn their commercially zoned carlot with it's cement parking areas, into a Bed and Breakfast. They turned their lovely old house into a wonderful Bed and Breakfast.

To make room for Bed and Breakfast Inns in commercial zones only, while excluding residential and rural areas in ridiculous. Commercial zones are generally too noisy, busy and completely opposite of what Bed and Breakfast Inns represent.

I am very opposed to rezoning request #81 as applied for because it doesn't make wise planning sense. In fact, if it were to be adopted a is, it would only cause future problems for the Township, mainly discrimination issues. Bed and Breakfast Inns should be allowed in all zoning districts, not just commercial ones.

To permit Bed and Breakfast places in commercial zones only creates unfair monopoly. Last I heard, monopolies like that are illegal.

Whatever you decide to do, you will have had plenty of food for thought before you act.

Sincerely,
Cathy DeVooght

cc: Marquette County Planning Commission

Bill Sanders inquired if there were any further public comment regarding Rezoning #81 Bed & Breakfast?

There were no further public comments regarding Rezoning #81.

There being no further Public Hearings, Bill Sanders closed the public hearing section of the Planning Commission Meeting.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting to order at 7:40 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Estelle De Vooght, Mike La Pointe, Max Engle, Steve Kinnunen and Bob Whitaker present. Scott Emerson (arrived at 7:55 p.m.)

APPROVAL OF MINUTES OF:

Max Engle moved, Estelle De Vooght supported that the minutes dated March 27, 1996 be approved as presented.

MOTION CARRIED: 6-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders inquired if there were any additions or changes in the agenda? It was suggested that New Business (A) be moved up on the agenda before Old Business.

Max Engle moved, Bill Sanders supported that the agenda be approved as changed.

MOTION CARRIED: 6-0.

PUBLIC COMMENT:

Bill Sanders inquired if there were any Public Comment.

Mark Maki commented on the March 27, 1996 Planning Commission Meeting Minutes.

Concerning page 7, Section 106. Site Plan Review for all Conditional Uses. This language should also be considered for all Zoning Districts.

Concerning page 8, Waterfront Setback. The sentence reads As the ordinance states presently if a house would burn down, the property owner would be nonconforming and would have to go back to the Zoning Board of Appeals for a variance.

They are exempt from the 100' setback.

Mark Maki commented to the Planning Commission and urged the Planning Commission to move on with this proposed language.

Bill Sanders inquired if there were any other public comments. There were none. The first Public Comment Section of the Planning Commission was closed.

NEW BUSINESS:**CONSIDER REZONING #81 BED & BREAKFAST:**

Only Section 209, 210 & 211 were advertised to indicate Bed & Breakfast.

If we accept other district as indicated in Staff report we will need to advertise again.

C-1, C-2, C-3 doesn't make sense. RP conditional use for resorts requires a 20-acre parcel.

Dog Kennels are more disturbing and are treated as principal uses.

Generally people are not building new buildings for Bed & Breakfast.

Scott Emerson arrived at the Planning Commission Meeting at 7:55p.m.

Sarah Russell - 2441 M 28 East - commented on the commercial/residential area Bed & Breakfast.

It was commented that Bed & Breakfasts are considered more of a business than a residence.

Home occupation only has one person working.

According to the Strategic Plan residents want to keep their neighborhoods quiet.

Cathy De Vooght - 6341 U S 41 South - Zoning Ordinance is a living document, not a covenant.

Gerald Vashaw - The Bed & Breakfast that is being proposed is family oriented.

There was a question on the Bed & Breakfast in Sands Township. Karen stated the Bed & Breakfast in Sands is located next to her. The Bed & Breakfast is no problem. There is increased traffic in a neighborhood with teenagers and not necessarily with a Bed & Breakfast. She also stated Sands rewrote their Zoning Ordinance and Bed & Breakfast is not included in the R-1 districts.

It was stated that as a conditional use, we could put conditions on this.

Usually in a Bed & Breakfast people stay the night, eat and are usually gone.

Judy commented that she discussed the opening on a Bed & Breakfast in September, but due to the proposed language of a Bed & Breakfast that she put off opening the Bed & Breakfast until the language was passed. She questioned why it wasn't advertised to include the zoning district she was in.

After the questions and comments the following was decided.

Max Engle moved, Bob Whitaker supported that the Bed & Breakfasts be tabled and readvertised and that a Public Hearing be held to include all zoning districts.

MOTION CARRIED: 6-1.

Karen stated that Bed & Breakfasts need to be readvertised in areas as a conditional use on a case by case basis. It will take about two weeks to readvertise.

Judy Smith stated she would be willing to wait.

It was decided that this be done for the next regular scheduled Planning Commission, which will be May 13, 1996.

OLD BUSINESS:**DISCUSS POSSIBLE WORDING FOR TEXT AMENDMENTS:**

SECTION 106 - It was noted that there was a public hearing for Section 106 in April 1992.

Max Engle moved, Bill Sanders supported that Section 106 language as presented in the Planning Commission packet for March be returned to the Township Board for approval.

MOTION CARRIED: 7-0.

SEMI TRAILERS AND OUTDOOR STORAGE:

It was noted that the language presented in the March Planning Commission packet regarding the Semi trailers and outdoor storage is published for a public hearing for the May 13, 1996 meeting.

SITE CONDO - It was noted that language pertaining to the Site Condo will be available for discussion at the May 13, 1996 Planning Commission Meeting.

PLANNING DIRECTOR'S REPORT:

Karen informed the Planning Commission of the upcoming MSPO workshop on Site Plan Review to be held May 9, 1996. If anyone interested, please contact her.

June 10, 1996 Planning Commission Meeting is scheduled to be held the same day of the School Election. It was suggested that since the school election is going to be held at the Township Hall Meeting room that we see if we could hold the June Planning Commission Meeting either at Silver Creek or Cherry Creek School. Karen will make contacts with the principals of the two schools and inform the Planning Commission at their May meeting.

Karen informed the Planning Commission that Steve Blondeau, Dave St. Onge, Ivan Fende, Mark Maki, Larry Gould, Greg Zyburt and she met and went over various options and suggestions in a pre-conference meeting, for a PUD request at the L. Blondeau & Sons Trucking, Inc. property.

Karen informed the Planning Commission that the township will be getting the Township Attorney's opinion next week. The Planning Commission members requested that they receive information regarding the Special Planning Commission meeting for April 22 as early as possible.

The Planning Commission was also informed that Dave St. Onge of TriMedia Consultants gave a presentation on the contamination situation at L. Blondeau & Sons Trucking, Inc at the Township Board meeting on April 1.

Planning Commission members thanked Mark for the memo and information.

PUBLIC COMMENT:

It was inquired on how the meetings on the trails were going. It was suggested that a letter be written to Gene Elzinga regarding the trails.

Bob Whitaker gave the Planning Commission a brief history of himself.

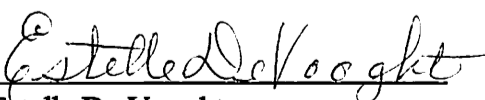

Karen brought the Planning Commission up-to-date on the Downs Golf Course.

INFORMATIONAL ITEMS AND CORRESPONDENCE:

- A. Correspondence to - Robert P. Whitaker - appointment to Planning Commission.
- B. Correspondence to - Lawrence E. Coehoorn - thank you for application.
- C. Correspondence to - Thomas D. Budgick- thank you for application.
- D. Correspondence to - Dr. Kendall Tabor - thank you for application.
- E. Correspondence to - Robert Weisenberger - thank you for application.
- F. Correspondence from - MWEA - Watershed Management Conference.
- G. Correspondence from - Mark Maki - memo to Steve Blondeau.

ADJOURNMENT:

There being no further business, the Planning Commission meeting was adjourned at 9:55 p.m.

 Estelle De Vooght
 Planning Commission Secretary

 Jeanette R. Collick
 Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, APRIL 22, 1996**

PRESENT: Bill Sanders, Mike La Pointe, Estelle De Vooght, Bob Whitaker, Scott Emerson (arrived at 7:40 p.m.), Max Engle (arrived at 8:50 p.m.)

ABSENT: Steve Kinnunen (out of town)

STAFF PRESENT: Karen Chandler - Director of Planning & Research, Mark Maki - Zoning Administrator

OTHERS PRESENT: Jeanette R. Collick-Recording Secretary, Dave St. Onge, Steve Blondeau, Joe Morgan, Eleanor Morgan, Matthew Williams, Lee Blondeau, David Blondeau, Jim La Cosse, Sharon La Cosse, Margaret Meiss.

PUBLIC HEARING:

Bill Sanders, Chairperson called the Public Hearing to order at 7:35 p.m. He explained the process of the public hearing. He noted there were two items for the public hearing, which were (1) Rezoning #82 C-2 to C-3 and (2) Rezoning #83 C-2 to PUD.

Karen informed the Planning Commission the applicant on this request is L. Blondeau Trucking Company and asked Dave St. Onge, Consultant for Blondeau's to make his presentation.

Dave St. Onge stated that his comments and presentations will be for both items. Bill Sanders asked Dave to hold his presentation until after public comment.

Mark Maki - Chocolay Township Zoning Administrator commented on the several key points to the rezonings and that would apply for both of the rezoning requests, which were

1. **Procedural Issues (Township Attorney's Correspondence).**

Problems with the procedural application are: (1) pre-application conference process, in his opinion, was not followed. (2) Submit written & graphic requirements. The applicant has not met these requirements.

2. **Eligibility Requirements:** Mark advised the applicant that they do not meet the requirements for the PUD.

3. **Substance Request.** He gave the history of this parcel. He commented that it is his contention and has been his contention for the last ten years that rezoning this property to an industrial purpose surrounded by commercial retail and residential will constitute spot zoning. The Comprehensive Plan is a guide that the Planning Commission is supposed to use in making those decisions. He gave examples of duplexes in Harvey and the Planning Commission recommended denial of that because it would be spot zoning. He also gave the example of a denial of a warehouse in Beaver Grove because it would be spot zoning.

4. **This is not a new issue.** In 1986 The Township Planning Commission recommended denial because it was spot zoning. Marquette County Planning Commission commented that the rezoning of this property would basically ruin the integrity of the commercial retail business. The Zoning Board of Appeals denied expansion in 1986 and 1988.

5. **In January 1987 the Chocolay Township Board also denied the zoning request based on their interpretation of spot zoning.** Mark read various motions from the Township Board minutes.

6. **Environmental Issue - Basically from the DNR's position, regardless of any decision made regarding the rezoning of the L. Blondeau Trucking, they are required to submit plans to alleviate the contamination in this area.** If the contamination has reached a point that the building has to be removed, as Mark stated in one of his reports in the pre-application process that it would be an opportune time to bring the property into conforming land use,

as has been the Township Comprehensive plan for the last 20 years.

7. There have been a number of nuisance factors that have been identified over the years respective to the property, for example the double tandem trucks accessing off U.S. 41 is not a good access situation. There are also noise activities, diesel fuel, fumes, etc. that do not make that land use compatible with the adjoining area.
8. PUD - the purpose of a Planned Unit Development (PUD) is to create an innovative land use for a variety of building types, etc., preserving natural settings in open space. Mark used the condominiums as an example.

Pertaining to this request, this is not a PUD. The site is clear, there is no natural setting, asphalt is in place, no open space, doesn't meet the intent of a PUD.
9. If rezoned, he has no doubt that there will be future expansion, as the expansion has been continual since 1983. The proposed building is larger than the existing building.
10. The overall development plans of the township have been too not rezone this property. The township has rejected the rezoning in the past.
11. The applicant has the option of going to the Zoning Board of Appeals without rezoning the parcel, but would be restricted to expansion on Parcel B only.

Joe Morgan - 111 E. Wright Place: He has lived across from Le Roy Blondeau since 1942. The building was just a garage. The only time they were bothered was at 5:00 a.m. and was when they backed the trailer to get items off or on the trailer. Noise doesn't bother them at all.

Milwaukee/Northwestern Railroad trains make more noise and goes through 4 - 5 times daily.

Feels they need a new garage to drive the vehicles in and out of. No complaints. Benefit employment in the area.

Jim La Cosse - 116 W. Wright Place: He has lived there for about 5 years. His son lives there presently. He has no problem with noise or dust. A fence is next to the garage.

Joe Morgan: stated that Mrs. Blondeau at one time told him not to call the garage if the noise was a nuisance to him, but to call her personally.

Sharon La Cosse - 116 W. Wright Place: No problem with rezoning the property.

Joe Morgan: commented on the road - the Road Commission left the road as it was on the old map.

Eleanor Morgan - 111 E. Wright Place: No complaints. Very nice people.

Bill Sanders inquired if there were any further comment regarding the public hearing issues?

He reminded the public and Planning Commission present that all the comments received would pertain to both rezonings #82 and 83.

Karen informed the Planning Commission that when the notices went out both rezonings were advertised at the same time and were not sent out separately.

Bill Sanders read a letter from Kim Amon, 158 E. Wright Place into the record. Kim Amon was against the rezoning because of the dust, fumes and noise. This letter was placed in the rezoning # 82 file.

Margaret Meiss - 105 W. Wright Place: She is a 20-year resident of Chocolay Township. Can't go out of her house before 11:00 a.m. because of the diesel fumes, dust, etc. Trucking garage shouldn't be in a residential area. She also stated that the Board wonders why people don't attend township meetings. Some of the people feel they are just banging their heads against the

wall and aren't being heard.

Feels the trucking garage should be in another area. Blondeau's do have other land that would be able to be used for the trucking business. As far as having to tear down the garage to clean up the pollution, it is just an excuse to build a new bigger garage and expand more on the number of vehicles.

They also bought U.P. Moving and Storage on land contract. They used that property to obtain access onto the highway. It will be just a matter of time that they will be parking vehicles there. Last fall they did.

Bill Sanders inquired if there were any more comment for the public hearing? There were none. He closed the public hearing regarding rezoning 82 and 83.

SPECIAL MEETING CALLED TO ORDER:

Bill Sanders called the Special Planning Commission Meeting to order at 8:05 p.m.

ROLL CALL:

PRESENT: Bill Sanders, Mike La Pointe, Estelle De Vooght, Bob Whitaker, Scott Emerson (arrived at 7:40 p.m.), Max Engle (arrived at 8:50 p.m.)

ABSENT: Steve Kinnunen (Out of Town)

PUBLIC COMMENT:

Bill Sanders inquired if there were any Public Comment. There were none. He closed the first public comment session of the Special Planning Commission Meeting.

OLD BUSINESS:

This being a special meeting, there was no Old Business.

NEW BUSINESS:

CONSIDER REZONING #82 - C-2 TO C-3:

Bill Sanders reminded the Planning Commission and people present that the comments received during the public hearing are pertaining to both the #82 and #83 rezoning requests. Each will be decided upon separately.

Dave St. Onge, Consultant for L. Blondeau Trucking made a presentation.

He commented that Chocolay Township has an opportunity to deal with the ground water contamination and to obtain a very quick resolution.

The underground tank was removed in December 1994.

He explained the contamination process regarding (1) soil, (2) free product and (3) groundwater impact.

A monitoring system has been constructed on the property and has been operating for the past 12 months. There are about 650 cubic yards of impacted soil under the existing garage.

There are various options that could be done for the contamination, which are:

1. Don't do anything.
2. Take down existing garage and treat soil.
3. Combination -soil wash and soil treatment.

The following questions and comments were received:

- Concentration is very high.
- Tank was next to building.
- Approximately 11,000 gallons of free product has been recovered to date.

- Small diesel contaminant in the ground water table.
- DEQ -not waiting, contaminant soil has to be cleaned up.
- Is there a potential for a run-off? Yes there is always a potential.
- Yes the trucking company wants to clean it up.
- Dual stage cleanup - will be a central collection point.
- Impact ground water and free product.
- Not causing groundwater to get worse. Will continue with a monitoring system.
- How long will this take to be cleaned up, if building remains as is? Depends on how the groundwater table fluctuates. Possibly 5-20 years. If the building is torn down, can remove contaminated soil faster.

Mr. St. Onge presented a demonstration of the proposed garage on Parcels A, B, & C.

- Remove portions of building to get to soil impact.
- Proposed new building 80' x 100'. Existing building is 70' x 100'.
- If new building - vehicle maintenance will be more effective and will eliminate the number of times the vehicles have to be in and out of the garage.
- Not proposing additional use.
- Small office and clean up area for employees. Will be hooked up to the Township sewer.
- Use and operation of hours will remain the same.
- Had a pre-conference meeting with the Township Supervisor, Director of Planning & Research, Zoning Administrator, D.P.W. Supervisor, Police Chief and Township Attorney.
- Both applications provide same use of property.
- Concerning the lack of written documentation, feels they are providing all the documentation and everything has been submitted.
- Concerning the eligibility requirements. They need and have 2 acres for a PUD.
- Concerning Spot Zoning - Being open with the facts. Don't know all the options. At one time this was zoned a C-2.
- Planning Commission and Township doesn't allow enough flexibility.
- Physically would improve the property and dealing with the soil contamination at the same time. At the present time trucks are half in and half out of the garage when being maintained.
- New building will meet MIOSHA Requirements.
- What does the Township get if they don't approve the rezoning? In simple terms the trucking company has to deal with the soil in some capacity regardless of the decision on the rezoning. Soil has to be treated in some capacity. It could maybe take 10 years for clean up. If rezoning goes through maybe three years.

Max Engle arrived at 8:50 p.m.

- What about potential growth and expansion? Can't say what it will be in the future.
- If soil is washed what happens in 10 to 12 years? Burden is on the owner and operator of the property.
- Who is going to be policing the soil? DEQ has the responsibility to see that the owners of the property are dealing with cleanup. The storage tank has been removed.
- Blondeau Trucking did black top and did purchase the U.P. Moving & Storage property.
- It was suggested that a possibility would be for the business to move to C-3 property and sell the present property for a business in the C-2 zoning district.
- New building is needed to keep up with modern technology. Old building is 25 years old.
- What is the difference now than when the rezoning was denied in 1987? None.
- The 1994 court settlement was not to allow future expansion.
- Zoning goes with the land. Who knows what the future is going to hold.
- The Strategic Plan wants good buffers between commercial and residential districts.
- There is not enough frontage and doesn't meet the requirements for a PUD.
- Not good township planning, if this business is allowed to expand.
- Court has upheld the Zoning Ordinance.
- Parcel B has a non-conforming use designation.

After the above questions and comments the following motion was made regarding the rezoning of C-2 to C-3.

Scott Emerson moved, Estelle De Vooght supported that the Chocolay Township Planning Commission recommends to the Chocolay Township Board denial of the rezoning request from Blondeau Trucking for C-2 to C-3 on the following parcels

Parcel B: Part of the northeast quarter of Section 7, T47N, R24W, described as: commencing at the north 1/4 corner of said Section 7; thence north 88° 32' 00" east, 976.62 feet along the north line of said Section 7 to the point of beginning; thence continuing north 88° 32' 00" east, 524.23 feet along the said north line of Section 7; thence south 1° 28' 00" east, 150.00 feet; thence south 88° 32' 00" west, 324.23 feet; thence south 14° 29' 50" west, 206,16 feet; thence north 1° 28' 00" west, 200.00 feet to the point of beginning. Containing 83,635 square feet or 1.92 acres.

Parcel C: Part of the northeast quarter of Section 7, T47N, R24W, described as: commencing at the north 1/4 corner of said Section 7; thence north 88° 32' 00" east, 1500.85 feet along the north line of said Section 7; thence south 1° 28' 00" east, 150.00 feet to the point of beginning; thence south 88° 32' 00" west, 324.23 feet; thence south 74° 29' 50" west, 206.16 feet; thence south 71° 59' 10" east, 359.83 feet; thence north 88° 32' 00" east, 185.00 feet; thence north 1° 28' 00" west, 170.00 feet to the point of beginning. Containing 63,766 square feet or 1.46 acres.

based on this rezoning being inconsistent with the comprehensive plan and the concept that this rezoning would constitute a "spot zoning."

MOTION CARRIED: 6-0.

CONSIDER REZONING #83 C-2 TO PUD:

The comments received during the Public Hearing and some of the questions and comments made in the rezoning request #82 were considered for the #83 request. The following additional questions and comments were made regarding rezoning #83 request.

- The only legal access was off Wright Place. Entered an agreement with Mr. Ball.
- The PUD requirement is 200' lot width.
- Planning Commission needs to address the Zoning Administrator's concern for the procedures, etc.
- Planning Commission doesn't want the trucking company to move out of the township. This is a much needed service for the township.
- Cannot approve the PUD without the proper access.
- Planning Commission needs to do the following regarding consideration for this rezoning request, which are: (1) passing the request, (2) denying the request or (3) tabling the request.
- We may be setting ourselves up to yet another litigation situation.
- We aren't making everyone happy, the situation isn't going to go away. Possibly could make the situation better.
- The purchase of the Dry Dock was suggested.
- We have an obligation to generations to come to make good planning decisions.
- PUD requirements have to be met and the Planning Commission will consider the requirements.
- Procedures have to be met.
- Blondeau's to submit the potential plan of the new building.
- We need answers to various questions.

After the questions and comments the following was decided regarding the #83 zoning request:

Mike La Pointe moved, Scott Emerson supported that the Chocolay Township Planning Commission table Rezoning Request #83 to the next regular meeting on May 13, 1996 to allow time for the Planning Director to meet with other Township Department Heads and the Applicant to discuss completion of the PUD application and to address existing concerns on the following parcels:

Parcel B: Part of the northeast quarter of Section 7, T47N, R24W, described as: commencing at the north 1/4 corner of said Section 7; thence north 88° 32' 00" east, 976.62 feet along the north line of said Section 7 to the point of beginning; thence continuing north 88° 32' 00" east, 524.23 feet along the said north line of Section 7; thence south 1° 28' 00" east, 150.00 feet; thence south 88° 32' 00" west, 324.23 feet; thence south 14° 29' 50" west, 206,16 feet; thence north 1° 28' 00" west, 200.00 feet to the point of beginning. Containing 83,635 square feet or 1.92 acres.

Parcel C: Part of the northeast quarter of Section 7, T47N, R24W, described as: commencing at the north 1/4 corner of said Section 7; thence north 88° 32' 00" east, 1500.85 feet along the north line of said Section 7; thence south 1° 28' 00" east, 150.00 feet to the point of beginning; thence south 88° 32' 00" west, 324.23 feet; thence south 74° 29' 50" west, 206.16 feet; thence south 71° 59' 10" east, 359.83 feet; thence north 88° 32' 00" east, 185.00 feet; thence north 1° 28' 00" west, 170.00 feet to the point of beginning. Containing 63,766 square feet or 1.46 acres.

Parcel A: Part of the southeast quarter of Section 6, T47N R24W, described as: commencing at the south 1/4 of said Section 6; thence north 88°32'00" east, 972.50 feet along the south line of said Section 6 to the point of beginning; thence continuing north 88°32'00" east, 207.35 feet along the said south line of Section 6; thence north 13°56'23" west, 84.44 feet; thence north 8°18'34" east, 98.81 feet; thence north 62°19'13" west. 163.98 feet along the southerly right-of-way line of Wright Street; thence south 27°39'13" west 60.00 feet along the easterly right-of-way line of Green Bay Street; thence north 62°19'13" west, 30.00 feet along the southerly right-of-way line of Wright Street; thence south 0°24'33" west, 222.00 feet to the point of beginning. Containing 43,252 square feet or 0.99 acres.

MOTION CARRIED: 6-0.

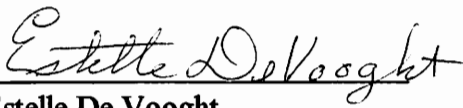

PUBLIC COMMENT:

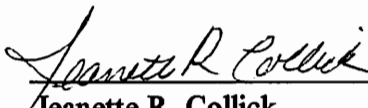

Bill Sanders inquired if there was any public comment.

Margaret Meiss commented that the owners are trying to wear the Planning Commission members down to pass the PUD.

ADJOURNMENT:

There being no further business and/or comments the Special Meeting of the Planning Commission was adjourned at 10:35 p.m.

 Estelle De Vooght
 Planning Commission Secretary

 Jeanette R. Collick
 Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION

MONDAY, MAY 13, 1996

PRESENT: Bill Sanders, Estelle De Vooght, Mike La Pointe, Max Engle, Bob Whitaker,

ABSENT: Steve Kinnunen, Scott Emerson

STAFF PRESENT: Karen Chandler - Director of Planning & Research, Mark Maki - Director of Assessing & Zoning

OTHERS PRESENT: Jeanette R. Collick-Recording Secretary, Cathy De Vooght, Peg Iery, Deborah Retaskie, Judy Smith, Marci Thieme, Bob Mc Kee, Tom Hedeniemi, Margaret Meiss

PUBLIC HEARING:

Bill Sanders, Chairperson, called the Public Hearing to order at 7:30 p.m.

REZONING #81 BED & BREAKFAST:

Bill Sanders inquired if there was any public comment regarding Rezoning #81 Bed & Breakfast?

Bob Mc Kee - 653 Lakewood Lane: Is Rezoning #81 in a particular area?

Bill Sanders informed the public and Planning Commission that Rezoning #81 includes all zoning districts in Chocolay Township.

Cathy De Vooght - 6341 U S 41 South: Good to act on all zones.

There was a comment made that 20 acres in RR-2 seems like a lot when a house is allowed in 5 acres. Shouldn't be denied because they do not have 20 acres.

Peg Iery - 2035 M 28 E: Judy Smith shouldn't be stopped because they don't have 20 acres. They are in an LS/R Zoning District.

Marci Thieme - 1895 M 28 E: Would like R-1 to remain the same as it is presently.

Mark Maki - Township Zoning Administrator: R-1 zoned single family. Subdivision on Lakewood Lane objects to home occupations and is not enthusiastic about Bed & Breakfast being along Lakewood Lane.

Bill Sanders inquired if there were any further public comment regarding Rezoning #81 Bed & Breakfast? There was no further public comments regarding Rezoning #81 or Public Hearings, Bill Sanders closed the Public Hearing section of the Planning Commission meeting.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Meeting to order at 7:40 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Estelle De Vooght, Mike La Pointe, Max Engle, and Bob Whitaker present. Scott Emerson and Steve Kinnunen were absent.

APPROVAL OF MINUTES OF APRIL 8, 1995 & APRIL 22, 1996:

Bill Sanders inquired if there were any corrections and/or additions to the April 8, 1996 Planing Commission minutes?

On Page 3 the sentence that read: **Cathy De Vooght - 6341 U S 41 South - Zoning Ordinance is a living document, not a covenant. Planning Commission member - people want personal service that is in a Bed & Breakfast.**" The last sentence should be omitted.

Bill Sanders noted the motion on Bed & Breakfast on page 4 should read: **Motion Carried 6-1, not 7-0.**

Bill Sanders moved, Max Engle supported that the minutes dated April 8, 1996 be approved as corrected.

MOTION CARRIED: 5-0

Bill Sanders inquired if there were any corrections and/or additions to the April 22, 1996 Planning Commission minutes. There were none.

Max Engle moved, Estelle De Vooght supported that the April 22, 1996 Planning Commission minutes be approved as presented.

MOTION CARRIED: 5-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders inquired if there were any additions or changes in the agenda? There were none.

Bill Sanders moved, Estelle De Vooght supported that the agenda be approved as presented.

MOTION CARRIED: 5-0.

PUBLIC COMMENT:

Bill Sanders inquired if there was any Public Comment.

Karen introduced Shane Wolf, a student intern working at the Township this summer from Northern Michigan University.

Margaret Meiss inquired if Rezoning #83 was tabled?

Bill Sanders informed everyone present that another public hearing on rezoning #83 wouldn't be held. The Planning Commission would be discussing Rezoning #83 under Old Business tonight. He informed everyone that now is the time to make comment on that issue or reserve time when that topic would be discussed.

Margaret Meiss inquired on what can Blondeau Trucking do now? She was informed that nothing has been changed as far as the Township is concerned.

PUD hasn't been approved at this time. Planning Commission tabled this at the April 22, 1996 meeting for more information. Bob Whitaker stated that a PUD is different for every situation. Blondeau's do not qualify at present for a PUD and needs to supply the Planning Commission with more information.

The removal of the contaminated soil is up to the DNR to enforce, not the Township. The township doesn't set State and Federal laws regarding environmental issues. The Township Zoning Ordinance helps protect the health, safety and welfare of the residents of the township.

Mark Maki stated that after the April 22, 1996 Planning Commission meeting, a meeting with Dave St. Onge, Karen Chandler, Ivan Fende and himself was held to discuss the frontage issue. At the present time there has been no further graphics or written documentation submitted to the Township.

Mark Maki inquired if the Planning Commission would consider any action to have any documentation regarding the Rezoning #83 be submitted at least one week in advance of the next meeting so the information could be reviewed by the staff and public.

There being no further public comment, the first public comment section of the Planning Commission was closed.

OLD BUSINESS:

CONSIDER REZONING #83 PUD/BLONDEAU & SONS TRUCKING, INC:

The following motion was made pertaining to Rezoning #83.

Bob Whitaker moved, Bill Sanders supported that a letter be sent to L Blondeau & Sons Trucking, Inc. from the Planning Commission stating that Rezoning #83 will be tabled until June 10, 1996 and to request that all information necessary to complete the application for a PUD be submitted at least one week in advance to allow for staff review before that meeting.

MOTION CARRIED: 5-0.

DISCUSS POSSIBLE WORDING FOR TEXT AMENDMENTS:

Site Plan Review - The following comments were made regarding the site plan review:

- Site plan will be review by the Planning Commission, the Planning Director and the Zoning Administrator.
- Township attorney should be asked to review the changes and refer them back to the Planning Commission for their review.

Bill Sanders moved, Estelle De Vooght supported that a letter be sent to the township attorney from the Planning Commission for his review of the suggested Site Plan Review.

MOTION CARRIED: 5-0.

Site Condo - The following discussion and comments were made pertained to the language for Site Condo:

- General Requirements (1) Sentence reading "No permits for erosion and sanitary sewage facilities shall be issued for property in a site condominium development until a final site plan therefore has been approved by the Planning Commission and is in effect. After discussion it was decided that the above sentence be omitted.
- There was discussion on item (J) Monuments and Lot Irons. The sentence that reads: Lot irons shall be set at all condominium lot corners and deflection points of condominium lot line. After the discussion on Item (J) it was decided that the above sentence be omitted.
- The same term, condominium lot or condominium unit, should be used through out the document.

Mike La Pointe moved, Bill Sanders supported that the Site Condo language and changes be sent to the Township Attorney for his review .

MOTION CARRIED: 5-0.

Semi-Trailers and Outside Storage - Karen informed the Planning Commission that she would have language put together for the Planning Commission at their June 10, 1996 meeting.

REPORT ON AD HOC COMMITTEE - TRAILS DEVELOPMENT:

Shane Wolfe gave a report on the trails development which included:

- I. **Liability**
 - A. Laws to be found that protect residents.
 - B. What have other trails done and are doing (FTA)
- II. **Problems To Be Considered:**
 - A. Fire Control
 - Trespassing
 - Stealing of Property
 - Littering
 - Very difficult to become a Federal trail
 - Using private property for the trails.
 - B. To Be Done:
 - Possible patrol groups (Hikers w/Authority
 - Putting up signs
 - Join Hiking Associations
- III. **Main Goal Now**
 - A. Map out hiking trail
 - B. Install trail

Planning Commission members thanked Shane for the fine report.

REPORT ON CHOCOLAY DOWNS GOLF COURSE - MONITORING WELLS:

Karen informed the Planning Commission that the township attorney hadn't received any further information than what was presented in their agenda packet and had not heard from Don Bays, Joe Gibb's attorney.

The following motion was made pertaining to the Chocolay Downs Golf Course:

Bill Sanders moved, Estelle De Vooght supported that a letter be sent from the Planning Commission to the Township Attorney notifying him that the Planning Commission is not in favor of extending the dead line pertaining to the installation of monitoring wells past June 10, 1996.

MOTION CARRIED: 5-0.

NEW BUSINESS:

CONSIDER REZONING #81 - BED & BREAKFAST - Karen presented an overlay regarding the zoning districts in the township.

Bill Sanders read a letter into the record from Marla Buckmaster, 519 Lakewood Lane pertaining to Bed & Breakfast and opposing the Bed & Breakfast language. This letter will be placed in the rezoning # 81 file.

The following comments were received regarding Bed & Breakfast:

- Doesn't see a difference between Bed & Breakfast and a home occupation.
- Nursing homes, day cares are more of a problem than a Bed & Breakfast.
- Can see a problem with Bed & Breakfast in R-1 and R-2.
- Personal experience with Bed & Breakfast is good. Doesn't see a problem with them being disruptive.
- Residents want their areas to remain the same as it is every day with the regular people living in the neighborhood and not different traffic and/or people that are with a Bed & Breakfast.
- Don't want increased traffic. Traffic could be at least double than the people living there.
- Bed & Breakfast could be less of a problem than some of the conditions present now.
- If conditions are met Bed & Breakfast would have to be allowed.
- Parking - one space is required for each room.
- Landscaping - People wouldn't want to lose their landscaping appeal.
- Each Bed & Breakfast would have to be dealt with on an individual case by case.
- If Bed & Breakfast are going to be allowed in one area, should be allowed in all areas.

After the above comments pertaining to Bed & Breakfast were made, the following motion was made to include R-3 along with the Planning Directors recommendation.

Max Engle moved Mike La Pointe supported that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the following amendments to the Chocolay Township Zoning Ordinance be approved.

AMENDMENT

That portion of Section 101 of the Charter Township of Chocolay Zoning Ordinance entitled "**DEFINITIONS**" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined.

SECTION 101 DEFINITIONS

Bed & Breakfast, means a use that is subordinate to a single-family detached dwelling unit in which transient guests are provided sleeping rooms (not to exceed four (4) rooms) and a breakfast only, in return for payment; is the owner's personal residence; is occupied by the owner at the time of rental; and, the length of stay of any guest is not to exceed 14 consecutive days and 30 days in one year.

REPEALER AND AMENDMENT

That portion of Section 204 of the Charter Township of Chocolay Zoning Ordinance entitled "**DISTRICT R-3**" as adopted May 9, 1977, and any and all Amendments adopted

subsequent thereto, shall be and the same hereby is amended by the deletion thereto of the language in [brackets] and addition thereto of the language, which is underlined.

[SEC.] SECTION 204 DISTRICT R-3.

- (A) **INTENT.** To establish and preserve neighborhoods for medium density residential uses, free from other uses except those which are both compatible with and convenient to the residents of such a district.
- (B) **PERMITTED PRINCIPAL USES.** Single and two-family dwellings, and multiple dwellings.
- (C) **CONDITIONAL USES.** The same conditional uses as permitted in District R-1, subject to the same conditions, and also group day care facilities. Hotels, Bed & Breakfast, nursing homes, and clinics are also conditional uses.
- (D) **DISTRICT REGULATIONS.**
 - 1) Each apartment building shall provide refuse containers of sufficient size to contain all refuse generated by the residents within.
 - 2) All refuse containers shall be located on concrete stands, abutting and level with grade, which shall be surrounded, except on the entrance side, by a wood or masonry fence or wall at least six feet high.

REPEALER AND AMENDMENT

That portion of Section 209 of the Charter Township of Chocolay Zoning Ordinance entitled "DISTRICT C-1" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined.

SECTION 209 DISTRICT C-1.

- (A) **INTENT.** To establish and preserve areas for those commercial facilities which are especially useful in close proximity to residential areas, while minimizing the undesirable impact of such uses on the neighborhoods which they service.
- (B) **PERMITTED PRINCIPAL USES.** Barber and beauty shops, general and specialty food and beverage stores, drugstores, restaurants, clothing and dry goods stores, offices, bakeries without additional sales outlets, Bed & Breakfast, dry cleaning and laundry pick-up stations, coin operated laundry and dry cleaning establishments, provided, however, that drive-in restaurants and establishments cooking or preparing food for consumption off the premises are excluded.
- (C) **CONDITIONAL USES.** Schools, where the type of school is compatible with nearby residential uses. Specialty retail sales where the type of sales has no outdoor display or storage and is compatible with nearby residential uses.
- (D) **SPECIAL REGULATIONS.** No establishment may occupy more than 3,000 square feet of floor space.

REPEALER AND AMENDMENT

That portion of Section 206 of the Charter Township of Chocolay Zoning Ordinance entitled "DISTRICT LS/R" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the deletion thereof the language in [brackets] and addition thereto of the language, which is underlined.

[SEC.] SECTION 206 DISTRICT LS/R.

- (A) **INTENT.** This district is intended to establish and maintain for residential and recreational use those areas with frontage on inland lakes and rivers and the Lake Superior shoreline which, because of their natural characteristics and accessibility, are suitable for development.
- (B) **PERMITTED PRINCIPAL USES.** Single-family dwellings.
- (C) **CONDITIONAL USES.** Marinas, boat liveries, bathing facilities, fishing piers, resorts, Bed & Breakfast, fish markets, commercial fishing docks, and associated facilities when located and designed so as not to unreasonably interfere with, degrade or decrease the enjoyment of existing uses of nearby land.

REPEALER AND AMENDMENT

That portion of Section 208 of the Charter Township of Chocolay Zoning Ordinance entitled "DISTRICT RR-2" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the deletion thereof the language in [brackets] and addition thereto of the language, which is underlined.

[SEC.] SECTION 208 DISTRICT RR-2.

- (A) **INTENT.** To establish and maintain for low intensity use those areas which, because of their location and accessibility to existing utilities, paved public roads, community facilities, and public services, are suitable for wide range of very low density residential and recreational activities.
- (B) **PERMITTED PRINCIPAL USES.** The growing and harvesting of timber, and the raising of livestock. Agricultural produce, trees, shrubbery, flowers, etc., which are grown on the premises may also be marketed on the premises. Detached single family dwellings are permitted on lots five acres or more with 300 feet of lot width. Boarding stables on lots of 20 acres or more.
- (C) **CONDITIONAL USES.** Resorts, Bed & Breakfast, riding stables, parks, campgrounds, kennels, and day camps on lots of 20 acres or more. Hunting and shooting preserves, winter sports facilities, and trails on lots of 20 acres or more. Unlighted golf courses on lots of 60 acres or more.

REPEALER AND AMENDMENT

That portion of Section 212 of the Charter Township of Chocolay Zoning Ordinance entitled "DISTRICT RP" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the deletion thereto of the language in [brackets] and addition thereto of the language, which is underlined.

[SEC.] SECTION 212 DISTRICT RP.

- (A) **INTENT.** To establish and maintain for low intensity use those areas which because of their location, accessibility and natural characteristics are suitable for a wide range of agricultural, forestry, and recreational uses.
- (B) **PERMITTED PRINCIPAL USES.** The growing and harvesting of timber, livestock, campgrounds, day camps, riding or boarding stables, winter sports facilities, parks, kennels, trails, agricultural produce, trees, shrubbery, flowers, etc., which are grown on the premises may also be marketed on the premises. Detached single-family dwellings are permitted on tracts of 20 acres or more.
- (C) **CONDITIONAL USES.** Resorts, Bed and Breakfast and lodges on lots of 20 acres or more. Hunting and shooting preserves on lots of 20 acres or more. Unlighted golf courses on lots of 60 acres or more.

REPEALER AND AMENDMENT

That portion of Section 213 of the Charter Township of Chocolay Zoning Ordinance entitled "DISTRICT RP" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the deletion thereto of the language in [brackets] and addition thereto of the language, which is underlined.

[SEC.] SECTION 213 DISTRICT OS.

- (A) **INTENT.** To preserve as open space those lands which because of their soil, drainage or topographic characteristics, are unsuitable for development.
- (B) **PERMITTED PRINCIPAL USES.** Growing and harvesting of timber and bush fruit, and agricultural produce, livestock, and wildlife management.
- (C) **CONDITIONAL USES.** Single-family residences, resorts, Bed & Breakfast, and other recreational uses, on lots of 20 acres or more, where such development can be accomplished without significant adverse environmental impact.

AMENDMENT

That portion of Section 500 of the Charter Township of Chocolay Zoning Ordinance entitled "OFF-STREET PARKING REQUIREMENTS" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined.

SECTION 500

USE
Bed & Breakfast

SPACES REQUIRED
One space per room for transient guests in addition to spaces required for single family dwellings.

MOTION CARRIED: 3-2.

Karen informed the people present and the Planning Commission that the Bed & Breakfast language will be presented to the Marquette County Planning Commission for their review and comments as required by State law and the Charter Township of Chocolay Board could consider the amendment at their June 17 meeting.

Judy Smith thanked the Planning Commission for their support.

PLANNING DIRECTORS REPORT:

- 1) In reviewing the Planning Commission Bylaws, June is your annual meeting. Election of officers should take place at the regular monthly meeting in June. Keep this in mind for next month.
- 2) Put the You into Youth Campaign was kicked off on May 3 at Northern Michigan University. I attended the day long session and was quite impressed with the efforts of the Kellogg Foundation in our area to date and the number of talented youth in attendance.
- 3) I attended the Site Plan Review workshop in Marquette. This was a distance learning workshop with NMU being the remote site and CMU hosting the instructor. I facilitated the session for MSPO and they paid my fee. If anyone is interested in reviewing the Site Plan Review Handbook, please let me know.
- 4) The CABA Quarterly will be coming out again in June. If you have any ideas or suggestions for articles, please let me know.
- 5) I have made initial contact with the list of four communities, from Rita Hodgins, that were involved with the Charrette's. I will be making a second contact again soon. I was only able to reach one community.
- 6) I will be working on a questionnaire to be sent out addressing the Community Center "concept" as suggested in the Strategic Plan. I had hope to have it for your review for this meeting. However, when I get it complete, I will send it to you for individual comments. The survey itself will be approved by the Township Board before it is sent out.
- 7) I have talked with Carl Linquist about the first annual awareness/action day for environmental issues to be addressed. This was a goal of the Environment section in our Strategic Plan.
- 8) The Township Board voted on the Height Amendment and it failed on a 3-3 vote.
- 9) The Township Board voted unanimously to support on Section 106.

PUBLIC COMMENT:

Tim Hedeniemi - Champion, Michigan: complimented the Planning Commission on the fine way the Planning Commission meeting was conducted and for allowing the public to comment during the discussion of agenda items. He complimented Shane Wolf, student intern for the fine report on the trail development. And he commented on the Chocolay Township Zoning Ordinance and the fine way it is written.

Karen informed the Planning Commission that due to the Marquette School System not being in session on June 10, 1996, we will not be able to hold the June Planning Commission meeting at Silver Creek or Cherry Creek Schools. It was suggested that the June Planning Commission meeting be held in the Township's front office or the fire hall, depending on the amount of business that we would have.

Mike La Pointe reported on the Munising Bay Watershed Groundwater Protection. He also stated that the GIS System from NMU was used for this project. He suggested that the township look into using this system. The Planning Commission could discuss and put this request into the 1997 budget when it is discussed in July or August.

INFORMATIONAL ITEMS AND CORRESPONDENCE:

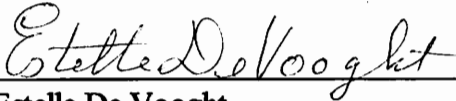

- A. Michigan Week Activity Lists - taken from the Michigan Assessor
- B. Correspondence from - Ann Joyal, Seaborg Center - Water & Groundwater Issues in Marquette County (A Handbook for Teachers on file in the office)
- C. Correspondence from - Linda Rossberg, County Extension Director - Township Plan outcome from Youth & Family meetings.

ADJOURNMENT:

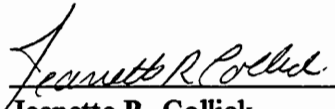

Mike La Pointe moved, Bill Sanders supported that there being no further business the Planning Commission meeting be adjourned.

MOTION CARRIED: 5-0.

The Planning Commission meeting of May 13, 1996 was adjourned at 9:15 p.m.

Estelle De Vooght
Planning Commission Secretary

Jeanette R. Collick
Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, JUNE 10, 1996**

PRESENT: Bill Sanders, Estelle DeVooght, Mike LaPointe, Bob Whitaker, Steve Kinnunen, Scott Emerson (arrived at 8:05 p.m.)

ABSENT: Max Engle

STAFF PRESENT: Karen Chandler - Director of Planning & Research, Mark Maki - Director of Land Use Development

OTHERS PRESENT: Jeanette R. Collick-Recording Secretary, Dale Eltman, Hope W. Dunne, Harry C. Smith, Andrea Beckman, Judd Johnston, Lois Sherbinow, Gladys H. Unmuth, Michelle J. Barnett, Patrick Barnett, Bud Sargent, Maggie Meiss, Louis Weiland, Betty H. Weiland, David Johnson, Linda Johnson, Gary Loehn

PUBLIC HEARING:

Bill Sanders, Chairperson, called the Public Hearing to order at 7:30 p.m.

CONDITIONAL USE #37:

Bill Sanders informed the public of the process for the public hearing. He inquired if there were any public comment regarding Conditional Use #37.

Karen Chandler, Director of Planning & Research stated that the applicants, Larry and Barb Sterzik, have requested that the Chocoday Township Planning Commission consider granting a conditional use permit to allow a motel on the property located at 131 Kawbawgam Road. The property is zoned R-3 which includes multi family. The R-3 district does allow for motels as a conditional use.

Judd Johnston - 1943 M 28 East: commented on a neighbor's standpoint, stating that he got hit when the casino was put in and couldn't do anything about it. There is an increase for traffic, safety and noise. He is concerned about some of the conditions that have to be met regarding a motel. One of the items he is concerned with is the glare. Since the casino was put in the southern horizon there is a glare.

There will be more noise, snowmobilers and doesn't fit into the character of the neighborhood. There has always been a problem with spot zoning in this particular area.

Hope Dunne - 2029 M 28 E: She doesn't see why a motel/apartment is there? We don't need more people living there. She agrees with Judd Johnston's comments.

Harry C. Smith - 2029 M 28 E: Spent a good many years as a building consultant and based decisions on the logic of the situation, very simple. Chocoday Township Planning Commission should carry out its functions. Regulation doesn't control behavior. It's time to go back to the simple, making decision's righter than wronger. Transients are not healthy in every neighborhood. Planning Commission should fulfill their responsibility.

Andrea Beckman - 6208 U S 41 South and owner of Marquette Motor Lodge: Belongs to a motel organization and doesn't support the proposed motel. She has mixed feeling regarding this proposal. The location is in a residential neighborhood. She has been in the motel business for 14 years and transients have not caused any problems.

Gary Loehn - 1975 M 28 East: Concern is that there is going to be an erosion of residential neighborhoods. A hotel/motel moves in, then there will be requests for truck stops, gas stations, etc. Another concern is for increased lighting in the parking lot. On M 28 there is an S curve and would be a problem with increased traffic. Can't see what it is going to add to the community.

Lois Sherbinow - 228 Kawbawgam Road: The neighborhood has been taken away from them already and doesn't see the need for this project to be granted.

Pat Barnett - 1971 M 28 East: Sent a letter already opposing this project. We need to protect this neighborhood. People are going to move and abandon their homes and property if this type of development is allowed to continue.

Louis Weiland - 227 Kawbawgam Road: Inquired where the proposed motel site was located? The property is located between the railroad tracks and the existing rental units. Everyone was against the housing project being put in. Has no problem with extra traffic. Has lived in his present residence for the past five years and they are retired. They have more police protection and more common sense as far as young people go in their neighborhood than they ever did before. Doesn't see why area should be downsized. He is for business and is for the proposed motel.

Dale Eltman - 2026 M 28 E: The proposed motel is almost in his back yard. What is going to be proposed next? He is against the proposed motel.

Bud Goin - 2015 M 28 E: Agrees with comments that were made against the proposed motel. He is against the proposed motel.

Maggie Meiss - 105 W. Wright Place: It will mushroom and go on and on. There will be business after business.

Linda Johnson - 200 Kawbawgam Road: Opposed to the proposed motel.

Dave Johnson - 200 Kawbawgam Road: Opposed to the proposed motel.

Michelle J. Barnett - 1971 M 28 E: Opposed to the proposed motel.

Bill Sanders read the following letters into the record that were received from people concerning the proposed motel. These letters will be placed on file at the Township Office in the Conditional Use # 37 file.

Glen & Connie Barto - 1975 M 28 East: Opposed to the proposed motel.

Linda Rossberg - 1975 M 28 E: Opposed to the proposed motel.

Patrick Barnett - 1971 M 28 E: Opposed to the proposed motel.

Curt Rife - 202 Wanda: Opposed to the proposed motel.

John Weting - Architect: For the approval of the proposed motel.

John W. English - 450 E. Ohio: No objection to the proposed motel as long as conditions are followed.

Nancy Rife - 202 Wanda Street: Opposed to the proposed motel.

Bill Sanders inquired if there were any further public comment regarding Conditional Use #37? He informed everyone present that this would be discussed during New Business. There were no further comments regarding Conditional Use # 37 or public hearings. Bill Sanders closed the public hearing section of the Planning Commission meeting.

REGULAR MEETING CALLED TO ORDER:

Bill Sanders, Chairperson called the Regular Planning Commission Meeting to order at 8:00 p.m.

ROLL CALL:

Roll call was taken with Bill Sanders, Estelle DeVooght, Mike LaPointe, Steve Kinnunen and Bob Whitaker present. Scott Emerson arrived at 8:05 p.m.

Max Engle was absent.

APPROVAL OF MINUTES OF May 13, 1996:

Bill Sanders inquired if there were any correction's and/or additions to the May 13, 1996 Planning Commission Minutes?

He noted on the May 13, 1996 minutes that the motion concerning the Bed & Breakfast that instead of reading the motion carried 5-0. It should have read 3-2.

Bill Sanders moved, Estelle DeVooght supported that the minutes of May 13, 1996 be approved as amended.

MOTION CARRIED: 5-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Bill Sanders inquired if there were any additions or changes in the agenda?

Mike LaPointe suggested that New Business Item A Conditional Use #37 be moved before Old Business.

Mike LaPointe moved, Estelle DeVooght supported that the agenda be approved as amended.

MOTION CARRIED: 5-0.

Scott Emerson arrived at 8:05 p.m.

PUBLIC COMMENT:

Bill Sanders inquired if there was any Public Comment.

Maggie Meiss asked the status was regarding Blondeau Trucking. She commented on the U.P. Moving & Storage Building being used by Blondeau Trucking for their trucks and they stated they weren't going to use the building for that purpose. She informed the Planning Commission that the U.P. Moving & Storage Building is being used for their trucks.

She was informed that a decision on the PUD request would be made under Old Business when that topic was discussed.

Hope Dunne commented she was happy to see information on the refuse collection in the Action Shopper. She stated this type of advertising should be done regarding agenda items, such as the Conditional Use #37.

It was noted that a notice was placed in the Mining Journal once. Publications are costly.

Maggie Meiss had a question regarding the refuse collection.

Karen informed everyone that residents must have tagged refuse placed at curbside for the recyclables to be picked up. Recyclables must be separated and can be placed in brown grocery bags. There will not be a charge for recyclables as long as there is tagged refuse to be picked up.

It was suggested that a dumpster purchase fee along with recycling containers be considered for future use in Chocolate Township.

Planning Commission is an advisory board. The Township Board makes the final decisions.

A question was asked as to how long the township is committed to the present hauler? Karen informed everyone present that the township has signed a 5-year contract.

Will there be a substantial increase in five years after the contract expires?

Bob Whitaker commented that there are only three companies in the area to pick up refuse. In five years there should still be adequate competition to keep the costs down.

Andrea Beckman commented that they have had the present hauler and are very well satisfied.

There being no further public comment, the first public comment section was closed.

NEW BUSINESS:**CONDITIONAL USE #37:**

Larry Sterzik (applicant) commented that basically we have no control over what the casino does. He feels private industry is being penalized and doesn't feel it is fair because of the casino.

The following comments and questions were made regarding Conditional Use #37:

- Two wrongs doesn't make a right.
- Spot Zoning - convenience store, gas station was proposed in the past. Planning Commission went through about four months of work to get rid of spot zoning, but due to other pressing business has not been dealt with. We have to deal with as proactive and concentrate on rezoning this area from C-1 too residential. Keep this area residential.
- Casino is in litigation.
- Opposed to the motel being there. Doesn't fit in with the neighborhood. Doesn't feel it improving the area. Planning Commission has to be consistent with the Comprehensive Plan to coral a commercial development in one area.
- It is the Planning Commission's job to make sure this doesn't go array and stay with the intended use and would be escalating the rezoning out there.
- Was a quiet neighborhood 25 years ago - no noise - no increased traffic. Moved because of the development even before the casino was being built.
- Previous motel couldn't make a go of the business.
- Need to make a decision on Conditional Use #37 on its own conditions, not on the casino's.
- Would change the character of the neighborhood.
- The conditional use shall be designed, constructed, operated and maintained in a manner harmonious with the character of adjacent property and the surrounding area. This area has been zoned R-3. An apartment building is across the street and a four-unit apartment building is on the same parcel.
- The conditional use shall represent an improvement to the property under consideration and the surrounding area in general. This parcel is currently vacant and the development of a building with frequent occupancy would improve the property and increase the tax base of the Township.
- The conditional use shall be consistent with the intent and purpose of this Ordinance, and the objectives of any currently adopted township development plan. This application meets the intent and purpose of the ordinance.
- An Architect is planning to do extensive landscaping, possibly buffers will be added to make it harmonious with the area and the social impact with the traffic, etc.
- Applicants are trying to be sensitive to their neighbors.
- There is an existing structure on the property - about four apartments, does the applicant plan to remove them and rebuild the motel on that same spot or is this adjacent to that property?
- The only plans for the apartments is a face lift to the present building.
- The 20 unit motel is in addition to the apartments.

Mike LaPointe moved, Scott Emerson supported that the Planning Commission deny Conditional Use #37 based on not being able to meet the following general standards:

1. The conditional use shall be designed, constructed, operated and maintained in a manner harmonious with the character of adjacent property and the surrounding area.
2. The conditional use shall not change the essential character of the surrounding area.
3. The conditional use shall not interfere with the general enjoyment of adjacent property.
4. The conditional use shall represent an improvement to the property under consideration and the surrounding area in general.

And because the proposed motel doesn't fit in with the surround area. The Planning Commission recognizes this area as a spot zoning and in the past this was a deviation from the intent of the Comprehensive Plan and the conditional use would interfere with the surrounding area.

MOTION CARRIED 6-0. TO DENY THE APPROVAL OF THE CONDITIONAL USE #37.

Harry Smith thanked the Planning Commission for their support.

OLD BUSINESS:

DISCUSS REZONING #83 - PUD/BLONDEAU & SONS TRUCKING INC.

The applicant has not come back with any further information. Karen sent a letter from the Planning Commission and hasn't received a response. She called L. Blondeau & Sons Trucking and left a message for Steve Blondeau. She also called Dave St. Onge (consultant). He hasn't received any further information from Blondeau's.

The following comments were made regarding Rezoning #83:

- The applicant hasn't responded to the Planning Commission's letter and has been given ample time to respond. Rezoning #83 should be denied.
- Planning Commission has been very fair and hasn't received any response. Rezoning #83 should be denied.

Bob Whitaker moved, Estelle DeVooght supported that the Chocolay Township Planning Commission recommends, to the Chocolay Township Board, denial of the application for a Planned Unit Development by L. Blondeau & Sons Trucking, Inc. on following parcels

Parcel B: Part of the northeast quarter of Section 7, T47N, R24W, described as: commencing at the north 1/4 corner of said Section 7; thence north 88° 32' 00" east, 976.62 feet along the north line of said Section 7 to the point of beginning; thence continuing north 88° 32' 00" east, 524.23 feet along the said north line of Section 7; thence south 1° 28' 00" east, 150.00 feet; thence south 88° 32' 00" west, 324.23 feet; thence south 14° 29' 50" west, 206.16 feet; thence north 1° 28' 00" west, 200.00 feet to the point of beginning. Containing 83,635 square feet or 1.92 acres.

Parcel C: Part of the northeast quarter of Section 7, T47N, R24W, described as: commencing at the north 1/4 corner of said Section 7; thence north 88° 32' 00" east, 1500.85 feet along the north line of said Section 7; thence south 1° 28' 00" east, 150.00 feet to the point of beginning; thence south 88° 32' 00" west, 324.23 feet; thence south 74° 29' 50" west, 206.16 feet; thence south 71° 59' 10" east, 359.83 feet; thence north 88° 32' 00" east, 185.00 feet; thence north 1° 28' 00" west, 170.00 feet to the point of beginning. Containing 63,766 square feet or 1.46 acres.

Parcel A: Part of the southeast quarter of Section 6, T47N R24W, described as: commencing at the south 1/4 of said Section 6; thence north 88°32'00" east, 972.50 feet along the south line of said Section 6 to the point of beginning; thence continuing north 88°32'00" east, 207.35 feet along the said south line of Section 6; thence north 13°56'23" west, 84.44 feet; thence north 8°18'34" east, 98.81 feet; thence north 62°19'13" west 163.98 feet along the southerly right-of-way line of Wright Street; thence south 27°39'13" west 60.00 feet along the easterly right-of-way line of Green Bay Street; thence north 62°19'13" west, 30.00 feet along the southerly right-of-way line of Wright Street; thence south 0°24'33" west, 222.00 feet to the point of beginning. Containing 43,252 square feet or 0.99 acres.

For the following reasons

1. This Planned Unit Development (PUD) does not accomplish the requirement for the intent of a PUD which is a zoning district intended to accommodate innovative land use developments with mixed or varied uses.
2. This request is sought primarily to avoid the imposition of standards and requirements of other zoning classifications rather than to achieve the stated objectives of a PUD.
3. This PUD does not follow the objectives as stated in the Zoning Ordinance
 - a) to permit more flexibility in land development than is generally allowable under conventional zoning regulations where such development will not be contrary to the intent of the Chocolay Township Zoning Ordinance or inconsistent with the Chocolay Township Comprehensive Plan;
 - b) to encourage innovative approaches in developing land;
 - c) to recognize that the timing of development should be consistent with capital improvement planning and that it is both a public and private responsibility to minimize adverse community impacts; and
 - d) to encourage and ensure a continual pattern of compatible land use.

MOTION CARRIED 6-0 TO DENY REZONING #83.

Maggie Meiss thanked the Planning Commission for their decision and support. She inquired what can she do regarding the concern on the use of the U.P. Storage Building? She was informed to write a letter to Zoning Administrator with a copy to be sent to the Township Board.

Rezoning #83 goes to the County Planning Commission for their review and comment. The Township Board has the final decision.

DISCUSS POSSIBLE WORDING FOR TEXT AMENDMENT (SEMI-TRAILERS):

Karen informed the Planning Commission that the wording went to the township attorney and she hasn't received any information back yet.

REPORT ON CHOCOLAY DOWNS GOLF COURSE - MONITORING WELLS:

Karen informed the Planning Commission that the monitoring wells are in per the 1992 letter from the County Health Department.

Concerning the Gazebo - this would be an amendment to the Conditional Use, but has to go through the process, may need a new application. Has no approval of the gazebo.

Karen will check in the past minutes concerning the approval of the conditional use, the gazebo and if the monitoring wells were installed by a certain date.

NEW BUSINESS:

CONSIDER UPDATE TO RECREATION PLAN:

Planning Commission and Township Board have to hold a public hearing to incorporate language in the Recreation Plan to include trails.

If the township were to apply for a DNR grant funding in the future for trails, trail language would need to be added.

Scott Emerson moved, Steve Kinnunen supported that the Planning Commission hold a public hearing in July to present proposed language for inclusion of multi purpose trails as an update to the Recreation Plan.

MOTION CARRIED 6-0.

ANNUAL MEETING ELECTION OF OFFICERS:

Bill Sanders notified the Planning Commission that because of added responsibilities (work related) that he has considered resigning from the Planning Commission and will be making his decision soon.

The Planning Commission was informed that due to Max Engle being a Township Board representative that he cannot hold an office on the Planning Commission.

Bill Sanders moved Scott Emerson supported that Mike LaPointe be nominated as Chairperson of the Planning Commission. Nomination for the Chairperson was closed.

MOTION CARRIED: 6-0.

Steve Kinnunen moved, Bill Sanders supported that Scott Emerson be nominated as Vice-Chairperson of the Planning Commission. Nomination for the Vice-Chairperson was closed.

MOTION CARRIED: 6-0

Bill Sanders moved, Mike LaPointe supported that Estelle DeVooght be nominated as Secretary of the Planning Commission. Nomination for the Secretary was closed.

MOTION CARRIED: 6-0

Scott Emerson moved, Mike LaPointe supported that Steve Kinnunen be nominated as Vice-Secretary of the Planning Commission. Nomination for Vice-Secretary be closed.

MOTION CARRIED: 6-0

Bill Sanders moved, Bob Whitaker supported that the nominated officers be elected to their respective positions as the Executive Committee of the Chocolay Township Planning Commission for 1996.

MOTION CARRIED: 6-0

The above officers will serve a one year term.

REVIEW OF QUESTIONNAIRE ON PUBLIC OPINION:

Planning Commission members commented that the questionnaire only needs to be very brief.

#20 regarding the advertisement for the Action Shopper. Karen informed them it doesn't cost anything to put information in the Action Shopper with the CABA Quarterly. The only cost is for the staff to type the actual information for submission to CABA.

#10 regarding the support of the community center: This has already been done in the Strategic Plan.

The Planning Commission suggested that the \$600 come from the Planning Commission budget rather than the Economic Development.

We need to utilize the information that we have in the Strategic Plan.

The 1991 Survey had a good response and before that there was a survey done in the 70's.

PLANNING DIRECTORS REPORT:

- 1) We received information on the well testing at the Homestead Golf Course - Randy Gentz. Maximum level is 10.0 mg/L and their test indicated 2.2 mg/L.
- 2) Kellogg Foundation is offering a \$2,000 grant for communities involved with youth and families. A letter of application should be going out this week. I attended a meeting with Linda Rossberg, Rev. Bruce Ulstad, Dan Chartier and Nhenna Ittner and we decided to request the monies to enhance the Township's summer youth program.
- 3) I attended a groundwater educational meeting on Thursday, May 30. Mike LaPointe was also in attendance. Discussion centered on groundwater protection, an update on groundwater stewardship programs, community wellhead protection, aquifer testing and sealing abandoned wells.
- 4) I have again contacted the list of four communities, that were involved with the Charrette's. I was able to reach two communities. I received a newsletter from one small town. I will try to get a report ready for the Township Board for their meeting in June.

PUBLIC COMMENT:

Planning Commission unanimously agreed that a letter be submitted to the Township Board that a research assistant and clerical help be obtained and be put into the budget to provide help to the Director of Planning and Research so she could commit more time to planning issues.

GIS System - It was suggested that a combined meeting of the Planning Commission and Township Board be held. Have a representative from NMU present the GIS System and how it could help all the various departments of the Township.

There was more discussion on the Kawbawgam Road area rezoning issue from a few years ago. Karen had put together a file on the previous requests.

Scott Emerson moved, Bill Sanders supported that Kawbawgam Road and M-28 be advertised for a public hearing to be held in July to rezone the C-1 and R-3 districts to R-1 and the township owned land now zoned C-1 be rezoned PL (public lands). And that the current uses of the buildings would be made non-conforming and be grand fathered in.

MOTION CARRIED: 6-0.

Notices would have to be sent to the property owners within the specified feet according to the zoning ordinance.

Karen informed the Planning Commission that Mark Maki received a phone call that the bank building located at Kawbawgam and M-28 E is being considered for use as a convenience store and a specialty retail (art gallery) is being proposed.

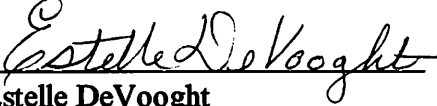

Steve Kinnunen informed the Planning Commission that there are huge brush piles that are being dumped into the lake along M 28 E.

INFORMATIONAL ITEMS AND CORRESPONDENCE:

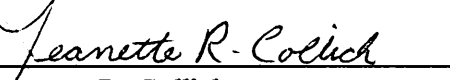

- A. Correspondence to - Estelle DeVooght - reappointment to Planning Commission.
- B. Correspondence from - Mark Maki - semi-trailers/outdoor storage
- C. Information on Greenways taken from Winter Cities Theme.
- D. Information on Refuse Route changes and new curbside recycling instructions.

ADJOURNMENT:

There being no further business, the June 10, 1996 Planning Commission was adjourned. The Planning Commission Meeting was adjourned at 10:00 p.m.

Estelle DeVooght
Planning Commission Secretary

Jeanette R. Collick
Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, JULY 8, 1996**

PRESENT: Bill Sanders, Max Engle, Estelle DeVooght, Mike LaPointe, Steve Kinnunen, Scott Emerson (arrived at 7:50 p.m.)

ABSENT: Bob Whitaker

STAFF PRESENT: Karen Chandler - Director of Planning & Research

OTHERS PRESENT: Stacy L. Busch-Recording Secretary, Judd Johnston, Lois Sherbinow, Michelle J. Barnett, Patrick Barnett, Linda Johnson, Gary Loehr, Vivian Glass, Nancy Rife, Cathy DeVooght, Larry Sterzik, Barb Sterzik, Mike Kolasa, Lincoln Frazier, Gary Johnson

PUBLIC HEARING:

Mike LaPointe, Chairperson, called the Public Hearing to order at 7:30 p.m.

CONDITIONAL USE #38:

Karen Chandler gave a quick over view of the application by Fraco, Inc. Fraco, Inc. Has requested a change from the original conditional use permit.

The proposed site plan would extend the parking lot and remove most of the screening now in place on the north property line.

Mike LaPointe inquired if there was any public comment regarding Conditional Use #38.

Cathy DeVooght- asked if moving more industrial into the area. Why do they need conditional use permit? Are they in spot zoning?

Lyn Frazier- Explained the need for the conditional use.

REZONING #84:

Karen stated rezoning application was from the Planning Commission.

Vivian Glass 501 Co Rd 553-Read letter stating that it is not in the best interest of Chocolay Township to rezone the property for two reasons: First it goes against the 1991 Comprehensive Plan of the Township in her opinion, and secondly, it will prove costly to the Township.

The complete letter is on file within the Rezoning #84 file. A letter from Vivian's Attorney, Raoul Revord, is on file.

Cathy DeVooght 6341 US 41 South-Asked if Planning Commission was trying to get rid of spot zoning and why?

Mike LaPointe-stated yes and that they were taking comment on this rezoning issue now.

Cathy DeVooght-stated that there was spot zoning on Silver Creek Road. Why not change it. Also stated that there is checkerboard zoning on Wright Street. She feels that there has never been any fairness.

Mike Kolasa 128 West Spring Street-Attorney for Larry & Barb Sterzik-Currently evaluating the denial for their Conditional Use #37. Concurs with Vivian Glass's opinion. Opposed to rezoning. Would leave them with a nonconforming use. Considers any rezoning to be retaliatory and discriminatory in nature.

Judd Johnston 1943 M-28 East-For rezoning.

Patrick Barnett 1971 M-28 East-For rezoning. Do not exploit Township, Planning Commission should be courageous.

Gary Loehr 1975 M-28 East-For rezoning. Has detracted from surrounding area.

David Johnson 200 Kawbawgam Road-For rezoning.

Nancy Rife 200 Wanda-area is an eye sore, for rezoning.

Patrick Barnett 1971 M-28 East-For rezoning. Bank building has sat and nothing has been done with it.

Vivian Glass-stated that Mr. Glass has owned the property before 1977 and that there was a nice convenience store there. People who moved there knew it was commercial.

Judd Johnston 1943 M-28 East-Planning Commission should do something about this area.

Vivian Glass-Asked how Casino enters into your mind? It has nothing to do with their property.

Patrick Barnett-Stated that there is too much development occurring here.

Michelle Barnett-weeds and remnants of old store, why is it not going now. It is an eye sore. Why is the motel not existing still.

Larry Sterzik-stated that he should have brought the drawings of his motel plan.

Vivian Glass- asks if this rezoning issue is because of the Casino?

Judd Johnston-stated that this issue goes way back before the Casino.

Mike Kolassa-Studied spot zoning and says this must be justified. Also stated that if approved bank and apartment building may sit.

Nancy Rife-asked what will happen if it is rezoned?

Lois Sherbinow 228 Kawbawgam Road -She has lived there for 27 years and bought their place from Leo Glass. Never has been anything on that corner that has looked good.

Linda Johnson 200 Kawbawgam Road-For rezoning.

Gary Loehr 1975 M-28 East-For rezoning.

Letters received from Margaret Verburg, Michael Kolasa, Vivian Glass and Raoul Revord were placed in Rezoning #84 file.

REGULAR MEETING CALLED TO ORDER:

Mike LaPointe, Chairperson called the Regular Planning Commission Meeting to order at 8:15 pm.

ROLL CALL:

Roll call was taken with Mike LaPointe, Estelle DeVoght, Bill Sanders, Max Engle, Steve Kinnunen present. Scott Emerson arrived at 7:50 pm.

Bob Whitaker was absent.

APPROVAL OF MINUTES OF JUNE 10, 1996:

Mike LaPointe inquired if there were any corrections and/or additions to the June 10, 1996 Planning Commission Minutes?

Emerson moved, Sanders second that the minutes of June 10, 1996 be approved as presented.

MOTION CARRIED: 6-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Mike LaPointe inquired if there were any additions or changes in the agenda?

Emerson moved, DeVooght second that New Business B & A be moved before Old Business A & B.

MOTION CARRIED: 6-0.

PUBLIC COMMENT:

Mike LaPointe inquired if there was any Public Comment. There was none.

NEW BUSINESS:

REZONING #84:

Mike LaPointe asked Karen Chandler if it was rezoned what will happen.

Karen Chandler referenced the memo from Mark Maki stating that:

1. They will automatically become nonconforming if they are rezoned to R-1.
 2. Upon rezoning they will become Class B nonconforming uses subject to the limits contained in the zoning ordinance. Typically this means only normal maintenance is allowed.
 3. The house would still be conforming if changed from R-3 to R-1.
- Property owners could request expansion to the Zoning Board of Appeals. This would be through a Class A request for expansion.

The following questions and comments were made regarding the Rezoning #84:

- What would happen if the property is sold?
- What properties are zoned Public Lands?
- What is the current use of the 5 properties?
- Apartment Complex.
- Residence.
- Building previously used as a bank at another location.
- Apartment complex
- Vacant land.
- It was mentioned that Class A & B are different. Class A-would need to go to the Zoning Board of Appeals for expansion. Class B-does not allow for rebuilding if it is burned and only normal maintenance is allowed.
- 3 properties would really be effected, 2 in R-3, 1 C-1.
- Mr. Sterzik is not in favor of rezoning, has the Township heard from the other apartment owners on the other side.
- Scott Emerson stated that his house is nonconforming also and wasn't worried about it.
- Rezone it to R-1, it is an eye sore.
- This section has been discussed off and on for 5 years. Continues to be a problem.
- Possible development getting out of hand. Needs to be rezoned. Residents want to keep it that way.
- This rezoning is not a personal vendetta against Mr. Sterzik.

Sanders moved, DeVooght second that the Chocoley Township Planning Commission recommend to the Chocoley Township Board that the rezoning request # 84 be approved for the following parcels

1) the following parcel from a current zoning classification of C-1 to R-1.

Section 7, T 47 N, R 23 W

All that part of Gov't lot 4 lying W. of County Road BI and S. of M-28.

2) the following four parcels from a current zoning classification of R-3 to R-1.

Section 7, T 47 N, R 23 W

a. Part of NW 1/4 of SW 1/4 & SW 1/4 of NW 1/4 Beg at a pt on C/L of Co Rd BI 6' S of N Line of NW 1/4 of SW 1/4 th E 100' th N 151' th E 100' th N to M-28 ROW th W'yly alg ROW 59.4' M/L th SW'yly 201' M/L to C/L Co Rd BI th S'yly alg C/L to POB exc Co Rd ROW.

b. Part of NW 1/4 of SW 1/4 & SW 1/4 of NW 1/4 Beg at a Pt on C/L of Co. Rd. BI 6' S of N Line of NW 1/4 of SW 1/4 Th S 194' Th E 350' Th N 200' Th W 150' Th N 145' TH W 100' TH S 151' TH W 100' to POB.

c. The S 100' of N 130' of that part of NW 1/4 of SW 1/4 lying W of Co Rd BI.

d. The N 30' of that part of NW 1/4 of SW 1/4 lying W of Co Rd BI.

3) And the following parcel from a current zoning classification of C-1 to PL.

Section 7, T 47 N, R 23 W

That Part of NW 1/4 of SW 1/4 lying N of Soo Line R/W exc the N 130' lying W of Co Rd BI & exc the N 200' of W 350' E of C/L of Co Rd BI.

MOTION CARRIED: 6-0

CONDITIONAL USE #38:

The applicant, Fraco Inc. has requested that the Chocolay Township Planning Commission consider a Conditional Use permit to allow a change to the original conditional use. This request is to improve the driveway and expand their parking lot. The effect of granting this request would allow for a reduction in the planted screening buffer between Fraco and Willow Farms.

Lincoln Frazier explained that he needs the Conditional Use because he wants the requirements for his previous Conditional Use changed. He is worried about the safety of his customers and he feels the current situation is a safety hazard.

Scott Emerson feels he should add another buffer.

Bill Sanders feels he should keep the green space.

Sanders moved, Engle second that the Conditional Use #38 be tabled until the next meeting for more information and a revised site plan.

MOTION CARRIED: 6-0.

OLD BUSINESS:

SEMI-TRAILERS WORDING FOR TEXT AMENDMENTS:

Amend Zoning Ordinance for Semi-Trailers with a Conditional Use.

SITE PLAN REVIEW AND SITE CONDO LANGUAGE:

Site Plan Review is still with Township Attorney, Karen hopes to review before August meeting.

DISCUSSED BMP CONDITIONS PLACED ON GOLF COURSES:

Planning Commission feels that BMP's should be open and clarified.

Sanders moved Emerson second that Planning Commission require including Golf courses that they follow DNR BMP's for golf courses. Planning Commission does not require for them to submit receipts for soil and fertilizer test as evidence of compliance.

MOTION CARRIED: 6-0.

In discussion of Chocolay Downs Golf Course Planning Commission indicated that if there is 30 feet of Jack Pines the screening is proper, otherwise must follow Zoning Ordinance for screening requirements between land uses.

Planning Commission also feels that Mr. Gibbs should bring a in site plan.

It was suggested that Mr. Gibbs could come in with a plan or Planning Commission will do one for him.

Karen Chandler will send a letter to Marquette County Road Commission about standards for county roads to be applied to Gentz Road.

NEW BUSINESS:

1997 BUDGET REQUESTS:

Reviewed budget as submitted and suggested Karen talked to Northern Michigan University about their GIS system.

Mike LaPointe wrote a memo to Ivan asking for further staff support. Planning Commission agreed.

PLANNING DIRECTOR'S REPORT:

- 1) The summer youth program will start next week. Children ages 7-12 will meet at the Silver Creek Recreation Area Monday-Friday from noon to three p.m. I have a list of activities as planned to date. If you know anyone interested in participating, please have them stop by the office for a participation form.
- 2) Received a call last week from Matt Weik, 120 Old Kiln Road. He had received a complaint on his kennel. His Teaching Family Home has twelve dogs and the home is in the R-1 district. A kennel is allowed in the RR-2 District as conditional uses and his lot borders this district. He'd like some consideration and other than rezoning his parcel to RR-2 or a text amendment to allow kennels in R-1, I don't see any other remedy unless you have some suggestions.
- 3) I have given the definition of a racetrack from the Sands Township Zoning Ordinance to a person requesting to open a motocross and snowmobile track at the Kawbawgam & Mangum area. He may come back with this rezoning request soon.

PUBLIC COMMENT:

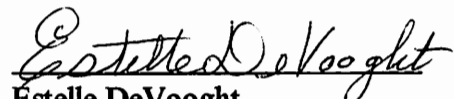

None.

INFORMATIONAL ITEMS AND CORRESPONDENCE:

- A. Mike LaPointe noted receiving memo from Ivan Fende changing June Planning Commission meeting date.
- B. Cathy DeVooght requested copy of PAS memo.

ADJOURNMENT:

There being no further business, the July 8, 1996 Planning Commission meeting was adjourned at 10:20pm.

 Estelle DeVooght
 Planning Commission Secretary

 Stacy L. Busch
 Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, AUGUST 12, 1996**

PRESENT: Mike La Pointe, Bill Sanders, Estelle De Vooght, Bob Whitaker

ABSENT: Max Engle, Steve Kinnunen, Scott Emerson

STAFF PRESENT: Karen Chandler - Director of Planning & Research, Mark Maki - Director of Land Use Development

OTHERS PRESENT: Jeanette R. Collick-Recording Secretary, Debbie Retaskie, Peggy Iery, Judy Smith, Patti and Larry Castell, Mona and Alden Scriba, Duane Carlson, Joseph Holman.

PUBLIC HEARING:

Mike La Pointe, Chairperson, called the Public Hearing to order at 7:32 p.m.

CONDITIONAL USE PERMIT #39:

Mike La Pointe informed the public of the process for the public hearing. He inquired if there were any public comment regarding Conditional Use Permit #39?

Karen Chandler, Director of Planning & Research informed the public present and Planning Commission that the applicant, Judy Smith has requested that the Chocolay Township Planning Commission consider granting a conditional use permit to allow a Bed & Breakfast on the property located at 2441 M 28 East or described as:

Section 9 T47N R23W

The West 100.2' of the East 310.6' of Gov't Lot 1 lying North of M-28.

Karen indicated that Judy Smith first came into the office last fall interested in a Bed & Breakfast. Karen gave a brief background on the proposed Bed & Breakfast.

It was indicated that there would be no more than four guests. She would have two parking spaces for the guests and two rooms. Judy Smith presented pictures of her home and property to the Planning Commission for their review.

Estelle De Vooght read two letters into the Planning Commission record. The first letter was from John Peterson and David Peterson in support of the Bed & Breakfast. The second letter was from Mr. & Mrs. Lee F. Smith in support of the Bed & Breakfast. Both letters will be placed in the file for Conditional Use Permit # 39.

The following comments were made regarding the proposed Bed & Breakfast:

Patti Castell - 2429 M 28 East: In favor of the Bed & Breakfast.

Mona Scriba - 2461 M 28 East: Two very beautiful rooms. She has stayed in many Bed & Breakfasts and this proposed Bed & Breakfast has a tremendous advantage of being on the lake. There are multiple entrances. In favor of the proposed Bed & Breakfast.

Larry Castell - 2429 M-28 East: For the proposed Bed & Breakfast.

Peggy Iery - applicant's daughter: In favor of the Bed & Breakfast.

Mona Scriba - 2461 M 28 East: Responsible neighbor and the family has been there for about 70 years.

Duane Carlson - 206 Riverside Road: Good addition and will enhance the area.

Mike La Pointe inquired if there were any further public comment regarding Conditional Use Permit #39. He informed everyone present that this would be discussed during New Business. There were

no further comments regarding Conditional Use Permit #39. Mike La Pointe closed public hearing for Conditional Use Permit #39.

LOT SPLIT #10:

Karen informed the public present and the Planning Commission that - The applicant, Duane Carlson, has requested that the Chocolay Township Board approve a lot split on the following described property:

Section 7 T47N R24W

Riverside Addition to Lakewood Lot 19 Exc The N 159' Thereof & Exc That Part Lying S'ly of a Line Beg 81.5' N of SW Cor Thereof Th S22° to Chocolay River.

Located at 206 Riverside Drive

The intent of this lot split is to allow Joseph & Barbara Holman to build an addition onto their home on Lot 18 which is already built into Lot 19. A split of 44 square feet is proposed, allowing the necessary lot requirements of the addition.

Joseph Holman made a presentation to the Planning Commission of what the intentions were if this would be approved.

Mike La Pointe inquired if there were any further public comment regarding Lot Split #10. There were none.

There being no further public hearings Mike La Pointe closed the public hearing section of the Planning Commission meeting.

REGULAR MEETING CALLED TO ORDER:

Mike La Pointe, Chairperson called the Regular Planning Commission Meeting to order at 7:47 p.m.

ROLL CALL:

Roll call was taken with Mike La Pointe, Bill Sanders, Estelle De Vooght, and Bob Whitaker present. Max Engle, Scott Emerson and Steve Kinnunen were absent.

APPROVAL OF MINUTES OF JULY 8, 1996:

Mike La Pointe inquired if there were any corrections and/or additions to the July 8, 1996 Planning Commission Minutes? There were none.

Bill Sanders moved, Estelle DeVooght supported that the minutes of July 8, 1996 be approved as presented.

MOTION CARRIED: 4-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Mike La Pointe inquired if there were any additions or changes in the agenda?

It was suggested that New Business be moved before Old Business.

Bill Sanders moved, Bob Whitaker supported that the agenda be approved as amended.

MOTION CARRIED: 4-0.

PUBLIC COMMENT:

Mike La Pointe inquired if there was any Public Comment. There were none.

NEW BUSINESS:

CONSIDER CONDITIONAL USE PERMIT #39:

Mike La Pointe inquired if there were any questions/comments regarding Conditional Use Permit #39.

The following questions/comments were made regarding Conditional Use Permit #39:

- Good location for a Bed & Breakfast.

- Could a sign be placed near the road to advertise for the Bed & Breakfast? It was stated that a sign had been discussed. Typical Bed & Breakfast language allows a sign on the building itself, however our ordinance does not address signs. MDOT does not allow for signs in residential districts.
- The name of the Bed & Breakfast will be "Our Paradise."
- Guests will be preregistered and will be given directions to find the Bed & Breakfast.

After the above discussion and comments the following motion was made:

Bob Whitaker moved, Bill Sanders supported that the Chocoley Township Planning Commission approve the request on Conditional Use Permit # 39 to allow a Bed & Breakfast on the following described property:

Section 9 T47N R23W

The West 100.2' of the East 310.6' of Gov't Lot 1 lying North of M-28.

Located at 2441 M-28 E

With the following conditions:

1. That Zoning Compliance Permit be obtained from the Chocoley Township Zoning Administrator prior to use.
2. That the necessary permits as required by Federal, State and Local Agencies be acquired prior to project commencement.

MOTION CARRIED: 4-0.

Judy Smith, applicant thanked the Planning Commission for their support.

LOT SPLIT #10:

Mike La Point inquired if there were any questions/comments regarding Lot Split #10?

The following questions/comments were made regarding Lot Split #10:

- Parcel left will be in compliance.
- Doesn't interfere with other property owners.
- The applicant has been to the Zoning Board of Appeals twice.
- Zoning Administrator has no problem with the proposed lot split.
- Basically the applicant is in compliance.

Bill Sanders moved, Estelle De Vooght supported that the Chocoley Township Planning Commission recommends to the Chocoley Township Board that Lot Split #10 be approved.

MOTION CARRIED: 4-0.

OLD BUSINESS:

CONSIDER CONDITIONAL USE PERMIT #38:

The following questions/comments were made regarding Conditional Use Permit #38:

- Trees are behind dirt berm.
- What is the reasoning for the parking area? Is it to separate customer parking from the truck traffic?
- Good idea to get the truck traffic away from the customer traffic.
- What about the washing of the vehicles?
- What is the time limitation on getting this approved for the applicant?
- What and where would the buffer be?
- Does the applicant indicate a buffer in the parking lot?
- What does the applicant have in mind?

After the above questions and discussion the following motion was made:

Bill Sanders moved, Bob Whitaker supported that Conditional Use #38 be tabled until the September 1996 Planning Commission meeting and to obtain more information on what the applicant plans on doing.

MOTION CARRIED TO TABLE: 4-0.

DISCUSS POSSIBLE WORDING FOR TEXT AMENDMENTS:**SEMI-TRAILERS AND OUTDOOR STORAGE:**

The following questions/comments were made regarding semi-trailers and outdoor storage:

- What is temporary? It was stated that temporary could be for construction materials.
- ABC True Value was used as an example.
- The history of La Rue's and Harvey Oil semi-trailers were also given.
- Marquette City does not allow any semi-trailers to be used for storage.
- We need flexibility for temporary storage.
- Should be a process to keep outdoor storage in control.
- Liability should be checked into as to where liability would lie.
- This should be dealt with as a conditional use.

After the above questions/comments were made, the following language was suggested and that a public hearing be scheduled regarding semi-trailers and outdoor storage.

Add to SECTION 101-DEFINITIONS

OUTDOOR STORAGE, refers to the storage of goods and materials outside of any building or structure.

Add to (SEC) SECTION 107 - ACCESSORY USES AND STRUCTURES

- (C) Semi-trailers as used for outdoor storage are permitted as an accessory to commercial use with a conditional use permit. The Planning Commission will require screening and buffering to limit or eliminate outdoor storage's impact on adjacent properties. Where necessary the Conditional Use Permit must assure that the use or structure does not become contrary to the public health, safety, or welfare or the spirit and purpose of this Ordinance.

Add to (SEC) SECTION 209 DISTRICT C-1; (SEC) SECTION 210 DISTRICT C-2; (SEC) SECTION 212 DISTRICT C-3

- (C) **CONDITIONAL USES - Outdoor storage**

SITE PLAN REVIEW AND SITE CONDO:

Language review from Attorney is not yet available.

DISCUSS TRAILS COMMITTEE RECOMMENDATION:

Karen presented a map and gave a brief summary of the various meetings with the trail's committee.

It was noted that the money for easements from property owners and liability insurance lies within the North Country Trails and the Snowmobilers groups, not the township. The Township would only provide the names and addresses of the property owners that they would need to get the easements from.

The North Country Trails and Snowmobilers Association would like the endorsement of the Township. This would be done so they can obtain their funding.

DISCUSS THE FAX TO COUNTY ROAD COMMISSION AND RESPONSE:

Karen went over the questions and information received from the County Road Commission on the transmittal she sent to the County Road Commission dated July 10, 1996 and their response dated July 26, 1996:

1. The Chocolay Township Planning Commission is recommending to the Township Board that property owned by Leo Glass at Kawbawgam Road and M-28 be rezoned from Commercial-1 to Residential - 1. During discussion at their meeting, a commissioner indicated that a stop work order may have been issued to Leo Glass sometime between 1991 and the present for driveway work on this parcel. I spoke with Bill Santilli from MDOT. Permits were sent to Leo Glass, but never returned.

My question is - has the Marquette County Road Commission been involved with permits on this parcel and has a stop work order been issued?

County's Response:

RE: Leo Glass, Permits for driveway from Kawbawgam Road

There is no recollection of, or written record of, Mr. Glass applying for a permit. Being that no permits were issued, MCRC does not recall any stop work orders.

2. A new sign at the Chocolay Downs Golf Course has been erected on what appears to be on the County right-of-way. Jeff Chernach, MDOT has placed an orange removed request on this sign. Mr. Joe Gibbs told me this morning that he is paying an annual fee to the County Road Commission to place the sign near the highway.

Is this true? Mr. Chernach tells me the sign will be removed.

County's response:

RE: Joe Gibbs, Sign Permit

Mr. Gibb's has applied for a conditional use permit to construct a sign in county road right-of-way. A permit has not been issued by the Road Commission. If a permit is issued, it will require Mr. Gibbs to set the sign back a sufficient distance from MDOT right-of-way to be in compliance with MDOT requirements under the Bill Board Law.

3. In 1991, Mr. Randy Gentz applied to the Chocolay Township Planning Commission for a conditional use permit to open a golf course off County Road 480 and Gentz Road. One of the conditions was to follow the recommendation of County Road Commission presented in a letter from Mr. John Beerling. A copy of Mr. Beerling's letter has been faxed with this memo.

County's Response:

RE: Randy Gentz, Condition Use Permit 19

Mr. Beerling's letter requests that the Township not issue a conditional use permit to operate the golf course until such time as the road improvements are made to upgrade to county road standards. The Road Commission's recommendation remains that if Mr. Gentz wants to open and operate the golf course, then the Township should require the appropriate road improvements be made by the developer.

It was suggested that a meeting be set up with Randy Gentz to see what his intentions are regarding the road before the September 1996 Planning Commission and then place this item on the agenda.

It was also suggested that a copy of the County Road Commission's response be sent to Randy.

PLANNING DIRECTOR'S REPORT:

- 1) The summer youth program has been quite a success. A Teen Dance was held on Friday, August 9 at the Cherry Creek School for teens ages 13-16. About thirty teens signed the guest book. The Summer Youth Worker's gathered door prizes from the Chocolay Area businesses and the two movie theaters in Marquette. These prizes were a great hit.
- 2) We have had requests from Vivian Glass and Cathy DeVooght for information on zoning issues almost every day in our office since the last Planning Commission meeting. It becomes difficult to get other assignments done with the constant interruptions. However, the office staff has been able to keep up.
- 3) When the Township Board passed the Bed & Breakfast ordinance, they wanted the Planning Commission to look at the requirement for 20 acres in districts where the ordinance allows building on 5 acres parcels. Also, one Board member voted against the amendment because the language did not allow for Bed & Breakfast in the R-1 district.

- 4) Steve Blondeau and his consultant, David St. Onge, met with Mark Maki, Larry Gould and me on July 15 to discuss a mining & mineral extraction permit. The Zoning Board of Appeals has determined that the Jeske Flooding area is a public park. The Blondeau operation then is within 3,000 feet of a public park. I have responded to the initial meeting and have not heard back from Blondeau.
- 5) I have a copy of the changes to the Farmland and Open Space Preservation Program. I was not sure if I have made copies for the Planning Commission.

PUBLIC COMMENT:

Karen informed the Planning Commission of the upcoming workshops, one being Thursday, September 12, 1996 in Marquette and the other being Saturday, October 19, 1996 in Iron Mountain. If any of the members are interested in attending any of the workshops, please get in touch with her before the deadline. Their registration, mileage and per diem will be provided for by the township.

There being no further public comment, the second public comment section of the Planning Commission meeting was closed.

INFORMATIONAL ITEMS AND CORRESPONDENCE:

- A. Correspondence from - MTA - Workshop on Planning in Marquette
- B. Correspondence from - Mark Maki - copies of letters sent to Joe Gibbs and Randy Gentz.

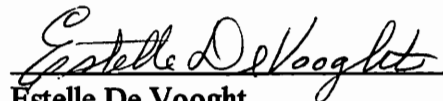

ADJOURNMENT:

There being no further business, the following motion was made:

Bill Sanders moved, Estelle De Vooght supported that the August 12, 1996 Planning Commission meeting be adjourned.

MOTION CARRIED: 4-0.

The Planning Commission meeting was adjourned at 9:10 p.m.

 Estelle De Vooght
 Planning Commission Secretary

 Jeanette R. Collick

There are no minutes for the meeting in August, 1996.

There was no meeting scheduled.

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, SEPTEMBER 9, 1996**

PRESENT: Bill Sanders, Mike La Pointe, Estelle De Vooght, Bob Whitaker, Max Engle, Scott Emerson (arrived at 7:40 p.m.) **ABSENT:** Steve Kinnunen

STAFF PRESENT: Karen Chandler - Director of Planning & Research, Mark Maki - Zoning Administrator

OTHERS PRESENT: Jeanette R. Collick-Recording Secretary, Gary Loehr, Linda Rossberg, Randy Gentz, Cathy Gentz, Dave Martin, Curt Rife, Nancy Rife, Connie Barto, Glen Barto, Michelle Barnett, Patrick Barnett, Mike Kolasa

PUBLIC HEARING:

Mike La Pointe, Chairperson called the Public Hearing to order at 7:30 p.m. He explained the process of the public hearing.

REZONING #84:

Karen informed the Planning Commission that two months ago an error was noted in publication when this report was being prepared for the Township Board.

When she advertised this for publication for the first public hearing, she advertised the whole parcel that belonged to Larry Sterzik, identified the parcel that belongs to the township, however, she did not identify the fact that they are in RR2 Zoning District.

Gary Loehr - 1975 M 28 E: - has lived in that area for approximately 16 years and is in favor of the rezoning.

Connie Barto - 1951 M 28 E: - has lived in the area for about 20 years. Neighbors want the area Residential 1. Have been wanting the area rezoned for some length of time.

Mike Kolasa - 128 W. Spring Street & Attorney for Mr. & Mrs. Sterzik: - requested that the letter he wrote be read into the record. Letter placed in Rezoning # 84 file.

Linda Rossberg - 1975 M 28 E: - Wants to keep the area Residential.

Scott Emerson arrived at 7:40 p.m.

Glen Barto - 1951 M 28 E: - Fully supports the Rezoning #84.

Patrick Barnett - 1971 M 28 E: - wants to be free of the threats that have been made to him. He is for Rezoning #84.

Nancy Rife - 202 Wanda: - Nothing personal, but the area on M 28 E and Kawbawgam in question has been an eye sore for quite some time. For the Rezoning #84.

Curt Rife - 202 Wanda: - property owners should have certain freedom to do some things you want to do on your property. However, he is for Rezoning #84.

Mike La Pointe inquired if there were any further comment pertaining to the public hearing for Rezoning #84.

Estelle De Vooght read the two letters that were received into the record. (1) Michael J. Kolasa (attorney for Mr. & Mrs. Sterzik) - Against Rezoning #84 and (2) Letter from Larry Sterzik and Vivian Glass - Against Rezoning #84. Both letters placed in Rezoning # 84 file.

There being no further public comment for Rezoning #84, the public hearing was closed for Rezoning #84.

REZONING #85:

Karen informed the public present and the Planning Commission on the background information regarding Rezoning #85.

In December 1995, The Township Board approved the rezoning of the North 100' of the East 200' of the West 369.5' of that part of the NW 1/4 of the NW 1/4 lying South of Silver Creek. This parcel is owned by Mr. Paul Huard.

While the Director of Land Use Development was updating the zoning maps, he found that we rezoned a parcel that was already in the R-3 district. When the revised application was received from Mr. Huard in July 1995, Karen used his description which did not address the South 400'.

The property description was incorrect.

Mike La Pointe inquired if there were any further comment pertaining to the Public Hearing for Rezoning #85. There were none. The Public Hearing for Rezoning #85 was closed.

REZONING #86:

Karen informed everyone present that the applicants, Brian and Ann St. Pierre, have petitioned the Chocoday Township Board to amend the Chocoday Township Zoning Ordinance with language that will allow motor vehicle service in the C-2 zoning districts as a permitted principal use.

Mike La Pointe inquired if there were any public comment pertaining to Rezoning #86. There were none. Mike La Pointe closed Public Hearing regarding Rezoning #86.

There being no further public hearings, the public hearing session of the Planning Commission was closed.

REGULAR MEETING CALLED TO ORDER:

Mike La Pointe called the Regular Planning Commission Meeting to order at 8:00 p.m.

ROLL CALL:

PRESENT: Bill Sanders, Mike La Pointe, Estelle De Vooght, Bob Whitaker, Max Engle, Scott Emerson (arrived at 7:40 p.m.). **ABSENT:** Steve Kinnunen

APPROVAL OF THE MINUTES OF AUGUST 12, 1996:

Mike La Pointe inquired if there were any corrections and/or additions to the August 12, 1996 Planning Commission Minutes? There were none.

Bill Sanders moved, Scott Emerson supported that the minutes of August 12, 1996 be approved as presented. **MOTION CARRIED: 6-0.**

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

It was suggested that under New Business, A. Consider Rezoning #84 - Kawbawgam & M 28 be moved up on the agenda after Old Business, A. Consider Use Permit #38 - Fraco, Inc.

Bill Sanders moved, Scott Emerson supported that the Agenda be approved as suggested. **MOTION CARRIED: 6-0.**

OLD BUSINESS:

Peter Frazier, President of Fraco was present and said if the Planning Commission needed questions answered, he would answer them.

Mike La Pointe informed the Planning Commission that Mark Maki, Karen Chandler and himself met with the Frazier's and discussed the parking lot greenery proposal. The Fraco site currently has green areas. There may not be tree plantings within the parking lot, but there is grass in the front of the office building. The sign area out front on Cherry Creek Road is well kept with flower plantings around the sign.

This industrial site is not seen from Cherry Creek Road. We need to keep in mind that this site receives a small percentage of pedestrian traffic. Lincoln Frazier has agreed to plant a 30' green buffer between the parking lot and the lot line to insure the screening requested in the original conditional use permit. This planting will create a better buffer than presently on the site.

Lynn Frazier expressed in item # 20 of the application that trees can be planted for additional screening. The Fraco property borders the Willow Farm property. The Willow Farm property along that line is also zoned C-3. There are two large trees on the property line that can be protected. Additional screening can be planted to protect the intent of Conditional Use Permit # 17.

Mark Maki commented that they are dealing with a small number of vehicles. Scott Emerson suggested that guidelines be given to the developer for the planting of trees, etc.

Mike La Pointe inquired if there were any further comments regarding Conditional Use #38. There were none.

Scott Emerson moved, Bill Sanders supported that the Chocolay Township Planning Commission approve the request on Conditional Use Permit # 38 to amend the original permit on the following described property:

Section 7 T47N R24W

The N 660' of W 1278.26' of NW 1/4 of SE 1/4 lying W of Cherry Creek Road
exc the S 500' of E 460.37' thereof. Located at 200 Cherry Creek Road.

With the following conditions:

1. That the large trees on the site plan submitted with this application be protected.
2. That two rows of pines, at least 30 inches high, be planted at five feet intervals along the north lot line. The Natural Resources Conservation Service can be contacted for planting recommendations.
3. That Zoning Compliance Permit be obtained from the Chocolay Township Zoning Administrator prior to use.
4. That the necessary permits as required by Federal, State and Local Agencies be acquired prior to project commencement.

MOTION CARRIED: 6-0.

NEW BUSINESS:

CONSIDER REZONING #84 - KAWBAWGAM & M-28:

The following questions/comments were received regarding Rezoning #84:

All of the public comment from the public hearing was taken into consideration.

- Marquette County Planning Commission didn't acknowledge any of the township staff recommendation or reasoning.
- The Planning Commission has been working with this area for rezoning for the past five years. Basically this is old business that needed to be addressed.
- When this was submitted in the past, the County Planning Commission supported the staff and Planning Commission's recommendations and reasoning.
- The Township Board has been dealing with this for about 10 years time and time again and about 5-6 years ago decided this had to be on a priority list of things to do.
- Has the Marquette County Planning Commission received a copy of the Townships Strategic Plan? They have a copy of the township's Comprehensive Plan, but not the Strategic Plan. It was suggested that one be given to the County Planning Commission.
- The Planning Commission is not making a decision on this rezoning because of the casino.

- Businesses should be concentrated for development in certain areas, such as Beaver Grove and the M 28 & US 41 intersection.
- Needs rules, etc. - supported by the People-At-Large in the Strategic Plan.
- Casino wasn't there all the time this was discussed in the past.
- Soil and Water may be a problem.
- There has been more than ample time to have something constructive done with the building on M-28 and Kawbawgam, but seems to be a dead issue.

Mike La Pointe inquired if there were any further questions/comments concerning Rezoning #85. There were none.

Bill Sanders moved, Scott Emerson supported that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the rezoning request # 84 be approved for the following parcels:

- 1) The following parcel from a current zoning classification of C-1 to R-1.
Section 7, T 47 N, R 23 W
All that part of Gov't lot 4 lying W. of County Road BI and S. of M-28.
- 2) The following three parcels from a current zoning classification of R-3 to R-1
Section 7, T 47 N, R 23 W
 - a. Part of NW 1/4 of SW 1/4 & SW 1/4 of NW 1/4 Beg at a pt on C/L of Co Rd BI 6' S of N Line of NW 1/4 of SW 1/4 th E 100' th N 151' th E 100' th N to M-28 ROW th W'ly alg ROW 59.4' M/L th SW'ly 201' M/L to C/L Co Rd BI th S'ly alg C/L to POB exc Co Rd ROW.
 - b. The S 100' of N 130' of that part of NW 1/4 of SW 1/4 lying W of Co Rd BI.
 - c. The N 30' of that part of NW 1/4 of SW 1/4 lying W of Co Rd BI.
- 3) The following parcel partially zoned R-3 and partially zoned RR-2 be rezoned to R-1 in its entirety
Section 7, T 47 N, R 23 W
Part of NW 1/4 of SW 1/4 & SW 1/4 of NW 1/4 Beg at a Pt on C/L of Co. Rd. BI 6' S of N Line of NW 1/4 of SW 1/4 Th S 194' Th E 350' Th N 200' Th W 150' Th N 145' TH W 100' TH S 151' TH W 100' to POB.
- 4) And the following parcel partially zoned C-1 and partially zoned RR-2 be rezoned to PL in its entirety
Section 7, T 47 N, R 23 W
That Part of NW 1/4 of SW 1/4 lying N of Soo Line R/W exc the N 130' lying W of Co Rd BI & exc the N 200' of W 350' E of C/L of Co Rd BI.

It was inquired of Mr. Kolasa if the current bank building is up for sale? He informed the Planning Commission that he is the attorney for Mr. & Mrs. Sterzik, not Mr. & Mrs. Glass.

MOTION CARRIED: 6-0

Karen Chandler explained the process that would be followed regarding the rezoning, which is:

- 1) This will go back to the Marquette County Planning Commission. They meet the first Wednesday of each month. The next meeting is October 2, 1996.
- 2) The Marquette County Planning Commission's recommendation will go back to the Chocolay Township Board with the recommendation of the Township Planning Commission. The Township Board meets the first and third Monday's of each month. This would probably be on the Township Board's agenda for the 3rd Monday in October.

Karen will notify the people present, if interested so they can attend the meetings when this will be discussed.

OLD BUSINESS:

DISCUSSION ON GENTZ INC., GOLF COURSE:

Karen informed the Planning Commission that a soil sample has been done. And a nitrate test has been done on their home well. The Township has received copies of test results.

Karen informed the Planning Commission that Randy & Cathy Gentz met with her recently to discuss the progress on their development and their understanding of the condition placed on their permit to upgrade Co. Rd. BZ and the private road to a standard established by the MCRC. As discussed at our last Planning Commission meeting, this standard as presented by the MCRC is to have the road blacktopped.

The Gentz's realize that the road will eventually need to be brought up to the County standards. Randy informed the Planning Commission that there is a gravel road now. Also, the Township residents have been using the sod farm for a number of years for a compost site.

Bill Sanders moved, Scott Emerson supported that the Planning Commission ask Randy & Cathy Gentz to meet with the Director of Planning & Research, the DPW Supervisor, and a representative of the Marquette County Road Commission to determine the exact standards and the estimated costs and to bring this information back to the Planning Commission.

MOTION CARRIED: 6-0.

Randy and Cathy Gentz thanked the Planning Commission.

DISCUSS RECOMMENDATIONS ON LANGUAGE FOR TEXT AMENDMENTS: (1) SEMI-TRAILERS AND OUTDOOR STORAGE, (2) SITE PLAN REVIEW AND (3) SITE CONDO.

Karen went over the suggested language for the semi-trailers and outdoor storage with the Planning Commission.

She informed the Planning Commission she will be setting up an appointment with the Township attorney regarding language for the Site Plan Review and Site Condo.

The following comments were made regarding Semi-Trailers and Outdoor Storage:

- Filed as a Conditional Use.
- Keep the word visual in the language for semi-trailers and outdoor storage.
- Advertise for a public hearing for this language when another public hearing is scheduled.

It was also recommended that when reviewing language for Site Plan Review and Site Condo, Karen and Mark both have the opportunity to review the language.

The Planning Commission agreed unanimously on the following language for Semi-Trailers and Outdoor Storage:

Add to SECTION 101 -DEFINITIONS

OUTDOOR STORAGE, refers to the storage of goods and materials outside of any building or structure.

Add to (SEC) SECTION 107 - ACCESSORY USES AND STRUCTURE

C. Semi-trailers as used for outdoor storage as permitted as an accessory to commercial use with a conditional use permit. The Planning Commission will require screening and buffering to limit or eliminate outdoor storage's visual impact on adjacent properties. Where necessary the Conditional Use Permit must assure that the use or structure does not become contrary to the public health, safety, or welfare or the spirit and purpose of this Ordinance.

NEW BUSINESS:

**CONSIDER REZONING #85 - WILLOW ROAD (DESCRIPTION CORRECTION):
REZONING #85 -**

Karen informed the Planning Commission that the following parcel of property was petitioned to be rezoned:

Section 7, T 47 N, R 24 W

The North 100' of the South 400' of the East 200' of the West 369.5' of that part of the NW 1/4 of the NW 1/4 lying South of Silver Creek.

In December 1995, the Township Board approved the rezoning of the North 100' of the East 200' of the West 369.5' of that part of the NW 1/4 of the NW 1/4 lying South of Silver Creek. This parcel is owned by Mr. Paul Huard.

While Mark Maki was updating the zoning maps, he found that we rezoned a portion of the parcel that was already in the R-3 district. When the revised application was received from Mr. Huard in July 1995, Karen used his description which did not address the South 400'.

Max Engle moved, Estelle De Vooght supported that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the following parcel be rezoned from R-2 to R-3

Section 7, T 47 N, R 24 W

The North 100' of the South 400' of the East 200' of the West 369.5' of that part of the NW 1/4 of the NW 1/4 lying South of Silver Creek.

MOTION CARRIED: 6-0.

CONSIDER REZONING #86 - TEXT AMENDMENT (AUTO BODY SHOPS):

Karen informed the Planning Commission that the applicants, Brian and Ann St. Pierre, have petitioned the Chocolay Township Board to amend the Chocolay Township Zoning Ordinance with language that will allow motor vehicle service in the C-e zoning districts as a permitted principal use.

The following questions/comments were received regarding Rezoning #86.

- If we allow motor vehicle service in the C-2 zoning district, we may make another trucking business in the same area ok because they also service motor vehicles.
- The Planning Commission agreed unanimously that we shouldn't allow motor vehicle service in the C-2 Zoning District.
- If a body shop would get too busy, it could become another junk yard.
- Examples of body shops within the township were given: such as Walt's Auto Body, Hornborgan's, and La Jeunesse.
- If this language is passed, it would be allowing a text amendment change, not a specific application.

After discussion and the above comments, the following motion was made:

Bill Sanders moved, Max Engle supported to recommend to the Chocolay Township Board denial of the language that would allow motor vehicle service in the C-2 Zoning District as a permitted principal use for the following reasons (1) it is not consistent with the Township Comprehensive Plan and (2) there are adequate properties in the C-3 Zoning Districts in the Township.

MOTION CARRIED: 6-0 TO DENY THE LANGUAGE.

PLANNING DIRECTOR'S REPORT:

- 1) A memo on development of M-28/US 41 from Mark Maki is in your packet. Ivan Fende, Mark and I met with the property owners of parcels around the northeast intersection of M-28 and US 41. We discussed a road coming from around the back. However, Wahlstrom's have their property on M-28 for sale and are not interested in negotiating any changes at this time. They feel it would be for the new owners to decide future access. Ivan will be contacting MDOT to start discussions on a frontage road on US 41.
- 2) I will be presenting a proposal to Professor Jean Ferrill's class on Wednesday. She has an environmental assessment class and has asked if we have any projects. The proposal will include looking at three different areas down M-28. This project will take place during the fall semester and the class finding should be presented to the Township sometime in late December.

I also discussed with Professor Ferrill the possibility of working on an update to our Comprehensive Plan. If her winter class can handle this project, we should have it done. We could also use updates on the census material within the plan.

- 3) I received copies of *Living With Michigan Wetlands: A Landowner's Guide* from Mike Farrell, Marquette County Drain Commissioner. If any of you would like extra copies to pass along, please let me know.

PUBLIC COMMENT:

County Planning Commission is an advisory board. It was suggested that a Township Planning Commission representative attend the next Marquette County Planning Commission meeting. Marquette County Planning Commission meets the first Wednesday of each month.

It was suggested that CABA support be obtained and written to MDOT regarding access frontage on US 41 & M-28. This would probably enhance the quality of all the businesses to have an access road. It was suggested that possibly the township would pay for traffic consultant. The Planning Commission unanimously agreed that Mark had good points in his memo dated August 9, 1996 to them. It was agreed unanimously that a letter be written by the Planning Commission to the Township Board to hire a traffic consultant.

Karen informed the Planning Commission that the zoning conference at the Ramada Inn for Thursday, September 12 has been canceled.

Regarding Trails Committee support. It was recommended that the Township Board at least consider to provide some staff time and perhaps some funds this year and next year to acquire some right of way for trails. It was suggested that possibly some monies left from the Planning Commission Budget this year be used for trails. We have support from the People-At-Large in our Strategic Plan. Karen will be attending the MSPO/APA conference in Lansing at the end of the month. There will be a session on trail ways, etc.

The Planning Commission members inquired what was being done regarding obtaining the concept of the Ball State University concept? Karen informed the Planning Commission that she has been in contact with all of the agencies, but hasn't compiled any of the information.

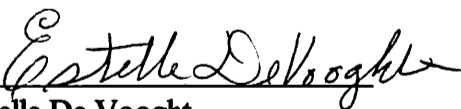

Maggie Meiss commented to the Planning Commission that she has bad well water. She also commented that part of the legal settlement with Blondeau's and the Township was that the vehicles wouldn't be ran from 9: p.m. through 5:00 a.m., but has been doing this right along. Something needs to be done. The Planning Commission was informed that U.P. Moving & Storage was being used for Blondeau's Trucking business.

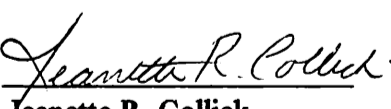

INFORMATIONAL ITEMS & CORRESPONDENCE:

- A. Memo - from Mark Maki - Development of U S 41/M-28 Access Road.

ADJOURNMENT:

Estelle De Vooght moved, Bob Whitaker supported that there being no further business the September 9, 1996 Planning Commission meeting be adjourned. The Planning Commission meeting was adjourned at 9:40 p.m.

Estelle De Vooght
Planning Commission Secretary

Jeanette R. Collick
Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, OCTOBER 14, 1996**

MEETING CALLED TO ORDER:

Mike LaPointe called the Regular Planning Commission Meeting to order at 7:32 p.m.

ROLL CALL: PRESENT: Mike LaPointe, Steve Kinnunen, Bob Whitaker, Estelle DeVooght
ABSENT: Bill Sanders, Scott Emerson, Max Engle

STAFF PRESENT: Karen Chandler - Director of Planning & Research and Mark Maki - Director of Assessing & Zoning.

OTHERS PRESENT: Jeanette R. Collick - Recording Secretary, Joe Palermo - Student Intern, Randy Gentz, Cathy Gentz, Richard Reader.

APPROVAL OF THE MINUTES OF SEPTEMBER 9, 1996:

Mike LaPointe inquired if there were any correction and/or additions to the September 9, 1996 minutes. After corrections on page 6 and 9 of the draft of the September 9, 1996 minutes, the following motion was made:

Bob Whitaker moved, Estelle DeVooght supported that the September 9, 1996 Planning Commission minutes be approved as corrected.

MOTION CARRIED: 4-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Mike La Pointe inquired if there were any corrections' and/or additions to the agenda.

Mark Maki requested that discussion for Fraco Inc. be added to Old Business after discussion on Gentz, Inc. Golf Course.

Bob Whitaker moved, Estelle DeVooght supported that the agenda be approved as suggested.

MOTION CARRIED: 4-0.

PUBLIC COMMENT:

Mike La Pointe inquired if there was any public comment.

Karen Chandler introduced Joe Palermo, Student Intern. She informed the Planning Commission that Joe is presently working on the Fire Fighters Right to Know and when finished with that project will be returning to the Planning Department.

Karen informed the Planning Commission that the Chocolay Township Police Department participated in the Safety & Sober program and received enough points to be awarded a laser radar gun worth \$5,000.

There being no further public comment, the first public comment section of the Planning Commission was closed.

OLD BUSINESS:**DISCUSSION ON GENTZ, INC., GOLF COURSE:**

Karen brought the Planning Commission up-to-date on Gentz, Inc. - Golf Course.

She informed the Planning Commission that Larry Gould and she had a discussion and made suggestions and a few options. The options are listed on a memo to the Planning Commission dated October 14, 1996 and placed on file in the Planning Commission Agenda Notebook.

The following comments were made regarding the Gentz, Inc. - Golf Course.

- The county won't pay for the road to be black topped.
- In the Conditional Use, one of the requirements was to follow County Road Commission recommendation.
- Reopen Conditional Use and review criteria.

- The applicant can't pay for the road to be black topped before opening the golf course.
- Question - what is the county road standard?
- One of the conditions was that prior to the opening of the golf course, the road would be brought up to County standards which means paved.
- What traffic is generated on this road for the Township composting?
- Can we extend the time frame for the paving of the road?
- What are the criteria for dust control?
- Possibly 3-5 years would be a workable time frame for the developer.

The following motion was made after the above discussion.

Steve Kinnunen moved, Bob Whitaker supported that the township attorney be contacted to see if the Conditional Use could be reopened.

Discussion - Planning Commission is willing to work with the developer. The County Road Commission be contacted to see if this would be okay with them.

MOTION CARRIED: 4-0.

FRACO - PETE FRAZIER:

Mark Maki informed the Planning Commission that Pete Frazier is planning to build a building to bring equipment on the site which is basically a higher tank to use to drain water and residue from the trucks. Presently they are being cleaned out and emptied on the site on the ground, then the hardened residue is hauled away to be broken up and reused.

The following comments were made regarding this topic.

- DNR - wastewater discharge requires a permit - Cannot be dumped on the ground.
- Planning Commission reviewed the pictures Mark presented to them.
- Anytime there is a change in the site plan, this should come back to the Planning Commission to review.
- The developer probably wants to get started because of the weather.
- Will the tank take care of the waste water?
- Eventually Fraco will probably be hooked to the Township Sewer.
- If another building is put up, this would be a change in the Conditional Use.
- Planning Commission needs to be informed when there is a use change.
- Mr. Frazier has always been willing to work with the township.

STRATEGIC PLAN:

Karen presented the following comments concerning the Strategic Plan:

COMMUNITY AT LARGE

Survey Community to assess acceptance of a community foundation and 'community center' concept. A survey has been developed. However, time has not allowed for selecting a random sample nor mailing out the survey. I have called NMU's, Dr. Steven Nelson to see if his winter Research Method's class would be interested in completing this project.

Develop a plan to communicate/educate people about planning goals and community issues. We have had great success with the Action Shopper and the CABA Quarterly. I fax the Township Board agenda's to the local news media and frequently see a spot in the Mining Journal and have heard spots on WDMJ.

Develop a promotional theme/campaign. The Township Board has approved a logo contest. I haven't had time to start the process. We have made an effort to attend all CABA meetings on the third Wednesday each month at 7:30 a.m. at Wahlstrom's.

Create more community involvement activities. The summer youth program was a great success this summer. The Communities Committed to Youth & Families Committee has been meeting. I did have a meeting just a few weeks ago. I sent out thirty notices. Received three phone calls and only four people attended. We did decided at this meeting to start promoting existing community projects as listed in the Strategic Plan and any others from the schools.

Form a committee to research/explore ways to work positively with the Keweenaw Bay Indian Community.

BUSINESS DEVELOPMENT

Prepare a graphic representation of "The Vision." I have made contact with communities involved in the charrette program from Ball State University. I have been in contact with Carol Hicks about the possibility of a similar process at NMU.

Define and implement development standards that will create our vision of a natural park-like business district with an identifying architectural theme that highlights the townships 'natural' beauty.

COMMUNITY DEVELOPMENT

Maintain the rural/natural landscape by preserving open space.

Earmark tracts of land for acquisition to fit with the master plan. Include provisions for maintenance, tax support connectivity and green belt concepts. An Ad Hoc Trails Committee did meet during the summer. Our student intern at the time collected information and materials on trail development. We haven't met since Shane left. I would hope we can get together again before the end of the year.

ENVIRONMENT

To inform residents, businesses and government about local environmental issues via an annual awareness/action day. Carl Lindquist did attend the annual bike registration day program. The Chocolay Watershed Council provided tee-shirts and posters and Carl worked with the children. The summer youth program did a field trip to the Fish Hatchery.

INFRASTRUCTURE

Initiate a comprehensive recycling strategy. The Township did contract out the refuse pickup. Part of the bidding process included recycling. As you know, curbside recycling is provided for residents that put out tagged refuse bags.

Master plan, zoning ordinance and expanded infrastructure will reflect the "New Vision" of Chocolay

IMPLEMENTATION

Review progress on the strategic plan in six months and one year to assess action.

The following comments were made by the Planning Commission members:

- What is the status of the court case regarding the Keweenaw Bay Indians? The township hasn't received any new information.
- It was suggested that a committee be formed for communication.
- This development could have an impact on what the township does.
- Need proper liaison for communication.
- What was decided regarding the letter from Mark that went to the Township regarding the hiring of a traffic consultant? This went to the Board as an informational item. No action was taken.
- Township Supervisor is aware of this and is waiting to see what is happening to some of the property behind Snyders. Planning Director will check on this and report back to the Planning Commission.
- Hiring a traffic consultant is different from having a traffic survey done.
- A plan needs to be done. We need to obtain a cost and plan, which may be made mandatory.
- A traffic consultant could suggest changes in the zoning ordinance.
- The first step is to obtain information on the cost estimate.
- The township needs to pursue this matter.

DISCUSS RECOMMENDATIONS ON LANGUAGE FOR TEXT AMENDMENTS FOR SITE PLAN REVIEW AND SITE CONDO:

Township Attorney wants to rewrite the language regarding this. He will meet with Karen and Mark to review the language for Site Plan Review and Site Condo.

NEW BUSINESS:**DISCUSSION ON GIS SYSTEM:**

Karen inquired as to what we want in a GIS System. A Planning Commissioner inquired what does a GIS consist of? GIS stands for Geographical Informational System. It shows overlays on land uses, different types of soil, zoning, etc.

There are seven grants going out state wide. Marquette has been identified as one area meeting the criteria to receive a grant. Marquette City has a GIS System, but funds for an operator were cut from their current budget.

Karen gave a list of possible groups and interested people that may have a use for a GIS. What is the GIS going to accomplish? Everything will be in one area. The following example was given. It will show you contaminated wells, different types of soil, rezoning, known problems with land, etc. It will also be a helpful tool in groundwater problems and zoning.

Planning tool will consist of the following: 1) Soil; 2) Zoning; 3) Tax Maps; 4) Sewer System; 5) Groundwater; 6) Existing Land Use.

DISCUSSION ON GREENWAY TRAILS:

Karen informed the Planning Commission that Ivan Fende wrote a letter to Trails, Inc. on the possible use of a trail next to the existing Bike Path.

PLANNING DIRECTOR'S REPORT:

Karen presented the following Planning Director's Report:

- 1) We have another student intern working for the Township. Joe Palermo is currently working on the Fire Fighter's Right-to-know and will be working for the Planning Department when done.
- 2) An Economic Development Grant from Wal-Mart Corporation in cooperation with the National Towns & Townships Association was awarded to John Greenberg, Treasurer winner in the American Hometown Leadership Award program for 1996. The Township received this \$1,000 grant at their last meeting and placed it in an Economic Development Capital Improvements Fund.
- 3) Carol Hicks provided information on a software package called Virtual Interactive Code. This package enables homeowners to explore complex local zoning regulations. Cost of the package is \$10,000.
- 4) I have been asked to serve on a panel to discuss "Shaping Our Future with Growth Management Planning" in Chocolay Township on Saturday, October 26 in Hancock. During this one hour discussion, I will be teamed with Les Ross, AICP/PCP, Sundberg Carlson & Associates along with Paul Wood and Mark Sherman from Schoolcraft County. The all day workshop is being sponsored by the League of Women Voters of the Copper Country and the Upper Peninsula Environmental Coalition.
- 5) We have six student teams working on environmental assessments within the Township. The six areas identified are 1) the Timber Lane Subdivision; 2) the Varvil Center; 3) Section 10 and 11 along M-28; 4) the Kawbawgam Road area; 5) the subdivision developments along Cedar Creek in Section 17; and 6) Beaver Grove and Brookfield Subdivision in Section 21 and 22.
- 6) Karen informed the Planning Commission that she did attend the Marquette County Planning Commission's October 1996 Meeting. She gave an update on the M-28 and Kawbawgam development.

PUBLIC COMMENT:

There was no Public Comment. The second Public Comment was closed.

COMMISSIONER'S COMMENT:

Mike La Pointe informed the Planning Commission that this was added to the agenda so if the Planning Commission Members had any discussion this could be done during this time.

The following was commented on:

- Strategic Plan - more support and getting positive response from people.
- There is a concern for groundwater contamination near the Chocloy Downs Golf Course. Some nearby residents are very concerned on what is going to happen. Specific concerns on the developer/owner taking the well samples and not an independent person.
- Going by the Marquette County Health Department's recommendation regarding the monitoring wells.

INFORMATIONAL ITEMS AND CORRESPONDENCE:

- A. Correspondence to - Mr. Andy Smith, Trails, Inc.
- B. Information from AICP Summer 1996 Fast Food Outlets Get a Facelift.

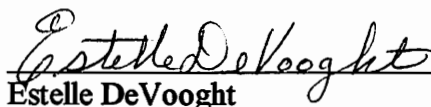

ADJOURNMENT:

There being no further business the following motion was made:

Bob Whitaker moved, Steve Kinnunen supported that the October 14, 1996 Planning Commission be adjourned.

MOTION CARRIED: 4-0.

The Planning Commission was adjourned at 9:25 p.m.

 Estelle DeVooght
 Planning Commission Secretary

 Jeanette R. Collick
 Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, NOVEMBER 11, 1996**

PRESENT: Mike LaPointe, Max Engle, Bill Sanders, Scott Emerson and Estelle DeVooght (arrived at 7:40 p.m.)

ABSENT: Bob Whitaker and Steve Kinnunen

STAFF PRESENT: Karen Chandler - Director of Planning & Research, Mark Maki - Director of Assessing & Zoning.

OTHERS PRESENT: Jeanette R. Collick-Recording Secretary, Randy Gentz, Cathy Gentz, Brian St. Pierre, Ann St. Pierre, Tim Barsch, Michele Rodman.

PUBLIC HEARING:

Mike LaPointe, Chairperson, called the Public Hearing to order at 7:38 p.m.

LOT SPLIT #11:

Mike LaPointe informed the public of the process for the public hearing. He inquired if there were any question/public comment regarding Lot Split #11.

Karen Chandler, Director of Planning & Research informed the public and the Planning Commission that the applicants, Tim Barsch and Dan Lancour, have requested that the Chocolay Township Board approve a lot split on the following described property:

Highland Meadow Subdivision Lot 14. The split lot will then be combined with Lots 13 and 15 respectively.

Tim Barsch and Dan Lancour jointly own Lot # 14. This lot split request is to place part of Lot 14 with Lot 13 and the remained of Lot 14 with Lot 15.

Karen informed the Planning Commission that she had received one letter from Terrence Donnelly. He had no problem with the lot split.

Tim Barsch, applicant had nothing more to add.

Mike LaPointe inquired if there were any further public comment regarding Lot Split #11? He informed everyone present that this would be discussed during New Business. There being no further comments regarding Lot Split #11, Mike La Pointe closed the public hearing on Lot Split #11.

CONDITIONAL USE #19 - AMENDMENT:

Estelle DeVooght arrived at 7:40 p.m.

Karen informed the Planning Commission that the Township Attorney has been consulted on amending this Conditional Use. The County Road Commission was consulted and a letter to Larry Gould from Mike Etelamaki had been included with the Memo dated November 7, 1996 that is in the Planning Commission Agenda packet.

Karen informed the Planning Commission that she had received a verbal response from Paul Capodilupo who presently lives in Marquette, but eventually plans on building a home on his property located here. He has no problem with the amendment.

Randy Gentz inquired why he has to be responsible for the paving of the road.

Michele Rodman (881 Cherry Creek Road) inquired where Gentz Road was.

Mike LaPointe inquired if there were any further questions/comments regarding Conditional Use Permit #19 - Amendment. There being no further questions/comments regarding Conditional Use Permit #19 or any further public hearings, Mike La Pointe closed the Public Hearing Section of the Planning Commission.

REGULAR MEETING CALLED TO ORDER:

Mike LaPointe, Chairperson called the Regular Planning Commission Meeting to order at 7:45 p.m.

ROLL CALL:

Roll call was taken with Mike LaPointe, Max Engle, Bill Sanders, Scott Emerson and Estelle DeVooght present. Absent were Bob Whitaker and Steve Kinnunen.

APPROVAL OF MINUTES OF OCTOBER 14, 1996:

Mike LaPointe inquired if there were any corrections' and/or additions to the October 14, 1996 Planning Commission Minutes?

Mike LaPointe moved, Bill Sanders supported that the minutes of October 14, 1996 be approved as presented.

MOTION CARRIED: 5-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Mike LaPointe inquired if there were any additions or changes in the agenda?

Bill Sanders suggested that New Business Item A Consider Lot Split #11 - Highland Meadows Lot #14 and Item B Consider Conditional Use #19 - Gentz/Homestead Golf Course be moved after Old Business A Discuss Rezoning #86 as per Township Board request.

Scott Emerson moved, Bill Sanders supported that the agenda be approved as amended.

MOTION CARRIED: 5-0.

PUBLIC COMMENT:

Mike La Pointe inquired if there were any Public Comment. There being no Public Comment, the first public comment section of the Planning Commission was closed.

OLD BUSINESS:**DISCUSS REZONING #86 - AS PER TOWNSHIP BOARD REQUEST:**

The following questions/comments were received regarding Rezoning #86:

- Township Board is not listening to the appropriate boards on township and/or county level. Something should be done.
- The proposed body shop would be a new building.
- DEQ guidelines would be required.
- Doesn't want a junk yard look.
- The petitioner wants to build a life and business for himself.
- Body shops should be in a C-3 zoning districts.
- Presently can sell vehicles in a C-2 zoning districts, but can't service them.
- Auto repair falls under a special use permit in other area ordinances.
- Body shops may not be compatible with other businesses in a C-2 zoning districts.
- If we allow motor vehicle service in a C-2 zoning districts, how do we not allow others from expanding?
- Blondeau Trucking is an industrial business.
- Quick Lube was used as an example. Quick Lube is six years old.
- Seems there is no consistency in approval and/or disapprovals.
- Planning Commission only recommends a rezoning to the Township Board.
- What is the option now? Planning Commission will send their recommendation back to the Township Board. Township Board would have to approve or disapprove.
- What is the closest business in a C-3 Zoning District? Fraco is the closest business in a C-3 Zoning District.
- Could allow C-3 uses in a C-2 zoning districts on a case by case basis?
- Strategic Plan should be taken into consideration, which is to keep the village type shopping area.
- Flexibility should be in conditional uses.
- Planning Commission Members have nothing against body shops personally.
- Planning Commission should stay with their original recommendation.
- Applicant proposing a body shop informed the Planning Commission that he would have a

- body shop only, not a motor vehicle repair shop.
- The eight steps for a conditional use permit were read.
- Other conditional could be attached to a conditional use permit.
- The proposed body shop is directly behind Wolverine Supply.
- Can we specifically say an auto body repair shop in C-2 as a Conditional Use - scale of services - a body shop - mechanical?
- An auto body repair shop would have to be defined and state no motor vehicle serve.
- Zoning Administrator would enforce the zoning ordinance. The problem would be with a new owner. Applicant proposing the body shop in the C-2 Zoning District plans on being successful and tends to grow.
- The original site was owned by L.S. & I. Railroad.
- Once used as a construction company storage yard - Mc Donald's Construction Company.
- Presently used by Menze, Wolverine Supply, a Garden Store and CPA businesses.
- If the Township Board approves Rezoning #86 as a conditional use, adjoining property owners would have to be notified when an application for a body shop is received.

Estelle DeVooght moved, Bill Sanders supported that the Planning Commission send this back to the Township Board with the original recommendation.

MOTION CARRIED: 4-1.

Mike LaPointe inquired if there was any further discussion or comments regarding Rezoning #86?

The following comments were made:

- Body Shops should be defined and state no motor vehicle service.
- Auto body shops should be considered as a conditional use in the C-2 Districts.
- Damage Control.
- If Township Board approves the text amendment as a conditional use, adjacent property owners would have to be notified when an application for auto body repair is received.

After the above discussion, the following motion was made to expand and clarify the first motion.

Scott Emerson moved, Max Engle supported that if the Township Board does approve the text amendment that they consider dropping the language motor vehicle service and add language for auto body repair in a C-2 Zoning Districts as a Conditional Use and to include the following definition of an auto body repair shop as collision service such as body, frame or fender straightening and repair; painting and undercoating of automobiles.

MOTION CARRIED: 4-1.

CONSIDER LOT SPLIT #11 - HIGHLAND MEADOWS LOT #14:

Mike LaPointe inquired if anyone had any questions or comments regarding the Lot Split #11? There were no further comments other than what was at the public hearing/

Scott Emerson moved, Bill Sanders supported that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that Lot Split #11, for the split of Highland Meadow Subdivision Lot # 14, be approved.

MOTION CARRIED: 5-0.

Lot Split #11 - Highland Meadows Lot #14 will be on the Township Board agenda for December 2, 1996.

CONSIDER CONDITIONAL USE #19 - GENTZ/HOMESTEAD GOLF COURSE:

Mike LaPointe informed the Planning Commission that he would abstain for voting on the decision of Conditional Use Permit #19 - Gentz/Homestead Golf Course because of his involvement with the Marquette County Soil Conservation District.

Planning Commission members agreed to allow Mike LaPointe to abstain and thanked Mike for bringing this to their attention.

The following questions/comments were made regarding Conditional Use #19:

- Was not the Planning Commission's intention for a private citizen to pave the road.
- County Road Commission suggested the requirement, not the township.
- Presently Gentz Sod Farm is being used for a compost site for the Township.
- If this would be on the Township road ranking, the county would pay half and then township would have to pay some.
- As traffic increases, the road should be paved.
- Intent is to eventually have the road paved.
- What number of years would the road be paved?

After the above comments the following motion was made.

Scott Emerson moved, Bill Sanders supported that the Chocolay Township Planning Commission approve the amendment to the existing conditional use # 19, with the following conditions:

1. Proper buffers be established to protect surrounding land uses.
2. *The Guidebook of Best Management Practices for Michigan Watersheds*, by MDEQ, Surface Water Quality Division, using the sections for golf courses be recommended for use in place of previous conditions: Condition # 2 (develop estimates of water use) and Condition # 3 (estimate contaminant loading amounts). April 1991.
3. The testing requirements on the monitoring wells are defined to spring and fall tests instead of quarterly and that the Marquette County Health Department will define parameters to be tested after review of chemicals being used on the golf course. The test samples will be tested by a laboratory approved by the State of Michigan for parameter tested. The applicant will pay for testing and the results will be sent to the Township. The other requirements of former condition # 6 are still in effect.
4. That a Zoning Compliance Permit be obtained from the Chocolay Township Zoning Administrator prior to start of construction.
5. That the necessary permits as required by Federal, State and Local Agencies be acquired prior to project commencement.
6. Item #4 Condition from April 8, 1991 to upgrade County Road BZ be dropped from the conditions.

MOTION CARRIED: 4 AYES AND 1 ABSTAIN.

OLD BUSINESS:

DISCUSS RECOMMENDATIONS ON LANGUAGE FOR TEXT AMENDMENTS: (1) SITE PLAN REVIEW AND (2) SITE CONDO.

Karen informed the Planning Commission the Township Attorney is reviewing the language for these text amendments and the suggested language should be ready at the December Planning Commission Meeting.

DISCUSS PLANNING ADVISORY SERVICE:

Karen informed the Planning Commission that she would like to join the APA's Planning Advisory Service (PAS) again this year. The cost would be \$460, which would leave \$280 in the Planning Commission's professional services account.

The Planning Commission told Karen to go ahead and join again this year, if she sees it to be beneficial.

NEW BUSINESS:

DISCUSS NEEDED ZONING ORDINANCE AMENDMENTS:

Mark went over his memo dated November 7, 1996 that was in the Planning Commission agenda packet regarding zoning amendments that needed to be done. He informed the Planning Commission that he would go over any of these amendments with the Planning Director.

PLANNING DIRECTOR'S REPORT:

- 1) The November 1996 election is behind us. We have one new Township Board Trustee,

Gary Menhennick, who will be taking Don Wickstrom's place. The Township Board members remaining are Ivan Fende, Supervisor; Arlene Hill, Clerk; John Greenberg, Treasurer; Richard Bohjanen, Trustee; Lois Sherbinow, Trustee and Max Engle, Trustee.

- 2) Our student teams working on environmental assessments within the Township will have their projects completed by the first week of December. Dr. Jean Ferrell and I are trying to work out a schedule for the students to present their findings to the Planning Commission. We could set up a special meeting since our December meeting falls during exam week and students could not make our meeting. Or, the class meets on Mondays and Wednesdays from 10:00 a.m. to noon, maybe some members would be available during the first week of December and we could go to the class presentations.

Karen informed the Planning Commission that the student team from NMU would like to make a presentation to the Planning Commission and the Township Board. It was suggested that possibly 6:00 p.m. on December 2, 1996 would be a good time to review this presentation.

PUBLIC COMMENT:

There being no public comment, the second public comment section of the meeting was closed.

COMMISSIONER'S COMMENT:

- We need to make the Township Board meet deadlines and not let rezoning, etc. go by the way side. Rezoning issue regarding Kawbawgam Road and M 28 was given as an example.
- Public needs to be able to voice their comments.

ADJOURNMENT:

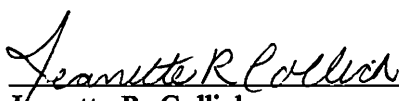

There being no further business, the following motion was made:

Scott Emerson moved, Max Engle supported that the November 11, 1996 Planning Commission meeting be adjourned. The Planning Commission Meeting was adjourned at 10:00 p.m.

MOTION CARRIED: 5-0.

 Estelle DeVooght
 Planning Commission Secretary

 Jeanette R. Collick
 Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, DECEMBER 9, 1996**

PRESENT: Mike LaPointe, Max Engle, Steve Kinnunen, Bob Whitaker, and Estelle DeVooght, Max Engle arrived at 7:36 p.m. and Scott Emerson arrived at 7:40 p.m.

STAFF PRESENT: Karen Chandler - Director of Planning & Research

OTHERS PRESENT: Jeanette R. Collick-Recording Secretary, Daniel Hockin, Anette Degler

PUBLIC HEARING: CONDITIONAL USE PERMIT #40:

Mike LaPointe, Chairperson called the Public Hearing to order at 7:30 p.m.

He informed the public present of the procedures for the public hearing. You can comment now regarding the conditional use permit or reserve time during the Regular Planning Commission Meeting when this item would be discussed.

Karen gave the background information regarding Conditional Use Permit #40. The applicant, Daniel Hockin has requested that the Chocolay Township Planning Commission consider granting a conditional use permit to allow a recreational structure in the RP District on the following described property:

Section 21 T47N R23W - That part of N ½ of NW 1/4 lying W of C/L of LeVasseur Creek exc. the W ½ of NW 1/4. Located at 1120 Mangum Road.

She presented an overlay showing the property involved from the plat map.

Karen informed the Planning Commission that the camp already exists. The structure does meet the requirement for a recreational structure in the zoning ordinance.

She noted the petitioner is present, if anyone had any questions' and/or comments. She received a phone call from Mr. Edward Pedo and he had no problem with the structure being there.

The following comments were made:

- How long has the camp been there? Approximately two years.

Karen informed the Planning Commission members that the one phone call she did receive, after explaining what the structure was, had no problem.

Mike LaPointe inquired if there were any further comments for the public hearing. There were none.

Mike LaPointe closed the public hearing at 7:35 p.m.

REGULAR MEETING CALLED TO ORDER:

Mike LaPointe, Chairperson called the Regular Meeting to order at 7:35 p.m.

ROLL CALL: Roll call was taken.

PRESENT: Mike LaPointe, Bill Sanders, Steve Kinnunen, Estelle DeVooght, Bob Whitaker present. Max Engle (arrived at 7:36 p.m.) Scott Emerson (arrived at 7:40 p.m.)

ABSENT: None

APPROVAL OF MINUTES OF NOVEMBER 11, 1996:

Mike LaPointe inquired if there were additions or corrections to the minutes dated November 11, 1996.

Bill Sanders moved, Estelle DeVooght supported that the minutes dated November 11, 1996 be approved as presented.

MOTION CARRIED: 5-0.

Max Engle arrived at 7:36 p.m.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Mike LaPointe inquired if there were any additions or changes in the agenda? No changes.

Bill Sanders moved, Bob Whitaker supported that the agenda be approved as presented.

MOTION CARRIED: 6-0.

PUBLIC COMMENT:

Mike LaPointe inquired if there was any public comment. There was none.

OLD BUSINESS:

A. DISCUSS RECOMMENDATIONS ON LANGUAGE FOR TEXT AMENDMENTS:

1. SITE PLAN REVIEW
2. SITE CONDO

Karen informed the Planning Commission that the township attorney has not finished his review of the language that was presented to him for these text amendments.

NEW BUSINESS:

DISCUSSION ON CONDITIONAL USE PERMIT #40:

Mike LaPointe inquired if there were any questions/comments regarding Conditional Use Permit #40?

The following questions/comments were made:

- The structure has been there for two years.
- The structure meets the Zoning Ordinance requirements.
- The name of the creek has been changed periodically, but it is the same one.
- Why is the middle of the creek used for lot lines? You could gain or lose.

Scott Emerson arrived at 7:40 p.m.

Mike LaPointe inquired if there were any further questions or comments regarding Conditional Use #40? There were none.

Estelle DeVooght moved, Bob Whitaker supported that the Chocolay Township Planning Commission approve the conditional use permit request to place a recreational structure on this parcel in the RP district with the following conditions

1. That Zoning Compliance Permit be obtained from the Chocolay Township Zoning Administrator as soon as possible.
2. That the necessary permits as required by Federal, State and Local Agencies be acquired prior to the zoning compliance permit being issued.

MOTION CARRIED: 7-0.

PRESENTATION ON CENSUS UPDATES FOR COMPREHENSIVE PLAN:

Not available. The Student intern was working on this report and it was expected for tonight, however, it should be available for the January meeting.

DISCUSSION ON OPINION-LEADERS SURVEY:

Karen gave a brief report.

The following comments were made:

- Other agencies need to get together.
- Wild life habitant concern.
- Better community plan - bearing on priority.
- Habitants need to be identified - stricter control.

- Development not be excluded.
- Decisions be more community oriented, rather than state.
- Need to find a happy medium to set guidelines and priorities.
- More positive direction of Planning on local level and apply to local planning and be a good planning tool.
- Proper Planning - scientifically, rather than emotional.
- Need an overview - local level - local people to get involved would have a greater impact.
- Need more combined meetings with the Planning Commission and Township Board to set common goals?

The Planning Commission members can fill in the survey with comments and give them to Karen.

DISCUSS POSSIBLE TEXT AMENDMENTS:

Karen informed the Planning Commission that a new business is interested in opening up in the Varvil Center. A butcher shop specializing in selected cuts is interested in the building where Cal's Party Store was located.

Our options include:

- 1) rezoning the entire building structure and front half of the Varvil Center to C-1 or C-2
- 2) a text amendment to allow for speciality food stores as a conditional use in C-3 District.

This proposed business would be for food packaging, not the butchering of them.

After discussion of this, the following decision was made:

That a letter be sent to the Zoning Administrator with Planning Commission's concerns about this area and in particular this building and suggesting should go to the Zoning Board of Appeals. A copy of this letter from the Planning Commission will be sent to the Township Board and Zoning Board of Appeals.

DISCUSS AMENDMENTS TO HOME OCCUPATIONS:

Karen informed the Planning Commission there is a memo in their packet from the Zoning Administrator regarding Amendments Home Occupations/Consider Recommendation for Amendment to Home Occupations/Request for Comments.

Mark Maki informed the Planning Commission in the memo date December 6, 1996 that the Zoning Board of Appeals has discussed the existing language and proposed the changes that were stated in the memo.

The proposed change would allow home occupations in an accessory building.

The following comments were made regarding the proposed change:

- An example was given regarding an addition or garage being used for home occupations, because the lack of room in a home.
- The home occupation use doesn't change.
- Home occupation has to satisfy the requirements.

After comments and discussion on home occupations, the Planning Commission unanimously agreed to advertise a public hearing for the proposed amendments to home occupations, and accessory buildings for commercial districts for the January 1997 Planning Commission Meeting.

PLANNING DIRECTOR'S REPORT:

Karen went over the Planning Director's Report:

- 1) The Environmental Assessment presentations have been completed. Mike LaPointe, Mark Maki, Larry Gould, Ivan Fende and I were able to attend the presentations. Each presentation was video taped and complete reports will be turned in tomorrow to Professor Jean Ferrill. I will make copies available for anyone who wants them. The video's will also be available for home viewing, unless you'd like to review them during Planning Commission meetings or set up a special meeting. This is just a quick rundown.
 - a) Cedar Creek - encourage minimal development under current conditions. In-depth report

on physical, biological, economic and social aspects of the subdivision areas within Section 17. Also suggested the Township Planning Commission take action to include a site condo section into the Zoning Ordinance.

b) Varvil Center - this group preferred to rezone the Varvil center to C-2. They also suggested no action, rezoning to C-1 and rezoning to R-1 as their alternatives. There is good discussion on each of these possibilities. As we asked questions of each group, they had an opportunity to fine tune their final reports. It will be interesting to see if they did take our questions into consideration.

c) Beaver Grove - this group listed a community improvement program; a business development expansion; more recreation development; and no action. This area was the largest diverse area covered. The business community along with the trailer park development and residential homes along the highway made for some interesting reporting.

d) Timberland subdivision area - this group proposed no action; maximize development; put in a municipal water and sewer system; and their preferred alternative was to deepen existing water wells. They looked at the high nitrates in the area. They also found that the groundwater flow in that area is northeasterly. Development in that area twenty years ago should have been on larger lots.

e) Kawbawgam area - the four alternatives for this group included no action; no action but mitigate; enlargement of the C-1 area and enlargement of C-1 limited to KBIC properties. The proposed alternative was to enlarge the C-1 district.

f) Chocolay Downs Golf Course - although this group also gave four alternatives I did not take down their preferred alternative. Their main concerns were the water tests not being available and the fertilizers are unknown. The alternatives include a 36-hole course with no further residential development; 36-holes with full development; a KBIC gaming cooperative; and no action.

- 2) The Planning Commission and Township Board need to schedule a combined Planning Commission Meeting and Township Board to set priorities that need to be worked on.
- 3) Auto body definition needs to be in the Zoning Ordinance.
- 4) Karen will work on a list of priorities with suggestions and send it to the Planning Commission. Mike LaPointe suggested that the Planning Commission Executive Committee meet with Karen before the next meeting to help develop this priority list.

COMMISSIONER'S REPORT:

- 1) Planning Commission and Township Board needs to work on the same frequency. We need to get away from emotions between the two and work together.
- 2) Prioritize what needs to be done.
- 3) Need more combined and/or special meeting with Township Board and Planning Commission.
- 4) Six-month updates on things that have been done and also still need to be done.
- 5) Annual Report - give a report on what we have done.
- 6) Site Condo and Site Plan Review need to move. It was unanimously agreed that a letter be written to the Township Attorney signed by the Planning Commission that the language for this is a huge priority and needs to be done.
- 7) Trails issue - possibly a memorial dedicated to Steve Blondeau could be done.
- 8) The access off M 28 and US 41 was discussed.

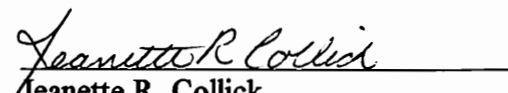

INFORMATIONAL ITEMS AND CORRESPONDENCES:

- A. Chocloy Watershed Council minutes of September 5, 1996
- B. Memo from - Mark Maki - *Informational updates on Chocloy Downs, Glass parcel at 100 Kawbawgam Rd. , and Varvil Center*
- C. Correspondence to - Trails, Inc. - *on snowmobile trails in Chocloy Township*
- D. Correspondence from - Mqt. Co. Soil & Water Conservation District - *upcoming workshops*
- E. Correspondence to - Professor Jean Ferrill - *thank you for environmental assessments*

ADJOURNMENT:

Scott Emerson moved, Bill Sanders supported that the Planning Commission meeting be adjourned. The Planning Commission Meeting was adjourned at 9:35 p.m.

Estelle DeVoight
Planning Commission Secretary

Jeanette R. Collick
Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, JANUARY 13, 1996**

PRESENT: Mike La Pointe, Max Engle, Bob Whitaker, Steve Kinnunen
Scott Emerson (arrived at 7:38 p.m.), Bill Sanders (arrived at 8:35 p.m.)

ABSENT: Estelle De Vooght

STAFF PRESENT: Karen Chandler - Director of Planning & Research, Mark Maki - Director of Assessing & Zoning

OTHERS PRESENT: Jeanette R. Collick-Recording Secretary, Brian St. Pierre, Ann St. Pierre, Le Roy Blondeau, Lee Blondeau.

PUBLIC HEARING:

Mike La Pointe, Chairperson, called the Public Hearing to order at 7:31 p.m.

REZONING #87 - SEMI-TRAILER STORAGE:

Karen Chandler, Director of Planning & Research informed the public present and Planning Commission that this is a Text Amendment change and refers to the storage of goods and materials in a semi-trailer.

Mark Maki commented that the language change was supposed to include outdoor storage, not just semi-trailer. He distributed a memo concerning these comments to the Planning Commission, which has been placed on file.

Le Roy Blondeau inquired if licensed semi-trailers were included? Karen informed him the intent was for storage, and not licensed trailers. A licensed trailer could be for temporary storage, but not as a permanent storage structure.

It was inquired what is the time limit for temporary storage? It was commented that the interpretation would be made by the Zoning Administrator.

Scott Emerson arrived at 7:38 p.m.

Karen read the following into the record:

SECTION 107 - ACCESSORY USES AND STRUCTURES

- (C) Semi-trailers as used for storage are permitted as an accessory to commercial use with a conditional use permit. The Planning Commission will require screening, buffering, or modification of the external surface of the semi-trailer to limit or eliminate the visual impact on adjacent properties, and shall prohibit advertising and signage on semi-trailers. The Conditional Use Permit must assure that the use of semi-trailer storage does not become contrary to the public health, safety, or welfare or the spirit and purpose of this Ordinance.

Mike La Pointe inquired if there were any further public comments regarding Rezoning #87? He informed everyone present that this would be discussed during New Business. There were no further comments regarding Rezoning #87. Mike La Pointe closed the public hearing section for Rezoning #87.

REZONING #88 - TEXT AMENDMENT - DEFINITION OF AUTO BODY REPAIR SHOP:

Karen Chandler, Director of Planning & Research informed the public present and the Planning Commission that this is a Text Amendment change and means a collision service such as body, frame or fender straightening and repair; painting and undercoating of automobiles.

Mark Maki made comments and submitted a memo to be placed in the file for Rezoning # 88.

Mike La Pointe inquired if there were any comments regarding the Rezoning #88. There were none. The Public Hearing for Rezoning #88 was closed.

REZONING #89 - HOME OCCUPATIONS:

Karen Chandler, Director of Planning & Research informed the public present and the Planning Commission that this is a Text amendment regarding the definition of Home Occupations. The Zoning Board of Appeals requested to change the definition to allow for Home Occupations in accessory buildings and to remove standards from the definition and add to Section 107.

Mike La Pointe inquired if there were any comments regarding the Rezoning #89. There were none. The Public Hearing for Rezoning #89 was closed.

CONDITIONAL USE #41 - BRIAN & ANN ST. PIERRE:

Karen presented an overlay concerning Conditional Use #41 and the land that was proposed for the Auto Body Repair Shop.

Mike La Pointe inquired if the applicants had any questions or comments. The applicants reserved comment when this would be discussed in the regular meeting.

Mark Maki inquired if the fire department, police department, state highway department had any comments. He also informed everyone present that a site plan showing location of building and/or parking should be developed and presented.

Applicants inquired on how many parking spaces would be required? The Director of Assessing and Zoning informed them depending on the number of employees.

Mike La Pointe inquired if there were any questions and/or comments regarding the public hearing for Conditional Use Permit #41. There were no further questions or comments regarding Conditional Use Permit #41. Mike La Pointe closed the public hearing section of the Planning Commission meeting.

REGULAR MEETING CALLED TO ORDER:

Mike La Pointe called the Regular Planning Commission Meeting to order at 7:50 p.m.

ROLL CALL: Roll call was taken.

PRESENT: Mike La Pointe, Steve Kinnunen, Bob Whitaker, Max Engle present. Scott Emerson (arrived at 7:38 p.m.), Bill Sanders (arrived at 8:35 p.m.).

ABSENT: Estelle De Vooght.

APPROVAL OF THE MINUTES OF DECEMBER 9, 1996:

Mike La Pointe inquired if there were any additions and/or corrections to the minutes dated December 9, 1996? There were none.

Scott Emerson moved, Steve Kinnunen supported that the minutes dated December 9, 1996 be approved as presented.

MOTION CARRIED: 5-0

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Mike La Pointe inquired if there were any additions and/or changes to the agenda?

It was suggested that under New Business Items A-D be moved before Old Business.

Bob Whitaker moved, Scott Emerson supported that the agenda be approved as changed.

MOTION CARRIED: 5-0.

PUBLIC COMMENT:

Mike La Pointe inquired if there was any public comment.

Le Roy Blondeau asked about the possibility of signs being posted for snowmobilers to yield on U.S. 41 in the commercial district? It was commented that possibly the Trails Committee could contact the snowmobile club to the possibility of putting up the signs. It was also commented that CABA be contacted for signs to be posted.

Mr. Blondeau commented that he wasn't against snowmobiles being in the commercial district, but some enforcement needs to be done. It was suggested that a letter be written to CABA and a copy be sent to the trail's committee that the Planning Commission addressed this issue and that signs need to be placed in the commercial district regarding snowmobiles.

Mike La Pointe inquired if there were any further Public Comment. There was none. The first Public Comment section of the meeting was closed.

OLD BUSINESS:

CONSIDER CONDITIONAL USE #41 - BRIAN & ANN ST. PIERRE:

Mike La Pointe inquired if there were any questions and/or comments regarding the proposed Conditional Use #41?

The following questions and/or comments were made regarding Conditional Use #41:

- Needs a more detailed site plan for a Conditional Use.
- Traffic lanes, parking area, lot lines and proper measurements need to be shown.
- Lot lines, and building where building sets needs to be shown on the site plan.
- Measurements need to be defined.
- The chairperson read a memo from Mark Maki concerning some of the comments regarding C-2 zoning District. This memo was placed on file with the Planning Commission agenda file.
- As a Conditional Use - various uses could be controlled.

After discussion and comments, the following motion was made:

Scott Emerson moved, Bob Whitaker supported that Conditional Use #41 - Brian & Ann St. Pierre be tabled until a site Plan is obtained.

MOTION CARRIED: 5-0.

MEMO FROM - MARK MAKI - ZONING ADMINISTRATOR

(1) Meat Market at Varvil Center; (2) Zoning Report; (3) Zoning Trails; (4) Conditional Use Requirement

Mike La Pointe went over the above memo from the Zoning Administrator regarding the above topics:

The following comments were made: Zoning Trails:

- As trails get developed, check the zoning districts and conditional uses. Karen will research and check with other entities and see what they are doing.
- Mark Maki believes that Marquette Township included language in their zoning ordinance regarding trails.
- Trails Committee come up with recommendation where trails are.
- Needs language in the zoning ordinance.
- A snowmobile trail mapped out - such as - M-28, Ridgewood Subdivision.
- Residential area - low speed - buffering.
- It was suggested that when Karen researches what other entities are doing regarding trails, etc., that PAS, Northern Wisconsin, Gaylord, etc. be contacted and gather information and see what problems, solutions if any have occurred.
- Trails Committee will be meeting on a month to month basis.
- Possible information be obtained and discussed before the next snowmobile season.

Conditional Use Permits:

- It was commented that when a motion is made and there are steps to be considered, that the steps and conditions be included in the minutes.
- Also give reasons why it was approved or denied.
- The Zoning Ordinance requires this to be done.

Bill Sanders arrived at 8:35 p.m.

Priority Ranking - comments by Zoning Administrator.

- **(Kennels):** Kennels are permitted by right in the RP Zoning District. There is potential for 50 musher dogs on the 5 acre lots which were grandfathered when the ordinance was adopted in 1977.
- **(Pole Barns & Garages):** On occasion there is a need for storage before a house is built. Zoning Board of Appeals hasn't had any problem with this as of yet.
- **(Office District Parking):** Some are very small. Suggestion for larger parking.

NEW BUSINESS:

CONSIDER RESPONSE TO COUNTY PLAT BOARD:

Zoning Administrator brought the Planning Commission up-to-date regarding his memo - dated January 7, 1997 to the Planning Commission which was included and placed on file in their agenda packet regarding Possible Plat Law Violation/Varvil Center.

The land has been subdivided into too many lots, thus requiring platting. The County Plat Board is looking into the matter. This development, with its inadequate setbacks and numerous buildings on one lot which now have become split, is an example of problems with many buildings on one lot. They often end up being problematic and usually end up with buildings on lots which do not meet the zoning ordinance requirements when subdivided.

Steve Kinnunen moved, Scott Emerson supported that the Planning Commission send a letter to the County Plat Board requesting them that they require Mr. Varvil to plat the land in accordance with the Subdivision Control Act, as would be required by any other developer in the Township.

MOTION CARRIED: 6-0.

CONSIDER SENATE BILL 112:

Karen informed the Planning Commission that the township received a 12 page fax regarding information on SB 112. The Michigan Township Association recommends that letters be sent to the Governor to veto SB 112. After discussion and comments regarding SB 112 the following motion was made:

Scott Emerson moved, Steve Kinnunen supported that a letter be sent to request that the Governor veto SB 112 as currently written for the following reason:

1. You support real reform of the SCA to halt unnecessary destruction of agricultural and forest lands as proposes by the Governor's Agriculture and Development Task Force.
2. You commend all the stakeholders and bill sponsors in the House and the Senate for all the work they put into designing reform measures, **but**
3. You oppose SB112 as passed and urge the Governor to **VETO** the bill.
4. Urge the Governor to support real reform of the SCA which: eliminates 10.1 acre and bowling alley lots, permits local government review of all land divisions for conformance with local zoning and related regulations, eliminates unnecessary new driveways, and results in no more exempt divisions that are allowed under the current SCA.
5. Address your letter or fax to the Honorable John Engler, Governor, State Capitol, P.O. Box 30013, Lansing, MI 48909; FAX (517-335-6863).

MOTION CARRIED: 5-1.

OLD BUSINESS:

DISCUSS PRIORITY LISTING FOR JOINT MEETING:

1. Ask Township Board to hold public hearing on Rezoning at Kawbawgam and M-28. Kawbawgam Area was discussed years ago. Some Board member may not recall this being discussed. Board needed to know the public's input. We need better communication between the Planning Commission and the Township Board. The Planning Commission wants the Board to know how they felt.
2. Commercial Access Control - What is going on with the recommendation on hiring a consultant for the M-28/U.S.41District?

3. Site Condo Ordinance and Site Plan Review - Letter to Harley Andrews that this is to be discussed at the February 10, 1997 Planning Commission Meeting.
4. Varvil Center - consider rezoning to either R-1, C-1, C-2 or mix with C-3 upon review of environmental assessments. Discuss this at the joint meeting - also take care of the meat market - should it be zoned as is? A closer look and try to solve the problem. Possibly talk to Dana Varvil regarding selling, etc. Specialty meat market in C-3 Zoning District
5. Strategic Plan - committee formation - Areas that are being addressed.
6. Zoning Ordinance Amendments needed as per Zoning Administrator - (1) Pole Barns & Garages in RR-2, RP and OS districts; (2) Office District Parking; (3) Kennels - Above discussion by the Zoning Administrator.
7. Logo Contest - Set up committee, criteria. Spirit of Chocolay Township. Everyone pull together, etc.
8. Community Charrette program - Ball State University - Karen has recommendation from other communities.
9. Landscape Ordinance Language -Should be #1 on the list. Move after Site Condo language is done.
10. Trails: Trails Committee to work on easements, liability issues - North Country Trail to be contacted. Central location for hiking, biking, walking trails, snowmobile trails. Keep involved. Try to obtain grants to construct.

OTHER ITEMS BEING WORKED ON BUT NOT NEEDING PRIORITY LISTING

1. Mike LaPointe has been in contact with members of the KBIC. A meeting should be set up to discuss future development plans for the casino area. Mike La Pointe and Max Engle will represent the Planning Commission at this meeting.
2. Program Speakers - Chocolay Watershed Council update; MI Dept of Agriculture on open space preservation and transfer of development rights; any other suggestions? Yes, Commissioners would like speakers at a future meeting.
3. GIS w/County or NMU - Karen is working on this.
4. Review of Environmental Assessments completed by NMU Geography Dept. students. Karen has the full report available. Planning Commission members would like the copies of all the summaries of the reports. Tapes and copies of the whole report are available at the Township Office.
5. Trail Development - Multi Use Trails Committee has been formed and will be meeting on monthly basis for the winter months.

NEW BUSINESS:

ANNUAL REVIEW OF RECREATION PLAN AND RECREATION GRANT

APPLICATION:

Scott Emerson went over information on a suggested letter be sent on behalf of the Planning Commission to the Department of Public Works Supervisor regarding information in the recreation grant.

The Planning Commission was informed that the Department of Public Works Department maintains recreation. The Planning Commission makes recommendations and amendments to the Recreation Plan.

Karen went over the memo regarding the Recreation Grant application from the Department of Public Works Supervisor - dated January 7, 1997 and placed in the agenda file.

It was suggested that the Planning Commission write a memo/letter to the Township Board encouraging them to write a letter to the School Board to purchase the land that the Lions Club maintains. Karen informed the Planning Commission that the Lions Club had a long time lease until just recently when the School Board did not renew the lease.

It was inquired as how close the Trails Committee is regarding the bike path between the two grade schools, hiking trails, etc. It was suggested that this be placed on the March Planning Commission agenda for discussion/recommendation for the Recreation Plan.

OLD BUSINESS:

REVIEW ENVIRONMENTAL ASSESSMENTS RECEIVED FROM NMU STUDENT:

Karen informed the Planning Commission that there are copies of the environmental assessments available at the Township Office. It was suggested that the Planning Commission receive a copy of the summaries of the assessments.

DISCUSS RECOMMENDATIONS ON LANGUAGE FOR TEXT AMENDMENTS

(1) Site Plan Review; (2) Site Condo

Karen informed the Planning Commission that a letter was sent to Harley Andrews, Township Attorney, informing him that the Planning Commission would like to review the proposed language for Site Plan Review and Site Condo at the February 10, 1997 Planning Commission Meeting.

NEW BUSINESS:

CONSIDER REZONING #87 - SEMI-TRAILER STORAGE:

Mike La Pointe inquired if there were any further questions and/or comments regarding Rezoning #87. There were none.

Max Engle moved, Bill Sander supported that the Chocoley Township Planning Commission recommend to the Chocoley Township Board that the following amendments for semi-trailer storage to the Chocoley Township Zoning Ordinance be approved.

AMENDMENT

That portion of Section 101 of the Charter Township of Chocoley Zoning Ordinance entitled "DEFINITIONS" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined.

SECTION 101 DEFINITIONS

Semi-trailer storage. refers to the storage of goods and materials in a semi-trailer.

REPEALER AND AMENDMENT

That portion of Section 107 of the Charter Township of Chocoley Zoning Ordinance entitled "ACCESSORY USES AND STRUCTURES" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined, and the removal of the language in brackets().

[SEC.] SECTION 107 ACCESSORY USES AND STRUCTURES.

Where a lot is devoted to a permitted principal use, customary accessory uses and structures are authorized except as prohibited specifically or by necessary implication in this or any other ordinance. The following special rules are applicable:

- (A) Home occupations are permitted as an accessory to residential use or occupancy, upon authorization of the Zoning Board of Appeals with such conditions as may be attached, including any time limit or future review, where necessary to assure that the use or

structure does not become contrary to the public health, safety, or welfare or the spirit and purpose of this Ordinance.

- (B) Accessory uses to a gas station are limited to lubrication, changing oil and filters, changing and repair of tires and tubes, engine tune-up, minor repair and maintenance, not including major overhauls, steam cleaning, body repairs, painting, or transmission, or chassis repairs.
- (C) Semi-trailers as used for storage are permitted as an accessory to commercial use with a conditional use permit. The Planning Commission will require screening, buffering, or modification of the external surface of the semi-trailer to limit or eliminate the visual impact on adjacent properties, and shall prohibit advertising and signage on semi-trailers. The Conditional Use Permit must assure that the use of semi-trailer storage does not become contrary to the public health, safety, or welfare or the spirit and purpose of this Ordinance.

REPEALER AND AMENDMENT

That portion of Section 209 of the Charter Township of Chocolay Zoning Ordinance entitled "DISTRICT C-1" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined.

SECTION 209 DISTRICT C-1.

- (A) **INTENT.** To establish and preserve areas for those commercial facilities which are especially useful in close proximity to residential areas, while minimizing the undesirable impact of such uses on the neighborhoods which they service.
- (B) **PERMITTED PRINCIPAL USES.** Barber and beauty shops, general and specialty food and beverage stores, drugstores, restaurants, clothing and dry goods stores, offices, bakeries without additional sales outlets, Bed & Breakfast, dry cleaning and laundry pick-up stations, coin operated laundry and dry cleaning establishments, provided, however, that drive-in restaurants and establishments cooking or preparing food for consumption off the premises are excluded.
- (C) **CONDITIONAL USES.** Schools, where the type of school is compatible with nearby residential uses. Specialty retail sales where the type of sales has no outdoor display or storage and is compatible with nearby residential uses. Semi-trailer storage.
- (D) **SPECIAL REGULATIONS.** No establishment may occupy more than 3,000 square feet of floor space.

REPEALER AND AMENDMENT

That portion of Section 210 of the Charter Township of Chocolay Zoning Ordinance entitled "DISTRICT C-2" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined, and the removal of the language in brackets([]).

[SEC.] SECTION 210 DISTRICT C-2.

- (A) **INTENT.** To establish and preserve general commercial areas consisting of shopping centers and commercial areas where customers reach individual business establishments primarily by automobile.
- (B) **PERMITTED PRINCIPAL USES.** All principal permitted uses in C-1, offices, other offices and establishments selling goods and services at retail including gas stations, private clubs, hotels, nursing homes, funeral homes, hospitals, bakeries, drive-in restaurants, indoor theaters and other places of amusement, provided, however, that meat and poultry shops where slaughtering is done on the premises and all listed in Section 211 (B) of this Ordinance , (with the exception of motor vehicle sales,) are excluded.

- (C) **CONDITIONAL USES.** Auto Body Repair Shop, Semi-trailer storage.

REPEALER AND AMENDMENT

That portion of Section 211 of the Charter Township of Chocolay Zoning Ordinance entitled "DISTRICT C-3" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined, and the removal of the language in brackets([]).

[SEC.] SECTION 211 DISTRICT C-3.

- (A) **INTENT.** To establish and preserve a district for light industrial use along with those commercial uses which are more compatible with light industrial than with other commercial uses.
- (B) **PERMITTED PRINCIPAL USES.** Motor vehicle sales, service, and rental, construction and farm equipment sales, sales of mobile homes, campers, recreational vehicles, boats, and monuments, wholesale and storage uses, food packaging and bottling works, commercial printing and newspaper offices, contractor's yards and shops, laundry and cleaning and dying plants.
- (C) **CONDITIONAL USES.** Restaurants where there is no C-1 or C-2 District located conveniently nearby, drive-in theaters having patron entrance and exit drives only to streets having a paved surface at least 44 feet in width at points at least 200 feet from any intersection so planned that the picture screen cannot be seen from any street or from any R-1, R-2, R-3, or R-4 District, and other industrial uses which do not emit any fumes, vibration, smoke, or noise except the noise of vehicles coming and going, which is detectable by the senses of normal human beings, and where all operations, including the storage of anything except merchandise displayed for sale, are conducted in a fully enclosed building or entirely behind walls or fences which conceal them from visibility from off the lot, and semi-trailer storage.

The Planning Commission, in reviewing an applicant's site plan for a conditional use shall permit a structure in excess of 30 feet providing:

1. Height at any point on the structure shall not exceed the horizontal distance to any lot line.
2. The proposed structure is necessary and common to the proposed project.
3. That the structure is designed and intended so that any part of the structure in excess of 30 feet is not used or intended as a work station for human beings.
4. That the structure is so located, site planned and designed to avoid nuisances and dangers, implied or explicit, to adjoining property and all on-site personnel. The structure shall avoid interference with the adjoining properties and does not significantly change the character thereof.

MOTION CARRIED: 6-0.

CONSIDER REZONING #88 - AUTO BODY REPAIR SHOP:

Mike La Pointe inquired if there were any further questions and/or comments regarding Rezoning #88. There were none.

Max Engle moved, Bill Sanders supported that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the following amendments for auto body repair shop to the Chocolay Township Zoning Ordinance be approved.

AMENDMENT

That portion of Section 101 of the Charter Township of Chocolay Zoning Ordinance entitled "DEFINITIONS" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined.

SECTION 101 DEFINITIONS

Auto Body Repair Shop, means a collision service such as body, frame or fender straightening and repair; painting and undercoating of automobiles.

MOTION CARRIED: 6-0.

CONSIDER REZONING #89 - HOME OCCUPATIONS:

Mike La Pointe inquired if there were any further questions and/or comments regarding Rezoning #89. There were none.

Bill Sanders moved, Scott Emerson supported that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the following amendments for home occupations to the Chocolay Township Zoning Ordinance be approved.

REPEALER AND AMENDMENT

That portion of Section 101 of the Charter Township of Chocolay Zoning Ordinance entitled "DEFINITIONS" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined, and the removal of the language in brackets ([]).

SECTION 101 DEFINITIONS

HOME OCCUPATION, means a use or occupation conducted on the premises which is clearly incidental and secondary to residential occupancy and does not change the character thereof and meets the standards set out in Section 107.

[HOME OCCUPATION, means a use conducted entirely within an enclosed dwelling, but does not occupy more than one-fourth (1/4) of the total ground floor area of the dwelling unit, employs only the inhabitants, thereof, is clearly incidental and secondary to residential occupancy, and does not change the character thereof. Specifically excluded is the storage and display of merchandise not produced by such home occupation, any activity similar to a generally recognized retail store or service establishment as permitted in any commercial district, any activity involving any building alteration, window display, construction features, equipment, machinery, or outdoor storage of which is visible from off the lot on which located.]

REPEALER AND AMENDMENT

That portion of Section 107 of the Charter Township of Chocolay Zoning Ordinance entitled "ACCESSORY USES AND STRUCTURES" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined, and the removal of the language in brackets ([]).

[SEC.] SECTION 107 ACCESSORY USES AND STRUCTURES.

Where a lot is devoted to a permitted principal use, customary accessory uses and structures are authorized except as prohibited specifically or by necessary implication in this or any other ordinance. The following special rules are applicable:

- (A) Home occupations are permitted as an accessory to residential use or occupancy, upon authorization of the Zoning Board of Appeals with such conditions as may be attached, including any time limit or future review, where necessary to assure that the use or structure does not become contrary to the public health, safety, or welfare or the spirit and purpose of this Ordinance.

The requirements for a home occupation approval shall be based upon compliance with the following standards:

1. Home Occupation means a use conducted entirely within an enclosed dwelling but does not occupy more than 1/4 of the floor area of the residential single family

dwelling unit on the property or not more than 320 sq. ft. of an accessory structure.

2. Home Occupations shall employ only those inhabitants residing on the premises.
3. There shall be no outdoor storage or other exterior evidence of the conduct of the home occupation other than approved sign which shall not exceed four (4) sq. ft. in area and which shall be attached to the building used for the home occupation.
4. Specifically excluded is the storage and display of merchandise not produced by such home occupation, any activity similar to a generally recognized retail store or service establishment as permitted in any commercial district, any activity involving any building alteration, window display, construction features, equipment, machinery, or outdoor storage of which is visible from off the lot on which located.

(B) Accessory uses to a gas station are limited to lubrication, changing oil and filters, changing and repair of tires and tubes, engine tune-up, minor repair and maintenance, not including major overhauls, steam cleaning, body repairs, painting, or transmission, or chassis repairs.

MOTION CARRIED: 6-0.

PRESENTATION ON CENSUS UPDATES FOR COMPREHENSIVE PLAN:

Karen informed the Planning Commission that there was a memo from Joe Palermo - Fall 1996 Student Intern on Census Information which should be considered for inclusion in the revised copy of the Chocolay Township Comprehensive Plan.

PLANNING DIRECTOR'S REPORT:

Getting ready for the joint meeting with the Township Board, and we've discussed the agenda items already. I'll be meeting with Professor Jean Ferrill and her planning practicum class before the February meeting. They will be reviewing our Comprehensive Plan and the Recreation Plan. A Zoning class may also take a look at our Zoning Ordinance.

PUBLIC COMMENT:

Mike La Pointe inquired if there any public comment. There was none. The second public comment section of the Planning Commission was closed.

COMMISSIONERS COMMENT:

- Commented Mike La Pointe, Karen Chandler and Estelle De Vooght for a job well done regarding the suggested priority listing.
- When is the joint meeting of the Planning Commission and the Township Board?
- The Planning Commission would like to have the joint meeting to be a special Meeting with various topics to be discussed.
- We need better communication between the Board and the Planning Commission.
- Mike La Point informed the Planning Commission that John Stevenson is now on the Alger-Marquette County Groundwater Commission.
- The Planning Commission was informed that the Township Board is will take action against Chocolay Downs Golf Course if the monitoring well tests are not submitted to the Township before the spring opening.

INFORMATION ITEMS & CORRESPONDENCE:

- A. Memo from - Larry Gould, DPW Supervisor - Groundwater Stewardship Team
- B. Memo from - Mike LaPointe, Chairperson, CTPC - Butcher Shop at Varvil Center
- C. Memo's from - Mark Maki, Zoning Administrator -
 - (1) Meat Market at Varvil Center;
 - (2) Zoning Report;
 - (3) Zoning/Trails and
 - (4) Conditional Use Requirements
- D. Chocolay Township Board minutes of December 16, 1996
- E. Chocolay Township Zoning Board of Appeals minutes of December 5, 1996
- F. Memo from - Mark Maki, Assessor - New Road/Access to Casino

ADJOURNMENT:

Max Engle moved, Bill Sanders supported that the January 13, 1997 Planning Commission be adjourned. The Planning Commission adjourned at 10:20 p.m.

MOTION CARRIED: 6-0

Steve Kinnunen

Estelle DeVooght

Steve Kinnunen

Planning Commission Vice-Secretary

Jeanette R. Collick

Jeanette R. Collick

Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, FEBRUARY 10, 1997**

PRESENT: Mike LaPointe, Max Engle, Bill Sanders, Bob Whitaker, Steve Kinnunen, Estelle DeVooght

ABSENT: Scott Emerson

STAFF PRESENT: Karen Chandler - Director of Planning & Research and Mark Maki - Director of Assessing and Zoning

OTHERS PRESENT: Jeanette R. Collick-Recording Secretary, Joseph Murphy

PUBLIC HEARING:

Mike LaPointe, Chairperson, called the Public Hearing to order at 7:30 p.m.

REZONING #90 - SPECIALTY FOOD STORE:

Karen Chandler, Director of Planning & Research informed the Planning Commission that this is a Text Amendment change to allow specialty food stores in the C-3 Districts as a conditional use.

Mike LaPointe inquired if there was any public comment regarding Rezoning #90. He informed everyone present that this would be discussed during New Business. There was no public comment. Mike LaPointe closed the public hearing section for Rezoning #90.

REGULAR MEETING CALLED TO ORDER:

Mike LaPointe called the Regular Planning Commission Meeting to order at 7:32 p.m.

ROLL CALL:

PRESENT: Mike LaPointe, Steve Kinnunen, Bob Whitaker, Max Engle, Estelle DeVooght and Bill Sanders present.

ABSENT: Scott Emerson.

APPROVAL OF THE MINUTES OF JANUARY 13, 1997:

Mike LaPointe inquired if there were any additions and/or corrections to the minutes dated January 13, 1997?

Mark Maki commented that the proposed correction dated in the memo of February 5, 1997 regarding approval of minutes, the suggested change regarding page 4 and to strike Marquette Township included language in their Zoning ordinance. Mark stated he did make this comment and that this should remain in the minutes, as a comment from the zoning administrator. An addition to the minutes on page 4 will include the phrase "Mark Maki believes" Marquette Township included language in their Zoning ordinance.

Karen informed the Planning Commission of the other corrections that were made in the February 5, 1997-memo regarding the minutes.

Bill Sanders moved, Bob Whitaker supported that the January Planning Commission minutes dated January 13, 1997 approved as discussed.

The Planning Commission members thanked the Recording Secretary for the fine job on the minutes.

MOTION CARRIED: 6-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Mike LaPointe inquired if there were any additions and/or changes to the agenda?

Karen informed the Planning Commission that under Old Business, Item A., Consider Conditional Use #41 - Brian & Ann St. Pierre to be tabled until the March Planning Commission Meeting. Brian St. Pierre will submit a Site Plan to the Zoning Administrator before the next meeting.

Steve Kinnunen moved, Bill Sanders supported that the agenda be approved as submitted.

MOTION CARRIED: 6-0.

PUBLIC COMMENT:

Mike LaPointe inquired if there was any public comment. There was none. The first Public Comment section of the Planning Commission was closed.

OLD BUSINESS**CONSIDER CONDITIONAL USE #41 - BRIAN & ANN ST. PIERRE:**

Max Engle moved, Bob Whitaker supported that Condition Used #41 - Brian & Ann St. Pierre be tabled until the March 1997 meeting and that a site plan be submitted.

MOTION CARRIED: 6-0.

DISCUSSION ON ENVIRONMENTAL ASSESSMENT SUMMARIES:

Karen informed the Planning Commission that they received the Environmental Assessment Summaries and that some of the students were still in the area, if Commissioner's had any questions that may need to be answered.

The following comments were made regarding the Varvil Center environmental summary.

- A rezoning of the area could eliminate C-3 considerably.
- If rezoned to C-2 would cut down on C-3 considerably.
- Rezone property close to the highway to C-2 and property behind to C-3.
- Keep both C-2 & C-3 so people can keep their businesses going.
- Concern that land is mostly sand and there may be a potential for water contamination.
- Original C-3 was for light industry and has always been an issue. If rezone to C-2 there is a potential for gas stations.
- Repair shops are allowed.
- The area needs municipal sewer connections.
- Water for restaurants.
- Tough to figure for C-2 for front and C-3 for back property.
- Planning Commission should take a look at this.
- In the eighty's underground storage tanks were removed. DNR would probably have the information on this.
- Mark Maki informed the Planning Commission members that he would be willing to put together information in his files that would pertain to this issue for the Planning Commission.
- How many businesses are there at the Varvil Center? There are about ten businesses currently at the Varvil Center area.

There was no other discussion. The Planning Commission members thanked the Director of Planning & Research for the information. Mike LaPointe asked Mark Maki to put together information from his files for review by the Planning Commission.

DISCUSSION RECOMMENDATIONS ON LANGUAGE FOR TEXT AMENDMENTS:**(1) SITE PLAN REVIEW (2) SITE CONDO**

Karen Chandler informed the Planning Commission that Harley Andrews resigned as the Township Attorney effective February 7, 1997. He accepted the position of Chief Civil Counsel for Marquette County. She also informed the Planning Commission that the Township Board will be discussing the township attorney replacement at next Board meeting.

The Planning Commission suggested that we obtain a copy of the language that we proposed and review it. We need to move on these two text amendments. We have been waiting on this language for approximately six months now.

One of the concerns the Planning Commission has is the setbacks. It was stated that it may be in the township's best interest to get some language in place now. Karen informed the Planning Commission she would get the language information in their agenda packets for March 1997.

NEW BUSINESS:**CONSIDER REZONING #90 - SPECIALTY FOOD STORE AS CONDITIONAL USE IN C-3 DISTRICT:**

Mike LaPointe inquired if there were any questions/comments regarding Rezoning #90?

The following questions/comments were made regarding Rezoning #90:

- Restaurants operate under Conditional Use in the C-3 Districts.

- C-2 environment - technology and laws are there to prevent contamination.
- Who is going to enforce the environmental law? The DEQ has that responsibility.
- As conditional uses, we have the ability to enforce conditions.
- May be too late after contamination occurs.
- The applicant should have received approval first.

Bob Whitaker moved, Bill Sanders supported that the Chocolay Township Planning Commission recommends to the Chocolay Township Board that the following text amendment to allow a speciality food stores in the C-3 Districts as a conditional use be approved for inclusion into the Chocolay Township Zoning Ordinance # 34.

REPEALER AND AMENDMENT

That portion of Section 211 of the Charter Township of Chocolay Zoning Ordinance entitled "DISTRICT C-3" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined, and the removal of the language in brackets ([]).

[SEC.] SECTION 211 DISTRICT C-3.

- (A) **INTENT.** To establish and preserve a district for light industrial use along with those commercial uses which are more compatible with light industrial than with other commercial uses.
- (B) **PERMITTED PRINCIPAL USES.** Motor vehicle sales, service, and rental, construction and farm equipment sales, sales of mobile homes, campers, recreational vehicles, boats, and monuments, wholesale and storage uses, food packaging and bottling works, commercial printing and newspaper offices, contractor's yards and shops, laundry and cleaning and dyeing plants.
- (C) **CONDITIONAL USES.** Restaurants and speciality food stores where there is no C-1 or C-2 District located conveniently nearby, drive-in theaters having patron entrance and exit drives only to streets having a paved surface at least 44 feet in width at points at least 200 feet from any intersection so planned that the picture screen cannot be seen from any street or from any R-1, R-2, R-3, or R-4 District, and other industrial uses which do not emit any fumes, vibration, smoke, or noise except the noise of vehicles coming and going, which is detectable by the senses of normal human beings, and where all operations, including the storage of anything except merchandise displayed for sale, are conducted in a fully enclosed building or entirely behind walls or fences which conceal them from visibility from off the lot.

The Planning Commission, in reviewing an applicant's site plan for a conditional use shall permit a structure in excess of 30 feet providing:

1. Height at any point on the structure shall not exceed the horizontal distance to any lot line.
2. The proposed structure is necessary and common to the proposed project.
3. That the structure is designed and intended so that any part of the structure in excess of 30 feet is not used or intended as a work station for human beings.
4. That the structure is so located, site planned and designed to avoid nuisances and dangers, implied or explicit, to adjoining property and all on-site personnel. The structure shall avoid interference with the adjoining properties and does not significantly change the character thereof.

MOTION CARRIED: 5-1

CONSIDER ROAD NAME AS PER MEMO FROM MARK MAKI:

Mark Maki brought the Planning Commission up-to-date on the history Autumn Trail. Mark Maki informed the Planning Commission that Mr. Peter Henricksen, Larry Lohf and Dana Varvil suggested Wintergreen Trail as a road name. Mark Maki also informed the Planning Commission members that Mrs. Henricksen has some questions, and he was unable to contact her before this meeting. Mark Maki suggested that we allow Mrs. Henricksen to make some comments on this issue.

Planning Commission suggested Mark Maki get in touch with Mrs. Henricksen and get her questions answered.

Bill Sanders moved, Estelle DeVooght supported that this item be tabled until the March Planning Commission Meeting.

MOTION CARRIED: 6-0.

REVIEW AND APPROVE 1996 ANNUAL REPORT:

Karen Chandler went over the 1996 Annual Report. She informed the Planning Commission members that this item would be going to the Township Board as a report at one of their regular meetings.

PLANNING DIRECTOR'S REPORT:

- 1) We could not schedule a joint meeting in February. The Board determined at their meeting last week that Monday, March 24 would be set as the joint meeting date. Hopefully everyone can make that meeting. It's an advance notice of almost six weeks.
- 2) The video is available on "Selling Your Development Rights - A Unique Way to Preserve." This workshop was held on Friday, January 31. We discussed having a tape available and I received a call today from Marquette County Extension. If anyone wants to review this tape, it will be available late tomorrow afternoon. Please stop by my office and pick it up.
- 3) There will be a workshop on Basic Training for Planning Commissioners and Zoning Board of Appeals Members on Thursday, March 20, 1997 at the Holiday Inn in Marquette. If any of the Planning Commissioner members wish to attend, please notify me by next week.
- 4) I attended a Marquette County Townships Association meeting to talk about what Planner's can do for Townships. I brought along our Strategic Plan and received good comments. Also brought along information from PAS and suggested that the Association purchase a membership for all Townships. The Executive Committee will be looking into the possibility of sharing this responsibility.

PUBLIC COMMENT:

Mike LaPointe inquired if there were any public comment? Joseph Murphy - NMU class is reviewing the Recreation Plan. There being no further public comment, the second public comment section of the Planning Commission was closed.

COMMISSIONER COMMENT:

Mike LaPointe informed the Planning Commission that he attended the County Planning Commission. He brought them up-to-date on the decisions of the semi-trailer, home occupation, and body repair shop text amendments.

He also informed them that he drafted a letter regarding trails and suggested that this letter be sent to the Trails Committee.

Steve Kinnunen informed the Planning Commission members that there are some yield signs up in the Harvey business district for snowmobiles.

Mike LaPointe informed the Planning Commission members that the Chocolay Watershed would be offering a free water testing for nitrates. This will be advertised in the Chocolay Watershed newsletter, Mining Journal, etc. This testing will be free of charge and confidential.

INFORMATIONAL ITEMS AND CORRESPONDENCES:

- A. Correspondence to - County Plat Board - Varvil Center
- B. Correspondence to - Governor Engler - Request to Veto SB 112
- C. Correspondence from - Governor Engler - thank you for concerns on SB 112
- D. MTA Legislative Fax - passage of SB 112
- E. Memo to - CABA - snowmobile trail
- F. Chocolay Township Board minutes 1/06/97 and 1/20/97
- G. Groundwater Stewardship Team Meeting Minutes 1/03/97
- H. Newsletter - Kellogg Youth Initiative Partnership

ADJOURNMENT:

Bill Sanders moved, Estelle DeVooght supported that the February 10, 1997 Planning Commission meeting be adjourned. The Planning Commission adjourned at 8:45 p.m.

MOTION CARRIED: 6-0.

Estelle DeVooght
Planning Commission Secretary

Jeanette R. Collick
Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, MARCH 10, 1997

REGULAR MEETING CALLED TO ORDER:

Mike LaPointe called the Regular Planning Commission Meeting to order at 7:34 p.m.

ROLL CALL:

PRESENT: Mike LaPointe, Steve Kinnunen, Max Engle, Estelle DeVooght and Bill Sanders present.

ABSENT: Bob Whitaker, Scott Emerson.

STAFF PRESENT: Karen Chandler - Director of Planning & Research.

OTHERS PRESENT: Stacy L. Busch-Recording Secretary, and Mark Maki, Joseph Murphy, Amy Emery, Tim Gordon, Chad Metzger, William Kessel, Burt Sparhawk, Darlene Herkins, Dave & Donna Barto, Joe Pertile, John Buckett, William Swenor, David Lynch, Brian St Pierre.

APPROVAL OF THE MINUTES OF FEBRUARY 10, 1997:

Mike LaPointe inquired if there were any additions and/or corrections to the minutes dated February 10, 1997?

Bill Sanders suggested removal of the question mark in the third sentence under rezoning #90-specialty food store.

Sanders moved, Engle second that the February Planning Commission minutes dated February 10, 1997 approved as discussed.

MOTION CARRIED: 5-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Mike LaPointe inquired if there were any additions and/or changes to the agenda?

Mike LaPointe suggested that New Business Item A be placed after Old Business Item B.

Kinnunen moved, DeVooght second that the agenda be approved as amended.

MOTION CARRIED: 5-0.

PUBLIC COMMENT:

Mike LaPointe inquired if there was any public comment. Mark Maki asked for some time to be reserved for the snowmobile trail issue.

OLD BUSINESS

CONSIDER CONDITIONAL USE #41 - BRIAN & ANN ST. PIERRE:

Bill Sanders asked about Larry Gould's comments. Karen Chandler stated that it was customary to meet with Larry Gould for sewer hook-up.

Steve Kinnunen asked if the parking spaces were dealt with? Karen Chandler stated yes.

Bill Sanders asked if the access to the building would be on the South.

Engle moved, Sanders second that after finding the general standards set forth in Section 701 of the Chocoday Township Zoning Ordinance # 34 have been met, the Chocoday Township Planning Commission approves the conditional use permit request to place an Auto Body Repair Shop and a second principal structure in the C-2 district, on the property described as a parcel located in Government Lots 5 & 6, Section 6, T47N, R24W Chocoday Township, Marquette County, State of Michigan. Located at 2210 U.S. 41 South (52-04-106-025-00), with the following conditions

1. That in addition to the site plan submitted, an actual floor plan indicating placement of hazardous materials be submitted to the Fire Chief along with the Firefighter Right to Know survey.
2. That a Zoning Compliance Permit be obtained from the Chocoday Township Zoning Administrator prior to use.

3. That the necessary permits as required by Federal, State and Local Agencies be acquired prior to the zoning compliance permit being issued.

MOTION CARRIED: 5-0.

DISCUSSION WITH NMU STUDENTS ON RECREATION PLAN UPDATE

Students informed the Planning Commission that they were working on updating the Recreation Plan and of the survey that was mailed out on March 7, 1997. Karen Chandler informed the Planning Commission that the survey was sent out to around 60 households consisting of the users, CABA, Schools, Lions Club, Senior Citizens.

Bill Sanders suggested making the survey available at the local businesses with a box for them once they are filled out and a time line.

Karen Chandler handed out the recreation plan index copy the students are working on.

DISCUSSION PETITION RECEIVED FROM RESIDENTS ON RIVERSIDE ROAD.

The following comments were made by Mark Maki.

The Strategic Plan only talks about hiking/biking trails for the schools. North Country Trails, and the snowmobile trail being on the bike path right of way. Riverside Road/Lakewood Lane was suppose to be for North Country Trails. He joined the trails committee to keep an eye on them. Mark Maki hasn't seen any written request for railroad track use. The Board also said it wasn't allowed. Mark Maki also states that there was a letter to the Board from Larry Gould stating that he was supporting the trail. Mark Maki asked Karen Chandler what she was going to tell the Board. He in turn notified the residents in that area who didn't know about the proposed trail behind Riverside Road. The Board rejected the trail. If the railroad gets abandoned the Township should say it shouldn't be a trail and it wasn't planned for. The residents do not want it. Snowmobiles are a nuisance and they travel too fast.

Bill Sanders asked Mark Maki what the deal was with the bike path?

Mark Maki stated that there is no designation for motorized vehicles use on bike path, the businesses want them to come through. He also wants trails to stay out of the residential areas.

Estelle DeVooght-any process to make bike path available for winter? Is there anyone here supporting the trail?

Karen Chandler stated that we are working with Representative Mike Prusi to get the bike path available for winter use. Michigan Department of Transportation says they can change the signs for the winter months use Dec-April. The DNR doesn't believe it is legal.

The following comments were made by the residents:

- Call Ameritech and get permission to take signs down. The snowmobilers are driving drunk by his house. The road is 20 feet wide, its like a superhighway. Going to fight trail.
- Is it possible for Planning Commission to record that they take position to be against trail. Hear them at night going fast. Shouldn't be there not good for businesses if going through residential area. Keep them in business, residents don't want them.
- Snowmobilers are coming down private road going to Harvey Inn, they won't stop.
- Opposed to trail there in winter or summer.
- Opposed because of safety. Kids walk behind house. A letter should be drafted to the Board opposing trail.
- Opposed to trail feels like superhighway in back of house. Someone is going to get killed.
- Opposed too noisy.
- Opposed to bike path or nature trail, gives the dogs something to bark at.
- Recommend to Board residents are against it.
- Vigilant about sending notices for variances, no clue about trail happening. DNR can slip in trail too easily. Easement questions.
- Do something, more impact if Planning Commission recommends.

Mike LaPointe stated that it was not the Planning Commission's intent to recommend snowmobile trails in residential areas. Planning Commission asked for Ad Hoc to be formed to deal with the trails.

Steve Kinnunen stated that the trails were for connecting route.

Max Engle stated that the intent was for hiking/pedal bike trails. We are one of the few areas without a snowmobile trail. North Country trail is a Country wide trail. A lot of residents are looking for walking and biking trails.

Steve Kinnunen stated that action is being taken by the DNR and Representative Mike Prusi.

Bill Sanders stated that AD Hoc Trail Committee is a volunteer group working on different projects. No part in suggesting that trail go through residential area. Reason for residents to be concerned.

Max Engle said they don't have a report because they don't have recommendation.

Bill Sanders stated that the Planning Commission should write a letter to DNR.

Steve Kinnunen stated that something should be done sooner to address problems areas. It is not part of strategic plan. Not what we intended.

Karen Chandler stated that residents could call 911 to report snowmobile problems. The Sheriffs Department has snowmobiles and could monitor. Township Police Department can stop on roads but does not have equipment necessary to patrol trails.

Mark Maki-Trails Committee was formed to do a number of things. Snowmobilers make up a lot of the committee.

Karen Chandler-Trails Committee not in favor of running down grade. Planning Commission should recommend that Board send letter to DNR.

Max Engle stated that Board would not have had designated trail. If railroad abandons track, Ameritech still has right of way.

Mike LaPointe feels this should be put on joint meeting agenda and get Boards feeling.

Bill Sanders feels that the consensus is to not support trail through residential area. We should right letter to DNR instead of Board.

Max Engle stated we should make recommendation to the Board.

Mike LaPointe states that the consensus is to recommend to Township Board that DNR does not designate trail.

CONSIDER ROAD NAME

Sanders moved DeVooght second to recommend to the Township Board that the part of Autumn Trail accessed off M-28 be renamed Wintergreen Trail. The existing private road is located in Section 8 T47N R24W.

MOTION CARRIED 5-0

DISCUSSION ON REZONING #87-DEFINITION OF SEMI-TRAILER.

Sanders moved, DeVooght second that semi-trailer definition be defined as any unlicensed trailer that is used for storage.

MOTION CARRIED 5-0.

It was also suggested that Section 107 Accessory Uses for Gas Stations/Convenience Stores be discussed at the joint meeting with the Board.

DISCUSS RECOMMENDATIONS ON LANGUAGE FOR TEXT AMENDMENTS SITE PLAN REVIEW & SITE CONDOS.

Bill Sanders suggested that there should be a minimum size required and some setbacks set for these units.

It was also suggested that the Ordinance be sent to our Attorney Mike Summers.

Mike LaPointe thanks Joe Weitek for his time and effort.

PLANNING DIRECTOR'S REPORT

- 1) Our meeting with the Township Board is scheduled for Monday, March 24 at 7:30 p.m.
- 2) The Michigan Townships Association will be holding two workshops in Marquette on Tuesday, March 18. Planning for Zoning from 1-4:30 p.m. and Subdivision control Act update from 6-9 p.m. If anyone is interested in attending either or both of these workshops, I'll need to know by tomorrow before noon.

A "Tools for Drinking Water Protection" workshop is being conducted on Wednesday, March 19. This is a telecommunication hook-up with Bresnan. The Fire Hall will be open for any Planning Commission members wanting to attend. I will also make sure the broadcast is taped.

- 3) Estelle is registered for the workshop on Basic Training for Planning Commissioners and Zoning Board of Appeals Members on Thursday, March 20, 1997 at the Holiday Inn in Marquette.
- 4) We need to think about changing our June meeting date. The last two years we've met in the Fire Hall since this building is being used on that day for the annual School election. We should consider meeting on the first Monday in June since the Board will only meet on the third Monday in June and this room will be available.
- 5) The Township is now on-line and our E-mail address is choctwp@mail.portup.com

Planning Commission members agreed to the first Monday in June for their Planning Commission meeting.

PUBLIC COMMENT

None.

COMMISSIONER COMMENT

None.

ADJOURNMENT:

Mike LaPointe moved, Bill Sanders second that the March 10, 1997 Planning Commission meeting be adjourned. The Planning Commission adjourned at 9:45 p.m.

MOTION CARRIED: 5-0.

 Estelle DeVooght
 Planning Commission Secretary

 Stacy L. Busch
 Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
JOINT MEETING - CHARTER TOWNSHIP OF CHOCOLAY BOARD
MARCH 24, 1997**

PLANNING COMMISSION PRESENT: Bill Sanders, Steve Kinnunen, Estelle De Vooght, Mike La Pointe (Chairperson), Scott Emerson (arrived at 7:32 pm), Bob Whitaker.
ABSENT: Max Engle.

TOWNSHIP BOARD: Ivan Fende, Richard Bohjanen, John Greenberg, Gary Menhennick, Lois Sherbinow.
ABSENT: Arlene Hill, Max Engle.

STAFF PRESENT: Karen Chandler, Director of Planning & Research

OTHERS PRESENT: Stacy Busch, Recording Secretary, Mary Sanders, Deputy Clerk, Cathy DeVooght, Mark Maki, William Stenglein, L.J. Blondeau, John Smith, Chad Metzger, Mark Mankowski, Amy Emery, Ryan Solesky, Joseph Murphy.

Ivan Fende, Township Supervisor called the Board meeting to order at 7:30 p.m.
Mike LaPointe called the Planning Commission Meeting to order at 7:30 p.m.

Ivan Fende informed the public they could make comments after Board and Planning Commission discussion, during the public comment section. Unlike regular Board meetings where comment can be reserved for agenda items, the nature of the joint meeting was for the Planning Commission and the Township Board to discuss items of common concern.

PRESENTATION ON COMMUNITY CHARRETTE:

Bill Sanders, Planning Commissioner, gave a presentation on a community Charrette. The charrette involves ideas from our community on what we want for the future of Chocolay Township. A group from Ball State University spends approximately 4-5 days gathering this information while staying in our community and interacting with our residents, businesses and governmental unit. This information is used to write goals for our community. Ideas for developing a landscaping ordinance, sign control, and the look of our business district could be formed from the charrette. The community within the township must all be involved for this to work. The Planning Commission would like the Board to address the Charrette and whether the Planning Commission can get the go ahead for this. The price would range from \$5,000 to \$10,000. A more definite price would be received before moving forward.

Planning Commission comments:

- It is important to get everyone on the same frequency in the township.
- Concerns about having someone brought in from elsewhere.
- Great idea, too expensive.
- Either we do it or forget it.
- Rita Hodgins recommends this is done. People are top of the line and doing this around the country.

Board Comments:

- Will Charrette help Township.
- Does it include the business district.
- How much does it cost.
- Wal-Mart money could be used for this.

SEMI-TRAILER STORAGE:

Planning Commission Comments:

- Costs, zoning is an issue for future. Put handle on it now. Need to define what we are looking for in ordinance.

- County Planning Commission feels there shouldn't be semi-trailer storage at all.
- They should become generalized storage buildings. They would look better than semi-trailers.
- Do not want these permanent trailers there.
- Consider banning semi-trailer storage and grand fathering existing storage units. Specify a number of years for them to become in compliance.
- Currently semi-trailers are illegal according to the zoning ordinance.

Board comments:

- Definition is not specific enough (open or closed trailer).
- Too broad of definition, subjective for one not other. Should have setback guidelines, define the appearance, enclosure. Disagree with County Planning Commission. Better storage in trailer than open field.
- Maybe have them file for a permit for a semi-trailer from township office.
- Concern that with the small number of semi-trailers, that there would be selective enforcement.

KAWBAWGAM & M-28 AREA:

Mike LaPointe, Planning Commission Chairperson explained the past history about this area.

Planning Commission comments:

- We don't want to start development down there.
- This area is too far from the police, fire department, it has no sewer service. It would end up to be strip development, undesirable. Residents do not want it commercial in that area.
- This would start satellite development.
- Suggested that if it was commercialized and sewer was hooked up, Harvey village residents would be upset because nothing is being done about contaminated wells in village area.
- Should follow strategic plan.
- Voting public against commercial area there.
- We can't take away what has been there just because someone doesn't like it.
- Grocery store wasn't supported when it was there.
- Looking for support from the Township Board.
- Environmental impact not good, no police, trailers, groundwater source.
- Not good planning to have health department to do planning for you.
- Nothing has been done with corner property for 15 years. It is an eyesore, improve township by nipping it in the bud now and get it back into residential.
- Commercial piece spot zoned. Commercial development on going.

Board Comments:

- Corner was commercial for along time.
- Casino is big factor.
- Property is expanded all the time.
- No mandates. Mandate for safe and sound businesses, security for the residence.

VARVIL CENTER:

Currently zoned C-3, should it be zoned to C-2?

Planning Commission Comments:

- Commercial area more established. Rezone it all to C-2, some nonconforming uses.
- C-2 & C-3 groundwater problems? Who would police that.
- Keep heavier commercial down in that area on M-28.
- Mixture of businesses at Varvil Center, keep light industrial.
- Assesses with property owner is going to be very difficulty.

Board Comments:

- Suggestion to keep C-2 on the highway and C-3 on the back side.
- Important to look at commercial districts and redefine them. Currently there are 3 different categories of business on that property.
- Put municipal water and sewer down there.
- Performance zoning would work if the same person enforces the zoning ordinance forever. If Planning Commission was large enough with more than one person working on something, it would work.

LANDSCAPING ORDINANCE:**Planning Commission comments:**

- It would be to everyone's advantage to have the commercial district look nice, more park like. Add buffer areas, corridor sites, pocket parks, more of a village look. Need go ahead from Board.
- Save existing trees.
- Appropriate lighting makes a big difference.
- Nice landscaping helps make people want to come or stop here.

Board comments:

- A wagon wheel development behind Superior Development and Holiday Station would be desirable.
- Older part of Commercial district would be hard to have landscape ordinance because of the odd shaped and smaller lots.
- The Township could put out seed money for businesses to plant flowers, shrubs and trees.

SIGN CONTROL IN BUSINESS DISTRICT:

- The amendment to our ordinance allows for a 4 foot attached sign for home occupation, we should add to the ordinance either a 4 foot attached or 2 foot detached sign.
- There is a potential for signing in the right-of-way, where do we want signs?
- Some of the businesses have their signs further back from the road because of the right-of-way.

COMMITTEE TO REVIEW COMMERCIAL DISTRICTS:**Planning Commission Comments:**

- Varvil Center, look at whole commercial district.
- Committee is good idea.
- What types of business is good, focus more on what public wants.
- Should sit down with CABA and get feedback.
- Get CABA involved with implementation, get community together.

Board comments:

- Form a Review Committee to look at zoning districts without biases.

SUBDIVISION CONTROL ACT:

- Will allow parcels 10 acres-19.9 acres to be split into 4 parcels. Parcels over 20 acres can be split into 7 parcels.
- Land division ordinance be passed or people can split land and no one to monitor splits..
- Write a letter to Register of Deeds informing people to look into the law first before they buy.
- How much R-1 land is available in large parcels?
- Need to decide ideal amount of residential, commercials, RP. A ratio system could be implemented.

- Developmental right come into play?
- It was suggested to write a letter to Realtors.
- Township could look for a model ordinance incorporating the subdivision control act regulations.

PUBLIC COMMENT:

Cathy DeVooght-repeated Scott Emerson's comment that spot zoning is bad. If it is so bad, why do we have spot zoning all over the Township? They serve a purpose.

Gary Menhennick-He wasn't called when they were looking for input for the strategic plan.

Scott Emerson-Called President of CABA at that time, which was Tim Shirtzinger. He was suppose to inform CABA. Scott also called Ron Thorley.

John Smith-Has opposing views of strategic plan. Seemed to him that there were more hurdles for him in Chocoley when he was looking for a place for his business in 1987.

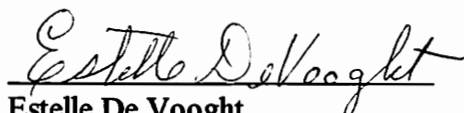

Bill Sanders-Specific goals for strategic plan.

ADJOURNMENT:

Mike LaPointe moved, Bill Sanders second that the joint Planning Commission meeting with the Chocoley Township Board be adjourned at 10:05.

MOTION CARRIED: 5-0

The joint meeting was adjourned at 10:05 p.m.

Estelle De Vooght
Planning Commission Secretary

Stacy L. Busch
Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION

MONDAY, APRIL 14, 1997

PRESENT: Mike LaPointe, Bill Sanders, Bob Whitaker, Steve Kinnunen, Estelle DeVooght.

ABSENT: Scott Emerson, Max Engle

STAFF PRESENT: Karen Chandler - Director of Planning & Research

OTHERS PRESENT: Jeanette R. Collick-Recording Secretary, Mark Maki, Don Britton, Pete Henricksen, Carl Lindquist, Wm Smith, Gerald Vashaw, Donald Castell, Pat Castell, Judd Johnston, Chad Metzger, Tim Gordon, Joseph Murphy, Amy Emery

PUBLIC HEARING:

Mike La Pointe, Chairperson, called the Public Hearing to order at 7:32 p.m.

He informed everyone present there were three public hearings scheduled. He informed everyone the process of the public hearings, which were: (1) staff would make a brief statement on each of the public hearings, (2) applicant would make a brief explanation on the public hearing, (3) the public can comment on the public hearing.

REZONING #91 - R-1 TO C-1:

Karen Chandler, Director of Planning & Research informed everyone present that the applicant, Judd Johnston, has petitioned the Chocolay Township Board to rezone the following described property from a current zoning classification of R-1 to C-1:

The West 255' of the East 350' of Government Lot 1 lying south of M-28 in Section 12 T47N R24W being part of Lots 2, 3, 4 of the unrecorded plat of Sea Home Addition of Frank Dushane's Plat in the Township of Chocolay, County of Marquette, & State of Michigan. Location address is across from 1943 M-28 East on south side of M-28.

SITE FACTORS: Land use

There is no existing use on the property at this time. Surrounding land use is residential and vacant. Types include single and multi-family dwellings and commercial. The property borders land held in trust by the Federal government for the Keweenaw Bay Indian Community.

Judd Johnston - applicant, owner of property 1943 M 28 E: stated he had no hidden agenda and gave a brief summary on what he planned to do if the property was approved for rezoning:

The reason for requesting the proposed zoning change is to establish and operate a bed & breakfast/brothel. Mr. Johnston informed everyone that he is assuming such a facility will warrant a commercial status. Although the legality of such an operation might be challenged. The present issue is zoning. He is presently following the same process, roughly that were undertaken to legalize gambling in the great State of Michigan. Now that we embraced the "Gaming Institution," it is only a matter of time to open other avenues of economic development to further enhance our community.

Mike LaPointe inquired if there were any other public comments regarding Rezoning #91?

Estelle DeVooght, Planning Commission Secretary read letters from the following into the record:

- (1) Patrick & Michelle Barnette - opposed.
- (2) Vivian Glass - opposed
- (3) Glen & Connie Barto - opposed

Mike LaPointe informed everyone present that this would be discussed during New Business. There was no further public comment. Mike La Pointe closed the public hearing section for Rezoning #91.

PRIVATE ROAD REQUEST #10:

Karen Chandler, Director of Planning & Research informed everyone that the applicant, Peter H. Henricksen, has requested the Chocolay Township Board approve a private road located within the following described property.

Section 4 T47N R23W 23.60 Acres - Government Lot 1 and Section 9 T47N R23W 17 Acres - That Part of NE 1/4 of NE 1/4 lying N of M-28. Property Address is 2501 M-28 East.

Peter H. Henricksen, applicant: - 1160 M 28 East: the road is already there, wants it to be named for emergency purposes.

Mike LaPointe inquired if there were any public comments regarding Private Road Request #10?

Kenneth Kelly - 1306 West Avenue - Marquette, MI & owner of property located at 2461 M 28 East. informed everyone that he submitted a letter opposing the private road due to the interference with wetlands and requested that the letter be read into the record.

Road needs to be wider.

Don Castell - 5199 Sharkey 19.9 Lane - Gladstone, MI & owner of property located at 2429 M 28 East. No reason for a name for the road. This is a private driveway. He is opposed to the private road request.

Peter Henricksen - stated there would be no further development of this property.

Mike LaPointe inquired if there were any further public comments regarding Private Road #10. There were none.

Estelle DeVooght, Planning Commission Secretary - read the following letters into the record:

- (1) John F Peterson - 2119 Chestnut St. - Waukegan, IL - opposed
- (2) Mona Scriba - 322 Michigan Ave - Hobart, Indiana - opposed
- (3) Kenneth & Susan Kelly - 2461 M 28 E - Marquette, MI - opposed.

Mike LaPointe closed the public hearing regarding Private Road #10.

PRIVATE ROAD REQUEST #11:

Karen Chandler, Director of Planning & Research informed everyone that the applicant, Sharon R. LeBoeuf, has requested the Chocolay Township Board approve a private road located within the following described property.

Section 22 T47N R24W 31.4 acres M/L - S1/2 of NE 1/4 exc. S208.7' of E 417.4' of W 1235.7' thereof & exc. the E 696' thereof & exc. the W 800.2' thereof & exc. the S 234.75' of W 208.75' of E 955.15' thereof. Property Address is 357 Mangum Road.

Sharon Le Boeuf (owner) 357 Mangum Road & Andrea Vigi (applicant's representative - Re/Max 1st Realty) - informed everyone the applicant and her daughter will be able to sell the existing property and still remain in the area. All neighbors are very supportive and agreeable to the idea. She also has a purchase agreement on her existing property contingent with this proposal.

Mike La Pointe inquired if there were any further public comments regarding Private Road #11. There were none.

There being no further public hearings scheduled, the public hearing section of the meeting was closed.

REGULAR MEETING CALLED TO ORDER:

Mike La Pointe called the Regular Planning Commission Meeting to order at 7:55 p.m.

ROLL CALL:

PRESENT: Mike LaPointe, Steve Kinnunen, Bob Whitaker, Estelle DeVooght, Bill Sanders

ABSENT: Scott Emerson, Max Engle

APPROVAL OF THE MINUTES OF MARCH 10, 1997:

Mike LaPointe inquired if there were any additions and/or corrections to the minutes dated March 10, 1997?

Sanders moved, Whitaker supported that the Planning Commission minutes dated March 10, 1997 be approved as presented.

MOTION CARRIED: 5-0.

APPROVAL OF MINUTES OF MARCH 24, 1997 - JOINT MEETING:

Mike La Pointe inquired if there were any additions and/or corrections to the minutes dated March 24, 1997? Bob Whitaker noted that he was in attendance at the March 24, 1997 meeting.

DeVooght moved, Sanders supported that the Planning Commission minutes dated March 24, 1997 be approved as corrected.

MOTION CARRIED: 5-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Mike LaPointe inquired if there were any additions and/or changes to the agenda?

It was suggested that Items B & C under New Business be presented before Old Business and Item A under New Business be presented under Old Business after item A.

Whitaker moved, Kinnunen supported that the agenda be approved as changed.

MOTION CARRIED: 5-0.

PRESENTATION

Carl Lindquist made a presentation on the Chocolay Watershed Council.

Three things to keep in mind were:

- (1) Conservation
- (2) Restoration
- (3) Education

The following comments were made regarding the presentation:

- Great work being done regarding the Chocolay Watershed.
- Newsletter circulation being increased.
- Volunteers and/or donations are always needed.

Carl Lindquist informed the Planning Commission that because John Stephenson was down state the Farm-A-Syst and Home-A-Syst Project presentation wouldn't be made tonight. If anyone had questions, they can call the Soil Conservation Office.

PUBLIC COMMENT:

Mike LaPointe inquired if there was any public comment. There was none. The first Public Comment section of the Planning Commission was closed.

OLD BUSINESS:

CONSIDER PRIVATE ROAD REQUEST #10 - APPLICANT PETE HENRICKSEN:

Pete Henricksen informed the Planning Commission that the DNR restricts and further development on the property. His request for the private road is strictly for his personal use. Just wants the road named.

The following questions/comments were made by the Planning Commission:

- The county didn't have a record of the easement being recorded.
- The approval or disapproval has no bearing on getting emergency services.
- Frontage requirements in the zoning ordinance calls for 66' right of way boundaries.
- How can we be assured that no future developments would be made?
- If a private road is approved and a new name made for the road, 911 would have to program the information in the computer.
- The problem isn't with the name. The road cannot be widened.

- No problem with the sign.

Sanders moved, DeVooght supported to recommend to the Township Board that Private Road Request #10 be denied due to failure in meeting the private road requirements as set forth in the Zoning Ordinance.

MOTION CARRIED: 5-0.

CONSIDER PRIVATE ROAD REQUEST #11 - APPLICANT SHARON LE BOUEF:

Mike LaPointe informed the Planning Commission due to a conflict of interest, he has a purchase agreement on the land being discussed, he would have to abstain from discussion and voting on this particular private road request.

Bill Sanders assumed the chairperson's position and inquired if there were any comments regarding Private Road Request #11.

Karen informed the Planning Commission that she went out to the property. The culvert presently there connecting the drive to the county road is small. The road is wider than the culvert.

Mark Maki advised on the State Subdivision Control Act.

After discussion on the Private Road Request #11, the following motion was made:

Whitaker moved, Sanders supported that the Chocolay Township Planning Commission recommends the Township Board approve the private road request with the following conditions:

1. The developer will provide and install street signs per township specifications at their own expense and maintenance of signs and post to be the responsibility of the owner(s).
2. A covenant be established on the parcel deeds identifying the private road status and the owners responsibility for road maintenance, right-of-way maintenance, and drainage maintenance as well as requiring that open access to the private road be maintained for essential public services.
3. Developer comply with all other agency regulations.
4. Road name be named Tia Trail.
5. Cul-de-sac should be required at the end of the road.
6. A recorded deed for the private road easement be presented before the zoning compliance permit is issued.

MOTION CARRIED: 3-1-1 AYES: 3 NAYES: 1 ABSTAIN: 1

CONSIDER REZONING #91 - R-1 TO C-1 - APPLICANT JUDD JOHNSTON:

The Planning Commission was informed to keep in mind the discussion that took place at the Public Hearing on this issue.

The following questions/comments were made regarding Rezoning #91.

- Is this a joke to have a brothel? Mike La Pointe we need to act upon the rezoning request.
- Currently the property is zoned R-1. Residents in the surrounding areas wants the area to remain R-1.
- Planning Commission has spent a tremendous amount of time to keep this area residential.
- C-1 has a negative impact on the area. There are other C-1 properties in Chocolay Township.

After discussion on Rezoning #91 the following motion was made:

Sanders moved, LaPointe supported to deny Rezoning #91 and that C-1 would have a negative impact on residential use. There are other C-1 properties in the areas of the township. The proposed land use is a conflict with surrounding areas.

MOTION CARRIED: 5-0.

Karen Chandler informed the Planning Commission the Rezoning #91 would be on the County Planning Commission Agenda for May 7 and the Chocoday Township Board at their second meeting in May.

Private Road Request would be on the Chocoday Township Board agenda at their 2nd meeting in April.

Judd Johnston applauded the Planning Commission for sticking to their decision for the property around that area to remain R-1. The Township Board should have the commitment that the Planning Commission has.

OLD BUSINESS:

CONSIDER AD HOC TRAIL'S COMMITTEE RECOMMENDATION:

Don Britton gave a brief update on the Trail's Committee recommendation.

The Planning Commission stated that they appreciate the time the Ad Hoc Trails Committee has taken. Commended them for doing a fine job.

LaPointe moved, Sanders supported that a letter of support of the motion suggested from the Ad Hoc Trail's Committee be sent the Township Board and be forwarded to the DNR.

MOTION CARRIED: 5-0

CONSIDER LANGUAGE FOR HOME OCCUPATIONS SIGNS:

Karen informed the Planning Commission that she has reviewed some of the ordinances that other governmental entities do regarding signs for home occupations.

Mark informed the Planning Commission that presently a 2 square foot sign usually with the name of the home occupation and the phone number had been used. He informed them that the Township Board suggested that possibly a 2 square foot sign being use by the road and that a 4 square foot signed be used on the building. He also informed them that signage for home occupations has not been a very big problem.

It was suggested that when the Zoning Board of Appeals reveals the home occupation permit that the approval of signage be submitted in the application. This way the Zoning Board of Appeals could review all signs and see that it fits in the character of the area.

The sign could be reviewed on a case by case basis and be sure it fits in with the character of the area.

Kinnunen moved, Whitaker supported that language regarding Home Occupations be forwarded to the Township Board "a sign not to exceed two (2) square feet and be reviewed by the Zoning Board of Appeals on a case by case basis with the character of the sign to fit in with the neighborhood."

MOTION CARRIED: 5-0.

DISCUSSION ON JOINT MEETING:

The Planning Commission Members felt that the joint meeting with the Chocoday Township Board went very well.

It was suggested that Karen Chandler contact Ball State University regarding the community charrette program and obtain estimates for expenses.

Karen informed the Planning Commission that Mark Maki met with the township attorney on language for semi trailers.

It was suggested that accessory structure be used for commercial uses. Possible language saying no semi-trailers be used for outdoor storage.

DISCUSS RECOMMENDATIONS ON LANGUAGE FOR TEXT AMENDMENTS:

1. **SITE PLAN REVIEW**
2. **SITE CONDO**

Karen informed the Planning Commission there is no further information pertaining to this language.

PLANNING DIRECTOR'S REPORT:

- 1) Our June meeting date has been changed to the first Monday, which is June 2.
- 2) Received a phone call from Glen Barto on rezoning # 91. He also asked if there was anything the Township can do to cut down on the lighting at the casino. He suggested capping the lights for down lighting only. The whole area is bright from the up lighting.

It was stated that the lighting doesn't fall under township ordinance. It was also noted that possibly when the Landscape Ordinance language was done that possibly the lighting could fall under that. It was suggested that possibly the type of lighting to be used would be the one used at the State Welcome Center.

The Planning Commission was informed that possibly the following would be on the agenda for the May Planning Commission: Addition to the Township Building. Should be viewed by the Planning Commission - character of building; and a proposed Medical Facility on the Blondeau property by Snyders.

PUBLIC COMMENT:

Mike LaPointe inquired if there was any public comment?

The NMU students present gave a brief summary of the workshops they participated in at San Diego. The poster will be at the next Township Board meeting on April 21. All of the information will go into the Recreation Plan.

There being no further public comment, the second public comment section of the Planning Commission was closed.

COMMISSIONER COMMENT:

It was noted that the preservation of trees, etc. language would fit into the landscape ordinance.

Sanders moved, Kinnunen supported that the Planning Commissioners wishing to attend the urban forester program proving that information will fit in with the township uses.

MOTION CARRIED: 5-0

There was a discussion regarding the letter to the editor sign by a planning commission member. It was noted that in the future that when a letter is sent to the editor that it be signed as a personal letter without planning commission member title on the letter.

It was noted that a Master Planning Workshop is going to be held on Friday, May 23 at NMU. This is an excellent workshop. Some members noted their interest depending on their personal work schedules.

There was the concern of the monitoring wells at the Chocoley Downs Golf Course. It was noted that the Township Attorney was on vacation until April 4. Planning Director will contact the township attorney to see what has to be done.

It was noted that the monitoring wells and testing needs to be done before the golf course is operating.

It was noted that the Best Management Guide was to be followed regarding the testing of the wells.

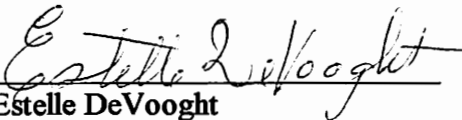

INFORMATIONAL ITEMS AND CORRESPONDENCES:

- A. Memo from - Mark Maki - Golf Course/Water Wells Testing
- B. Workshops - MSPO -Master Planning Workshop - Friday, May 23 at NMU
- C. Correspondence from - Mqt. Co. Soil & Water Conservation District - on visiting urban forester program
- D. Chocolay Township Board minutes of 03\03\97; 03\17\97; and 03/24/97

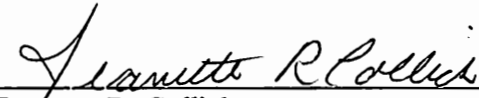

ADJOURNMENT:

Sanders moved, DeVooght supported that the April 14, 1997 Planning Commission meeting be adjourned. The Planning Commission adjourned at 9:40 p.m.

MOTION CARRIED: 5-0.

Estelle DeVooght
Planning Commission Secretary

Jeanette R. Collick
Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, MAY 12, 1997**

PRESENT: Mike LaPointe, Bill Sanders, Bob Whitaker, Steve Kinnunen, Max Engle, Estelle DeVooght (arrived at 7:37 p.m.)

ABSENT: Scott Emerson

STAFF PRESENT: Karen Chandler - Director of Planning & Research

OTHERS PRESENT: Jeanette R. Collick-Recording Secretary, Mark Maki, Don Britton, Gary Menhennick, John F. Smith, David Blondeau, David St.Onge, Ron Katers

PUBLIC HEARING:

Mike LaPointe, Chairperson, called the Public Hearing to order at 7:33 p.m.

He informed everyone on the process of the public hearing, (1) staff would make a brief statement on each of the public hearings, (2) applicant would make a brief explanation, (3) the public can comment.

REQUEST: CONDITIONAL USE #42

Karen Chandler, Director of Planning & Research informed everyone present that the applicant, Superior Development, has requested that the Chocolay Township Planning Commission consider granting a conditional use permit to allow for a group of related commercial buildings contained within a single integrated complex, sharing parking, access, and other similar site features in the C-2 District on the following parcel:

SECTION 7 T47N R24W Part of NE 1/4 beg 740' W of SE cor of NE 1/4 of NE 1/4 th S35deg44'W 71.38' th N55deg57'W 225.17' th N47deg02'E 205.54' th N35deg05'W 225.11' th S50deg38'W 416.49' to US 41 ROW th NW'ly alg ROW 270' M/L to SILVER CREEK th NE'ly 410' M/L alg CREEK th S63DEG20'E to a pt 400' N of POB th S 400' to POB. **PARCEL LOCATED AT 5087 U.S. 41 SOUTH.**

Dave St.Onge, consultant for the applicant presented information on the proposed conditional use on a map. Mr. St.Onge informed everyone present that the applicant's interested in the property was in support of completing the development of this property parcel, the applicant wished to secure zoning approval necessary to construct a medical office and a retail/office building on the east portion of the subject parcel. This development is consistent with the surrounding land use and it's supported by adequate vehicle parking, site ingress and egress, storm water management and the existence of all utilities necessary to support the project.

The portion of the site nearest U.S. 41 has been developed to include three (3) retail/office buildings and related transient vehicle parking. The remaining portion of the property is currently undeveloped and is the purpose of this Conditional Use Application.

The intent is to complete the development of this parcel in a manner which is consistent with the existing and surrounding land use. The purpose of the development will be consistent with the areas of the property that have already been completed. The proposed parking lot will be a paved extension of the existing asphalt parking area.

Mark Maki commented on the site plan noting that the current parking lot ends on the site plan but that the commission should be concerned about where the parking lot might extend in the future. The access through the parking lot is not wide enough to meet Sec 402 frontage requirements for a road and therefore can not be used for an access road. The wheel concept did have an access road in this area but unless the Snyder & Blondeau developments consider the 66 foot right of way before it is built up it will not be possible to have an access road in this area leading from US41 to M-28. Future access behind Holiday bringing traffic back to US 41 where a problem already exists should not be permitted.

Mike LaPointe inquired if there were any further public comments regarding Conditional Use #42. There were none. There being no further public hearings scheduled, the public hearing section of the meeting was closed.

REGULAR MEETING CALLED TO ORDER:

Mike LaPointe called the Regular Planning Commission Meeting to order at 7:40 p.m.

ROLL CALL: PRESENT: Mike LaPointe, Steve Kinnunen, Bob Whitaker, Max Engle, Bill Sanders and Estelle DeVooght (arrived at 7:37 p.m.)

ABSENT: Scott Emerson

APPROVAL OF THE MINUTES OF APRIL 14, 1997:

Mike LaPointe inquired if there were any additions and/or corrections to the minutes dated April 14, 1997?

Sanders moved, Kinnunen supported that the Planning Commission minutes dated April 14, 1997 be approved as presented.

MOTION CARRIED: 6-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Mike LaPointe inquired if there were any additions and/or changes to the agenda?

It was suggested that Item A under New Business be presented after Old Business Item A.

LaPointe moved, Sanders supported that the agenda be approved as changed.

MOTION CARRIED: 6-0.

PUBLIC COMMENT:

Mike LaPointe inquired if there was any public comment.

Mark Maki informed the Planning Commission that there may be a follow-up letter regarding semi trailers for the June Planning Commission Meeting.

Mike LaPointe inquired if there was further Public Comment. There were none. The first Public Comment section of the Planning Commission was closed.

OLD BUSINESS:

DISCUSSION WITH AD HOC TRAIL'S COMMITTEE MEMBERS:

There were three representatives from the Ad Hoc Trails Committee present at the meeting and informed the Planning Commission on what was being done presently.

Some of the comments and/or concerns were the following:

- Types of trails are not defined in the Zoning Ordinance.
- Language needs to be adopted for Zoning Districts.
- Possibly the Township Board could notify the land owners where the trails are being proposed to encourage the property owners to give support for the trail's easements to allow the trails to go through.
- Trails designed with North Country Trail would be nonmotorized.
- Should possibly be multi-use.
- Some of the seasonal roads could be designated for trails.
- Trails Committee has some volunteers that would work on the trails. People need to see what is being done.

It was suggested that language try to be drafted for a public hearing to be held regarding the types of trails to be defined for various types of zoning districts.

The Planning Commission unanimously agreed that a letter be sent to the Township Board as requested by the Trails Committee for their support in obtaining easements for the trail development.

NEW BUSINESS:**CONSIDER CONDITIONAL USE #42:**

Some of the comments and/or concerns regarding Conditional Use #42

- Is the way the road is being proposed wide enough?
- One of the major concerns was the wheel concept to be done eventually.
- The wheel concept has nothing to do with the proposed development presently being discussed. We need to deal with the application at hand.
- Green Space was a big concern.

After a lengthy discussion the following motion was made regarding Conditional Use #42:

Whitaker moved, Sanders second that after careful review of the site plan and determining that the general standards as set forth in Section 701 of the Zoning Ordinance have been met, the Chocoday Township Planning Commission approves conditional use permit # 42 to allow for a group of related commercial buildings contained within a single integrated complex, sharing parking, access, and other similar site features in the C-2 District on the following parcel:

SECTION 7 T47N R24W Part of NE 1/4 beg 740' W of SE cor of NE 1/4 of NE 1/4 th S35deg44'W 71.38' th N55deg57'W 225.17' th N47deg02'E 205.54' th N35deg05'W 225.11' th S50deg38'W 416.49' to US 41 ROW th NW'ly alg ROW 270' M/L to SILVER CREEK th NE'ly 410' M/L alg CREEK th S63DEG20'E to a pt 400' N of POB th S 400' to POB.

PARCEL LOCATED AT 5087 U.S. 41 SOUTH.

with the following conditions

1. That any changes to the proposed building uses on the site plan as approved, be resubmitted to the Planning Commission for further review and consideration if not consistent with the permitted principal uses for the C-2 District.
2. That the relocation of the sanitary sewer lines and easements are approved by the Township Board.
3. That a Zoning Compliance Permit be obtained from the Chocoday Township Zoning Administrator.
4. That the necessary permits as required by Federal, State and Local Agencies be acquired prior to the zoning compliance permit being issued.

Mike La Pointe inquired if there were further questions or comments regarding Conditional Use #42:

The Planning Commission members discussed condition #1. After discussion the above motion was amended to read:

Whitaker moved Sanders second that after careful review of the site plan and determining that the general standards as set forth in Section 701 of the Zoning Ordinance have been met, the Chocoday Township Planning Commission approves conditional use permit # 42 to allow for a group of related commercial buildings contained within a single integrated complex, sharing parking, access, and other similar site features in the C-2 District on the following parcel:

SECTION 7 T47N R24W Part of NE 1/4 beg 740' W of SE cor of NE 1/4 of NE 1/4 th S35deg44'W 71.38' th N55deg57'W 225.17' th N47deg02'E 205.54' th N35deg05'W 225.11' th S50deg38'W 416.49' to US 41 ROW th NW'ly alg ROW 270' M/L to SILVER CREEK th NE'ly 410' M/L alg CREEK th S63DEG20'E to a pt 400' N of POB th S 400' to POB.

PARCEL LOCATED AT 5087 U.S. 41 SOUTH.

with the following conditions

1. That any changes to the proposed medical and retail/office uses on the site plan dated April 17, 1997 as approved, be resubmitted to the Planning Commission for further review and consideration.

2. That the relocation of the sanitary sewer lines and easements are approved by the Township Board.
3. That a Zoning Compliance Permit be obtained from the Chocolay Township Zoning Administrator.
4. That the necessary permits as required by Federal, State and Local Agencies be acquired.
5. Parking lot landscaping be provided within the perimeter of the parking lot in accordance with the zoning ordinance.

MOTION CARRIED: 6-0

OLD BUSINESS:

DISCUSSION ON COMMUNITY CHARRETTE:

The Planning Commission members requested that Karen make a conference call and obtain the specifics and information from the Ball State University and get the information back to the Planning Commission's review.

DISCUSS LAND DIVISION ACT & SAMPLE ORDINANCE:

Karen informed the Planning Commission that the Township Board would like them to review this language and make any recommendations and send them back to the Township Board for their review.

REVIEW DRAFT RECREATION PLAN & LAND USE MAP:

It was inquired if there were any further information on the Lions Field purchase yet. The Planning Commission was informed that Ivan Fende has met with Bill Bergin, Superintendent MAPS. Mr. Fende is waiting for a response from Mr. Bergin.

DISCUSS RECOMMENDATIONS ON LANGUAGE FOR TEXT AMENDMENTS:

- (1) **SITE PLAN REVIEW**
- (2) **SITE CONDO**

There is no further information on this. Estelle DeVooght informed the Planning Commission that Mr. Wietek would help the Township Attorney work on this. The Planning Commission members would like this taken care of.

Karen will get information together and meet with the township attorney.

NEW BUSINESS:

DISCUSS PEDDLER, SOLICITOR & TRANSIENT MERCHANT ORDINANCE:

Township Board sent the language back to the Planning Commission. They also would like feed back from CABA.

It was stated that the Planning Commission needs more time to review this language and also suggested that this be sent to CABA for their review.

PLANNING DIRECTOR'S REPORT:

- 1) Our June meeting date has been changed to the first Monday, which is June 2.
- 2) Workshops - MSPO -Master Planning Workshop - Friday, May 23 at NMU
- 3) I attended a County-Wide Economic Development Umbrella Organizational meeting on May 5 in Ishpeming. This group is an off spring of the Jobs Coalition. Rita Hodgins presented two papers that were developed the "Marquette County, Michigan Community Audit Team Final Report July 3, 1996" and "Draft Report on Economic Development Structures for the Community Audit Team Local Planning Group November 14, 1996". I made copies of the final report for your review. The committee is planning another meeting next month. The idea is to promote Marquette County not just individual communities.
- 4) I have sent letters to community members interested in the CCYF Committee (Communities Committed to Youth and Families). I'm looking for support for the annual bike registration and for interest on serving on this committee.

The Kellogg Foundation will provide grant monies again this year for those communities involved in this process last year. I have not yet received the grant application forms, but as soon as I receive them, I will be calling a meeting together of our CCYF committee to discuss activities for the Chocolay area.

- 5) Is everyone receiving copies of the *Michigan PLANNER*?
- 6) Home Occupation language was approved for publication by the Township Board.

PUBLIC HEARING:

A representative from the public said that Chocolay needs to be more business friendly.

COMMISSIONER COMMENT:

There were no comments.

INFORMATIONAL ITEMS AND CORRESPONDENCES:

- A. Memo from - Mark Maki - on semi trailers
- B. Chocolay Township Board minutes of 04\07\97 and 04/21/97
- C. Correspondence from - MSU Extension - 1997 UP Summer Gardening Conference
- D. Correspondence from - Dept. of Parks & Recreation - Annual Symposium
- E. Correspondence from - APA - Audio Conference Training
- F. Correspondence to - Max Engle, Bill Sanders, Steve Kinnunen - reappointments
- G. Memo to - Ivan Fende - on Township Hall Building Addition

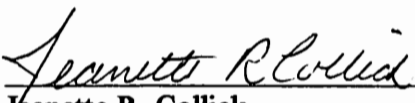

ADJOURNMENT:

Kinnunen moved, Sanders supported that the May 12, 1997 Planning Commission meeting be adjourned. The Planning Commission adjourned at 10:30 p.m.

MOTION CARRIED: 6-0.

Estelle DeVooght
Planning Commission Secretary

Jeanette R. Collick
Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, JUNE 2, 1997

PRESENT: Mike LaPointe, Bill Sanders, Bob Whitaker, Steve Kinnunen, Max Engle, Estelle DeVooght

ABSENT: Scott Emerson

STAFF PRESENT: Karen Chandler - Director of Planning & Research

OTHERS PRESENT: Jeanette Collick-Recording Secretary, Rick Heikkila, Mark Heikkila, Kerrie Heikkila, Bill Anderson and Mark Maki

PUBLIC HEARING:

Mike LaPointe, Chairperson, called the Public Hearing to order at 7:33 p.m.

He informed everyone of the process for the public hearing: (1) staff would make a brief statement on each of the public hearings, (2) applicant would make a brief explanation on their project plans; (3) the public can make comments.

REQUEST: PRIVATE ROAD REQUEST #6-A - HEIKKILA

Karen Chandler, Director of Planning & Research informed everyone present that the applicant, Mark Heikkila, has requested the Chocolay Township Board approve a private road located within the following described property.

The Northeast 1/4 of the Southeast 1/4 of Section 9, Town 47 North, Range 24 West.
This Private Road Request is at the end of Timber Lane.

Karen Chandler informed the Planning Commission that the property may be owned by the Marquette County Road Commission.

In 1993 Private Road Request #6 was tabled pending other information. The road was never a part of the plat process.

Mark Heikkila, applicant informed the Planning Commission that the road was abandoned in 1993. He informed the Planning Commission that he owns property located at 268 and 272 Timberlane. He would like to sell the property located at 272 Timberlane.

Bill Anderson - 252 Timberlane: Would this private road affect access to the Chocolay River?

Mark Heikkila - informed the public present that a fence would probably be up on the property.

Rick Heikkila - property along the river is private and also the property to the Golf Course is private.

Mike LaPointe inquired if there were any further public comment regarding Conditional Use #42. There were none.

There being no further public hearings scheduled, the public hearing section of the meeting was closed.

REGULAR MEETING CALLED TO ORDER:

Mike LaPointe called the Regular Planning Commission Meeting to order at 7:40 p.m.

PRESENT: Mike LaPointe, Steve Kinnunen, Bob Whitaker, Max Engle, Bill Sanders and Estelle DeVooght

ABSENT: Scott Emerson

APPROVAL OF THE MINUTES OF MAY 12, 1997:

Mike LaPointe inquired if there were any additions and/or corrections to the minutes dated May 12, 1997?

A memo from Mark Maki, Zoning Administrator, dated May 29, 1997 with the following comment be included in the minutes:

“Mark Maki commented on the site plan noting that the current parking lot ends on the site plan but that the commission should be concerned about where the parking lot might extend in the future. The access through the parking lot is not wide enough to meet Sec 402 frontage requirements for a road and therefore can not be used for an access road. The wheel concept did have an access road in this area but unless the Snyder & Blondeau developments consider the 66 foot right of way before it is built up it will not be possible to have an access road in this area leading from US41 to M-28. Future access behind Holiday bringing traffic back to US 41 where a problem already exists should not be permitted.”

Bill Sanders informed the Planning Commission that on Page 4 regarding Conditional Use #42 the minutes stated that after discussion the above motion was rescinded, it should have read amended.

Sanders moved, Engle supported that the Planning Commission minutes dated May 12, 1997 be approved as discussed with the changes.

MOTION CARRIED: 6-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Mike LaPointe inquired if there were any addition's and/or changes to the agenda?

It was suggested that Item B (Private Road Language) be added under New Business. Estelle DeVooght suggested that New Business be moved before Old Business.

Sanders moved, Whitaker supported that the agenda be approved as changed.

MOTION CARRIED: 6-0.

PUBLIC COMMENT:

Mike LaPointe inquired if there was any public comment. There being no public comment the first Public Comment section of the Planning Commission was closed.

NEW BUSINESS:

CONSIDER PRIVATE ROAD REQUEST #6-A - MARK HEIKKILA, APPLICANT:

The following questions and/or comments were made regarding Private Road Request #6-A:

- The Planning Commission can't act on this request at this time until clarification is obtained from the Marquette County Road Commission.
- Comments from the Township Fire Department, Police Department and Department of Public Works Department are included in the agenda packet.
- One name for the road (trail be taken out) should continue as Timberlane.
- Not abandoned until it is stated legally.
- At the present time the county plows the road, but if approved as a private road they wouldn't.
- County Road Commission has been cooperative. Possibly there will be some information on this for the Planning Commission in July.

Engle moved, Sanders supported to table this request until such time that the property identified for the private road is in private ownership and also until a maintenance agreement has been signed by the property owners abutting the private road.

MOTION CARRIED: 6-0

CONSIDER PROPOSED LANGUAGE FOR PRIVATE ROAD LANGUAGE:

It was suggested that language for private roads be brought back to the Planning Commission in July.

The following comments and/or suggestions were made:

- Cul-de-sacs need to be addressed.
- According to a title company, you cannot write an easement to yourself.
- You can transfer it, but not to yourself.
- Cul-de-sacs be taken care of on an individual basis, do not take the language out.
- Cul-de-sacs as a conditional use requirement.

This language will be reviewed at the July Planning Commission.

OLD BUSINESS:

ANNUAL ELECTION OF PLANNING COMMISSION OFFICERS AND REVIEW OF BYLAWS:

DeVooght moved, Sanders supported to nominate Mike LaPointe as Chairman for the Chocolay Township Planning Commission. Nominations were closed.

Mike La Pointe called for a vote.

VOTE CARRIED: 6-0 - MIKE LA POINTE - CHAIRPERSON

DeVooght moved, Kinnunen supported to nominate Bill Sanders as Vice-Chairperson for the Chocolay Township Planning Commission. Nominations were closed.

Mike LaPointe called for a vote.

VOTE CARRIED: 6-0 - BILL SANDERS - VICE-CHAIRMAN

Engle moved, Whitaker supported to nominate Estelle DeVooght as Secretary and Steve Kinnunen as Vice-Secretary for the Chocolay Township Planning Commission. Nominations were closed.

Mike LaPointe called for a vote.

VOTE CARRIED: 6-0 - ESTELLE DEVOOGHT - SECRETARY AND STEVE KINNUNEN AS VICE SECRETARY.

It was unanimously agreed that the bylaws be reviewed, gender neutral language be added and references to him or her be removed from the bylaws and replaced with person.

Attendance was discussed. It was also noted that a majority of a quorum at the Planning Commission is needed for a motion to be passed. Planning Commission is an advisory board.

DISCUSS SEMI TRAILER/OUTDOOR STORAGE REZONING #87)

- Storage building instead of semi trailers should be encouraged in the C-2 districts.
- Language went to the Township Board in March and was sent back to the Township Planning Commission. The issue was further discussed at the joint meeting in March.
- This may have been voted down, the Township Supervisor told the Zoning Administrator to go out and enforce the ordinance at that meeting.
- If Zoning Administrator is enforcing the Zoning Ordinance - eliminate semi-trailer for storage.
- Proper screening - put as a conditional use.
- Better than letting junk pile up.
- Various businesses that have semi-trailers were noted.

DeVooght moved, Sanders supported to keep the language in for semi trailers to be used as a conditional use and to send the language in Mark Maki's memo back to the Township Board.

MOTION CARRIED: 6-0

DISCUSS PEDDLER, SOLICITOR & TRANSIENT MERCHANT ORDINANCE:

The following comments and/or suggestions were made:

- Police Department receiving various calls.
- Basically to know who the owner of the business is so they can be contacted if need be.
- Need to support the local people and businesses and benefit them. Seasonal people that sell off their trucks or street stands aren't paying taxes in the local area.
- Nonprofit and charitable organizations should not to be included in this ordinance.
- Photo I.D. should be required but not finger printing.
- Hours of operation should be from 9:00 a.m. to 9:00 p.m.

DISCUSSION ON COMMUNITY CHARRETTE:

Karen informed the Planning Commission that the handbook from Dr. James A. Segedy, AICP, Associate Professor of Urban Planning, Project Director was received.

Rita Hodgins is willing to meet with Bill Sanders and Karen Chandler regarding the Charrette program.

It was suggested that a telephone conference with Mr. Segedy, Rita Hodgins, Bills Sanders and Karen Chandler be set up. There were no further comments until we get more information from the conference call.

DISCUSS LANGUAGE FOR TRAIL DEVELOPMENT:

It was suggested that RR-1, RR-2, RP, OS - be treated as a Conditional Use.

Karen noted she heard from Robert Ziel - he suggested trying to stay on public right of ways. Karen noted she had received information from PAS after 4:30 today, and hasn't had time to review it.

The following comments and/or suggestions were made:

- If trails are considered as a conditional use, the Planning Commission can specify the type of use when reviewing a Conditional Use.
- North Country Trails would have to be treated as non-motorized.
- Karen suggested to include all zoning districts - identify them all at once.
- No need to get into a definition of a trail, keep it simple.
- Treat all Zoning Districts, except PUD and PL as Conditional Uses.
- Trails Committee will meet on June 3 and these comments will be presented to them.

It was agreed that trails be placed in all zoning districts as conditional uses, except PUD and PL. A public hearing will be scheduled for the July meeting.

REVIEW DRAFT RECREATION PLAN & LAND USE MAPS:

The following comments and/or suggestions were made:

- Page 15 - Physical Limitations to the Future
- Page 26 - Lions Park should be included in this table.
- Page 29 - Implementation Strategies - Planning Commission be included on the Advisory Board.
- Need to develop recreation in more than one area.
- New pages 21 & 22 be redone. The copied pages are run together.

DISCUSS RECOMMENDATIONS ON LANGUAGE FOR TEXT AMENDMENTS (SITE PLAN REVIEW AND SITE CONDO):

Karen has no further information at this time. She will get the information to the Township Attorney before the next meeting.

PLANNING DIRECTORS REPORT:

- 1) Looking at a possible rezoning on M-28 next to Timbercrest Landscaping for our July meeting. From R-1 to C-2 assuming that at some point we'd rezone the Varvil Center area from C-3 to C-2.
- 2) I did attend the MSPO -Master Planning Workshop - Friday, May 23 at NMU. We should encourage the Board at budget time to put monies aside for a revision to our current comprehensive plan.
- 3) I will be attending a GIS workshop at NMU in June. Mark Maki is also interested in attending. The planning students have several pieces of information into the NMU computers already.

PUBLIC COMMENT:

There being no public comment, Mike LaPointe closed the second public comment section of the Planning Commission.

COMMISSIONER COMMENT:

Home Occupation Signs - Home Occupations signs are approved as part of the home business. It had been suggested at the ZBA meeting that Home Occupations stay with the land. Karen will check into

this as home occupations typically are for individual use and should be reviewed and renewed by the ZBA periodically.

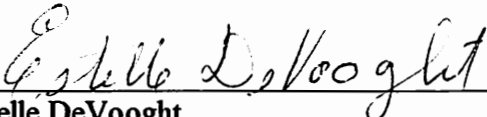

INFORMATIONAL ITEMS AND CORRESPONDENCE:

- A. Memos from - Mark Maki - public hearing comments from conditional use # 42 and Joe Gibbs/Chocolay Downs
- B. Chocolay Township Board minutes of 05/05/97

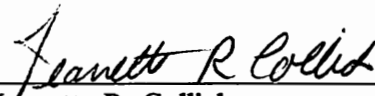

ADJOURNMENT:

Whitaker moved, Kinnunen supported that the June 2, 1997 Planning Commission meeting be adjourned. The Planning Commission adjourned 9:50 p.m.

MOTION CARRIED: 6-0.

Estelle DeVooght
Planning Commission Secretary

Jeanette R. Collick
Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, JULY 14, 1997**

PRESENT: Mike LaPointe, Bill Sanders, Max Engle, Estelle DeVooght, Scott Emerson
ABSENT: Bob Whitaker, Steve Kinnunen

STAFF PRESENT: Karen Chandler - Director of Planning & Research

OTHERS PRESENT: Stacy Busch-Recording Secretary, Mark Maki, Don Britton, Sally Nelson, Chris Yuill, Rena McEachern, William Kessel, David Lynch, Mary Kaye Schaefer, Donna Barto, and J. B. Sparhawk.

PUBLIC HEARING:

Mike LaPointe, Chairperson, called the Public Hearing to order at 7:32 p.m.

A brief update was given by the Planning Director on what was being proposed by the Planning Commission in allowing for trails as a conditional use in all districts but PUD and Public Lands.

Letters were received and placed on file.

J. B. Sparhawk-246 Lakewood Lane-Surprised that the issue came up again because Planning Commission asked Township Board to write a letter stating that they were against having motorized vehicles on trail. Trails should be written in another district.

Mike La Pointe- Trails are coming into the township and we need a mechanism to control them.

Max Engle-Maybe there should be no motorized trails are all. Right now OS, & RP district are the only zoning districts allowing them now. We would like to try and allow some trails in other districts.

William Kessel-111 Green Bay-No trust is left here. The trail will be put there anyway.

Rena McEachern-297 Riverside Road-no is for helping public. We do not want any snowmobiles back there. Has the railroad abandoned yet, and if so who owns the land?

Sarah Nelson-172 Riverside Road-opposed to snowmobiles.

Chris Yuill- 158 Riverside Road-opposed to snowmobile trails. Moved here for beauty not to live next to a race track. Last year snowmobilers were coming up in my driveway.

David Lynch-271 Riverside Road-The language for trails should be more specific.

Mary Kaye Schaefer-311 Riverside Road-opposed to snowmobile trails.

Donna Barto-501 Riverside Road-opposed to motorized trail. Please define conditional use. Who does the property revert back to?

There being no further comments for the public hearing, the public hearing section of the meeting was closed.

REGULAR MEETING CALLED TO ORDER:

Mike LaPointe called the Regular Planning Commission Meeting to order at 7:50 p.m.

PRESENT: Mike LaPointe,, Max Engle, Bill Sanders and Estelle DeVooght, Scott Emerson.

ABSENT: Steve Kinnunen, Bob Whitaker,

APPROVAL OF THE MINUTES OF JUNE 2, 1997:

Mike LaPointe inquired if there were any additions and/or corrections to the minutes dated June 2 1997?

Sanders moved, Emerson supported that the Planning Commission minutes dated June 2, 1997 be approved as presented.

MOTION CARRIED: 5-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Mike LaPointe inquired if there were any addition's and/or changes to the agenda?

It was suggested that New Business A be moved up before Old Business.

Sanders moved, Emerson supported that the Agenda be approved as amended.

MOTION CARRIED: 5-0

PUBLIC COMMENT:

Mike LaPointe inquired if there was any public comment. There being no public comment the first Public Comment section of the Planning Commission was closed.

NEW BUSINESS:

CONSIDER REZONING #92-TEXT AMENDMENT TO ALLOW FOR TRAIL DEVELOPMENT:

The following comments and/or suggestions were made:

- During the survey that was done recreational needs were having trails put in. Non-motorized trails connecting the schools, recreation areas and others.
- The Trails Committee was formed to study this need.
- The snowmobilers began using the Wisconsin Railroad once it was known that they were abandoning it. This spread like wildfire.
- Doesn't want to see a motorized trail by house.
- Ameritech owns right-of-way.
- It was noted that Bob Ziel, DNR, had contacted the Township about rails to trails and they would initiate a master plan from Munising to Ishpeming if the railroad gave up that section of railroad grade.
- Before trail system can be implemented need conditional use language added to zoning ordinance.
- The Township Board nor the Planning Commission never approved the use of this trail on the railroad grade.
- The Planning Commission is not suggesting to put a motorized trail there, just trying to get some mechanism to regulate trails. Keeping trail definition broad but have to go through conditional use process.
- The dog sledgers were looking for a trail groomer this winter.
- It was suggested that an overlay zoning district showing where trail is be done.
- The trails committee should come up with a master plan for trails and bring it to the Township Board.
- We have a potential trail now for hiking, if nothing is done today, the Trails Committee can not start working on trails.
- It was suggested that there be 4 types of trails-(1) Non-Motorized year round, (2) Non-Motorized April 1 through November 30, (3) Non-Motorized December 1 through march 31, (4) Pure Motorized. This would segregate the trail uses, designating the trails and their uses.
- If a specific definition given, a public hearing would have to be regardless.
- The Trails Committee could define them with conditions.
- Take the zoning map and identify the trails as 1, 2, 3, or 4.
- The DNR has a designated winter season as being December 1-April 1 and the rest of the year as the summer months.
- Trails Committee would like to know if the Planning Commission will accept conditions? How did they want them written up?
- The trails are currently defined as hiking trails in some areas already as conditional use.
- Take the definition further.
- Consensus for gathering more specifics for definition.
- This creates more problems in getting more specific with definition.
- Thinks Trails Committee should get more of definition.
- Suggests that the text amendment provide certain information such as time of use, activity, in other words spell it out. Add season, check to see what DNR uses.

- Suggested that Township apply for DNR grants that may be available for 25% match up from Township.
- A memo from Mark Maki indicates that in 1981 the Zoning Board of Appeals determined that the Township Zoning Administrator's interpretation of a trail is that of a hiking trail; cross country ski trail or horse trail. Mark Maki also suggested that the Planning Commission look into overlay zones for trails.

Mike LaPointe asked to have the conditional use process explained to the public.

Sanders moved, Engle second that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the following amendment to the Chocolay Township Zoning Ordinance be approved.

REPEALER AND AMENDMENT

That portion of Section 202 of the Charter Township of Chocolay Zoning Ordinance entitled "District R-1" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined, and the removal thereto of the language that is in brackets [].

[SEC.] SECTION 202 **DISTRICT R-1.**

- (C) **CONDITIONAL USES.** Schools, churches, public parks, ~~and~~ private parks and trails. Recreation facilities, such as swimming pools, are conditional uses when such uses are intended for occupants of the premises. Unlighted golf courses on a minimum lot size of 60 acres. Conditional uses in this district shall be permitted only on lots with principal driveway access to a street with paving at least 20 feet in width and so located, site planned, and designed to avoid undue noise, and other nuisances and dangers. Conditional Uses in this district shall also be subject to the provision of Section 510.

AMENDMENT

That portion of Section 206 of the Charter Township of Chocolay Zoning Ordinance entitled "District LS/R" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined.

SECTION 206 **DISTRICT LS/R.**

- (C) **CONDITIONAL USES.** Marinas, boat liveries, bathing facilities, fishing piers, resorts, Bed & Breakfast, trails, fish markets, commercial fishing docks, and associated facilities when located and designed so as not to unreasonably interfere with, degrade or decrease the enjoyment of existing uses of nearby land.

REPEALER AND AMENDMENT

That portion of Section 207 of the Charter Township of Chocolay Zoning Ordinance entitled "District RR-1" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined, and the removal thereto of the language that is in brackets [].

[SEC.] SECTION 207 **DISTRICT RR-1.**

- (C) **CONDITIONAL USES.** Trails

AMENDMENT

That portion of Section 208 of the Charter Township of Chocolay Zoning Ordinance entitled "District RR-2" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined.

SECTION 208 DISTRICT RR-2.

- (C) **CONDITIONAL USES.** Resorts, Bed & Breakfast, riding stables, parks, trails, campgrounds, kennels, and day camps on lots of 20 acres or more. Hunting and shooting preserves, winter sports facilities, and trails on lots of 20 acres or more. Recreational structures on lots of 40 acres or more. Unlighted golf courses on lots of 60 acres or more.

AMENDMENT

That portion of Section 209 of the Charter Township of Chocolay Zoning Ordinance entitled "District C-1" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined.

SECTION 209 DISTRICT C-1.

- (C) **CONDITIONAL USES.** Schools, where the type of school is compatible with nearby residential uses. Specialty retail sales where the type of sales has no outdoor display or storage and is compatible with nearby residential uses and trails.

REPEALER AND AMENDMENT

That portion of Section 210 of the Charter Township of Chocolay Zoning Ordinance entitled "District C-2" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined, and the removal thereto of the language that is in brackets [].

[SEC.] SECTION 210 DISTRICT C-2.

- (C) **CONDITIONAL USES.** Auto Body Repair Shops and trails.

REPEALER AND AMENDMENT

That portion of Section 211 of the Charter Township of Chocolay Zoning Ordinance entitled "District C-3" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined, and the removal thereto of the language that is in brackets [].

[SEC.] SECTION 211 DISTRICT C-3.

- (C) **CONDITIONAL USES.** Restaurants where there is no C-1 or C-2 District located conveniently nearby, drive-in theaters having patron entrance and exit drives only to streets having a paved surface at least 44 feet in width at points at least 200 feet from any intersection so planned that the picture screen cannot be seen from any street or from any R-1, R-2, R-3, or R-4 District, and other industrial uses which do not emit any fumes, vibration, smoke, or noise except the noise of vehicles coming and going, which is detectable by the senses of normal human beings, and where all operations, including the storage of anything except merchandise displayed for sale, are conducted in a fully enclosed building or entirely behind walls or fences which conceal them from visibility from off the lot. And trails.

REPEALER AND AMENDMENT

That portion of Section 212 of the Charter Township of Chocolay Zoning Ordinance entitled "District RP" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined, and the removal thereto of the language that is in brackets [].

SECTION 212 DISTRICT RP.

- (B) **PERMITTED PRINCIPAL USES.** The growing and harvesting of timber, livestock, campgrounds, day camps, riding or boarding stables, winter sports facilities, parks, kennels, ~~{trails,}~~ agricultural produce, trees, shrubbery, flowers, etc., which are grown on the premises may also be marketed on the premises. Detached single-family dwellings are permitted on tracts of 20 acres or more.
- (C) **CONDITIONAL USES.** Resorts, Bed & Breakfast, ~~{and}~~ lodges on lots of 20 acres or more and trails. Hunting and shooting preserves on lots of 20 acres or more. Recreational structures on lots of 20 acres or more. Unlighted golf courses on lots of 60 acres or more.

AMENDMENT

That portion of Section 213 of the Charter Township of Chocolay Zoning Ordinance entitled "District OS" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined.

SECTION 213 DISTRICT OS.

- (C) **CONDITIONAL USES.** Single-family residences, resorts, Bed & Breakfast, trails, and other recreational uses, on lots of 20 acres or more, where such development can be accomplished without significant adverse environmental impact. Recreational structures on lots of 20 acres or more.

MOTION CARRIED: 5-0.

(Scott Emerson left at 8:40)

OLD BUSINESS:**APPROVAL OF THE PLANNING COMMISSION BYLAWS CHANGES**

It was suggested that in Article 4 Section 5 that "Superior" be changed to "Supervisor".

Sanders moved, Engle supported that the Planning Commission Bylaws be approved as amended.

MOTION CARRIED: 4-0.

REVIEW DRAFT LANGUAGE FOR PRIVATE ROADS

It was suggested that this be prepared for public hearing.

REVIEW DRAFT RECREATION PLAN

Tabled until next meeting.

CONSIDER PRIVATE ROAD REQUEST #6-A - MARK HEIKKILA, APPLICANT:

Tabled.

REVIEW CHANGES TO CONDITIONAL USE #42-SUPERIOR DEVELOPMENT

Karen gave an overview of what Superior Development and Ron Katers had agreed upon a few years ago. It has changed since then and a new site plan has been received.

Mark Maki stated at one time Steve Blondeau had proposed to put a building in the middle but Mark talked him out of that because it would block the other buildings. The only way they would have to come back with new site plan is if the Planning Commission would have put conditions on the original site plan.

Karen will ask Superior Development for a new site plan for the file.

DISCUSSION ON COMMUNITY CHARRETTE

This is still be worked on.

DISCUSS RECOMMENDATIONS ON LANGUAGE FOR TEXT AMENDMENTS-SITE PLAN REVIEW, SITE CONDOS

Our new attorney, Mike Summers, has just received our files from Harley Andrews and will maybe have something for us next month.

DISCUSS 1998 BUDGET REQUESTS

Submit requests same as last year.

PLANNING DIRECTOR'S REPORT

- 1) I included the Marquette County 1997 Equalization Report for your information. I find that the numbers are very interesting and the comparison of Chocolay Township with all other municipalities within the County. Our total valuation is second to the City of Marquette.
- 2) The Trails Committee would like to plan a neighborhood meeting with residents along Riverside Road and Lakewood Lane. The committee received correspondence in favor of a hiking/biking trail in that area if the railroad grade is abandoned. The committee would like to hold an informational meeting. All literature coming from other organizations involved in trail development indicates that positive public relations is important. Any problems with allowing the Trails Committee to go ahead with this meeting?
- 3) I did attend an ArcView GIS workshop at NMU in June. We have money for the software from last years budget and \$2,500 in the current budget. This should be adequate to purchase the necessary hardware. We should continue to request monies in the capital outlay budget for GIS to cover information input. As we develop layers, this information will need to be hired out to technical experience.

PUBLIC COMMENT:

There being no public comment, Mike LaPointe closed the second public comment section of the Planning Commission.

COMMISSIONER COMMENT:

Mike LaPointe mentioned the Chocolay River Watershed Festival on Saturday, August 9, 1997 from 10:00 am- 4:00 pm.

Mike is also meeting with Marquette City and Marquette Township on developing a watershed plan for the Whetstone Creek. Marquette Township would also like copies of our Planning Commission minutes.

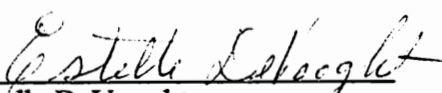

INFORMATIONAL ITEMS AND CORRESPONDENCE:

- A. Marquette County 1997 Equalization Report
- B. MTA Fax from June 27, 1997
- C. Land Division Act Workshop - August 6 at NMU & August 19 in Escanaba
- D. Proof of Service - Chocolay Township v Bryce N. Gibbs
- E. Chocolay Township Board meeting minutes of 05/19/97
- F. Mqt. Co. EDC - Michigan Professional Site Network

ADJOURNMENT:

Engle moved, Sanders supported that the June 14, 1997 Planning Commission meeting be adjourned. The Planning Commission adjourned 9:42 p.m.

MOTION CARRIED: 4-0.

 Estelle DeVooght
 Planning Commission Secretary

 Stacy L. Busch
 Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, AUGUST 11, 1997**

PRESENT: Mike LaPointe, Bill Sanders, Estelle DeVooght, Bob Whitaker, Max Engle.
ABSENT: Scott Emerson, Steve Kinnunen.

STAFF PRESENT: Karen Chandler- Director of Planning and Research.
OTHERS PRESENT: Stacy Busch-Recording Secretary.

PUBLIC HEARING: CONDITIONAL USE #43:

Mike LaPointe, Chairperson, called the Public Hearing to order 7:33 pm.
Mike LaPointe asked Karen Chandler for details and location of 20 x 24 camp that was being proposed on Mangum Road.

Don Britton Sr., Owner of property, gave written permission for camp to be built.
Bob Whitaker asked how far down on Mangum Road the property is?

PUBLIC COMMENT: None.

There being no further comments for the public hearing, the public hearing section of the meeting was closed at 7:36 p.m.

REGULAR MEETING CALLED TO ORDER:

Mike LaPointe called the Regular Planning Commission Meeting to order at 7:36 p.m.

ROLL CALL

PRESENT: Mike LaPointe, Bill Sanders, Estelle DeVooght, Max Engle, Bob Whitaker.
ABSENT: Scott Emerson, Steve Kinnunen.

APPROVAL OF MINUTES OF JULY 14, 1997:

Mike LaPointe asked if there were any addition and/or corrections to the minutes dated July 14, 1997?

Sanders moved, DeVooght supported that the Planning Commission minutes dated July 14, 1997 be approved as presented.

MOTION CARRIED: 4-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Mike LaPointe inquired if there were any addition's and/or changes to the agenda?
It was suggested to add Land Division Ordinance discussion be add under new business B
Engle moved, Sanders supported that the Agenda be approved as amended.

MOTION CARRIED: 5-0.

PUBLIC COMMENT: None.

OLD BUSINESS:

REVIEW DRAFT RECREATION PLAN

The Planning Commission reviewed the Recreation Plan and made several changes.
Mike LaPointe asked Karen Chandler to check on Public Hearing process. Does Planning Commission hold hearing or Township Board.

PRIVATE ROAD #6-A-MARK HEIKKILA: Tabled.

DISCUSS RECOMMENDATIONS ON LANGUAGE FOR TEXT AMENDMENTS-SITE PLAN REVIEW, SITE CONDOS

It was suggested to change section numbers to reference zoning ordinance.
Bill Sanders asked if any other districts would request to see site plan, such as OS, RP.

Karen Chandler informed the Planning Commission that they were waiting for the attorney's review and getting it ready for Public Hearing.

It was suggested that the Planning Commission hire a planning consultant to check and verify it to the Zoning Ordinance. Karen was asked to call CUPPAD for consultation.

Bill Sanders suggested the ordinance should have what and when you want it for site plan review. Places where registered profession is needed. There should be a request of items listed on site plan for further development.

DISCUSSION COMMUNITY CHERRETTE-Tabled.

NEW BUSINESS:

CONDITIONAL USE #43

DeVooght moved, Whitaker supported that after careful review of the general standards set forth in Section 701 of the Chocolay Township Zoning Ordinance # 34 pertaining to the approval process for conditional use permits and this conditional use permit meets these standards, that the Chocolay Township Planning Commission approve the conditional use permit # 43 to place a recreational camp on this parcel in the RP district with the following conditions

1. That a Zoning Compliance Permit be obtained from the Chocolay Township Zoning Administrator before construction is to begin.
2. That the necessary permits as required by Federal, State, and Local Agencies are to be acquired by the applicant.

MOTION CARRIED: 5-0.

LAND DIVISION ORDINANCE DISCUSSION:

Max Engle attended a workshop at NMU on the Land Division Act. This act creates more problems than originally planned. Michigan is the only state that allows for redivision of property.

PLANNING DIRECTOR'S REPORT

Karen's been in contact with the Angel Home Development. This PUD has not been stated and will require an extension. If approved PUD is changed then another review will be necessary.

PUBLIC COMMENT: None.

COMMISSIONERS COMMENTS:

Max Engle asked who was hauling stuff behind Peterson's house on Little Lake Road. Karen will check with Mark Maki on this.

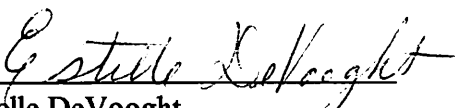

INFORMATIONAL ITEMS AND CORRESPONDENCE:

- A. Correspondence from- Mike Summers, Township Attorney- copy of letter to attorney for Bryce N. Gibbs
- B. Chocolay Township Board minutes of 06/16/97
- C. Chocolay Township Zoning Board of Appeals minutes of 05/22/97
- D. Marquette Township Planning Commission minutes of 07/09/97
- E. Correspondence from -Marquette County Conservation District & Marquette County Board of Commissioners- invitation to attend *The Last Acre Ceremony*

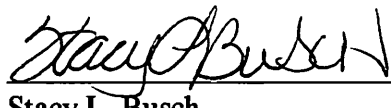

ADJOURNMENT:

DeVooght moved, Whitaker supported that the August 11, 1997 Planning Commission meeting be adjourned. The Planning Commission adjourned at 9:45 p.m.

MOTION CARRIED: 5-0.

 Estelle DeVooght
 Planning Commission Secretary

 Stacy L. Busch
 Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, SEPTEMBER 8, 1997**

PRESENT: Mike La Pointe, Bill Sanders, Max Engle, Estelle DeVooght, Steve Kinnunen
ABSENT: Scott Emerson, Bob Whitaker

STAFF PRESENT: Karen Chandler - Director of Planning & Research.

OTHERS PRESENT: Jeanette R. Collick - Recording Secretary, Mark Maki, Robert Yeull, Christine Yeull, Rene McEachern, Donna Barto, Bill Kessel

PUBLIC HEARING:

There being no public hearing, the regular meeting was called to order.

REGULAR MEETING CALLED TO ORDER:

Mike La Pointe called the Regular Planning Commission Meeting to order at 7:31 p.m.

ROLL CALL:

PRESENT: Mike La Pointe, Bill Sanders, Estelle DeVooght, Max Engle and Steve Kinnunen

ABSENT: Scott Emerson and Bob Whitaker

Karen informed the Planning Commission that due to Bob Whitaker moving out of the township, he will be submitting a letter of resignation, and there will be an opening on the Chocoday Township Planning Commission.

APPROVAL OF THE MINUTES OF AUGUST 11, 1997:

Mike La Pointe inquired if there were any additions and/or corrections to the minutes dated August 11, 1997?

DeVooght moved, Engle supported that the Planning Commission minutes dated August 11, 1997 be approved as presented.

MOTION CARRIED: 5-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Mike La Pointe inquired if there were any additions' and/or changes to the agenda?

There being no additions or changes to the agenda, the following motion was made.

Sanders moved, DeVooght supported that the agenda be approved as presented.

MOTION CARRIED: 5-0.

PUBLIC COMMENT:

Mike LaPointe inquired if there were any public comment. Public presented reserved time when trails definition was discussed. There being no other public comment, the first public comment section of the Planning Commission was closed.

OLD BUSINESS:

PRIVATE ROAD #6-A - MARK HEIKKILA:

Karen informed the Planning Commission members that she would be out of town when the Marquette County Road Commission would be meeting, possibly a member of the Planning Commission would like to attend.

It was advised that a letter be written to the Marquette County Road Commission that the Chocoday Township Planning Commission is interested in finding out who owns the property for the abandoned road. We've been waiting about three months for an answer. The attorney for the Marquette County Road Commission should know if it belongs to the County or reverts back to the land owner.

It was suggested that Karen draft a letter to the applicant and the Marquette County Road Commission to obtain a response. It was agreed unanimously that the Private Road Request #6-A will be tabled until we receive a response on this.

DISCUSS LANGUAGE FOR DEFINITION OF TRAILS:

Karen informed the Planning Commission that the Trails Committee met last week. They feel it the responsibility of the Planning Commission to develop a definition of trails. We asked them to set up a map for trails and they have done this.

Max Engle informed the Planning Commission that the motion made at the August 18, 1997 Township Board Meeting regarding the request to ask the Planning Commission to work on a definition of trails should have stated that the motion carried: 6-1, not 7-0.

The following questions and/or comments were made regarding language for trails:

- Trails definition should be left open. Should be made when someone requests a conditional use permit.
- Mark gave brief history on the three criteria and the way it was interpreted by the ZBA.
- Deal with case by case basis.
- Public hearings be held for any trails where the township has zoning rights.
- No matter how we define trails, a public hearing would have to be held.
- Township's hands may be tied, DNR has regulation rights in State held properties.
- Getting away from the original desire, which was to obtain a hiking trail to be connected from the two grade schools and the recreation areas.

Bill Kessel - 111 Green Bay Street - Do not want to define a trail

Rene McEachern - 297 Riverside Road - No problem with hiking trails, do not want snowmobiles. Want peace and quiet in the residential area.

Robert Yeull - 158 Riverside - If there is a snowmobile trail - how will it be policed?

Donna Barto - 501 Riverside - If motorized trails, property values go down. Enforcement - Saturday night in the winter time there is a steady flow of many snowmobiles.

Christine Yeull - 158 Riverside Road - Contact phone company. No trespassing signs be posted.

At the October Planning Commission the trails committee be invited and present an overview.

The public in attendance thanked the Planning Commission for their continued support regarding that no definition of trails be made.

DISCUSS RECOMMENDATIONS ON LANGUAGE FOR TEXT AMENDMENTS:

- (1) Site Plan Review
- (2) Site Condo

Karen went over information in the hand out dated September 8, 1997 regarding the consultant and low cost estimate. The price would include a presentation to the Planning Commission.

Karen will fax for the information from the consultants. It was suggested that this be placed on the November Planning Commission.

DISCUSSION ON COMMUNITY CHARRETTE:

Karen informed the Planning Commission that there will be MSPO workshop at the Hyatt Regency in Southfield. If anyone interested in attending, please contact her. We should still try to contact Ball State University.

NEW BUSINESS:

DISCUSS POSSIBLE LANGUAGE ON CELLULAR TOWERS, ANTENNA'S AND FACILITIES:

Karen informed the Planning Commission that there have been two informal requests made for towers. We are not zoned for towers. However, we cannot refuse placement within the Township.

There was a discussion on this. Karen Chandler will get back with Larry Gould on who made the informal requests.

PLANNING DIRECTOR'S REPORT:

- 1) I'd like your advice on this RFP to planning consultants. Any suggestion?
- 2) Our proposed FY 1998 planning budget survived the Supervisor's "pen." The next round starts next week at the Board meeting on Monday, September 15. If the budget remains the same, I'll be using budgeted monies from this year to develop a Township Home Page. Any ideas will be greatly appreciated.
- 3) I'll be on vacation from September 11 through September 17. I plan to be back in the office on Thursday, September 18. The Ad Hoc Trails Committee hopes to bring a written recommendation to the Planning Commission in October.
- 4) The grant request for funding Youth & Family activities is being completed. The form is due October 1 at the offices of the Marquette Community Foundation.

COMMISSIONER COMMENT:

There was comment on what is the intent of the police department's addition. There was a discussion on this. It was suggested that the Township obtain an experienced professional to do a drawing for suggestions for the addition and to keep the historical aspect of the building.

Karen informed the Planning Commission that at the Township Board Meeting on September 15, 1997 they would be looking at updated drawings.

It was commented that the township needs to obtain professional suggestions on the best way to resolve the problem of the lack of space. We need to look at the future of the township, possibly a separate location for the police department.

It was asked if the proposed body shop that was discussed a few months ago at a Planning Commission meeting has hauled anything away yet. It was noted that they didn't break ground yet.

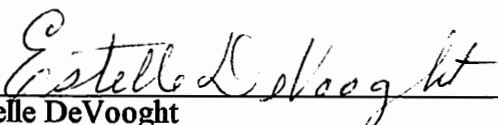

INFORMATIONAL ITEMS AND CORRESPONDENCES:

- A. Correspondence to - Chocoy Watershed - on River Fest
- B. Chocoy Township Board minutes of 07/21/97

ADJOURNMENT:

La Pointe moved, DeVooght supported that the September 11, 1997 Planning Commission meeting be adjourned. The Planning Commission adjourned at 9:30 p.m.

MOTION CARRIED: 5-0.

 Estelle DeVooght
 Planning Commission Secretary

 Jeanette R. Collick
 Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, OCTOBER 13, 1997**

PRESENT: Mike LaPointe, Bill Sanders, Estelle DeVooght,
ABSENT: Scott Emerson, Max Engle, Steve Kinnunen
STAFF PRESENT: Karen Chandler - Director of Planning & Research
OTHERS PRESENT: Jeanette R. Collick-Recording Secretary, Don Britton

PUBLIC HEARING:

Mike LaPointe, Chairperson, called the Public Hearing to order at 7:32 p.m.

Karen informed the Planning Commission members present that she had asked the township attorney for his opinion on holding public hearings without a quorum. He informed her that the public hearings could be held to take comment but no action could be taken without a quorum.

REZONING #93 - TEXT AMENDMENT:

Karen Chandler informed everyone present that the applicant, St. Louis Knight's of Columbus Council #6447, has petitioned the Chocolay Township Board to amend the Chocolay Township Zoning Ordinance with language that will allow for Churches and church related uses as a conditional use in the C-1 districts.

Mike LaPointe inquired if there were any comment? There was no comment.

REZONING #94 - TEXT AMENDMENT:

Karen informed everyone present that the applicant, Chocolay Township Planning Commission, has petitioned the Chocolay Township Board to amend the Chocolay Township Zoning Ordinance with language that will allow for more clearly defined Frontage Requirements (Private Roads).

Karen received a comment from the Board of Light & Power suggesting that the following language be included: (d) that the passage of township vehicles to include utility vehicles.

Mike LaPointe inquired if there were any comment? There was no comment.
The public hearing section of the meeting was closed.

REGULAR MEETING CALLED TO ORDER:

Mike LaPointe called the Regular Planning Commission Meeting to order at 7:40 p.m.

ROLL CALL:

Roll call was taken.

PRESENT: Mike LaPointe, Estelle DeVooght and Bill Sanders present.

ABSENT: Scott Emerson, Max Engle, Steve Kinnunen

Mike LaPointe inquired that due to the lack of quorum if the Planning Commission members would want to reschedule another meeting date for October?

Karen informed the members present that the Knights of Columbus needs affirmative action being that they only have 60 days to purchase the property. The County Planning Commission needs to review this on the first Wednesday in November.

It was suggested that a Planning Commission Meeting be held October 27th or 28th. Karen will check with the Planning Commission members to see what meeting date would be appropriate for them to attend and notify the Planning Commission members to let them know when the meeting will be held.

Don Britton brought the Planning Commission up-to-date on the trails committee.
Some of the items the Trails Committee discussed were the following:

- Median proposed on bike path for snowmobilers, etc.
- MDOT no permanent barriers.
- This would be safer for bikers, etc.

- Suggested that Karen draft a letter of support from the Planning Commission and the Trails Committee to Senator North.
- Some more public getting more involved with the trails committee.
- Grants need to be applied for in getting the Recreation Grant.
- Possibility of obtaining an overhead bridge for the crossing of Ortman Road and Cherry Creek Road.
- It was noted that there is a possibility of doing an underpass and blacktopping of the Carp River Bridge for biking, hiking and snowmobiling.

Karen informed the Planning Commission that a workshop on environment, easement and land trust will be held on October 29th. If anyone is interested, please contact her.

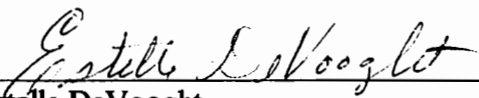

It was asked what does the Planning Commission have to do regarding the Knights of Columbus obtaining the property in question for the church?

This is currently a C-1 district. As a conditional use all property owners within 300' would be contacted and a public hearing held before granting the conditional use. The church is presently looking at purchasing the canoe shop. The Knights of Columbus would be using this building. This will be a church related use.

It was also suggested that the township obtain information on intensive agriculture for farm lands.

ADJOURNMENT:

Due to the lack of quorum, the Planning Commission Meeting was adjourned at 8:20 p.m.

 Estelle DeVooght
 Planning Commission Secretary

 Jeanette R. Collick
 Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, NOVEMBER 10, 1997**

PUBLIC HEARING:

There were no public hearings scheduled.

REGULAR MEETING CALLED TO ORDER:

Mike LaPointe called the Regular Planning Commission Meeting to order at 7:30 p.m.

ROLL CALL:

PRESENT: Mike LaPointe, Bill Sanders, Estelle DeVooght, Kendall Tabor
Max Engle (arrived at 7:40 p.m.), Scott Emerson (arrived at 7:45 p.m.)

ABSENT: Steve Kinnunen

STAFF PRESENT: Karen Chandler - Director of Planning & Research

OTHERS PRESENT: Jeanette R. Collick-Recording Secretary, Pat Coleman, Mae Belle Kessel, Bob Roshak, Sharon Roshak, Don Britton, and Mark Maki.

Mike LaPointe informed everyone present that if they were present because they thought the Snowmobile Ordinance was on the Planning Commission Agenda and was being discussed, it was not being discussed.

Mike LaPointe welcomed Kendall Tabor to the Planning Commission. Kendall Tabor replaces Bob Whitaker on the Planning Commission.

APPROVAL OF THE MINUTES OF OCTOBER 27, 1997:

Mike LaPointe inquired if there were any additions and/or corrections to the minutes dated October 27, 1997.

Sanders moved, DeVooght supported that the Planning Commission minutes dated October 27, 1997 be approved as presented.

MOTION CARRIED: 4-0

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Mike LaPointe inquired if there were any additions and/or changes to the agenda?

Sanders moved, DeVooght supported that the Planning Commission agenda be approved as presented.

MOTION CARRIED: 4-0

PUBLIC COMMENT:

Mike LaPointe inquired if there were any public comment.

Sharon Roshak - 1318 M 28 East reserved comment when the proposed Snowmobile Trail was being discussed. There being no further public comment, the first public comment section of the Planning Commission was closed.

OLD BUSINESS:**DISCUSS RECOMMENDATIONS ON LANGUAGE FOR TEXT AMENDMENTS****(1) SITE PLAN REVIEW****(2) SITE CONDO**

Pat Coleman, U.P. Engineering/Architect distributed the proposed language for the site plan review and site condo. He explained that the language in bold was being suggested to be added to the language and if it was crossed out, it was being suggested to omit it.

The Planning Commission members, Director of Planning and Research, and Zoning Administrator went over the suggested language and discussed the changes, etc.

Zoning Administrator Mark Maki commented on the proposed site plan language suggesting two changes. (1) Require final site plan to be developed by a professional for new construction. (2) Eliminate recently added appeal language as this is a site plan review by the planning Commission and they should stick to their planning concerns as this is their responsibility.

After the discussion of the site plan review and the site condo was discussed, Pat Coleman informed the Director of Planning & Research that he would distribute the language for the Site Plan Review and the Site Condo to her with the changes.

After the above discussion it was decided that a Public Hearing be held at the December Planning Commission Meeting on the Site Plan Review and the Site Condo.

REVIEW REPORT/RECOMMENDATION FOR TRAILS DEVELOPMENT COMMITTEE:
Don Britton and the Planning Commission looked over the trail's map and snowmobile trail that was provided.

The following questions and/or comments were made regarding the trails development:

- Easements need to be obtained.
- Public present looked over the suggested snowmobile trail.
- Suggested trail does not cross any private property.
- Is the bike path and motorized path separated?
- Bike path motorized between December 1 through April 1. After April 1 would then be designated nonmotorized.
- Ameritech owns right of way of Wisconsin Central Railroad.

Sharon Roshak, 1318 M 28 East - No ORV allowed on the trail in writing she would not support the snowmobile trail. We do not need an ORV trail. Some residents are not aware of the proposed trail and the abandonment of the railroad. Plans on possibly retiring in a few years, if an ORV trail goes through, the house will probably go up for sale.

Bob Roshak, 1318 M 28 East, Timberlane Subdivision on one side and M 28 is on the other side.

Other questions and/or comments from Trails Committee and Planning Commission Members:

- If the State takes over the Rail Road, what happens, can this be designated as an ORV Trail?
- DNR - state wants 25 year commitment for placement of snowmobile trails when using Capital Outlay to make improvements, i.e., bridges.
- Grooming was kept up last year.
- If the Planning Commission doesn't initiate to establish a trail, the DNR could probably put a trail where they want.
- We should try to initiate where a trail would go.
- The next step would be to obtain grant money to purchase land.
- Alternate plan is to purchase 20' - 40' strip through the entire parcel.
- More enforcement. Marquette County Sheriff department and the DNR can do the enforcement.
- Work needs to be done to connect the two grade schools.
- Trails committee has spent a lot of time, it's very time consuming. They not stopping until completed.

Emerson moved, Sanders supported that the Ad Hoc Trail Committee's presentation be accepted as presented.

MOTION CARRIED: 6 - 0.

DISCUSSION ON POSSIBLE DEFINITION FOR TRAILS AND OVERLAY ZONING DISTRICTS:

Karen brought the Planning Commission up to date on this item.

The following questions and/or comments were made regarding trails and overlay zoning districts:

- Trails are easier to use as a Conditional Use.
- If proposed snowmobile trail used as an overlay, may not work for us.
- Once the trail is set that is it.
- What comes first, trails or zoning?
- Need to get zoning as soon as possible?
- Conditional use or overlay when dealing with motorized trails in residential trail area.
- Have a public hearing to purchase the property.

- Need to coordinate long term scheme?
- 1 - 1 ½ mile need to obtain easements.
- Conditional Uses are supposed to be compatible with the zoning district.
- Establish a trail where a trail runs, then do an overlay or put as conditional use in zoning ordinance.
- Trails are in zoning ordinance already, but specific trails are not defined.
- Overlay may restrict and make more unified.
- Overlay zone only allowed in certain areas, as we define it.
- Railroad not abandoned.
- Can't we just have a public hearing for proposed trail?
- Need to advertise for a public hearing?
- Advertise for a public hearing to give property owners opportunity to give their opinion.
- If doing hiking trail as a conditional use, why not snowmobile trail?
- Possibly a survey be done to see where residents may want the snowmobile trail.

Mark Maki, Zoning Administrator provided a copy of proposed overlay zoning language which would revise the zoning ordinance to allow for snowmobile trails in the Township. Without this language currently the snowmobile trails are illegal on the railroad right of way and across private property.

The alternate trail should be considered to put the trail away from the residential area of Ridgewood, Dana Lane, and Riverland which is not a good land use. Mark Maki objected to the trail in this area as a member of the Trails Committee.

It should be noted that the proposed snowmobile trail currently runs south of M-28 as the CTPC and Township Board have previously opposed a motorized trail along the track north of M-28.

After the above questions, comments and discussion the following suggestion was made:

A committee consisting of Estelle DeVooght, Bill Sanders, Mike LaPointe, Karen Chandler and Mark Maki meet to go over and establish some language before the next Planning Commission meeting.

DISCUSS PRIVATE CLUB FOR KNIGHTS OF COLUMBUS:

Are the Knights of Columbus a private club and/or church related? The Knights of Columbus is affiliated with the catholic church.

Karen Chandler explained that the Knights of Columbus would own the property and won't be owned by the Catholic Diocese. Meals will be in the basement of the church. Property owners want the purchase to be done correctly.

Emerson moved, DeVooght supported that the Planning Commission ask the Township Board to amend the Zoning Ordinance to allow for private clubs as a permitted principal use in C-1 zoning districts.

MOTION CARRIED: 6 -0.

PLANNING DIRECTORS REPORT:

Karen Chandler presented the following for the Planning Director's Report:

- 1) Larry Gould, DPW Supervisor and Greg Zybert, Police Chief completed their annual road inspection in late October. A two-page list has been sent to the County Road Commission for their review. We should receive a reply on those roads which would require maintenance and those that would require construction.

After we receive the response from the County Road Commission, the Planning Commission will need to prioritize the list for possible construction projects.

- 2) Several MSPO workshops are coming up. Most are downstate. One workshop is being held in Escanaba and Houghton on Site Plan Review. Do Planning Commission members receive this information at your homes?
- 3) I have received some negative comments on the newspaper article placed in this agenda

packet. I chose not to exclude this memo from the Zoning Administrator because it would have possibly been sent to you anyway. This is the kind of negative attitude we receive toward positive development and an example of why proactive planning is hindered here at Chocoley Township.

It is hard to see progress being made on the Strategic Plan, but the Township Board did approve the development of the ad hoc committee for trail development. You received their recommendation tonight. This committee has been meeting on a regular basis and has lost members because of the negative attitude displayed by our Zoning Administrator. The last Planning Director indicated that he was told at one time, by the Zoning Administrator, that trails would never be developed in Chocoley Township.

I hope we can move forward, develop these trails and keep our volunteer committee together to finish the development connecting the recreational parks and schools.

PUBLIC COMMENT:

There was no public comment.

COMMISSIONER'S COMMENT:

The Planning Commission welcomed Kendall Tabor.

Kendall Tabor informed the Planning Commission that he lives on Ford Road, has lived in the township for approximately six years, has three children and plans to be proactive.

Max Engle informed the Planning Commission that due to family and job commitment that he is submitting his resignation from the Planning Commission and the Chocoley Township Board.

The Planning Commission thanked Max for the dedication of his service on the Planning Commission and the Township Board. He will be missed deeply.

INFORMATIONAL ITEM ND CORRESPONDENCES:

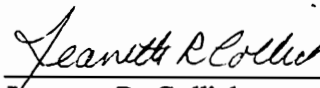

- A. Correspondence to - Mark Heikkila - on Private Road Request
- B. Correspondence to - Dr. Kendall Tabor - on appointment to Planning Commission
- C. Correspondence from - M.A. - Workshop on Managing Your Community's Growth & Change
- D. Chocoley Township Board minutes of 10/20/97
- E. Marquette Township Planning Commission minutes of 09/10/97 & 10/08/97
- F. Memo from - Mark Maki - newspaper article & letter to the Editor

ADJOURNMENT:

There being no further business, the November 10, 1997 Planning Commission Meeting was adjourned at 10:05 p.m.

 Estelle DeVooght
 Planning Commission Secretary

 Jeanette R. Collick
 Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, DECEMBER 8, 1997**

PRESENT: Mike LaPointe, Bill Sanders, Estelle DeVooght, Kendall Tabor, and Steve Kinnunen, Scott Emerson arrived at 7:36p.m.

STAFF PRESENT: Karen Chandler, Director of Planning & Research.

OTHERS PRESENT: Stacy Busch, Recording Secretary, Eva Kipper, Chuck Nosal, Bob & Sharon Roshak, Gary Miller, Robert & Chris Yuill, Ray Beauchamp, Donna Barto, Bernadette Wallace, Debbie Berger, Fred & Mari Dahl, Bill Kessel, Gary Niemela, Tony Retaskie, Burt Sparhawk, Steven & Colleen Schlumpt, Ralph & Ava Bennett, and Mark Maki.

PUBLIC HEARINGS:

REZONING #95-TEXT AMENDMENT-AUTO RENTAL IN C-2

Karen Chandler explained that the applicant Tim Menhennick, petitioned to allow for motor vehicle rental, as a permitted principal use in the C-2 Districts.

Eva Kipper, representing the applicant explained that Mr. Menhennick is asking for application to be approved. Wants application to be considered and follow recommendation of the Planning Director.

Mark Maki stated that the original plan doesn't call for sale or rentals. The amendment for auto sales was done in 1991 and another for auto body repair in 1996. Doesn't think this would beautify the township and it under utilizes sewer system.

REZONING #96-TEXT AMENDMENT-PRIVATE CLUBS IN C-1

Karen Chandler explained that the applicant Chocolay Township Planning Commission has petitioned to allow for Private Clubs as a permitted principal use in the C-1 Districts. No public comment was received on this.

REZONING #97-TEXT AMENDMENT-SITE PLAN REVIEW

Karen Chandler explained that the applicant, Chocolay Township Planning Commission has petitioned to amend the uses subject to Site Plan Review, the application and review of procedures, the site plan review standards and the approved plans and amendments to said plans.

Received comment from Mike Summers, Township Attorney which will be reviewed under discussion item. Scott Emerson arrived at 7:36 p.m.

REZONING #98-TEXT AMENDMENT-SITE CONDOMINIUMS

Karen Chandler explained that the applicant, Chocolay Township Planning Commission has petitioned, to allow for consistent consultation, review, and approval process for all condominium and site condominium projects within the township.

Received comment from Mike Summers, Township Attorney which will be reviewed under discussion. No public comment.

CONDITIONAL USE PERMIT #44-SEMI-TRAILERS FOR STORAGE

Karen Chandler explained that the applicant, Ray Beauchamp of ABC Hardware at 2250 US 41 South has petitioned the Chocolay Township Planning Commission to grant a conditional use permit on the following describer property, for the purpose of allowing semi-trailers for storage.

Correspondences were received from Carl Menze and Peter O'Dovero read and placed on file. These correspondences had no objections.

Ray Beauchamp, applicant, explained that the trailers have already been behind buildings since 1988, it was recommended by Mark Maki, Zoning Administrator, to apply for this conditional use, otherwise they were not moving them or changing them.

REGULAR MEETING CALLED TO ORDER :

Mike LaPointe, Chairperson, called Regular Meeting to order at 7:39 p.m.

ROLL CALL:

PRESENT: Scott Emerson, Mike LaPointe, Bill Sanders, Steve Kinnunen, Estelle DeVooght, Kendall Tabor. **ABSENT:** None.

APPROVAL OF MINUTES OF NOVEMBER 10, 1997

Mike LaPointe inquired if there were any additions or corrections to the minutes of November 10, 1997. Mark Maki submitted the following changes: Insert page 2 after second paragraph

Zoning Administrator Mark Maki commented on the proposed site plan language suggesting two changes.

1. Require final site plan to be developed by a professional for new construction.
2. Eliminate recently added appeal language as this is a site plan review by the planning Commission and they should stick to their planning concerns as this is their responsibility.

Insert page 3 under discussion on Trails and Overlay Zoning

Mark Maki, Zoning Administrator provided a copy of proposed overlay zoning language which would revise the zoning ordinance to allow for snowmobile trails in the Township. Without this language currently the snowmobile trails are illegal on the railroad right of way and across private property. The alternate trail should be considered to put the trail away from the residential area of Ridgewood, Dana Lane, and Riverland which is not a good land use.

I objected to the trail in this area as a member of the Trails Committee.

It should be noted that the proposed snowmobile trail currently runs south of M-28 as the CTPC and Township Board have previously opposed a motorized trail along the track north of M-28.

Sanders moved, DeVooght supported to accept the minutes with submitted corrections.

MOTION CARRIED: 6-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Mike LaPointe inquired if there were any additions or changes in the agenda? It was suggested that under new business that the order be changed to A., E., F., B., C., D., G.

DeVooght moved, Sanders supported that the agenda be changed as noted.

MOTION CARRIED: 6-0.

PUBLIC COMMENT:

Mike LaPointe inquired if there was any public comment.

Chuck Nosal, 1324 M-28 East- opposed to snowmobile trail. Request alternate trail away from residential area. Presented petition to Planning Commission with many signatures from residents along M-28, Riverland, and Ridgewood.

OLD BUSINESS:**DISCUSSION ON OVERLAY ZONING DISTRICTS:**

Mike LaPointe suggested that the committee get together Wednesday at 11:30 a.m. to discuss this issue.

NEW BUSINESS:**CONSIDER REZONING #95-TEXT AMENDMENT-AUTO RENTAL IN C-2**

Mike LaPointe inquired if there were any questions/comments regarding Rezoning #95?

The following questions/comments were made:

- Does applicant plan on this being like airport rentals?
- Leasing and rentals short and long term. Mainly passenger rentals.
- No room for rentals, too small of a lot, looks nice.
- Could open this up for Ryder Truck rentals.
- Feels that if large trucks are being rented, then it should be in industrial zone.
- Only so many vehicles can fit on lot.
- Car & light truck rental should be for C-3 zone.

Emerson moved Sanders supported that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the following amendment to the Chocolay Township Zoning Ordinance be approved.

REPEALER AND AMENDMENT

That portion of Section 210 of the Charter Township of Chocolay Zoning Ordinance entitled "DISTRICT C-2" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is underlined, and the removal thereto of the language that is in brackets [].

[SEC.] SECTION 210 DISTRICT C-2.

(B) PERMITTED PRINCIPAL USES. All principal permitted uses in C-1, offices, other offices and establishments selling goods and services at retail including gas stations, private clubs, hotels, nursing homes, funeral homes, hospitals, bakeries, drive-in restaurants, indoor theaters and other places of amusement, provided, however, that meat and poultry shops where slaughtering is done on the premises and all listed in Section 211 (B) of this Ordinance, with the exception of motor vehicle sales and rentals of light trucks and cars, are excluded.

MOTION CARRIED: 6-0

CONSIDER CONDITIONAL USE PERMIT #44-SEMI-TRAILERS FOR STORAGE

Mike LaPointe inquired if there were any questions/comments regarding this Conditional Use Permit #44?

- How many trailers are back there?
- Phase out trailers with a grandfather clause. Have time limit for this activity. Either permanent building for this or get rid of the trailers for good.
- Where are the trailers located?
- What we have to do for one, we have to do for others. It looks ok, screening is nice. Put a time frame on them.
- Logistics for trailer overbuilding? Impose extreme amount of vegetative screening.
- Businesses put up permanent building to make business community look better.

Sanders moved, Emerson second that after careful consideration of the general standards as set forth in Section 701 of the Township Zoning Ordinance, the request from Ray Beauchamp, ABC True Value Hardware for a Conditional Use Permit be approved for the use of semi-trailers for storage with the following conditions,

1. That the number of semi-trailers used for storage not exceed 3.
2. That all semi-trailers used for storage be placed on site consistent with site plan submitted.
3. That a Zoning Compliance Permit be obtained from the Chocolay Township Zoning Administrator.

MOTION CARRIED: 6-0.

DISCUSS POSSIBLE RECOMMENDATION TO TOWNSHIP BOARD ON PUBLIC LAND DESIGNATION FOR WISCONSIN CENTRAL RAILROAD GRADE

Mike LaPointe requested that the Planning Commission be able to have some time for discussion prior to public comment on this issue.

Planning Commissioners Comments and suggestions:

- It was mentioned that another railroad may be buying out this one to ship iron ore to Escanaba.
- How can railroad be abandoned when they don't own it. Ameritech does. No motorized traffic.
- Who's Master Planning process. Trails for foot traffic not for motorized traffic.
- Shouldn't be motorized traffic on that trail.
- In rails to trails-Master planing process, how is community involved.
- Draft letter of support 34 mile stretch unless conditions are put on it.
- Alternate route.
- Full community input.

- Attachment of trails highlighting route.
- Get copy of master plan, Find out the amount to purchase right of way.
- Snowmobilers do not belong in residential area.
- Opposed to letter.
- Get Master Plan here for January & have Robert Ziel come to next Planning Commission meeting to explain process.
- Have specific questions in advanced for Mr. Ziel.
- Do both-draft letter and have Mr. Ziel at next meeting.

Public comment:

- Likes a person who stands on own two feet and he agrees with them. Planning Commission excellent job making it clear on how the public feels about motorized vehicles on trail. Would like a foot trail, not motorized. Write letter of support as long as it has conditions.
- Planning Commission should reject plan, it opens it up to the DNR. With Master Planning process Township loses local control. There is not a 100% guarantee that the DNR will not stuff this trail down our throats, then the Planning Commission should reject it. The February 97 petition was referenced. There is nothing in Comprehensive Plan, Strategic Plan or Master Plan.
- Read a book on the what the DNR does, doesn't want the trail.
- How do you listen to property owners. Snowmobilers do not drive safely, they drive like idiots. Use alternate wooded area, it would be safer and more pleasant for the snowmobilers to ride on. They are operating illegal by riding against the traffic. The winter trails become ORV trails in the summer, very noisy.
- Opposed to trail.
- Opposed to support letter. Trail is being used right now. Moved to Chocolay for quietness, not like that anymore. Great danger.
- This trail is considered a recreational use, not primary to our lives, our residences and businesses are more important.
- Write letter of support, make sure conditions are put on it.
- Against snowmobiles in residential area. Hurts property values.
- Happy to see that the other side of M-28 is joining together to get this a non-motorized trail.
- Do not support letter.
- Concerns about property values.
- Not enough information from DNR to write support letter.
- Not in favor of support letter. Would like to see trail used for skiing, & walking, no motorized vehicles. Alternate routes available.
- Don't support letter until DNR has a plan.
- Pursue alternate route.
- Opposed to letter. Snowmobilers are leaving their trailers & trash in their yard and then go snowmobiling.
- Agrees to mushers sledding on trail, but not snowmobilers.
- DNR might not listen to residents and do what they want anyway. We should tell the DNR what we do want.
- Township should purchase right of way to regulate it.
- Present the DNR with our plan before they give us theirs.
- Present an alternate route.
- Don't say we approve of trail in letter of support.
- Need preliminary discussion on table.
- General motion
- Send alternate map
- Difficult to enforce snowmobilers.
- Purchase of adjacent land for property owners.
- Are they going to listen to us.

Comments received from Mark Maki:

- This request is inconsistent with the Township Planning Efforts.
- It is inconsistent because neither the Comprehensive Plan, the Recreation Plan and/or the recently completed Strategic Plan call for a State designed snowmobile or ORV trail through single family neighborhoods.

- It is inconsistent with the Zoning Ordinance of Chocolay Township because the zoning of some of this area is R-1 single family neighborhoods free from other uses which are incompatible with quiet residential neighborhoods. The R-1 zone does not permit snowmobile and/or ORV trails.
- On more than one occasion DNR officials as well as Mr. Ivan Fende, Supervisor, have said at public meetings that a snowmobile trail will not be approved in the residential areas by the Township or by the DNR.
- The Township Board and the Planning Commission have gone on record as opposing the proposal of a motorized trail along parts of this right of way.
- Area residents have not been notified of this request and this should be done if we are to get the public's comment on the proposal.
- Most of all, an alternate plan has been discussed which would allow the snowmobile trail and which would go around the residential homes.
- Corps of Engineer people have been willing to help build the bridges need. If the DNR has enough money to buy 34 mile of right of way then they surely can buy some right of way to avoid running through peoples front and back yards. Most of the land has already been granted the necessary easements with the exception of one owner who probably would sell.
- The Planning Commission should ask the DNR to be specific about their request.
- The Planning Commission is to protect the welfare and safety of its residents and implement its long range plans through zoning and other means.
- I have talked to people all around Marquette & Alger County and these snowmobile trails are not wanted in residential areas.
- The residents of Chocolay Township who live here all year long and pay taxes here as well as spend their money here everyday deserve better than to have a racing thoroughfare put right next to their homes.

It was decided that Scott, Steve, & Mark would write the letter of recommendation with Karen's review to Board for December 15, 1997.

CONSIDER REZONING #96-TEXT AMENDMENT-PRIVATE CLUBS IN C-1

Sanders moved, Kinnunen supported that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the following amendment to the Chocolay Township Zoning Ordinance be approved.

AMENDMENT

That portion of Section 209 of the Charter Township of Chocolay Zoning Ordinance entitled "DISTRICT C-1" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is bold and underlined.

SECTION 209 DISTRICT C-1.

(B) PERMITTED PRINCIPAL USES. Barber and beauty shops, general and specialty food and beverage stores, drugstores, restaurants, clothing and dry goods stores, offices, bakeries without additional sales outlets, Bed & Breakfast, **private clubs**, dry cleaning and laundry pick-up stations, coin operated laundry and dry cleaning establishments, provided, however, that drive-in restaurants and establishments cooking or preparing food for consumption off the premises are excluded.

MOTION CARRIED: 6-0

CONSIDER REZONING #97-TEXT AMENDMENT- SITE PLAN REVIEW

Sanders moved, Kinnunen second that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the following amendment to the Chocolay Township Zoning Ordinance be approved with discussed changes.

REPEALER AND AMENDMENT

That portion of Section 502 of the Charter Township of Chocolay Zoning Ordinance entitled "SITE PLAN APPROVAL REQUIREMENTS" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is bold and the removal thereof the language which is in brackets [].

[SEC. 502 SITE PLAN APPROVAL REQUIREMENTS.]

[Except with respect to single-family dwellings and mobile homes and accessory uses thereto not subject to Section 403 of this Ordinance, no person shall commence any use or erect or enlarge any structure without first obtaining the approval of a site plan by the Zoning Administrator as set forth in this Section, and no use shall be carried on, no structure erected or enlarged, and no other improvement or construction undertaken except as shown upon an approved site plan.]

SECTION 502 SITE PLAN REVIEW**A. PURPOSE**

The purpose of this Section is to provide for consultation between the applicant, the Planning Commission, and the Township staff to review an applicant's planned objectives in the utilization of land within the regulations of this Zoning Ordinance.

B. USES SUBJECT TO SITE PLAN REVIEW

A Zoning Compliance Permit for any proposed use or building or any other improvement requiring a site plan shall not be issued until a Final Site Plan has been reviewed and approved under the following procedure:

1. The following uses shall be subject to Site Plan Review by the Planning Commission:
 - a. All uses within the R-3, R-4, C-1, C-2, C-3, District Planned Unit Development Districts, except the following:
 - (1) One and two-family dwellings
 - (2) Temporary buildings and uses
 - (3) Accessory uses or structures
 - b. Uses Subject to Special Conditions in any zone district.
 - c. Site condominiums in any district.
2. All site plans not reviewed under Section 502, A, 1, a-c, shall be subject to Site Plan Review by the Zoning Administrator. Such review shall ensure that the setbacks, yards, parking, and other specific Zoning Ordinance requirements are met.

REPEALER AND AMENDMENT

That portion of Section 503 of the Charter Township of Chocoy Zoning Ordinance entitled "REQUIRED FORM OF AND INFORMATION ON SITE PLAN" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is bold and the removal thereof the language which is in brackets [].

[SEC. 503 REQUIRED FORM OF AND INFORMATION ON SITE PLAN.]

[Every site plan shall be submitted to the Zoning Administrator in three identical copies on one or more sheets of paper measuring not more than 24 by 36 inches, drawn to a scale not smaller than 40 feet to the inch, certified by a registered land surveyor or professional engineer. The certification requirement by a registered land surveyor or professional engineer may be waived by the Zoning Administrator if such a requirement will place undue hardship on the proposer and provided the proposer submits a site plan meeting the requirements of this section to the satisfaction of the Zoning Administrator. Each site plan shall show the following:

- (A) The boundary lines of the area included in the site plan including angles, dimensions, and reference to a section corner, quarter corner, or a point on a recorded plat, an arrow pointing north, and the lot area of the land included in the site plan.
- (B) Existing and proposed grades and drainage systems and structures with topographic contours at intervals not exceeding two feet.
- (C) The shape, size, location, height, and floor area of all structures, the floor area and ground coverage ratios, and the finished ground and basement floor grades.

- (D) Natural features such as wood lots, streams and lakes or ponds, and man-made features such as existing roads and structures, with indication as to which are to be retained and which are to be removed or altered. Adjacent properties and their uses shall be identified.
- (E) Proposed streets, driveways, parking spaces, landing spaces, and sidewalks with indication of direction of travel for one way streets and drives and inside radii of all curves. The width of streets, driveways, and sidewalks and the total number of parking spaces shall be shown.
- (F) The size and location of all existing and proposed public and private utilities and required landscaping.
- (G) A vicinity sketch showing the location of the site in relation to the surrounding street system.
- (H) A legal description of the land included in the site plan and of the lot, the name, address, and telephone number of the owner, developer, and designer.
- (I) Any other information necessary to establish compliance with this and other ordinances of the availability of adequate utility capacity.]

SECTION 503 APPLICATION AND REVIEW PROCEDURES

A. Application Procedures

1. **An application for Site Plan Review by the Planning Commission shall be submitted at least twenty (20) days prior to the next scheduled Planning Commission meeting to the Planning Director, who will review the application materials with the Zoning Administrator to ensure that the requirements of Section 503, A, 2, are met, then transmit it to the Planning Commission.**
2. **An application for Site Plan Review shall consist of the following:**
 - a. **A completed application form, as provided by the Township.**
 - b. **Seven (7) copies of the Site Plan as outlined in Section 503, B. 2.**
 - c. **Payment of a fee, in accordance with a fee schedule, as determined by Township Board resolution.**
 - d. **A legal description, including the permanent parcel number, of the subject property.**
 - e. **Other materials as may be required by this Section, the Planning Director, the Zoning Administrator or the Planning Commission.**

B. Site Plan Review Procedures

1. **Preliminary Site Plan Review**
 - a. **A Preliminary Site Plan review is encouraged and may be submitted to the Planning Commission for review prior to Final Site Plan review. The purpose of the Preliminary Site Plan Review is to allow discussion between the applicant and the Planning Commission to inform the applicant of the general acceptability of the proposed plans prior to incurring extensive engineering and other costs which may be necessary for the review of the Final Site Plan.**
 - b. **Preliminary Site Plans shall include the same information as required for Final Site Plan Review, unless deemed unnecessary by the Planning Director and the Zoning Administrator.**
 - c. **The Planning Commission shall review the Preliminary Site Plan and make such recommendations to the applicant that will cause the Plan to be in conformance with the review standards required by this Section and this Ordinance. To this end, the Commission may request from the applicant any additional graphics or written materials, prepared by a qualified person or persons, to assist in determining the appropriateness of the site plan. Such material may include, but need not be limited to,**

aerial photography, photographs; traffic impact studies; analysis of impacts on significant natural features and drainage; soil tests; and other pertinent information.

2. Final Site Plan Review

a. Final Site Plans shall include the following information.

- (1) Small scale sketch of properties, streets and use of land within one quarter (1/4) mile of the area.**
- (2) Seven (7) copies of a site plan at a scale not to exceed one (1) inch equals one hundred (100) feet (1" = 100'). The following items shall be shown on the plan:**
 - (a) Date of preparation/revision.**
 - (b) Name and address of the preparer who shall be a registered engineer, land surveyor, landscape architect, community planner, architect, or related professional.**
 - (c) The existing and proposed topography of the size at a minimum of two (2) foot intervals and its relationship to adjoining land.**
 - (d) Existing man-made features.**
 - (e) Dimensions of setbacks, locations, heights and size of buildings and structures, including the locations of existing buildings or structures within one-hundred (100) feet of the boundaries of the property.**
 - (f) Street right-of-ways, indicating proposed access routes, internal circulation, relationship to existing rights-of ways, and curb cuts within one-hundred (100) feet of the property.**
 - (g) Proposed grading.**
 - (h) Location, sizes, and type of drainage, sanitary sewers, water services, storm sewers, and fire hydrants.**
 - (I) Location, sizes, and type of fences, landscaping, buffer strips, and screening.**
 - (j) Proposed parking areas and drives. Parking areas shall be designated by lines showing individual spaces and shall conform with the provisions of this Ordinance found in Section 500.**
 - (k) Easements, if any.**
 - (l) Dimensions and number of proposed lots or condominium units.**
 - (m) Significant natural features, and other natural characteristics, including but not limited to open space, stands of trees, brooks, ponds, flood plains, hills, and similar natural assets.**

b. The Planning Commission may request from the applicant any additional graphics or written materials, prepared by a qualified person or persons, to assist in determining the appropriateness of the site plan. Such material may include, but need not be limited to, aerial photography, photographs; traffic impact studies; analysis of impacts on significant natural features and drainage; soil tests; and other pertinent information.

c. The Planning Commission shall approve, deny, or approve with conditions the Final Site Plan based on the requirements of this Ordinance, and specifically, the standards of Section 504, A.

REPEALER AND AMENDMENT

That portion of Section 504 of the Charter Township of Chocolay Zoning Ordinance entitled "REVIEW PROCEDURE" adopted May 9, 1977, and any and all Amendments adopted

subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is bold and the removal thereof the language which is in brackets [].

[SEC. 504 REVIEW PROCEDURE.]

[Upon receipt of any site plan, the Zoning Administrator shall review it to determine whether it is in proper form, contains all the required information, shows compliance with this and all other ordinances of Chocolay Township, and demonstrates the adequacy of utility service. Upon demand by the proposer of the site plan, the Zoning Administrator shall, within ten days, approve it in writing or deny approval in writing, setting forth in detail his reasons which shall be limited to any defect in form or required information, any violation of any provision of this or any other Ordinance, or the inadequacy of any utility, and any changes which would make the plan acceptable. The proposer may appeal any denial to the Township Planning Commission.]

SECTION 504 SITE PLAN REVIEW STANDARDS

- A. All Final Site plans shall be approved, approved with conditions, or denied based on the purposes, objectives and requirements of this Ordinance, and specifically, the following considerations when applicable:**
- 1. The uses proposed will not adversely affect the public health, safety, or welfare. Uses and structures located on the site shall be planned to take into account topography, climate considerations, size of the property, the uses on adjoining property and relationship and size of buildings to the site. The site shall be developed so as not to impede the normal and orderly development or improvement of surrounding property for uses permitted in this Ordinance.**
 - 2. Safe, convenient, uncongested, and well-defined vehicular and pedestrian circulation shall be provided for ingress/egress points and within the site. Drives, streets and other circulation routes shall be designed to promote safe and efficient traffic operations within the site and at ingress/egress points.**
 - 3. Removal or alteration of significant natural features shall be restricted to those areas which are reasonably necessary to develop the site in accordance with the requirements of this Ordinance. The Planning Commission or Zoning Administrator may require that landscaping, buffers, and/or green belts be preserved and/or provided to ensure that proposed uses will be adequately buffered from one another and from surrounding public and private property.**
 - 4. The site plan shall comply with the general purposes and spirit of this Ordinance and the Comprehensive Plan of the Township of Chocolay.**

SECTION 504(a) APPROVED PLANS AND AMENDMENTS

- A. Upon approval of the Final Site Plan, the Chairman of the Planning Commission shall sign three (3) copies thereof. One (1) signed copy shall be made a part of the Township's files; one (1) copy of the Final Site Plan shall be forwarded to the Zoning Administrator for issuance of a Zoning Compliance permit; and one (1) copy shall be returned to the applicant.**
- B. Each development shall be under construction within one (1) year after the date of approval of the Final Site Plan, except as noted in this Section.**
- 1. The Planning Commission may grant one (1) six (6) month extension if the applicant applies for such extension prior to the date of the expiration of the Final Site Plan and provided that:**
 - a. the applicant presents reasonable evidence that said development has encountered unforeseen difficulties beyond the control of the applicant; and**
 - b. the site plan requirements and standards, including those of the Zoning Ordinance and Comprehensive Plan, that are reasonably related to said development have not changed.**

2. **Should neither of the provisions of Section 504-A, B, 1 be fulfilled, or a six (6) month extension has expired without construction underway, the Final Site Plan approval shall be null and void.**
3. **Amendments to an approved Final Site Plan may occur only under the following circumstances:**
 - a. **The holder of a valid Final Site Plan approval shall notify the Planning Director of any proposed amendment to such approved site plan.**
 - b. **Minor changes, requested by the applicant, may be approved by the Planning Director and the Zoning Administrator upon certification in writing to the Planning Commission that the proposed revision does not alter the basic design nor any specified conditions of the plan as agreed upon by the Planning Commission. In considering such a determination, the Planning Director and the Zoning Administrator shall consider the following to be a minor change:**
 - (1) **Reduction of the size of any building and/or sign.**
 - (2) **Movement of buildings and/or signs by no more than ten (10) feet.**
 - (3) **Landscaping approved in the site plan that is replaced by similar landscaping to and equal or greater extent.**
 - (4) **Changes in floor plans which do not alter the character of the use or increase the amount of required parking.**
 - (5) **Internal rearrangement of a parking lot which does not affect the number of parking spaces or alter access locations or design or reduced required landscaping.**
 - (6) **Changes required or requested by the Township, Marquette County, or other State or Federal regulatory agency in order to conform to other laws or regulations.**
 - c. **Should the Planning Director and Zoning Administrator determine that the requested modification to the approved site plan is not minor, a new site plan shall be submitted and reviewed as required by Sections 502-504(a).**

C. Appeal

If any person shall be aggrieved by the action of the Planning commission, appeal in writing to the Township Board may be taken within five (5) days after the date of such action. The Township Board shall set a time and place for a public hearing. The appellant shall be notified in writing of the hearing and a notice shall be published in a newspaper of general circulation ten (10) days prior to the hearing. All interested parties shall be afforded the opportunity to be heard thereat. After such hearing, the Board shall affirm or reverse the action of the Planning Commission, stating its findings and the reasons for its action. A written copy of such findings, reasons, and action shall be given to the appellant.

MOTION CARRIED: 6-0

CONSIDER REZONING #98-TEXT AMENDMENT-SITE CONDOMINIUMS

Sanders moved, Emerson supported that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the following amendment to the Chocolay Township Zoning Ordinance be approved with discussed changes.

AMENDMENT

That portion of Section 216 of the Charter Township of Chocolay Zoning Ordinance entitled "SPECIAL USES IN DESIGNATED ZONING DISTRICTS" as adopted May 9, 1977, and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is bold.

SECTION 216 SPECIAL USES IN DESIGNATED ZONING DISTRICTS

B. SITE CONDOMINIUMS

1. A Site Condominium may be permitted by the Township Board in any and all zoning districts as established in this Zoning Ordinance if such use meets all established requirements, standards, criteria, and conditions set forth in Sections 525 and 526 of this Zoning Ordinance.
2. The procedures, standards, and criteria applicable to the Township Board in its consideration of an application for a site condominium special use permit shall be as set forth in the provisions of Sections 525 and 526 of this Zoning Ordinance.

AMENDMENT

That the Charter Township of Chocolay Zoning Ordinance as adopted May 9, 1977, shall be, and the same hereby is, amended by the addition thereto of Section 525 and Section 526 as follows:

SECTION 525 SITE CONDOMINIUM

A. Purpose

The purpose of this Section is to provide for a consistent consultation, review and approval process for all condominium and site condominium projects within the Township. The review and approval process will ensure that these projects comply with the Township Comprehensive Plan and Zoning Ordinance.

B. Site Condominium Projects Approval Procedures

Prior to recording the master deed as required by Section 72 of the Condominium Act, as amended, all Site Condominium Projects shall undergo a pre-application conference, site plan review and approval pursuant to this ordinance. Pursuant to the authority conferred by Sec 141 of the Condominium Act, preliminary and final site plans for all site condominium projects shall be approved by the Chocolay Township Board. In determining whether to approve a site plan for a condominium project the Township Board shall consult with the following persons and organizations regarding the adequacy of the master deed, deed restrictions, utility systems and streets, site layout and design and compliance with all the requirements of the condominium act and this ordinance:

- A. The Chocolay Township Planning Commission
- B. The Chocolay Township Planning Director
- C. The Chocolay Township Zoning Administrator
- D. The Chocolay Township Attorney
- E. The Supervisor of Public Works
- F. The Marquette County Health Department
- G. The Marquette County Road Commission
- H. The Michigan State Highway Department
- I. The Department of Environmental Quality
- J. The Marquette County Drain Commissioner

C. Definition Section

The following terms are defined both in the context of the Condominium Act and in a manner intended to make comparison possible between the terms of the Chocolay Township Zoning Ordinance and the Subdivision Control Ordinance with the Condominium Act.

“Condominium Act” means Act 59 of 1978, as amended.

“Site Condominium” shall be equivalent to the term “subdivision” as used in the Zoning Ordinance and the Subdivision Control Ordinance.

“Condominium Subdivision Plan” means the site, survey and utility plans; floor plans’ and sections, as appropriate, showing the existing and proposed structures and improvements including the location thereof on the land. The condominium subdivision plan shall show the size, location, area, boundaries’ acreage and volume for each condominium unit comprised of enclosed air space. A number shall be assigned to each condominium unit. The condominium subdivision plan shall include the nature, location, and approximate size of common space elements.

“Condominium Unit or Site Condominium Unit” means that portion of the condominium project designed and intended for separate ownership and use, as described in the master deed.

“Consolidating master deed” means the final amended master deed for a contractible site condominium project, and expandable site condominium project or a site condominium project containing convertible land or convertible space, which final amended master deed fully describes the condominium project as completed.

“Contractible site condominium” means a site condominium project from which any portion of the submitted land or buildings may be withdrawn pursuant to express provisions in the site condominium documents and in accordance with this Ordinance and the Condominium Act.

“Conversion site condominium” means a site condominium project containing site condominium units some or all of which were occupied before the establishment of the site condominium project.

“Convertible area” means a unit or a portion of the common elements of the site condominium project referred to in the site condominium documents within which additional site condominium units or general or limited common elements may be created pursuant to express provision in the site condominium documents and in accordance with this Ordinance and the Condominium Act.

“Expandable site condominium” means a site condominium project to which additional land may be added pursuant to express provision in the site condominium documents and in accordance with this Ordinance and the Condominium Act.

“Front setback” shall be equal to the distance between the front lot line of the condo unit and the structure of that unit.

“Mobile home site condominium project” means a site condominium project which mobile homes are intended to be located upon separate sites as condominium units.

“Master deed” means the condominium document recording the site condominium project to which is attached as exhibits and incorporated by reference the approved bylaws for the project and the approved site condominium plan for the project.

“Rear setback” shall be equal to the distance between the rear line and the structures on said unit.

“Side setback” shall be equal to the distance between the side line of the site condominium unit and the structures on said unit.

D. General Requirements

1. The applicant shall pay a reasonable fee, as determined from time to time by resolution by the Township Board.
2. No construction, grading, work, or other development shall be done upon the land intended to be used for a site condominium until a final site plan has been approved, except with express permission of the Township Board. This requirement shall include contractible, conversion, and expandable site condominiums.
3. If a building, structure, or use to be placed on a condominium unit requires site plan approval under Section 502 herein, a site plan for that building, structure, or use shall be approved in accordance with Section 502 herein, before a zoning compliance permit may be issued.
4. The Township Board shall have the authority to review and approve or deny preliminary and final site plans for site condominiums based on whether or not the site plans comply with the provisions of this ordinance.

5. Each condominium unit shall be located within a zoning district that permits the proposed use.
6. For the purposes of this Ordinance, each site condominium unit shall be considered equivalent to a single lot and therefore shall comply to that extent, with all regulations of the zoning district in which located. A site condominium containing single-family detached dwellings, shall have no more than one dwelling located in any condominium unit, nor shall a dwelling be located in any condominium unit which its principal structure or use is other than as a dwelling. Required set-back shall be measured from the boundaries of a condominium unit. Ground floor coverage and floor area ratio shall be calculated using the area of the condominium unit.
7. Each condominium unit shall be connected to public water facilities and to sanitary sewer facilities if available.
8. Relocation of boundaries between adjoining condominium units, if permitted in the condominium documents, as provided in Section 48 of the Condominium Act, shall comply with all regulations of the zoning district in which located and shall be approved by the Zoning Administrator. These requirements shall be made a part of the bylaws and recorded as part of the master deed.
9. Each condominium unit that results from a subdivision of another condominium unit, if such subdivision is permitted by the condominium documents, as provided in Section 49 of the Condominium Act, shall comply with all regulations of the zoning district in which located and shall be approved by the Zoning Administrator. These requirements shall be made a part of the condominium bylaws and recorded as part of the master deed.
10. All information required by this Ordinance shall be updated and furnished to the Planning Director and Zoning Administrator until applicable zoning compliance permits have been issued per Section 704 herein.

SECTION 526 APPLICATION AND APPROVAL PROCESS

A. Pre-application Conference

Before submitting any formal documents for approval of a site condominium each applicant shall meet and confer with the Chocolay Township Planning Director and interested Township officials regarding the preparation of the Application. It shall be the responsibility of the Planning Director to contact and invite the appropriate Township officials to such a meeting. The general outlines of the proposed site condominium evidenced by sketch plans are to be reviewed at the meeting before submission of a site condominium application. Thereafter, the Planning Director shall furnish the applicant with his written comments regarding the meeting including appropriate recommendations to inform and assist the applicant prior to preparing a site condominium. The applicant may then informally discuss the proposal with the Township Planning Commission at his/her option.

B. Preliminary Site Plan Requirements

1. A preliminary site plan shall be filed for approval at the same time the notice of proposed action is filed with Chocolay Charter Township.
2. The preliminary site plan shall include all land that the developer intends to include in the site condominium project.
3. The preliminary site plan shall include all information required in Section 502, herein, except in the case of a development that consists only of condominium units and not buildings or other structures at the time of site plan application, the location and dimensions of condominium units and all required yards, rather than individual buildings, shall be shown on the preliminary site plan.

4. A final site plan for any phase of development shall not be filed nor reviewed by the Planning Commission unless a preliminary site plan has been approved by the Planning Commission and is in effect.

C. Final Site Plan Requirements

1. A final site plan shall be filed for review for each phase of development shown of the approved preliminary site plan.
2. A final site plan shall include all information required in Section 66 of the Condominium Act, and the master deed and bylaws. The final site plan shall also include all information required in Section 502, herein, except in the case of a development that consists only of condominium units and not buildings or other structures at the time of site plan application, the location and dimensions of condominium units rather than individual buildings, and required yards shall be shown on the final site plan.
3. The applicant shall provide proof of approvals by all County and State agencies having jurisdiction over the improvements in the site condominium development, including but not limited to the County Drain Commissioner and the Marquette County Road Commission and the County Health Department. The Planning Commission shall not approve a final site plan until each County and State agency having such jurisdiction has approved that portion of the final site plan that is subject to its jurisdiction.

D. Revision of Condominium Subdivision Plan.

If the condominium subdivision plan is revised, the final site plans shall be revised accordingly and submitted for review and approval or denial by the Township Board before building permit may be issued, where such permit is required.

E. Streets/Roads

All streets/roads proposed for any site condominium shall be developed according to Section 402, herein, in the minimum design, construction, inspection, approval, and maintenance requirements of Chocolay Township.

F. Amendment to Master Deed or Bylaws.

Any amendment to a master deed or bylaws that affect the approved preliminary or final site plan, shall be reviewed and approved by the Planning Commission before any building permit may be issued, where such permit is required. The Planning Commission may require review of any amended site plan if, in its opinion, such changes in the master deed or bylaws require corresponding changes in the approved site plan.

G. Relation to Subdivision Ordinance

All site condominiums shall conform to the plan preparation requirements, design, layout, and improvements standards as listed, and any financial guarantees determined to be necessary by the Township Board. The standards and requirements of these sections that are intended to apply to lots in a subdivision shall apply instead to site condominium units. Nothing in this Section shall be construed as requiring a site condominium to obtain plat approval under the Subdivision Ordinance of the Subdivision Control Act.

H. Development Agreement.

The Township Board may require, as a condition of approval, that the applicant enter into a development agreement with the Planning Commission and Chocolay Charter Township, incorporating the terms and conditions of final site plan approval and record the same in the Office of the Register of Deeds for Marquette County.

I. Construction Located in General Common Element.

Any application for a building permit for construction to be located in a general common element shall include written authorization by the Condominium Association for the application.

J. Monuments and Lot Irons.

Monuments shall be set in accordance with the Michigan Condominium Act and all other State rules and regulations. The Planning Commission may grant a delay in the setting of required monuments for a reasonable time, but not to exceed one year, on condition that the developer deposit with the Township Clerk cash, a certified check, or any irrevocable bank letter of credit endorsed to Chocolay Charter Township, whichever the developer selects, in an amount as determined from time to time by resolution of the Township Board. Such deposit shall be returned to the developer upon receipt of a certificate by a surveyor registered in the State of Michigan that the monuments and irons have been set as required, within the time specified. If the developer defaults, the Township Board shall promptly require a registered surveyor to set the monuments and irons in the ground as shown on the condominium site plans, at a cost not to exceed the amount of the security deposit.

K. Right-of-Way and Utility Easements.

All right-of-way and utility easements shall be described separately from individual condominium lots and shall be accurately delineated by bearings and distances on the condominium subdivision plan and the final site plan. The rights-of-way and utility easements shall be separately designed for their individual purpose, such as access, roadway, location, installation, maintenance and replacing of public utilities. Water, sewer and electrical easements may be placed within streets, subject to the Township and the standards of the Marquette County Road Commission.

L. Compliance with Federal, State and Local Law

All condominium projects shall comply with Federal and State statutes and local ordinances.

MOTION CARRIED: 6-0

DISCUSS 1998 MEETING DATES

Emerson moved, DeVooght supported to approve Planning Commission meeting dates as listed for 1998 as published on December 8, 1997.

PLANNING DIRECTORS REPORT:

Karen Chandler presented the following for the Planning Director's Report:

- 1) Carl Menze called about the semi-trailers at ABC True Value. He mentioned that he thought the Township was taking a more proactive look at business and business development. He likes the efforts of CABA with beautification and the flower plantings along the highway. He'd like to see an access road at the corner. I explained to him about the meeting we held over a year ago to accomplish that effort. I told him that until the property owned by Wahlstrom's is sold on the corner, an access road will not become a reality.
- 2) I have received the Arc-View GIS software. The hardware will be ordered soon.

PUBLIC COMMENT: There was no public comment.

COMMISSIONER'S COMMENT: No comment

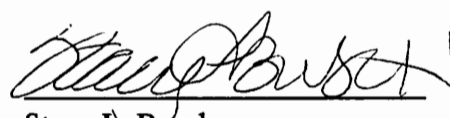

INFORMATIONAL ITEM AND CORRESPONDENCES:

- A. Chocolay Township Board minutes of 11/03/97
- B. Chocolay Township ZBA minutes of 10/23/97
- C. Memo from - Mark Maki - Proposed Snowmobile Trail in Chocolay Township/Action

ADJOURNMENT:

There being no further business, the December 8, 1997 Planning Commission Meeting was adjourned at 9:58 p.m.

 Estelle DeVooght
 Planning Commission Secretary

 Stacy L. Busch
 Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, JANUARY 12, 1998**

PRESENT: Mike LaPointe, Estelle DeVooght, Kendall Tabor, and Steve Kinnunen, Bill Sanders arrived at 7:34 p.m., Scott Emerson arrived at 7:35 p.m.

STAFF PRESENT: Karen Chandler, Director of Planning & Research.

OTHERS PRESENT: Stacy Busch, Recording Secretary, Bob & Sharon Roshak, Gary Menhennick, Robert & Chris Yuill, David & Donna Barto, J. Burt Sparhawk, Don Britton, Robert Ziel and Mark Maki.

PUBLIC HEARINGS:

None

REGULAR MEETING CALLED TO ORDER :

Mike LaPointe, Chairperson, called Regular Meeting to order at 7:30 p.m.

ROLL CALL:

PRESENT: Mike LaPointe, Steve Kinnunen, Estelle DeVooght, Kendall Tabor Scott Emerson, Bill Sanders.

ABSENT: None.

APPROVAL OF MINUTES OF DECEMBER 8, 1997

Mike LaPointe inquired if there were any additions or corrections to the minutes of December 8, 1997.

DeVooght moved, Kinnunen supported to accept the minutes as presented.

MOTION CARRIED: 4-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Mike LaPointe inquired if there were any additions or changes in the agenda? It was suggested to add New Business A. Recreation Plan Sub Committee, and Old Business D. Church Related Uses.

DeVooght moved, Tabor supported that the agenda be changed as noted.

MOTION CARRIED: 4-0.

PUBLIC COMMENT:

Mike LaPointe inquired if there was any public comment.

Mark Maki 405 Riverside Road- questioned who is responsible for signs prohibiting snowmobiles on the railroad grade as complaints came in saying that the signs that the DNR put up have been removed.

There is also a dangerous situation where a pole and metal sign is located near the Timberlane/Railroad grade which could cause an unsafe accident.

Mark also noted that Joe & Margo Riopelle (heirs of Pat Spear) claim that they own the right of way from the rock cut to around Green Bay St. in Harvey. They are sending a letter to the DNR on this.

I was also asked who is to maintain signs DNR, or trail groomers?

There were questions about the fact that the residents don't want the trail opened up once it is groomed for the dog sled race.

OLD BUSINESS:

DISCUSSION ON RAILS-TO-TRAILS LEGISLATION AND THE DNR MASTER PLANNING PROCESS

Mike LaPointe introduced Robert Ziel, from the DNR, he was here to answer any questions that the local residents may have concerning the Master Planning Process.

Mr. Ziel showed the Rails-to-Trails video.

Mr. Ziel made the following comments:

- He explained that the State of Michigan passed legislation for trails. Part of the law requires a Master Planning Process. He stated that most likely with all of the issues about who owns the easements, that the DNR would probably acquire the grade. It was also stated that some of the parcels may own those easements. To acquire the Railroad grade MDOT would get the first opportunity to buy for transportation, the DNR would get second for recreation. One other way is "rail banking" which would hold the grade for future transportation use, recreation now. He stated that none of this is finalized. The Master Planning Process will not start until then.

The following questions and comments were made:

- It was asked who in the State makes the decision? Where is the process now?
- Hector Chiunti. Wisconsin Central in negotiating process could now be breaks in ownership.
- If Ameritech owns the railroad grade and Wisconsin Central has easement, shouldn't the DNR negotiate with the owner.
- Local entities would have some say in how it is used.
- What is the time frame?
- Wisconsin Central interested in railbanking, may take a few years to finalize.
- Do tracks have to be pulled also?
- Some concerns about snowmobilers impact.
- With changes in trail system this year, traffic has slowed.
- What about east side of M-28?
- Trail is not sponsored by the DNR. Cannot encourage people to use that side of trail.
- M-28 between Ridgewood has no signs at Casino saying that you can't go further, why is this? The rails to trails video doesn't show enough ORV's or snowmobiles.
- Township residential should be involved, more benefits for year round trail rather than winter trail only.
- Township residents would like some reassurances of meeting motorized interests.
- How can you get involved in process?
- It was asked that the Planning Commission keep an open mind, there should be motorized trails where there can be.
- He is hoping that the Timberlane area and railroad track residents be patient with the Trails Committee, they are trying to get an alternate route.
- If state obtains railroad grade does the township have a say in what happens to it. Any provisions Trails Committee can work on for alternate route?
- It was stated that the Trails Committee can go prospecting.
- Are there any funds available for this?
- DNR is not going to fund alternate trail. Township does have to do it.
- The Trails Committee and snowmobile clubs should be commended for effort.
- It was suggested to put fencing up after sled dog event.
- What is the width of the right of way? 100 ft.

Mike LaPointe thanked Mr. Ziel for coming to the meeting.

Mr. Ziel- thanked the Planning Commission and Township Board for help.

OLD BUSINESS:

DISCUSS RECOMMENDATION FROM TRAIL COMMITTEE

Mike LaPointe inquired if there were any questions/comments regarding the recommendation from the Trails Committee?

The following questions/comments were made:

- Grant funding for alternate route dilemma-funding available in 1999.
- To purchase property for alternate route would cost \$30,000.
- Should be identified in Recreation Plan.
- It is not beneficial for Township to only purchase easements, should apply for grants.

- MDOT funding available also.
- A letter to the Marquette County Road Commission should be written about the overpass.
- We should have a purchase agreement first.
- If the Township buys property for trail, may not help grant process.
- Goals need to be set.
- Get going on trail.

Mike LaPointe inquired if anyone wanted to sit on the sub committee for recreation plan?

Scott Emerson, Steve Kinnunen, Kendall Tabor stated that they would spend some time on it. Mike LaPointe suggested that a date & time be set up with the Trails Committee.

Emerson moved, Kinnunen supported that the Chocolay Township Planning Commission advises that the Township Board provide legal and financial support to Trails Committee action for acquisition of alternate route from M-28 to Big Creek Road.

MOTION CARRIED: 6-0.

DISCUSS OVERLAY ZONING DISTRICT

Mike LaPointe suggested that a public hearing be set up for February meeting.

CHURCH RELATED USES

Karen gave overview that this was sent back to Planning Commission from the Township Board. Should they deny it or dump it. What is the recommendation of the Planning Commission? Karen suggested that the Planning Commission go ahead and tell the Board to pass it.

PLANNING DIRECTORS REPORT:

Karen Chandler presented the following for the Planning Director's Report:

- 1) MSPO is sponsoring a basic training course for both Planning Commissioners and Zoning Board of Appeals members. Each course will be held in Marquette on March 19. I have included a copy of the registration materials in your packet. If anyone is interested, please let me know and we can get you registered.
- 2) Our membership to the APA PAS has been renewed. Our Planning Library continues to grow. Are Planning Commission members receiving newsletters? I can bring copies to meetings for your review.
- 3) Several months ago members filed copies of a survey on growth management. I have received a copy of the final report and have made it available for your review. A copy of the survey results are included in your packet.
- 4) Department Heads met with Supervisor Ivan Fende this afternoon to discuss future needs by each department. This relates to office space requirements. A few options were discussed. The Board asked to review the growth requirements before they decide to add on to the front of the building to expand the Police Department offices.

PUBLIC COMMENT:

There was no public comment.

COMMISSIONER'S COMMENT:

Scott Emerson suggested that the landscaping ordinance be top priority this year. With the County moving the airport, should we get involved?

Karen stated that at the last Township Board meeting they decided not to get involved.

Mike LaPointe wanted to thank the commissioners for the letter of support that was written to the DNR, and thanked Karen for getting the information.

INFORMATIONAL ITEMS AND CORRESPONDENCES

- A. Correspondence to - Robert Ziel, DNR Fire & Recreation Specialist - invitation to January Planning Commission meeting.

- B. Correspondence to Hector Chiunti, DNR - support of the DNR's acquisition of Wisconsin Central Railroad RoW
- C. Chocolay Township Board minutes of 12/01/97 and 12/15/97
- D. Ad Hoc Trail Development Committee minutes of 11/04/97 and 01/06/98
- E. Marquette Township Planning Commission minutes of 11/12/97 and 12/10/97
- F. MSPO Basic Training Registration information
- G. Opinion-Leaders Survey - Land Use Change and Organizational Needs Survey

ADJOURNMENT:

There being no further business, the January 12, 1998 Planning Commission Meeting was adjourned at 9:42 p.m.

Estelle DeVooght
Planning Commission Secretary

Stacy L. Busch
Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, FEBRUARY 9, 1998**

PRESENT: Mike LaPointe, Steve Kinnunen, Ken Tabor, Estelle DeVooght, Bill Sanders, Gary Menhennick, Scott Emerson (arrived at 7:35 p.m.)

STAFF PRESENT: Karen Chandler, Director of Planning & Research

OTHERS PRESENT: Jeanette R. Collick, Recording Secretary, Don Britton, Eva Kipper, Chris Yuill, Sharon & Bob Roshak, Jon Wennerberg, Dave Meadows, John Smith and Mark Maki.

PUBLIC HEARINGS:

Mike LaPointe called the Public Hearings to order at 7:30 p.m. He explained the process of the public hearing.

1) **Rezoning # 99 - Overlay Zoning District for Snowmobiles**

Karen Chandler, Director of Planning & Research gave an update on Rezoning #99. She informed the Planning Commission she received comments from three people. They were in favor of the rezoning if it meant the snowmobiles would not be running on M-28 and it would keep the snowmobiles out of the residential neighborhoods. There was no further information regarding Rezoning #99.

Mike LaPointe closed Public Hearing for rezoning #99.

2) **Conditional Use Permit # 45 - Specialty Food Store in C-3**

Karen Chandler, Director of Planning & Research gave an update on Conditional Use Permit #45. She informed the Planning Commission she received one response that was in favor for Conditional Use Permit #45.

There being no further comments or information regarding Conditional Use Permit #45
Mike LaPointe closed the Public Hearing for Conditional Use Permit #45.

3) **Draft Recreation Plan**

Karen Chandler, Director of Planning & Research gave an update of the Recreation Plan. Scott Emerson arrived at 7:35 p.m.

The following comments were made concerning the Recreation Plan:
Memo from Larry Gould, Department of Public Works was included in the Planning Commission packet.

Mark Maki, Zoning Administrator provided the following comments:

- Trail plan updated for zoning districts.
- R1 - township building should be public lands.
- Zoning Districts Map is from 1977 and without updates.
- Trail development not quite current with the language.

John Smith provided the following information: he's exploring the idea for a trust fund.

Chris Yuill - 158 Riverside Road - keep snowmobiles away from residential areas.

There being no further comments concerning the Recreation Plan, Mike LaPointe closed the public hearing regarding the Recreation Plan.

There being no further Public Hearings, Mike LaPointe closed the Public Hearing section of the Planning Commission.

MEETING CALLED TO ORDER:

Mike LaPointe, Chairperson called the Regular Meeting of the Planning Commission to order at 7:40 p.m.

ROLL CALL:

PRESENT: Mike LaPointe, Bill Sanders, Estelle DeVooght, Steven Kinnunen, Scott Emerson, Ken Tabor, Gary Menhennick **ABSENT:** None.

APPROVAL OF THE MINUTES OF JANUARY 12, 1998:

Mike LaPointe inquired if there were any additions or corrections to the minutes of January 12, 1998.

Gary Menhennick inquired as to the voting in the minutes regarding 4-0 and 6-0.

Karen informed him that at first there were four members present at the meeting and then some members arrived late, which would change the voting outcome in different areas of the minutes.

There being no further questions and/or comments the following motion was made: Sanders moved, DeVooght supported that the minutes be accepted as presented.

MOTION CARRIED: 7-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Mike LaPointe inquired if there were any additions or changes in the agenda?

Karen informed the Planning Commission of a typographical error under Old Business Item A. It states Rezoning #96. It should be Rezoning #95.

Sanders moved, Emerson supported that the Agenda for the February 9, 1998 be accepted as corrected. **MOTION CARRIED: 7-0.**

PUBLIC COMMENT:

Mike LaPointe informed the public present on the process for the public comment section of the agenda.

Eva Kipper - 316 N. Front Street - reserved comment during Old Business Item A - Rezoning #95.

Dave Meadows was present to answer any questions regarding New Business Item A- Conditional Use Permit # 45 for a speciality food store in C-3.

There being no further public comment, Mike LaPointe closed the first Public Comment section of the meeting.

OLD BUSINESS:

Discussion on Rezoning # 95 - Motor Vehicle Rentals - referred back from Township Board

Karen gave an update on Rezoning #95, light trucks are defined by the Secretary of State as under 10,000 pounds GVW.

Eva Kipper would like to have no restrictions in the language. She informed the Planning Commission that in C-2 district, U-Haul rentals already exists at ABC True Value.

Concern Van or light truck - how is this determined and how will this be enforced?

The following questions and/or comments were made regarding Rezoning #95:

- Motor Vehicle Sales has potential.
- Semi trailer and rigs more appropriate in C-3 zoning districts.
- Why is it ok for ABC to rent snowmobiles, etc.? They have been notified that they are not in compliance. Zoning Administrator did discuss this with Mr. Beauchamp.
- 1990-91 Sale of Motor Vehicle Sales was added to the Zoning Ordinance.
- No restrictions on sales, why on rentals?
- Continuity important to the zoning districts.
- What is the problem with this being as a conditional use? Need effective screening.

- How can you enforce this?
- We need to be careful what is allowed in C-2 Zones.
- C-2 needs to remain as nonindustrial as much as possible.
- Township Board is asking that the Planning Commission explain their action on Rezoning #95.
- The Planning Commission can send this back to the Township Board asking the Board to approve as originally amended and requesting that this be consistent with part of the Strategic Plan - 1995 and Comprehensive Plan of 1990.
- This weight limit would include U-haul trucks holding about three rooms of furniture.
- Planning Commission did put Body Shops as Conditional Use.

After the above questions and comments the following motion was made:

Emerson moved, Sanders second that the Chocolay Township Planning Commission send back to the Township Board the more definitive description of any restriction of light trucks as defined by weight under 10,000 lbs. GVW, and the Planning Commission's opinion on the original language as stated above, along with a recommendation that the Township Board consider approving the amended language as presented by the Planning Commission. Heavy sales should be in C-3 Zoning Districts to help keep the appearance of the C-2 Commercial and to keep the appearance of the 1995 Strategic Plan and the Comprehensive Plan of 1990.

MOTION CARRIED: 6-1.

Discussion on Rezoning # 97 - Site Plan Review - referred back from Township Board

Karen brought the Planning Commission up to date on Rezoning #97. The Township Board received a memo from the Zoning Administrator dated January 30, 1998 which was included in the Planning Commission agenda packet. Karen reviewed the suggested changes with Pat Coleman, U.P. Engineers & Architects. The changes have been incorporated into the site plan review language. The fee's have not been addressed and should be considered not by the Planning Commission, but by the Township Board.

Kinnunen moved, DeVooght second that the Chocolay Township Planning Commission send the revised Site Plan Review language back to the Township Board for approval.

MOTION CARRIED: 7-0.

NEW BUSINESS:

Consider Conditional Use Permit # 45 - Specialty Food Store

Karen gave an up date regarding Conditional Use Permit #45.

Menhennick moved, Sanders second that after careful consideration of the general standards as set forth in Section 701 of the Township Zoning Ordinance, the request from Marquette Meats at 1450 East M-28 for a Conditional Use Permit be approved to allow for a specialty food store in the C-3 Zoning District with the following conditions,

1. That a Firefighter Right to Know form, along with the required floor plan of the business, be supplied to the Fire Department.
2. That a Zoning Compliance Permit be obtained from the Chocolay Township Zoning Administrator.

MOTION CARRIED: 7-0.

Consider Approval of Draft Recreation Plan

The Planning Commission went through the Draft of the Recreation Plan page by page and took into consideration the memo from the Department of Public Works Supervisor and the Zoning Administrator.

After the various corrections of the Draft Recreation Plan were completed, the following motion was made:

Emerson moved, Kinnunen second to incorporate public comment and approve the draft recreation plan, have the draft plan sent to Department of Natural Resources for comment, and send to the Township Board with recommendation for final adoption after comments have been

received from the DNR. The final adopted plan will then be sent to the DNR, Central Upper Peninsula Planning & Development and the Marquette County Planning Commission.

MOTION CARRIED: 7-0.

Consider Rezoning # 99 - Overlay Zoning Districts

There were no further comments made on Rezoning #99.

Sanders moved, Kinnunen second that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the following amendment to the Chocolay Township Zoning Ordinance be approved.

AMENDMENT

To the Charter Township of Chocolay Zoning Ordinance as adopted May 9, 1977, amended with a new section entitled Section 217 "Overlay Zone for Snowmobile Trail" and any and all Amendments adopted subsequent thereto, shall be and the same hereby is amended by the addition thereto of the language, which is bold.

SECTION 217 OVERLAY ZONE FOR SNOWMOBILE TRAIL

- A) INTENT. The Charter Chocolay Township has adopted a zoning ordinance regarding development in the Township. In order to facilitate the development of approved snowmobile trails within the Township, provision for an overlay zone has been established, specifically designed to provide for a zone no more than a 50 feet wide as a designated and approved snowmobile trail within all zoning districts.**

Regulations for approved snowmobile trails are contained in the State Snowmobile Laws. These are applicable within the boundaries of the 50 foot overlay zone. An approved snowmobile trail shall be shown and described on the Township's overlay map for the purposes and uses permitted by the Township Zoning Ordinance.

- B) PERMITTED PRINCIPAL USES. None.**
- C) CONDITIONAL USES. Snowmobile trails as designated and described. These shall be subject to and conditioned upon approval for use between December 1 through April 1 annually, provided always that the consent of the landowner over which the snowmobile trail is proposed, is shown by agreement, license, right-of-way, easement or other instrument.**

MOTION CARRIED: 7-0.

PLANNING DIRECTOR'S REPORT:

- 1) I received this mailing on Stealth Hidden Towers. We may want to take a look at these again later this year. We could set up a joint meeting with other local governments around us to see what action they are taking. We could also invite communication companies to discuss their plans and needs with the group.
- 2) I received a copy of a letter written to Charles Nosal from the Marquette County Planning Commission. The petition received by the Township Board and Planning Commission last fall was sent also to the County. The request was for County assurances that the DNR would not put the trail on the abandoned railroad grade. The letter is here for your review.
- 3) The Annual American Planning Association Conference this spring is in Boston. Northern Michigan University students again received scholarships to attend. If anyone would like information on the conference, I have conference materials available.
- 4) In January I attended the Michigan Townships Association Annual Educational Conference. I was able to attend the following workshops related to Planning:

A crackerbarrel discussion on Land Use - our group discussed gravel pits. I did learn of a case study in Silva vs. Ada Twp. We may be facing gravel pit issues very soon and testing our mining permit section in the Zoning Ordinance. Other groups discussed home occupations, agriculture vs. residential districts and accessory buildings. It's always good to hear what might be happening in other Townships and how they have resolved the same type of issues we face here at Chocoley and also to share how we have resolved some of the issues they face.

Growing Pains: Managing Growth in Rural Areas - the presenter was Steve Langworthy. Steve always has a good relationship with his audience. He discussed the important catalysts for growth such as, utility services, road systems, zoning & land use planning and the market.

A workshop on Siting Cellular Towers was also presented, but I was unable to attend. I hope to receive a copy of the presented materials.

PUBLIC COMMENT:

Mike LaPointe inquired if there were any public comment.

John Smith informed the Planning Commission that he is looking for support for a trust foundation in the future. The foundation would then be able to apply for recreation grants. He is looking for a letter of support from the Planning Commission. The Planning Commission supports the idea in concept. It was suggested that a presentation by the Marquette Community Foundation be made at the March 1998 Planning Commission.

Karen informed the Planning Commission that at the March 1998 Planning Commission there will be a public hearing on a lot split and the definition of private clubs will be ready for discussion.

Don Britton - 1250 Ortman Road thanked the Planning Commission for all the support they have given to the Trail's Committee.

COMMISSIONERS COMMENT:

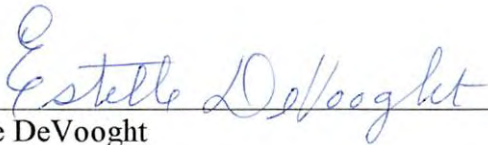

Gary Menhennick introduced himself to the Planning Commission members. He has been a resident of Chocoley Township for approximately 32 years. He works for Menhennick Enterprises, which is a family owned business.

INFORMATIONAL ITEMS AND CORRESPONDENCES:

- A. Correspondence from - Bill Sanders - Beyond Clustering
- B. Correspondence from - Stacy Busch - minutes taking
- C. Chocoley Township Board minutes of 01/05/98 and 01/19/98
- D. Ad Hoc Trail Development Committee draft minutes of 02/03/98

ADJOURNMENT:

There being no further business, the February 9, 1998 Planning Commission Meeting was adjourned at 9:45 p.m.

 Estelle DeVooght
 Planning Commission Secretary

 Jeanette R. Collick
 Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, MARCH 23, 1998
7:30 P.M.

PRESENT: Mike LaPointe, Ken Tabor, Estelle DeVooght, Bill Sanders, Gary Menhennick
ABSENT: Scott Emerson and Steve Kinnunen

STAFF PRESENT: Karen Chandler, Director of Planning & Research

OTHERS PRESENT: Karen L. Deel, Recording Secretary, Don Britton, John Smith, Tammy Seavoy, Marquette Community Foundation Board Member, Rich Rossway, Daniel Rydholm, Terry Bangry.

PUBLIC HEARINGS:

Mike LaPointe called the Public Hearings to order at 7:30 p.m. He explained the process of the public hearing.

1) Lot Split # 12 - Applicant, Daniel Rydholm, Lot 14 Riverside Addition to Lakewood. Karen Chandler gave a brief description of the request. Only one neighbor had stopped by the office and was not opposed to the split. Rydholm reported he had the property surveyed. Chandler reported having contact with the County Road Commission and Bob Menard had no problems with this request.

2) Conditional Use Permit # 46 - Applicant, Fraco Inc. has requested that the Chocolay Township Planning Commission consider granting a conditional use permit to allow a change to the original conditional use on the described property. Karen Chandler gave a brief description of the request. Everyone was notified and we have received no correspondence has been received. Terry Bangry presented oral comments regarding the request and responded to questions from the commissioners. Commissioners reiterated their concern about the conditions not being met as was requested, i.e., two rows of pines not planted, etc.

There being no further comments received from the public, this section of the meeting was closed at 7:40 p.m.

MEETING CALLED TO ORDER:

Mike LaPointe, Chairperson called the Regular Meeting of the Planning Commission to order at 7:41 p.m.

ROLL CALL

PRESENT: Mike LaPointe, Ken Tabor, Estelle DeVooght, Bill Sanders, Gary Menhennick.
ABSENT: Scott Emerson and Steve Kinnunen.

APPROVAL OF THE MINUTES OF FEBRUARY 9, 1998

Mike LaPointe inquired if there were any additions or corrections to the minutes of February 9, 1998. Karen Chandler noted one correction to be made on page 2 (under approval of the minutes) to change the date from January 12 to February 9, 1998.

Bill Sanders moved, Gary Menhennick supported that the 2/9/98 meeting minutes be accepted with the correction to the approval date (February 9, 1998) of the agenda from the last meeting.
MOTION CARRIED.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Mike LaPointe inquired if there were any additions or changes in the agenda?

Bill Sanders moved, Ken Tabor supported that the Agenda for the March 23, 1998 be accepted as presented. **MOTION CARRIED.**

PUBLIC COMMENT:

Rich Rossway, Public Relations Representative for the Ojibwa Casino, explained their current status as relates to the Casino on Kawbawgam Road and their application to move it to a new location near the business district. His desire was to clarify any questions, concerns, rumors, and errors about the situation and hopefully work toward building a better relationship between them

and the Chocolay Township Board. Any future activity regarding the Casino will be shared with the Chocolay Township Board. The legal process for all this to happen is complicated and may take up to three years, and involves the Federal Government, the Indian Gaming Regulation Act, State law, and Tribal laws. Rumors of hotels, restaurants, and relocating of homes at this point are just that. Moving homes would be a very last resort.

Rossway responded to questions from the Commissioners and then thanked them for this opportunity to talk with them.

Karen Chandler announced a public hearing at the Cherry Creek School on Tuesday, April 14, 7:30 p.m. regarding the Casino issues.

Don Britton reviewed the status on the trail situation as relates to the Johnson property-- we were off on our lines a little bit. Further comments were made about the crossing of the Chocolay River and Golf Course.

John Smith gave an update on the North Country Trail -- which is strictly a hiking trail.

The Public Comment Section was then closed.

OLD BUSINESS

At the request of the Chocolay Township Planning Commission, a presentation on Marquette Community Foundation(MCF) was made by Tammy Seavoy, MCF Trustee for nine years. This presentation involved oral comments and a seven minute video, distribution of their 1996 Annual Report, and responding to questions from the commissioners. John Smith commented that the impetus for this presentation stemmed from an inquiry into securing some funds for the trails' system. No action was taken at this time.

NEW BUSINESS:

Consider Lot Split # 12 - Daniel Rydholm Lot 14 Riverside Addition to Lakewood
The Zoning Board of Appeals met to review a variance for a proposed addition on the home of Daniel Rydholm. The variance was approved and at this time the lot and home meet the requirements of the Zoning Ordinance. After further review of the application and the other relevant facts related to the subdivision in which the lots are located, I recommend that Lot Split #12, Riverside Addition to Lakewood, Lot 14, where property owners are exchanging a portion of Lot 14 to eliminate an encroachment, be approved.

Bill Sanders moved, Gary Menhennick Seconded that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that Lot Split #12, Riverside Addition to Lakewood, Lot 14, where property owners are exchanging a portion of Lot 14 to eliminate an encroachment, be approved. **MOTION CARRIED.**

Consider Conditional Use Permit # 46 - Fraco, Inc.

Ken Tabor moved Estelle DeVooght seconded that after careful consideration of the general standards as set forth in Section 701 of the Township Zoning Ordinance, the request by Fraco Inc. at 200 Cherry Creek Road for Conditional Use Permit # 46 be approved to allow for a change to the original site plan to now add redi-wash equipment and a 40 x 70 building to house the equipment, to relocate the underground fuel storage tank of 10,000 gals, to place a scale near the office, and to add a 36 x 70 storage addition on existing block plant building and remove the two Quonset huts proposed in permit # 17, on the following described property:

Section 7 T47N R24W

The N 660' of W 1278.26' of NW 1/4 of SE 1/4 lying W of Cherry Creek Road
exc the S 500' of E 460.37' thereof. Located at 200 Cherry Creek Road.

With the following conditions:

1. That previous conditions placed on Conditional Use permit # 6 and # 38 be preserved.
2. That the two rows of pines planted at five feet intervals along the north lot line be preserved as a thirty-foot buffer.
3. That at such time as the storage building and platform scale are constructed, the Zoning Administrator and Fraco Inc. will agree to the placement on the site plan as presented to the Planning Commission for this Conditional Use Permit # 46.

- That a Zoning Compliance Permit be obtained from the Chocolay Township Zoning Administrator prior to use.

MOTION CARRIED.

Review & Consider Approval of 1997 Annual Report

Bill Sanders moved Ken Tabor seconded that after review and acceptance we forward the 1997 Annual Report to the Chocolay Township Board. **MOTION CARRIED.**

Discuss Annual Road Ranking

ROAD NAME	Location	2nd Road Dead End	Collector Distrib	Condition	Design Standard	Density	Total	Rank	CTPC Rank	Board Rank
Little Lake Road (RR-2)	2	1	2	2	3	4	14	4		
Greenfield Road (RR-2)	2	1	0	2	3	1	9	1		
Mangum Road (RR-2)	2	1	0	4	3	2	12	3		
Shot Point Road	4	0	0	0	3	3	10	2		
Coming Street	4	1	2	2	3	4	16	5		

PROJECTS FOR PAVING OF A GRAVEL ROAD										
Gentz Road	2	0	0	2	4	0	8	1		

After review and discussion of the above road rankings being considered for improvement, the following questions were recorded:

- The ranking for "Density" seems to be out of sync with the other factors -- verify!
- What are they (Chocolay Township Transportation Planning Group) talking about in terms of improvements, i.e., pavement, resurfacing? Could we have specifics for each road?

Karen Chandler will research these issues and report back.

Review Township Hall Addition

The Chocolay Township Planning Commission reviewed the Township Hall Addition, per Act 168 of 1959 Township Planning § 125.330 *Basic plan; approval of public way, space, building or structure, Section 10*. Schematics and floor plans were viewed and discussed. Bill Saunders commented on his knowledge and understanding about preserving and respecting the historic nature of buildings and the need to stay away from changing the symmetry of the facade -- cardinal rule of renovations. After much discussion, the following motion was made:

Gary Menhennick moved Ken Tabor seconded that we appoint Bill Sanders as our representative for input on the Chocolay Township Hall Addition and to work with the Planning & Research Director Karen Chandler in communicating this input to the Township Board. **MOTION CARRIED.**

PLANNING DIRECTOR'S REPORT:

- I have made copies of information sent to the Township Board from the Chocolay River

Watershed Council. It seems they maybe starting a Strategic Planning process.

- 2) At the last meeting, Board approved the rentals of motor vehicles and site plan review. I have sent a memo to Mark Maki, Zoning Administrator for his interpretation of private clubs. Private clubs have been a permitted principal use in the C-2 districts and we should use the same meaning for the C-1 district.

The Board also approved the Recreation Plan and directed staff to begin preparing a grant application for property acquisition for trail development. Larry Gould and I have been working to get the grant application ready for the Board meeting on March 16. A public hearing will also be held at that time. We need to thank Don Britton for all of his time and energy. Don has personally contacted all of the property owners along the proposed trail route.

- 3) I have been working with Jim Blondeau, Fire Chief, Larry Gould, Jack Menhennick, and Jim & Elry Reetz to get some history of the Fire Department preserved. The department was organized in 1967 and the first truck was purchased in 1968. We'll have a story on the front cover of the next CABA Quarterly due out the end of March.
- 4) Private road request -- Mark Heikkila -- tabled to April -- will need to extend to May. He is working with County Road Commission.
- 5) The Chocolay Watershed Council is looking for volunteers for RiverFest.

PUBLIC COMMENT: NONE

COMMISSIONER COMMENT:

A brief discussion was heard on the current status of the Casino in hopes of being helpful and beneficial to the understanding of all commissioners.

Mike LaPointe reported on the Watershed Initiative Conservation District, funding available from same, and the process to access those funds, as relates to Marquette Harbor. This initiative could have impact on Chocolay. Efforts include trying to organize for the Chocolay River, Carp River and Dead River.

Estelle DeVooght
Planning Commission Secretary

Karen Deel
Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, APRIL 13, 1998**

PUBLIC HEARINGS: None.

MEETING CALLED TO ORDER:

Mike LaPointe, Chairperson called the April 14, 1998 Regular Meeting of the Planning Commission to order at 7:30 p.m.

ROLL CALL

PRESENT: Mike LaPointe, Estelle DeVooght, Scott Emerson, Bill Sanders, Gary Menhennick.

ABSENT: Steve Kinnunen and Ken Tabor.

STAFF PRESENT: Karen Chandler, Director of Planning & Research

OTHERS PRESENT: Karen L. Deel, Recording Secretary, Don Britton, Mark Maki, Zoning Administrator, Sharon and Bob Roshak.

APPROVAL OF THE MINUTES OF MARCH 23, 1998

Mike LaPointe inquired if there were any additions or corrections to the minutes of March 23, 1998.

Bill Sanders moved, Gary Menhennick seconded that the 3/23/98 meeting minutes be approved as submitted. MOTION CARRIED.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Mike LaPointe inquired if there were any additions or changes in the agenda? A memorandum from Mark Maki, Zoning Administrator, was submitted for addition to the agenda, under VIII. B. Zoning Issues.

Bill Sanders moved, Scott Emerson seconded that the Agenda for the April 13, 1998 be accepted with the addition. MOTION CARRIED.

PUBLIC COMMENT:

Mark Maki, 405 Riverside Road, and Zoning Administrator commented on the issue of the Casino and the Township Board taking a position that they did not support it in the current location because of planning. Mark Maki noted that more recently that the Board now supports it if it would be in the Township business district. He noted this would be an appropriate support issue for the Planning Commission. However, the Public Hearing that is scheduled is not the same kind of hearing where you notify the property owners, but a general advisory public hearing. It appears to be brought about by the Casino employees who want to be heard. Listening to the comments I have heard, I think it would be good for the Planning Commission to support the Board's position. This is a residential area. There is a Federal Law that indicates a casino can not be detrimental to the surrounding community.

Mark Maki further commented on the trail grant application and wondered why there was an issue with hunting? He asked for clarification about how "hunting" came about being added to the grant -- was it really for the issue of hunting or was it for getting additional points in the grant process. If you look at the Township Trails, none of them are suitable for hunting.

OLD BUSINESS

DISCUSSION ON PRIVATE ROAD 6A - MARK HEIKKILA: Karen Chandler, Director of Planning and Research presented a memo to the Commission outlining the current status of Mark Heikkila's Private Road Request and recommended that the Commission table the request again while the applicant is making progress with the County Road Commission on their part. Discussion followed.

MOTION by Bill Sanders, supported by Gary Menhennick, that we table the Private Road 6-A request by Mark Heikkila and instruct the Director of Planning & Research to bring it back to agenda when it is ready for action. Motion carried unanimously with one dissenting vote.

DISCUSS ANNUAL ROAD RANKING: In follow-up to last month's meeting and instructions to the Planning Director to provide addition information on the Road Ranking issue, Karen Chandler presented an explanation of the road conditions for the road ranking, corrected the ranking for "density," and submitted this information for review and consideration. An overhead projector reflecting maps of the areas in question were viewed. The actual road rankings are as follows:

Road Name	Location	2nd Road Dead End	Collector Distrib	Condition	Design Standard	Density	Total	Rank	CTPC Rank	Board Rank
Little Lake Road (RR-2 & RP)	2	1	2	2	3	4	14	2		
Greenfield Road (RR-2)	2	1	0	2	3	1	9	5		
Mangum Road (RR-2)	2	1	0	4	3	2	12	3		
Shot Point Road (L/S/R)	4	0	0	0	3	3	10	4		
Corning Street (C-2 & R-1)	4	1	2	2	3	4	16	1		

PROJECTS FOR PAVING OF A GRAVEL ROAD										
Gentz Road (RR-2)	2	0	0	2	4	0	8	6/1		
							0			

MOTION by Scott Emerson, supported by Bill Sanders, to approve the Annual Road Ranking Report developed by the Planning Director, as presented above, and to forward it to the Chocolay Township Board for action. Motion carried unanimously.

REVIEW TOWN HALL ADDITION: Karen Chandler and Bill Sanders reviewed their activities since the last Commission Meeting when they were authorized to give input to the Architect regarding preserving the historical nature of the building. A drawing and related memos were reviewed. No action required.

DISCUSSION ON COMMUNITY FOUNDATION: A memo from the Planning Director to the Commission was reviewed. It outlined a plan for the Trails Committee to enter into an Agreement with the Marquette Community Foundation (similar to the Ishpeming & Negaunee Community Foundations). This information is being presented to the Commission for comment (since the Trails Committee reports to the Commission). Discussion followed, and included a review of how this is a long-term investment by people in this community, and that you could apply for the money just like you to for a grant. Basically, you would be spending the interest earned by the donations/monies from this community to the Foundation.

MOTION by Bill Sanders, supported by Scott Emerson, that the Commission endorse the Trails Committee recommendation to develop an Agreement with the Marquette Community Foundation, as outlined, and that Chairman LaPointe submit a letter to the Chocolay Township Board to that effect. Motion carried unanimously.

NEW BUSINESS:

DISCUSS HUNTING ON TOWNSHIP OWNED PROPERTIES: Laws governing firearms stipulates that you can not discharge a gun within 500 feet of a residence. Is it necessary to forbid hunting if there's a law that covers the issue?

A discussion was heard on the issue with input from Sharon Roshak and Don Britton, with a final understanding that the sentence about "hunting" had been removed from the grant application and that no one was really intending to have hunting from the trails permitted. Legally, the laws governing firearms do not allow for the discharge of firearms within 500 of a residence, therefore it was felt the concern was put to rest.

Mark Maki inquired if there was some way to work with the attorney to develop a legal document with the people who are giving permission for the trail to go through their properties that would include language to protect the Township from people changing their minds, or if someone sells their property?

It was suggested that the Trails Committee address the issue of a policy regarding the discharging of guns in the Township. The Planning Director will talk with others and develop a policy to take to the Board.

ZONING ISSUES FROM MARK MAKI: Mark Maki addressed the Commission and reviewed his letter which outlined 5 zoning issues in the Township and recommendations for addressing them, plus a recommendation that a private road be named. Please see the enclosed Memorandum.

A lengthy discussion ensued about zoning definitions, pros and cons of zoning areas that affect personal property, and whether or not the Zoning Board really should be stipulating what people can and cannot do on their own property. Areas of discussion included Taxidermy, Kennels, Contractors yards, Intensive Agriculture, and Bed & Breakfast signage.

In summary, it was the consensus of the group that additional information was needed to address these zoning concerns, i.e., definitions, laws and regulations, etc.

PLANNING DIRECTOR'S REPORT: Director Chandler did not have a written report, but did call attention to some booklets on the table which are available for Commission Members review. A reminder about the Public Hearing, time, location and anticipated reaction was heard.

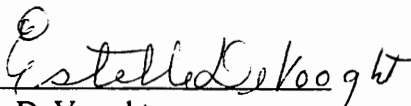

PUBLIC COMMENT: None

INFORMATIONAL ITEMS AND CORRESPONDENCE:

There was no meeting scheduled.

CHOCOLAY TOWNSHIP PLANNING COMMISSION
JUNE 1, 1998

PUBLIC HEARINGS CALLED TO ORDER:

Mike LaPointe, Chairperson called the June 1, 1998 Public Hearing section of the Planning Commission to order at 7:30 p.m.

PRESENT: Mike LaPointe, Estelle DeVooght, Steve Kinnunen, Bill Sanders, Gary Menhennick, and Ken Tabor. **ABSENT:** Scott Emerson.

STAFF PRESENT: Karen Chandler. Director of Planning & Research

Conditional Use #47 - Gentz/Homestead Golf Course: Karen M. Chandler reviewed the application as a conditional use permit request from Randy Gentz, owner of Homestead Golf Course. They are requesting to put up a pole building for cart storage. They are not ready to build the pro-shop until next summer. We did send out information to property owners within 300'. All correspondence was positive.

Randy Gentz explained the exact location, which is slightly different, than the map used. Cart storage would be on the bottom level of a future clubhouse. He reported he lost his garage last winter with snow and needed to proceed with this cart storage shed in order to open for business.

No other comments were heard.

Conditional Use #48 - Seidl: Karen Chandler reviewed this application for conditional use permit for use of a recreation structure at 885 Cherry Creek Road, which would mean a cabin, cottage, camp, hunting camp, mobile home or other similar structure used intermittently for recreation or vacation and not a permanent place of residency. Several of the neighbors have stopped in expressing their opposition to this. The property is condemned, as it does not have an approved septic system. Applicant was not present.

No other comments were heard.

Private Road #12 - Varvil: Karen Chandler reviewed the request from applicant Dana V. Varvil, which involves a request to approve a private road located within the following described property: Section 8 T47N R24W that part of the SW 1/4 of NE 1/4 lying south of M-28 and the SE 1/4 of the NE 1/4 lying south of M-28, Cherry Creek and the Chocolay River. Chandler reported she submitted this request to the County Road Commission and the County Drain Commission. We did have correspondence and it was positive.

Steve Peltó was present to represent the applicant. Peltó said he would make his comments under New Business, and noted he had a new map and information from the surveyor, and will answer questions then.

Secretary DeVooght read a letter from Robert Grove of Marquette and he had no objections to the request.

Mark Maki, Township Zoning Administrator, commented on the language in the Planning Directors recommendation. His concern was based in the language under #4. "The requirements of the County Road Commission for curve radius, grades, crowns and ditches are not shown on this survey and this requirement must be met." He made various suggestions based on information in the memo received from Larry Gould, DPW Supervisor.

No further comments were heard.

MEETING CALLED TO ORDER:

Mike LaPointe, Chairperson called the June 1, 1998 Regular Meeting of the Planning Commission to order after the Public Hearings.

ROLL CALL

PRESENT: Mike LaPointe, Estelle DeVooght, Steve Kinnunen, Bill Sanders, Gary Menhennick, and Ken Tabor. **ABSENT:** Scott Emerson.

STAFF PRESENT: Karen Chandler. Director of Planning & Research

OTHERS PRESENT: Karen L. Deel, Recording Secretary, Mark Maki, Zoning Administrator, Sharon Roshak, Carol J. Pelkola, Steve Pelto, William E. Kessel, Cathy & Randy Gentz.

APPROVAL OF THE MINUTES OF APRIL 13, 1998

Mike LaPointe inquired if there were any additions or corrections to the minutes of April 13, 1998.

A correction was made on page 2 of the minutes, paragraph 3, changing the wording in the last sentence... "Motion carried with one dissenting vote."

Bill Sanders moved, Ken Tabor seconded that the 4/13/98 meeting minutes be approved as corrected. MOTION CARRIED.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Mike LaPointe inquired if there were any additions or changes in the agenda? The agenda was adjusted by moving VIII. New Business before VII. Old Business.

Estelle Devooght moved, Bill Sanders seconded that the Agenda for the June 1, 1998 be accepted as adjusted. MOTION CARRIED.

PUBLIC COMMENT:

Mark Maki, 405 Riverside Road, and Zoning Administrator commented that he had sent a memo to the Commission on Trails, and said that it has been six months since we started this project to get a trail all the way through the area. I am just brining it back to the Planning Commission's attention and again requesting that some kind of legal paperwork be prepared so that when people sell their property, the new owners can't object to the current owners approval of the trail. The Planning Commission and Township need to be involved in this to help Don Britton accomplish this.

Mark Maki commented further regarding the golf courses and the bed and breakfast businesses that need signs and the reviewed the requirements for signs. He would like some language to allow 24 square feet for off premise signs with permission from the property owners so that it would allow them a sign.

NEW BUSINESS:

Conditional Use Permit #47 - Gentz/Homestead Golf Course: Chairman LaPointe asked if anyone had any questions for Mr. Randy Gentz. Estelle DeVooght asked if all traffic has to go past his house. His response was yes.

Bill Sanders motioned Gary Menhennick seconded that after careful consideration of the general standards as set forth in Section 701 of the Township Zoning Ordinance, the request by Gentz/Homestead Golf Course for Conditional Use Permit # 47 be granted

With the following conditions:

1. That previous conditions placed on Conditional Use permit # 19 and the amendment made on November 11, 1996 be preserved.
2. That at such time as the pro-shop building are constructed, the Zoning Administrator and Gentz/Homestead Golf Course will agree to the placement on the site plan as presented to the Planning Commission for this Conditional Use Permit # 47.
3. That a Zoning Compliance Permit be obtained from the Chocoley Township Zoning Administrator prior to use.

MOTION CARRIED

Conditional Use Permit #48 Seidl: Chandler reported we are working with her to get a temporary structure. She also reported receiving a call asking what the requirements were and neighbors were concerned and not sure she should be out there in a mobile home and wood heat etc. Chandler suggested tabling the request until there is an acceptable septic system there.

Chandler also reported there are various service agencies working with her to try and help her with this situation. We have been working with the Health Department and Building Codes people.

Concern was expressed by the Commission that she may just move out there without anyone's permission, and noted that it would be nice if she was present to discuss this with her.

Gary Menhennick moved, Steve Kinnunen seconded that we table this request until we have more information. MOTION CARRIED.

Private Road Request #12 - Varvil: Chairman LaPointe asked Mr. Pelto for his input. Steve Pelto, Presque Isle, Marquette, MI, commented that he was representing Dana Varvil. Pelto explained the request and clarified any concerns voiced.

Mark Maki entered the discussion again regarding the language in the motion. Various suggestions were made for change.

Gary Menhennick moved, Bill Sanders seconded that the Chocolay Township Planning Commission recommend the Township Board approve the private road request from Dana Varvil from the intersection of Autumn Trail to the end of Parcel D as identified on the Survey Sketch dated June 1, 1998 with the following conditions:

1. A covenant be established on the parcel deeds identifying the private road status and the owners responsibility for road maintenance, bridge maintenance, right-of-way maintenance, and drainage maintenance as well as requiring that open access to the private road be maintained for public services.
2. A certificate of bridge weight capacity for a minimum of 80,000 pounds be certified by an engineer and presented to the Planning Director.
3. A temporary cul-de-sac as per County Road Commission requirements be included and dedicated at the end of the private road (at parcel "D") as a turn around for emergency vehicles until such time as the private road maybe extended and further approval will be requested.
4. The requirements of the County Road Commission for curve radius, grades, crowns, and ditches are not shown on this survey and this requirement must be met.
5. Developer to comply with all other agency regulations.
6. Road name to be Wintergreen Trail.
7. A Zoning Compliance permit will be issued after all conditions are met.

AND REVISIT THOSE AREAS OF LANGUAGE CONCERNS EXPRESSED AT A LATER DATE.

MOTION CARRIED.

OLD BUSINESS

Annual Election of Planning Commission Officers and Review of Bylaws:

A motion was made by Estelle DeVooght, supported by Ken Tabor, that we retain the same slate of officers: Mike LaPointe Chair; Bill Sanders Vice-chair; Estelle DeVooght Secretary; Steve Kinnunen Vice-Secretary. MOTION CARRIED.

The Bylaws were distributed for review and no recommended changes made.

Discussion on Land Division Act Ordinance: Mark Maki suggested that the Chocolay Township Planning Commission recommend to the Township Board adoption of this document. It was suggested that this document be reviewed and brought back under Old Business next month.

Discussion on (1) Taxidermy; (2) Kennels; (3) Contractor's Yards; (4) Intensive Agricultural Use; (5) Sign provisions for Bed & Breakfast; (6) Private Road designation in OS and RP Districts.

A 3-inch notebook of information was received regarding these topics, with 50-75 pages on agriculture alone. Discussion followed. Two additional topics were added: Golf Course Signs and Portable Saw Mills.

Chairman LaPointe appointed a committee to work on the Intensive Agriculture Use language, consisting of: Estelle DeVooght, Bill Sanders, and Mike LaPointe. They will meet in two weeks.

A lengthy discussion took place regarding the requirements for private road building. This will come back for discussion at a future meeting.

Karen Chandler and Mark Maki will work on language regarding the golf course signs. Contractor's Yards and remaining topics will be taken up in October or November.

Planning Director's Report.

- 1) We have a rezoning text amendment request coming before us at the July meeting. The request will be for an office as a conditional use in the C-3 Districts. In particular if approved, this request will be for an office at the Varvil Center. The Varvil Center continues to be problematic since it was rezoned from C-2 to C-3 many years ago. The complex itself is more conducive to the C-2 district than the C-3. You will recall that the Environmental Assessment done in the fall of 1996 by students of the NMU Geography Department suggested that we rezone that area to C-2.
- 2) We have our new computer equipment and systems in place in the office. We have also had the offices completely repainted. This has caused some temporary problems with the computers. We now operate with Windows 95 and are using Office 97 programs. This means that we no longer have access to WordPerfect. The entire \$1.1 million budget has to be retyped from WordPerfect to Excel. The departmental budgets must be given to all department heads by July 1. Since I am responsible for this budgeting process, I plan to load Arc-View to my station sometime after July 1.
- 3) When we planned our meeting schedule in December, I indicated that I might not be available for our meeting on the second Monday in July. We will have a public hearing at that meeting. Would the Planning Commission consider changing that meeting to the second Tuesday or would you prefer to hold the meeting on the regular schedule? Monday nights will be difficult for me during July.
The July Planning Commission meeting was changed from Monday, July 13 to Tuesday, July 14, 1998.
- 4) Update on the private road request by Mark Heikkila. The County Road Commission will be hearing a proposal on the property at their next meeting. The request should be back to us by July or August.
- 5) There was a question on trail development at public comment. The Township Board has applied for an acquisition grant. A representative from Lansing walked the property today with Larry Gould, DPW Supervisor and Don Britton. Larry Gould is also working with the Township Attorney to finalize agreements with the property owners along the trail area.

PUBLIC COMMENT - NONE.

COMMISSIONER COMMENT:

Estelle DeVooght reported on a large amount of truck traffic on Karen Road and inquired about mining requirements.

Estelle DeVooght also reported on a number of junk cars and was directed to report it to the Police Department.

LaPointe reported that Lynn Frazier has not yet completed his screen windbreak, but will be working with the Soil Conservation District to accomplish this requirement.

LaPointe also reported on the coordination of Planning Directors of the City and Marquette Township regarding an "Overlay Zone."

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
TUESDAY, JULY 14, 1998**

PRESENT: Mike LaPointe, Estelle DeVooght, Scott Emerson, Bill Sanders, Gary Menhennick, and Ken Tabor.

ABSENT: Steve Kinnunen

STAFF PRESENT: Karen Chandler, Director of Planning & Research

OTHERS PRESENT: Karen L. Deel, Recording Secretary, Mark Maki, Zoning Administrator, Randy & Cathy Gentz, Denise Mullins, Dale & Olive Hillier, and Kay Beauchamp

PUBLIC HEARINGS:

Rezoning #100 – C-3 to C-1, Meadows Request at 1430 M-28, The Varvil Center

Planning Director Chandler reported this was a request brought in by Charlane Meadows, who has petitioned the Chocolay Township Board to rezone the following described property from a current zoning classification of C-3 to C-1:

Part of the SW¼ of the NW¼ Section 10 T47N R24W Located at 1430 M-28.

George and Gale Manosky are the current owners of the property.

The original application was C-2, however, permitted uses include gas station use, etc., with sandy soil. It went back to Meadows and they agreed to C-1. I have received no letters, but 2 phone calls that agreed to C-1. The applicant is not here this evening.

No other public comments were forthcoming.

Rezoning #101-Applicants Dale & Olive Hillier, Parcel At 118 W. Wright Place From R-1 To C-2.

Planning Director Chandler reported the applicants have petitioned the Chocolay Township Board to amend the CT Zoning Ordinance to rezone the following described parcel from the R-1 to C-2. The site is surrounded by C-2 and R-3.

Part of the SW1/4 of the SE1/4 Section 6 T47N R24W Parcel "C" Located at 118 W. Wright Place.

Background information reveals that when Hilliers purchased the property in 1975, it was zoned commercial and changed upon Hilliers request. Now 20 years later the property on three sides are zoned commercial, and they now wish to have theirs changed back to commercial, as the property will be put up for sale.

One letter of objection has been received from a neighbor, Margaret (Maggie) Meiss, which was read into the record by Secretary DeVooght.

Chandler reported the applicants are present, and they were invited to comment. Dale Hillier stated, "Karen Chandler explained it well." He noted he had raised his family of 5 children next door to commercial property and they have all moved, and now that they plan to sell the property, he believes it would be more salable if it were zoned commercial. Olive Hillier commented she had always tried to be a good neighbor and that "rumors" and "misinformation" may be the cause for any neighborhood objections.

Margaret Meiss, who lives on the "corner" voiced her concerns, at length, about the change and re-stated her concerns as enumerated in her letter, which is on record.

No other comments were forthcoming.

Rezoning #102 Text Amendment for Golf Course Signage, Chocolay Township

Planning Director Chandler reported this request was the result of discussion at the last meeting, and language was developed in response to the issue, which is now presented for public review.

The Chocolay Township Planning Commission has petitioned the Chocolay Township Board to amend the Zoning Ordinance with new language that will add the following, to allow for signs off premise.

Section 812 Golf Course Directional Signs

Notwithstanding Sections 809 and 811, a sign not exceeding 24 square feet, identifying the location of a Golf Course shall be permitted in any residential zone upon permit granted by the Zoning Board of Appeals upon finding that: A substantial number of motorists who might seek the advertised establishments pass the proposed location; that such establishment has no other sign visible from the same road; that consent of the property owner has been obtained; and that placement of the sign will not cause any hazard or significant obstruction of any scenic view.

A group of pictures reflecting various types of signs and which were considered directional and which were advertising types.

Randy Gentz, golf course owner, commented in favor of the language change.

No other public comment was forthcoming.

Conditional Use #49 – A public park on Silver Creek Road, Chocolay Township.

Planning Director Chandler reported the applicant, Chocolay Township, has requested that the CTPC consider granting a conditional use permit to allow for expansion of the public park on Silver Creek Road, i.e., additional parking, buffer screen between park and residential area, and a new access, utilizing the natural features of the property. A letter was received from Ida Mercure objecting to the project because of increased noise, traffic, and environmental risk. Another letter/call was received today concerned about the foot traffic.

Larry Gould explained there is no intent to develop a new access, just move the parking from one side of the field to the other, along with the development of a green area, and bleachers. An overhead projection reflected the details of the plan.

Kay Beauchamp of 261 Silver Creek Road expressed concern about the traffic, teen-age parties that are already happening, and policing of it.

Olive Hillier, 118 W. Wright Street, offered comments in agreement with the concern about the late-night parties. She was in support of the park development but would like to see additional security around the park area. A fence was suggested.

Larry Gould commented that a fence would not prohibit parties and would be cost prohibitive. As for the access, temporary access was created to get the bulldozer in. The buffer zone will be increased to 40 feet, with trees and a berm to control noise.

Denise Mullen, 321 Silver Creek Road, commented she agrees with trees and no fencing, particularly trees for a buffer. As far as the park goes, it is only 4 months out of the year, otherwise it is pretty quiet, normally.

No further comment was forthcoming. Public Comment was closed at 8:05 P.M.

MEETING CALLED TO ORDER:

Mike LaPointe, Chairperson called the July 14, 1998 Regular Meeting of the Planning Commission to order at 8:06 P.M.

ROLL CALL

PRESENT: Mike LaPointe, Estelle DeVooght, Scott Emerson, Bill Sanders, Gary Menhennick and Ken Tabor.

ABSENT: Steve Kinnunen.

APPROVAL OF THE MINUTES OF JUNE 1, 1998

The June 1, 1998 meeting minutes were presented for approval. Mark Maki, Zoning Administrator, asked that a correction be made under his comments on **page 1, last paragraph, second line, deleting "saying it was too restrictive."**

Bill Sanders moved, Ken Tabor seconded that the 6/1/98 meeting minutes be approved with the above correction. MOTION CARRIED.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

It was suggested that we modify the agenda by moving VIII.A.B.C.D. to VII between B. and C. and add a letter from Mark Maki under VIII. as F.

Bill Sanders moved, Estelle DeVooght seconded that the Agenda for the July 14, 1998 be accepted with the suggested changes. MOTION CARRIED.

PUBLIC COMMENT: NONE.

OLD BUSINESS**CONSIDER CONDITIONAL USE #48 – SEIDL**

Planning Director Chandler reported that this request is not being recommended for various reasons:

1. This conditional use cannot be designed, constructed, operated and maintained in a manner harmonious with the character of adjacent property and the surrounding area.
2. The conditional use, with the condemnation of the septic system, will interfere with the general enjoyment of adjacent property.
3. The conditional use will not represent an improvement to the property under consideration and the surrounding area in general.
4. The conditional use cannot be consistent with the intent and purpose of this Ordinance, and the objectives of any currently adopted township development plan.

The applicant has been invited on several occasions to meet with the Commission to discuss her situation, but to no avail. Chairman LaPointe asked Director Chandler to review the background information for the Commission's edification and review. A lengthy discussion ensued on this topic and it was learned that Arlene Seidl had never paid her application fee. Although there was compassion and sympathy expressed by Commission members for the individual involved, and various other options reviewed that could benefit her, Chandler was instructed to convey the contents of her letter to Arlene Seidl and the following motion was made:

It was moved by Ken Tabor, seconded by Gary Menhennick, to inform Arlene Seidl of the Commission's concerns and that we can not discuss it [the application] without her paying the fee. Vote was unanimous.

CONSIDER PRIVATE ROAD #6a – HEIKKILA

Planning Director Chandler explained that we have two new Commissioners since this request came into being. She reviewed the request from its beginning in July of 1997.

Motion by Gary Menhennick, seconded by Bill Sanders, that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that Private Road Request #6A, be denied because the applicant is not the owner of the property surveyed for the private road. Motion carried.

REZONING #100 – APPLICANT CHARLANE MEADOWS, PARCEL AT 1430 M-28 THE VARVIL CENTER FROM C-3 TO C-1

The application materials and map were reviewed. A brief discussion followed.

Motion by Scott Emerson, supported by Bill Sanders, that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the rezoning of

that part of the SW1/4 of the NW1/4 of Section 10 T47N R24W located at 1430 M-28 from the current zoning classification of C-3 to C-1 be approved. Motion carried.

REZONING #101 – APPLICANTS DALE & OLIVE HILLIER, PARCEL AT 118 W. WRIGHT PLACE FROM R-1 TO C-2.

The application and related materials were reviewed one more time. Commissioner Emerson commented that he was sensitive to Ms. Meiss' comments but would have to support the recommendation based on the materials at hand.

A general discussion of the issue ensued, with input from all concerned.

Motion by Bill Sanders, supported by Gary Menhennick, that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the Rezoning of that part of the SW1/4 of the SE1/4 of Section 6 T47N R24W Parcel "C" located at 118 W. Wright Place from the current zoning classification of R-1 to C-2 be approved. Motion carried with one dissenting vote (DeVooght).

REZONING #102 – APPLICANT CHOCOLAY TOWNSHIP, TEXT AMENDMENT FOR GOLF COURSE DIRECTIONAL SIGNS.

Director Chandler explained how they came up with the language via a committee effort and advise from legal counsel. Discussion followed with a review of the related materials.

Motion by Bill Sanders, supported by Scott Emerson, that the Chocolay Township Planning Commission recommends to the Chocolay Township Board that the text amendment rezoning request #102 to allow for golf course directional signs be approved. Motion carried.

CONDITIONAL USE #49 – APPLICANT CHOCOLAY TOWNSHIP.

Mike LaPointe expressed his concern about the teenagers in the area of the park and suggested that citizens contact Chocolay Township Police Department. Karen Chandler will convey the message to the Police Department.

Bill Sanders made some suggestions for change regarding the proposed park plan, stating that it would make more sense to have the parking at the far end of the field, and the greens and bleachers closer to the fence with the drive between them. The sketch was reviewed again, and a lengthy discussion ensued with input from all concerned. Sanders said he wants to go on record objecting to the design as submitted.

Issues of safety, traffic flow, continuity of plan in the overall scheme, barriers or buffers, topography, future areas that could be developed, future needs for the soccer sport, other options for soccer fields, were discussed in great detail with input from those concerned. Questions about changing the plan and incurring additional expense or changing completion dates were also considered.

Motion by Ken Tabor, supported by Gary Menhennick, that after careful consideration of the general standards as set forth in Section 701 of the Township Zoning Ordinance, the request by Chocolay Township for a public park at Silver Creek Recreation Area for Conditional Use Permit # 49 be granted.

Bill Sanders moved to AMEND the motion, supported by Estelle DeVooght, that the parking and drive be moved tight to the west end of the lot, 120' from the soccer field and the buffer along the south side along the homes on Silver Creek Drive be maintained at 40'.

VOTE TO AMEND THE MOTION CARRIED UNANIMOUSLY.

VOTE ON THE MAIN MOTION WITH THE AMENDMENT CARRIED UNANIMOUSLY.

DISCUSSION ON PRIVATE ROAD REQUIREMENTS.

Discussion on private road requirements was heard. Larry Gould, DPW Supervisor was in attendance and presented such requirements and standards as they are spelled out. As to whether the language in the ordinance was necessary, the language cannot exceed what the County requires. General discussion followed with no action required.

Margaret Meiss requested to make a public comment so she could go home. Chairman LaPointe acknowledged the request.

Ms. Meiss stated, "I am still pretty upset about your decision regarding the house on the corner being rezoned to commercial. I don't think its part of the community plan, from what I understand. Who is in charge here? I don't see how it could benefit anybody but the house owners. I have a hard time understanding how you can make any decisions. Karen Chandler are you in charge of this? The "greening of the Township has been put off and put off. It should have been done in October of 1995 and here it is July 1998 and still dragging along. In the meantime, all these decisions are being made with negative impact in the township. All this pollution stuff. Nothing is being done. If you are the Planning Director, who do I talk to any more. No one seems to know what is going on. Can you tell me why you think this is a plus to the community?"

Chairman LaPointe asked Ms. Meiss if she would like to meet with Director Chandler, and encouraged her to do so. He further educated Ms. Meiss on the purpose and intent of Public Comment, and that as far as Commissioner decisions are concerned, they are based on the information and materials provided for them by the Planning Director.

Public Comment was then closed with thanks for the comments.

Gary Menhennick invited Ms. Meiss to phone him or meet with him for further discussion over coffee, and noted that Commissioners were appointed officials and would be glad to talk with her at an appointed time.

LAND DIVISION ORDINANCE

A revised copy of the Land Division Ordinance was presented for consideration. Discussion was heard regarding the process of reviewing of applications. There are some suggested changes pending Attorney Summers review.

Motion by Scott Emerson, supported by Estelle DeVooght, that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the attached Land Division Ordinance be approved. MOTION CARRIED.

Motion by Scott Emerson, supported by Estelle DeVooght, that the Chocolay Township Planning Commission request that annual reports on Land Division applications be supplied to the Commission by the Township Assessor. MOTION CARRIED.

DISCUSSION ON INTENSIVE AGRICULTURAL DEFINITION

In view of the time, it was suggested that this topic be brought back next month.

DISCUSS 1998 BUDGET REQUESTS

Planning Director Chandler revised the budget worksheet to include this years budgeted amounts and five month actual expenses with a column for requests. Suggestions were made to increase the office supply account, reduce the Internet Access costs, and include a quote from MAPS North to enter data on the entire 3,300 parcels in Chocolay Township on ArcView. Chandler also encouraged the Commission to consider requesting monies in Capitol Outlay to hire an outside consultant to work with the Commission to update the Comprehensive Plan.

TRAIL DEVELOPMENT MEMO FROM MARK MAKI

Planning Director Chandler was asked to respond to the letter received from Barb Crill since t the Trails Committee will not be meeting until August.

PLANNING DIRECTOR'S REPORT

I received a phone call this afternoon from a resident looking for a definition of a contractor's yard. Will the Planning Commission be looking to define this term? I have received information from PAS on contractor's yards and I can bring this back to the next meeting if we plan to define this term.

Remember the Chocolay RiverFest '98 is coming up Saturday, August 8 at the Beaver Grove Recreation Area. If you haven't attended in the past, stop by and enjoy the exhibits.

I brought copies of the CABA Quarterly for those of you who may have missed it in last week's Action Shopper.

Advertising for the Chocolay RiverFest was distributed, as well as copies of the CABA Quarterly.

Chandler encouraged the Commissioners to consider membership with the Lake Superior Community Partnership, even though the fee structure is high.

Chandler alerted the Commissioners to a private road request from 1993 that maybe coming back for review.

INFORMATIONAL ITEMS DISTRIBUTED.

Chocolay Township Board Minutes of 5/18/98

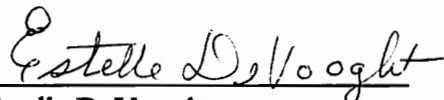

Ad Hoc Trail Development Committee Minutes of 6/2/98

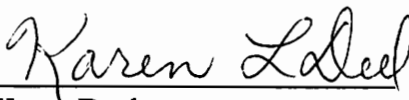

Memo from Mark Maki re: Trail Development

Correspondence from Charles Nosal on status of trail development.

ADJOURNMENT:

There being no further business, the July 14, 1998 Planning Commission Meeting was adjourned at 10:30 P.M.

 Estelle DeVooght
 Planning Commission Secretary

 Karen Deel
 Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, AUGUST 10, 1998**

PRESENT: Mike LaPointe, Estelle DeVooght, Scott Emerson, Steve Kinnunen, Bill Sanders, Gary Menhennick, and Ken Tabor.

STAFF PRESENT: None

OTHERS PRESENT: Karen L. Deel, Recording Secretary, Mark Maki, Zoning Administrator.

PUBLIC HEARINGS: NONE.

MEETING CALLED TO ORDER AND ROLL CALL: The regular meeting of the Chocolay Township Planning Commission was called to order at 7:30 p.m. by Chairperson Mike LaPointe, on August 10, 1998.

ROLL CALL: All present as noted above.

APPROVAL OF MEETING MINUTES:

The 7-14-98 meeting minutes of this commission were presented for approval. Commissioner Sanders asked to edit the minutes as follows: *Page 5., second to the last paragraph, last sentence to read, "Sanders said he wants to go on record objecting to the design, as submitted."*

Motion by Commissioner Sanders, supported by Commissioner Kinnunen, to approve the 7-14-98 Chocolay Township Planning Commission Meeting Minutes as edited, and noted in the preceding paragraph. Motion passed unanimously.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

No changes or additions suggested.

Motion by Commissioner Kinnunen, supported by Commissioner Sanders, to approve the 8-10-98 meeting agenda as submitted. Motion carried.

PUBLIC COMMENT: None.

OLD BUSINESS:

Review Changes made in Land Division Ordinance: (It was immediately noted that the second page of the enclosed Mike Sommer's letter was missing from all meeting packets. Mark Maki made the necessary copies and they were distributed.)

After review and comparison of the language as submitted and as revised, it appears that Director Chandler has included the changes as noted in the letter. No objections to the changes were voiced by the Planning Commission. ***It was the consensus of the Commission that the Land Division Ordinance be forwarded to the Board as submitted to us.***

Discussion on Intensive Agricultural Definition: The Committee Report on Intensive Agricultural Definition was reviewed. Members of the Committee are Mike LaPointe, Bill Sanders, Estelle DeVooght and Karen Chandler.

Chairperson LaPointe noted that this issue was originally brought up by Mark Maki and himself after hearing of concerns in West Branch Township. The result of that discussion was to form a sub-committee, which is now reporting on their efforts. In their deliberations, the following questions were raised:

1. **How cost effective would intensive agriculture be in this area? And is its potential a real threat?**
2. **How does intensive agriculture relate to health, safety and welfare of the Township residents? Could intensive activities be prevented on their impact to health, safety and welfare alone?**

3. **Can we ask the Township Attorney to investigate intensive agriculture in relationship to the County Health Department? Have they had any experience with intensive agriculture? How does intensive agriculture affect water/wells on site?**
4. **How many parcels (farm or otherwise) could be affected by the possibility of intensive agricultural use in Chocolay Township?**

The question this evening is: *Where do we think we should go with this?*

A lengthy discussion ensued. Bill Sanders commented, "I had some second thoughts about this since our original discussion. My concern is for us to do this, we have to come up a definition, or borrow some or take from somewhere else." Estelle DeVooght noted the information received from Ely Township, the numbers were ludicrous. Is there another way to do this without numbers. Scott Emerson suggested that we learn from others and their experience in responding to these kind of questions. Sanders noted another obstacle – say some guy is trying to grow something, do we need to set where that line is? Gary Menhennick inquired if there are other regulatory agencies that set these [regulations] out? The property in Chocolay Township is very valuable – is there a problem in this township? Mike LaPointe noted there is a problem and he was involved in it. Menhennick inquired, "Do we need to be one more burden?" DeVooght noted that there is not that much land in Chocolay Township left for farming. Concerns were expressed that if definitions were not developed now, maybe in the future, if somebody started farming or developing definitive language, there might not be representation from the farming community involved. Other questions about controlling "farm smell" were discussed. Is this a quality of life issue or a nuisance odor? Estelle DeVooght explained the West Branch Township situation as quite unique and explained it, as it involved her son. Menhennick summarized his concerns as two issues: 1 is Size of lot, and 2. Seeking approval from the Planning Commission. It was noted that farming has changed in the area, it used to be 80% of population farmed, now it has dropped to 2%. Mark Maki commented he did not think it appropriate to put numbers on a definition, but only through regulating lot size. *It was the consensus of the group that before anything can be done, we would need answers to the above questions, and to focus on lot sizes and a broad-based definition. Also, Mark Maki volunteered to bring back some language for their review and reaction.*

DISCUSSION ON BOARD APPEAL OF SITE PLAN/FORMATION OF RECREATION COMMITTEE:

Chairperson LaPointe noted that at our last meeting we reviewed a Site Plan submitted by Larry Gould and listened to an oral presentation as to how, why and when this would happen. After much discussion we passed a motion to recommend a change in the plan before submitting it to the Board. In talking to Supervisor Fende, he plans to appeal the "condition" we recommended to be set on the site plan.

A lengthy discussion ensued and in summary, it appears that we based our decision on information different than what the Township Board used when they decided to appeal our recommendation. The information was again reviewed and input received from each individual Commissioner regarding their recollection of the situation. Commissioners again expressed their concern for the safety of the children, the need for the warm-up or practice field to be close to the playing field, and the fact that this Commission's decision was based on information shared with us by Mr. Gould.

Bill Sanders stated, "I feel a certain responsibility for Larry Gould's being on the defensive. By the same token, it is our job to address these things. There are things you can do to this to make it safe. (Bill submitted 3 additional drawings to that effect.)"

Scott Emerson commented if the visual plan is to build another soccer field to the west, we should stay with our position. I would need some type of firm statement as to whether they are going to do that or not.

Mike LaPointe commented, "I don't think anybody has really sat down and looked at the big picture -- this site, Beaver Grove, and Lion's Park. I really thing we ought to set up a recreation committee, look at these areas. I looked at Beaver Grove at 6:30 PM, there were 80 cars in the

lot, and there were from 50-60 kids in the practice field. There are a lot of kids and lots of traffic and this is only one field.”

If a Recreation Committee was developed, who would they answer to? Would it be a regular/standing committee or ad hoc committee?

Bill Sanders recommended that we just send a memo to the Township Board telling them that after reviewing all the information submitted to us from the last meeting, we want to re-iterate our conditions on the Site Plan from the last time. Basically, we are “sticking to our guns” or “maintaining our original position, and furthermore that any future development would be compatible or better served by our original recommendation, and to enclose the three drawings reviewed this evening. *It was the consensus of the group to endorse Sander’s recommendation.*

As to the formation of the Recreation Committee, the Planning Commission has the following questions – what is the chain of command? Would it be a regular committee or ad hoc committee? How will the Planning Commission connect to this? We have a Master Plan, would this committee address the Master Plan? Would it be like the Trail’s Committee? What would be this committee’s finite mission and time frame? The Planning Commission would not support a Recreation Committee but an Ad Hoc Committee to address specific issues, the same as the Trails Committee.

PLANNING DIRECTOR’S REPORT: None.

COMMISSIONER’S COMMENTS: Chairperson LaPointe noted in his recent discussions with Director Chandler that Scott Emerson had some information and plans for the Landscape Ordinance regarding the “greening concept” and asked Commission Emerson to comment. Commissioner Emerson explained that he had given all his notes and information to Director Chandler and was not in a position to comment right now. He further stated that he would rather address the issue some time in October after he had completed some of his current tasks, but did note that we have tremendous natural beauty and it should be preserved and maintained even in the commercial area by park-like appearances. A brief discussion followed but no decisions made.

Bill Sanders commented that he is currently working on a Zoning Project in Marquette Township and had experienced some frustrations with their local requirements as they pertain to drawings, owner’s name and legal descriptions, site plan, etc. Sanders noted that this personal experience has made him more aware of the issues and hopes to use this experience in making decisions with this Commission and setting requirements for this township. He expressed his concern that we don’t get caught up in ordinances that are too restrictive or subjective. We need to search for the good middle road without pushing people out.

Mike LaPointe noted that he though Emerson’s suggestions were good with the broad based approach to membership in developing such a plan.

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, SEPTEMBER 14, 1998**

PRESENT: Mike LaPointe, Estelle DeVooght, Bill Sanders, Gary Menhennick, and Ken Tabor.

ABSENT: Scott Emerson and Steve Kinnunen

STAFF PRESENT: None

OTHERS PRESENT: Jeanette R. Collick, Recording Secretary, Reverend Guy S. Thoren and Bill Rowe.

PUBLIC HEARINGS: Mike La Pointe, Chairperson called the Public Hearing to order at 7:32 p.m.

(1) LOT SPLIT #13 - HIGHLAND MEADOW LOT 7; APPLICANT, KENNETH & VERA JACOBSON:

Mike LaPointe, Chairperson inquired if there were any representation for Lot Split #13, or if there were any questions or public comment regarding this issue. There were none.

Mike LaPointe closed the public hearing regarding Lot Split #13.

(2) CONDITIONAL USE PERMIT #50 - ST LOUIS THE KING CATHOLIC CHURCH:

Mike LaPointe, Chairperson inquired if there were any representation for Conditional Use Permit #50, or if there were any questions or public comment regarding this issue.

Reverend Guy S. Thoren was present to answer any questions that may come up when this would be discussed during the meeting.

Mike LaPointe inquired if there were any further questions or comments regarding Conditional Use Permit #50. There were none.

Mike LaPointe closed the public hearing regarding Conditional Use Permit #50. There being no further public hearings, Mike LaPointe closed the public hearing section of the September 14, 1998 Planning Commission Meeting.

MEETING CALLED TO ORDER:

The regular meeting of the Chocolay Township Planning Commission was called to order at 7:40 p.m. by Chairperson Mike LaPointe, on September 14, 1998.

ROLL CALL: All present as noted above. Scott Emerson and Steven Kinnunen absent.

APPROVAL OF MEETING MINUTES:

The August 10, 1998 meeting minutes of the Planning Commission was presented for approval.

Motion by Commissioner DeVooght, supported by Commissioner Menhennick to approve the August 10, 1998 Planning Commission Meeting Minutes as presented.

Motion Carried: 5-0.

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

Commissioner DeVooght suggested that New Business, B be moved up on the agenda before Old Business.

Motion Commissioner DeVooght, supported by Commissioner Sanders to approve the September 14, 1998 Planning Commission agenda as suggested.

Motion Carried: 5-0.

PUBLIC COMMENT:

Chairperson LaPointe inquired if there were any public comment. There were none. He closed the first public comment section of the meeting.

NEW BUSINESS:

DISCUSS CONDITIONAL USE PERMIT #50 AND REVIEW SITE PLAN AS SUBMITTED BY ARCHITRON FOR ST LOUIS THE KING CHURCH

The following comments were made regarding Conditional Use Permit #50:

- There needs to be a height variance.
- Design - this was discussed that the 15' variance is subject to recent Zoning Board of Appeals approval.
- Zoning Ordinance allows for 30' - proposed height is 52'. There would be no people at this height, but has to have sky light or airway. This would be able to be obtained.
- We need to see the correct site plan. It was noted that the corrected site plan would not be changing the land.
- Why was church hi-lighted. It was noted that this was probably hi-lighted for the discussion.
- It was asked when construction would begin. It was noted that probably next year.
- There will be a corrected a site plan at the Chocelay Township Office this week.

Chairperson LaPointe inquired if there were any further discussion or questions regarding Conditional Use #50. There were none.

Commissioner Sanders moved, supported by Commissioner DeVooght that after careful consideration of the general standards as set forth in Section 701 of the Township Zoning Ordinance, the request by Architron, LTD for St. Louis the King Catholic Church for a religious/instructional facility as Conditional Use Permit #50 be granted with the following conditions:

1. **That a Zoning Compliance Permit be obtained from the Chocelay Township Zoning Administrator prior to use.**
2. **Official site plan be presented to the Chocelay Township for their approval included in the minutes as discussed.**

Motion Carried: 5-0.

COMMISSIONER COMMENT:

The Recreation site parking was discussed.

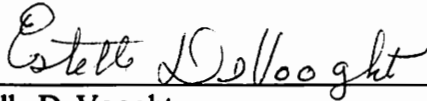

It was noted that there would be a Planning Commissioners training workshop in October in Mackinac Island. If anyone is interested in going, please inform Karen or Mark that you would like to attend.

INFORMATIONAL ITEMS AND CORRESPONDENCES:

- A. Chocoday Township Board minutes of 07/20/98 & 08/17/98
- B. Zoning Board of Appeals minutes of 7/23/98
- C. Chocoday River Watershed Project minutes of 07/16/98
- D. Correspondence to - Dr. Richard Vermeulen - on trail development
- E. Miscellaneous Information received from Arlene E. Hill, Township Clerk on ordinances in Shelby Township in Macomb County on public parks and in Southfield Township in Oakland County on wireless communication facilities.

ADJOURNMENT:

The meeting was adjourned at 8:30 p.m.

Estelle DeVooght
Planning Commission Secretary

Jeanette R. Collick
Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, OCTOBER 12, 1998**

PRESENT: Mike LaPointe, Estelle DeVooght, Scott Emerson, Bill Sanders, Gary Menhennick

ABSENT: Steve Kinnunen and Ken Tabor.

STAFF : Karen Chandler, Director of Planning and Research
Mark Maki, Zoning Administrator

OTHERS: Karen L. Deel, Recording Secretary
John F. Smith, Don Britton, Crystal Glass, Jeff Glass, and Mark Keegan

Mike LaPointe called the meeting to order at 7:35 p.m.

PUBLIC HEARINGS:

Conditional Use Permit #51 – Jeffrey Glass, Gitchee Gumee Campground.

Jeffrey Glass, owner of the Gitchee Gumee Campground & RV Park, 2048 M-28 East, has requested that the Chocolay Township Planning Commission consider granting a conditional use permit to allow for expansion of the existing Conditional Use Permit for a Campground and a Resort designation in Section 7, T47N, R23W.

Karen Chandler, Director of Planning and Research, explained the expansion which is to eliminate a section of the existing camping area that was never developed and include a storage building, a building for children's recreation, two camping cabins, and the installation of up to 10 cabins (re-worked and remodeled use mobile homes), in addition to cross-country ski trails, on the property designated as CO 44-11 on the tax roll. This will change the original permit from 30 acres and summer use, to over 70 acres and year-around use.

Ms. Chandler also reported receiving two responses from neighbors which were positive, with encouragement to expand on the cross-country trail portion.

Jeffrey Glass, owner of the property, made the following comments: "I took out the original permit when I was 20 years old; I am now 50." He reviewed the history of his beginnings and how he has come to this point in time where he wants to make the above expansion. He shared articles from Recreation magazines highlighting the Park and its cleanliness, read letters from people who have stayed there, showed pictures of people who have stopped at the park, and displayed material reflecting what kind of cabins he plans to build. He called attention to the fact that this park was really developed from re-cycled materials and he intends to continue in this vein with the used mobile homes that he plans to convert into attractive wood sided cabins that can house up to 8 people each. He explained the difference between park models and cabins and the law/ordinances that allow what can be used in the various situations. He elaborated further on the fact that his current enterprise is really seasonal and with this expansion it would allow him to operate year-around. He explained the background work he has done to date to meet all the requirements in terms of septic tank and tile field, licensing, Michigan Campground rules, etc. etc. He explicitly promised that if his project did not meet up to the required standards and did not have a positive appearance and positive enhancement to Chocolay Township, they could close him up and he would leave.

Mark Keegan, 2033 E. M-28, stated he got the notice in the mail, and being quite new to the area, met Jeff and walked through his park with him. He was impressed with what he had done thus far; it is clean, no gum wrapper, no cigarette butts. He and his wife both support his request for a permit to expand on what he has going there. He further stated, "I am sure his cabins would be top notch and an improvement to the Township."

John Smith, 2176 E M-28, stated he supported Jeff's efforts. It would fit in perfectly with the trails out there for cross-country skiers and snowmobiles. He stated he has lived there 13 years and never had a problem, they are real good neighbors. I would hope you would give what he needs to expand out there.

The Public Hearing was closed at 8:00 p.m.

MEETING CALLED TO ORDER AND ROLL CALL: The Regular Meeting was called to order at 8:01 p.m. It was noted that Ken Tabor and Steve Kinnunen were absent, as noted at the beginning of these minutes.

APPROVAL OF MEETING MINUTES:

The 09-14-98 meeting minutes of this commission were presented for approval.

Motion by Commissioner Sanders, supported by Commissioner Menhennick, to approve the 9-14-98 Chocolay Township Planning Commission Meeting Minutes as submitted.

Motion carried: 5-0

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

It was suggested that we switch the order of business as follows:

VIII NEW BUSINESS, A. Conditional Use Permit #51

VII OLD BUSINESS, B. Ad Hoc Trail Committee Update.

A. Intensive Agricultural Information

Motion by Commissioner Sanders, supported by Commissioner DeVooght, to approve the 10-12-98 meeting agenda as shown above.

Motion carried. 5-0

PUBLIC COMMENT:

Don Britton requested to address the Ad Hoc Trails Update at the time it is discussed.

NEW BUSINESS:

Chairperson LaPointe asked if there were any comments or questions from the Commissioners regarding Conditional Use Permit #51, Jeffrey Glass and Gitchee Gumees Campground.

Clarification was requested regarding where cabins will go. Response: I will space them out in ½ acre sites in the nice Norway Pine area and will clear the Jack Pine out. I will start out with 6, and then add the remaining four as I go along. The resort cabins are different than the 2 camping cabins; camp cabins will be closer to the service building where they can use the bathrooms and showers there.

Director Chandler also explained her understanding and MIs-understanding of the cabin situation and further noted that her recommendation would include the change from Park Models to Cabins.

Motion by Commissioner Emerson, supported by Commissioner Menhennick, that after careful consideration of the general standards as set forth in Section 701 of the Township Zoning Ordinance, the request by Jeffrey Glass for expansion of the existing campground and a resort designation with the development of cross country ski trails as Conditional Use Permit # 51 as submitted on the site plan, which includes 2 camping cabins, 1 Kids Clubhouse, 1 Storage Building, be granted with the following conditions:

1. The approval of the resort designation at this time is for six cabins with possible expansion of an additional four as shown on site plan submitted with application after MDEQ written approval of the septic system capacity for a total of ten cabins.
2. That the Zoning Administrator be given copies of the MDEQ written approval and Marquette County Health Department written approvals for all water and septic system hookups.
3. That the Zoning Administrator be given a copy of the site plan prepared by Robert Cambensy when completed, showing the cabins, expansions in the campground and the cross country ski trails.
4. That a Zoning Compliance Permit be obtained from the Chocolay Township Zoning Administrator prior to use.

Motion carried: 5-0

OLD BUSINESS:

Ad Hoc Trail Committee Update: Don Britton commented on his attendance at the Rails-to-Trails Conference held in Battle Creek, as well as some plans to work with the DNR and Wisconsin Central Railroad for future planning of that property.

A Petition has been received by the Trails Committee that was reviewed and it is almost certain that this Petition was formed by someone who does not have the current and most up-to-date information about the trails and Ivan Fende, Larry Gould and Don Britton will be looking for an opportunity to speak to each one on the list to clarify the issue.

The Trails Committee recommended that the Planning Commission send a recommendation to the Township Board that its former position regarding railroad grade remain non-motorized from the Visitor's Center to the Varvil Center.

Motion by Commissioner Menhennick, supported by Commissioner Sanders, to send to the Chocoley Township Board our former stand that the railroad grade remain non-motorized from the Visitor's Center to the Varvil Center.

Motion carried: 5-0

Other related information and discussion took place regarding trails, multi-use trails, the petition, Trail Grants, Michigan Trailways, and proposed Rail-Trails in the State.

Review of information on Intensive Agriculture:

Director Chandler reported on the information she enclosed in the meeting packet for this evening, which included discussions with Dr. Kurt J. Norgaard of MSU's Department of Agricultural Economics, and copies of some of his slides on the topic.

General discussion took place on the information from Director Chandler, information received from Mark Maki, Zoning Director, and what direction we want to take.

It was the **consensus of the group** that the two language proposals be sent to this Dr. Norgaard for his review and feedback.

Chairperson LaPointe also suggested that the Right to Farm Guidelines be included.

Planning Director's Report:

Director Chandler did not present a written report inasmuch as she just returned from attending a family funeral.

She did report that she went to the Land Division Act conference and there are still a lot of questions about how we are going to start dividing land.

Chandler also reported on the site plans for the First of America Bank property on the corner of US41 and Cherry Creek Road. Burger King is planning on putting in a convenience store and Burgher King restaurant. This will be on the next meeting's agenda.

Chandler also noted that the "Left Turn" light is not in place yet at this intersection but it was promised by October 15. John Smith noted he saw the equipment in the motel parking lot.

PUBLIC COMMENT: John Smith commented briefly on the complex and confusing situation regarding the Intensive Agriculture language and the potential for problems, i.e., is it a real problem or is it a neighborly dispute.

COMMISSIONER'S COMMENT:

Mike LaPointe asked for information from the last meeting regarding the Ford Road. Mark Maki gave an oral report on the background of the situation. In summary, the people have not made a formal request on their own yet.

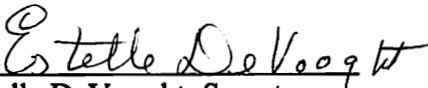

Commissioner Sanders suggested that we consider spending money for a consultant to come in and help us with the access problem. He believes there is money out there but we need someone who has time to start writing and researching grants that we might qualify for.

General discussion was heard on various topics amongst the commissioners.

INFORMATIONAL ITEMS AND CORRESPONDENCE DISTRIBUTED:

1. Chocolay Township Board Minutes of 9/21/98
2. Correspondence from MSU Extension re: Community Tourism Workshop
3. Correspondence from Cathy DeVooght re: Petition re: Snowmobile/Multi-use Trails.
4. Correspondence to Jim Woods, DNR, re: Land Acquisition.

The meeting was adjourned at 9:30 p.m.

Estelle DeVooght, Secretary

Karen L. Deel, Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, NOVEMBER 9, 1998**

PRESENT: Mike LaPointe, Estelle DeVooght, Bill Sanders, Gary Menhennick, Steve Kinnunen and Ken Tabor.

ABSENT: Scott Emerson

STAFF : Karen Chandler, Director of Planning and Research

OTHERS: John Hlinak

Mike LaPointe called the meeting to order at 7:30 p.m.

PUBLIC HEARINGS:

Karen Chandler, Director of Planning and Research, explained the rezoning request. The applicant, Mr. John Hlinak was present. The request is to rezone his parcel from R-4 (Mobile Home Park) to R-3 (Multi-family). Mr. Hlinak stated why he wanted the rezoning. He's looking for relief on his sewer rates and the Township Board will not take action until the zoning issue is resolved. It had been suggested he apply for the multi-family zoning district. He rents out rooms in the home and has for almost thirty years.

Mike LaPointe asked for further public comment. Hearing none the Public Hearing was closed at 7:40 p.m.

MEETING CALLED TO ORDER AND ROLL CALL:

The Regular Meeting was called to order at 7:40 p.m. It was noted that Scott Emerson was absent, as noted at the beginning of these minutes.

APPROVAL OF MEETING MINUTES:

The October 12, 1998 meeting minutes of this commission were presented for approval. Two typing errors were noted for correction.

Motion by Commissioner Sanders, supported by Commissioner DeVooght, to approve the October 12, 1998 Chocolay Township Planning Commission Meeting minutes as corrected.

Motion carried: 6-0

APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA:

It was suggested that we switch the order of business as follows:

VIII NEW BUSINESS A. Rezoning request # 103, to before VII OLD BUSINESS.

Motion by Commissioner Sanders, supported by Commissioner DeVooght, to approve the November 9, 1998 meeting agenda as shown above.

Motion carried. 6-0

PUBLIC COMMENT:

No public comment.

NEW BUSINESS:

Discuss Rezoning Request #103 - Applicant John Hlinak, Property Parcel from R-4 (Mobile Home Parks) to R-3 (Multiple Family). Mr. Hlinak is not allowed multi-family use under the current zoning classification. Correspondence was sent to Mr. Hlinak suggesting he talk with the Catholic Church and include their properties to make for a contiguous R-3 zoning district otherwise to rezone just Mr. Hlinak's would create a small spot zoning within the R-4 district.

Questions were raised on the setback requirements when a district is changed. And the setback requirements for adjoining districts, i.e. the Church property and how it would be affected.

Questions on the road came up. There has been a court case involving this issue. John Hlinak has legal ingress and egress from his parcel by easement from Richard Hahka. There was a question on whether this has been an approved private road. Chandler will check the past records.

Bill Sanders is interested in a site plan for this parcel. A rezoning to R-3 may allow for more buildings on the site. All setbacks and surrounding parcels should be reviewed for compatibility.

Commissioners agreed that they wanted the following questions answered for the December 14 meeting

1. How do the existing roads relate to frontage for this parcel?
2. Have these roads been designated as private roads or are they a part of the Mobile Home Park plan?
3. How does the non-conforming use section relate to this parcel if Mr. Hlinak has been renting rooms for almost thirty years and has been zoned into different districts over the years?
4. Is a site plan for the current parcel and the buildings required?

Moved by Commissioner Kinnunen and supported by Commissioner Sanders that this rezoning request be tabled until a site plan is received and all questions have been answered.

Motion carried 6-0.

OLD BUSINESS:

Review of information on Intensive Agriculture: Chandler received information from Patricia Norris, Associate Professor with the Michigan State University Extension. Ms. Norris would come to a Planning Commission meeting and would invite Kevin Kirk with the Michigan Farm Bureau. A discussion could take place with both sides being presented.

It was suggested that a lot of time has been spent on this issue and some commissioners would like to see the issued tabled. Just keep a file on all information received and discussed to date for future use.

Mike LaPointe asked that Mark Maki's comments be sent to Ms. Norris for review and recommendation and that her information be sent to West Branch Township for their information.

NEW BUSINESS:

Discuss Attorney's Opinion on Motion Language for Conditional Use Permit. Discussed the letter received from Township Attorney, Mike Summers. Have we had problems with these motions in the past? Chandler indicated that there has not been a problem and that the motion had been changed after Zoning Administrator Mark Maki asked that the Planning Commission consider include the Standards in the motion for approval or denial.

To make a motion directing future Planning Commission's on a motion to be passed ties up the Planning Commission's ability to place individual decision making into each situation. Each conditional use permit has unique issues. No further action was taken on this issue.

PLANNING DIRECTOR'S REPORT:

Chandler reported that the DNR grant for multi-use trails will be turned down. We will not be able to purchase the necessary properties. A call was received from Representative Stupak's office on our requirements for mining & mineral extraction within 3,000 feet of a public park. This requirement became an issue for a property owner near the proposed trail system. A petition regarding snowmobiling and multi-use trails was received at the Township Office and the Planning Commission received it in last month's packet.

Chandler attended an ESRI user-group meeting in Marquette. Several people from the US Forestry Departments were there along with County people. It was a good session. Marquette County and the Lake Superior Community Partnership also held a meeting to discuss uses and funding for the GIS program in Marquette County. There is a lot of interest, but funding the project maybe a problem. The County's staff is looking for possible grants.

PUBLIC COMMENT:

No public comment.

COMMISSIONER'S COMMENT:

We should look into the 3,000 foot requirement in the Mining & Mineral Extraction section of the zoning ordinance. In some cases the 3,000 feet maybe too much and in others it may not be enough.

Copies of the Mining & Mineral Extraction section of the zoning ordinance will be included in the next Planning Commission packet for review and discussion.

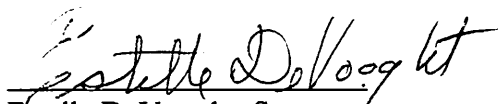

In reviewing the minutes from Marquette Township, it was suggested that we number our pages in a similar fashion.

The new light on the flag is not glare free. We really should look at a lighting ordinance. There are lighting requirements in many communities and they specify which lights to use and which lights not to use. The lighting at the Welcome Center is one example of good lighting. All the light is faced downward and no watts are wasted in an upward direction.

INFORMATIONAL ITEMS AND CORRESPONDENCE DISTRIBUTED:

1. Chocolay Township Board minutes of 10/05/98 & 10/19/98
2. Chocolay Township ZBA minutes of 09/24/98
3. Marquette Township Planning Commission minutes of 8/12/98
4. Correspondence to - Jim Woods, DNR - on DNR Grant

Chairperson Mike LaPointe declared the meeting adjourned at 9:15 p.m.

Estelle DeVooght, Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, DECEMBER 14, 1998
7:30 PM**

PRESENT: Mike LaPointe, Estelle DeVooght, Scott Emerson, Bill Sanders, Gary Menhennick, and Ken Tabor.

ABSENT: Steve Kinnunen

STAFF: Karen Chandler, Director of Planning and Research

OTHERS: Karen L. Deel, Recording Secretary, Mark Maki, Don Britton, Bob & Sharon Roshak, George Niemi, Bill Hall, Ava & Ralph Bennett.

Mike LaPointe called the Public Hearing meeting to order at 7:30 p.m.

PUBLIC HEARINGS:

Planning Director Chandler reviewed the applicant's (Silver Bullet Management Corporation) request that the Chocolay Township Planning Commission (CTPC) consider granting a conditional use permit to allow for a combination (co-brand) fast food restaurant and convenience/fuel store in one building in Section 7, T47N, R24W, located at the now vacant First of America Bank building at the corner of U.S. 41 and Cherry Creek Road.

Chandler further noted that one other businessman stopped in Friday and said he had no problems with the proposal. No negative comments have been received.

Bill Hall, President of Silver Bullet Management, stated "we are a restaurant management group out of Wausau, WI. We have 30 Burger King stores throughout the Upper Peninsula of Michigan and north central Wisconsin. The advantage of co-branding is both operators are able to take one piece of property and develop it in combination with each other and co-exist on the same piece of property." Mr. Hall circulated a picture of an operation similar to what they are proposing for the current site. He further stated, "Silver Bullet does not get involved in the gas station. We run the Burger King and the gas partner runs their side. We do not have a gas partner identified as yet for this site. We propose this Burger King to seat 90 customers, as opposed to the one in Marquette that seats 145 customers, and we will not have a Child Play Room here. We propose to remove the current building and build new on the site."

Chairperson LaPointe asked for Public Comment and none was forthcoming, so this portion of the meeting was closed.

CALL TO ORDER:

Chairperson LaPointe then called the Regular Meeting of the CTPC to order at 7:40 p.m. and noted that all were present except Steve Kinnunen, as noted in attendance above.

APPROVAL OF MINUTES:

Motion by Commissioner Sanders, supported by Commissioner Tabor, to approve the CTPC Meeting Minutes of 11/9/98 as printed.

MOTION CARRIED. Vote was unanimous.

APPROVAL OF AGENDA:

Motion by Commissioner Emerson, supported by Commissioner Sanders, to change the order of the agenda as follows:

- #1. VII.B. Discuss Recommendation of Ad Hoc Committee on Trail Development
- #2. VIII.A. Discuss Conditional Use Permit #52, Silver Bullet Management Corp.
- #3. VII.C. Review Mining and Mineral Extraction Section of Zoning Ordinance.
- #4. VII.A. Discuss Rezoning #103 – Hlinak Property from R-4 to R-3.
- #5. VIII.B. Discuss 1998 Meeting Dates Schedule.

MOTION CARRIED. Vote was unanimous.

CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, DECEMBER 14, 1998
7:30 PM

PRESENT: Mike LaPointe, Estelle DeVooght, Scott Emerson, Bill Sanders, Gary Menhennick, and Ken Tabor.

ABSENT: Steve Kinnunen

STAFF : Karen Chandler, Director of Planning and Research

OTHERS: Karen L. Deel, Recording Secretary, Mark Maki, Don Britton, Bob & Sharon Roshak, George Niemi, Bill Hall, Ava & Ralph Bennett.

Mike LaPointe called the Public Hearing meeting to order at 7:30 p.m.

PUBLIC HEARINGS:

Planning Director Chandler reviewed the applicant's (Silver Bullet Management Corporation) request that the Chocolay Township Planning Commission (CTPC) consider granting a conditional use permit to allow for a combination (co-brand) fast food restaurant and convenience/fuel store in one building in Section 7, T47N, R24W, located at the now vacant First of America Bank building at the corner of U.S. 41 and Cherry Creek Road.

Chandler further noted that one other businessman stopped in Friday and said he had no problems with the proposal. No negative comments have been received.

Bill Hall, President of Silver Bullet Management, stated "we are a restaurant management group out of Wausau, WI. CALL TO ORDER:

Chairperson LaPointe then called the Regular Meeting of the CTPC to order at 7:40 p.m. and noted that all were present except Steve Kinnunen, as noted in attendance above.

APPROVAL OF MINUTES:

Motion by Commissioner Sanders, supported by Commissioner Tabor, to approve the CTPC Meeting Minutes of 11/9/98 as printed.

MOTION CARRIED. Vote was unanimous.

APPROVAL OF AGENDA:

Motion by Commissioner Emerson, supported by Commissioner Sanders, to change the order of the agenda as follows:

- #1. VII.B. Discuss Recommendation of Ad Hoc Committee on Trail Development
- #2. VIII.A. Discuss Conditional Use Permit #52, Silver Bullet Management Corp.
- #3. VII.C. Review Mining and Mineral Extraction Section of Zoning Ordinance.
- #4. VII.A. Discuss Rezoning #103 – Hlinak Property from R-4 to R-3.
- #5. VIII.B. Discuss 1998 Meeting Dates Schedule.

MOTION CARRIED. Vote was unanimous.

PUBLIC COMMENT:

Bob & Sharon Roshak both addressed the commissioners regarding the Trail Development, its history, and the current changes being proposed, indicating that this Planning Commission and the Chocolay Township Board had voted that these trails would be "non-motorized." If the plans change as development occurs, will there be additional opportunity for public input?

Ava & Ralph Bennett, 205 Riverland, also addressed the commissioners regarding the Trail Development and the lengthy, changing process that has taken place, as well as their opinion about the Commissioners changing their position on the issue, and that with future elections, we may have the opportunity to elect different Board members to handle this issue.

A lengthy open discussion followed with all public parties and commissioners about the Trail Development Committee, their efforts, their stumbling blocks, their changes in direction, their proposals for alternate routes, their contacts with the various entities involved, i.e., Ameritech, Wisconsin Central RR, DNR, MDOT, residential property owners, locations of the trails, Varvil Center, noise abatement efforts, purpose and function of the trails, petitions against the proposal, law enforcement of snowmobilers, funding for law enforcement for same, DNR maps reflecting trails that really do not exist, and the need to designate someone to talk to the four parties that are so vehemently against any trail development, attorney involvement, law suits, mineral rights, and the necessary health, safety and welfare of the people in Chocolay Township, etc. etc.

RECOMMENDATION FROM AD HOC COMMITTEE ON TRAIL DEVELOPMENT.

The above discussion was heard regarding the Committee recommendation.

Motion by Commissioner Sanders, supported by Commissioner Menhennick, that the Chocolay Township Planning Commission recommends the following:

To ask the Chocolay Township Board to start discussions with the DNR for

1. to find out how long it will take to purchase the Wisconsin Central grade.
2. to encourage the DNR to look at the idea of continued use of the bike path through the business district with buffers and landscaping, and alternate routes to avoid residential districts.
3. to approach funding sources to improve the M-28/Chocolay River bridge.
4. to encourage more enforcement of existing snowmobile laws.
5. to encourage non-motorized use during the summer months. No ORV use on the trail.

MOTION CARRIED. Vote was unanimous.

Chairperson LaPointe extended a special "thank you" to the Trails Committee who have worked very hard on finding alternatives.

CONDITIONAL USE PERMIT #52 – SILVER BULLET MGMT CORP.

Commissioner Emerson expressed his concerns about the building image and asked if it could be anything else? Bill Hall noted there was one other possibility and showed the Commissioners a second picture.

Emerson further commented on his concern for additional green space, including suggestions for what kind of trees are favorable for the area and what he preferred. Emerson's comments included his review of the site plan, and what he liked and did not like. He further suggested no overhead lights but the utilization of downward lights, and suggested that Mr. Hall review the other sites like Mr. Movies, the Medical Center, etc.

Commissioner Menhennick commented that while he doesn't disagree with Commissioner Emerson, he would like to see consideration of additional shrubs and bushes included in the landscape, and power lines to be underground.

Bill Hall commented, "I think we could do what you want through a landscape plan; I am sure we could come up with something."

Commissioner DeVooght inquired how the existing building compares with the proposed building in terms of size. Hall responded the new building would be 1 and ½ times larger.

Chairperson LaPointe instructed Director Chandler to share the Townships Strategic Plan with Silver Bullet Management for use in their considerations in terms of green space, etc.

Mr. Hall commented he can not start a site plan process, or landscaping process, or even get a gas station partner until he has the Planning Commission's permission to go ahead.

Motion by Commissioner Sanders, supported by Commissioner Tabor, that after careful consideration of all the general standards as set forth in Section 701 of the Township Zoning Ordinance and finding the applicant is in compliance with these standards, the request by Silver Bullet Management Corporation as Conditional Use Permit #52 as submitted on the application be granted with the following conditions:

1. A Site Plan shall be submitted for Planning Commission review and approval.
2. Silver Bullet Management be encouraged to keep the green space, and further be encouraged to dedicate a bike path along the westerly edge of the property.
3. A Zoning Compliance Permit be obtained from the Chocoley Township Zoning Administrator prior to construction.

Motion by Commissioner Emerson, supported by Commissioner Menhennick, to amend the motion by adding to #2 the following language... "and finally to consider the Commercial Landscaping section of the Chocoley Township's Strategic Plan of 1995 in their decision-making."

MOTION CARRIED. Vote on the amendment was unanimous.

MOTION CARRIED. Vote on the main motion was unanimous.

REVIEW MINING AND MINERAL EXTRACTION SECTION OF ZONING ORDINANCE:

Chairperson LaPointe reviewed the background leading to this discussion and the fact that the Trails Committee requesting this review in light of several residents protesting the Trail Committee's efforts and wanting to protect their property and mineral rights. The Mining and Mineral Extraction Sections of the Zoning Ordinance, along with two letters received from mining companies, and copies of sample ordinances from other municipalities were distributed for review. It has been suggested that a sub-committee be formed to look at the distance requirements and review the sand and gravel permitting process.

It had been suggested that those residents protesting the trail based on protecting their mineral rights were operating with erroneous information.

Lee Blondeau commented that the definition of "public park" really needs to be clarified, and the 3,000 foot requirement seems excessive. Further, he commented that if someone wants to sell some sand, topsoil, or gravel, does that constitute a mining operation? Does it make a difference if the mining site is active or inactive?

Does the 3,000 feet mean the distance to the actual mining operation site or to the mining site property boundary?

Director Chandler recalled that the distance was determined based on the noise factor, i.e., crushing rock, etc.

A sub-committee was formed to look at these issues, as follows:

Ken Tabor, Bill Sanders, Karen Chandler, Lee Blondeau, and Gary Menhennick

DISCUSSION OF REZONING #103 – HLINAK PROPERTY – R-4 TO R-3

Chairperson LaPointe noted that the applicant John Hlinak was not present and that this agenda item should not be addressed without his presence.

A general discussion followed with input from Director Chandler, Zoning Administrator Maki and Commissioners as to what the issues were, what has been done to date, and what can be done in the future.

Motion by Commissioner Menhennick, supported by Commissioner Emerson, to table Rezoning #103 until such time that the surrounding properties are included in the rezoning request to eliminate a potential spot zone.

MOTION CARRIED. Vote was unanimous.

DISCUSS/SET MEETING DATES SCHEDULE FOR 1999:

Director Chandler submitted a proposed list of meeting dates for the CTPC for 1999. May and June presented problems in that Chandler will be in classes in May and June on those particular Mondays. An alternate date of the second Tuesday was suggested.

Motion by Commissioner Emerson, supported by Commissioner Sanders that the Planning Commission set their meeting dates as follows:

January 11	April 12	July 12	October 11
February 8	May 11	August 9	November 8
March 8	June 8	September 13	December 13

MOTION CARRIED. Vote was unanimous.

PLANNING DIRECTOR'S REPORT:

Regarding the request for the CTPC Meeting Packets to be numbered, a brief discussion was heard, followed by confirmation of their request to number the pages for easier navigation during meetings.

Director Chandler submitted a printed report, as follows:

1. GIS coverage for 1999. What would the Commissioners want?
After a brief discussion, it was the consensus of the Commissioners that this decision really needs to be made by staff. Related to this, discussion was heard on Marquette County's efforts in computerizing information and how it connected to Chocolay Township's needs and visa versa. Chandler responded that through the Lake Superior Partnership, there are avenues where we can connect and share information and attend meetings to learn more. In any event, the plans for next year's needs was deferred to the staff for their consideration and prioritizing.
2. Leroy Wahlstrom has applied to re-zone the parcel on M-28 currently zoned R-3, to be changed to C-2. Details will be presented at the next month's meeting.

PUBLIC COMMENT:

Mark Maki, 405 Riverside, Marquette commented as follows: Scott's (Emerson) suggestion was the best, for inclusion to the Mining & Mineral Section 404 at B 2 add the letter (d) trails.

I did send a memo on snowmobile trails... in the meantime we have a trail running through the township that is a trail. DNR won't admit it is a trail, yet they put up signs and people are using it. It appears on maps that say they are printed in cooperation with the DNR. At some point it will become an issue. It will be in violation of the zoning ordinance. It is one continuous circle.

The DNR does what they want, even though they said "they would not run it through, if the Township opposed it." It does not do much for their reputation to do this.

Commissioner Menhennick commented in defense of the DNR and sited the efforts out at Little Presque Isle and the cabins they built there. They did listen to the people in that case.

It was suggested that the meeting minutes be researched for the above quoted language by the DNR.

Discussion followed again about trail alternatives, land authorization agreements, Ameritech, WI Central RR, and related issues.

COMMISSIONER'S COMMENTS:

A general discussion was heard on topics previously discussed. No new items were added.

INFORMATIONAL ITEMS AND CORRESPONDENCE:

- A. Chocolay Township Board minutes of 11/02/98
- B. Chocolay Township ZBA minutes of 10/20/98 & 11/05/98

CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, JANUARY 11, 1999
7:30 PM

PRESENT: Commissioners Estelle DeVooght, Scott Emerson, Gary Menhennick, Bill Sanders, and Ken Tabor.

ABSENT: Commissioners Steve Kinnunen, Mike LaPointe

STAFF: Karen Chandler, Director of Planning and Research

OTHERS: Karen L. Deel, Recording Secretary, Mark Maki, Don Britton, Bob & Sharon Rochak, Lee Blondeau, John Hlinak, Kathy Garrow.

Commissioner Sanders called the Public Hearing meeting to order at 7:30 p.m.

PUBLIC HEARING: Rezoning Request #104, LeRoy E. Wahlstrom, from R-3 to C-2.

Planning Director Chandler reviewed the applicant's (LeRoy E. Wahlstrom) petition that the Chocolay Township Planning Commission (CTPC) consider amending the Chocolay Township Zoning Ordinance to **rezone the following described parcel from the current zoning classification of R-3 to C-2:**

Part of the NE 1/4 of Section 7 T47N R24W, Chocolay Township, Marquette County, MI known as lots 9-15 of Maude B. Warren's unrecorded plat, and more particularly described as commencing at the NE corner of Section 7; thence S00°39'10"W, 1327.77' (recorded as 1327.6') along the E line of Section 7 to the PoB and N 1/16 corner; thence continuing S00°39'10"W, 279.42' (recorded as 278.4') along the E Section line to the N'ly Right-of-way line of Highway M-28 (200' R/W February 1997); thence S82°11'45"W, 380.74' along the N'ly Right-of-Way line of Highway M-28 to a point of Tangency; thence NW'ly, 302.51' along the arc of a 855.37' radius Right-of-Way curve to the right, having a delta angel of 20°15'47" and a chord bearing N87°40'24"W, 300.94' to the SW corner of Lot 15 Maude B. Warren's unrecorded plat; thence N12°22'08"E, 314.14' along the W line of said Lot 15 to the N 1/16 line of Section 7; thence continuing N12°22'08"E, 22.72' along the W line of Lot 15 to the NW corner of Lot 15; thence S89°02'40"E, 609.02' (recorded as 609.4') along the N line of Maude B. Warren's unrecorded plat to the PoB. Parcel contains 4.77 Acres and is located near the NE corner of the M-28 and US 41.

It is currently multiple family and they are asking for it to be commercial. Chandler noted they received a call from C. Lindstrom of MDOT inquiring what the proposed development might be. At this point we don't have any information on any development there. The Holiday Station District Manager stopped by and they are in favor of the rezoning. They also wanted to know what development might be forthcoming. We also received a letter from Togo's owners, Joe and Ann Fountain, which Commissioner DeVooght read into the record.

Mark Maki, 405 Riverside Road, pointed out a couple things on the overhead map, and reviewed some of the history of the area. He noted all the parcels in the area that are currently zoned commercial and the problems getting in and out of their properties. He noted it would be nice to have a specific plan that included curb cuts, traffic flow, etc.

Kathy Garrow from Togo's commented that from their standpoint, they really do need access. "I am really starting to get concerned about an access with so much traffic. We tried so hard to talk to Wahlstrom's to give us access. I don't want to see anybody get hurt."

Don Britton commented he had come out of that driveway several times and to trying to make a left turn is impossible.

Lee Blondeau commented he was in favor of the request. But we are going to have to do something with the traffic.

The Public Hearing was closed at 7:40 p.m.

The Regular Meeting was then called to order at 7:40 PM. Commissioner Sanders chaired the meeting in the absence of Commissioner LaPointe. Commissioner Sander's noted that Commissioner Kinnunen was also absent.

APPROVAL OF MEETING MINUTES:

Commissioner DeVooght moved Commissioner Tabor seconded to approve the Regular Meeting Minutes of the Chocolay Township Planning Commission, dated 12/14/98, as submitted. Vote was unanimous.

APPROVAL OF AGENDA:

Commissioner Sanders suggested that the agenda be re-organized in the following order:
VII.A.= 1. VIII.A.=2. VII.B.=3. VII.C.=4. VIII.B.=5.

Commissioner DeVooght moved Commissioner Tabor seconded to approve the revised agenda as suggested. Vote was unanimous.

PUBLIC COMMENT: Mark Maki, 405 Riverside Drive, read a letter from Mike Davison, 300 Partridge Bay, with property at 146 Lakewood Lane, Marquette, regarding the proposed snowmobile trail. In the letter Mr. Davison makes suggestions to Supervisor Ivan Fende that he write a letter to key people within Ameritech, including the following information:

1. A brief synopsis of the citizens' overwhelming support for the "Rails-To-Trails" project, and their strong objection to a "snowmobile trail" running through neighborhood residential areas, because of speed, noise, alcohol, safety, liability, and inability to police violators.
2. A map of the township to include the passage of the railroad grade through the township. With areas of deed restrictions highlighted.
3. A request for Ameritech to be a good corporate citizen by placing the deed restrictions on this small segment of land for 100 years. The township could offer to cover the associated nominal cost for the deed change.

Mr. Davison further included a list of Ameritech board members, with bibliographies, so that you can select individuals who may be sympathetic to our concerns, for letters and possible phone calls.

Mark Maki commented further about this whole situation and inquired why representatives of the Township are saying one thing here and other things at meetings outside the area.

Sharon Rochak said her understanding was that the Railroad Grade would not be groomed without a permit and it was groomed last Friday, and asked the Commission to look into that.

REZONING REQUEST – HLINAK – R-4 TO R-3.

Planning Director Chandler reviewed the materials included in the meeting packet regarding this request. At the last meeting, Chandler was instructed to write Mr. Hlinak about the Commission's action to table the request until such time that the surrounding properties are included in the rezoning request to eliminate a potential spot zone. A letter has been received from Mr. Hlinak's attorney advising us that Mr. Hlinak does not plan to add any additional properties to his petition. A letter was also received from one of the neighbors requesting that we table this request until the easement situation can be resolved. Chandler also commented that within the requirements of the Zoning Ordinance, the future potential of this parcel if rezoned to multiple family is about 17 apartments at 600 square feet each. And that would be just one floor.

John Hlinak, 234 Silver Creek Road, explained the history of the situation about the easements, both the 16' and the 4'. Commissioner Sanders asked if we have a recorded copy of the easement? We have a copy of the 16' easement.

We are looking at a multiple family versus single family. Hahka's are not interested in multiple family use of their easement. Commissioner DeVooght commented that "until Mr. Hlinak comes to terms with Hahka's, we should not rezone it.

Commissioner Menhennick commented he thought there might be some confusion that came when Hlinak sold the trailer park and didn't allow himself entry and exit.

Mr. Hlinak commented that the church was interested in purchasing some property from him and building a rectory on it but as of today he has not had any definite word on it, but if that

happened, then the entry and exit problem would be solved. He is also working with the Church for an easement if they're not interested in purchasing the parcel.

A motion was made by Commissioner Menhennick and supported by Commissioner DeVooght to table this request for 90 days to allow Mr. John Hlinak time to pursue the issue with the people from the church about an easement or possible purchase of his parcel. Vote was unanimous.

REZONING REQUEST #104 – LeRoy Wahlstrom requesting a rezoning of a parcel on the Northeast Corner of M-28 from R-3 to C-2.

It was noted that no representatives were in attendance on behalf of the Wahlstrom's. Commissioner Sanders and Menhennick commented they had no problem with the zoning request made by Wahlstrom's. Commissioner Emerson said he would not be in favor of this request unless there is some way we could have a public hearing which would be better for the businesses in the area. There was strong feeling expressed that Wahlstrom's or a representative should be here to participate in the discussion.

Commissioner Menhennick stated we should set up a meeting with MDOT regarding the driveway access issue. This is so important to the business district. They may not realize how important it is.

Motion by Commission DeVooght, supported by Commissioner Sanders that we deny the rezoning request. AYES: DeVooght. NAYS: Menhennick, Emerson, Sanders and Tabor.

Commissioner Sanders noted that if you apply the Ordinance to this request, it is entirely appropriate. The whole access thing has to be addressed at some time, but it is not a factor in approving or denying this current request.

Motion by Commissioner Menhennick, supported by Commissioner Tabor, that the Chocolay Township Planning Commission recommend to the Chocolay Township Board that the rezoning request by LeRoy E. Wahlstrom for the following parcel be approved: Part of the NE 1/4 of Section 7 T47N R24W, Chocolay Township, Marquette County, MI known as lots 9-15 of Maude B. Warren's unrecorded plat, and more particularly described as commencing at the NE corner of Section 7; thence S00°39'10"W, 1327.77' (recorded as 1327.6') along the E line of Section 7 to the PoB and N 1/16 corner; thence continuing S00°39'10"W, 279.42' (recorded as 278.4') along the E Section line to the N'ly Right-of-way line of Highway M-28 (200' R/W February 1997); thence S82°11'45"W, 380.74' along the N'ly Right-of-Way line of Highway M-28 to a point of Tangency; thence NW'ly, 302.51' along the arc of a 855.37' radius Right-of-Way curve to the right, having a delta angel of 20°15'47" and a chord bearing N87°40'24"W, 300.94' to the SW corner of Lot 15 Maude B. Warren's unrecorded plat; thence N12°22'08"E, 314.14' along the W line of said Lot 15 to the N 1/16 line of Section 7; thence continuing N12°22'08"E, 22.72' along the W line of Lot 15 to the NW corner of Lot 15; thence S89°02'40"E, 609.02' (recorded as 609.4') along the N line of Maude B. Warren's unrecorded plat to the PoB. Parcel contains 4.77 Acres and is located near the NE corner of the M-28 and US 41. MOTION CARRIED.

MINING AND MINERAL EXTRACTION SECTION OF ZONING ORDINANCE.

Planning Director Chandler's memo to the Planning Commission was reviewed and it included a recommendation for language change in Section 404. B. 1. And 404.B.2. This was developed in response to the question of the 3,000 foot requirement currently in the language as the distance between mining operations and hospitals, churches, schools, public parks or cemeteries. The question arose within discussions of the definition of a public park and its application to recreational trails. After the committee reviewed the issue, it became obvious that the distance involved in an "impact area" could vary depending upon what kind of operation is taking place, i.e., a gravel and rock crushing operation would have a larger "impact area" than a sand or topsoil "impact area." So the committee is saying "Determine your impact area" first, and while 1,000 ft is presumed to be an appropriate distance, it may be increased or decreased according to the specific reason for the site request. Discussion followed.

Mark Maki submitted a memo on this topic, asking if anyone could tell why the original setback was established at 3,000 feet in 1992 and why is it being considered now?

It was explained that if you took a map and drew a 3,000 circle around each church, school, public park and cemetery, and now the trails, there would not be much opportunity at all in Chocoley Township for a mining or mineral extraction operation, and the person raising the question, may have an interest in selling fill dirt when the highway is being worked on next summer. The current 3,000' restriction from a trail would not allow this to happen for Cathy DeVooght.

Commissioner Emerson noted that the trails issue is really tangential to the reason we brought this up in the first place. The first question was about the definition of a public park.

It was the consensus of the Commissioners that the language be referred back to its Committee for language improvement and that Planning Director Chandler investigate this further with the County Road Commission and MDOT.

ZONING ADMINISTRATOR'S REQUEST ON HADLEY PARCEL.

A memo from Mark Maki, Zoning Administrator, regarding the Hadley Parcel was reviewed. Mr. Maki noted this is not a big issue but it's a piece of unfinished business in that the entire area was zoned Open Space at one time and was changed to RR-1 and RR-2 in the 1970's. This parcel (3 acres) was probably overlooked by the Township as it sits alone surrounded by State land. His memo suggests that the Township become the sponsor to clear up the issue by adding this request to a planned public hearing.

Discussion followed. Commissioner Emerson stated he thought we were going to contact the owner for input. Commissioner Menhennick stated if we get a current letter from the owner, we will consider it further. Mr. Maki agreed to contact the current landowner on the matter.

SECTION 300: Height Definition and Accessory Building Height.

Planning Director Chandler presented information regarding a recent request for a Height Variance in building a garage. Our Height is 14 ft, Marquette is 15', as well as Marquette Township is 15'. We have only had one other request for same. This has been the only request since we changed the ordinance in April of 1996. This Fisher Request is on the Township Board agenda as an informational item for their meeting on 1/12/99. Chandler's recommendation is to leave the height requirement alone unless otherwise directed by the Township Board to do so.

Mark Maki addressed the issue and noted that you can build a garage like the one proposed, anywhere in the U.P. but in Chocoley Township. He felt the language should be changed, including the language relevant to the Fire Department access. Mark said he has tried for 4 years to get the height definition changes. We've come a long way since the amendment in 1996, but we are still not there.

No action was taken on the issue.

PLANNING DIRECTOR'S REPORT:

Planning Director Chandler gave an oral report.

The Township Board is going to be looking at an issue tomorrow night about the formation of a Recreation Committee. The Recreation Plan suggests that a Committee be formed. It was suggested by DPW that the Committee consist of 5 members: 1 each from the Planning Commission (Mike LaPointe), Engineering Field (Carroll Hicks), Baseball Association (?), Soccer Association (?) and DPW (Larry Gould). Chandler did ask Ivan Fende to include someone from the Trails Committee and that was denied. This group would also be applying for grants. Discussion followed.

It was the consensus of the Planning Commission Members that Planning Director Chandler write a letter to the Township Board from the Planning Commission with our recommendation that they consider a 7 member committee, and that they advertise these Committee Membership Positions to the public.

The Planning Commission further instructed Planning Director Chandler to write a letter to the Ameritech people as outlined in Davison's letter regarding the snowmobile trails etc.

The Planning Commission further instructed Planning Director Chandler to write to the Township Board asking them to pursue grant funds and to contract with a Planning Consultant to develop alternate highway access in the vicinity of M-28 and U.S.-41 intersection, and that it include lighting.

Chandler also reported that she tried to contact Randy Van Port Fleet at the Escanaba office of MDOT. He will be out of the office until January 19. He is working on the State guidelines for snowmobile traffic along state highways. We should plan to have a meeting with Mr. Van Port Fleet sometime in the near future.

CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, FEBRUARY 8, 1999
7:30 PM

PRESENT: Commissioners Estelle DeVooght, Scott Emerson, Steve Kinnunen, Mike LaPointe, Gary Menhennick, Bill Sanders, and Ken Tabor.

ABSENT: None.

STAFF : Karen Chandler, Director of Planning and Research

OTHERS: Karen L. Deel, Recording Secretary, Mark Maki, Don Britton, Bob & Sharon Roshak, Lee Blondeau, Steven Pietila, Ralph & Ana Bennett, John G. Smith

PUBLIC HEARINGS – NONE.

MEETING CALLED TO ORDER:

Chairman LaPointe called the regular meeting of the Chocoday Township Planning Commission to order at 7:30 p.m.

Roll call was conducted and all Commissioners are noted as in attendance.

APPROVAL OF MEETING MINUTES:

The meeting minutes of the regular meeting of the Chocoday Township Planning Commission, dated January 9, 1999 were presented for approval. Commissioner Menhennick requested one change to be made on Page 5., paragraph 3, line 4. "question, may have an interest..."

It was moved by Commissioner Sanders, supported by Commissioner Menhennick, that the January 9, 1999 meeting minutes be accepted, as modified. Motion carried.

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

One item was added to the agenda as VIII. B. Overlay Zone/Snowmobile Trails.

It was moved by Commissioner DeVooght, supported by Commissioner Menhennick, to adopt the agenda with the one addition. Motion carried.

PUBLIC COMMENT:

Planning Director Chandler stated, "There has been a Conditional Use Permit Request brought to the office by Trails Inc. It will be coming up for Public Hearing at the next meeting. The Permit does not have a map with it for the Overlay Zone but it goes from the Casino east to the Old County Road BA and down to Camp Four Road. We would not place an overlay on the County Road. It will be running East.

OLD BUSINESS: Discussion on Mining and Mineral Extraction Section of Zoning

Ordinance: Chairman LaPointe asked the Committee (Bill Sanders, Gary Menhennick, Ken Tabor, Lee Blondeau, and Karen Chandler) if they were ready to propose and address the requested language re-write for Section 404, Mining and Mineral Extractions. As of the meeting time, no re-write language was available, but the committee is going to meet again and complete the charge. A brief discussion followed about whether the 3,000 ft distance limit should be reduced to 1,000 ft, or 500 ft., or 100 ft, and would it affect snowmobile trails, gas lines or should it be flexible? Director Chandler reported she spoke to Andy Sikkema at MDOT and Mike Etelamaki at the Marquette County Road Commission and they have no problem with 500 ft. **No action taken at this time.**

OLD BUSINESS: Discuss Creation of Recreation Committee: Chairman LaPointe opened the meeting to discussion this topic and asked Larry Gould, DPW, to explain and clarify his rationale for a 4-man committee. Gould said he was looking at a small, 4-man working committee with quarterly meetings. Maybe initially, it would take a meeting a month, or every other month, to get established and organized. Gould reported they would review the CTPC's Strategic Plan and physically visit the recreation areas as soon as whether permitted. He explained further, that he envisioned the Committee doing things beyond what is specified in the Plan but to be an ongoing working committee. Gould felt it was important to get members from the two heaviest user groups (soccer and ball) involved. They are using the recreation areas every night and on weekends, they give of their time and money for this purpose. So, membership would be 2 Public Officials and 2 User Groups Members. This would be a working

committee, not a decision-making committee, and they would make recommendations to the Planning Commission which ultimately would go to the Township Board for action. This was presented to the Township Board and they referred it back to the Planning Commission for further review and consideration after receiving a memo from the Planning Commission recommending a 7-member committee.

Commissioners asked questions of Mr. Gould and offered their input and rationale for a larger committee as follows: Two additional members, at large, were proposed, with advertising for member interest in the community. It was pointed out that the Strategic Plan requires "grass roots" input from the community, and if we involve the community in the planning stages of activities, this would respond to that need.

Questions and answers followed, with an understanding being developed that the Recreation Committee would be an ongoing committee that would work with Mr. Gould in the formation of recommendations to the Planning Commission regarding recreation activities, development, etc. etc. How would the Trails Committee fit in? It was Gould's opinion that the Trails Committee was for trails and would not continue after being done with their project. Menhennick noted that his feelings about the Trails Committee was focused more on snowmobile trails and the Recreation Committee would be a multi-purpose effort, and he just wants to be sure that the two are networked together. The Chairman of the Trails Committee felt their work would be ongoing and might include other types of trails. How did you [Gould] decide you should have someone from the Soccer and Ball Clubs? Gould responded it was because of their active involvement to date and their commitment of time and resources.

It was the consensus of the Commissioners that the Recreation Committee should have 7 members, with two of them being filled by advertising in the community for membership, and that the Recreation Committee would make recommendations to the Planning Commission, which would then be considered for action by the Township Board.

NEW BUSINESS: Discuss Proposed 1999 Recreation Grant Application: Following the above discussion, Mr. Gould presented information about the Grant Application Process with the DNR and discussed time lines, priorities, and projects. In the information handouts were 10 items that needed to be prioritized for consideration in the 1999 Application being developed, with a deadline of April 1. After much discussion, Commissioners were instructed to individually prioritize their lists and submit them to Mr. Gould for inclusion in his application. A lengthy discussion ensued regarding the outlined projects being considered. It was noted that these monies, if awarded, would not be available until 2000. Feedback from the discussion included the fact that a pavilion was being considered and Gould was encouraged to pursue it with consideration of community support in erecting the building, and not a contracted builder; something similar to how the fair ground buildings were built. It was the consensus of the Commissioners that community support will affect a sense of pride and care-taking if they are involved in the project. **It was noted that a letter of commitment and support from the community is needed to be included with the Grant Application.**

A discussion was also heard on whether or not activities should be limited to only soccer and ball and not other activities that the general community would find attractive, or even attract tourism. Gould noted that what information he had was what was developed in the Recreation Plan and given to the Board for adoption, and if there are other plans to be made, they would have to be developed by the Recreation Committee for future consideration. **It was noted that there isn't much for kids in the community to do if they were not involved in team sports or organized activities. There is a need for a family place to go and enjoy an outing, and not be chased away by a scheduled event coming in.**

Last but not least, Gould noted that the prices attached in the Action Program handout were, in fact, 1998 costs, and they would have to have an inflation factor calculated for prices that would be in the year 2,000.

NEW BUSINESS: Discuss Overlay Zone for Snowmobile Trail. Don Britton requested this agenda item and was invited to address it. Britton commented that after working on the Trails Committee for 3-4 years, and then was given the Overlay Zone for Snowmobile Trails written language, and further the Conditional Use Permit language which applies to it. When reading it, he noted in #5 of the General Standards that the language was vague and subject to interpretation

in many ways. He felt this language really didn't (couldn't) pertain to trails. He further noted that to his knowledge, there is no other overlay zone in the whole U.P. or State of Michigan, but only in Chocolay Township. Planning Director Chandler commented, "We have no way of getting a snowmobile through the Township unless we put the Overlay Zone in." Mr. Britton stated he is objecting to the whole Conditional Use language. Commissioners offered their explanation of the Overlay Zone and noted that by doing this, their intention was to help the Trails Committee, not hinder their activity. It was further noted that "one person" can not stop the activities of the majority. Chairman LaPointe noted that this was adopted to make it easier and based on the advice and information we had, this was the best way to go.

Related to the above discussion, Commissioner Menhennick requested that he would like to see the Planning Commission again recommend to the Township Board that they should look into becoming a member of CUPPAD. By belonging to CUPPAD, you can get information about what other townships are doing etc, and we don't then have to invent the wheel every time we take on a project. In response to this request, additional discussion was heard on the cost of a CUPPAD membership and previous experience dictated that membership was cost-prohibitive.

A brief discussion was again heard on the Trail Committee activities and the status to date.

PLANNING DIRECTOR'S REPORT: Director Chandler distributed copies of the letter Supervisor Fende sent to Ameritech requesting their assistance in solving a potential noise problem in our residential neighborhoods regarding the proposed Snowmobile Trail.

Chandler reported that consideration of the development of M-28 & U.S. 41 intersection properties by the Township Board has been put on hold until Wahlstrom's return to the area in April. A meeting will be set up with them then.

There is a possible meeting here Friday morning on MDOT guidelines. Any interested Commissioners should call the office on Thursday for definite time.

Chandler distributed copies of a Fax from the Michigan Townships Association re: SB 205, Michigan Right to Farm Act Bill.

Chandler encouraged Commissioners to write letters of support to Bill Brondyke, DNR, Gwinn regarding support for the DNR acquisition of the Wisconsin Central Railroad grade for non-motorized trails.

PUBLIC COMMENT: Mark Maki called attention to the new copies of the Zoning Ordinance which he distributed to the Commissioners.

COMMISSIONER COMMENT: None.

INFORMATIONAL ITEMS AND CORRESPONDENCE GIVEN TO COMMISSIONERS:

Not everyone present signed in, and some have made comments below and their names do not reflect in the attendance list.

PUBLIC HEARINGS

Chairman LaPointe declared the Public Hearing on Conditional Use #53 open at 7:30 p.m., and explained the procedure to be followed for the hearing. First Planning Director Chandler will give the background information, then the applicant will make his comments, followed by comments from the public. In order to accommodate the large crowd, Chairman LaPointe said each person wishing to comment could address the assembly once, giving his name and address, and to respect those around you with differing opinions and feelings.

Director Chandler reported, first of all, we have worked with this Overlay Zones but we have not had any language in the ordinance addressing snowmobile trails within the Township. So about a year ago, the Township Board approved the language the Planning Commission and Trails Committee has been working on for what they called an Overlay Zones for Snowmobile Trails. What the Overlay does is actually lay over all the different zoning districts within the Township, so you might have a residential district, open space district, you might have a resource production district, you might have a rural residential district where you could have 5 acres or more for property, and pretty much these trails run through all those different zoning districts. We have 2 applications from Trails, Inc, from Al Conrad, their president. He is here tonight to answer questions also.

The first application brought in about a month ago was Conditional Use Permit Request #53. They are requesting that Chocolay Township Planning Commission consider granting a conditional use permit to allow for an Overlay Zone for a Snowmobile Trail in T47N, R23W, Sections 7, 8, 9, 10, 11, 12, 14, 23, 26 & 36 and in T47N, R24W, Section 12. The proposed snowmobile trail would start at the trailhead at the Ojibwa Casino II and run east on portions of the abandoned railroad grade and on Co. Rd BAA until it runs southeasterly on predominantly state land to the Alger County Line. The overlay zone is approximately 50 ft wide designated and approved snowmobile trail within that area.

An overhead map was projected on the screen reflecting the proposed trail, in two colors: The Chocolay Township would only have jurisdiction over those areas in purple, and the County Road Commission has jurisdiction over the green areas. We also do not have jurisdiction for zoning on trust property held by KBIC. Only the area in purple is in question for Conditional Use #53. All residents within 300 feet were notified. We have received some correspondence in favor of Permit Request #53.

Al Conrad, President of Trails, Inc., 488 Silver Creek Road, and we have applied for this conditional use permit. This portion of the trail is in two parts, pretty much the non-obtrusive portion of the trail. The trail at this point does not go by any residential homes. We think it is a good route, and safe.

Bill Kessel, 111 Green Bay Street. "There will be no trails running by anybody's house without going through court. That's it. This will be decided in court. We are wasting our time here tonight."

Gary Miller, 154 Ridgewood Drive. "You will be asked to sanction a trail in a long-standing residential area and you will be asked to sanction noisy machines, drunk drivers, sometimes going as fast as they want to."

Chairman LaPointe clarified that the Public Comment currently being taken is only for Conditional Use Request #53; a second hearing will be held for Request #54 which goes through the residential area.

John Bayerl, 136 Ridgewood Drive. "I would like some information. Does this trail make any sense without Overlay Zone #54?"

Chairman LaPointe explained his understanding that there are two separate applications and two separate Public Hearings.

Al Conrad explained that it actually does make sense to apply for two with the idea that the Casino is a good trailhead with a good parking area, and is a destination location.

Cathy DeVooght, 6341 U. S. 41 South. "The State of Michigan owns about ½ of Chocoday Township. I think you should pursue snowmobiles to go play, and that is what it is – "play", on State of Michigan property, they have thousands of acres. Apparently, everybody is opposed to snowmobiles but you guys want to push, push, push that on everybody. Either in that area or behind me. There is no reason for it. They have trailers to carry their machines there."

John F. Smith, 2176 East M-28. "I actually own, if you look at the map up there where it says 'Gordon's' and the very next 40, that is what I own. I purchased that property couple years ago, knowing full well there was a snowmobile trail there. It's been there for many years. I have lived there for about 14 years now. I am probably on the minority side. I am in favor of the trail right there mainly because it is a very safe route. The other day I was actually paying attention to 'do I hear the sleds out there,' and 'are they intrusive on my 40?' I was sitting there on Saturday night, I was kind of listening, I could hear this super loud sled, and I thought 'boy he must be in my back yard.' He was out on 28. I kind of feel by putting the sleds back there on this trail, you get them off the highway, we get them out from in front of my driveway, and I just feel it is a much safer area. I kind of went around the area, did kind of a quick count, very unscientific, on my way to work and coming home, I decided to see how many people in Chocoday actually have sleds. I came up with a figure of about 300. So, I come to the conclusion that if you try to stop this, what your friends and neighbors have, to use their machines, they can use the county roads. There is probably going to be provisions made for MDOT to allow them to use M-28, so it boils down to 3 things. They are going to come through here, that is a fact. I don't think we are ever going to get around that. So, do we put them where we can control them? Do we actually control the situation? Or do we put them on M-28 where we have no control and no say? That is a likely possibility. They will be crossing everyone's driveways, and it will be legal for them to do. The solution is the county roads. Lakewood Lane and every other road in here is a county road. They have a right, the county ordinance says they can ride there. Its unsafe. I think you all have to take a look at this, step back and determine what is going to be the safest route. You are not going to keep them from coming here. If you do a trailhead there, you will have 300 people. I have seen that many sleds in this Township. If you try to control them, at least you have control. I am not going to sit here and blow smoke at people and say snowmobiling is safe. I had a unique opportunity yesterday and I went out on the groomer just to see what was on the trails. What I did run across, and very amazed to see a lot of families out yesterday. I did not see anybody drunk. They were driving at a reasonable speed. I kind of thought if I was in the groomer I would see someone acting unlawful, at a high speed, reckless, and it would be a perfect opportunity to see it. I seen one guy who had to slow down but it was on a very tight corner. So, all in all, when I got back, I walked on my 40, I paid attention to what sleds were back there and there were a few, lots of noisy trucks and cars on the road too. I have been going to the Trails Committee Meetings for years, trying to find a solution. I challenge everybody here that is going to probably have a more negative aspect of this, to come to the Trails Committee and help us find a solution. You take your time to come to this meeting, its time to come and help us find a solution."

Robert H. Ball, David & Linda Johnson and John F. Peterson send correspondence opposing Conditional Use #53. Jeff Glass and Karen Hart send messages they were in favor of Conditional Use #53. Donald Dayo called on ¾ offering information to change trail route.

Robert Abel called in opposing the trail. Correspondence from Frank Ravitz says he has no problem with the designated trail if its used just for snowmobiles. Correspondence from Robert L. Able, with power of attorney for his parents, Joseph & Selma Abel, voiced opposition to Permit #53.

The Public Hearing on Conditional Use Permit Request #53 was closed at 7:45 p.m.

Chairperson LaPointe opened the Public Hearing on Conditional Use Permit Request #54 at 7:46 p.m.

Planning Director Chandler reported the Application for Conditional Use Permit #54 from Al Conrad, Trails, Inc. President, has requested Chocolay Township Planning Commission to consider granting a conditional use permit to allow for an Overlay Zone for a Snowmobile Trail in T47N, R24W, Sections 9, 10, 11, and 12. The proposed overlay zone for a snowmobile trail would start at the trailhead at the Ojibwa Casino II and run westerly on portions of a seasonal county road, into Section 10 and then along the abandoned railroad grade in Section 9 until it meets M-28.

This conditional use is going to be affecting several home owners. After I was given this map, I received a phone call from Joe Gibbs who owns the golf course here. He is not in favor of the trail running through his golf course. He would rather, when he first called, said come up the Section 11 line and run just on the north side of his property, just off the railroad grade. He sent a map which is in the Planning Commission packet that now suggests that they come up on Trust Property to the railroad grade and run across. That was his suggestion. They do not have land control over Joe Gibbs but they would have land control at the Casino and land control from Ameritech at this point, and again this is on a conditional use and that's pretty much where they had intended to run. The application before the Planning Commission tonight is as it was proposed when it came in, so that is what they should be looking at.

This proposal would need consent of the landowner by agreement, license, right-of-way, easement or other instrument. 132 notices were sent out to property owners on this trail. The other trail had 36 notices.

Chairman LaPointe noted, as a Commission, we can only act on what is before us and not a proposed change to it. I would like Al Conrad to comment on this.

Al Conrad, President, Trails Inc. We started grooming trails 3 years ago. We inherited this trail and did minor changes to the trail. Other than that we picked up a trail system that was already there. In doing this work, we got easements from people like Ameritech. The MDOT in terms of M-28. Looking at what legal rights that trail may have with the permits, its uses, etc. I came here tonight to try to work out a trail system in Chocolay Township that we can all live with. When we got the MDOT permit this winter, that was for one way down each side of M-28, across the Chocolay River bridge, across the driveways, MDOT right-of-way and that included all the driveways from the railroad trestle on back. As a groomer, we have the legal right to come into Chocolay Township. Basically, to actually do that job the way it was proposed, we would have been asking people to move light poles, fences. We probably could have done all that, we probably could have gotten paid from the DNR to do that. We were authorized to do that. We decided not to move light poles, not to move fences, we decided to that on our own expense, going around the structures. The Ameritech easement that we have gives us land control from M-28 to the Alger County line, down the railroad tracks. We were based late in the year, I believe it was the first in December, we had a board meeting and told to apply for a permit for this ordinance. We sought legal counsel about that ordinance. Our legal counsel told us they were not interested in going into court without have a case that was not so good. About a month, after a lot of research, they let us know they were ready to go to court. Whether we win in court or don't win in court, I am not saying I have a case that I can beat you and run down this trail without regard. If I did that, I could run down the railroad grade. I really don't want to do anything like that. I am a trail groomer, I am a father, resident here. My job is to groom trails. My concerns are safety. I have read this entire packet, all the letters. I don't disagree with a lot of your comments. I could almost be on your side. But, we need to come up with an answer rather than a fight. I think Trails, Inc. has looked at the work that has been done by Chocolay Township and the Ad Hoc Committee and the trail that they proposed is a very good trail. It was away from your houses, away from the railroad grade. The DNR is looking for ways to make

this section of railroad grade, a non-motorized section. Everybody wants a way to do that. We don't want to run up and down your back yards. We don't want to do things like that. On the railroad grade, snowmobilers got tickets this year because the trail was not more than 50 feet away from the iron that was on the track. We had groomed closer to the track to stay further from the houses. It was illegal for us to groom it like that. We moved out into the area that would have been legal, it would have involved some of the fences that are along that way, sheds, dog houses, wood piles, that are actually in that Ameritech right-of-way. Do we want to do that, go knocking on doors and say 'we have land control her, please move it at your own expense. We don't want to do that. We want to maintain a safe trail, we want to build a better trail. This is what we inherited. This is what we have to work with. What I am asking is that you allow us some time and I think we are looking at two years. We contacted Representative Prusi's office for block funding to go back in and re-look at the trail that was proposed by Chocolay Township. Again, I have to say Chocolay Township's Ad Hoc Committee when they routed that trail, they did an excellent job. The trail did not involve anyone the whole length. It will not involved condemning anybody's property, or doing anything but working with the residents and property owners. I believe it is going to take us 2 years to do that. Do we want to stop this trail for two years while we build the other one. It will make it very difficult to get the funding to do that? It will make it very difficult to control snowmobiles, as we saw this year. When we quit grooming that section between M-28 and the Varvil Center, law enforcement went out and started writing tickets. People started driving down Lakewood Lane, any side road, people started going around. It put a lot of traffic in places where it really was not safe, not wanted, and shouldn't have been. I think we can resolve the problems with snowmobile trails, but I don't think we can solve them tonight. But, if people would rather work together, put our energy into something that is acceptable, rather than come to these meetings and debate the arguments. I have read all the letters. I have sat through a lot of Township meetings. I have heard the story. Because I am president of Trails, Inc. I get all phone calls. I don't say there isn't problems with snowmobiles, and there are certainly problems with snowmobiles by my house. If you will consider this trail, we will work to change the trail into something that will make this railroad grade non-motorized. When we talked to Mike Prusi's office, there is nobody more interested in resolving this issue. It is a money deal to resolve this issue, you people have made it possible for me to get money to do it. And to answer your question about the dollars per mile, I think we are possibly closer to \$420 per mile FOR THE YEAR. I think that I will probably lose about \$10,000 or \$12,000 this year. Trail's Inc is a non-profit business. I am a volunteer, Paul Smith is the other main volunteer. If we had to work 600 hours this year, we haven't worked at all. There has been money taken out of our pockets this year. We have about \$260,000 invested in equipment at this point. [Mr. Conrad reiterated his feelings about the people letters, their comments and what it means to them.] That is all I really have to say. I am the trail groomer. I don't want to go forth and win a small battle, put a trail in there. I would rather work with the trail that has already been put together. We have the support of the DNR to work on that project. I know we have support from the State. I hope you will allow me to do it.

Chairman LaPointe opened the floor for public comment at this time.

Gary Menhennick suggested that it would save time if Mr. Conrad would withdraw his request for a Conditional Use Permit with Mr. Joe Gibb's change. He can't use this proposal.

Mr. Al Conrad came forth and said, "With the change from the landowner, I have to withdraw the application for Conditional Use Permit #54 for this trail, then re-draw the trail per the landowners request and re-apply."

Chairman LaPointe stated we are still going to take Public Comment for what was presented to us, and reminded the audience to state their name, address and your feelings on this proposal.

Bill Kessel, 111 Green Bay Street. "What you want to do is drag our butts back here another night. Why? He can walk up there and put the line next to the railroad tracks. What difference does that make."

Response: If that line is re-drawn, there may be people who will have to be notified.

Emil Kezerle, 98 Riverland Drive. He owns 285 foot of frontage on Riverland Drive. Mr. Kezerle has also sent a letter to Director Chandler, dated 3/8/99, and asks that the letter be held over for the next hearing when Mr. Conrad re-applies.

Mark Maki, 405 Riverside Drive. This hearing is a real 'sham' with Mr. Conrad withdrawing his application. He further indicated he is the Zoning Administrator for Chocolay Township and that he was being investigated by Mr. Conrad, and also had received threats, and efforts to intimidate him. He felt it to be disgusting.

Lee Blondeau, He approves the proposed trail. He would not like to characterize all snowmobilers by "one bad apple." "There are a lot of people in the Township who use the trails. I think Al's proposal of a 2-year period to get the ball moving on this is good. I think it is the way to go. I think that would be positive and a good way to go."

Burt Sparhawk, 246 Lakewood Lane. "While I am not affected directly by this item, I am directly affected by the proposal. I would like to comment that I am not a snowmobiler but some of my best friends are. I do cross-country ski, and my son downhill skis, and some of my friends are ice skaters. Ice skaters get in their car and go to the arena to ice skate. I take my son in the car to the Marquette Mountain to ski. And fortunately I can go out my door and cross-country ski or snow shoe if I want, but not motorized. My question is, I guess, if we can go to these venues for ice skating, snow shoeing, downhill skiing, why can't the snowmobilers get in their cars and put their snowmobiles on a trailer and take them to the many miles and miles of existing trails that we have rather than going behind people's property or on people's property just for the fun of it. I would submit that we get to these other places to do our snow sports, why can't we put our snowmobiles on a trailer and take them to a place that already exists and not bother the people that are along this proposed trail." [applause]

Don Williams, 265 West Fairbanks. "I would like to re-iterate this gentleman's comments because it is exactly what I wanted to bring up tonight. I don't get all this 'to do' about trails, trails downtown, and trails out. These machines I believe were originally to be put out in the bush. Why do we have to run them through town and through people's yards. Why isn't there an idea of a staging area or areas, one at each end of town. They can still stay at their motels and still go to the restaurants, do all the business they want to do in Marquette, Chocolay, whatever. Hey, how did they get those machines here? Ninety percent of them were on the trails. When they get here, they can go to their motel, if they want to go and drive, ride to the bush. Trail that thing out to the staging area, put it out on the ground and go wherever they want. I just know all this to do about trails is crazy, because I don't think you need any of these trails. All you need to do is have your snowmobile on your trailer, take it out in the bush, and put it on the ground and your ready to go. You're not bothering anybody in the bush. I never hear anybody commenting about I have 40 acres of bush and I don't like people driving through my bush. I don't like them driving across my back yard but I don't care if they go out in the bush and drive all they want. That's where the snowmobilers have all their fun anyway, is out in the bush. Not going to downtown Marquette or the Casino. So, I just wanted to reiterate what this gentleman stated here. I am confused about a lot of these things, but it's a lot to do about nothing."

John Bayerl, 136 Ridgewood Drive. We just bought a new home on Ridgewood. One thing bothers me -- no one told us about snowmobile trails. I am not opposed to snowmobiles. I am opposed to noise and every time I see them on one side of my house they gotta drive 25 miles an hour, and on the other side they can go as fast as they want. We have to have mufflers on our cars. They don't drive up on my lawn. Its really a crazy, crazy situation. Can you put specific limits? This is going to make our home harder to sell. How come you raised my assessment 20% this year. Please talk to those people too. This is not a nice situation.

Gary Miller, 154 Ridgewood Drive. "We will be back again. My bedroom window is 60' from this trail and there is traffic out there all hours during the night. If this was a groomed trail, how much worse will it be. Your job as a Planning Commission is to protect the residents from this type of intrusion. Observe the quality of life we used to have. Not in our back yards. Protect us from this noise."

Jerry Weeks, 120 Ridgewood Drive. "If we decided we don't want that in our township, can we change that? I don't think so. That railroad is a piece of property, just like my house. I don't believe we should change the ordinance. If we change the ordinance every time something comes along, we would never have peace. The noise keeps you up all night long, the latest I have heard them is 4:30 in the morning. I am getting tired of this. It is dangerous, they run too fast, no mufflers or whatever it is on them."

Carolyn McCleary, 108 Ridgewood Drive. "I just moved here from Kansas. In Kansas we have recreational vehicles but they are out in the country. They don't run in behind people's houses. My bedroom window is also 60' from the railroad grade. I was up the other night at 2:30. I would love to tell them to call that gentleman who takes these calls."

Gwen Bayerl, 136 Ridgewood Drive. "We are about 60' from the trail. If I had a choice I would rather have snowmobiles go in front of my house. People don't get killed very often by cars in front of our house; I can't let my grandson ride down the slope in my back yard. Maybe I don't own that couple of feet there, but if he goes one foot over, he could get killed. I can't go out cross-country skiing there for fear of snowmobiles. I should think that as a home owner, I didn't plan on this trail."

Cathy DeVooght, 6341 U.S. 41 South. "What I am saying here is, our Township government doesn't seem to care about our people private lives, private living, and private property. They care more about the almighty dollar; that whoever is grooming the trail is getting paid, maybe whoever might decide to turn their property into a resort along the trail; its always going to be the big businessmen of the Township and of the County. Its not just the Township, business people are going to be making money. It could be lawyers, not all lawyers, believe me, but it will be some lawyers who are in partnership with other people on the other side, sitting back waiting to make this money. It is not worth people's lives, liberties and properties for somebody who is already wealthy to start with, to make more money."

Jim Jamieson, 117 Ridgewood Drive. "I am a snowmobiler. I moved up here from downstate Grand Rapids because of the winter activities. I did cross-country ski through that area back in '93 because of that snow. We don't have a trailer. A lot of folks like this area because they don't have to haul it anywhere. You mentioned because its fun, well it is fun. You leave the motel and drive where you want to go. For example, I leave my front yard and I go on to Copper Harbor along trails. That's one thing about the U.P. up here, its God's Country. I believe so. It is dollars, it brings in many dollars to the U.P. Like in the summer time, I am a scuba diver. That brings in a lot of dollars. Many people don't know that. This is a #2 dive spot in the world for ship wrecks. That brings in many, many dollars. There are two ways to look at this: a lot of people do move in because of the trails. And the other thing I have a question on is you had mentioned that until this becomes a non-motorized trail, how do you propose to do this. Since I do work for Ameritech and have a responsibility for Ameritech railroads in the northern part of the U.P., the Keweenaw, many miles of it. I have been arguing with people for years between Chassell and Houghton. You can not make that an unmotorized trail. They have tried that up in Houghton and people are putting up road blocks on their own sites. All police, sheriff and county calls are referred to me."

Al Conrad said he is not suggesting that we tell Ameritech what to do, it is their land. What I am suggesting is that we take the trail around the area. That would be the snowmobile trail taken away from the railroad track and away from the sub-division, bring it back out and find solutions to the problems.]

"Those folks would have to move their sheds, fences, if it is in the way. Any road blocks on Ameritech's property will be moved at your expense."

Don Britton, Chocolay Township Trustee, said this proposal is only temporary until some alternative route is made. Chairman LaPointe said we are not going to be acting on this tonight. Al Conrad commented he would like to withdraw his application.

Correspondence from Robert and Shelly Welker expressed opposition to Permit #54.

An E-mail from Dennis Zanetti, owner and Dennis Zanetti, resident, John Grabowy was in opposition to Permit #54.

A letter from Robert L. Abel, with Power of Attorney for his parents, Joseph & Selma Abel, opposed the request for Permit #53.

A note from Steve Pawielski, business owner, was in favor of granting request #53, and 54.

A letter received from Glenn M. and Evelyn Ann Johnson indicates opposition of Permit #54.

A letter from Philip A and Colleen K. Creech was in opposition of Permit #54.

A letter from Jean Olson was in opposition of Permit #54.

A letter from Mary Jane Lynch was in opposition of Permit #54.

Mari M Dahl sent a letter in opposition of Permit #54 but was in favor of a non-motorized trail.

Ralph and Ava Bennett sent a memo in opposition of Permit #54.

Emil S. Kezerle submitted a letter also in opposition of Permit #54, in addition to his public comments above.

Gentleman from Dana Lane. "I just would like to speak on behalf of 3 others in favor of the trail. I just would like to comment that these people who do live along these proposed trail on the railroad, and how many people who live there. I came here from the Keweenaw and they do have snowmobiles up there. I particularly like going down highway 41 because I am also about 40 feet off the road. It just so happens down the road a little ways is a bar. I can't tell you coming from that bar, they didn't like to use the trail, but one block over they wanted to use the highway. The state police clocked them going 70-80 mph. The way they were going down 41 when we left the bar and there was 12-15 of them at 3 AM at 80 mph, it's a little bit aggravating. These people who live along that right-of-way, they can anticipate a lot of noise."

Mark Maki, 405 Riverside Road. "Two additional comments – one is that it is unfortunate that with the controversy Ameritech has granted people the right to use this as well as the problem with the fact that the DNR is trying to acquire this land. Early on when this process started, I was on the Trails Committee and the DNR officials informed us that if the Township did not support the trail through the residential areas, DNR would not pursue it. That process went on for several months and that was in the Township Planning Commission, the Board and the Trails Committee have resoundingly said not to...

try and acquire this railroad. They will not guarantee the Township that they will not use it for a snowmobile trail in spite of what they said, so there are larger interests pushing this trail and the residents of this Township need to be aware of the fact that all of this stuff is just be passed down and passed down, and some morning you are going to wake up and read that the DNR has bought this railroad with your money and are putting a snowmobile trail through your property. We tried to get the DNR to commit that they won't do it, and all they will say is they want it for recreational use. They are going to try and force this trail down you. The Township can do a couple things about that. One is, they can try and get the DNR people in here and make this decision and make them accountable for they do work for the people in the State of Michigan. They should be accountable to the people. The other thing the Township can do is to try to purchase this right-of-way from Ameritech. The City of Marquette, as I understand it, is trying to purchase some of this right-of-way and Ameritech is negotiating with them. They should enter into those same negotiations with the Township. If the Township purchased this railroad right-of-way, and there were covenants put in this that would restrict motorized use within the residential areas, that would probably be enforceable. But unless the Township does something, the state is going to put this through. So, if the Township doesn't do anything to stop this trail, the Township is standing by and letting it happen."

Scott Emerson commented, "I did talk to an Ameritech representative today about that proposal of the Township buying this segment of trail, and I think he is worried that this would hinder the deal with the DNR. Ameritech wants to sell this, they don't want to continue to pay taxes on this... [Ameritech doesn't pay taxes] they want to sell the whole thing, lock, stock and barrel.

Mark Maki: Why are they negotiating with the City then?

Planning Director Chandler: Can I answer that? I have talked with representatives in Chicago from Ameritech. Apparently, in the city of Marquette, there are not cables buried by Ameritech so they do not own portions in the City of Marquette, only outside the City of Marquette and that's where they are negotiating. The City of Marquette will be negotiating with, I believe, Wisconsin Central, and not Ameritech. That's the difference."

Al Keto, Recreation Manager, DNR. "I guess some misconceptions – yes, we are looking at purchasing it as a multi-use trail. We are going to decide through public hearings, and working with the people on what type of trails will be there. If it comes down to the fact that no motorized trail is wanted there, then we are asking the people who don't want it there, to help us find alternate route. Within Chocolay Township, the Recreation Committee and the Planning Commission did a lot of work. They applied for a grant, they were approved, and that was pulled out. That would have eliminated a lot of this problem. As far as purchasing it, yes, by law MDOT gets first rights at it, Michigan DNR gets second rights at it, and after that, then it goes out. That's the procedure of abandonment and purchase of any railroad grades. We are in that line to purchase it and we are looking at it for a multi-use trail. It is not to say that it is going to be, there are no guarantees out there, but we are going to look at the whole situation. But our stance is that if the motorized trail isn't going in there, then we are going to ask the people along that route and in Chocolay Township, to assist us and Chocolay Township in finding a route that is suitable and a safe route for people to use."

Why can't they just put their snowmobiles on trailers and take them to an existing trail rather than coming through our neighborhoods in town."

Al Keto: "I guess you got to realize too and that's a point if your are local, snowmobiling has grown over a number of years. There are millions of snowmobilers that come through. It isn't a five mile ride anymore. People will leave St. Ignace and go to Copper Country in two days. They'll drive up across the bridge, unload their trailer, they will come to Munising and spend a night, go to Copper Country and spend a night, and then they go down to Ironwood and make a loop back to St. Ignace. That's the way most people go when they plan their trips nowadays. It isn't the old 5 mile or 30 mile trip anymore. People traverse across the whole U.P., even to Minnesota. And that's the way snowmobiling has grown. The reason we are looking at the trail site, it helps connect the segment between the ones that are used in the U.P. to make that available for snowmobilers who traverse across the whole U.P."

Al Conrad: We have the MDOT permit to use that on M-28. They are changing rules and guidelines with the DOT, there are problems along the U.S. 41 corridor. There are quite a few problems here in Chocolay Township concerning trails. The trail, as proposed here, would put the trail down M-28 into the commercial district. This is early on in planning. Basically, what we would like to do is use a block of local property in back of the Wahlstrom's Restaurant and Blondeau parking lot, and gain access to the community. Basically, it would be a parking lot and public roads, rather than the mess that we have here on U.S. 41. The reason Trails, Inc. has tried to work on the trails to re-route what the ad hoc trail committee has already worked on, is the people on Dana Lane and Ridgewood want a non-motorized trail that the DNR can put in place for biking, hiking, walking. Would we want to see that trail in our community, I don't think anybody wants to see that portion of the trail, they would like to see the snowmobiles go back into the country and away from the residents. It's going to take time. But the whole reason for proposing this and working on this project is to save the railroad as a DNR project. It would be a perfect snowmobile trail for a snowmobiler. If you are a resident, it's a nightmare. We are trying to work around this."

Warren McCleary, 108 Ridgewood Drive. "You talked about this, you talked about safety. There are no speed limits. You said you want to get them into town so why not make it like a road map. They move too fast by my house. If there any way you get around going back there?"

Walt Tuccini, 134 Ridgewood Drive. "I know snowmobiling has really mushroomed in the last years. I know snowmobiles go behind my house. I guess it is just a matter of priorities, but why is it more important for people to drop their snowmobile off their trailer at the Soo and drive to Duluth than it is for my own peace, quiet and safety? I don't see why that is more important. There is easily 3 times the amount of people living on Ridgewood now than they was in '85 when I moved in. There's lots of kids. I don't think it is worthwhile. If somebody wants to snowmobile from the Soo to Duluth, that's fine, but I don't give a damn how they get there, but not in my back yard."

Cathy DeVooght, 6341 U.S. 41 South. "I don't know if everybody in the room is aware there is more to the public than I think you guys are already aware of this that these Rails to Trails is not just Rails to Trails, it will be Rails to Trails to Rails. The DNR man there can probably tell you that all these old abandoned railroads or grades that they want to turn into these playgrounds for

the people with the snowmobiles, is a temporary thing. An interim thing until in the future they need railroads again. It didn't make sense that they abandoned them but they did, but they have a big plan, and it's a law that Governor Engler signed that all these Rails to Trails are eventually going to be Rails again. So we have got this plan, and we have got some people making money, eventually it will be railroad, back again."

Mark Maki, 405 Riverside Drive. "I still have a question for the petitioner, I would still like to know why the petitioner and his friends are spending hundreds of dollars trying to investigate me after I sent two letters to you telling you that had to abide by ..."

Chairperson LaPointe cut this comment/question off, and re-directed the meeting back to the Public Comments.

Mike Bal, 1599 East M-28. "I live on the opposite side of the highway of the tracks. I have stood in the kitchen looking over as the snowmobiles come by. In the winter time your house is all closed up, you are not sitting there with your windows open, you have to listen hard to hear these things go by. [Boos] I am a snowmobiler, I am for the trail. I agree with Mr. Smith, too, that you are not going to stop it. They are going to come in regardless and I see them lost and confused on 28 all the time because the snowmobile trail through there is so chaotic, they are going every which way. I helped give a guy directions today that was lost. They are going everywhere because the trail is so chaotic back there. I think the people that are complaining about it going in and out through their yard – if there was a speed limit, I think the majority of the people would heed it if it was posted, 'please slow down through this residential area' would abide to that just to be able to get through there. I know I would. I mean if there was a big, huge, red, stop sign when you come into that area that would make people stop, and have a note, 'must abide by speed limit, residential area, or trail will be closed.' I know I would go through there at 25 mph and its not that long an area to get through. I think most people would abide just to go through there. That is my opinion to make some of these people happier."

Gwen Bayerl, 136 Ridgewood. "I was thinking about my grand son in my back yard sledding, now I have to think about the kids in the front yard sliding down the snowbanks down into the streets. We all have to be careful for that. There is no guarantee that a car is not going to come down our street at 50-60 mph. There is no guarantee. I am sure you would obey a speed limit of 25 mph, but I can't be sure that its you in my back yard."

Letters from Emil Kezerle, Mari Dahl, Jean Olson, Philip & Colleen Creech, Glenn and Evelyn Ann Johnson, Ralph & Ava Bennett, Mary Jane Lynch were read into the record.

Ron Ziebell, 124 Riverland Road. "I guess it is my opinion that everybody is opposed to having snowmobile sleds go through on this railroad grade and I have to agree with them. When I moved up here about a year ago, I was hoping for peace and quiet. With those snowmobilers coming through at 3 am in the morning. There are some good ones and some bad ones. There is always a bad apple that spoils the barrel. I have seen snowmobiles go by close to 100 mph and that as a safety factor is unacceptable. I don't believe that no matter how much you patrol a trail, you will never be able to 100% enforce any laws or regulations. I am strictly opposed to this trail."

PUBLIC COMMENT WAS CLOSED AT 8:45 PM

Chairperson LaPointe called the regular meeting of the Chocolay Township Planning Commission to order at 8:55 p.m. All Commissioners were present as indicated above.

Motion by Commissioner Emerson, supported by Commissioner Sanders, to approve the February 8, 1999 meeting minutes of this Commission as presented.
MOTION passed unanimously.

Motion by Commissioner Emerson, supported by Ken Tabor, to approve the meeting agenda, with the Old and New Business items switched in order.
MOTION passed unanimously.

PUBLIC COMMENT:

Mark Maki, 405 Riverside Drive. "Two additional comments... one is that I noticed that the meeting is being recorded and I would like to request that I be afforded a copy of the actual recording of these tapes. Secondly, I do not believe the Township should take any action on any trail systems that does not coordinate a complete trail system through the Township nor one in which the property owners are not allowed to ask the petitioner questions. Thank you."

NEW BUSINESS:

Consider Conditional Use #53 – Trail's Inc. for Overlay Zone for Snowmobile Trail:

Director Chandler reported there were 36 notices sent out in this particular section. We did not get any calls but there is a letter in your packet from a property owner at 200 Kawbawgam Road that is not in favor. Chandler reviewed the proposed trail and what properties it went through, commenting on who owned the property on the way.

Discussion amongst Commissioners regarding this proposal included pros and cons to the issue, economic impact, benefit ratio, whether it made sense to approve one section without having the connecting links ready to go, etc.

Motion by Commissioner Menhennick, supported by Commissioner Tabor, that after careful consideration of all the general standards as set forth in Section 701 of the Township Zoning Ordinance and finding the applicant is in compliance with these standards, the request by Trails, Inc. for Conditional Use Permit #53 as submitted on the application and accompanying maps be granted with the following conditions:

- 1. The approval is for use from December 1 through April 1 annually, provided always that the consent of the landowners over which the snowmobile trail is proposed, is shown by agreement, license, right-of-way, easement or other instrument.**
- 2. That grooming take place only on the designated trail and the trail groomer is not to cross any undesignated/unapproved land uses within the Township without prior conditional use approval by the Planning Commission.**
- 3. That a Zoning Compliance Permit be obtained from the Chocoley Township Zoning Administrator prior to use.**

VOTE: AYES: Menhennick, Sanders, LaPointe and Tabor.

NAYS: Emerson, DeVooght, and Kinnunen.

MOTION CARRIED.

Consider Conditional Use #54 – Trail's, Inc. for Overlay Zone for Snowmobile Trail

Discussion amongst Commissioners included commendation of the Trails Committee for their work in trying to find an alternate route, acknowledgement that the majority of the people in the room are against the proposed trail, we are never going to please everyone, and what alternatives do we have.

Commissioner Kinnunen commented he had a problem with the issue knowing that we had an alternate trail identified by the Trails Committee but because of improper handling it was "blown."

It was also noted that what people are saying is not that they don't want a trail, but just not in their back yard. It was also noted that the petitioner had withdrawn his application as it is before the Commission this evening. So what is next? Should we pursue the alternate route? Director Chandler was asked to mark out the previously identified route that fell through to see if it had any merit or consideration. This was done on the overhead map for everyone to see. **Al Conrad commented that he would pursue the alternate route. The Trails Committee will also be working on this alternate route. The meetings are held the last Wednesday of each month at 7 p.m. right in this building and residents are invited.**

NO ACTION WAS REQUIRED ON THE WITHDRAWN PETITION FOR PERMIT #54.

Recess was declared while the audience departed the meeting.

The meeting was re-convened at 9:25 p.m.

CONSIDER Site Plan for Manthey Motors.

A site plan for Manthey Motors was reviewed and discussed. It was noted that it did not comply with the standard site plan in that it was not to scale.

Moved by Commissioner Menhennick and supported by Commissioner Emerson to table the request and ask for a detailed site plan. Motion passed unanimously.

OLD BUSINESS:

Discussion on Mining and Mineral Extraction Section of Zoning Ordinance

A memo from the Director Chandler on behalf of the Committee with revised language for the Mining & Mineral Extraction Sections of the Zoning Ordinance was reviewed and discussed. In summary, it changes the 3,000 foot language to 1,000 feet, as an impact area. Discussion followed as to how this number was achieved, and what flexibility does it have. The background situation that has led to this point and its need to change it was again reviewed.

Chairperson LaPointe did ask for comment from Cathy DeVooght as this language would affect her and her property.

Cathy DeVooght commented, "I don't know how many of you are aware that the Chocolay Township Board gave quit claim deed into the State at the Beaver Grove Recreation Area. All mineral rights from underneath the park across the street from me that my husband and me sold to the township gave all the minerals and right of ingress and egress at all times to go into that park at any time they want to take any minerals they want to and they I think it was Mr. Blondeau who made the application for mining ordinance to be in existence. Somebody came up with the bright idea of 3,000 ft as an impact area. You all know this, or at least the 4 people who made the ordinance, that the State of Michigan has a quit claim deed with Chocolay Township to take any and all minerals at all times from the very park that I am within 3,000 ft of mind you. Are you all aware of that? That's all I want to know."

"You are not capable of being fair, when it comes to me and my property, you do not play fair ball."

Commissioner Menhennick states there were two things changed, the 3,000 to 1,000 ft impact area, and also where impact area starts from.

Lee Blondeau commented that he thought the committee's idea is valid. Basically, there are two mining operations here—Lindberg and Blondeau.

With the 3,000 ft impact area, virtually all the property in Chocolay Township was excluded and if we adopt this change, it corrects that.

Cathy DeVooght commented further it was her land and she would just do whatever she wanted to do because the history between her and Chocolay Township was such that nothing is going to work anyway.

Chairperson LaPointe suggested that we have a public hearing on this.

It was moved by Commissioner Menhennick, supported by Commissioner Sanders, to adopt the new language as follows:

SECTION 404 MINING AND MINERAL EXTRACTION

B. No mining and/or mineral extraction operation or any mining related buildings, structures, processing equipment or tailing ponds, basins or mounds may be built, operated or maintained:

- 1. Until an impact area is determined. One thousand (1,000) feet is presumed to be an appropriate impact area from the point of operation. If the analysis reveals a site-specific reason why the impact area should be increased or decreased, the impact area shall be modified.**

Motion passed unanimously.

PLANNING DIRECTORS REPORT:

Planning Director Chandler reported her official letter of resignation has been accepted by Supervisor Ivan Fende. She has agreed to help out in the interim until the position is filled. She requested a meeting with the Executive Committee after this meeting. She further thanked the Commission for their cooperation over the last four years and commended them for their accomplishments but noted planning work is never done.

PUBLIC COMMENT

None.

COMMISSIONER COMMENT

Commissioner Menhennick inquired about bylaw review and revision. He also noted that Commissioner Kinnunen had missed too many meetings. Discussion followed and after Commissioner Kinnunen clarified his lack of knowledge of the number, and his desire to continue on the Commission, it was decided to let the matter end as so.

A second discussion took place about Commissioners commenting on issues that reflect poorly on the Commission and their performance. It was suggested that such comments could be made outside of the public meetings.

General discussion took place about the efforts of the Trails Committee, their accomplishments, and their incomplete projects, not just on snowmobile trails but other trails as well.

INFORMATIONAL ITEMS AND CORRESPONDENCES

- Chocolay Township Board Minutes of 2/1/99 and 2/15/99.**
- Marquette Township Planning Commission Minutes of 1/13/99 and 1/18/99.**
- Central Lake Superior Watershed Partnership Minutes of 1/19/99.**
- Letter from Gene Elzinga and copy sent to Mining Journal.**

The meeting was adjourned at 10:30 p.m.

Estelle DeVooght, Commission Secretary Date

Karen L. Deel, Recording Secretary Date

CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, APRIL 12, 1999

PRESENT: **Commissioners** Estelle DeVooght, Steve Kinnunen, Mike LaPointe, Gary Menhennick, Bill Sanders, and Ken Tabor.

ABSENT: Scott Emerson.

OTHERS: Stacy Busch, Recording Secretary, Mark Maki, Don Britton, Sharon Roshak, Lee Blondeau, John Smith, Joe Menze, Richard Hahka, Ray Liubakka, Karl Benda, Liz Herman, Karen Lynch, Dale Manthey

PUBLIC HEARINGS

Chairman LaPointe declared the Public Hearing on Rezoning #105 open at 7:32p.m., and explained that the Chocoday Township Planning Commission is the applicant petitioning the Chocoday Township Board to amend the Chocoday Township Zoning Ordinance with a text amendment which would change the requirement in Section 404 B (1) from 3000 feet to an impact area.

Chairman LaPointe asked if there were any public comments on this rezoning.

Mark Maki 405 Riverside Road and Zoning Administrator-I have read the language and have some questions and comments. I am requesting 30 days for zoning review before this is forwarded on.

Lee Blondeau 30 N Tracie-Feels that the existing requirement is excessive in restrictions.

Public Hearing Rezoning #105 was closed at 7:35 p.m.

Chairman LaPointe declared Public hearing Special Use Permit #1 is opened for public comment at 7:36 p.m. He requested that the representative from the applicant Lindberg and Sons give some background as to what was going on.

Karl Benda A. Lindberg & Sons-During this Green Garden project we may need some sand. The sand on Ted Whittler's property has been tested and meets MDOT's specifications. We may need to use anywhere from 0-10,000 yards for this project.

Chairman LaPointe closed the public hearing at 7:38 p.m.

Chairman LaPointe declared the Public Hearing on Conditional Use #27 open at 7:38 p.m.

Chairman LaPointe asked if there was a representative from the church present and could give some background on the proposed project.

Ray Liubakka 504 Woodvale-The addition we're proposing is a 40 x 40 multipurpose room and Sunday school rooms.

A letter from Vincent Sinervo was received in favor of Conditional Use #27.

Liz Herman 1487 M-28-Concerns with increase in traffic flow.

Karen Lynd 1507 M-28-Concern as to where the new location is going to be. Also concerns with increase in traffic.

Public hearing was closed at 7:42 p.m.

MEETING CALLED TO ORDER:

Chairman LaPointe called the regular meeting of the Chocoday Township Planning Commission to order at 7:42 p.m.

Roll call was conducted and all Commissioners are noted as in attendance except for Scott Emerson.

APPROVAL OF MEETING MINUTES:

The meeting minutes of the regular meeting of the Chocolay Township Planning Commission, dated March 8, 1999 were presented for approval.

Moved by Commissioner Sanders, supported by Commissioner Menhennick, that the March 9, 1999 meeting minutes be accepted as presented. Motion carried.

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Chairman LaPointe requested that New Business be moved in front of Old Business.

Moved by Commissioner Menhennick, supported by Commissioner Sanders, to adopt the agenda as changed. Motion carried.

PUBLIC COMMENT:

Mark Maki-Comments on the minutes. Minutes regarding the approval of Conditional Use #53 (snowmobile trail east of Casino) and noted that the zoning ordinance requires that the decision be based and supported by facts. As one who opposed the partial approval of a trail, I am concerned that the Chocolay Planning Commission approved this with no support material on record as required by the zoning ordinance.

Also concerned about recent article in the Mining Journal where the DNR apparently still hopes to permit snowmobiles along the grade. Apparently local input is being ignored as for over 2 years the Township has approved this motorized use. I would like to have the Chocolay Township Planning Commission request that the appropriate DNR officials update the township on its plans.

Also concerning the minutes from the March 8, 1999 on page 9 the sentence should read “abide by Township Zoning Ordinance.”

Commissioner Gary Menhennick stated that the Trails Committee is working on an acceptable alternate route.

Sharon Roshak-I don't think the trail is on M-28. Shouldn't be where there are a lot of cars.

John Smith-Trail goes through 40 acres of mine. I like trail back in there. I have met a lot of my neighbors having it there.

NEW BUSINESS: Consider Rezoning #105-Mining and Mineral Extraction Section of Zoning Ordinance

In discussion of the Commissioners regarding this rezoning noted that they should not delay this any longer, new language makes process easier, see no reason to change proposed language.

Motion by Commissioner Tabor, Second by Commissioner Menhennick that the Chocolay Township Planning Commission recommends to the Chocolay Township Board that the text amendment rezoning request # 105 be approved.

AYES: LaPointe, Kinnunen, DeVooght, Sanders, Tabor, Menhennick.

NAYS: NONE.

MOTION CARRIED.

Consider Special Use Permit #1-Mining & Mineral Extraction-Lindberg & Sons, Inc.

Motion by Commissioner Tabor, Second by Commissioner Menhennick, that after careful consideration of the application for a mining and mineral extraction permit as provided in Section 404-407 of the Chocolay Township Zoning Ordinance #34, the Chocolay Township Planning Commission recommends to the Chocolay Township Board that this permit be approved with the following condition(s)

- 1. That a Zoning Compliance/Mining Mineral Extraction Permit be obtained from the Chocolay Township Zoning Administrator prior to use.**

AYES: Kinnunen, DeVooght, Menhennick, Sanders, Tabor, LaPointe.

NAYS: NONE

MOTION CARRIED.

Consider Conditional Use #27A-Faith Assembly of God Church-Building Expansion

In discussion of the Commissioners comments included that people are already at the church on Sundays so what more traffic would there be? The turning lane had to already have been a problem. Has the Road Commission been contacted about building a turning lane? Neighbors should petition to have a turning lane put in.

It was suggested that a letter be sent to MDOT about a turn off lane.

Motion by Commissioner Menhennick, Second by Commissioner Sanders that after careful consideration of the general standards as set forth in Section 701 of the Township Zoning Ordinance, the request by Faith Assembly of God Church for an addition to the existing church as Conditional Use Permit #27-A be granted with the following conditions:

- 1. That a Zoning Compliance Permit be obtained from the Chocolay Township Zoning Administrator prior to use.**

AYES: Kinnunen, DeVooght, Tabor, Menhennick, Sanders, LaPointe.

NAYS: NONE.

MOTION CARRIED.

Discuss Chocolay Watershed Plan

Chairperson LaPointe asked Larry Gould to explain the watershed plan.

Larry Gould-Chocolay River Watershed is developing a master plan for the watershed by contract with Whitewater Associates. Looking for input from Planning Commission and then go back to the Board for input. The three topics of problem areas were explained from the map. Discussion followed and there were no suggested changes other than possibly including more threatened areas. No specific locations given. The public will be notified by an add and maps will be posted within the township identifying areas affecting streams.

Commissioner's comments were as follows:

- Concern about labeling these sections. Landowners should be contacted to let them know what is going on.
- Bringing in Technical and Financial assistance to make improvements has worked in the past.
- If areas are labeled threatened areas because of development, then there should be more threatened areas maybe labeled, like in section 9 & 10.

OLD BUSINESS:

Consider Site Plan for Manthey Motors

Commissioner Menhennick moved, Commissioner Tabor second that the Chocolay Township Planning Commission approve the preliminary site plan submitted by Manthey Motors for their review on April 12, 1999.

AYES: DeVooght, Menhennick, Tabor, Kinnunen, Sanders, LaPointe.

NAYS: NONE

MOTION CARRIED.

Consider Revised Site Plan for the St. Louis the King Church

Motion by Commissioner Menhennick, Second by Sanders to approve revised site plan as shown on map.

AYES: Menhennick, Tabor, LaPointe, DeVooght, Sanders, Kinnunen.

NAYS: NONE.

MOTION CARRIED.

PLANNING DIRECTOR'S REPORT:

A New Director of Planning and Research has been hired.

PUBLIC COMMENT:

John Smith-Trail issue has a lot of opposition.

Don Britton-Trails Committee is proposing an X-Country Ski Trail. New Planning Director should be involved. Kawbawgam property should be listed in future recreation plan.

COMMISSIONER COMMENT:

- Send Karen Deel a letter thanking her for good job with the minutes.
- Motions should say why they are approved or denied.
- Funds available for bridges.
- Look at property for park on Kawbawgam Road.
- Keep numbering pages for agenda packet.

INFORMATIONAL ITEMS AND CORRESPONDENCE GIVEN TO COMMISSIONERS:

- A. Chocolay Township Board minutes of 3/01/99 and 3/15/99
- B. Chocolay Township Trails Committee minutes of 3/31/99
- C. Central Lake Superior Watershed Partnership minutes of 2/02/99
- D. Correspondence from - Lake Superior Community Partnership - Snowmobile Forum, Friday, April 30, 1999
- E. Correspondence from - Joseph E. & Margo Riopelle - on property ownership of Railroad ROW
- F. Information from Mark Maki

The meeting was adjourned at 9:25 p.m.

Estelle DeVooght, Commission Secretary

Date

Stacy L. Busch, Recording Secretary

Date

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, MAY 10, 1999**

PRESENT: Commissioners Estelle DeVooght, Steve Kinnunen, Mike LaPointe, Gary Menhennick, Bill Sanders, Scott Emerson and Ken Tabor (arrived 7:32).

ABSENT: None

OTHERS: Stacy Busch, Recording Secretary, Doug Riley, Director of Planning & Research.

PUBLIC HEARINGS-None

MEETING CALLED TO ORDER:

Chairman LaPointe called the regular meeting of the Chocoday Township Planning Commission to order at 7:30 p.m.

APPROVAL OF MEETING MINUTES:

The meeting minutes of the regular meeting of the Chocoday Township Planning Commission, dated April 12, 1999 were presented for approval.

Moved by Commissioner Sanders, supported by Commissioner Menhennick, that the April 12, 1999 meeting minutes be accepted as presented. Motion carried.

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Moved by Commissioner Menhennick, supported by Commissioner Sanders, to adopt the agenda as presented. Motion carried.

Commissioner Tabor arrived 7:32 p.m.

PUBLIC COMMENT: None

NEW BUSINESS: Conditional Use Permit #49 Silver Creek Recreation Area "Access"

Doug gave some background on placing this item on the agenda for the Planning Commission to discuss whether the new driveway proposed for the Recreation Area was included in the original Conditional Use approval by the Planning Commission. In researching this issue it was revealed that a "new access" was included on the application, however, the access was not detailed on the site plan. In addition, the meeting minutes were conflicting on whether a new access was proposed. The property owners within 300' were notified. The nearest property owner commented that she did not have any particular problem with the drive other than she would like some trees planted as a buffer.

Larry Gould gave some added information as to why the new access should be put in that location.

1. The access will no longer "cut through" the parking lot for the school, especially against their new traffic pattern.
2. It appears logical to separate the traffic between the school and park for safety purposes.
3. The connection to Silver Creek will be designed to Road Commission specifications and is appropriately off-set from the drives across the street to avoid awkward turning movements with opposing traffic.

Commissioner comments were:

- Is this a good location for the driveway?
- Think it is a good location, are neighbors ok with this?
- Where is open space going to be?

Motion by Commissioner Menhennick, Second by Commission Sanders that after careful review and discussion of the record from the Conditional Use #49 approval of July 14, 1999, the new access drive for the Silver Creek Recreation Area was included in said approval and the file and plans shall be marked accordingly.

AYES: LaPointe, Kinnunen, DeVooght, Sanders, Tabor, Menhennick, Emerson.

NAYS: NONE.

MOTION CARRIED.

APPROVE 1998 PLANNING COMMISSION ANNUAL REPORT

Chairman LaPointe asked if there were any Planning Commissioner comments on the report?

Motion by Commissioner Sanders, Second by Commissioner Emerson to accept the 1998 Planning Commission Annual Report as prepared and pass onto the Township Board.

AYES: LaPointe, Kinnunen, DeVooght, Sanders, Tabor, Emerson, Menhennick.

NAYS: NONE.

MOTION CARRIED.

DISCUSSION-SEWER/GROUNDWATER CONTAMINATION WATER SYSTEM-PRIORITIES

Commissioner Emerson asked for this item to be placed on the agenda for discussion. It is felt that the Planning Commission has been left out on what the Water Committees intentions are. I would like the Planning Commission to be kept informed on what is happening with the Water Committee.

Commissioner Menhennick stated at this point it would be 5-7 years if we proceed, our groundwork is done if grant money becomes available. Plan and prepare to be years ahead. We are working with Sands and KBIC. If we can find good water, KBIC will put in 2 test wells that could get water system there whether the casino is there or not. We are looking at different areas. Tie into city if needed or have our own and use city as backup. Sands would like some sewer also. The idea is to lay the groundwork first to be ready when the grant monies become available. Tribal Community is a source of money.

Commissioner Emerson we need to make sure our priorities are straight. Majorities of the residents have good water already. We should see what the residents want first. The businesses may want it over residents. What does the Commission want first?

Commissioner DeVooght-This is going to cost a lot and then we have to pay every month. The Village is a big concern for water first.

Larry Gould, DPW Supervisor-We did a water study 5 or 6 years ago. The feasibility study for Chocoley is done. Planning is good but realistically the residents are not favorable of paying for the system. To convince someone whose well works fine is going to be a battle. This water system should be made big enough for hydrants.

AUTHORIZE-THANK YOU LETTERS-KAREN CHANLDER & KAREN DEEL

The Planning Commission authorized the above mentioned thank you letters to be sent.

DISCUSSION-NEW PLANNING DIRECTOR, COMMISSIONER, SUGGESTIONS/RECOMMENDATIONS

Chairman LaPointe welcomed Douglas Riley new Director of Planning & Research.

Doug Riley gave a brief explanation of his planning background and education. He also requested that the Planning Commission provide him with their suggestions/recommendations on areas for initial concentration.

The Planning Commissioner Comments/Suggestions were:

- Review the strategic plan
- Check on Planning Commission "To Do" list
- Get a Landscaping Committee together to create a Landscaping Ordinance.
- Keep numbering the agenda pages.
- Conditional Use procedure-Justifying motions.
- Problematic uses that are not addressed in the zoning ordinance.

PLANNING DIRECTOR'S REPORT:

1. Lindberg Mining Permit has been approved.
2. MDOT Reviews - You received a copy of the letter I sent to Andy Sikkema of MDOT regarding the Faith Assembly of God Church (on turning lanes as requested by the Commission at the April meeting). I also requested their input on the future review of

projects of this nature on State Highways. I have since talked with Mr. Sikkema and Chuck Lindstrom (the MDOT permit agent) and we have established a basic framework to obtain their review of projects of this nature prior to the Planning Commission's meetings in order that you can include their input for your review and condition approvals accordingly.

3. Snowmobile Forum - The DNR stated at the meeting that they are pursuing the purchase of the railroad right-of-way and are maybe 6 months away. Once they have the property in hand, they will begin their planning process, and look at all the alternatives, for the use of the right-of-way. They are obviously aware of the residential conflict issue and would love to find an alternate route to avoid that section.
4. Estelle DeVooght: Estelle has been reappointed to the Planning Commission for an additional 3-year term. Estelle was the only member whose term expires this year.
5. June Meeting - Reminder - the June Meeting constitutes the Commission's Annual Meeting and you may want to start thinking about the election of officers.

PUBLIC COMMENT: NONE.

COMMISSIONER COMMENT:

- Landfill complaining about filling up too soon. Is there a possibility of selling recycling and trash bins.
- What is the random drug screening tests all about?

INFORMATIONAL ITEMS AND CORRESPONDENCE GIVEN TO COMMISSIONERS:

- A. Letter to the Michigan Department of Transportation - M-28 Turning Lanes (Faith Assembly of God Church)
- B. Chocoday Township Board Minutes - April 5, 1999, April 12, 1999 and April 26, 1999
- C. AdHoc Water Committee Minutes - March 10, 1999
- D. Zoning Board of Appeals Minutes - March 25, 1999
- E. MTA - April E-News

The meeting was adjourned at 9:25 p.m.

Estelle DeVooght, Commission Secretary

Stacy L. Busch, Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
TUESDAY, JUNE 8, 1999**

PRESENT: Commissioners Mike LaPointe, Gary Menhennick, Bill Sanders, Scott Emerson and Estelle DeVooght (arrived 7:32).

ABSENT: Steve Kinnunen and Ken Tabor

OTHERS: Doug Riley, Director of Planning & Research.

PUBLIC HEARINGS-None

MEETING CALLED TO ORDER:

Chairman LaPointe called the meeting of the Chocoday Township Planning Commission to order at 7:30 p.m.

APPROVAL OF MEETING MINUTES:

The meeting minutes of the regular meeting of the Chocoday Township Planning Commission, dated May 10, 1999 were presented for approval.

Moved by Commissioner Emerson, supported by Commissioner Sanders, that the May 10, 1999 meeting minutes be accepted as presented. Motion carried.

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Moved by Commissioner Menhennick, supported by Commissioner Emerson, to adopt the agenda as presented. Motion carried.

Commissioner DeVooght arrived at 7:32 p.m.

PUBLIC COMMENT: None

OLD BUSINESS:

REZONING #105 - TEXT AMENDMENT - MINING AND MINERAL EXTRACTION

The Planning Commission reviewed the reasons that the Township Board referred this item back to the Planning Commission for review. Essentially, the County Planning Commission and Township Attorney reviewed the proposed amendment and both believed the language was too vague, especially in terms of the "analysis" of the impact area. New/additional language has been proposed that the Attorney and staff believes clarifies the amendment in referencing the standards the analysis is based upon, who performs the analysis, and from where the point of impact is measured.

Brief discussion by the Commissioners followed regarding the amended language.

Motion by Emerson, Second by Menhennick that after further review the Planning Commission recommends to the Township Board that rezoning text amendment #105 be approved to read as follows:

- 1. Until an impact area is determined. One Thousand (1,000) feet shall be presumed to be an appropriate distance from any mining operations or structures. The area encompassed by that distance shall be designated the "impact area". If, as a result of review and analysis by the Planning Commission, a site-specific reason based upon health, safety or welfare, as specified in subsection 404,A)2), a) through d) would allow a reduced "impact area" or require an enlarged "impact area" such adjustment may be made as is found to be reasonable.**

AYES: LaPointe, Sanders, DeVooght, Emerson and Menhennick.

NAYS: None

MOTION CARRIED.

NEW BUSINESS:

ANNUAL MEETING - ELECTION OF OFFICERS

Motion by Emerson Second by Menhennick that Sanders be elected as Chair, LaPointe as Vice-Chair, DeVooght as Secretary and Kinnunen as Vice-Secretary for the Planning Commission for the June 1999 to June 2000 meeting year.

MOTION PASSED UNANIMOUSLY.

CONDITIONAL USE PERMIT MOTIONS

Doug Riley advised that as suggested by the Planning Commission at the May meeting, following concerns expressed by Zoning Administrator Maki, he had reviewed the issue of appropriate reviews and motions by the Planning Commission, particularly as they relate to action on Conditional Use Permits. Essentially, the Planning Commission may be inconsistent with addressing the Ordinance required standards of approval in their actions and subsequent motions.

The most appropriate motion references the section of the Ordinance in which the standards are contained and includes that the Planning Commission reviewed and found compliance with those standards. This method is expressed or suggested in the Township Attorney's opinion on this matter dated October 13, 1998. In addition, obviously the minutes should reflect evidence of the review of the individual standards to some degree. In the future, staff reports will provide comments on each of the standards with an opinion on whether they have been achieved and/or suggest conditions that could address deficiencies. The Commission can then review the staff reports and agree or disagree or modify these "findings". This action can be reflected in the minutes and the staff reports, therefore, become part of the public record.

Brief discussion followed. Riley did not believe the Commission needed to adopt or pass any specific motion on this issue, as we will simply attempt to address this issue during future reviews.

ORDINANCE AMENDMENTS - PROBLEMATIC USES

Doug Riley advised that, as suggested by the Commission at the May meeting, he had begun to review the Ordinance for land uses that are not addressed or that could be problematic (e.g. cellular towers, adult entertainment uses, etc.). Riley advised that he had also spoken with Zoning Administrator Maki about items within the Ordinance that have been absent or problematical for zoning administration and would like to address these also. In order to provide the necessary focus on this issue, it was suggested that possibly a standing "Ordinance Amendment Sub-Committee" could be formed to work on these issues and make periodic amendment recommendations to the Commission of the whole.

Emerson expressed his interest in serving on such a committee if the scheduling could be somewhat flexible due to his work obligations. DeVooght stated that she would serve as long as the committee was tightly focused, had a focused agenda and was not simply a "discussion group". Doug Riley stated that he envisioned a committee that would meet approximately once a month or every other month and tackle maybe 3 items per meeting. They would review the options and recommendations presented by himself and Zoning Administrator Maki on amendment alternatives and then make recommendations to the Commission of the whole. Every effort would be made to make the work sessions very focused and action based.

Chairperson Sanders appointed Emerson, DeVooght and himself to a standing Ordinance Amendment Sub-Committee to review and make recommendations on staff suggested Zoning Ordinance Amendments. Supported Unanimously.

CORRIDOR PLANNING

The Planning Commission advised that they had reviewed Doug Riley's memo of June 2, 1999 regarding a corridor planning effort for the US-41 commercial area which would address traffic/access management, landscaping/open space, lighting and drainage in one coordinated sub-area plan.

It was discussed that these types of plans are being encouraged at the local level by the Michigan Department of Transportation to help preserve or enhance the traffic functions of their highways. Subsequently, there may be monies available (through MDOT) to help pay the costs of completing such a plan, especially the access/traffic management element in which a consultant/traffic engineer would have to be hired. There is also money earmarked in the 1999 budget for an "update" of the Comprehensive Plan in which this plan could definitely be considered.

The Planning Commission suggested that Doug Riley further pursue putting this program together. This would include the basic scope of work, preliminary cost estimates, funding sources, etc. for further consideration by the Planning Commission on whether to proceed with this program.

PLANNING DIRECTOR'S REPORT:

1. There are two private road requests off from US-41 that are being worked on that may be submitted for Planning Commission consideration in the very near future.
2. Included in the packets is the Notice of Intent by the DNR for the Marquette to Munising Rail-Trail acquisition. Supervisor Fende is working on the response to this request based on the Township's previous action and official stance on the trail issue (non-motorized versus motorized).
3. The Township Board has agreed to join the Lake Superior Community Partnership pending negotiation of the fee structure.

PUBLIC COMMENT: NONE.

COMMISSIONER COMMENT:

- LaPointe requested that perhaps the Planning Commission could write a letter of support for the Sanders family on US-41 regarding their problem with the Michigan Department of Transportation on installing a "tunnel" for access to their pastureland that is being cut off from the US-41 expansion. After considerable discussion regarding the agricultural and open space policies of the Township, the Planning Commission directed Mike LaPointe and Doug Riley to write a letter from the Planning Commission to the appropriate authorities on this issue.
- Emerson asked if it would be possible to have Larry Gould attend a future meeting to address the garbage collection issue as he indicated he would in his memo of May 24, 1999. Discussion centered on garbage collection issues.
- DeVooght asked if anything had been done regarding contacting Wahlstroms regarding an access drive behind their property?

INFORMATIONAL ITEMS AND CORRESPONDENCE GIVEN TO COMMISSIONERS:

- A. Correspondence from - Larry Gould, DPW Supervisor on Plastic Refuse Bags and Recycling Containers
- B. Correspondence from - Joseph and Margo Riopelle dated April 2, 1999 (response?)

The Planning Commission asked Doug Riley to write a letter to the Riopelles regarding their request for Planning Commission assistance on the rail-trail reversion issue. Said letter to include that the Planning Commission believes this is private legal matter regarding their real estate and that, overall, the Planning Commission still promotes the use of the referenced area of the rail-trail for non-motorized uses.

- C. Correspondence from - MDOT - Faith Assembly of God Church
- D. Minutes - Chocolay Township Board - May 3 and May 17, 1999
- E. Minutes - Zoning Board of Appeals - April 22, 1999 and May 27, 1999
- F. Minutes - AdHoc Water Committee - April 14, 1999
- G. Minutes - AdHoc Trails Committee - May 4, 1999
- H. Minutes - Recreation Committee - May 13, 1999
- I. Minutes Chocolay River Watershed Council - March 31, 1999
- J. Minutes - Lake Superior Watershed Partnership Meeting - April 15, 1999
- K. Notice - MDNR - Notice of Intent for Recreation Grant Project - Marquette-Munising Rail-Trail Acquisition

The meeting was adjourned at 8:45 p.m.

Estelle DeVooght, Commission Secretary

Douglas Riley, Recording Secretary
(Director of Planning and Research)

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, JULY 12, 1999**

PRESENT: **Commissioners** Gary Menhennick, Bill Sanders (arrived 7:35), Estelle DeVooght, Steve Kinnunen, Ken Tabor and Scott Emerson (arrived 7:40)

ABSENT: Mike LaPointe

OTHERS: Doug Riley, Director of Planning & Research, Stacy Busch, Recording Secretary, Larry Gould, DPW Supervisor, Don Britton, Bill Mahan, Bill Stenglein

PUBLIC HEARING-PRIVATE ROAD #13-Stenglein

Acting Chairman DeVooght called the public hearing to order at 7:30. Planning Director Riley gave an overview of Mr. Stenglein's request for approval of the private road under Section 402 of Zoning Ordinance 34. This proposed private road is located off US-41, directly across from Ortman Road in Section 8.

Public Hearing closed at 7:34.

MEETING CALLED TO ORDER:

Acting Chairman DeVooght called the meeting of the Chocolay Township Planning Commission to order at 7:34 p.m.

APPROVAL OF MEETING MINUTES:

The meeting minutes of the regular meeting of the Chocolay Township Planning Commission, dated June 8, 1999 were presented for approval.

Moved by Commissioner Menhennick, supported by Commissioner Kinnunen, that the June 8, 1999 meeting minutes be accepted as presented. Motion carried.

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Moved by Commissioner Menhennick, supported by Commissioner Sanders, to adopt the agenda as changed, moving New Business C ahead of New Business B. Motion carried.

PUBLIC COMMENT: None

NEW BUSINESS:

PRIVATE ROAD #13-Stenglein

Commissioner comments were:

- Have there been any comments on the 5' offset?
- Is the cul-de-sac the right size?
- Has the road permit been filed with MDOT?

Menhennick moved, DeVooght second that after review of Private Road request #13; the standards of Section 402,D of Ordinance 34; and the STAFF/FILE REVIEW - SITE DATA AND ANALYSIS, and subsequently finding compliance with the standards for approval of the private road request, the Planning Commission recommends approval to the Township Board with the following conditions:

- 1) The centerline of the private road be offset 5' to the south of the centerline of Ortman Road at the US-41 Intersection so as to retain a 63' setback from the Brown residence to the centerline of the proposed road.
- 2) A covenant be established on the deeds for any parcels created off from this private road identifying the private road status and which reference the Declaration of Easement which must be fully executed.
- 3) The applicant is required to provide certification from a surveyor that the private road standards of the Ordinance have been achieved at the conclusion of construction.
- 4) The applicant pays for and installs a road name and stop sign at the intersection of the road and US-41.
- 5) The applicant comply with the conditions and requirements of all other agency regulations including the Michigan Department of Transportation for the road connection to US-41.
- 6) The applicant investigate the need for a culvert under the road approximately 200' from US-41 to allow for north to south drainage.

- 7) The Declaration of Easement include wording to provide access to the Township and other public agencies to provide services on the road.
- 8) A zoning compliance permit shall be issued after all of the above conditions are met.

It should also be noted for the record that any development on lot created to the south of the road may experience soils, floodplain or wetland constraints towards the rear of the lots.

MOTION CARRIED

DISCUSS-RECYCLING/TRASH BAGS

Commissioner Comments:

- Is it possible to buy or lease containers for garbage and recyclables and do away with trash bags?
- Make recyclable containers standardized.
- Our township needs to take the lead and voice our concerns to the landfill.

Larry Gould comments on this issue were:

1. **PLASTIC REFUSE BAGS** – The landfill director raised this issue last year and there has been some controversy over whether there is a need to change. There was also discussions as to what acceptable alternatives are available. As you may recall, several years ago there was a biodegradable garbage bag on the market that did not work and no one has developed a new product. The landfill director wanted municipalities to discontinue the use of plastic bags since they felt it would help the deterioration of the refuse that is buried in the landfill. The issue was raised that with the compacted and baled refuse the recirculation of leachate still would not be able to readily be absorbed into the refuse to accelerate the deterioration process. The Township suggested that the landfill purchase a bag shredder to be used prior to baling or if they could come up with a cost effective and acceptable alternative it would be considered. I noticed in the landfill proposed budget they have requested funds for a bag shredder.

The other part of the bag issue is that the public does not want to go back to garbage cans. Last winter the city surveyed their residents and the residents did not want to go back to cans. One other thing that should be mentioned is that our contract with the refuse collector would have to be revisited since it deals with bags, and whether cans would be more costly to deal with.

2. **RECYCLING CONTAINERS** – This issue was discussed when we contracted out curbside recycling. Since that time there has not been any serious discussions about reusable containers for recyclables. A lot if people think the current system is good since they can use containers (grocery bags, etc) that they would otherwise dispose of at a cost. If there was enough interest to improve the current system then the issue could be addressed with our contractor.

It was suggested that perhaps we could consult with Northern Refuse on recycling bins for the recyclables and see what the price difference would be for using garbage containers versus bags.

DISCUSS-KAWBAWGAM CROSS COUNTRY SKI-TRAIL/POCKET PARK

Doug Riley gave an overview of what the AdHoc Trails Committee have proposed for the idea of a Cross County Ski-Trail and Pocket Park. It is proposed that the trail head/pocket park be located on the Township owned property on Kawbawgam Road and the ski-trail would then run east. The draft plan/map was reviewed with the Commissioners.

This proposed project has been preliminarily reviewed by the Recreation Committee and the Township Board. Essentially, the Recreation Committee supported the ski-trail as a short-term project and the pocket park as a proposed long-term project. The Township Board subsequently supported both elements of the project pending the resolution of all necessary commitments (easements, funding, maintenance, etc.) as proposed by the Ad Hoc Trails Committee.

This project, as proposed, will require the Planning Commission's future review and recommendations on the following:

- 1) A rezoning of the Township property to either Public Lands or RR-1. (The property is currently zoned C-1 and RR-2. The C-1 zoning does not allow "parks" and the RR-2 requires 20 acres or more for "parks".

- 2) A Conditional Use Permit to allow the overall "trail" (off Township property).
- 3) Planning Commission review of the site/development plan for the park.
- 4) Inclusion in the Township's Recreation Plan (future amendment/adoption)

These review items may be placed on the Planning Commission's August meeting if all submittal materials (easement, funding, etc.) have been acquired and are in to the Township in time to meet rezoning publication requirements for the required public hearings.

Don Britton stated that he is looking for suggestions from the Planning Commission on the proposed trail.

Commissioner Comments:

- It was suggested that the trails committee get some input from knowledgeable skiers in the planning process.
- Two problems with the proposed trail is that it is in close proximity to the snowmobile trail, the two trails cross over each other, which makes it unsafe.
- Signage needs to be clear.
- There should be a solid contractual agreement for grooming (concerned about volunteer grooming).
- Maybe have user fees for trail also.
- This trail should have something different to offer than all of the other trails in the area.
- Good plan.
- Potential expansion by using state land.

DISCUSS-BURNING BARRELS/OPEN BURNING

At the June 21, 1999 Board of Trustees Meeting, two residents on Briarwood complained regarding burning barrels in their neighborhood. The Township Board suggested that this issue be discussed by the Planning Commission as well as being placed on the next agenda of the Board of Trustees.

The Township Board has discussed this issue as late as July of last year. At the July 20, 1998 Board meeting, the minutes reflect that no action was taken on adopting specific regulations.

Essentially, right now the Township has no specific regulations or Ordinance to regulate this activity. The State of Michigan has statewide regulations and is the enforcing agent minus local laws. Regarding burning barrels, these are permitted for 1 or 2 family dwellings (no businesses) in an approved container for the burning of trash as long as they do not violate other air pollution rules (i.e. those limiting smoke and smells).

Of course, the issue of burning regulations largely comes down to enforcement, and the questions are:

- 1) Is there a need for local regulations?
- 2) Does the Township have the desire or resources to become the enforcing agency in this area?

Commissioner Comments:

- Have we gotten a lot of complaints?
- Why have it if we have not gotten any complaints?

It was indicated by staff that we had received approximately 4 complaints in 5 years. It was recommended by the Planning Commission not to pursue a burning barrel/open burning ordinance at this time.

CONSIDER-2000 BUDGET

Doug Riley suggested to the Planning Commission that he proposed no major changes from last year's budgeted amounts, except for increasing the committee meeting per diems for additional meetings for Ordinance amendment work, etc. and including \$500 for Miscellaneous.

In regards to the GIS support line item, the County is applying for a grant through the Land Information Access Association in which parcel based mapping for the entire County may be

achieved. (See the Michigan Association of Counties letter to Steven Powers, which is included in the Informational Items of your packet). If this occurs, in which they say the County has a good chance of receiving the grant, our parcel based mapping would be achieved. The Grant is for roughly \$250,000 in which \$60,000 must be pledged by the County and community. The County is pledging \$30,000 and has asked the Townships, Cities, and other agencies (schools, SCS, etc.) to pledge the other \$30,000. I am recommending that the \$2,500 in this years budget for GIS support be pledged by the Township in achieving this countywide initiative (i.e. we may be able to achieve our base parcel mapping for \$2,500 versus last years quote of \$26,000; along with being able to integrate with the County's system).

Riley would also suggested that we again request \$5,000 under Capital Outlay - Consultant - to allow us to contract for work on completion of some element of the Corridor Plan, major ordinance amendment work or perhaps necessary survey work.

PLANNING DIRECTOR'S REPORT:

1. The first meeting of the Planning Commission Ordinance Amendment sub-committee addressed the issue of kennels in the RP District, minimum lot sizes and widths for the C-1, C-2, and C-3 Districts and Seasonal Roads. Amendments were recommended on the kennels and minimum lot size issues and the public hearing/Planning Commission review will be in August.
2. The Township has joined the Lake Superior Community Partnership and Ivan Fende is the representative and Doug Riley is the alternate.
3. Spoke with Burger King/Ameriking and it will be spring before they re-approach the Township regarding their proposed new facility on M-28 and US 41 and they have hired a contractor to mow the lawn every couple of weeks.

PUBLIC COMMENT: None

COMMISSIONER COMMENT

Commissioner Menhennick spoke with Wahlstroms and they expressed interest in discussing corridor effort and possible drive connection to M-28.

Commissioner DeVooght-can we address cell towers/antennas as a future regulation/amendment item.

INFORMATIONAL ITEMS AND CORRESPONDENCE GIVEN TO COMMISSIONERS:

- A. Correspondence - Joseph and Margo Riopelle - Re: Rail/Trail Reversion
- B. Correspondence - MDOT - Re: Sanders Farm
- C. Correspondence from - MDOT - Re: Sanders Farm

The meeting was adjourned at 9:02 p.m.

Estelle DeVooght, Commission Secretary

Stacy L. Busch, Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, AUGUST 9, 1999**

PRESENT: Commissioners Gary Menhennick, Mike LaPointe, Estelle DeVooght Ken Tabor and Scott Emerson.

ABSENT: Bill Sanders, Steve Kinnunen.

OTHERS: Doug Riley, Director of Planning & Research, Stacy Busch, Recording Secretary, Don Britton, Sam Elder, Mike Beltz, Bill Todd, James & Betty Thompson

PUBLIC HEARING-CONDITIONAL USE #55-Recreational Structure on Mangum Road

Acting Chairman LaPointe called the public hearing to order at 7:30. Planning Director Riley gave an overview of Mr. Thompson's Conditional Use request for a recreational structure (camp) on Mangum Road, approximately 1,500 feet east of Kawbawgam Road in Section 17. The key element for this proposed use is that the applicants have already received Health Department approval for a septic system. No other intensive services are envisioned. The other key is that this request must be for "recreational structure use" only and cannot be converted to a year round residence (especially since as a mobile home does not meet the minimum residential standards of Section 401) and any approval must be conditioned on such.

Public Hearing closed at 7:32.

PUBLIC HEARING-REZONING #106-TEXT AMENDMENT-Kennels in RP District and Minimum Lots Sizes and Widths for C-1, C-2 and C-3 Districts

Acting Chairman LaPointe called the public hearing to order at 7:32. Planning Director Riley gave an overview of Rezoning #106, which entails two proposed zoning ordinance text amendments that were presented to the Planning Commission's Ordinance Amendment Sub-Committee by staff. The Sub-Committee subsequently concurred with staff and recommended that these amendments be presented to the Planning Commission and Township Board for consideration.

Kennels in the RP District:

Currently the ordinance allows kennels in the RP District but as a Permitted Principal Use. This could be problematic as it allows for no public review/hearing and requires no minimum site area. Kennels can be one of the most problematic land uses as far as nuisance elements and a formal review is clearly needed for the RP District in which they may be proposed.

The recommended option is to make it the same as the RR-2 District where they are allowed as a "Conditional Use on 20 acres or more." This would create a public hearing/review and formal Planning Commission/Board review to address appropriate nuisance issues.

Public and Commissioner comments as followed:

Bill Todd-Is this for new applicants?

Planning Director Riley-Any expansion would have to come to the Planning Commission for Conditional Use approval.

Commissioner Emerson-We see this as a way of getting rid of a problem before it happens.

Sam Elder-Are kennels only allowed in the RP District?

Minimum Lot Sizes/Widths for C-1, C-2, and C-3 Districts

The Ordinance does not currently establish minimum lot sizes and widths for these commercial zoning districts. This could lead to multiple, small, inadequate lots being created under the Land Division Act.

The recommended option would be to establish minimum standards in Section 300-Height and Placement Regulations

C-1	125' width	25,000sf
C-2	125' width	25,000sf
C-3	150' width	1 acre

Public and Commissioner Comments as followed:

Commissioner Menhenick-Could they go to the Zoning Board of Appeals for a variance? Is there any rush on the commercial side of this?

Planning Director Riley-Yes on first question, No on second question.

Public Hearing closed-7:40 p.m.

MEETING CALLED TO ORDER:

Acting Chairman LaPointe called the regular meeting of the Chocolay Township Planning Commission to order at 7:40 p.m.

APPROVAL OF MEETING MINUTES:

The meeting minutes of the regular meeting of the Chocolay Township Planning Commission, dated July 12, 1999 were presented for approval.

Moved by Commissioner Emerson, supported by Commissioner Menhennick, that the July 12, 1999 meeting minutes be accepted as corrected. Motion carried.

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

It was suggested to move Old Business after New Business

Moved by Commissioner DeVooght, supported by Commissioner Menhennick, to adopt the agenda as changed, moving New Business ahead of Old Business . Motion carried.

PUBLIC COMMENT: None

NEW BUSINESS:

Conditional Use #55 - Recreational Structure (Camp) on Mangum Road, East of Kawbawgam Road

Commissioner Comments:

Could the Thompson’s build a house there if they wanted to?

Let it also be noted for the record that Mike Morgan has no objection to this request.

Menhennick moved DeVooght second that after review of Conditional Use request #55; the standards of Section 701 and other applicable standards contained in the Township Zoning Ordinance; and the STAFF/FILE REVIEW - SITE DATA AND ANALYSIS; and subsequently finding compliance with the standards for approval of the request, the Planning Commission approves Conditional Use Permit request #55 with the following conditions:

- 1) That this recreational structure cannot be converted to a permanent place of domicile or residency without receiving approval from Chocolay Township.
- 2) The applicant comply with the conditions and requirements of the Road Commission for the existing driveway.
- 3) That the applicant obtain a zoning compliance permit from the Township Zoning Administrator.

MOTION CARRIED

REZONING #106-Text Amendment-Kennels in RP District and Minimum Lot Sizes for C1, C2 and C3 Districts

Menhennick moved Emerson second that the Planning Commission recommend approval of Rezoning #106 to the Township Board for a text amendment to Zoning Ordinance #34 to amend Section 212 (RP District) to change Kennels from being a Permitted Principal Use to a Conditional Use on 20 acres or more and to amend Section 300 to establish minimum lot sizes and widths for the C-1, C-2 and C-3 Districts.

MOTION CARRIED

PRELIMINARY PLAT-TENTATIVE APPROVAL-EWING PARK NO 2

Comments:

- Are the utilities underground?
- Would the church have potential sewer hook-up?
- Do the lots have sewer now?

Menhennick moved Emerson second that following review of the proposed Preliminary Plat of Ewing Park No. 2 dated 7/26/99 the Planning Commission recommends Tentative Approval of the Preliminary Plat to the Township Board with the following conditions:

- 1) That approval grants the proprietor approval of lot sizes, lot orientation, and street layout for a period of 1 year.
- 2) That the proprietor comply with the requirements of Chocolay Township Wastewater Ordinance #39 and any other additional requirements of the Department of Environmental Quality for the proposed sewer extensions.

MOTION CARRIED

PRELIMINARY PLAT-TENTATIVE APPROVAL-ELDERWOOD

Comments:

- The 50’ buffer strip would be reasonable.
- No trees are being cut down that do not have to be cut.
- What are the setbacks?
- Are there additional setbacks for corner lots?

Emerson moved Menhennick second that following review of the proposed Preliminary Plat of Elderwood Subdivision dated 7/26/99 the Planning Commission recommends Tentative Approval of the Preliminary Plat to the Township Board with the following conditions:

- 1) That approval grants the proprietor approval of lot sizes, lot orientation, and street layout for a period of 1 year.
- 2) That the proprietor comply with the requirements of Chocolay Township Wastewater Ordinance #39 and any other additional requirements of the Department of Environmental Quality for the proposed sewer extensions.

Also, the Planning Commission recommends to the proprietor and the Road Commission that the plat include language, as well as the subdivision deed restrictions, that lots #2 and #3 are to have no street access (curb cuts) to Ortman Road.

MOTION CARRIED

DISCUSS-REZONING REQUEST #103-Hlinak R-4 to R-3

Time has run out for this request. Should it be scheduled for next meeting and notify property owners again. This needs some action.

DeVooght moved Tabor second to deny this request and see where it goes from there and notify the landowners.

MOTION CARRIED

PLANNING DIRECTOR’S REPORT:

1. Recycling
2. Corridor Plan update
3. Burning Barrels
4. Board approval –Stenglein
5. Fire Chief-Gary Johnson
6. Trails Committee Recommendation

Menhennick moved, Emerson second that the Planning Commission support the Trails Committee recommendation to the Board and Department of Public Works on pursuing the construction of a bike path/sidewalk along Silver Creek Road from the overpass to the Silver Creek School.

PUBLIC HEARING-REZONING #107-TEXT AMENDMENT-Accessory Housing

Chairman Bill Sanders called the public hearing to order at 7:30. Planning Director Riley gave an overview of Mr. Copeman's request for amending the zoning ordinance to allow "accessory housing" for elderly parents or other family members.

Staff has completed a rather extensive review of this issue, (knowing that allowing these units can be problematical). Subsequently, we also discussed this issue with the Planning Commission's Ordinance Amendment Sub-Committee. We agreed that perhaps provisions should be made to allow such housing, especially due to the social issue of our aging populace and the need for alternate "assisted living accommodations". However, it is believed that any such Ordinance provisions should be rather restrictive in order to avoid these units from becoming duplexes or rental apartments and changing the character of the single family districts in which they may be located. Therefore, staff has reviewed the literature on this issue and several existing Ordinances regarding this use and utilized the best of these to recommend our own text amendment language to address these concerns.

The key elements of our proposed text amendment language is the following:

- 1) It creates an adequate definition of what is permitted as "Accessory Housing" and limits it to the parent(s) or grandparent(s) of the owner-occupiers of the single-family dwelling. (i.e. does not allow rentals for unrelated persons).
- 2) Adds this use as being permitted as a Conditional Use in the districts permitting single family homes. This is very important as it provides for public notice and adjacent property owner notification and the stricter review powers afforded the Planning Commission.
- 3) There is a floor area limitation to the size of the accessory housing unit.
- 4) Exterior elevation drawings (i.e. renderings) are required to be submitted to allow the Planning Commission and the public (adjacent property owners) to determine that there will be no visible change from that of a typical single family structure. (i.e. to avoid the appearance of a duplex).
- 5) The applicant is required to file an affidavit with the Registrar of Deeds indicating that the accessory housing unit is for a parent or grandparent only. (i.e. to prevent someone from purchasing the home unknowingly as a duplex).

While these provisions may not be flawless, and undoubtedly some enforcement problems could arise, at least we have the basis for adequate reviews and standards to limit adverse impacts to any residential area where they may be proposed.

One letter was received on this issue from Mr. & Mrs. Arnold. Riley reviewed this letter and advised that he had spoken with the Arnolds.

Public hearing closed at 7:39 p.m.

PUBLIC HEARING-REZONING #108-TEXT AMENDMENT-Site Plan Review

Chairman Bill Sanders called the public hearing to order at 7:39. Planning Director Riley gave an overview of Rezoning #108, which is a proposed text amendment to the Site Plan Review section of the Ordinance to exempt limited site and building changes from requiring Site Plan Review by the Planning Commission. This needed amendment was discussed with the Planning Commission's Ordinance Amendment Sub-Committee last month. The Sub-Committee subsequently concurred with staff and recommended that this amendment be presented to the Planning Commission and Township Board for consideration.

The basis for the amendment is because staff has witnessed that the new Site Plan Review requirements have proven rather burdensome (in regards to time and money) for many existing or prospective businesses desiring to change uses or make minor site improvements or additions

to their structures. The current Site Plan Review language requires that "any proposed use or building or any other improvement requiring a site plan shall not be issued until a Final Site Plan has been reviewed and approved...". The Ordinance then gives three exceptions that do not require formal Site Plan Review by the Planning Commission: (1) one and two family dwellings, (2) temporary building and structures and (3) accessory uses or structures.

An additional exception needs to be created to allow administrative review and approval of other "minor" changes. A classic example where this is needed is John Weting's office building immediately south of A&W where the businesses occupy individual suites. A beauty shop is proposed to be placed in one of the suites. Clearly, an Ordinance permitted business should not have to wait and receive formal Site Plan Review by the Planning Commission before being approved to go in, especially if the use only triggers a few additional parking spaces and no other Ordinance requirements.

Therefore, staff and the Ordinance Sub-Committee proposes the attached text amendment to address this problem. This is rather "typical" ordinance language that many Zoning Ordinances have to allow administrative review of such limited changes.

Public hearing closed at 7:42 p.m.

PUBLIC HEARING-CONDITIONAL USE #56-Wennerberg-Storage Building

Chairman Bill Sanders called the public hearing to order at 7:42. Planning Director Riley gave an overview of Conditional Use #56, Jon Wennerberg has requested Conditional Use Permit approval, including Site Plan Review, for two (2) mini-storage and two (2) R/V storage buildings. These buildings are proposed immediately west of Mr. Wennerberg's Star Industries facility at 115 Industrial Drive (Varvil Center).

Public hearing closed at 7:44 p.m.

PUBLIC HEARING-Private Road request #14-Peterson

Chairman Bill Sanders called the public hearing to order at 7:44. Planning Director Riley gave an overview of Cathy and Gary Peterson's requested approval of a private road under Section 402 of Zoning Ordinance 34. This proposed private road is located east off US-41 just north of the Beaver Grove Recreation Area in Section 16. (Proposed on the property previously recognized as the DeVooght property).

Staff has identified three primary concerns with the proposal. These are: 1) no cul-de-sac is proposed to be provided; 2) the soils near the connection to US-41 appear to be questionable and may need to be tested; and 3) the proposed maintenance and access provisions proposed are a little different than standard and need to be explored further.

In addition, the DPW Director and Fire Department has identified several concerns that the applicant also needs to explore and address. Therefore, staff is recommending that the Planning Commission conduct the Public Hearing on this item but then TABLE the request for one month in order to give the applicant, and the Township, an opportunity to further explore and clarify the identified concerns.

Public hearing closed at 7:45 p.m.

REGULAR MEETING CALLED TO ORDER:

Chairman Sanders called the regular meeting of the Chocolay Township Planning Commission to order at 7:45 p.m.

APPROVAL OF MEETING MINUTES:

The meeting minutes of the regular meeting of the Chocolay Township Planning Commission, dated August 9, 1999 were presented for approval.

Moved by Commissioner Menhennick, supported by Commissioner LaPointe, that the August 9, 1999 meeting minutes be accepted as presented. Motion carried.

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Moved by Commissioner Kinnunen, supported by Commissioner Emerson, to adopt the agenda as presented. Motion carried.

PUBLIC COMMENT: None

NEW BUSINESS:

Rezoning # 107-Text Amendment-Accessory Housing

Commissioner Comments:

Do any other areas have square footage limitations? This should be limited to 300 sq. ft.

Answer: Yes, AARP requirements are 280 sq. ft for 1 person and 400 sq. ft. for 2 persons, maximum being 900 sq. ft.

We are worried about these additions turning into rental units.

This use should be limited to parents and grandparents only.

What about incapacitated children?

Is this for a separate structure or an addition?

Has the attorney reviewed this yet?

It was felt that a larger sq. ft. should be allowed.

Public comment:

The size limit of 300' is smaller than an apartment.

This may be discriminatory to say that you can add on but not allow a family member to move in.

Menhennick moved Emerson second that the Planning Commission recommend approval of Rezoning #107 to the Township Board for a text amendment to Zoning Ordinance #34 as drafted on the "STAFF RECOMMENDED TEXT AMENDMENTS TO ALLOW ACCESSORY HOUSING" dated August 24, 1999 to create provisions to permit the conversion of a single family dwelling to include an accessory apartment as a means of accommodating an elderly parent(s) or grandparent(s).

Under SECTION 101 - DEFINITIONS **add** the following language:

"ACCESSORY HOUSING UNIT: A complete, self-contained dwelling unit created within or attached to a permitted existing detached single-family dwelling that provides accommodations for the elderly parent(s) or grandparent(s) of the owners-occupiers of the single family dwelling".

Under Subsection C (CONDITIONAL USES) in SECTIONS: 202 (DISTRICT R-1); 203 (DISTRICT R-2); 206 (DISTRICT LS/R); 207 (DISTRICT RR-1); 208 (DISTRICT RR-2); 212 (DISTRICT RP) and 213 (DISTRICT OS) **add** the following language:

"Accessory Housing Units for the elderly parent(s) or grandparent(s) of the owner-occupiers of a single-family dwelling as permitted under Section 107 (C)."

Under SECTION 107 - ACCESSORY USES AND STRUCTURES **add** a subsection (C) which reads:

"Accessory Housing Unit: It is the intent of this section to provide standards that will allow extended family living in what have traditionally been detached single-family only zoning districts or neighborhoods. Such provisions will permit the conversion of a single-family dwelling to include an accessory apartment as a means of accommodating an elderly parent(s) or grandparent(s). It is the intent that by providing housing opportunities for the elderly that a vital need can be met without diminishing the quality of the affected neighborhood; this allows independence and yet close contact to younger family members.

- 1) Accessory Housing Units shall meet the following requirements:
 - a) Only owner-occupiers are permitted to install and/or maintain accessory housing units.
 - b) Occupancy of the accessory housing unit is limited to the parent(s) or grandparent(s) of the occupants of the single-family dwelling.
 - c) Accessory housing units are required to be attached to the single-family dwelling and shall not increase the floor area of the single family dwelling by over 30%, and in no case shall any accessory housing unit exceed 1,000 square feet.
 - d) There shall be no visible change in the exterior appearance of the dwelling containing the accessory housing unit that will alter the single-family appearance of the dwelling. Exterior elevation drawings, architectural renderings and floor plans of the existing/proposed structure are required to be submitted for review as part of the Conditional Use application.
 - e) All improvements associated with construction of the accessory housing unit shall meet current applicable codes including approval of the Health Department for any needed improvements

to the on-site septic system if applicable. Utilization of the existing septic system, without creating a new/separate system is encouraged and Health Department permits shall be provided to the Township by the applicant.

- f) Separate sale or ownership of the accessory housing unit from the primary dwelling on a lot or parcel is prohibited. Upon conditional use approval of any accessory housing unit, the owner shall file an affidavit with the Registrar of Deeds for the parcel indicating that said accessory housing unit is for use by only a related parent or grandparent.
- g) Any additional parking as needed or required by this Ordinance shall be provided in off-street space.
- h) Conditional Use approval of accessory housing units are valid for a period of five (5) years subject to Planning Commission review of requested five (5) year extensions.
- i) Upon the cessation of use of the accessory housing unit by the parent(s) or grandparent(s) of the owner-occupiers of the single-family home, said accessory housing unit shall be removed or converted to remove the individual floor plan elements (such as a separate/duplicate kitchen facilities) that functionally create a separate dwelling unit.
- j) The Planning Commission may impose any other reasonable conditions deemed necessary to protect adjoining properties, to retain the residential character of the neighborhood and to protect the public health, safety and welfare.

MOTION CARRIED

REZONING #108-Text Amendment-Site Plan Review

Planning Commission believes that if the site plan review process is expedited and nothing is being changed, to them this is a good thing.

Menhennick Moved Kinnunen Second that the Planning Commission recommend approval of Rezoning #108 to the Township Board for a text amendment to Zoning Ordinance #34 under SECTION 502 (SITE PLAN REVIEW) subsection B.1.a. to add a subsection (4) which would read:

- "4) A change of use to another permitted principal use in the respective zoning district, or an expansion to any one (1) existing permitted building, which, in either case, does not increase the building floor area by over 20%, or increase the parking requirements not already developed on the site by over 20%, and in which there are no changes in access locations or other site improvements (including but not limited to landscaping) being made."

MOTION CARRIED

CONDITIONAL USE REQUEST #56-WENNERBERG-STORAGE BUILDING-Industrial Drive

Comments:

Would the fence placement be on the property?

Does this coincide with other mini-storages?

Are floodlights proposed?

What about a gate mechanism?

Emerson moved Menhennick Second that after review of Conditional Use request #56; the standards of Section 701 and Section 504 and other applicable standards contained in the Township Zoning Ordinance; and the STAFF/FILE REVIEW - SITE DATA AND ANALYSIS; and subsequently finding compliance with the standards for approval of the request, the Planning Commission approves Conditional Use Permit request #56 with the following conditions:

- 1) That the center aisle lanes, and any lanes providing access to storage doors, be left with a 20' unobstructed area to allow customer access/maneuvering as well as for providing access for emergency vehicles.
- 2) That the applicant provide the Township with authorization and provisions to access the gate for emergency purposes.

- 3) That the applicant provide the Fire Department with a final set of building plans detailing the fire breaks within the buildings.
- 4) That this parcel cannot be further split or subdivided.
- 5) That the applicant obtain a zoning compliance permit and land division approval from the Township Zoning Administrator.

MOTION CARRIED

PRIVATE ROAD REQUEST #14 –Peterson

Commissioner comments on Township concerns:

1. Cul-de-sac
2. Soil testing
3. Maintenance of road.

Is the application for the whole road?

Road should be part of proposed 5 acres parcels.

Might facilitate selling of land if there was a cul-de-sac.

Are there any current private roads without cul-de-sacs?

Felt that a temporary cul-de-sac could be put in and then abandoned when road is extended.

Sanders Moved, DeVooght Second that after review of Private Road request #14; the standards of Section 402,D of Ordinance 34; and the STAFF/FILE REVIEW - SITE DATA AND ANALYSIS, and identifying several concerns with the proposal as detailed in the STAFF/FILE REVIEW and the DPW Director and Fire Department's Review, the Planning Commission TABLES this request for one month in order to give the applicant, and the Township, an opportunity to further explore and clarify the identified concerns.

MOTION CARRIED

SITE PLAN REVIEW #99-1-Family Dollar

Commissioner Comments:

- Are the other 2 stores and the number of parking spaces the same?
- Could a 100-year storm system be put in?
- Can the driveway be moved?
- Suggestion to demo house and move building, and rezone.
- Change parking size and add more green area.
- Can you tie into 12-inch storm sewer?
- Is infiltration good for the environment?
- Is it feasible to add a larger sump?
- Concerns about preserving the trees.
- Feels that Family Dollar should come back next month with a revised site plan and reduction in parking and more landscaping.
- Suggested that Family Dollar seek a parking space variance from the Zoning Board of Appeals.

Gary Shane-Family Dollar completes parking studies and the maximum number of cars in the parking lot at one time is 15-20.

Bob Cambensy-Driveway is possible to be moved. 100-year storm is possible also. Not a whole lot can be done with landscaping in the front of the building.

Emerson Moved, Menhennick second that after review of the standards of Section 504 and other applicable standards contained in the Township Zoning Ordinance; and the STAFF/FILE REVIEW - SITE DATA AND ANALYSIS; and identifying several concerns with the proposal as detailed in the STAFF/FILE REVIEW and DPW Director and Fire Department's Review, the Planning Commission TABLES this request for one month in order to give the applicant an opportunity to amend their plans to address these concerns and that the applicant pursue a parking space reduction through the Zoning Board of Appeals and add more landscaping along US-41.

MOTION CARRIED

SITE PLAN REVIEW REQUEST #99-2-Bayshore Veterinary Hospital

Tim Hunt-My intent is to change the Bayou House to a veterinary clinic hospital and maintain the home. I don't want to change anything else. Change for parking and to make handicap accessible.

Commissioner Comments:

- Is there a 2nd driveway?

Menhennick moved, Kinnunen second that after review of the standards of Section 504 and other applicable standards contained in the Township Zoning Ordinance; and the STAFF/FILE REVIEW - SITE DATA AND ANALYSIS; and subsequently finding compliance with the standards for approval of the request, the Planning Commission approves Site Plan Review Request #99-2 with the following conditions:

- 1) That the handicapped space be signed in accordance with State Barrier free requirements.
- 2) That a One-Way traffic sign be placed near the southeast corner of the facility to channel and train traffic that the secondary driveway is for egress purposes.
- 3) That the applicant obtain a permit from the Michigan Department of Transportation for the driveway improvements to US-41.
- 4) That the applicant obtain a Zoning Compliance permit from the Zoning Administrator.

MOTION CARRIED

TRAIL DEVELOPMENT-EMERSON CORRESPONDENCE

Scott Emerson presented his proposal dated September 8, 1999 regarding a solution to the snowmobile trail routing dilemma that has been confronting the Township. This proposal would include contacting Ameritech to establish a non-motorized trail on the abandoned railroad grade from Chocoy Downs to the State Information Center. In addition, approval would be sought to allow a winter use motorized trail on the abandoned railroad grade from the east edge of the Township to Chocoy Downs, then on the south side of the M-28 right of way to the overpass, then along the north side of M-28 to the US-41/M-28 intersection and the summer bike path. He stated that while this route may not be perfect, it may be the safest and most doable access through the Township, particularly in order to get the snowmobiles through our primary commercial corridor.

Gary Peterson-These trails are nice but when the weather is bad these people use the roads, which is a bad, unsafe situation.

Emerson encouraged the Planning Commission to support a group meeting with the decision-makers at Ameritech, MDOT, DNR, CABA, members of the Planning Commission and the Township Board to move forward on this issue.

It was discussed that any such meeting be scheduled for an Ad Hoc Trails Committee meeting as this group has been working on this issue and would be the best to facilitate such a meeting. Perhaps the October trails meeting could host such a discussion.

Jim Mitchell-stated that he believed the Planning Commission is making the same mistake that has been made in the past by not contacting the affected property owners prior to any such meetings. Part of the problem is that there are too many groups studying this issue and that is part of the problem and opposition to the trail.

Emerson moved, Sanders second that the Planning Commission offer a resolution of support to the Township Board to bring the necessary parties together with the goal of achieving an approved overlay trail route.

Motion Carried

PLANNING DIRECTOR'S REPORT:

1. Township Board-Approved Elder Plats
2. Pocket Park-Letter of funding
3. Rezoning #107 received recommendation of 2-text amendments approval from the County.
4. Recycling- Will be on next agenda and will ask Larry to attend meeting

PUBLIC COMMENT:

Cathy Peterson-Believes Mr. Emerson's study is terrible and the property owners along M-28 did not "buy into" a trail in front of their homes.

COMMISSIONER COMMENT: None

INFORMATIONAL ITEMS AND CORRESPONDENCE

The meeting was adjourned at 10:35 p.m.

- A. Minutes - Chocolay Township Board - August 16, 1999
- B. Minutes - AdHoc Trails Committee - August 3, 1999

Estelle DeVoight, Commission Secretary

Stacy L. Busch, Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, OCTOBER 11, 1999**

PRESENT: **Commissioners** Gary Menhennick, Mike LaPointe, Estelle DeVooght, Ken Tabor, Scott Emerson, Bill Sanders, and Steve Kinnunen

ABSENT: None

OTHERS: Doug Riley, Director of Planning & Research, Don Britton, John Smith, Tom Mahaney, Sharon Roshak, Robert Cambensy and Gary Shane

**PUBLIC HEARING - CONDITIONAL USE #57 - CHOCOLAY CHARTER TOWNSHIP
- CROSS COUNTRY SKI TRAIL**

Chairperson Sanders opened the public hearing at 7:30 p.m. Planning Director Riley indicated that, as of today, the Township had not received any calls or correspondences in response to the Public Hearing notice or property owner notifications.

No other public comment. Chairperson Sanders closed the public hearing at 7:31 p.m.

REGULAR MEETING CALLED TO ORDER:

Chairman Sanders called the regular meeting of the Chocolay Township Planning Commission to order at 7:32 p.m.

APPROVAL OF MEETING MINUTES:

The minutes of the regular meeting of the Chocolay Township Planning Commission, dated September 13, 1999 were presented for approval.

Moved by Commissioner LaPointe, supported by Commissioner Menhennick, that the September 13, 1999 meeting minutes be approved as presented. Motion carried.

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Moved by Commissioner Menhennick, supported by Commissioner Kinnunen, to adopt the agenda as presented. Motion carried.

PUBLIC COMMENT: None

OLD BUSINESS:

PRIVATE ROAD REQUEST #14 - PETERSON

The Planning Commission received Cathy Peterson's October 6, 1999 letter requesting that the Planning Commission table her private road request until January, 2000 in order to allow her to work on her proposal.

Moved by Commissioner Menhennick, supported by Commissioner Sanders to Table Private Road Request #14 until the January 2000 Meeting. Motion carried.

SITE PLAN REVIEW #99-1-FAMILY DOLLAR

Planning Director Riley indicated that Family Dollar had submitted a revised site plan. The revised site plan addressed the three primary concerns that had been previously identified. The first being that the access drive location had been shifted approximately 60' to the west to create a larger vehicle stacking area from the US-41 and Wright Street intersection which should greatly increase the safety at the intersection. The second is that the applicant received a variance from the Township Zoning Board of Appeals to the required number of parking spaces, being reduced to 33 required, which decreased the amount of impervious surface and subsequently retained additional existing trees on the site and created additional open space for trees to be planted. Third, the stormwater retention system has been re-designed/enlarged to accommodate a 100 year storm event, versus a 10 year storm event.

Staff's memorandum recommending for approval with conditions was reviewed with the Commission. Commissioner Emerson explained an idea to leave the two parking spaces in the southeast corner of the site plan and eliminate the two spaces in the northeast corner and plant large trees in this area, as well as along the east boundary of the site along US-41, in order to "pull" some landscaping toward the road. He also suggested that perhaps the applicant could utilize downward directed or shielded lighting for the parking lot.

Discussion centered on the Board of Appeals approval of the parking space variance and whether this relocation of parking spaces would conflict with their ruling.

Gary Shane, representing the applicant, indicated that they typically like to construct their building and then look at where trees or landscaping should go.

The Planning Commission discussed the landscaping options with the applicant. Planning Director Riley indicated that a condition on the lighting is not inappropriate as a customary condition to protect the neighboring properties from adverse lighting impacts. Discussion also centered on landscaping/buffering for the west property line and underground versus above ground electrical service.

Commissioner Emerson moved, Commissioner Kinnunen second, that after review of the standards of Section 504 and other applicable standards contained in the Township Zoning Ordinance, the Planning Commission approves Site Plan Review request #99-1, incorporating the revised Site Plan dated October 7, 1999, for the construction of a Family Dollar Store, with the following conditions:

- 1) That the two southeast parking spaces be retained on the site plan to create an irregular contour in the existing trees with all the other existing trees being left intact in the "Do Not Disturb Existing Trees" area.
- 2) That one parking space be deleted in the northeast corner of the site plan near the US-41 and Wright Street intersection to create a larger open space area and one parking space be deleted immediately east of the access drive location to enlarge that open space area and that additional large trees such as white spruce, red oak, etc. be planted in these areas.
- 3) That the applicant obtain a permit from the Marquette County Road Commission for the access location to Wright Street.
- 4) That the applicant obtain the appropriate permit for the sewer connection from Chocolay Township and the well permit from the County Health Department.
- 5) That final building plans be submitted to the Fire Department under the Fire Fighter Right to Know program.
- 6) That the applicant obtain a zoning compliance permit from the Township Zoning Administrator.
- 7) That commercial non-glare, downward directed lighting be installed to protect adjoining properties.

In addition, it is recommended that the applicant install the stormwater catch basins with a 2' minimum sump depth in order to increase the sediment holding ability of these structures and the applicant make every attempt to construct this facility with underground electrical service.
Motion Carried.

The Planning Commission commended the applicant for working to revise their site plan to address the identified concerns and felt that it was greatly improved over their original proposal.

JAMES CARTER CORRESPONDENCE - COMMUNITY SIGNAGE

Commissioner Kinnunen indicated that he was rather disappointed that the MDOT is implementing such a policy. He believes that these signs are an important part of our history and are utilized to a very significant extent, particularly in the Upper Peninsula. Planning Director Riley gave an update on the Green Garden request for their sign to be replaced. He read a letter from the U.S. Postal Service indicating that Green Garden residents can utilize Green Garden as their mailing address.

The Planning Commission voiced agreement with Mr. Carter's argument that it is important to retain these community place names. The Planning Commission indicated that perhaps we should wait and see what happens on the Green Garden signage request to the MDOT and then determine what appropriate support the Planning Commission can offer in this effort to support the retention of community signs and map listings.

NEW BUSINESS:

CONDITIONAL USE #57 - CHOCOLAY CHARTER TOWNSHIP - CROSS COUNTRY SKI TRAIL - KAWBAGAM ROAD AREA

Planning Director Riley gave a brief overview of the proposed ski trail and staff's recommendation for approval with conditions. Discussion centered on staff's recommended condition #7 in regards to the location for the crossing of the railroad grade/snowmobile trail. It was discussed that some flexibility was needed in regards to the location of this crossing to account for differing snow conditions, trees, etc..

Commissioner Emerson moved, Commissioner Kinnunen second, that after review of Conditional Use request #57; the standards of Section 701 and Section 504 and other applicable standards contained in the Township Zoning Ordinance; and the STAFF/FILE REVIEW - SITE DATA AND ANALYSIS; and subsequently finding compliance with the standards for approval of the request, the Planning Commission approves Conditional Use Permit request #57 with the following conditions:

- 1) That the easement agreements with Ameritech and John Smith be fully executed.
- 2) That a permit from the Health Department be approved for the restroom.
- 3) That the required insurance coverages/riders be obtained for the project.
- 4) That the MDNR approves the final ski trail plan.
- 5) That the Road Commission issue the final permit for use of the Seasonal Road BAA right-of-way.
- 6) That minor extensions or changes to the ski trail are permitted, however, any extensions or changes are limited to the south half of Sections 8 and 9 and extensions to within 300' of private property shall require an amendment to the Conditional Use Permit.
- 7) That the crossing of the railroad grade/snowmobile trail be engineered safely and be appropriately signed.
- 8) That all funding and costs for this project be provided on a volunteer basis or needed Township expenditures must be authorized by the Township Board.
- 9) That a zoning compliance permit be obtained from the Township Zoning Administrator once conditions 1 through 5 have been met.

Motion Carried.

The Planning Commission commended the Trails Committee for the work they had completed on this project. The Planning Commission also thanked Tom Mahaney for his assistance in working with the Trails Committee on this project. Tom Mahaney indicated that he is very excited for this project, as is the Superiorland Ski Club which he is a member, and commended Chocolay Township for promoting such a project.

SNOWMOBILE TRAIL SURVEY LETTER - BOARD REQUEST FOR PLANNING COMMISSION REVIEW/INPUT

Commissioner Menhennick stated that he believes that the idea of a survey may be premature. Since we do not have a safe bridge crossing over the river, why should we pursue the survey. Perhaps we need to lay the groundwork on getting a safe river crossing before we go any further on the routing. Menhennick stated that, as recently recommended by the Trails Committee, the Township should look at completing a multi-use trail along M-28 first, then pursue the bridge crossing. By having a trail in place up to the river, when the MDOT does replace or improve the bridge, they may make provisions for the trail crossing.

Don Britton, Chairman of the Ad Hoc Trails Committee, indicated that at their October 5, 1999 meeting, they recommended that the Township look at adopting a local ordinance on a snowmobile curfew and speed limit.

Commissioner Emerson indicated that he thought it may be a good idea to get the residents input now and he did not see any major problems with the survey. Discussion centered on the timing of the survey and whether it was the appropriate time to ask the people. Discussion also centered on who should be sent the survey. It was discussed that perhaps anyone within 300' of the proposed route should be notified, as is standard practice in rezonings or conditional uses, as the impacts could affect more than just abutting property owners.

Commissioner Menhennick stated that he believed the best approach for now would be for the Township to look at a local ordinance establishing an 11:00 p.m. snowmobile curfew, which would be consistent with Munising, along with a snowmobile speed limit. This would be a necessary first step in establishing a framework for how snowmobiles can operate in the Township.

Sharon Roshak, 1318 E. M-28, stated that she is not in favor of a motorized trail across her front yard as has been proposed. She stated that it is interesting to note that concern is expressed by the Planning Commission on site plans regarding lighting impacts on nearby residences, (such as Family Dollars), and she believes the same concern should be given for those residences along the trail route. The concern is even larger for these residences because of light and noise impacts.

Commissioner LaPointe indicated that he believed the Township probably should not pursue the survey until after the bridge crossing issue is resolved. If that takes a few years, we would need to re-survey the people anyway to make sure we have valid/timely responses.

Commissioner Kinnunen indicated that he supports a path along M-28 for multi-use. It's an improvement that would be used by a lot of people, regardless of whether snowmobiles ever use it. Commissioner Emerson indicated that he surely supports the Trails Committee working on a multi-use trail along M-28.

Commissioner DeVooght indicated that she believed the Township should send the survey out and find out exactly how the people feel.

Chairman Sanders suggested that the Planning Commission defer to the Trails Committee, and their recommendations on this issue, as they are closer to all of the nuances of the snowmobile trail issue. Commissioner Emerson indicated that he could support this, however, while the timing may be wrong now, he does believe that the survey should be sent out to the residents/property owners before agreeing on proceeding on a route. He would also suggest that the first question in the survey state that "Do you support a motorized trail, limited to snowmobiles only during the winter months, along the above described route"? Further this question, or another portion of the survey, should identify a reasonable estimate of the number of snowmobiles that could be expected daily, (not the 5,000 to 6,000 per day that has been reported in the paper recently).

PLANNING DIRECTOR'S REPORT:

- 1) Rezoning #106 - Approved at 1st reading by Township Board.
- 2) Rezoning #107 & #108 - Reviewed by Township Attorney, waiting for County Planning Commission response.
- 3) FY 2000 Budget has been adopted by the Board.
- 4) GIS Grant - Marquette County has been chosen as grant recipient and we will be participating in the upcoming meetings.
- 5) Marquette Township - Idea for joint Planning Commission Conference/Training.

COMMISSIONER COMMENT:

Commissioner Menhennick stated that, as recommended by the Ad Hoc Trails Committee, he would like the Planning Commission to consider recommending to the Township Board that they look at adopting a snowmobile curfew and speed limit ordinance.

John Smith stated that the Township needs to show the DNR that we are being pro-active on dealing with snowmobiles and he would support the Board adopting an Ordinance establishing a snowmobile curfew and speed limit.

Commissioner Menhennick moved, supported by Commissioner Sanders, that the Planning Commission recommend that the Township Board take a hard look at adopting an Ordinance establishing a snowmobile speed limit and curfew. Motion Carried.

INFORMATIONAL ITEMS AND CORRESPONDENCE

**PUBLIC HEARING – REZONING #109 - CHOCOLAY CHARTER TOWNSHIP –
KAWBAWGAM ROAD PROPERTY- C-1 & RR-2 TO PUBLIC LANDS**

Chairperson Sanders opened the public hearing at 7:30 p.m. Planning Director Riley indicated that, as of today, the Township had not received any calls or correspondences in response to the Public Hearing notice or property owner notifications.

No other public comment. Chairperson Sanders closed the public hearing at 7:31 p.m.

REGULAR MEETING CALLED TO ORDER:

Chairman Sanders called the regular meeting of the Chocolay Township Planning Commission to order at 7:31 p.m.

APPROVAL OF MEETING MINUTES:

The minutes of the regular meeting of the Chocolay Township Planning Commission, dated October 11, 1999 were presented for approval.

Moved by Commissioner Tabor, supported by Commissioner Menhennick, that the October 11, 1999 meeting minutes be approved as presented. Motion carried.

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Moved by Commissioner Sanders, supported by Commissioner Kinnunen, to adopt the agenda as presented. Motion carried.

PUBLIC COMMENT: None

OLD BUSINESS: None

NEW BUSINESS:

REZONING # 109- CHOCOLAY TOWNSHIP- KAWBAWGAM ROAD PROPERTY- C-1 & RR-2 TO PUBLIC LANDS

Staff supports this request as a practical and reasonable zoning for this property. Staffs only concern lies within the actual Ordinance language of the Public Lands District itself. This concern relates to the fact that there are no specific uses listed as permitted or as conditional as in the other zoning districts. This is important as there could be certain Township functions that perhaps should go through the Conditional Use Permit procedure and, most importantly, the public notice and nearby property owner notification it entails. For example, before the Township should place a "waste transfer station" or other "intensive" land use on this property, a public hearing should be held and the adjoining property owners should be notified.

Therefore, perhaps the Public Lands district language needs to be amended to spell out which type of Township uses should be listed as more intensive "Conditional Uses" that warrant that subsequent review process.

Staff advised that they would review this with the Ordinance Amendment Subcommittee.

Menhennick moved LaPointe second that following the review of Rezoning request #109 and the Staff/File Review, the Planning Commission recommends approval of Rezoning #109 to the Township Board to rezone said property from C-1 and RR-2 to PUBLIC LANDS.

Motion Carried.

PLANNING DIRECTOR'S REPORT:

- 1) Minutes-As discussed at the October Meeting, we will continue with the minutes stating motion carried. If the commission desires to have broken out-ask for roll call.

- 2) Green Garden-The request for map identification has been approved by MDOT. The request for signage is still pending.
- 3) Snowmobile trail issue-The Board decided not to send out property owners survey. They decided to review potential ordinance controlling speed limit and establishing a curfew.
- 4) Ordinance Amendment Sub Committee-met and reviewed parking requirements and cell towers.
- 5) Rezoning- The Board approved the first reading on the ordinance text amendments on Accessory housing and site plan review.

COMMISSIONER COMMENT:

Commission discussed recent site plan reviews including Family Dollar.

INFORMATIONAL ITEMS AND CORRESPONDENCE

PUBLIC HEARING-REZONING # 110-TEXT AMENDMENT-WIRELESS COMMUNICATION FACILITIES

Chairperson Sanders opened the public hearing at 7:33 p.m. Planning Director Riley indicated that, as of today, the Township had not received any calls or correspondences in response to the Public Hearing notice.

No public comment. Chairperson Sanders closed the public hearing at 7:34 p.m.

PUBLIC HEARING-REZONING # 111-TEXT AMENDMENT-OFF-STREET PARKING REQUIREMENTS

Chairperson Sanders opened the public hearing at 7:34 p.m. Planning Director Riley indicated that, as of today, the Township had not received any calls or correspondences in response to the Public Hearing notice.

No public comment. Chairperson Sanders closed the public hearing at 7:35 p.m.

REGULAR MEETING CALLED TO ORDER:

Chairman Sanders called the Regular meeting of the Chocolay Township Planning Commission to order at 7:35 p.m.

APPROVAL OF THE MEETING MINUTES:

The minutes of the Regular meeting of the Chocolay Township Planning Commission, dated December 13, 1999 were presented for approval.

Moved by Commissioner Menhennick, Supported by Commissioner Emerson that the December 13, 1999 minutes be approved as presented. Motion carried.

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Moved by Commissioner LaPointe, supported by Commissioner Menhennick, to adopt the agenda as presented. Motion carried.

PUBLIC COMMENT:

John Smith-2176 M-28 East- The new ski trail is in place and is groomed. Have seen many skiers using trail. The trash in the woods needs to be cleaned up, there is grant monies available to do this. Requesting someone from the township to apply for these monies.

OLD BUSINESS:

PRIVATE ROAD REQUEST #14-PETERSON

Remained tabled at applicant's request.

NEW BUSINESS:

REZONING # 110-TEXT AMENDMENT-WIRELESS COMMUNICATION FACILITIES (CELL TOWERS)

Planning Director Riley briefly reviewed his memo to the Planning Commission dated January 5, 2000 detailing the changes that were made to the proposed ordinance language based upon the attorney's review and recommendations.

The Planning Commission specifically reviewed and discussed the following points of the proposed regulations: 1) 1 mile spacing requirement. Whether this item should remain in the regulations; 2) Minimum site area. Should we specify a minimum site area? and 3) RP District Regulations. Whether the four (4) proposed special regulations for the RP District are reasonable.

Significant discussion centered on the pros and cons of the 1 mile spacing requirement and whether this would encourage collocation or would simply disperse more towers over a larger area. It was also discussed to amend the Intent and Purpose section to eliminate the section of the first sentence which reads "reducing the obtrusive impact and unnecessary proliferation" and to insert "regulating" in its place. In addition, "and collocation" should be inserted after "cooperative use". It was believed this clarified the intent of the regulations without being overly negative.

Menhennick pointed out that if the smaller towers can be "camouflaged" as a light pole or flag pole, perhaps they should also be allowed in the C-2 District. Discussion centered on the pros and cons of allowing them in even more districts and the need to limit the districts to some degree to encourage collocation and placement in the Township's Public Lands District.

Emerson moved LaPointe second that the Planning Commission recommends the adoption of rezoning #110, to the Township Board of Trustees to read as follows:
MOTION CARRIED.

Amend Section 101 "**DEFINITIONS:**" to add the following definition in the correct alphabetical location:

Wireless Communication Facilities: All structures and accessory facilities relating to the use of the radio frequency spectrum for the purpose of transmitting or receiving radio signals. This may include, but shall not be limited to, radio and television broadcasting or relay towers, wireless or cellular telephone communication receivers and transmitters, telephone devices and exchanges, microwave relay facilities and towers, telephone transmission equipment buildings, and private and commercial mobile radio service facilities.

Amend Section 211 "**DISTRICT C-3**" subsection (C) **CONDITIONAL USES** to add "Wireless Communication Facilities subject to the conditions of Section 527".

Amend Section 212 "**DISTRICT RP**" subsection (C) **CONDITIONAL USES** to add "Wireless Communication Facilities subject to the conditions of Section 527".

Amend Section 214 "**PUBLIC LANDS ZONING DISTRICT**" subsection (C) **CONDITIONAL USES** to add "Wireless Communication Facilities subject to the conditions of Section 527".

Amend To Add a Section 527 to read:

WIRELESS COMMUNICATION FACILITIES:

The Township has a clear and identifiable interest in accommodating the communication needs of residents and businesses but also has an interest in regulating highly visible structures such as large, high communication towers. It is the Township's interest, also, to induce, to the extent reasonable, cooperative use and collocation of such towers and their associated facilities and structures.

- A. Wireless Communication Facilities located in the C-3 or Public Lands District are subject to the following qualifying conditions and/or regulations:
1. The height of the wireless communication facility shall not exceed 175' unless a variance has been granted by the Zoning Board of Appeals.
 2. All sites must contain a minimum area sufficient to contain the wireless communication facility and all related accessory uses. The site shall have legal documented access to a public road.
 3. Any wireless communication tower must be set back from all property lines a distance equal to its height, unless engineering plans and

specifications have been certified by a licensed mechanical, civil, professional engineer or architect, or other engineer licensed and competent in assessing the structural integrity of such towers, verifying a safe fall zone. All towers shall be certified by an above licensed engineer verifying that the structural design will withstand wind speeds and icing under the worst conditions experienced in the area.

4. Accessory structures shall not exceed six hundred (600) square feet of gross building area.
5. No wireless communication facility shall be approved unless the applicant is able to establish that any existing tower, structure or facility is not available for co-utilization based upon technical inadequacy or incapacity, unreasonable or prohibitive cost, denial by owner or other practical impediment to use or access.
6. There shall not be displayed on the wireless communication facility advertising or identification of any kind intended to be visible from the ground or other structures, except as required for emergency purposes.
7. The wireless communication facility shall be maintained in a predominate color, coating or material which matches the exterior surroundings. The predominant color scheme shall be designed to minimize off-site visibility of the structure.
8. All wireless communication facilities must comply with the standards of the Federal Aviation Administration, the Federal Communications Commission and all applicable State or Local codes.
9. The wireless communication facility shall be located and operated so that they do not interfere with radio, television, audio, video, electronic, microwave or other reception in nearby areas.
10. All wireless communication facilities shall be removed by the property owner or lessee within six (6) months of being abandoned by all users.
11. Minimum spacing between wireless communication facilities shall be one (1) mile in order to prevent a concentration of towers in one area.
12. Wireless communication facilities shall not be artificially lighted unless required by the Federal Aviation Administration.
13. The base of any tower and any cable supports shall be fenced with a minimum six (6) foot high security fence and all fencing shall be screened with landscaping. Accessory structures shall match the construction characteristics of other existing buildings in the surrounding area.
14. All wireless communication facilities shall be inspected after being constructed and then once every three (3) years for compliance with all ordinance, structural and operational requirements and shall be certified as in compliance by a licensed mechanical, civil, professional engineer or architect, or other engineer licensed and competent in assessing the structural integrity of such towers, and said certification shall be submitted to the Township.

B. Wireless Communication Facilities located in the RP District are subject to the above qualifying conditions and/or regulations (1 through 14) with the following exceptions or additional requirements in order to reduce the impact of wireless communication facilities on the low intensity intent of the RP District and the tourism related aesthetic qualities of the Township's outlying areas:

1. The height of the wireless communication facility shall not exceed 75' unless a variance has been granted by the Zoning Board of Appeals.
2. The wireless communication facility and any accessory structures shall be set back a minimum of 150' from all public or approved private road rights-of-way. Said set back shall be left in its natural state in order to provide screening or buffering to the roadway.
3. The wireless communication facility and any accessory structures shall be set back a minimum of 300' from any existing residential dwellings.
4. The applicant shall make every attempt in the design of the wireless communication facility to disguise the structure (e.g. as a light pole, tree, etc.) to reduce/eliminate the aesthetic impact to the surrounding area.

REZONING #111-TEXT AMENDMENT-OFF-STREET PARKING REQUIREMENTS

This amendment establishes parking standards for certain new uses and reduces the parking requirement for others. It also amends or establishes the standards for parking lot lighting, maneuvering lanes, related site plan requirements and commercial vehicle parking in residential districts.

Following the discussions from the last meeting, I have changed the proposed language to clarify the standard for parking lot lighting (Note #6). In addition, there were a couple of typographical errors in the parking lot standards chart that were causing confusion (e.g. aisle width and parking stall length).

Discussion centered on slight changes to the language for the RV parking space requirement and the language for gas stations to better clarify the intent of these regulations. A change was also suggested to provide a note for the parking standards table that a 2 way traffic/parking pattern requires a minimum 24' aisle width.

Emerson moved Sanders second that the Planning Commission recommends the adoption of rezoning #111 to the Township Board of Trustees to read as follows:

MOTION CARRIED.

SECTION 500 OFF-STREET PARKING REQUIREMENTS

Except in Districts RP and OS, there shall be provided off-street parking for motor vehicles, and the minimum number of parking spaces to be provided shall be as shown in the following list:

USE		SPACES REQUIRED
Single and Two-family dwellings		2 per dwelling unit
Rooming houses, fraternities, sororities, dormitories, convalescent homes.		.4 times maximum lawful number of occupants.
Hotels		1.2 per room in addition to spaces required for restaurant facilities & 2 oversized spaces for RV's and trucks.
Apartment and townhouses		2 per dwelling unit or floor area in square feet divided by 440, which ever is greater.
Senior Housing		1 per dwelling Unit
Mobile home subdivisions and parks		2 per mobile home & 1 per 300 sq. ft. for offices.
Churches, theaters, facilities for spectators sports, auditoriums, concert halls		.35 times the seating capacity.
Community Center		.35 times the seating capacity.
Golf courses		7 per hole
Barber shops and beauty parlors		2 plus 1.5 per chair
Bowling alleys		5 per lane in addition to spaces required for restaurant facilities
Fast food take-out establishments and drive-in restaurants		1.5 per 100 sq. ft. of floor area (amended 2-22-93) & 2 oversized spaces for RV's and trucks.
Restaurants (except drive-ins)		1.2 per 100 sq. ft. of floor space & 2 oversized spaces for RV's and trucks.
Hardware stores, household equipment, repair shops including shoe repair, contractor's showroom and others.		1.2 per 100 sq. ft. of floor space 1 per 200 sq. ft. of floor space
Museums and galleries		1 per 100 sq. ft. of floor space
Furniture, appliance, carpet		1 per 200 250 sq. ft of floor space (amend. 8-15-78)
Funeral parlors		1 per 50 sq. ft of floor space

Gas stations		1 per fueling location plus 2 per lift
Auto Body Repair Shops		1 Space per bay and 1 per employee
Motor Vehicle Sales		1 space per each 1000 sq. ft. of display area
Laundromats		.50 per machine .33 per machine
Doctor's and dentist's offices		1 per 100 sq. feet of waiting room area and 1 per doctor or dentist
Day Care Center		1 space per 5 children
Banks		1 per 150 sq. ft. of floor space
Warehouses		1 per 500 1500 sq. ft. of floor area
For uses not specifically listed above, the requirements listed below are applicable:		
Retail stores and service establishments		1 per 150 200 sq. ft. of floor space and outdoor sales space
Offices		1 per 300 sq. ft of floor space
Bed & Breakfast		One space per room for transient guests in addition to spaces required for single family dwellings.
Other commercial and industrial uses		.75 times maximum number of employees on premises at any one time

1. Where calculation in accordance with the foregoing list results in requiring a fractional space, any fraction less than one-half shall be disregarded and any fraction of one half or more shall require one space.
2. Required off-street parking shall be provided on the lot to which it pertains. **All spaces shall be provided by adequate access by means of a maneuvering lane. Backing directly onto a street is prohibited.**
3. The use of any required parking space for the storage of any motor vehicle for sale, or for any other purpose other than the parking of motor vehicles is prohibited.
4. **All required parking spaces shall be clearly defined by use of a car wheel or bumper stops, and or painted lanes.**
5. **No off street parking shall be constructed or altered until approval has been issued by the Chocolay Township Planning Commission under site plan review.**
6. **Lighting fixtures used to illuminate off-street parking areas shall be designed to reflect light downward and away from adjoining residential properties, institutional premises, or streets and highways. Lighting shall not emanate from fixtures above a point 15 degrees below horizontal as measured at the light fixture.**
7. **Handicap parking spaces shall be provided in accordance with the applicable building code and shall be provided in sufficient number.**
8. **Parking lot layout should include consideration for snow removal and on-site drainage and plans shall be provided for on the site plan.**
9. **Parking of non-residential vehicles is prohibited in all residential zones including semi-trailers and tractors, and other commercial equipment and vehicles that are not also utilized as a customary personal family vehicle unless specific approval has been obtained by a home occupation permit.**

For a use not specifically identified the off street parking facilities shall be in accordance with a use, which the Zoning Administrator considers as similar in type.

The following minimum design standards shall be observed in laying out off-street parking facilities.

<u>Parking Angle</u>	<u>Stall Width</u>	<u>Aisle Width</u>	<u>Parking Stall Length</u>	<u>Curb to Curb</u>
0 to 15	9 ft.	12 ft.	23 ft.	30 ft.
16 to 37	10 ft.	12 ft.	19 ft.	47 ft.
38 to 57	10 ft.	13 ft.	19 ft.	54 ft.

58 to 74	10 ft.	18 ft.	19 ft.	61 ft.
75 to 90	10 ft.	24 ft.	19 ft.	63 ft.

NOTE: Minimum aisle width is 24' for 2-way traffic.

CONSIDER MSPO COMMUNITY PLANNING PRINCIPALS

LaPointe moved, Sanders second that

Whereas the Michigan Society of Planning Officials (MSPO) exists to promote quality community planning through education, information and advocacy, statewide; and

Whereas the Michigan Society of Planning Officials Board of Directors has endorsed the attached Community Planning Principles; and

Whereas the Community Planning Principles are intended to be used as a guide to define what constitutes "Quality Community Planning"; and

Whereas the Planning Commission of the Charter Township of Chocolay strives to promote quality community planning.

Now Therefore Be It Resolved that the Planning Commission of the Charter Township of Chocolay hereby adopts the attached Michigan Society of Planning Officials Community Planning Principles.

MOTION CARRIED.

PLANNING DIRECTOR'S REPORT

1. Kawbawgan Area Ski Trail
2. Ordinance Sub Committee discussed-building heights, Public Lands and Campgrounds.
3. KBIC park funds received.
4. Browers Property.
5. MTA Convention is next week in Lansing.

PUBLIC COMMENT-None

COMMISSION COMMENT

Mike LaPointe asked how the County GIS system is coming along.

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, FEBRUARY 14, 2000**

PRESENT: Commissioners Gary Menhennick, Bill Sanders, Mike LaPointe, Estelle DeVooght, Kendall Tabor
ABSENT: Steve Kinnunen, Scott Emerson
OTHERS: Doug Riley, Director of Planning & Research, John Smith, Four NMU Students

REGULAR MEETING CALLED TO ORDER:

Chairman Sanders called the Regular meeting of the Chocolay Township Planning Commission to order at 7:30 p.m.

APPROVAL OF THE MEETING MINUTES:

The minutes of the Regular meeting of the Chocolay Township Planning Commission, dated January 10, 2000 were presented for approval.

Moved by Commissioner Tabor, Supported by Commissioner LaPointe that the January 10, 2000 minutes be approved as presented. Motion carried.

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Planning Director Riley indicated that it would be preferable if New Business Item A - Countywide Community Information System (incl. GIS) be moved to the end of the Agenda in order that the Commissioners and Public can move to his office to review a CIS system that has recently come on-line.

Moved by Commissioner Menhennick, supported by Commissioner Tabor, to adopt the agenda with the change of moving New Business Item A. to the end of the agenda. Motion carried.

PUBLIC COMMENT: None

OLD BUSINESS: None

NEW BUSINESS:

CLEAN MICHIGAN INITIATIVE GRANT APPLICATION - BEAVER GROVE RECREATION AREA - RESUBMIT FOR SPRING 2000 CYCLE

The Planning Commission reviewed Larry Gould's, (DPW Supervisor), February 9, 2000 memorandum and a copy of the grant application and took public comment. There were no public comments. The Planning Commission made the following motion:

Motion by Menhennick, supported by LaPointe, that the Planning Commission reviewed and took public comment on the draft 2000 Clean Michigan Initiative Recreation Bond grant application to the DNR for the final phase of development at the Beaver Grove Recreation Area and the Planning Commission supports the application.

MOTION CARRIED

LAND DIVISION ORDINANCE - UPDATE

Planning Director Riley gave an update on the recent proposed/considered changes to the Township's Land Division Ordinance regarding enforcement issues. The reason for the considered changes was due to the State Tax Commission ruling that parcels created in violation of the Land Division Act, and/or any local Land Division Ordinance, must still be recognized on the tax roll. This ruling conflicted with our Land Division Ordinance enforcement language. In addition, our Ordinance requires that we take court action against any person who makes any illegal division. The problem is this places an unreasonable burden on the Township, especially since the Land Division Act is a State Law and the State and County will not prosecute violations.

While the Board initially looked at rescinding the entire Ordinance, it has now been proposed that we keep the Ordinance, as there are good qualities in it such as spelling out the process for approval, lot width/depth regs, etc.. The only portion that would be amended would be the enforcement provisions section to delete the respective portions that are not applicable. In addition, we would add a requirement that an affidavit shall be

filed with the Register of Deeds with a parcel indicating that the parcel is in violation of the Ordinance/Act. This way future purchasers are alerted as to a potential problem with obtaining permits, etc..

BY-LAWS AND POLICIES - RECOMMENDATION FROM ZONING ADMINISTRATOR

The Planning Commission received Mark Maki's memorandum and materials dated 2-7-2000 addressed to the Planning Commission, Zoning Board of Appeals and Township Board regarding a policy being established for conflicts of interest.

Commissioner Menhennick indicated that previously when this issue has been addressed at the Board level it would be openly discussed and a unanimous decision is required to abstain the person from discussions and voting. Commissioner DeVooght indicated that often a person who has been excused would actually leave the room during the deliberations and vote. Chairperson Sanders stated that he did not believe the Planning Commission has had a problem in these regards. The financial question is obvious, however, it is often difficult, especially in smaller communities such as ours, to not have some type of other connections. In addition, any policy should not preclude anyone from raising a conflict of interest issue at any time.

The Planning Commission discussed perhaps researching this issue, and other potential policy language, further beyond what is currently in the Planning Commission By-Laws. The Commission asked Planning Director Riley to do this for the Annual Meeting in June when the Commission normally reviews the By-Laws.

PLANNING DIRECTOR'S REPORT

1. Rezoning - Text Amendments - #110 & #111 (Cell Towers and Parking).
2. Text Amendments for March Meeting - Public Lands Zoning District and Campgrounds in RP District
3. U.P. 200 - Snowmobile Grade
4. Recycling Notice - Mixed Paper

PUBLIC COMMENT-None

COMMISSIONER COMMENT

Commissioner Menhennick indicated that he is having second thoughts regarding the Planning Commission's Ordinance Amendment Sub-Committee. It seems that their review and recommendation streamlines the process too much. He would like the benefit of the full Planning Commission discussion regarding these issues - the old way. He has received a number of calls regarding the changes to the parking standards, particularly the regulation regarding commercial vehicle parking in residential areas.

Commissioners LaPointe, Sanders and DeVooght spoke in support of the Sub-Committee approach as the Township is finally making progress on some of these outstanding issues.

Planning Director Riley indicated that he believed that the process is working the way it should and is essentially designed to by statute. In regards to the recent parking standards amendment, it is unfortunate that we did not get feedback sooner from the public, especially at the Planning Commission public hearing. However, the amendment has not even went to the Board, therefore, the opportunity for review and revisions are clearly still available and the opportunity for public and private review are still there.

Sanders asked about the Cherry Creek Road reconstruction and wondered if we had received plans. We should check the school approval as specific intersection improvements were to be made.

COUNTYWIDE COMMUNITY INFORMATION SYSTEM (INCL. GIS)

The Commission and those in attendance moved to relocate to Planning Director Riley's office for a review of a CIS system downstate that has recently gone on-line. Planning Director Riley and the Commission discussed the County's efforts and the intent and capabilities of the program. Unfortunately, the on-line CIS system was not accessible for demonstration.

The Commission then returned to the meeting room.

PUBLIC HEARING-REZONING #112-TEXT AMENDMENT-PUBLIC LANDS ZONING DISTRICT-PERMITTED AND CONDITIONAL USES

Chairperson Sanders opened the public hearing at 7:35 p.m. Planning Director Riley indicated that, as of today, the Township had not received any calls or correspondences in response to the Public Hearing notice.

No public comment. Chairperson Sanders closed the public hearing at 7:39 p.m.

PUBLIC HEARING-REZONING #113-TEXT AMENDMENT-CAMPGROUNDS/DAY CAMPS-DEFINITION AND RP DISTRICT CLASSIFICATION

Chairperson Sanders opened the public hearing at 7:39 p.m. Planning Director Riley indicated that, as of today, the Township had not received any calls or correspondences in response to the Public Hearing notice.

No public comment. Chairperson Sanders closed the public hearing at 7:40 p.m.

REGULAR MEETING CALLED TO ORDER:

Chairman Sanders called the Regular meeting of the Chocoday Township Planning Commission to order at 7:40 p.m.

APPROVAL OF THE MEETING MINUTES:

The minutes of the Regular meeting of the Chocoday Township Planning Commission, dated February 14, 2000 were presented for approval.

Moved by Commissioner Menhennick, supported by Commissioner DeVooght, that the February 14, 2000 minutes be approved as presented. **Motion carried.**

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Moved by Commissioner Kinnunen, supported by Commissioner Emerson, to move Old Business B. Rezoning #111-Text Amendment-Off Street Parking Requirements before Old Business A. Rezoning #110-Text Amendment-Wireless Communication Facilities to accommodate the audience. **Motion carried.**

PUBLIC COMMENT:

- Doesn't like to see all the changes in language happening to the ordinance.
- There is no real problem with parking of commercial vehicles on private property now, shouldn't be addressed if this hasn't been a problem.
- #9 should be removed from the parking regulations.
- The Nuisance Ordinance should take care of this problem.
- You are telling us what we can and can't do in our own driveways.
- We don't need to have all these restrictions like other places do. The free market should dictate.
- There seems to be a lack of communication between businesses and the commission.

OLD BUSINESS:

REZONING #111-TEXT AMENDMENT-OFF-STREET PARKING REQUIREMENTS-BOARD REQUEST FOR REVIEW OF ITEM

Doug Riley, Director of Planning and Research explained that at the March 6, 2000 meeting, the Township Board sent Rezoning request #111 (text amendment to the Off-Street Parking Requirements - Sec. 500) back to the Planning Commission for their review/comment on Note #9 which states:

"Parking of non-residential vehicles is prohibited in all residential zones including semi-trailers and tractors, and other commercial equipment and vehicles that are not also utilized as a customary personal family vehicle unless specific approval has been obtained by a home occupation permit."

Essentially, following the Planning Commission meetings, where the Sec. 500 amendments were reviewed, we received several inquires and concerns from the public regarding Note/Requirement #9. As is obvious from the Board minutes, there was significant public opposition to this section of the proposed amendment at the Board meeting. In addition, the County Planning Commission also commented on this section

Striking a balance in the proposed amendment was attempted by still allowing commercial vehicle parking in the residential districts via two (2) mechanisms:

- 1) If the commercial vehicle is still utilized as a customary personal family vehicle (e.g. ordinary cars, trucks, vans).
- 2) If approval has been obtained by a home occupation permit. This option provides for Township Board of Appeals review/approval and adjoining property owner notification. (This option, therefore, would allow for review/approval of more "intense" commercial vehicle parking/storage such as large trucks, cargo vans, etc.)

Clearly there is a problem with the proposed language for the first exception in regards to the fact that many commercial vehicles, (even regular size cars, trucks and vans), are not allowed to be utilized as a personal family vehicle. This is due to the fact that many employees are only allowed to drive them to and from work or the vehicle is for "on-call" purposes only.

The general consensus from the Board meeting seemed to be that there may not be a need for specific language such as this at this time as we only receive one or two complaints a year regarding this issue. In addition, we should not pass a regulation that we do not intend to enforce or get into an issue of selective enforcement.

Discussion centered on the need for this regulation since there have been relatively few complaints over the years. The Planning Commission discussed deleting Note #9 in the suggested off-street parking requirement language and to also delete the over-sized RV parking space requirement for hotels, fast-food, & restaurants.

Menhennick moved Sanders second that after re-reviewing Rezoning #111 and specifically Note #9 as requested by the Township Board, the Planning Commission recommends the adoption of rezoning #111 with Note #9 being deleted and also to delete the oversized RV parking space requirement for Hotels, Fast-food, & Restaurants.

Motion Carried

REZONING #110-TEXT AMENDMENT-WIRELESS COMMUNICATION FACILITIES (CELL TOWERS) BOARD REQUEST FOR REVIEW

Doug Riley, Director of Planning & Research, explained that at the March 6, 2000 meeting, the Township Board sent Rezoning #110 (text amendment for wireless communication facilities - cell towers) back to the Planning Commission for your review/comment on the following two items:

- 1) The County Planning Commission has recommended the insertion of additional language into the text to reference the "Airport Zoning Ordinance for Marquette County" in Section 527.A.8. and to insert "public" in the definition in addition to "private and commercial mobile radio service facilities"

- 2) In addition, as you were being requested to review the recommendation by the County, the Board also requested the Planning Commission to revisit the lower height limit for towers in the RP District (75' versus 175' for the C-3 and Public Lands Districts). There was some thought that the height limit should be increased for the outlying RP District as these areas would not be as visually impacted by the higher towers due to a more "remote" setting.

Most ordinances take the approach we proposed with the rationale that higher or "more intense" towers should be placed in "more intense" development districts, (such as the C-3), and lower "less intense" towers be placed in the "less intense" districts (such as the RP). In addition, and very importantly, the lower height limit should encourage the towers to locate in either the Public Lands or C-3 Districts where they can automatically obtain an additional 100' of height without going to the ZBA. Lastly, the courts have upheld a more stringent siting requirement in scenic/tourism based communities that are trying to protect their scenic vistas which could be argued as being tied to the more rural areas of the Township.

The Planning Commission discussed both of these issues (the County's recommendation and the issue of the tower height in the RP District). Significant discussion centered on the pros and cons of the reduced height for the RP District and the fact that applicants could still apply for a variance to the ZBA for individual height variances if conditions warrant.

Kinnunen moved DeVooght second that after re-reviewing Rezoning #110 as requested by the Township Board, the Planning Commission recommends the adoption of rezoning #110 with the insertion of the language as recommended by the County Planning Commission and to leave the height limitation for the RP District as previously recommended.

Motion Carried.

NEW BUSINESS:

REZONING #112-TEXT AMENDMENT-PUBLIC LANDS ZONING DISTRICT-PERMITTED AND CONDITIONAL USES

Planning Director Riley explained that Rezoning request #112 is a text amendment that was necessitated by the rezoning of the Township's Kawbawgam Road property to "Public Lands". During that process, analysis of the Public Lands Zoning District language revealed that it clearly needed to be amended to spell out which Township uses should be listed "Permitted Principal Uses" versus more intensive "Conditional Uses" that would warrant that more intensive review process and a public hearing. In addition, this amendment would make this district consistent with our other zoning districts in that actual permitted and conditional uses are spelled out. (The listing of permitted uses for any district assists both the Township and citizens better evaluate the rezonings of property). The County has also commented on the need for this change during their review of both the Kawbawgam property rezoning and our "Cell Tower" regulations where that use would be placed as a conditional use in the Public Lands District.

Staff has prepared, and the Ordinance Amendment Subcommittee has reviewed and forwarded, the attached amendment for consideration by the Planning Commission. We attempted to address the potential uses that could be placed in this district in the operation of Township business.

Planning Commission discussion centered on whether campgrounds should be included as a conditional use. Would the Township ever have a campground on Township property?

LaPointe moved Emerson second that the Planning Commission recommend approval of Rezoning #112 to the Township Board for a text amendment to Zoning Ordinance #34 under SECTION 214 (PUBLIC LANDS ZONING DISTRICT) to amend to establish permitted and conditional uses to read as follows:

SECTION 214 PUBLIC LANDS ZONING DISTRICT

- A) **INTENT.** To establish and preserve areas for certain public purposes and functions conducted by Chocolay Township.
- B) **PERMITTED PRINCIPAL USES.** Offices and related buildings, Police and Fire Stations, Community Centers, Indoor Sports Facilities, Libraries, Parks, Township controlled utility infrastructure, Recycling Drop-Off Site, Maintenance and Storage Facilities.
- C) **CONDITIONAL USES.** Wireless Communication Facilities, Solid Waste Transfer Stations, Cemeteries, Campgrounds.

Motion Carried.

REZONING #113-TEXT AMENDMENT-CAMPGROUNDS/DAY CAMPS-DEFINITION AND RP DISTRICT CLASSIFICATION

Planning Director Riley explained that Rezoning request #113 is a proposed text amendment that was discussed by the Ordinance Amendment Sub-Committee and has been forwarded to the Planning Commission for formal consideration.

Problem:

The Ordinance currently allows campgrounds and day camps in the RP District but as "Permitted Principal Uses". This could be problematic as it allows for no public review/hearing and requires no minimum site area.

Campgrounds can be a rather intensive land use and a formal review, and adjoining property owner notification, seem logical prior to the establishment of this use.

Recommended Option:

Make it the same as the RR-2 where they are allowed as a "Conditional Use on 20 acres or more". (This would be consistent with Jeff Glass's campground on M-28). This would create a public hearing/review and formal Planning Commission review to address potential nuisance issues.

In addition, the definition of campground in Section 101 should be amended to address that it includes more than just "recreational vehicles", (e.g. could also be tent sites), hence the recommended language to clarify.

Planning Commission discussion centered on the lack of a definition of a "Day Camp". Riley indicated that upon reviewing the dictionary and other zoning ordinances he could not find a definition for day camps. The Commission discussed that without a definition for day camps, the regulation of this use, whatever it is, would be problematic.

Menhennick moved Sanders second that the Planning Commission recommend approval of Rezoning #113 to the Township Board for a text amendment to Zoning Ordinance #34 as follows:

Section 101 - Definitions - To amend the definition of campground to read as follows:

CAMPGROUND, a parcel or tract of land under the control of any person wherein sites are offered for the use of the public or members of an organization either free of charge or for a fee, for the establishment of temporary living quarters consisting of any combination of three or more recreational vehicles, tents or other temporary habitable structures or sites.

And Section 212 - RP District - To change campgrounds from being a Permitted Principal Use to a Conditional Use on 20 acres or more.

With the deletion of "day camps" from the text.

Motion Carried.

CHOCOLAY TOWNSHIP PLANNING COMMISSION
MONDAY, April 10, 2000

PRESENT: **Commissioners** Gary Menhennick, Bill Sanders, Mike LaPointe, Estelle DeVooght, Steve Kinnunen, Kendall Tabor

ABSENT: Scott Emerson

OTHERS: Doug Riley, Director of Planning & Research, Stacy Busch, Recording Secretary, John Smith, Don Britton, Don Dupra, James Shockey

REGULAR MEETING CALLED TO ORDER:

Chairman Sanders called the Regular meeting of the Chocolay Township Planning Commission to order at 7:33 p.m.

APPROVAL OF THE MEETING MINUTES:

The minutes of the Regular meeting of the Chocolay Township Planning Commission, dated March 13, 2000 were presented for approval.

Moved by Commissioner Menhennick, supported by Commissioner LaPointe, that the March 13, 2000 minutes be approved as presented. **Motion carried.**

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Moved by Commissioner Menhennick, supported by Commissioner Kinnunen, to approve agenda as presented. **Motion carried.**

PUBLIC COMMENT:

Don Dupra- 1832 Fitch Avenue raised a question concerning black topping of Old Little Lake Road.

Planning Director Riley informed him that his request would be brought up to the Planning Commission when the road ranking is done this spring.

OLD BUSINESS: None

NEW BUSINESS:

CONSIDER/REVIEW-KAWBAWGAM ROAD "POCKET PARK"- SITE PLAN (BASKETBALL COURT)

The Township, through the efforts of the AdHoc Trails Committee, received \$7,029 from the Keewenaw Bay Indian Community Housing Authority late last year for the development of a basketball court and parking lot on the Township's Kawbawgam Road property. (The same site as the Cross Country Ski Trailhead). This project has been touted as providing a recreational facility for the youth of the Kawbawgam Road area. The AdHoc Trails Committee is coordinating the volunteer construction of the project.

The proposed location for the basketball court places it in an existing cleared area of the property that is also in close proximity to the existing light fixture. Unfortunately, there is an existing seasonal road right-of-way located along the southern boundary of the property (even though the road does not physically exist). Therefore, an application has been submitted to the Zoning Board of Appeals for their April 13 meeting for a setback variance to the road right-of-way (i.e. to have a 14' setback where 40' is the Ordinance requirement).

Menhennick moved Sanders support that the Planning Commission has reviewed the Kawbawgam Road property plan for the construction of a basketball court and recommends the construction of the project with the following conditions:

- 1) That a variance is approved by the Zoning Board of Appeals for the setback to the seasonal road right-of-way. If the variance is not obtained, the court must be relocated to meet the required setbacks and any disturbed areas shall be re-vegetated to prevent erosion.
- 2) That the project is completed entirely with volunteer efforts and the KBIC funds that have been earmarked for the project.
- 3) That the project be coordinated with the Supervisor of Public Works and the Director of Planning and Research.

Motion Carried

DISCUSS- AIRPORT ZONING ORDINANCE FOR MARQUETTE COUNTY

Planning Director Riley’s review reveals that the Ordinance will function as a County administered overlay district to (primarily) regulate the height of structures within a 10 mile radius of the Airport. It appears that a significant portion of Chocolay Township would fall under these regulations.

The Planning Commission suggested that Doug forward comments on for the Commission to the County.

DISCUSS-INFORMATION FROM MICHIGAN MUNICIPAL LEAGUE-RE: ZONING DECISIONS

The Planning Commission discussed the recommended items to be followed or completed in zoning decisions and discussed the need to update the Comprehensive Plan once the new census numbers are available.

PLANNING DIRECTOR’S REPORT

1. Peterson Private Road to be on May Agenda
2. Burger King
3. MCTA Banquet
4. Non-Motorized Trail Summit
5. Stu Bradley Regional Planning Conference
6. MQT Township Cell Tower Moratorium
7. Rezoning 110 & 111
8. Ivan Fende-Appointed to EPA

CHOCOLAY TOWNSHIP PLANNING COMMISSION
TUESDAY, June 13, 2000

PRESENT: **Commissioners** Gary Menhennick, Bill Sanders, Scott Emerson, Mike LaPointe, Estelle DeVooght, Steve Kinnunen

ABSENT: Kendall Tabor

OTHERS: Doug Riley, Director of Planning & Research, Stacy Busch, Recording Secretary, Bob Cambensy, Don Britton, Frank Stabile, Robert Ranta, James Carter, Bernard & Dianne Huetter, M. Hillier, Richard Reader, Mark Maki

PUBLIC HEARING-PRIVATE ROAD #15 – Frank Stabile

Chairman Sanders called the public hearing to order at 7:30 p.m. Planning Director Riley gave an overview of Mr. Stabile's request for approval of a private road under Section 402 of Zoning Ordinance 34. This proposed private road is located east off from US-41, north of St. Paul's Cemetery, in Section 26.

Bernie Huetter, 300 Green Garden Road, addressed the Planning Commission regarding his concern for the soils in the area of the private road. His concern relates to not only the soils for under the road bed but also for well and septic approvals for the future lots. Mr. Huetter was concerned of the potential for groundwater contamination as there are perched water tables in the area of the road.

Frank Stabile, applicant, addressed the Planning Commission and explained his rationale for choosing this property for his new home and for constructing the private road. He has completed preliminary investigations with the Health Department, well drillers and several road contractors and no major concerns were identified. Mr. Stabile also introduced his engineer for the road, Mr. Bob Cambensy, to address any technical questions the Commission may have.

Public Hearing closed at 7:45 p.m.

REGULAR MEETING CALLED TO ORDER:

Chairman Sanders called the Regular meeting of the Chocolay Township Planning Commission to order at 7:45 p.m.

APPROVAL OF THE MEETING MINUTES:

The minutes of the Regular meeting of the Chocolay Township Planning Commission, dated April 10, 2000 were presented for approval.

Moved by Commissioner Menhennick, supported by Commissioner Kinnunen, that the April 10, 2000 minutes be approved as corrected. **Motion carried.**

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Moved by Commissioner LaPointe, supported by Commissioner Menhennick, to move New Business A. Private Road Request #15- Frank Stabile before Old Business A.

Motion carried.

PUBLIC COMMENT: None

NEW BUSINESS: PRIVATE ROAD #15-Stabile

Discussion by the Planning Commission centered on the soils in the vicinity of the project. The Planning Commission noted that while they were only reviewing the proposed private road, they would also make a recommendation that the applicant complete his well and septic tests with the Health Department prior to road construction. He would have to obtain these approvals prior to receiving land division approval for the parcels anyway. The applicant has met all of the requirements of the private road standards in the Zoning Ordinance.

Bob Cambensy, engineer, stated that he was aware of the sometimes intricate soils in this area and those will be addressed as part of the road construction and his certification of the construction.

Richard Reader, Green Garden Road, asked if the applicant had been in contact with the DEQ regarding any wetlands on the property.
Board Memo. Stabile Private Road

Mr. Stabile indicated that he had not but that he could not envision there being anything considered wetlands on the property. Commissioner DeVooght indicated that there is a lower area on the property that does get wet.

Mr. Stabile indicated that he had already obtained his soil erosion and sedimentation control permit.

Planning Director Riley indicated that suggested condition #4 was included to clarify that the applicant would have to comply with all other agency requirements/approvals, such as the DEQ, as part of the project.

Commissioner Emerson inquired as to whether the applicant would install underground utilities. Ms. Stabile indicated that he was in discussion with the service providers now and would install them underground if it fell within his budget.

The Planning Commission discussed that they believed the suggested conditions, especially to address the soils, were appropriate and would address this concern.

Menhennick moved, Kinnunen second, that after review of Private Road request #15; the standards of Section 402,D of Ordinance 34; and the STAFF/FILE REVIEW - SITE DATA AND ANALYSIS, and subsequently finding compliance with the standards for approval of the private road request, the Planning Commission recommends approval to the Township Board with the following conditions:

- 1) A covenant be established on the deeds for any parcels created off from this private road identifying the private road status and which reference the Declaration of Easement which must be fully executed.
- 2) The applicant is required to provide certification from a surveyor/engineer that the private road standards of the Ordinance have been achieved at the conclusion of construction and that soil/roadbed conditions have been addressed.
- 3) The applicant pay for and install a road name and stop sign at the intersection of the road and US-41.
- 4) The applicant comply with the conditions and requirements of all other agency regulations including the Michigan Department of Transportation for the road connection to US-41 and a soil erosion and sedimentation control permit.
- 5) The road shall be called Vista Hills Trail.
- 6) The "Possible Future Road" along the south boundary of the parcel is not part of this application or approval.
- 7) The Declaration of Easement include wording to address needed culvert sizing for individual driveways to the private road and that no access be provided for lots directly to US-41.
- 8) A zoning compliance permit shall be issued after all of the above conditions are met.
- 9) The applicant is strongly encouraged to obtain Health Department review of well and septic considerations for the proposed lots prior to road construction.

MOTION CARRIED

OLD BUSINESS: Rezoning # 113- Text Amendment- Campgrounds/Day Camps- Definition and RP District Classification

The Planning Commission discussed suggested definitions of a Day Camp and thought that Rezoning #113 should be brought back to the Commission for formal consideration with the first suggested definition of the three presented being included in the proposed amendment.

NEW BUSINESS: Update- Kawbawgam Road "Pocket Park"/Trails Committee

Don Britton gave an update to the Planning Commission on the completion of the basketball court, fencing and parking lot. He requested that the Planning Commission support writing a thank you letter from the Township Board and Trails Committee

recognizing all the volunteers and their work that has been done on this community project.

Discussion also centered on whether some type of plaque/monument should be erected at the park to recognize the volunteer effort.

Don Britton, as Trails Committee Chairman, requested that the Planning Commission include a section in the Comprehensive Plan pertaining to a multi-use trail along M-28 from US 41 to Superior St. with consideration for a bridge at the Chocolay River.

Discussion centered on whether this item should be included in the Recreation Plan or Comprehensive Plan or both. This item would be discussed by the Recreation Committee for inclusion in the Recreation Plan. The Planning Commission would also consider this in the next update to the Comprehensive Plan.

Commissioner Emerson had to leave at 9:05 pm

UPDATE/REVIEW-Cherry Creek Road Project

Planning Director Riley reviewed the Cherry Creek Road plans with the Planning Commission and gave an update on the project.

The Commission discussed the need to address the pedestrian/bicycle link to Cherry Creek School; relocation of the power poles at the Ortman Road Intersection and the need to improve the clear vision situation at the Cherry Creek/Carmen Drive Intersection.

These items would be discussed by the Township Board at their next meeting for forwarding to the Road Commission.

ANNUAL ELECTION OF OFFICERS

DeVooght moved, Kinnunen second that current Planning Commission officers serve for the term June 2000 to June 2001.

MOTION CARRIED.

REVIEW OF BY-LAWS-CONFLICT OF INTEREST PROVISIONS

It was suggested that the Planning Commission table this item until their next meeting.

ANNUAL REPORT

Menhennick moved, Sanders second that the Annual Report be forwarded to the Board as drafted.

MOTION CARRIED

PUBLIC HEARING-CONDITIONAL USE REQUEST #59-NORTH COUNTRY TRAILS C/O GENE ELZINGA-NON MOTORIZED HIKING/BIKING TRAIL FROM WELCOME CENTER ON US-41 TO SAND RIVER

Chairman Sanders called the public hearing to order at 7:34 p.m. Planning Director Riley gave an overview of the proposed trail and the route it would take.

Letters received were read by the Commissioners and placed on record.

Al Conrad, -He has been given a permit to groom a portion of the trail and have an easement to it and he has not authorized this use.

Ginger Winn-The trail is already a road, I will use it as motorized trail.

Boyd Nutting-County Road BAA is already a county road and is being plowed and maintained. If it is made non-motorized I will be walking to my house.

John Hongisto-Supports multi-use trails, not just non-motorized, people need to share, conflict of uses already.

Don Britton-Would like to see trail from Casino to M-28 left as is with the ability for snowmobiles to also utilize this portion.

Jude Catallo-Trail is a good idea, support non-motorized trail, residents want this, motorized trail should go by businesses.

Vincent Sinervo-Opposed to multi-use trail, sanitation problems will develop, signs won't keep people on trails, privacy-people could be watching you.

Cathy Peterson- This trail is not a good thing, people will trespass on other's property.

Mike Barbieri-People trespass all the time, people don't care, they litter, people are wrecking newly paved private road. Who is going to patrol this trail?

Sigfried-Can't hear noise, but neighbors dog barks whenever something goes by.

Darlene Herkins-Opposed to any trail, trespass across property now and they don't care that they are doing it.

Steve Hurner-Moved back to the UP because of what it has to offer. Opposed to trail, needs to have restrictions.

Mark Maki-North of 28 has never been a motorized use. The Township Recreation Plan refers to non-motorized trails, but local trails only. Non-motorized would be available to the locals.

Bill Kessel-Everyone has already guaranteed that they cannot control the trail.

Ron Gingrass-Qwns ¼ mile of the grade and no one has talked to us about this.

Dan Rydholm-Opposed to non-motorized use, can't enforce, lose respect for these areas.

Bob Dewey-Seen a lot of changes while living here, put restrictions on these trails.

Brenda Howell-People are walking all over the place now, opposed to trail.

BernadetteWallace-Supports non-motorized trail.

Daryl Davis-Supports non-motorized trail.

Cynthia Ojaniemi- Is there going to be a cost for these trails, we pay to use our motorized vehicles? Also concerns for privacy, and litter.

June Rydholm-Supports non-motorized trail.

Susan Harding-Supports non-motorized trail.

Darlene Pierce-Sees 2 portions of trail in question. Supports non-motorized use on what is proposed.

Lousie Bourgault-High tech always wins over low tech-motorized will win over non-motorized.

Gary Nadeau - Against using trail at all, running through yard already.

James & Susan Drobney -Supports non-motorized trail.

Van Beyman-Support non-motorized, does not believe you will see that much traffic, locals will mostly use it.

Virginia Davis-Why on the railroad right of way all the way to Munising?

Pam Erickson-Will this trail be surfaced?

Donna Barto-Why through backyards? Not the woods, concerns for garbage, policing, and privacy.

Public Hearing closed at 8:33pm.

PUBLIC HEARING-PRIVATE ROAD REQUEST#14-CATHY & GARY PETERSON-US-41-SOUTH

Chariman Sanders called the public hearing to order at 8:33pm. Planning Director Riley explained that the Peterson's have amended their request for private road approval that the Planning Commission original reviewed, and tabled last September. Because the plan was amended, and because of the time that has elapsed from the original public hearing, a new public hearing was scheduled and the required property owner notifications were mailed. The amended application includes: 1) an amended road layout plan which extends the road further onto the property; 2) amended deed restrictions.

No letters or comments were received objecting to the proposed road.

Public hearing closed at 8:35pm.

REGULAR MEETING CALLED TO ORDER:

Chairman Sanders called the Regular meeting of the Chocolay Township Planning Commission to order at 8:35 p.m.

APPROVAL OF THE MEETING MINUTES:

The minutes of the Regular meeting of the Chocolay Township Planning Commission, dated June 13, 2000 were presented for approval.

Moved by Commissioner Menhennick, supported by Commissioner Emerson, that the June 13, 2000 minutes be approved as presented. **Motion carried.**

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Moved by Commissioner LaPointe, supported by Commissioner Menhennick, to move New Business before Old Business. **Motion carried.**

PUBLIC COMMENT:

Jude Catallo-Directly opposes a motorized trail.

Bill Kessel-There can't be a settlement here tonight.

NEW BUSINESS:

CONDITIONAL USE #59-North Country Trails c/o Gene Elzinga-Non-Motorized Hiking/Biking Trail from Welcome Center on US-41 to Sand River

North Country Trails, c/o Gene Elzinga, has applied for conditional use approval for a non-motorized hiking/biking trail from the Welcome Center on US-41 to Sand River. The primary route will follow the abandoned rail-road grade from the Welcome Center east to Kawbawgam Road. East of Kawbawgam Road the route will primarily follow seasonal road BAA and existing trails on State Land to Sand River.

Planning Director Riley reviewed for the audience the approval process for trails in the Township and answered the questions of the audience regarding the status of seasonal County Road BAA and the location of the approved snowmobile trail east of the Casino.

Gene Elzinga, North Country Trails, answered the following questions/concerns from the public in attendance:

The trail will be used as a connecting trail.

BAA will stay motorized.

Railroad grade is the best place for a trail due to safety issues.

Houghton Lake Trail is used as a snow trail except through residential areas.

Barriers will be put up along trail at railroad trestles and bridges.

Signage will be placed along trail.

Trail info signs at Welcome Center and will give history of area.

Blue blazes on trail marking it, as well as trail crossing signs on orange posts.

The trail will be maintained by local trail members.

Commissioner Comments:

Will there be portable facilities?

What about liability insurance? Any protection to landowners?

How is camping and tenting stopped? What about people carrying weapons on the trail?

Is there a cost to the trail?

The Planning Commission read and discussed the Conditional Use Permit standards for the public and their rationale for the support of the proposed trail.

Menhennick moved Emerson second that after review of Conditional Use request #59; the standards of Section 701 contained in the Township Zoning Ordinance; and the STAFF/FILE REVIEW - SITE DATA AND ANALYSIS; and subsequently finding compliance with the standards for approval of the request, the Planning Commission approves Conditional Use Permit request #59 with the following conditions:

1. That the applicant obtain a Zoning Compliance Permit from the Zoning Administrator upon compliance with item #2 and #3.
2. That North Country Trails install and maintain barriers at the rail-road trestles at the Chocoday River, the Bayou and at the M-28 overpass that allow permitted non-motorized uses to pass yet will prohibit motorized uses from utilizing these trestles. In addition, North Country Trails shall take every precaution to make said trestle crossings safe for users.
3. That North Country Trails provide signage on the trail that is appropriate to inform users of trail requirements and to identify potential conflict areas.
4. Any future change in the location of the trail route, or organizational control of the trail, must be reviewed by the Township Planning Commission and may require a new/amended conditional use approval.
5. That North Country Trails shall supply the Planning Commission with a written update on the status of the trail in two years (July Meeting, 2002) and the Planning shall review the conditional use approval to determine that no changes are needed to correct problems or that the approval should be revoked which, in either case, may require that a new public hearing be held.

MOTION CARRIED

PRIVATE ROAD REQUEST #14-Cathy and Gary Peterson

Planning Director Riley indicated that Staff and the Planning Commission identified three primary concerns with the applicant's original proposal last September. These were: 1) no cul-de-sac was proposed to be provided at the end of the road; 2) the soils near the connection to US-41 appeared to be questionable and may need to be tested; and 3) the proposed maintenance and access provisions proposed were a little different than standard and needed to be explored further.

In regards to these concerns, the applicant has done the following:

- 1) While no cul-de-sac is yet proposed, they have included language in the deed restrictions requiring individual property owners to install circular driveways on their lots in order to accommodate large or emergency vehicle turnarounds. As such, they are requesting the Planning Commission to grant the road without the cul-de-sac under the terms of the Ordinance which state: *"If a cul-de-sac is not required to be constructed due to site conditions, then the easement to meet County Road Commission standards must be provided."*
- 2) Regarding the soils near the connection to US-41, the applicant has applied for the necessary wetland permit through the DEQ for the filling of this area. In addition, our standard condition of requiring engineer certification of the road and road bed construction would address this concern.
- 3) The applicant has substantially revised their deed restrictions and maintenance language. These have been reviewed by the Township Attorney who has advised that they are now acceptable and achieve the goals of requiring such language.

Sanders moved DeVooght second that after review of Private Road request #14; the standards of Section 402,D of Ordinance 34; and the STAFF/FILE REVIEW - SITE DATA AND ANALYSIS, and subsequently finding compliance with the standards for approval of the private road request, the Planning Commission recommends approval to the Township Board with the following conditions:

- 1) A cul-de-sac **IS NOT** required to be physically constructed at the end of the private road.
- 2) A covenant be established on the deeds for any parcels created off from this private road identifying the private road status and which reference the Declaration of Easement which must be fully executed.
- 3) The applicant is required to provide certification from a surveyor/engineer that the private road standards of the Ordinance have been achieved at the conclusion of construction and that soil/roadbed conditions have been addressed and an as built survey plan shall be provided to the Township.

- 4) The applicant pay for and install a road name and stop sign at the intersection of the road and US-41.
- 5) The applicant comply with the conditions and requirements of all other agency regulations including the Michigan Department of Transportation and the Michigan Department of Environmental Quality.
- 6) The road shall be called Morning Meadow Trail.
- 7) The Declaration of Easement include wording to address needed culvert sizing for individual driveways to the private road and that no access be provided for lots directly to US-41.
- 8) A zoning compliance permit shall be issued after all of the above conditions are met.
- 9) The applicant is strongly encouraged to obtain Health Department review of well and septic considerations for the proposed lots prior to road construction.

PUBLIC HEARING-CONDITIONAL USE REQUEST #60-CHRISTAL SILTA-PROPOSED MINI-WAREHOUSES ON THE NORTHWEST CORNER OF US-41 AND BIG CREEK ROAD

Chairman Sanders called the public hearing to order at 7:33 p.m. Planning Director Riley gave an overview of the proposed Conditional Use permit for two mini-storage buildings. Public Hearing closed at 7:43pm.

PUBLIC HEARING-REZONING #113-TEXT AMENDMENT-CAMPGROUNDS/DAY CAMPS-DEFINITION AND RP DISTRICT CLASSIFICATION

Chairman Sanders called the public hearing to order at 7:43pm. Planning Director Riley explained that at the June 13, 2000 meeting, a suitable definition of a "day camp" had been found for inclusion in the Zoning Ordinance (since it is already a listed use within two zoning districts). This change is in addition to the previously recommended amendment to the definition of a "campground" and with moving both "day camps" and campgrounds" in the RP District from permitted principal uses to be allowed as Conditional Uses on 20 acres or more" (same as the RR-2 district).

Public hearing closed at 7:44pm.

PUBLIC HEARING-REZONING #114-TEXT AMENDMENT-SECTION 402 FRONTAGE REQUIREMENTS-TO ESTABLISH A REQUIREMENT FOR PROPERTY OWNER NOTIFICATION/ACKNOWLEDGEMENT PRIOR TO A RESIDENCE BEING CONSTRUCTED ON A SEASONAL COUNTY ROAD.

Chairman Sanders called the public hearing to order at 7:44pm. Planning Director Riley explained that the Township has received a letter from the Marquette County Township's Association regarding their work with the Marquette County Road Commission. One of their areas of focus has been the policies regarding seasonal roads. As identified in that letter, one of the key issues all Township's are facing are increasing pressures for the development of residences on seasonal roads; (and then the resulting pressures that are sometimes placed on the Road Commission or local Township for the road's upgrading).

It has been recommended that each Township have prospective homeowners on these roads sign an acknowledgment that they are building on a seasonal road and that they are aware of its limitations. Therefore, while the Township Board has already discussed this issue, it has been recommended by the Zoning Administrator, and I definitely agree, that perhaps we place this requirement right in the Zoning Ordinance so that it withstands the test of time.

Public hearing closed at 7:47 pm.

REGULAR MEETING CALLED TO ORDER:

Chairman Sanders called the Regular meeting of the Chocolay Township Planning Commission to order at 7:47 p.m.

APPROVAL OF THE MEETING MINUTES:

The minutes of the Regular meeting of the Chocolay Township Planning Commission, dated July 10, 2000 were presented for approval.

Moved by Commissioner Menhennick, supported by Commissioner Emerson, that the July 10, 2000 minutes be approved as presented. **Motion carried.**

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Moved by Commissioner LaPointe, supported by Commissioner Kinnunen, to Table Old Business item 1 because of the public hearing agenda. **Motion carried.**

PUBLIC COMMENT:

Jim Edwards-549 Cherry Creek Road-Is happy that Cherry Creek Road is getting fixed, however, concerned about speed limits and safety for children.

NEW BUSINESS:

CONDITIONAL USE #60-Christal Silta- Proposed Mini-Warehouses on the corner of US-41 and Big Creek Road

Commissioner Comments:

- Is there proposed fencing?
- How long has property been owned?
- Do you live in the area?
- How will the storage areas be secured?
- Concrete flooring? Drains?
- Will the buffer be preserved? How many trees in buffer?

The Commissioners reviewed the standards of Section 701 and 504 of the Ordinance with the applicant and the audience.

Moved by Commissioner LaPointe, supported by Commissioner Menhennick, that after review of Conditional Use request #60; the standards of Section 701 and Section 504 and other applicable standards contained in the Township Zoning Ordinance; and the STAFF/FILE REVIEW - SITE DATA AND ANALYSIS; and subsequently finding compliance with the standards for approval of the request, the Planning Commission approves Conditional Use Permit request #60 with the following conditions:

- 1) That any lanes providing access to storage doors be left with a 20' unobstructed area to allow customer access/maneuvering as well as for providing access for emergency vehicles.
- 2) That the applicant provide the Fire Department with a final set of building plans detailing the fire breaks within the buildings.
- 3) That all of the existing trees in the 30' buffer on the west side of the site abutting the residential area be retained and that upon the completion of the buildings the Zoning Administrator and Planning Director shall review this buffer to determine that the buffering standards of Section 511 of the Zoning Ordinance have been achieved.
- 4) That the proposed security lighting shall be designed to reflect light downward and away from adjoining residential properties in accordance with the requirements of Section 500 of the Zoning Ordinance.
- 5) That the applicant obtain a zoning compliance permit from the Township Zoning Administrator.
- 6) Comply with all governing agencies.

MOTION CARRIED

PRELIMINARY SITE PLAN REVIEW-AMERIKING (Restaurant/Gas Station-C-Store/Car Wash)-Northwest corner of US-41 and Cherry Creek

A representative from Ameriking and the members of the Planning Commission discussed the preliminary site plan of Ameriking and some of the concerns the Planning Commission has regarding traffic, access points, landscaping and the aesthetics of the building. The Planning Commission also suggested that a bike path/safety lane be placed to run along the back of the property.

DRAINAGE REQUIREMENTS FOR SITE PLANS (DISCUSSION WITH THE DRAIN COMMISSIONER)

Planning Director Riley explained that the Planning Commission and Ordinance Amendment Sub-Committee have previously discussed the need for drainage reviews as part of the site plan review process. While we have a requirement in the site plan review section of the Zoning Ordinance pertaining to drainage, the fundamental problem is

having the technical expertise for reviewing this as a requirement as well as being able to see the big picture in terms of the area's overall drainage capacity and patterns.

The most common approach for the municipal review of projects with drainage considerations is to have the County Drain Commissioner complete these reviews. They are the agency that typically has the ability to review the "big picture" in order to evaluate overall drainage patterns and system capacities.

Mike Farrell, Marquette County Drain Commissioner, spoke with the Commission on the need for such reviews and how this review process could work.

The Planning Commission agreed that we need to look at drainage for site plans more critically and working with the Drain Commissioner seemed to be logical approach. Planning Director Riley indicated that he would work with the Drain Commissioner and Zoning Administrator on proposed language and the review procedure that could be implemented.

REZONING #113-TEXT AMENDMENT-CAMPGROUNDS/DAY CAMPS-DEFINITION AND RP DISTRICT CLASSIFICATION

Commissioner Menhennick moved supported by Commissioner Sanders that the Planning Commission recommend approval of Rezoning #113 to the Township Board for a text amendment to Zoning Ordinance #34 as follows:

Section 101 - Definitions - To amend the definition of campground to read as follows:

CAMPGROUND, a parcel or tract of land under the control of any person wherein sites are offered for the use of the public or members of an organization either free of charge or for a fee, for the establishment of temporary living quarters consisting of any combination of three or more recreational vehicles, tents or other temporary habitable structures or sites.

Section 101 - Definitions - To create a definition of a day camp to read as follows:

DAY CAMP, A camp providing facilities for groups of young people such as YMCA camps, Boy Scout camps, and Girl Scout camps.

And Section 212 - RP District - To change campgrounds and day camps from being a Permitted Principal Use to a Conditional Use on 20 acres or more.

MOTION CARRIED

REZONING #114-TEXT AMENDMENT-SECTION 402 FRONTAGE REQUIREMENTS- To establish a requirement for property owner notification/acknowledgement prior to a residence being constructed on a seasonal County road.

Commissioner Menhennick moved Sanders second that the Planning Commission recommend approval of Rezoning #114 to the Township Board for a text amendment to Zoning Ordinance #34 as follows:

Section 402 - FRONTAGE REQUIREMENTS - To add a subsection E. to read as follows:

E. CONSTRUCTION OF DWELLING ON SEASONAL COUNTY ROAD

Any person constructing a dwelling on a seasonal County Road is required to sign a "Construction of Dwelling on Seasonal County Road - Property Owner Notification" form prior to the issuance of a zoning compliance permit. (Said notifications to be kept with the Zoning Compliance permits).

MOTION CARRIED

LAND DIVISION ORDINANCE-Discuss possible amendment for procedure/standards for variances.

The Planning Commission reviewed the Zoning Administrator's memorandum regarding the need for a variance procedure for lot depth to widths in the land division ordinance. It was recommended that the Board look at making this amendment.

PEDESTRIAN/BIKE PATH ALONG SILVER CREEK ROAD FROM OVERPASS TO SCHOOL-Discuss/Recommendation to Board

It was suggested by the Planning Commission that a letter be submitted to the Township Board recommending the construction of the bike path along Silver Creek Road.

PLANNING DIRECTOR'S REPORT

1. DPW Supervisor-Dennis Magadanz
2. Beaver Grove Recreation Grant
3. Cherry Creek Road speed limit and signs.

PUBLIC COMMENT:

Jim Edwards-549 Cherry Creek Road-informed the Planning Commission as to what is happening with the property owners on Cherry Creek Road and the Road Commission. He also made mention of a meeting with the residents at Walhstroms concerning their property.

**PUBLIC HEARING-CONDITIONAL USE REQUEST #61-AMERIKING
(RESTAURANT/GAS STATION C-STORE/CAR WASH)- Northwest Corner of
US-41 and Cherry Creek Road**

Chairman Sanders called the public hearing to order at 7:33 p.m. Planning Director Riley gave an overview of the proposed Conditional Use permit for Restaurant/Gas Station/C-Store and Car Wash

Public Comments:

- We would welcome any new businesses in the Township.
- Concerns about traffic problem off of US-41 at the proposed driveway.

Public Hearing closed at 7:40pm.

REGULAR MEETING CALLED TO ORDER:

Chairman Sanders called the Regular meeting of the Chocolay Township Planning Commission to order at 7:40 p.m.

APPROVAL OF THE MEETING MINUTES:

The minutes of the Regular meeting of the Chocolay Township Planning Commission, dated August 14, 2000 were presented for approval.

Moved by Commissioner Kinnunen, supported by Commissioner Menhennick, that the August 14, 2000 minutes be approved as presented.

MOTION CARRIED

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Moved by Commissioner Kinnunen, supported by Commissioner Sanders, to move New Business before Old Business.

MOTION CARRIED

PUBLIC COMMENT: None

NEW BUSINESS:

CONDITIONAL USE #61-(incl. Site Plan Review)-Ameriking (Restaurant/Gas Station-C-Store/Car Wash)- Northwest Corner of US-41 and Cherry Creek Road

The Planning Commission reviewed the project with the applicant. There were several areas of concern that were discussed including: access, on-site traffic circulation, landscaping proposed in the right-of-way or off-site, lack of lighting details, and building aesthetics.

Ameriking representative, Joseph Chranko, agreed that perhaps the best approach at this time was for the Planning Commission to table the request in order for his company to clean up the identified problems and work with the Road Commission regarding the concerns on access. In addition, Mr. Chranko indicated that they have discovered that they own the property to the west, (shown as a triangular piece on the site plan), and they will be able to use this property in their redesign and this should address many of the concerns that have been identified.

Moved by Commissioner Kinnunen, supported by Commissioner Tabor that the Planning Commission TABLE Conditional Use Request #61 (including Site Plan Review) in order to allow the applicant time to more fully address the concerns expressed by the Road Commission and Township Staff and to explore the redesign utilizing the additional property on the west side of the site.

MOTION CARRIED

DISCUSS/REVIEW-2001 PLANNING COMMISSION BUDGET REQUEST

The Planning discussed the 2001 Budget request and agreed with the recommended budget.

OLD BUSINESS:

REVIEW OF BY-LAWS- CONFLICT OF INTEREST PROVISIONS

Moved by Commissioner Menhennick, supported by Commissioner Kinnunen to leave the by-laws as currently written.

MOTION CARRIED.

PUBLIC HEARING- Private Road Request #14 - Amendment - Cathy & Gary Peterson - US-41 South

Chairperson Sanders opened the public hearing at 7:30 p.m.

- Public Comments: None

Public Hearing closed at 7:31pm.

REGULAR MEETING CALLED TO ORDER:

Chairman Sanders called the Regular meeting of the Chocolay Township Planning Commission to order at 7:31 p.m.

APPROVAL OF THE MEETING MINUTES:

The minutes of the Regular meeting of the Chocolay Township Planning Commission dated September 11, 2000 were presented for approval.

Moved by Commissioner Menhennick, supported by Commissioner Tabor, that the September 11, 2000 minutes be approved as presented.

MOTION CARRIED

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Moved by Commissioner Menhennick, supported by Commissioner LaPointe to approve the agenda as presented.

MOTION CARRIED

PUBLIC COMMENT:

William Savola presented the Planning Commission with a sketch and explanation of the tree clearing that he was completing on his property on US-41 near the rock cut. He explained that he was only trying to remove enough trees to open up the property a little bit for marketing purposes and did not have any specific development plans at this time. He would like to remove the trees that have been cut to date and the remaining trees that are dead on the site. He asked if the Planning Commission wanted a more formal plan at this stage.

The Planning Commission did not believe a more detailed plan was needed until an actual development was proposed. The Planning Commission thanked Mr. Savola for informing the Planning Commission of his intentions.

OLD BUSINESS:

CONDITIONAL USE #61-(incl. Site Plan Review)-Ameriking (Restaurant/Gas Station-C-Store/Car Wash)- Northwest Corner of US-41 and Cherry Creek Road (TABLED)

Planning Director Riley advised the Planning Commission that Joseph Chranko from Ameriking had requested the Planning Commission to leave their application tabled as they were working on several different issues. The issues indicated were that they have been approached regarding selling the site and they were also talking with a different potential gasoline distributor which may change their plans. In addition, they now realize that they do not own the additional property to the west of the site.

Item remained Tabled.

NEW BUSINESS:

Private Road Request #14 - Amendment - Cathy & Gary Peterson - US-41 South

The Planning Commission reviewed staff's memorandum explaining the rationale for the amendment to Condition #7 of the Peterson's Private Road approval regarding no lot access to US-41. The Planning Commission agreed that it was best not to require the further filling of the wetland area in order for a drive to be constructed to access the one small upland piece of property north of the private road.

Menhennick moved, Sanders second that the Planning Commission recommend to the Township Board that Condition #7 for Private Road Request #14 be amended to read as follows:

"The Declaration of Easement include wording to address needed culvert sizing for individual driveways to the private road and that no access be provided for lots directly to US-41 except for the parcel abutting US-41 on the north side of the private road with approval from the Michigan Department of Transportation."

MOTION CARRIED

US-41/M-28 Corridor Management Team - Resolution and Memorandum of Understanding - Support and Recommendation to Township Board

The Planning Commission discussed the Corridor Planning effort that was underway and the forwarded resolution and memorandum of understanding. The Planning Commission was supportive of the effort and the Township's involvement. The Planning Commission would like the Corridor Management Team to address a maximum time limit for reviews in their by-laws so that they do not hold up projects. Planning Director Riley indicated that he would address this at the group's next meeting.

LaPointe moved, Sanders second, that the Planning Commission recommend to the Township Board to pass the attached Resolution and Memorandum of Understanding in order to establish a cooperative and coordinated planning effort for the US-41/M-28 Corridor.

MOTION CARRIED

Discussion - Shoreline/Dune Protection

Planning Director Riley explained that shoreline and dune protection along Lake Superior is a topic that seems to be surfacing more frequently. The Township often receives calls regarding whether we have any regulations regarding grading or removal of the dunes near homes (primarily for view considerations). The Township does not have regulations pertaining to such work and even our Waterfront Setback requirements and related vegetative buffer requirements do not apply as the affected area is largely existing non-conforming lots and platted parcels which are exempt from these regulations. When we do receive calls these people are forwarded to the Soil Erosion people for an applicable Soil Erosion Permit or the State if they fall within the Critical Dunes area, (area east of the Turnouts). The concern that has been expressed, however, is whether the Township needs to get more involved as there is significant grading and erosion issues occurring and vegetation being removed. The Township Comprehensive Plan makes numerous mentions of the need to look at protecting this area.

The Planning Commission had significant discussion regarding the problems that are occurring and reviewed pictures showing the type of grading and erosion that can occur. Discussion centered on whether education may be all that is needed instead of more regulations. LaPointe explained the soil erosion requirements that must be complied with. Discussion also centered on enforcement of additional regulations and potential property value issues.

The Commission asked Planning Director Riley to research this issue further and put together some information for their review such as regulations from other locations that are dealing with this issue. It was also discussed to see if we could get some professional people knowledgeable with this issue to address this Planning Commission at a future meeting.

Request Withdrawn by applicant.

NEW BUSINESS:

DISCUSS-ADAMINI CORRESPONDENCE REGARDING PROPOSED ZONING ORDINANCE TEXT AMENDMENT REGARDING SECTION 402-FRONTAGE REQUIREMENTS

Planning Director Riley explained to the Commission that the Township Board is requesting the Planning Commission's review of the correspondence received from Stephen Adamini regarding a proposed Zoning Ordinance Text Amendment.

Because of the significant neighborhood interest in this issue, the property owners within 300' of the parcel referenced in the Adamini correspondence were notified.

The Planning Commission reviewed the correspondence from Mr. Adamini and read the letters from property owners that were recently received that urged the Planning Commission not to change the Ordinance.

Mr. Adamini and Travis VanNeste urged the Planning Commission to look at reviewing the Zoning Ordinance as it relates to the difference between a "driveway" and a "private road" and to review the term "abut" as it is used in Section 402.

Moved by Commissioner Kinnunen, supported by Commissioner Emerson to send this item to the Ordinance Amendment Sub-Committee for review of the definition of a driveway versus a private road.

MOTION CARRIED

OLD BUSINESS:

DISCUSS-SHORELINE/DUNE PROTECTION

Planning Director Riley explained that as was discussed at last month's meeting, one of the fundamental elements in reviewing this matter is actually establishing the problem that is occurring to the shoreline/dunes along Lake Superior. This will be essential in establishing the need and argument for any new protection measures.

Mr. Riley indicated that he has been discussing this matter with Carl Lindquist of the Central Lake Superior Watershed Partnership who agrees that this is definitely an issue that needs to be explored. Mr. Lindquist was able to have a consultant review this area from several properties and his report has been completed for the Planning Commission to review. (Copies distributed and reviewed).

Planning Commission discussion centered on the best approach to take to address this issue. One option is to attempt to have the area looked at for inclusion on the State's Critical Dune Area where those regulations would be implemented. The other approach was for the Township to simply look at an overlay zoning district with some relatively straight forward regulations to address the key problems. The Planning Commission favored this approach and thought that if combined with educational efforts this may prove effective. There was consensus that before proceeding with a specific approach one of the key elements is to get plenty of public involvement and to establish consensus from the public and landowners regarding the problem and the need for protection.

The Planning Commission requested that Mr. Riley put together an initial draft of the needed elements (what may be the key regulations and/or educational aspects) to protect the dunes/shoreline for the next meeting for their review.

PLANNING DIRECTOR'S REPORT

1. Rezoning #113 has been approved by the Board, #114 has been tabled to await the County's comments.
2. Bike path along Silver Creek Road will be re-bid this spring.
3. Ordinance Sub Committee. Need for December meeting.

OLD BUSINESS:

DISCUSS-ADAMINI CORRESPONDENCE REGARDING PROPOSED ZONING ORDINANCE TEXT AMENDMENT REGARDING SECTION 402-FRONTAGE REQUIREMENTS

The Ordinance Amendment Sub-Committee met on December 5th and reviewed the Adamini request and the related aspects of the Zoning Ordinance, (definitions, etc.), as was discussed at the last Planning Commission Meeting.

The basic decision was made by the Sub-Committee to recommend that no change be made to the language of the Zoning Ordinance. The Sub-Committee believed that the appropriate avenue was for the VanNestes to review re-applying for a variance to the Zoning Board of Appeals. This is the appropriate review body to review their individual unique property situation; (versus amending the Ordinance which would have Township wide implications on development patterns). The VanNestes have agreed to pursue this avenue versus the Ordinance Amendment. Travis VanNeste presented the Planning Commission with a site plan detailing the property and the setbacks that would be imposed that they would subsequently file as part of their application to the Zoning Board of Appeals.

Commissioner Emerson moved, Commissioner Sanders second to authorize the Planning Director to write a letter to Mr. VanNeste recommending that they reapply to the Zoning Board of Appeals concerning access and development to the property due to the unique nature of their situation.

MOTION CARRIED

DISCUSS-SHORELINE/DUNE PROTECTION

At the last meeting, the Planning Commission requested that Planning Director Riley put together an initial draft of the needed elements, (what may be the key regulations and/or educational aspects), of Lake Superior shoreline/dune protection for their review. This draft was presented in the Planning Commission packets.

Also, Mr. Riley recently spoke with Mike LaPointe as he had spoken with the staff of the Soil Conservation District regarding this issue. They would be willing to consider assisting the Township with administering the regulations that we may develop.

Mr. Maki and Mr. Riley discussed this internally and we believe that the Township must be fundamentally responsible for administering any regulations that we develop. This alleviates questions of legality and enforcement overlap since the Township is responsible for enforcing its own ordinances. We also do not want to create situations where property owners are frustrated by potentially having to work through 2 different agencies regarding the same set of regulations.

What may be beneficial, however, is if we can include the Soil Conservation District in the review/approval procedure for major earth changes along the shoreline that perhaps we would review as a conditional use permit. In conjunction with any educational assistance they can provide, it would certainly be beneficial to be able to utilize their expertise.

The Planning Commission discussed this issue and liked the draft of the elements/approach that could be taken. The Commission agreed that the key element is to correctly identify the area of protection as the 1st barrier dune. The Planning Commission asked Planning Director Riley to draft what may be the specific language for their review and discussed having affected property owner meetings to discuss this idea.

Commissioner LaPointe inquired as to whether the Township Board had made any comments regarding this issue?

NEW BUSINESS:

CONSIDER-ANNUAL ROAD RANKING

The Planning Commission reviewed the submitted road rankings to determine their recommendation to the Board.

1. Silver Creek Road
2. West Wright Place
3. Green Garden Road
4. Greenfield Road
5. Ford/Townline Road
6. VanEpps/Fairbanks
7. Country Lane Road
8. Shot Point Road
9. Old Little Lake Road (Citizen request for paving of gravel portion)
10. N Big Creek Road (Citizen request for paving of gravel portion)

CONSIDER-2001 MEETING DATES AND TIME

The Planning Commission has decided to leave their meetings dates and time as scheduled for 2001.

PLANNING DIRECTOR'S REPORT

1. TEA21 Grant
2. Planners Luncheon
3. Mobile Home Park Violation update
4. City/Township joint meeting

PUBLIC COMMENT: None

COMMISSIONER COMMENT:

Chairman Sanders welcomed Thomas Shaw to the Planning Commission.

Chairman Sanders requested that Planning Director Riley review Family Dollar's lighting in regards to compliance with their approval. The Commission discussed the potential need for more extensive lighting controls in the Township.

CHOCOLAY TOWNSHIP PLANNING COMMISSION

January 8, 2001

PRESENT: Commissioners Thomas Shaw, Bill Sanders, Kendall Tabor, Mike LaPointe, Estelle DeVooght, Steve Kinnunen, Scott Emerson

ABSENT: None

OTHERS: Doug Riley, Director of Planning & Research, Stacy Busch, Recording Secretary, Don Britton, Dennis Magadanz

REGULAR MEETING CALLED TO ORDER:

Chairman Sanders called the regular meeting of the Chocoday Township Planning Commission to order at 7:32 p.m.

APPROVAL OF THE MEETING MINUTES:

The minutes of the regular meeting of the Chocoday Township Planning Commission, dated December 11, 2000 were presented for approval.

Moved by Commissioner Kinnunen, supported by Commissioner Tabor, that the December 11, 2000 minutes be approved as presented. **Motion carried.**

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Moved by Commissioner Sanders, supported by Commissioner DeVooght, to approve the agenda as presented. **Motion carried.**

PUBLIC COMMENT:

Don Britton gave the Planning Commission an update from the AdHoc Trails Committee regarding the availability of a removable bridge from the National Guard for the Chocoday River located by the DNR fishing site off of M-28.

The Planning Commission discussed the required background research (permit, site preparation costs, etc.) that would need to be completed.

Kinnunen moved, Sanders second, that the Planning Commission write a letter to the Township Board recommending them to evaluate the bridge acquisition from the Army Reserve for use at the Chocoday River on M-28 due to winter safety concerns.

OLD BUSINESS:

DISCUSS SHORELINE-DUNE PROTECTION

Planning Director Riley explained that at the last meeting the Planning Commission requested that he expand on the approach that we could take with a Lake Superior Shoreline/Dune Protection Overlay District and develop draft Ordinance language for review.

The suggested draft language was reviewed for the Planning Commission's comments. One of the key components was not to be overly restrictive with the extent of the district but to simply make sure that the key first barrier dune area along the shoreline is encompassed.

Planning Commission discussion centered on the vision strip, getting rid of any of the references to "clearing", and not utilizing a specified width for the vision/access strip but simply referencing that trimming or pruning is allowed but not the wholesale removal of vegetation.

Discussion also centered on establishing what may constitute "major" versus "minor" earth changes; (such as utilizing a percentage of the lot width). A key element that was identified was the need to further review the process of plan development and the permit process in order to keep it as user friendly and efficient as possible for property owners. Perhaps Township staff would complete the whole permit/plan process. Planning Director Riley indicated that he would review the language further based upon the comments of the Planning Commission and research the issue of the actual implementation process (e.g. plan development/permits/enforcement).

NEW BUSINESS:

DISCUSS-PROPOSED ZONING ORDINANCE TEXT AMANEDMENT-COMMERCIAL REAL ESTATE SIGNS AND POLITICAL SIGNS

The Planning Commission reviewed and discussed the problem as referenced in staff's memorandum .

SIGNS (Commercial Real Estate and Subdivision/Development Signs)

Problem: Currently the Zoning Ordinance does not permit commercial real estate or subdivision/development signs any larger than 6 square feet (see Ordinance language).

This size limitation works well for residential "for sale" signs but is problematic for commercial properties as the industry standard for these type of signs are 4' x 8' or 32 square feet. (For example, see current for sale sign on LaRue's building).

Proposed

Solution: Amend Sec. 805 of the Ordinance to exempt/allow commercial real estate and subdivision/development signs at 32 square feet but that they must be set back outside of the road right-of-way.

POLITICAL SIGNS

Problem: Each election there are numerous violations with political/election signs (primarily size and setback requirements) based upon our current Ordinance language. In addition, we also have questionable legal authority to regulate and enforcement is almost impossible.

Proposed

Solution: Amend Sec. 805 of the Ordinance to exempt all political signs under 32 square feet and that their placement does not constitute a hazard to motorists as determined by the Traffic Engineer (Police Department).

The Planning Commission discussed the need to keep the language regarding how early someone could place their sign prior to an election as well as how long it could remain after an election.

The Planning Commission gave the go ahead to Planning Director Riley to prepare a text amendment and schedule the public hearing for next month.

DISCUSS-LIGHTING CONTROLS

The Planning Commission had previously discussed strengthening our lighting controls and the potential need for a dark sky ordinance. Planning Director Riley requested the Planning Commission's general consensus on what is envisioned in order to proceed with a course of action/research.

The Planning Commission discussed this issue and indicated that they believed a comprehensive program of looking at all lighting elements (e.g. public and private) is how we should proceed. The actual evaluation may determine how comprehensive we can be.

DISCUSS-PLANNING COMMISSION PORTION OF TOWNSHIP WEBSITE

Planning Commission suggestions for updating the information for the township website:

- Agendas
- Monthly Minutes
- Township should do their own updating to keep the information current

The new County Community Information System (CIS) was also discussed and the information that this system will provide for each local unit of government such as agendas, minutes, etc..

DISCUSS-PLANNING COMMISSION PACKET/MATERIALS

The Planning Commission is pleased with the thorough amount of information being passed on to them.

PUBLIC HEARING - REZONING #115 - TEXT AMENDMENT - COMMERCIAL REAL ESTATE SIGNS AND POLITICAL SIGNS

Chairperson Sanders opened the public hearing at 7:30 p.m. Planning Director Riley indicated that as of today, only one person had contacted the office regarding this text amendment. Ms. Elizabeth Blichfelbt of 2851 M-28 East indicated that she was concerned with increasing sign sizes for signs along M-28 and that this is a step in the wrong direction. She stated that if this amendment only pertains to temporary signs such as real estate or political signs she is not as concerned, but it does seem that these signs are up forever.

No additional public comment. Chairperson Sanders closed the public hearing at 7:32 p.m.

REGULAR MEETING CALLED TO ORDER:

Chairman Sanders called the regular meeting of the Chocolay Township Planning Commission to order at 7:33 p.m.

APPROVAL OF THE MEETING MINUTES:

The minutes of the regular meeting of the Chocolay Township Planning Commission, dated January 8, 2001 were presented for approval.

Moved by Commissioner Sanders, supported by Commissioner LaPointe, that the January 8, 2001 minutes be approved as presented. **Motion carried.**

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Moved by Commissioner Shaw, supported by Commissioner Tabor, to approve the agenda as presented. **Motion carried.**

PUBLIC COMMENT: None

OLD BUSINESS:

LAKE SUPERIOR SHORELINE-DUNE PROTECTION

Planning Director Riley briefly reviewed the changes that were made to the draft Overlay District following the last Planning Commission meeting.

The Planning Commission thought perhaps we should delete the "significant" vegetation reference in the Intent section. Otherwise the Planning Commission believed the language was acceptable for proceeding. Planning Director Riley indicated that he would like to review the approach we are taking with the DEQ and the Conservation District and report back to the Planning Commission in March. Following that report, a property owner meeting can be scheduled.

LIGHTING CONTROLS

The Planning Commission reviewed staff's memorandum and attached information regarding the different areas of lighting controls that we can address. The majority of the conversation centered on beginning with reviewing our street lights and recommending changing our street lighting policy to use more efficient cobra head style lights such as what Marquette Township was now doing.

Discussion also centered on replacing the existing street lights with the new cobra head style. Following discussion regarding BLP prices for replacements, the Planning Commission favored recommending a phased approach where perhaps the Township would replace 20 street lights per year. Denny Magadan, DPW Supervisor, advised the Commission regarding the number of existing street lights and the current policies on replacement of lights by the Board of Light and Power.

Kinnunen moved, LaPointe second to have the Chairman of the Planning Commission draft a letter to the Board for their February 19, 2001 meeting asking for their consideration of a phased street light replacement program over a period of five years.
Motion Carried

NEW BUSINESS:

PROPOSED ZONING ORDINANCE TEXT AMANEDMENT-COMMERCIAL REAL ESTATE SIGNS AND POLITICAL SIGNS

At the last meeting the Planning Commission reviewed two problems within the sign section of the Zoning Ordinance. These were: 1) We do not permit commercial real estate or subdivision/development signs any larger than 6 square feet, and 2) Each election there are numerous violations with political/election signs (primarily size and setback requirements).

Following last month's meeting, a public hearing was scheduled for this meeting for the Planning Commission to consider proposed text amendments to address these problems.

However, following the January Planning Commission meeting, at both of the joint meetings with the City of Marquette and the Township Board, (including the meeting in which Marquette Township was involved), the issue of consistency, (and the strengthening of), political sign regulations between the units of government was discussed. Therefore, Planning Director Riley suggested that we delay any action on this issue until staff can discuss this issue with these other entities.

The Planning Commission agreed to moved forward with just the text amendment regarding real estate/development signs.

Kinnunen moved, Emerson second that the Planning Commission recommend approval of Rezoning #115 to the Township Board for a text amendment to Zoning Ordinance #34 as follows:

Section 805 - EXEMPTIONS FROM SIGN REGULATIONS - To amend the second section by adding the language in bold print:

- signs having an area of not more than six square feet each, the message of which is limited to warning of any danger, prohibition or regulation of the use of the property, or traffic or parking thereon, or advertising the premises for sale or rent.
Signs advertising commercial real estate and subdivision/development signs of 32 square feet or less provided they are located outside of the right-of-way.

Motion Carried

PLANNING COMMISSION SUB-COMMITTEES - TRAILS COMMITTEE AND RECREATION COMMITTEE

The Township Board, at their meeting of January 19, 2001, requested that the Planning Commission "*evaluate making the Ad Hoc Trails Committee and Recreation Committee formal subcommittees of the Planning Commission*".

Planning Director Riley indicated that he envisioned that the membership on these committees could essentially remain the same, but importantly that one or two Planning Commission members also serve on the committees. In addition, perhaps the Planning Commission should discuss combining the two committees, (i.e. just have a Recreation

Committee). This makes sense since there is so much overlap anyway regarding "trails". Then, perhaps future Planning Commission agendas can have a segment for "Sub-Committee" reports/recommendations, (e.g. Ordinance Amendment Sub-Committee and Recreation Sub-Committee).

The Planning Commission discussed merging these two committees with Don Britton, Board Member and Chairman of the Trails Committee.

LaPointe moved, Tabor second, to merge the Recreation Committee and Trails Committee to form a Recreation Sub-Committee of the Planning Commission.

Motion Carried

Commissioner's LaPointe and Tabor agreed to be the two Planning Commission representatives to the Sub-Committee. Tom Shaw agreed to be the alternate.

PLANNING DIRECTOR'S REPORT

1. Mangum Road Contracts
2. Kawbawgam Ski Trail
3. Joint Meetings
4. State Police Tower
5. Army Reserve Bridge
6. Coordinated Planning Act
7. Family Dollar Lighting

PUBLIC COMMENT: None

COMMISSIONER COMMENT:

Commissioner Kinnunen advised the Commission that he is concerned with the Township getting involved with the City of Marquette's problems through these "joint meetings". He was troubled by the recent news coverage regarding the deer problem on Presque Isle where it showed our Board Members. He thought that the Board needed to be careful not to have this involvement affect our Township negatively.

April 9, 2001

PRESENT: **Commissioners** Bill Sanders, Kendall Tabor, Mike LaPointe, Estelle DeVooght, Scott Emerson arrived 7:42

ABSENT: Steve Kinnunen, Thomas Shaw

OTHERS: Doug Riley, Director of Planning & Research, Stacy Busch, Recording Secretary, Dennis Magadanz, Lee Snooks, Jon & Nancy Wennerberg, Dan Reed, Brad Neumann, Gene Elzinga

**PUBLIC HEARING-CONDITIONAL USE # 62-STAR INDUSTRIES-
INSTALLATION AND OPERATION OF A STEAM POWERED AUTOCLAVE
TO TREAT MEDICAL WASTE**

Chairperson Sanders opened the public hearing at 7:32 p.m. Planning Director Riley indicated that as of today there has been no correspondence or telephone calls received regarding this conditional use. No public comment. Chairperson Sanders closed the public hearing at 7:34 p.m.

REGULAR MEETING CALLED TO ORDER:

Chairman Sanders called the regular meeting of the Chocoday Township Planning Commission to order at 7:34 p.m.

APPROVAL OF THE MEETING MINUTES:

The minutes of the regular meeting of the Chocoday Township Planning Commission, dated February 12, 2001 were presented for approval.

Moved by Commissioner LaPointe, supported by Commissioner Tabor, that the February 12, 2001 minutes be approved as presented. **Motion carried.**

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Moved by Commissioner LaPointe, supported by Commissioner DeVooght, to adopt the agenda with the change of moving New Business Item A. before Old Business. **Motion carried.**

PUBLIC COMMENT: None

**PRESENTATION-COORDINATED PLANNING ACT-DAN REED OF U.P.
ENGINEERS AND ARCHITECTS AND BOARD MEMBER WITH THE
MICHIGAN SOCIETY OF PLANNING**

Dan Reed presented information on the proposed Coordinated Planning Act and answered questions.

NEW BUSINESS:

**CONSIDER-CONDITIONAL USE # 62-STAR INDUSTRIES-INSTALLATION
AND OPERATION OF STEAM POWERED AUTOCLAVE TO TREAT
MEDICAL WASTE**

Planning Director Riley indicated to the Planning Commission that Star Industries has requested Conditional Use Approval for the installation and operation of a steam powered autoclave to treat medical waste at their facility located at 115 Industrial Drive, (in the Varvil Center Industrial development behind Marquette Meats south of M-28). The key portion of the C-3 Conditional Use section that applies for this use is that industrial uses are permitted that "*do not emit any fumes, vibration, smoke, or noise except the noise of vehicles coming and going, which is detectable by the senses of normal human beings, and where all operations, including the storage of anything...are conducted in a fully enclosed building or entirely behind walls or fences which conceal them from visibility from off the lot and trails.*"

Applicant Wennerberg indicated that the Planning Commission granted Star Industries a conditional use permit to operate their current facility in 1986. That approval included the collection and storage of medical waste before it was shipped to Hamtramck, Michigan to

be incinerated. He would now like to install an autoclave to steam sterilize medical waste in order that it can be disposed of in the County landfill.

In researching this issue, this sort of treatment of medical waste is not uncommon and is regarded as a better alternative to incineration. Essentially, the waste is loaded into the autoclave and is steamed to approximately 300 degrees in order to sterilize the material.

The Planning Commission asked several questions of Mr. Wennerberg regarding the operation of the autoclave and the nature and handling of the medical waste. The Planning Commission also reviewed the comments of the Marquette County Health Department.

LaPointe moved Sanders second that after review of Conditional Use request #62; the standards of Section 701, and other applicable standards contained in the Township Zoning Ordinance; and subsequently finding compliance with the standards for approval of the request, the Planning Commission approves Conditional Use request #62 with the following conditions:

- 1) That the applicant provide the Fire Department with their requested MSDS documents, a floor plan/lay out of the area and provide a site visit for the Fire Department prior to operation.
- 2) That the applicant take all measures necessary to eliminate any excessive odor from escaping from the property due to this treatment operation.
- 3) That the applicant collect and dispose of any and all liquid leachate produced from the operation of the autoclave and the treatment of the medical waste in accordance with the requirements and recommendations of the Marquette County Health Department.
- 4) That the applicant comply with all applicable local, state and federal regulations for this use.
- 5) That the applicant obtain a zoning compliance permit from the Township Zoning Administrator.

Motion Carried

OLD BUSINESS:

DISCUSS- LAKE SUPERIOR SHORELINE/DUNE PROTECTION – OVERLAY DISTRICT

Planning Director Riley explained that in reviewing the draft "Lake Superior Shoreline/Dune Protection Overlay District" with officials of the Marquette County Conservation District and the Michigan Department of Environmental Quality both agencies had very positive comments regarding the overlay district approach and the draft language. Both agencies also indicated their willingness to assist us with permit coordination/notification. In addition, both agencies indicated that they would be happy to attend our future property owner meeting in order to assist in any manner that may be appropriate.

The Planning Commission indicated that May 23rd would work for the special meeting for the property owners.

NORTH COUNTRY TRAILS

Gene Elzinga presented to the Planning Commission different types of barriers proposed for the overpasses for the North Country Trail and the estimated costs of the different types. The Planning Commission discussed modifications to these barriers to cut costs. The Planning Commission also discussed Township participation in these costs.

DISCUSS- CHOCOLAY RIVER WATERSHED PLAN

Planning Director Riley explained that the information contained within the plan shall prove useful as the Planning Commission reviews specific development projects that could impact the watershed or when opportunities are presented for corrective action for a particular problem area. In addition, there may be areas where our zoning ordinance can be strengthened in the future in furtherance of the plan's goals.

DISCUSS- 2000 CENSUS

The Planning Commission discussed the Census 2000 Information for Chocolay Township.

SUB-COMMITTEE REPORTS/ITEMS

- A. Recreation Sub-Committee-Lee Snooks gave update to the Planning Commission on the Committees
 - 1. Combine Trails and Recreation Committee
 - 2. Beaver Grove Grant
 - 3. 5 year Recreation Plan needs to be updated-on hold due to census numbers that need to be amended.

PLANNING DIRECTOR’S REPORT

- 1. Street lighting update
- 2. Beaver Grove Rezoning-Public Lands
- 3. June Planning Commission meeting date change-6/12/01

PUBLIC COMMENT: None

COMMISSIONER COMMENT:

Commissioner Emerson suggested that the Planning Commission review designating truck routes in the Township.

There was Commissioner concern about the mud on the Savola property along the rock cut.

INFORMATIONAL ITEMS AND CORRESPONDENCES:

PUBLIC HEARING-SPECIAL USE PERMIT #2-MARQUETTE COUNTY ROAD COMMISSION-MINING PERMIT (SAND) FOR WITTLER PROPERTY ON US-41

Chairperson Sanders opened the public hearing at 7:32 p.m.. Planning Director Riley provided an overview of the requested permit. Planning Director Riley indicated that as of today there has been no correspondence or telephone calls received in response to the public hearing notice or adjoining property owner letters.

Dick Arnold, 312 West Branch Road, stated that he had no problem with the requested permit as this is a logical location for extraction of the needed sand. However, did the Road Commission haul sand out of that location today? If that is the case, he thinks the Road Commission should have to wait for approval just like everyone else.

Michael Pelkola, Marquette County Road Commission, indicated that yes the Road Commission did haul some sand from the site today.

Chairperson Sanders closed the public hearing at 7:45 p.m.

PUBLIC HEARING-REZONING #116- BEAVER GROVE RECREATION AREA PROPERTY-R-1 TO PUBLIC LANDS

Chairperson Sanders opened the public hearing at 7:46pm. One letter of correspondence from Cathy Peterson was read and placed into the record opposing the rezoning. Planning Director Riley explained that Rezoning #116 is a request from the Township for the rezoning of the Township's Beaver Grove Recreation Area property (29 acres +/-) from R-1 to PUBLIC LANDS. This rezoning continues the process of the rezoning of Township owned properties to Public Lands. As you probably remember, the Township amended the Public Lands zoning district last year to spell out actual permitted uses.

Other Township properties currently zoned Public Lands include the Township Hall site and the Kawbawgam Road property (rezoned last year). The Township has received a CMI Grant in the amount of \$85,000 for the continued improvement of the Beaver Grove Recreation Area. The total \$135,000 grant project includes: expanded parking near the soccer field, soccer field seating, a pavilion, a half court basketball court, covered dugouts, ballfield irrigation, fencing and signage. The Recreation Sub-Committee is currently reviewing these items and the Planning Commission will be reviewing the site plan for these improvements at an upcoming meeting.

Cathy Peterson-I am opposed to this rezoning because there is no need for it as public parks are already allowed in the R-1 District. John and I were promised that this would always be kept as a public park. We took less money for the property because it was going to be a park. These parks should be identified on the map and that if they were intended to be utilized as a park or a gift (e.g. Brower property), to the township it should be so noted.

REGULAR MEETING CALLED TO ORDER:

Chairman Sanders called the regular meeting of the Chocoy Township Planning Commission to order at 7:50 p.m.

APPROVAL OF THE MEETING MINUTES:

The minutes of the regular meeting of the Chocoy Township Planning Commission, dated April 9, 2001 were presented for approval.

Moved by Commissioner Tabor, supported by Commissioner Sanders, that the April 9, 2001 minutes be approved as presented. **Motion carried.**

APPROVAL OF AGENDA/ADDITIONS TO AGENDA:

Moved by Commissioner Sanders, supported by Commissioner LaPointe, to adopt the agenda with the change of moving New Business Items A & B. before Old Business, and also adding New Business E. Private Road Review-Ray Hosking. **Motion carried.**

PUBLIC COMMENT: None

NEW BUSINESS:

CONSIDER-SPECIAL USE PERMIT #2-MARQUETTE COUNTY ROAD COMMISSION MINING PERMIT (SAND) FOR WITTLER PROPERTY ON US-41

The Planning Commission asked if the Road Commission had received any authority to haul sand from the site prior to formal approval? Planning Director Riley indicated the he had advised them that the earliest they would be able to haul would be following the Board meeting on May 21st when the application would be formally reviewed and acted upon by the Board.

The Planning Commission reviewed the particulars of the request pertaining to hours of operation, dust control on the access road, reclamation and permit duration.

The Planning Commission requested that Planning Director Riley and the Chairman draft a letter to the Road Commission advising them of the need to obtain necessary approvals prior to beginning work no different than any other applicant.

LaPointe Moved, Emerson Second, that after consideration of Special Use Permit #2 for a Mining and Mineral Extraction Permit for sand as provided in the standards of Section 407 of the Chocoy Township Zoning Ordinance, the Planning Commission recommends approval to the Township Board with the following conditions:

- 1) That a zoning compliance/mining and mineral extraction permit be obtained from the Zoning Administrator prior to use.

- 2) That the access road be adequately treated to prevent dust from impacting US-41.
- 3) That the permit is only valid for the 2001 road construction season and the site shall be restored to MDOT borrow site requirements.

MOTION CARRIED

**CONSIDER-REZONING #116-BEAVER GROVE RECREATION AREA
PROPERTY-R-1 TO PUBLIC LANDS**

Planning Commission discussion centered on the Public Lands zoning district and permitted uses versus the existing R-1 zoning district. Sanders indicated that he believed the Public Lands District better denoted the actual use of the property and this rezoning would streamline the process for making continued recreational improvements to the property. The commissioner's also discussed the merits of creating a map where public parks and properties are denoted.

Commissioner Sanders moved, supported by Commissioner Tabor that following the review of Rezoning request #116 and the Staff/File Review, the Planning Commission recommends approval of Rezoning #116 to the Township Board to rezone said property from R-1 to PUBLIC LANDS.

Motion Carried

OLD BUSINESS:

**DISCUSS- LAKE SUPERIOR SHORELINE/DUNE PROTECTION –
UPCOMING PROPERTY OWNER MEETING**

Planning Director Riley presented some slides that could be utilized for the property owner meeting. The Planning Commission gave him the go ahead to send out the property notices and the meeting outline was fine. It was suggested to change the Dune text under Permitted Principle Uses B: to add after pruned “at the property owners discretion”, also after the word removed in the second paragraph to underline the word removed.

**NEW BUSINESS- DISCUSS-US-41 CORRIDOR PLANNING-
ACCESS/ACCIDENT MAPS-PRIORITY AREAS/ISSUES**

Planning Director Riley explained that as part of the US-41 Corridor planning effort, each jurisdiction has been requested to review their respective segment of the US-41 Corridor to identify critical areas or issues that they would like to see addressed in the actual Corridor Management Plan that CUPPAD is drafting.

Within the Corridor Management Plan there will be specific sections pertaining to each jurisdiction as well as common issues relating to all jurisdictions. CUPPAD has provided the "strip maps" for Chocolay's section from M-28 to the Rock Cut which detail access locations as well as accident incident data.

Planning Director Riley indicated that the US-41/M-28/Cherry Creek Road Intersection and the Rock Cut area have been included within the "critical areas" list. The "critical areas" list is a special area of focus for the Corridor Management Team. These areas have been deemed to have critical safety issues and these areas are being immediately evaluated for corrective action or immediate planning efforts.

Commissioner suggestions for areas of focus:

- Boulevard parts of US-41 in the township for curb control, buffers, speed, curb cuts.
- Safety Issues-speed enforcement.
- Aesthetics - Landscaping, lighting, visual speed reducer.
- Drainage-problem area by Wahlstrom's and Silver Creek Road.
- Rock cut-coordinated access road from Van Epps to Boy Scouts.
- Create a park overlook on top of rock cut.
- Warning lights for signals.

DISCUSS MARQUETTE COUNTY CONSERVATION DISTRICT AND CENTRAL LAKE SUPERIOR WATERSHED PARTNETSHIP-REQUEST FOR INPUT

Planning Director Riley explained that the Marquette County Conservation District and the Central Lake Superior Watershed Partnership requested the Township's input regarding their efforts/areas of focus. The Planning Commission is the logical body to provide the requested input. The Planning Commission determined to review these requests individually and forward their comments to Planning Director Riley who can then consolidate them to forward to these agencies.

PRIVATE ROAD REVIEW-RAY HOSKING-NORWAY TRAIL

Planning Director Riley indicated that Ray Hosking would like the Planning Commission to review his private road construction that had been originally reviewed and approved in 1993. Mr. Hosking constructed the road differently than what was on the approved plan, primarily by extending the road further onto the property. The question now is whether a new public hearing and property owner notification should be made?

Planning Director Riley noted that he has visited the site and the road meets the private road standards.

The Planning Commission reviewed the amended plan against the original plan and the conditions from the previous approval in 1993.

Commissioner Sanders moved, Commissioner Emerson supported that the Planning Commission reviewed the private road construction by Ray Hosking and determined that it was consistent with the private road approval. **Motion Carried**

SUB-COMMITTEE REPORTS/ITEMS

Recreation Sub-Committee-Next meeting is June 5, 2001.

Ordinance Amendment Sub-Committee-

The Ordinance Amendment Sub-Committee of the Planning Commission met on April 17, 2001 and discussed the following:

- 1) Intensive Agriculture
- 2) Electronic Message Boards
- 3) Golf Courses - Monitoring Wells/Testing
- 4) Height Regulations

Recommendations were as follows:

- 1) Intensive Agriculture - No need to address at this time.
- 2) Electronic Message Boards - Do not liberalize our Ordinance to allow this type of sign. Add language to clarify that a "time and temperature" sign, (such as what is typically allowed for banks), is not considered an electronic message board.
- 3) Golf Courses - Monitoring Wells/Testing - Doug will discuss this matter with the two golf courses.
- 4) Height Regulations - As was discussed/recommended last year, agreed to move forward with an amendment to make our height language consistent with other municipalities in the area. Add language, to address Fire Department concern, for structure to provide two access points less than 25' in height.

PLANNING DIRECTOR'S REPORT

1. Silver Creek School-Township purchasing
2. Census
3. Silver Creek School Student Council
4. Recreation Sub-Committee-June 5, 2001

PUBLIC COMMENT: None

COMMISSIONER COMMENT: None

INFORMATIONAL ITEMS AND CORRESPONDENCES:

- A. Correspondence – Marquette County Road Commission-RE: Street Sweeping

The meeting was adjourned at 10:30 p.m.

Estelle DeVooght, Commission Secretary

Stacy L. Busch, Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
LAKE SUPERIOR SHORELINE PROPERTY OWNERS MEETING
MAY 23, 2001**

Present: Commissioners: William Sanders, Thomas Shaw, Kendal Tabor, Michael LaPointe, Estelle DeVooght, Scott Emerson

Absent: Steve Kinnunen

Others: Doug Riley, Director of Planning & Research, Dennis Magadanz, Department of Public Works Supervisor, Cathy Phelps, Recording Secretary

SPECIAL MEETING CALLED TO ORDER:

Chairman, Sanders, called the special meeting of the Chocolay Township Planning Commission to order at 7:05 P.M.

A welcome to Lake Superior shoreline landowners and everyone interested was made by Sanders. He explained the potential erosion problem and potential solutions.

Doug Riley explained the problems encountered along the shore with a slide show. He showed examples of dunes with good and poor vegetation, along with problems dune changes have caused. Riley discussed that the only thing in place at this time was regulation on building construction setbacks, and that there are no regulations on vegetation or dune changes other than a soil erosion permit, which does not really address the issue.

Doug Riley displayed Section 218 – Overlay District. Riley explained that the reason for this discussion was that the Township receives a number of complaints every year.

Eero Wiitala wanted a clarification on overlay zoning and barrier dune. He stated that the dunes change constantly. He has lived along Lake Superior for 39 years and has tried everything. The dunes can vary 20 to 30 feet in one storm.

Sanders opened the meeting to public questions and concerns.

Bruce Heikkila, 700 Hampton Street, wanted to know how many problems per year have been documented. Emerson replied that they have not been documented because there are no Township rules or laws set. Tabor stated that the ordinance purpose was to set up a review process. If someone decides to bulldoze a dune they can at this time. This could cause a major sand problem. There are no laws or ordinances now against bulldozing or running four-wheelers on the beach. Emerson said we learned from the storm of '85 that we need to protect the shoreline. The Planning Commission needs to define an overlay zone, and they do not want to restrict pruning or minor changes only significant earth moving.

Riley read correspondence and phone conversations where property owners requested their comments to be presented to the Planning Commission:

- 1) Letter from Jim and Sue Drobny, 833 Lakewood Lane
- 2) Letter from Regis Walling, 545 Lakewood Lane
- 3) Letter from John Wilson, 793 Lakewood Lane
- 4) Letter from Mr. and Mrs. George Miller
- 5) Letter from Mr. and Mrs. Carl Lindquist, 193 Lakewood Lane
- 6) Phone comments from Marla Buckmaster, Lakewood Lane
- 7) Phone comments from Margo Mathews, 851 Lakewood Lane
- 8) Phone comments from Mike Nelson, property owner on Lakewood Lane
- 9) Letter from Mary Asente, 1893 M-28 East

(Also attached –received after the meeting – a letter from Glen and Ev-Ann Johnson and a letter from Dan Wiitala, 645 Lakewood Lane)

Public Comment Continued:

Bruce Heikkila, has owned land on Shot Point for 40 years, erosion is not applicable to Shot Point because it is rock. It is not a high erosion area. Will this ordinance change affect Shot Point?

Sanders responded that it is included at this time.

Emerson said maybe we should have this area exempt.

Shaw responded by saying that rock, like sand, can still be removed. Bruce Heikkila asked, "why should this area be included when there is no dune problem."

Mona Scriba, 2461 M-28 East, gave her observations. They winter in Indiana and they hike the dunes. They see erosion problems. Along Lakeshore Drive north of Fair Avenue the dunes were cleared out and the sand covered the road. They had bayou in their yard before the storm of '86. The wind broke through a low dune and filled in the pond with sand. Small changes made to a dune can have a great impact. She is supportive of having regulations. Asked if the state has any regulations?

Joan Duncan, DEQ, stated they receive 20 calls per year from people with problems regarding the dunes. There is nothing she can do, there are no state regulations other than for the high risk erosion areas, which only regulates structure setbacks. She suggested the Township not use the water's edge as a reference point or "significant vegetation". Instead she suggests using the high water mark or erosion hazard line. She stated that the Army Corps of Engineers have no rules or laws applicable to the dunes either. There is a severe problem in Chocoday Township.

Whitney Johnson, 313 Lakewood Lane, there should be preventative measures to prevent bulldozing through dunes. There may be some exceptions. Sand paths are inevitable, but there should be control over bulldozing.

Eero Wiitala, 801 Lakewood Lane, he has lived along Lake Superior for 60 years and knows you cannot plant beach grass. It is a futile effort to try.

Marv DeMilio, 443 Lakewood Lane, agrees with Joan Duncan regarding a reference point. During high water, you are lucky to find 400' of your property. This year the grass is as far to the lake as it has ever been. One storm and the grass edge could move considerably. He is for building decks on the dune, or plant trees. He would be very upset if his neighbors bulldozed the dune. He is in favor of no bulldozing or four-wheelers on the beach.

Carolyn Jean, 373 Lakewood Lane, says her dunes are changing constantly. No one can fight mother nature. We need to do what we can to protect the dunes. She is in support.

Marci Thieme, 1895 M-28 East, states we should listen to Joan Duncan. The ordinance being worked on by the Planning Commission should be clear. She thinks the issues are stairs and dune grass plugs.

Jude Catallo applauded the Board. She told residents never to be surprised at what people would do. The ordinance needs to have precise language.

Connie Barto, 951 M-28 East, states her dunes are lower now. She does not want this to apply to steps. She does not want to have to get a permit to put in steps, and have to pay for it. She is in favor of less intrusive rules and regulations. She is in support of rules for major dune changes.

Susan Burney, M-28, just purchased land last summer. She thinks if anyone wants to alter a dune, they should have to go through channels.

William Sanders does not want to have lots of rules either. He believes notification of neighbors and anyone affected by a change should be able to be involved with decision making. There should be a process everyone needs to go through for major dune changes.

Jennifer Bruggnik, 673 Lakewood Lane, stated that late one evening a bulldozer was pulled up to her neighbors. They had no chance to object. She would like to be informed and have a chance to voice her opinion before action is taken. Now the wind blows sand into her yard. She is very concerned about erosion. The neighbors have put no beach grass plugs in, as far as she knows. She wants to have notice. People need to get a soil erosion permit, but many people do not know about it. How are people informed? Some people are just ignorant of the rules. She is in support.

Maci Scriba, M-28 East, regarding Barto comment; for staircase on dune, you must have building permit, but the DEQ involvement isn't required. There are some ordinances in the Township that people don't know about. This meeting brings these to light.

Sue Britton, 733 Lakewood Lane, not in support. Public hearing is excessive. Most people are aware. Permits now are adequate.

Sally Mellon, 481 Lakewood Lane, we have rules for dunes already. No one can bulldoze.

Joan Duncan, DEQ, 1972 was when the high risk erosion areas were established, all land owners were notified. In 1989 the Sand Dune Act was passed regarding critical barrier dunes in other areas. There are no state designated critical dunes in Marquette County.

Sally Mellon, 481 Lakewood Lane, wanted to know how can people bulldoze large construction areas without a permit. She moved here 12 years ago, her grass area is growing and getting better. She supports no bulldozing without a permit. She thought we had rules.

Virginia Long, 729 Lakewood Lane, new people in area need guidance. When she moved here she had no dune. She heard there was a bayou at one time in front of her home. Chocolay River at one time ran all the way to Sand River along the shore. She loses about one foot of beach a year. She believes the lake is moving south.

Eero Wiitala, 801 Lakewood Lane, wanted to know if we have more regulations, will our taxes go up. William Sanders said no. Wiitala wanted to know where the manpower would come from. Shaw said you see it.

Ann Johnson, 571 Lakewood Lane, stated if people want to move sand, they should use professionals and through the state, they have a couple different departments. They should go through the proper channels. Not in favor of more permits, just enforce the laws we have now.

Eero Wiitala, 801 Lakewood Lane, wanted to know what the Planning Commission is going to recommend.

William Sanders thanked everyone for expressing their thoughts.

Doug Riley explained the procedure the Planning Commission would go through to make any changes, and that it would take quite some time to make any ordinance changes.

Marv DeMilio, 443 Lakewood Lane, supported amending local zoning ordinance. Asked if the Township can stop the bulldozing now. Riley responded by saying there is no quick fix, it would take at least 3 to 6 months for changes to be made. There is no ordinance now.

Joan Duncan, DEQ, stated if there is no wetland, she has no authority.

William Sanders stated that it is time for government to make changes.

At this time the Planning Commissioners gave their comments.

Tabor: Good idea. Likes the idea of at least having a review process.

DeVooght: It was a very educational meeting. People are now aware. She does not want bulldozers destroying dunes when neighbors are affected. She is not a permit person. The public needs to be educated.

LaPointe: Appreciates everyone's comments. The language does need refining. There are no regulations on bulldozing the first dune. We need to have a permit and a review process. To build a walkway or similar structures, he doesn't believe getting a permit is the intention of this meeting.

Emerson: Thanked everyone for coming. People generally care about their lakeshore in this Township. We need to define “significant earth change” and have to have a defined line. All zoning ordinances need to be followed. We cannot regulate nature. We need to have permits and guidelines in the ordinance. Perhaps we could also have an educational pamphlet.

Shaw: His biggest concern is that Lake Superior is a big force. We need education and guidelines.

Sanders: We need to further define the vegetation and dune area. Rock areas are not subject to this change as sand areas are. He believes this should involve major changes of dunes not walkways, steps, etc. We need to have a review process for neighbors to be involved. We should look at the erosion hazard line as a boundary definition. He asked Riley the cost of a Conditional Use Permit. Riley said the current fee is \$75.00.

William Sanders closed the special meeting by thanking everyone for the good turnout. He stated that most residents are good stewards of the land. He thanked everyone for their opinions and the opportunity to discuss this issue.

Whitney Johnson thanked the Planning Commission for holding the meeting and asking for their input. He hoped that future meetings could also be held.

The meeting was adjourned at 8:45 P.M.

Estelle DeVooght, Commission Secretary

Cathy Phelps, Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION
June 12, 2001

PRESENT: Commissioners Bill Sanders, Mike LaPointe, Thomas Shaw, Kendall Tabor, Scott Emerson.

ABSENT: Estelle DeVooght and Steve Kinnunen.

OTHERS: Doug Riley, Director of Planning & Research, Cathy Phelps, Recording Secretary, Lee Snooks, Director of Recreation and Grants, Eero Wiitala, Sally May, Phil May and Dan Trotochaud.

PUBLIC HEARINGS None.

MEETING CALLED TO ORDER

Chairperson Sanders called the regular meeting of the Chocolay Township Planning Commission to order at 7:37 p.m.

APPROVAL OF THE MEETING MINUTES

The minutes of the regular meeting of the Chocolay Township Planning Commission, dated May 14, 2001 were presented for approval.

Moved by Commissioner LaPointe, supported by Commissioner Tabor, that the May 14, 2001 minutes be approved as presented. **Motion carried.**

The minutes of the special meeting of the Chocolay Township Planning Commission, dated May 23, 2001 were presented for approval.

Moved by Commissioner Tabor, supported by Commissioner Sanders, that the May 23, 2001 minutes be approved as presented. **Motion carried.**

APPROVAL OF AGENDA/ADDITIONS TO AGENDA

Moved by Commissioner Sanders, supported by Commissioner Tabor, to approve the agenda as presented. **Motion carried.**

PUBLIC COMMENT

Eero Wiitala, 801 Lakewood Lane, stated that the residents were already over-regulated. Phil May, 425 Lakewood Lane, said they were out of town during the shoreline meeting, but they have written a letter which was given to the Planning Commission.

OLD BUSINESS

A) Discussion on Lake Superior Shoreline/Dune Protection – Follow up from the Property Owners' Meeting.

Doug Riley discussed that he had written up a revised draft. The next step would be to schedule a public hearing. He explained the steps that need to be taken to adopt a zoning ordinance amendment.

Bill Sanders asked if Chocolay has any survey data on elevations along the shoreline pertaining to the high water mark that could be used in the field. Riley stated he didn't believe the Township had any field information on this elevation.

There was a discussion on the "high water mark" and "erosion hazard line". The high water mark elevations are set by the State. Tom Shaw asked, if a home owner wanted to make a change, would he have to pay for someone to come and survey the land to establish where the "high water mark" was located? Discussion was made regarding who could make that determination without calling in a surveyor with high cost to the homeowner. Emerson stated he would like to have a physical feature to show the erosion hazard line, so the Planning Commission could make a determination by looking at the area. Riley mentioned that Mark Maki, the Zoning Administrator, would be making the initial determination. Riley showed a map showing the high risk erosion areas. Phil May said they moved here in 1968, and the dunes are way up now, that is the reason he bulldozed their dune. They could no longer see the lake. Sally May mentioned that they have lived there from the lowest to the highest levels. She said there are erosion problems in some areas, in their area the dunes just grow.

Riley said the State only regulates structural setbacks, they have no rules on dune alterations. He would like to have Joan Duncan come to the next meeting to educate the

Planning Commission on “high water mark” and “erosion hazard line” and to find out if there is an easy way to determine the elevation in the field.

Shaw explained to the public that without an ordinance your neighbor could do anything he wanted to his dune. Phil May said a property owner should be able to take a risk and do anything he wants on his property. Sally May said other neighbors had bulldozed and there were no problems. They have a constant accumulation of dunes. LaPointe stated that the Township has Objective Conditional Use standards already set. Eero Wiitala mentioned we cannot do anything about the nature of the dunes and we should not have any local regulations since we already have State regulations. Riley stated there are no State regulations, only setbacks. Eero Wiitala asked if there were any dune studies that the Township could use. Riley said there are some from Lake Michigan and CUPPAD has done some in Alger County where it is State regulated. Here we have no State regulations. Scott Emerson said the Planning Commission needs more education on the high water mark and erosion hazard line, the Planning Commission has decided to exempt Shot Point from the shoreline ordinance, and that bulldozing needs more objective criteria. Phil May questioned the meaning of “run off”. Phil May said that run off doesn’t happen on the beach the water soaks straight down. Mike LaPointe stated that the Planning Commission needs to change the wording of run off to wind erosion in the draft for clarification.

Riley said he would talk to Mark Maki and Joan Duncan if they could come to the next meeting. He will have something for the Planning Commission to review prior to the next meeting. LaPointe mentioned we should have examples of minor and major earth moving to clarify it to the homeowners.

Sanders said the Planning Commission would try to keep the residents informed by direct mailings or public service announcements in the newspaper. Right now the Planning Commission is working on the draft of the ordinance, and when it is complete, they will mail the draft to the homeowners. A direct mailing is not required by law, but we will do that stated Riley. A public hearing will be held when formally considering the ordinance.

NEW BUSINESS

A) Annual Election of Officers

Discussion by Planning Commission regarding Chairperson.

Commissioner Emerson motioned to keep current slate of officers, Commissioner Tabor second to approve annual election of officers as presented. **Motion carried.**

B) 2000 Annual Report

Commissioner Emerson moved, LaPointe second that the 2000 Annual Report be approved as presented. **Motion carried.**

SUB-COMMITTEE REPORTS/ITEMS

A) Recreation Sub-Committee

Commissioner LaPointe reported that Beaver Grove Grant work will be underway this fall. Engineering plans will be approved by July 19th. Once they are approved, work can begin on the basketball courts. The pavilion work will begin next spring. There will be an announcement in the CABA Quarterly regarding needing volunteers.

B) Ordinance Amendment Sub-Committee

Riley discussed issues. He said next month the Planning Commission will review the height amendment. The Planning Commission discussed dark sky regulations, and the lighting for the Township.

PLANNING DIRECTOR’S REPORT

1. Introduction of Cathy Phelps replacing Stacy Busch as recording secretary.
2. Card for Estelle DeVooght to be signed by the Planning Commission.
3. Thank you letter to Stacy Busch for two years of recording services.
4. TEA 21 Grant for Bike Path between Silver Creek to Cherry Creek Schools.
5. Golf Course well monitoring in Township.
6. Grant report given by Lee Snooks. He informed the Planning Commission about grant possibilities from Coastal Management Programs for Grants. There is grant money available. The Planning Commission discussed possible ideas for grant money. There may be money for an education booklet

regarding living on Lake Superior and refurbishing and/or building new steps along the lookout areas of M-28. The State looks for innovative programs.

PUBLIC COMMENT

The Planning Commission discussed that the overall public comments have been supportive of the shoreline/dune protection. Comments have come through meetings, correspondence and telephone communication.

COMMISSIONER COMMENT

Commissioner Shaw asked about Township website. Discussion was over the County Information System (CIS) and when it would be available to the public and the Townships own website. Shaw commented about having information on the website regarding the shoreline/dune protection.

The meeting was adjourned at 9:20 p.m.

Estelle DeVooght, Commission Secretary

Cathy Phelps, Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION

July 9, 2001

PRESENT: **Commissioners:** Bill Sanders, Tom Shaw, Scott Emerson, Mike LaPointe, Estelle DeVooght, Steve Kinnunen, and Ken Tabor

ABSENT: None

OTHERS: Doug Riley, Director of Planning & Research, Lee Snooks, Director of Grants and Recreation, Mark Maki, Zoning Administrator/Assessor, Denny Magadanz, DPW Supervisor, Scott Hubbard and Cathy Phelps, Recording Secretary

I. PUBLIC HEARINGS

Chairman, Bill Sanders called the Public Hearing to order at 7:32 PM.

Private Road Request #16 – Scott Hubbard – Extension of Wintergreen Trail

Doug Riley showed overheads regarding the proposed extension to Wintergreen Trail. The new extension goes along a two-track road, so there will be no need to remove many trees. This project will be the last extension of Wintergreen Trail. Mark Muscoe, 160 Timberlane, sent a correspondence stating that he is not opposed, as long as it complies with the Ordinance regulations and floodplain regulations.

Public Hearing closed at 7:36 PM

II. REGULAR MEETING CALLED TO ORDER

Chairperson Sanders called the regular meeting of the Chocolay Township Planning Commission to order at 7:36 PM.

III. APPROVAL OF THE MEETING MINUTES

The minutes of the regular meeting of the Chocolay Township Planning Commission dated **June 12, 2001** were presented for approval.

Moved by Commissioner Tabor, supported by Commissioner LaPointe, that the June 12, 2001 minutes be approved as presented. **Motion carried.**

IV APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Bill Sanders moved, Shaw seconded, moving A. of New Business before Old Business. Approved.

V. PUBLIC COMMENT:

Mark Maki, 370 Karen Road, has two suggestions:

- 1) That the Planning Commission write a letter to Ameritech, the owners of the overpass on M-28, regarding it being painted as it is an eyesore to Chocolay Township.
- 2) Planning Commission Budget – Suggests adding \$10.00 per meeting per diems.

VI. NEW BUSINESS:

A. Private Road Request #16- Scott Hubbard –Extension of Wintergreen Trail

Discussion:

Maki stated that lots A, B, C, and D were previously approved. Sanders questioned when the first section was approved. Maki answered 5 or 6 years ago. DeVooght asked how many total acres were involved. Hubbard stated 120 acres and that some people already live there.

Sanders moved, Tabor second that after review of Private Road request #16; the standards of Section 402,D of Ordinance 34; and the STAFF/FILE REVIEW - SITE DATA AND ANALYSIS, and subsequently finding compliance with the standards for approval of the private road request, the Planning Commission recommends approval to the Township Board with the following conditions:

- 1) The applicant provide verification of current ownership prior to beginning construction.
- 2) The applicant install 2' gravel shoulders to comply with Ordinance requirements.
- 3) A covenant be established on the deeds for any parcels created off from this private road identifying the private road status and which reference the Declaration of Easement which must be fully executed.
- 4) The applicant pay for and install a stop sign at the intersection of Wintergreen Trail and M-28.
- 5) The applicant comply with the conditions and requirements of all other agency regulations.
- 6) A zoning compliance permit shall be issued after all of the above conditions are met.
- 7) The applicant is required to provide certification from a surveyor/engineer that the private road standards of the Ordinance have been achieved at the conclusion of construction.
- 8) The applicant is strongly encouraged to obtain Health Department review of well and septic considerations for the proposed lots prior to road construction.
- 9) Land Division Approval is required from the Zoning Administrator for the creation of individual parcels off from the road and may require the modification of the lots as shown.

Motion Carried

VII. OLD BUSINESS

A) Discuss – Lake Superior Shoreline/Dune Protection –Review of Draft Overlay District Language

Emerson read the minutes from the Lakewood Cottagers Association II meeting of June 14, 2001 supporting the Dune Ordinance. (Placed on file.) LaPointe asked how many people were members of this association? Emerson stated that 10 families or about 30 people were involved. Riley asked how large an area it encompassed and what the rules were? Emerson said about 1,000 feet of lake front, and that this association was created about 30 years ago, before he had moved to the area. Basic trimming and removing of vegetation (trees) have been handled by the association. DeVooght asked what house numbers along Lakewood this included. Emerson informed the Planning Commission that it included 101 to 175 Lakewood. He said that about 75% of the members have lived there 10 years or so, and that it is a mixed age group.

Sanders stated that the changes made to the draft ordinance were straight forward. Maki said he and Doug Riley met with Joan Duncan and the “erosion hazard line” will be fairly easy to find in the field. Riley made comment regarding the dune court case which Tom Frazier, from Michigan Townships Association, faxed to Riley. Riley has discussed this with Mike Summers, the Township’s attorney. Attorney Sommers will look over the case and give his analysis next week. Personally, Riley thought it did not parallel Chocolay’s issue. Kinnunen stated that the “high water mark” will not stay the same. Riley said that is why terminology needs to be clear. Kinnunen stated it should be kept simple. There was discussion about the terminology of foredune, erosion hazard line, high water

mark, and first barrier dune. Riley stated that dunes will vary tremendously. Emerson said the Planning Commission isn't out to take residents' property, but to educate them to help correct problems.

Marci Thieme, 1895 M-28 East, invited Sanders and Riley to see her yard and her neighbors and to show them how different the dunes were there. She asked, if someone comes in with a request, will the neighbors be contacted and able to voice their opinion? Sanders answered, yes. Kinnunen stated that there are building setbacks that residents have to abide by. Shaw said all lots will be unique, and the Planning Commission should not have a certain distance set. Emerson said he thought there should be a distance set and suggested a maximum of 100 feet so residents would know exactly what they are working with. Sanders stated the landform is there, some lots will have wider dunes than others. Emerson stated it had to be clear to be able to enforce the dune amendment. Sanders asked Riley and Maki what Joan Duncan suggested, and how to administer it in the best way. Maki said 100 feet should be good. Kinnunen thought we should implement the 100 feet to get things started. Riley closed the discussion by saying he would set the public hearing for August at the Silver Creek School gym. He will first send a letter and the draft ordinance to all property owners along Lake Superior.

VIII. NEW BUSINESS:

B. Discuss Height Amendment

For quite some time, staff has been discussing the need for an amendment to our current height definition. Essentially, the problem with the existing definition is the last sentence which does not permit any structure to exceed 30 feet at any point of the structure. This conflicts with the majority of most other area Ordinances which allow an "average" 30 foot height.

This issue has become increasingly important over the last several years as home heights are being increased and a home that could typically be built elsewhere is not permitted in Chocolay Township without a variance. It also creates the scenario where homeowners make radical changes to the slope or grade around their homes in an attempt to bring them into compliance with our regulations.

Riley said he met with Gary Johnson, Fire Chief, and Mark Maki, Zoning Administrator, and that two points of access were needed. Maki said residents have been granted variances. The "in thing" now is big roofs even on single level homes. Sanders stated that average height on gable is measured from the ground 10 feet away from the building. Riley said it would only be a discussion tonight and then he would publish for a public hearing. Sanders suggested waiting until the September meeting, since the dune issue was being discussed in August. Shaw felt it would be too messy being mixed in with the dune meeting.

C. Discuss 2002 Planning Commission Budget

Sanders discussed the possibility of an increase for meeting per diems. Riley said since at least 1987 it has been \$30.00 per meeting. DeVooght said she has been on the Commission since 1986 and has always received \$30.00 per meeting. Riley said the Township Board would make the decision. LaPointe questioned if the recreation committee questionnaire cost came out of this budget. Riley stated that Lee Snooks would have that in his budget for Grants and Recreation. LaPointe suggested that they add a new slide projector into the budget. Riley said it could go under computer costs. Tabor suggested getting power point instead of a slide projector. Emerson questioned if the Township had a digital camera. Riley stated that Mark Maki had recently purchased a digital camera. Riley also questioned if we should spend money on old technology, but that cost has to be considered. \$200 versus \$2,000. He wondered how easy the power point was to use. Tabor suggested taking a class through the medical center this month. LaPointe said there is some complexity in using one. You have to have a

compatible laptop computer. Emerson said the prices are coming down. LaPointe said he has done lots of research on a power point and will help evaluate whether to purchase one. Sanders said it was just a discussion tonight and suggested we recommend to Ivan Fende, the Supervisor, that we purchase one.

Emerson stated that the extra \$10 per meeting could be used in many other ways. Magadanz stated that if the Commission doesn't ask for the increase, the other committees may have trouble getting one. Riley said asking for an increase only every 15 years was very reasonable. Riley said he would put the budget request together and review with chairperson Sanders.

IX SUB COMMITTEE REPORTS/ITEMS

A. Recreation Sub Committee

LaPointe asked for a grant update. Lee Snooks, Director of Grants and Recreation, said he had heard from U.P. Engineers, they had a new timeline. Some construction may be possible by September. The DNR will have their bids and specs by August. The Beaver Grove pavilion could be started this fall. We do not qualify for an USDA equipment grant for the community center since the average household income must be below \$32,000. In Chocolay Township, the average income is \$33,000.00. He will look at other options. The Recreation Sub Committee did not meet in July, because of the holiday.

B. Ordinance Amendment Sub Committee The next meeting will be July 16, 2001 at noon.

X. PLANNING DIRECTOR'S REPORT

Riley reported that the Silver Creek School purchase has been completed. The first payment was made on June 28th, 2001. Chocolay Township will take possession in June of 2002. The Summer Youth Program will be using the school gym in inclement weather this summer. Last year the program had to be cancelled for bad weather days and it was a problem for some parents to pick up their children.

XI. PUBLIC COMMENT – None

XII. COMMISSIONER COMMENT

DeVooght questioned what has happened with the issue of feeding wild animals in Chocolay Township. Riley said the Board discussed it and we do not have a problem here in Chocolay warranting an ordinance. Marquette Township brought the issue to their Board, and it did not pass there. Marquette City is still discussing the issue.

Emerson suggested that we pursue discussions with a nature conservancy regarding and developing the rock cut with a park and possibly a scenic overlook from the top. The area consists of 7 acres. He thought we could do some fundraisers for the project. LaPointe stated that Marquette City may be interested also in working with us. Snooks thought the DNR may have some grant money for that type of project. Sanders noted that we may have a good chance in getting a grant since it is a unique landform, and that many schools from the area come to study the rock, so they may be interested in getting involved also. This could be a very exciting project.

XIII. ADJOURNMENT

The meeting was adjourned at 8:50 p.m.

Estelle DeVooght, Commission Secretary

Cathy Phelps, Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION

August 13, 2001

PRESENT: **Commissioners:** Bill Sanders, Tom Shaw, Scott Emerson, Mike LaPointe, Estelle DeVooght, Steve Kinnunen.

ABSENT: Ken Tabor

OTHERS: Doug Riley, Director of Planning & Research, Lee Snooks, Director of Grants and Recreation, Denny Magadanz, DPW Supervisor and members of the audience.

I. PUBLIC HEARINGS

Rezoning #117 - Text Amendment - Lake Superior Shoreline/Dune Protection Overlay District

Chairman, Bill Sanders called the Public Hearing to order at 7:32 PM.

Doug Riley, Director of Planning and Research, gave a slide presentation detailing the dune issue in Chocolay Township and explained the proposed Overlay District the Planning Commission has been working on. He also detailed the changes to the draft language that were made following the shoreline property owner meeting in May.

Mark Berney, 1875 M-28 E, When they purchased their property they had obtained a permit from the Conservation District to remove sand from the dune. They would like to be able to proceed with that permit approval.

Jim Fisher, 277 Lakewood, There are enough regulations now. He does not want the Township telling him what he can do. How does this proposed regulation get interpreted in the future when you have different people involved? The pruning language is really problematic. Who is doing the interpretation?

Mike Nelson, 1849 M-28 E, Questioned the width of the overlay district. Concerned with increased government regulation. Complemented staff with their current administration of Township Ordinances, however, is concerned with future administrators or Planning Commissioners that would be reviewing conditional use applications. He has had a problem dealing with the DEQ in the past and their slow timetables. He sees the benefit of the proposed Ordinance, however, is concerned about the future administration of the regulations.

Jan Amundsen, 2029 M-28 E, Concerned that the width of their property does not allow them to do anything once you figure in right-of-ways, setbacks, and now this dune overlay district.

Whitney Johnson, 313 Lakewood, How is the width of the dune recognized? In his example it may lead all the way to the bayou. Where is the breakoff? The dune shifts. Also questions distinction between pruning and cutting or removal of trees?

Phil May, 425 Lakewood Lane, They recently lowered their dunes by 2-3 feet because their view was blocked due to the dune height increasing over time. Their view is part of

their property rights. Concerned that someone down the road would block him from fixing a problem thus diminishing their property value. Also, concerned with the tree cutting language since he planted trees years ago and he should be able to remove them at his own discretion now that they have grown and are blocking their view.

Marilyn Howard, 409 Lakewood, Perhaps this is too much government involvement that we do not need. The build up of the dune is diminishing the value of their property.

Sherry Nelson, 1849 M-28 E, What precipitated this discussion? Are their specific problems? Why don't the problem property owners plant dune grass?

Glen Barto, 1951 M-28 E, How will this relate to building permits if the proposed building is located within the overlay district?

John Driver, 721 Lakewood, Supports the proposed overlay district to some extent. He has seen the problem where erosion has occurred where areas were disturbed and did not revegetate. He continues to plant trees and beach grass to stabilize the dune area.

Joan Duncan, Michigan Department of Environmental Quality, stated to again clarify that there are no State or Federal regulations prohibiting the complete removal of dunes or dune vegetation in Chocolay Township.

Ev-Ann Johnson, 571 Lakewood, She has been there since 1976 and the dunes have increased by 3"+. There are sources of professional people available such as the DEQ that are available to help property owners. Everyone on the Lake loves their property. We are the best tenders of the shoreline.

Bruce Nelson, 447 Lakewood, He helped his Farther build their cabin 70 years ago. There was no dune originally. Now it is 20' high. Not concerned about view. Is there a science of dune life? Dunes have a history. Nature will take over regardless.

Lois Waara, 1687 M-28 E, They took their home down and rebuilt 150' farther away from the lake because of erosion. There is a book on the science of dunes. The sand will move.

Walter Nummela, 2995 M-28 E, Does not think the erosion hazard line has changed but the dune is shifting since the water is lower. Has no concern regarding a view of the lake.

Phil May, 425 Lakewood, A lot of people have expressed the same thing. Even where you bulldoze, the shoreline builds back up.

Joan Duncan, Michigan Department of Environmental Quality, Is there a provision to deny a permit?

Bill Sanders, Planning Commission Chairman, explained the Conditional Use approval process and that denial is one option the Planning Commission has.

Phil May, 425 Lakewood, Read the Conditional Use standards. Feels they are so broad that they make him nervous.

Connie Barto, 1951 M-28 E, The less government the better. Why do we need restrictions for everyone when we are good stewards?

Mark Berney, 1875 M-28 E, Why are the existing regulations of the Conservation District not being enforced? Need for more education.

John Lavalley, 2845 M-28 E, With the exception of the M-28 turnouts, is there any other public lands that would be subject to these regulations? Would the State have to comply? Also questions conditional use approval being needed to put protective measures in place such as rip-rap.

Doug Riley, Planning Director, indicated that there were no other public lands other than the turnouts. Whether the State is subject to local zoning is still being debated in the Courts.

Sally May, 425 Lakewood, Neighboring properties can vary tremendously. An example is their property versus Kinnunen's to the west. Kinnunen's have trees, we have dune grass. Therefore she is concerned with the "harmonious" language in the Ordinance. Also concerned with the Planning Commission's ability to deny a request. When they lowered their dune the last time, a Planning Commission member, who is a neighbor, advised them that they wouldn't be allowed to do it again. Wouldn't they have to excuse themselves from voting?

Mike Nelson, 1849 M-28 E, Confused. The Conservation District is suppose to address some of these issues. How do you address the laws that are not currently enforced? Thinks that the proposed overlay district is only going to help those that abide by the law.

Steve Bicigo, 995 Old Little Lake Road, Is this all of the property owners? If you are all such good stewards of the land, you shouldn't have a problem with this. Regarding mother nature, it may just be returning the dunes to where their suppose to be.

Public Hearing closed at 9:12 PM

II. REGULAR MEETING CALLED TO ORDER

Chairperson Sanders called the regular meeting of the Chocolay Township Planning Commission to order at 9:12 PM.

III. APPROVAL OF THE MEETING MINUTES

The minutes of the regular meeting of the Chocolay Township Planning Commission dated **July 9, 2001** were presented for approval.

Commissioner Emerson stated that under Old Business A), first paragraph, third sentence should read "10 families" instead of "16 families" being involved in the Lakewood Cottagers Association.

Moved by Commissioner DeVoogt, supported by Commissioner Kinnunen, that the July 9, 2001 minutes be approved with the correction presented. **Motion carried.**

IV APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Bill Sanders moved, Kinnunen seconded, to approve the agenda as presented. **Motion carried.**

V. PUBLIC COMMENT:

None

VI. OLD BUSINESS: None

VII. NEW BUSINESS:

A. Rezoning #117 - Text Amendment - Lake Superior Shoreline/Dune Protection Overlay District

Chairperson Sanders stated that tonight's public hearing comments are very interesting since the shoreline property owner meeting in May was a lot different. In May, the majority of the property owners attending were in favor. Those in favor are obviously not here tonight.

The Planning Commission addressed many of the questions that were raised during the public hearing.

Commissioner Emerson suggested that one idea worth considering was for the property owners to form associations, like the Lakewood Cottagers, to address these issues instead of the local government having to address them. The essence of the problem is that man makes changes that cause problems and most often accelerates problems. What the Planning Commission is trying to do is not to prohibit, but to advise in an attempt to avoid man made acceleration of problems that affect neighbors. The problem is that when man intervenes in nature, it accelerates the rate of change.

Commissioner DeVooght stated that when we started reviewing this matter we started out talking about education on this issue. But as we proceeded more and more people told us about the problems they have experienced. The Planning Commission really did not want to do this, but now the people seem to want it put in place.

Commissioner Emerson stated that all of the Lakewood Cottagers Association members were in favor of it.

Paul Kinville, 577 Lakewood, Asked how many complaints have been received? Only one example shown in the slide presentation, is that the only one?

Commissioner Emerson stated that without regulations we don't address the complaints and people don't come forward.

Mrs. Bruggink, 673 Lakewood, The Ordinance aspect that he likes is the notification of adjoining property owners. Some oversight may be beneficial. How would property owners be informed of this law in the future? What about enforcement of violations?

Doug Riley, Planning Director, indicated that certainly property owner awareness of the regulation is paramount to its success. The Planning Commission and staff have been discussing the need for some type of guide that is mailed to all shoreline property owners and new owners when they purchase property. Regarding enforcement, the Ordinance would be enforced by the Zoning Administrator with violations potentially processed through the Township Attorney and Circuit Court.

Richard Anderson, 407 E. Michigan, If a functional association is in place, perhaps the association enforcing dune provisions can take the place of a zoning ordinance. Perhaps the Township can provide incentives for such associations to be established.

Glenn Barto, 1951 M-28 E, How quick would a conditional use application be processed?

Doug Riley, Planning Director, indicated that a minimum of 8 days due to public hearing and adjacent property owner notification requirements.

Commissioner LaPointe, who is also the District Conservationist, stated that a Soil Erosion Permit does not prohibit the removal of the dune or vegetation. Yes there are provisions that apply to the erosion aspects, however, the possibility of its provisions being enforced by the County Prosecutor is minimal.

Chairperson Sanders stated that what the Soil Erosion Act does not do is put a mechanism in place where adjoining property owners are notified of the proposed activity. Currently there are absolutely no notice provisions.

Commissioner LaPointe stated that one neighbor objecting to a conditional use application only carries weight with the Planning Commission if they have sound reasoning. The Planning Commission has reviewed many conditional use applications over the years, and it is only the factual well reasoned public comments that play a factor. He believes the Planning Commission is very reasonable in the handling of applications.

Joan Duncan, Department of Environmental Quality, She receives 15-20 calls/complaints per year regarding dune changes in the Township. She has to tell them that there are no State or Federal regulations. She will often make suggestions but has no regulatory authority. There are problems out there. There is one property owner who bulldozes every year faithfully.

Chairperson Sanders, In general terms what we are proposing is a good idea. At least it creates a review process. Perhaps the Planning Commission should strike the language pertaining to rip rap, and other erosion control measures from requiring Conditional Use approval. Suggests this as you may not have time to wait for approval if you have immediate or emergency reasons for erosion control. Perhaps the language pertaining to removal of vegetation may be a little too broad but he does not necessarily see this as a negative.

Whitney Johnson, 313 Lakewood, Thanked the Planning Commission for giving the property owners the opportunity to discuss this and being provided a chance to comment versus just shoving this down our throats.

Commissioner Emerson stated that he liked what Mr. Anderson stated regarding the property owners establishing associations. If this was possible it would improve neighbor relations and the protection of the dune.

Connie Barto, 1951 M-28 E, Seasonal residents for a lot of the shoreline create a problem for forming or operating associations.

Commissioner Kinnunen stated that this issue is not new. These concepts have been in the Chocolay Township Comprehensive Plan for many years. The key thing that people need to remember is that the dunes serve a protection function for a great many homeowners. What the Planning Commission is proposing is not a prohibitive mechanism, it is to provide all property owners with appropriate safeguards so that problems are not encountered.

Wayne Amundsen, 2029 M-28 E, Just bought their house. One of the realtors told him he could get a soil erosion permit and bulldoze the dune. This attitude is a good reason for the proposed Ordinance.

Mike Nelson, 1849 M-28 E, It took him a year to get an answer once from the DEQ. Hopes this process would not take that long.

Marlene Fisher, 277 Lakewood, Over the years she has seen the dune change. Had to wait 108 days to get setback approval from the DEQ when they relocated the house. Not interested in any more bureaucracy.

Chairperson Sanders, suggested that the Planning Commission strike "are minor in nature" in the second paragraph of B) and in Item C - Conditional Uses - strike "or removes vegetation" and strike the "rip rap" language.

Phil May, 425 Lakewood, Some kind of comprehensive education material supplied to new property owners with the overlay district would be advisable. Give to existing property owners and new property owners as properties are sold.

Planning Director Riley indicated that this education aspect is certainly important. The Planning Commission has discussed the need for an guide for homeowners on applicable shoreline regulations. Perhaps we may be able to get a grant for some education efforts and a guide.

Ev-Ann Johnson, 571 Lakewood, Stated that there was no misunderstanding in our minds when we worked with the DEQ.

Charles Booth, 281 Lakewood, If the Planning Commission is open to additional suggestions to the text language, he would suggest that "whichever is less" should be included in the 2nd paragraph.

Sanders moved, DeVooght Second, that the Planning Commission recommend approval of Rezoning #117 to the Township Board for a text amendment to Zoning Ordinance #34 to establish Section 218 - LAKE SUPERIOR SHORELINE/DUNE PROTECTION OVERLAY DISTRICT and to amend Section 101 - Definitions, to establish a definition of foredune for the purpose of the Overlay District with the following changes:

- 1) Under SECTION 218 subsection A), second paragraph, insert "whichever is less" after the term landward.
- 2) Under SECTION 218 subsection B), second paragraph, delete "are minor in nature and" in the first sentence.
- 3) Under SECTION 218 subsection C), first paragraph, delete "or removes vegetation" from the first sentence and delete the entire last sentence of the first paragraph.
- 4) Under the FOREDUNE definition, insert "whichever is less" after the term landward.

(The language as proposed amended was read for the public).

Commissioner LaPointe stated that there have been some very good points made tonight from property owners who certainly care about their dunes and neighbors. However, there are a lot of bad actors out there, he gets to see them all the time in his line of work, and he can see someone coming in and destroying the dunes and really causing problems.

Motion carried unanimously.

B. Beaver Grove Recreation Area Site Plan - Grant Improvements

The Planning Commission reviewed the site plan detailing the CMI grant improvements to the Beaver Grove Recreation Area.

The Planning Commission discussed the need to incorporate shade trees into the site.

LaPointe moved, DeVooght second, to approve the site plan for the Clean Michigan Initiative grant improvements to the Beaver Grove Recreation Area per the U.P. Engineers and Architects plan dated 8/10/01.

Motion carried unanimously.

VIII. PLANNING DIRECTOR'S REPORT

Riley reported that Family Dollar had been working on completing their site improvement to gain compliance with their site plan approval.

IX. PUBLIC COMMENT – None

X. COMMISSIONER COMMENT

XII. ADJOURNMENT

The meeting was adjourned at 10:35 p.m.

Estelle DeVooght, Commission Secretary

Doug Riley, Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION
September 10, 2001

PRESENT: **Commissioners:** Bill Sanders, Tom Shaw, Mike LaPointe, Estelle DeVooght, Steve Kinnunen, Ken Tabor, and Scott Emerson (arrived at 7:34).

ABSENT: None.

OTHERS: Doug Riley, Director of Planning & Research, Cathy Phelps, Recording Secretary, and Lee Blondeau, member of the audience.

I. PUBLIC HEARING

Rezoning #118 – Text Amendment – Height Definition and Height Limits for Accessory Buildings

Chairman Bill Sanders called the Public Hearing to order at 7:30 PM.
No public present. Public Hearing closed at 7:30 PM.

II. REGULAR MEETING CALLED TO ORDER

Chairperson Sanders called the regular meeting of the Chocolay Township Planning Commission to order at 7:31 PM.

III. APPROVAL OF THE MEETING MINUTES

The minutes of the regular meeting of the Chocolay Township Planning Commission dated August 13, 2001 were presented for approval.

Bill Sanders questioned Estelle DeVooght on Page 4, Paragraph 3 with no changes being made, and then questioned Doug Riley on Page 3, Paragraph 2 regarding changing Mr. Bruggink to Mrs. Bruggink.

Moved by Commissioner Emerson, supported by Commissioner Sanders, that the **August 13, 2001** minutes be approved with the correction of Mr. Bruggink to Mrs. Bruggink. **Motion carried unanimously.**

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Kinnunen moved, Emerson seconded, to approve the agenda as presented.

Motion carried unanimously.

V. PUBLIC COMMENT: None

VI. OLD BUSINESS: None

VII. NEW BUSINESS:

A. Rezoning #118 – Text Amendment – Height Definition and Height Limits for Accessory Buildings

Bill Sanders stated that the Fire Department has reviewed all information and explained that in fighting fires, being able to get on and off roofs quickly is very important.

Doug Riley stated that a fifteen (15) foot height limit for accessory structures is more of the norm for other surrounding municipalities.

Emerson Moved, Kinnunen Second, that the Planning Commission recommend approval of Rezoning #118 to the Township Board for a text amendment to Zoning Ordinance #34 under SECTION 101 DEFINITIONS and Section 300 (F) to amend the definition of HEIGHT and the allowable height of accessory buildings to read as follows:

Section 101 – Definitions

HEIGHT, means the vertical distance between the average ground level of the grade within 10 feet of where the structure elements intersect the ground and the highest point of the roof surface for flat roofs, to the deck line of mansard roofs; the average height between the eaves and ridge for gable, hip and gambrel roofs; and the average height between the lowest point and the highest point on a shed roof, excepting any chimney or antenna on a building, unless specifically provided elsewhere in this ordinance, and provided that two access points to the roofline less than 25 feet in height are shown.

Section 300 (F)

F. No detached accessory building shall exceed fifteen (15) feet in height nor exceed the exterior perimeter dimensions of the principal structure on the lot.

Motion carried unanimously.

B. Brower Property Parking Lot Site Plan

Doug Riley gave a brief history of the property and the discussions the Recreation Subcommittee has had regarding the property. Lee Snooks has been in contact with a teacher who is very desirous of utilizing the property for an environmental/forestry class. They would be involved in actively managing the property. The first step is to develop a parking lot to get cars off the road. The recreation sub-committee recommended the parking lot. This area planned for the parking lot was an existing log landing, and should not need a culvert.

Estelle DeVooght was concerned this will turn into a kids' hangout and she asked if the area will be used by high school or college students?

Scott Emerson suggested we put signs up stating when the property is open for use, post certain hours maybe dawn to dusk. That way if the police go by other than these hours and there are cars parked there, they will know to check closer. But, no matter how close they monitor the area, the police cannot stop all parties.

Scott Emerson questioned the lighting. But if the park is open during daylight hours only there would not be a need for lighting.

Mike LaPointe stated that signing of the area would be a good area.

Scott Emerson suggested that we recognize Mr. Browers. Possibly we could name the site after him.

Doug Riley said that is something that needs to be addressed in the near future.

Scott Emerson suggested that we let Mr. Browers name it.

Bill Sanders said we need to at least have a plaque stating that it was donated by him.

Tom Shaw said that knowing Mr. Browers, he would not name it after himself.

Bill Sanders suggested that the Planning Commission ask Mr. Browers what he would like.

Estelle DeVooght said he may want to add his wife's name to it.

Scott Emerson suggested the signs give the hours, who donated it, the purpose of the park, and also have a trail map.

Doug Riley stated it already has some existing trails, one begins at the log landing. Some trails need to be re-routed. The trail map needs to be reviewed in the future by the Planning Commission as it requires conditional use approval.

Scott Emerson said we should consult an expert for planning the trails. This possibly could be someone from North Country Trails, and they may want to make it part of their trail system.

Steve Kinnunen said some trails he has seen in Minnesota and Wisconsin have benches for people to rest and plaques nearby with information about the area.

Bill Sanders stated that the first step would be the parking lot, and then go on from that point.

Doug Riley said that students would be involved and maybe they could do some brainstorming.

Scott Emerson said they could work on improving the ecological features of the property.

Lee Blondeau asked if the property had been surveyed?

Doug Riley answered no, but the boundaries had been relatively well marked.

Scott Emerson stated that the property had many different forest types included, which makes it great for educating students.

LaPointe Moved, Tabor Second, to approve the site plan for the construction of a parking lot on the Brower property and recommend that the Township Board authorize the necessary expenditure of funds to construct this parking lot.

Motion carried unanimously.

C. Street Light Replacements – Phasing Plan

Doug Riley indicated that \$5,000 had been included in the 2002 proposed budget for the first phase of the street light replacements. Doug Riley stated that about 23/24 lights could be replaced in the first phase.

Bill Sanders questioned where the Alger/Delta line was?

Doug Riley stated it really didn't matter because both have indicated their willingness to work with us. He showed everyone a map showing the existing streetlights and the Board of Light and Power versus the Alger/Delta lights.

Scott Emerson asked the price of the new lights. He paid \$125.00 per light for his.

Doug Riley stated it was \$205.00, that maybe the difference was because it was a street light.

Ken Tabor stated that he had been through Munising recently and noticed the lights there like the ones we are planning. He said they did not glare and made driving easier and safer.

Scott Emerson agreed that they do not put off a glare even to a person who wears glasses. It made a big difference star gazing. He had made a color-coded map showing the phases of replacement that could be used. He suggests that the village of Harvey, including the commercial section along US 41, be completed first.

Bill Sanders thought it would be cost effective if we kept the areas of light replacement in each phase as close together as possible.

Scott Emerson stated that some are far apart, but we should try to keep them as close together in each phase as possible.

Tom Shaw thought they may be cheaper as we go along.

Scott Emerson stated the first phase should be in the business district where it is most densely populated. There could be four phases in all.

The group discussed the phase areas and reviewed the two maps.

Ken Tabor agreed that the most concentrated population areas should be done first.

VIII. Sub-Committee Reports

A. Recreation Sub-Committee

Ken Tabor reported that they discussed prioritizing properties and plans.

Doug Riley stated that the Beaver Grove Grant plan was approved by the DNR.

B. Ordinance Amendment Sub-Committee

Doug Riley said they should set a date for the meeting.

After discussion they planned to meet at noon on Thursday, September 20, 2001 at the Township Hall.

IX. PLANNING DIRECTOR'S REPORT

Doug Riley reported on the Dune Protection Overlay District. He showed pictures of a home along M-28 that had totally removed the dune since there were no regulations in place yet, and how this may affect the neighbors.

Mike LaPointe said it is already affecting the neighbors. They may be violation with soil erosion.

Estelle DeVooght asked if any other authority could do anything?

Doug Riley stated that it is not a wetland issue so it is unregulated.

Ken Tabor said it goes to show that not all residents are good stewards of the dunes.

Scott Emerson agreed and said that is why we need regulations. He hoped they had plans to re-vegetate the dune quickly.

Doug Riley then reported about the rock cut and potential public acquisition. He stated that Ivan Fende asked Lee Snooks to work with the Land Conservancy on this project.

US 41 corridor aerial pictures have been taken and the pictures really look good. The quality is great. The meeting with Dave Gillis regarding the corridor plan was productive, but it will be a slow process since there are so many municipalities involved.

Doug Riley reported that the local golf courses have not complied with well monitoring. He suggests writing a letter to golf course owners asking them to comply with water testing otherwise their options would be to go to court or request amending their Conditional Use Permits. Doug Riley requested the letter be authorized. This testing of water samples is not uncommon.

The Commissioners discussed the issue and requested that a letter be sent from the Planning Commission.

Doug stated that he would write a letter for Bill Sanders to review.

X. Public Comment:

None.

XI. Commissioner Comments:

Tom Shaw questioned the state of the County and Township website.

Doug Riley reported that the County CIS was still not completely operational. He would like to refocus on our Township website again. It needs to be updated.

Tom Shaw said the Community Center Committee would like to see a useable website to be able to disseminate information.

Tom Shaw stated that his daughter is very interested in working with websites and would like to work with the Township.

Doug Riley mentioned the Public Forum scheduled at the Lakeview Arena on Tuesday, September 18, 2001 at 7:00 PM. They will discuss land use and what people want for the Marquette area community.

XII. ADJOURNMENT

The meeting was adjourned at 8:35 PM

Estelle DeVooght, Commission Secretary

Cathy Phelps, Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION
October 8, 2001

PRESENT: **Commissioners:** Bill Sanders, Mike LaPointe, Estelle DeVooght, Steve Kinnunen, and Ken Tabor.

ABSENT: Tom Shaw and Scott Emerson.

OTHERS: Doug Riley, Director of Planning & Research, Lee Snooks, Director of Recreation and Grants, Cathy Phelps, Recording Secretary, Mary Lou Shimon, Fred Warren, Frank and Madeleine Zimmerman, Sally and Phil May, and Kathy LaJeunesse.

I. PUBLIC HEARING

Rezoning #119 – Mary Lou Shimon – RP (Resource Production) to RR-2 (Rural Residential)

Chairman Bill Sanders called the Public Hearing to order at 7:35 PM.

Frank Zimmerman spoke in support of request.

Doug Riley read correspondence from Rosten's, 460 S. Big Creek Road, having no objection.

Fred Warren, 140 Shimon Court, also speaking for Audrey, his wife, they have no objection.

Public Hearing closed at 7:40 PM.

II. REGULAR MEETING CALLED TO ORDER

Chairperson Sanders called the regular meeting of the Chocolay Township Planning Commission to order at 7:40 PM.

III. APPROVAL OF THE MEETING MINUTES

The minutes of the regular meeting of the Chocolay Township Planning Commission dated September 10, 2001 were presented for approval.

Moved by DeVooght, supported by Sanders, that the September 10, 2001 minutes be approved. **Motion carried unanimously.**

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Kinnunen made a motion to move VIII. New Business - A. Rezoning #119 before VII. Old Business.

Kinnunen moved, Sanders seconded, to approve the changes on the agenda. **Motion carried unanimously.**

V. PUBLIC COMMENT: None

VI. NEW BUSINESS:

A. Consider - Rezoning #119 – Mary Lou Shimon – RP (Resource Production) to RR-2 (Rural Residential)

Riley explained Rezoning #119 and displayed a zoning map.

Sanders explained that Mrs. Shimon has a 40-acre parcel and would like it rezoned which would allow eight-five acre parcels and have the road extended across to access all parcels.

Shimon questioned the front area being rezoned RR-2, and the amount needed to create a road between the two garages located at the end of Shimon Court.

Riley explained the size of the right of way needed for a public road or a private road under our zoning ordinance standards.

Sanders said there was a similar rezoning request in 1993 in this same general area, and it was denied.

LaPointe stated it would create a landlocked block of RP zoned property, and asked if she would consider rezoning only the western half? The eastern area is swamp and poor soils.

Shimon said the road would still have to go between the garages to even serve that portion.

Sanders noted that if it was rezoned, the road is still coming back as a problem and would require variances from the Zoning Board of Appeals.

Riley stated that 66' is needed between the two garages for a public road. Then both garages would be nonconforming, and variances for the setback would be needed. Mrs. Shimon could go to the Zoning Board of Appeals to ask for a variance for a narrower road. Mrs. Shimon could possibly eliminate her garage.

Shimon said her garage has been there since 1940, and both garages have been recently remodeled.

Sanders asked if any private roads were approved with less than 66'?

Riley answered no, they cannot be less than 66' if they are ever to be turned over to the County.

Shimon noted that there is no decent turn-around for the snowplows at this time.

Riley stated that they do turn around in the Shimon driveway.

Riley explained that the parcels would have to be 300' in width for RR-2 Zoning.

Sanders said presently there could only be 2 – 20 acre parcels and Mrs. Shimon only needs to put in a private driveway to serve the parcels as the RP district does not have a minimum frontage requirement.

Shimon explained that she wants to build a new home on 5 acres, and sell her house she lives in currently.

Shimon said she has measured the distance between the two garages and it is 76'.

Riley explained that from the right of way you need a 30' setback or 63' back from the center of the road for structures to be in compliance.

Sanders asked what about the surrounding neighborhood?

Kinnunen questioned the cost of moving the garage compared to the cost of the rezoning hardship. Could one garage be moved to make enough room for a new road?

Sanders said from the Zoning Board of Appeals standpoint, it is a self-created hardship.

DeVooght noted the RP does not require a certain amount of frontage if it is divided only twice. Mrs. Shimon could come back to rezone later.

Shimon noted that if she had to build back 20 acres, it would be too far for her.

Kinnunen suggested Mrs. Shimon to rezone the west half of her property and the east 20 acres remain zoned RP.

Riley stated new parcels zoned RR-2 have to have 300' of road frontage.

Warren suggested splitting the 40 acres into 2 – 20 acres. It could be split in any shape, and put in a private driveway. There would be no rezoning and she could have her home in the location she prefers.

Sanders stated that being on the Zoning Board of Appeals he is not comfortable with the request. The road would not be in compliance and neither of the garages would be in compliance if the road was constructed.

Shimon noted that the neighbor's garage was just a tool shed. She would never have built the garage there if she would have known the problems it could cause 34 years later.

Sanders asked what the reasons were for denial of the 1993 request?

Riley again showed the Comprehensive Plan map and explained the soil conditions.

Sanders stated that he is not in favor of the entire 40 acre parcel being zoned RR-2, split into 8 – 5 acre parcels, with a private road extended across the parcels, with an easement less than the usual 66', which could never be a County road, with two garages becoming nonconforming, and creating a spotzone. He thought maybe there could be a solution to this problem that was not presented at this meeting that would work.

Sanders moved and Kinnunen seconded that following the review of Rezoning request #119 and the Staff/File Review, the Planning Commission recommends denial of Rezoning #119 to the Township Board to rezone said property from RP to RR-2 for the following reasons:

- 1) It would create two non-conforming structures if Shimon Court were extended as required by the rezoning.
- 2) It would create a "spot zone" of 40 acres of RP land to the north.
- 3) There are significant soil constraints on the property.

Motion carried unanimously.

Riley explained to Mrs. Shimon that the Planning Commission decision goes to the County, the County reviews it and then it goes to the Township Board.

VI. OLD BUSINESS

A. Consider Rezoning # 117 – Text Amendment – Lake Superior Shoreline/Dune Protection Overlay District (Board's request for review/changes)

Tabor reported from the Board meeting that it was the consensus of the Board to have the Planning Commission evaluate adding the language suggested by Phil and Sally May and to look at establishing a requirement or formula for buffer yards.

LaPointe started the discussion stating he would recommend a 15' undisturbed buffer, and suggested a 3 to 1 slope. He said the Board wants a standard to work with that is fair to all residents.

Phil May wants all residents along Lake Superior to be able to enjoy the view of the lake. He preferred the 2 to 3 foot dune change on a 9 foot slope.

Riley stated that the Mays would be in compliance with the 3 to 1 requirement.

LaPointe stated the main reason for the dune protection was so no one could change a dune that would adversely affect the neighbor's property.

Kinnunen asked if property owners would have to replace vegetation once changing a dune?

LaPointe described different vegetation. He recommended one clump or culm of dune grass be planted for every square foot. Once the dune grass was in control then other vegetation could be planted, such as shrubs and trees.

Phil May questioned bringing in topsoil to the dune area. He also questioned using chemicals to grow vegetation on the dunes.

Phil May said he agreed we have to protect neighbors from others actions.

LaPointe said we need to set maximum cuts in dunes. He likes the 3 to 1. He understands the problem with specific formulas.

DeVooght understood why they want to lower the dune if it keeps building up and they cannot see the lake.

Sally May stated two issues: 1) the issue of taking sand completely off the property, and 2) just spreading the sand towards the house making the dune thicker. They did not take the sand away, they just spread it out.

Kinnunen said that currently there is no management, no rules for dune protection. He supports what was submitted to the Board. As it is now, the full dune can be cut with no vegetation restoration provisions.

Phil May suggested to scratch "over time" in the language.

Sanders wants to include the Mays' language and scratch "over time." He likes a 20' buffer and a 3 to 1 slope which limits the maximum depth of cut in relation to the lot size.

LaPointe agrees with the 3 to 1 and wider buffer zone.

Tabor agrees with addressing the ability for a resident to completely cut out their dune from one lot line to the other.

There was then discussion on the buffer area.

Kinnunen thought maybe 15 to 25 feet.

LaPointe supports 20 feet.

Sanders asked if the Board could change the setback amount?

Riley answered yes.

Sanders said the Planning Commission must be comfortable with the amount.

Sanders proposed that Riley incorporate language into the text and it will be reviewed by the Planning Commission at the next meeting.

VIII. NEW BUSINESS

B. Discuss - Potential Text Amendment – Home Occupation Language – Recommendation from Zoning Board of Appeals

Riley explained the recommended language from the Zoning Board of Appeals, the first sentence in #3 will be crossed off. "There shall be no outdoor storage or other exterior evidence of the conduct of the home occupation other than an approval sign which." #3 and #4 had conflicting language. At the next meeting in November, the text amendment will be formally discussed. All agreed to schedule a public hearing on this text change.

C. Discuss – Potential Text Amendment – Conditional Uses in LS/R District

Riley showed a map of the LS/R district and gave examples of conditional uses allowed (e.g. fish markets, marinas). Where no minimum acreage is required such as in the RP District.

Sanders said there is a flaw in the ordinance, and can be fixed with a simple change.

Tabor noted that 20 acres is a large area. A fish shop, for example, would not need that much area.

Sanders stated that this area is mostly residential anyway. The Planning Commission agreed to schedule a public hearing on this text change.

D. Consider – Kawbawgam Ski Trail – Second Trail Head/Parking Lot Construction

Riley gave a brief history of the ski trail area. The trailhead has been moved because of the close proximity to the railroad, and also because it crossed private property. Moving the ski trail to have it all on State Land is suggested. A new parking lot is necessary near the entrance to Lake LeVasseur where it is closer to the scenic trail area. Volunteers will be needed to help construct the parking lot.

Snooks reported that the grant money was no longer available.

Riley said the DPW could help with the development of the new parking lot, and it could be done in a few days with volunteers. This has been cleared by the DNR.

DeVooght questioned the distance from Lake LeVasseur to the Brower property.

Riley explained that it could not be connected. There was some very low, marshy areas and also private property between the two.

DeVooght motion, Sanders second to approve relocating the Kawbawgam Cross-Country Ski Trail and Parking Lot. Aye 5, Nay 0. Motion carried.

IX. SUB-COMMITTEE REPORTS

A. Recreation-Subcommittee Report

Snooks reported:

- 1) Brower property now has a parking lot, and the Marquette High School class has been out there working on clearing the trails.
- 2) Volunteers will be needed to construct the pavilion in the Beaver Grove Recreation Area.
- 3) The Community Center Committee has met twice, and they have about 20 plus members on the committee. They are working on senior, teen activities, a post office, reception area in the center, which includes the alcohol question, and if we should rent to nonprofit groups and what the fees may be. A survey needs to be developed. A calendar needs to be made to keep the committee on task since there is a short time limit to make recommendations to the Board. They meet once a month.
- 4) The Summer Youth Program evaluations have come in and were very positive.
- 5) A new community survey must be produced so the recreation committee knows what the community wants. We may be able to double that with the Community Center survey.

B. Ordinance Amendment Sub-Committee

Riley reported that a meeting will be scheduled in the near future regarding garage sizes and building garages prior to home construction.

X. PLANNING DIRECTOR'S REPORT

Riley reported:

- 1) The Board approved the budget. The Planning Commission will now be paid \$40.00 per diem.
- 2) The street light Phase 1 Plan was approved in the budget.
- 3) The Bike Path from Silver Creek School to the Cherry Creek School is partially completed. The section along US 41 is being surveyed by MDOT through the T-21 grant.
- 4) Dune Overlay District is bringing in people questioning what they need to do. Ms. Regis Walling wants to lower a dune along with some neighbors. She came into the Township office to coordinate plans and wants to do it right. The

educational aspect of the dune situation is greatly needed. There are no regulations in place at this time.

LaPointe stated that we do not want residents to be afraid to come in and ask questions.

XI. PUBLIC COMMENT. None

XII. COMMISSIONER COMMENT

Kinnunen noted that the dune overlay district is coming to a compromise with the Residents.

LaPointe said we need to get together an educational packet to hand out to people that are interested. What is happening with grants to help pay for the packets? Some communities already have this type of information. We could use some of their material until we have ours put together.

Riley said we should have something soon, we can make changes later.

XIV. ADJOURNMENT

Chair Sanders adjourned the meeting at 9:35 P.M.

Estelle DeVooght, Commission Secretary

Cathy Phelps, Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION
December 10, 2001

PRESENT: **Commissioners:** Bill Sanders, Mike LaPointe, Steve Kinnunen, Ken Tabor, Tom Shaw, Scott Emerson and Estelle DeVooght (arrived at 7:40).

ABSENT: None.

OTHERS: Doug Riley, Director of Planning & Research, Cathy Phelps, Recording Secretary, Pam Sleeman, Don Britton, Denny Magadanz, Dave and Mindy Zorza, Dan Chartier, Bryn Sneddon, Tim Matulewicz, Pete LaRue, Bob LaJuenesse, Jr., Lee Blondeau, Phil and Sally May.

Chairman Bill Sanders called the meeting to order at 7:34 PM.

I. PUBLIC HEARINGS

REZONING #120 – TEXT AMENDMENT – HOME OCCUPATION LANGUAGE; LS/R CONDITIONAL USES LOT SIZES; AND SIGN ILLUMINATION/ELECTRONIC MESSAGE SIGNS

Doug Riley gave an overview of amendments. 1) Section 107 - Home Occupation. The Zoning Board of Appeals asked the Planning Commission to amend language regarding outdoor storage. 2) District LS/R – Conditional Uses. Regarding establishing a requirement for a 20-acre minimum for more intensive commercial uses allowed as conditional uses in this zoning district. 3) Section 810 – Sign Illumination.

Doug read correspondence from Dan Chartier representing CABA, and mentioned a letter included from Dan Landers from Cook Signs that was given to the commissioners.

Dan Landers from Cook Sign reported that message centers are the best advertising for the least expense. He expressed that Chocolay Township appears anti-business and anti-free speech for businesses. He spoke on the two reasons that the Township gave for not having message centers (aesthetics and safety).

Lee Blondeau questioned the original 1977 ordinance language.

Dan Chartier, from CABA, and Paper Party World, agrees with Dan Landers in the businesses being able to put up the message centers. He noted the Township is limiting the rights of businesses. Personally he thinks the Township should stop micro-managing businesses, and they should stop closing doors and restricting businesses.

Don Britton feels that the public perceives Harvey as anti-business and this sign amendment furthers this perception.

Pete Munson, Edward Jones, thinks the Township should take into consideration the illumination factor. When it is dark people cannot see some signs. The lights for his business shine upward. He believes limiting businesses is nonsense.

Pete LaRue stated that the wind blows off the static letters from signs now used by many businesses. They are obsolete. He feels the ordinance is twenty-five years old and is obsolete. The new community center should have a message center sign as described.

Dan Chartier mentioned that MDOT has a message center on the corner of US 41 and M-28 to inform drivers of M-28 road conditions. This certainly is not a safety problem. This is an effective way to communicate. Times are changing, and the Township must stay up-to-date.

Regarding the Home Occupation Amendment, Lee Blondeau wanted clarification of #3, regarding if equipment was included as a commercial vehicle. Thought it was wide open to interpretation, it needs to be more specific.

CONDITIONAL USE 57A

Doug Riley gave an overview regarding Conditional Use 57A – Amendment to Kawbawgam Cross Country Ski Trail. Two years ago the Kawbawgam Ski Trail was established. Recently people have been asking to have the trailhead moved. They notified all residents within 300 feet of the proposed site. There have been no objections. He read one letter from Karen Kay Smith.

Bill Sanders closed the Public Hearing at 8:15 PM.

II. REGULAR MEETING CALLED TO ORDER

Chairperson Sanders called the regular meeting of the Chocolay Township Planning Commission to order at 8:15 PM.

III. APPROVAL OF THE MEETING MINUTES

The minutes of the regular meeting of the Chocolay Township Planning Commission dated October 8, 2001 were presented for approval.

Moved by Mike LaPointe, supported by Scott Emerson, that the October 8, 2001 minutes be approved.

Motion carried unanimously.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Moved by Bill Sanders, supported by Steve Kinnunen to approve the agenda as presented.

Motion carried unanimously.

V. PUBLIC COMMENT. None

VI. OLD BUSINESS

- A. Consider Rezoning # 117 – Text Amendment – Lake Superior Shoreline/Dune Protection Overlay District (Board’s request for review/changes – Review of changes).

Doug Riley reported that Carl Lindquist from the Watershed Partnership will work closely with the Township to prepare an educational brochure and a educational workshop this spring.

Phil May objects to having to replant dune grass. When he attempted to replant it, he thought it was an eyesore until the natural grass came in naturally. His neighbors did not plant dune grass and their natural grass came in just as nice. He thinks it is unnecessary and expensive.

Mike LaPointe noted that Phil May was the person who asked the Planning Commission to have something specific in the language.

Bill Sanders noted that it would have to be a requirement to replant something.

Steve Kinnunen stated that Joan Duncan from the DNR said it is necessary to replant the dune areas.

Steve Kinnunen noted in time of high water, erosion will be greatly increased without vegetation.

Bill Sanders said that natural growth will return to some point, but asked the Planning Commission if they feel they need to have in the ordinance specific replanting measures?

Mike LaPointe stated that each site is different, depending on size and etc.

Sally May suggested that if it does no damage to the neighbors, then why do residents have to replant. She did not feel it was fair for all to have to replant if it was not necessary in their site.

Tom Shaw noted that not all homeowners really care about the effects it has on neighbors, that’s why this overlay district is being put into place.

Bill Sanders said the Planning Commission is putting together a brochure to educate residents, stating how important dune protection is, and that we should not take this language out entirely.

Bill Sanders supports the second paragraph with the additional wording “or other methods approved by the Planning Commission to prevent wind erosion from impacting adjoining properties.”

Ken Tabor suggested we stay away from subjective areas in the language, as to not put the Township staff in the position to have to make the decision of the meaning of “other methods”.

Bill Sanders stated we must require residents to replace vegetation. They will now recommend to the Board to make a decision to adopt the language with the following highlighted addition:

A 20 foot undisturbed buffer strip shall remain in place on the dune along the property lines. Slopes for dune cuts shall not exceed 3 foot horizontal to 1 foot vertical. Altered dune areas shall be replanted with beach grass at a rate of 1 culm (clump) per 1 square foot of disturbed area **or other method approved by the Planning Commission to prevent wind erosion from impacting adjoining properties.**

Bill Sanders Moved, Scott Emerson Seconded that the Planning Commission recommend to the Township Board the approval for the Amended Language to the Lake Superior Shoreline/Dune Protection Overlay District with the additional new language in January.

Motion carried unanimously.

VII. NEW BUSINESS

A. REZONING #120 –TEXT AMENDMENTS – HOME OCCUPATION LANGUAGE; LS/R CONDITIONAL USES LOT SIZES; AND SIGN ILLUMINATION/ELECTRONIC MESSAGE SIGNS

Bill Sanders said there was a need to clarify the outdoor storage language. It will be allowed if screened but must be reviewed by the Zoning Board of Appeals, who reviews Home Occupation Permits.

Lee Blondeau commented on commercial vehicles. He wanted to have the word “equipment” clarified. The Planning Commission discussed this issue and believed the Zoning Board of Appeals will review “equipment” on a case by case basis.

Bill Sanders Moved, Estelle DeVooght Seconded, that the Planning Commission recommend approval of Rezoning #120 to the Township Board for the Text Amendment to Section 107 of the Zoning Ordinance #34 as drafted.

Motion passed unanimously.

Conditional Uses Lot Sizes

No discussion.

Ken Tabor Moved, Steve Kinnunen Seconded, that the Planning Commission recommend approval of Rezoning #120 for the Text Amendments to Section 206(A) as drafted.

Motion carried unanimously.

Sign Illumination

Estelle DeVooght stated that she was one who worked on the wording of the original sign ordinance. She voted against electronic signs, big flashing signs at that time, but now the signs are made much better. With the improvement of signs, she has less of an objection to the message center.

Scott Emerson noted that he is for down-lighting, and against flashing or fluttering lights. The new signs have improved through the years, and he has less objection to them now, but does not want to see the community saturated with them.

Bill Sanders mentioned that the Edward Jones sign would be grandfathered in. He feels the night sky is a natural resource of the U.P. Bill Sanders does not agree with Mr. Landers as to Chocoday Township being anti-business, not giving businesses free speech. He feels this is absolutely not the case. He gives three reasons he does not agree with having message centers. 1) aesthetics; 2) safety, and 3) the community as a whole does not want this type of signs as expressed in the Strategic Plan which was adopted in 1995.

Bill Sanders stated that he understands putting letters up on the present message boards is difficult in the winter with winds blowing away the letters. However, he does not want to see 30 word messages on a scrolling sign.

Pete LaRue reiterated that the new message centers do not have to have bright, flashing lights.

Ken Tabor voiced his opinion regarding limiting the types and sizes of message centers.

Pam Sleeman said she felt that the Township was very hard on new businesses.

Lee Blondeau echoed the feeling of not being welcome.

Scott Emerson gave a visual example of upward and downward lighting. Showing the glare from up lighting. He noted that the Township has budgeted to replace the cobra street lights within the next 5 years with modern fixtures.

Ken Tabor questioned the site length for reading these message centers.

Bill Sanders stated that the Township cannot limit the amount of signs, but if a number of businesses in the Township get them they will not be unique and people may not read them. At this time they are not allowed in the Township according to the current ordinance language.

Doug Riley stated that currently no permits would be given out for electronic signs. There is already an appeal filed with the Zoning Board of Appeals.

Scott Emerson noted that he would suggest that for now the text amendment should state that no lighting shall project upward toward the sky and that no

ground or bottom-mounted lighting is permitted. The message center should be a separate issue.

Bill Sanders wanted to know the number of message signs in the area.

Dan Landers said there were about 20 in the U.P., 2 in Marquette Township, and 4 in the City of Marquette.

Scott Emerson feels they cause a distraction phenomenon, and is concerned about the safety aspect. We cannot control the number of signs or who buys them if the ordinance is changed in Chocolay.

Dan Landers noted that the cost of the message center will limit the number of message centers in the Township.

Scott Emerson Moved, Bill Sanders Seconded, that the Planning Commission recommend approval of Rezoning #120 to the Township Board for the Text Amendment regarding Sign Illumination - Section 810 to address sign lighting only and to delete the last section pertaining to electronic message signs which will be further reviewed.

Motion passed unanimously.

Conditional Use 57A – Amendment to Kawbawgam Cross Country Ski Trail

Bill Sanders Moved, Steve Kinnunen Second, that after review of Conditional Use request #57A; the standards of Section 701 of the Township Zoning Ordinance; and the STAFF/FILE REVIEW – SITE DATA AND ANALYSIS; and subsequently finding compliance with the standards for approval of the request, the Planning Commission approves Conditional Use Permit request #57.

Motion passed unanimously.

Consider Street Lights/Dusk to Dawn Lights

There was discussion regarding the changes the Township has been making on the lighting and the peripheral shielding on the old lights. The Planning Commission will ask the Board to support an ordinance on new lights or shielding old lights. Possibly insert something on the Building Permit and/or have a brochure to educate the residents.

VIII. SUB-COMMITTEE REPORTS

A. Recreation-Subcommittee Report

Mike LaPointe gave notice that he would like to step down from the Recreation Committee and is looking for someone to take his place or at least an alternate. Ken Tabor said that he would continue as a representative.

B. Ordinance Amendment Sub-Committee

Riley reported that a number of things that will be discussed at the next meeting; ham radio towers, garage and accessory building sizes and roof pitches.

IX. PLANNING DIRECTOR'S REPORT

Riley reported on the Green Bay Street property acquisition, the donated land for stream bank stabilization. He said the land report would be discussed at a lighter agenda meeting.

X. PUBLIC COMMENT.

Pete LaRue mentioned that he believes there is a perception that the Township is anti-business, and that the Township is hard to deal with. Maybe it is just a history problem.

Dan Chartier suggested the Township listens to what businesses needs are, and to become involved more with CABA. They need to share in each other's meetings.

Dan Landers said he knew the Township had a anti-business reputation, but after the meeting he is very encouraged. He thanked the Planning Commission for listening and for their time.

XI. COMMISSIONER COMMENT

Steve Kinnunen noted that it takes a long time for a township to make changes in policies. First discussions must take place, and wording on the language for changes must be agreed upon and then voting by the Board. The Board needs assistance and support from the community.

XI. ADJOURNMENT

Chair Sanders adjourned the meeting at 10:25 P.M.

Estelle DeVooght, Commission Secretary

Cathy Phelps, Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION
January 14, 2002

PRESENT: **Commissioners:** Bill Sanders, Mike LaPointe, Steve Kinnunen, Ken Tabor, Tom Shaw, Estelle DeVooght and Scott Emerson (arrived at 7:33).

ABSENT: None.

OTHERS: Doug Riley, Director of Planning & Research, Cathy Phelps, Recording Secretary, Lee Snooks, Director of Recreation and Grants, Fred Warren, Mary Lou Shimon, Jeff Hendrickson, Madeline and Frank Zimmerman, and Bob LaJuenesse, Jr.

Chairman Bill Sanders called the meeting to order at 7:30 PM.

I. PUBLIC HEARINGS - None

II. APPROVAL OF THE MEETING MINUTES

The minutes of the regular meeting of the Chocolay Township Planning Commission dated December 10, 2002 were presented for approval. Bill Sanders would like a correction made to the sentence regarding Don Britton's statement under REZONING #120. (6th line)

Moved by Mike LaPointe, supported by Ken Tabor, that the December 10, 2001 minutes be approved with correction.

Motion carried unanimously.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Moved by Steve Kinnunen, supported by Tom Shaw to approve the agenda as presented.

Motion carried unanimously.

V. PUBLIC COMMENT. None

VI. OLD BUSINESS

A. Consider Rezoning # 119 – Mary Lou Shimon – RP (Resource Production) to RR-2 (Rural Residential) AMENDED REQUEST

Doug Riley reviewed information regarding Rezoning #119. He stated the three reasons the Planning Commission gave Mary Lou Shimon for denial regarding her first rezoning application. He explained how the amended request to rezone only the west half of the property has addressed the three points of denial.

Mary Lou Shimon explained the changes she has made on her application. She noted that all of her neighbors were at this meeting to support her rezoning application.

Planning Commissioners discussed the revised application. Mike LaPointe stated that there are no reasons to deny the request, as Mary Lou Shimon has covered in her revised application the three reasons they denied the first request.

Steve Kinnunen made a motion, Mike LaPointe Seconded that following the review of Rezoning request #119 and the Staff/File Review, the Planning Commission recommends approval of Rezoning #119, as amended, to the Township Board to rezone said property from RP to RR-2.

Motion carried unanimously

Doug Riley stated that it will now go to the Board.

VII. NEW BUSINESS

Discuss the People and Land Report

Doug Riley stated that the reports can be picked up at the Township Hall. He said there are some great ideas in the report. It has some suggestions that we are not doing at this time, and has many ideas that the Township is working on or have completed, which are the following: 1) lighting; 2) cell tower ordinance; 3) US 41 Corridor Planning. There will be a meeting for US 41 Corridor Planning on February 4, 2002 for the area Townships and the City of Marquette. The meeting will be at the Lakeview Arena at 7:00 PM. He thinks Chocolay Township should feel proud on the work they have been doing. This report will be a good reference for the Township in the future.

Bill Sanders said we should revisit this report as we go on.

Steve Kinnunen says it reflects Chocolay's Strategic Plan.

Estelle DeVooght stated she would have liked to see more on Chocolay's historical sites/value in the report.

Scott Emerson noted that there is a lack of coordination from all townships. We need consistent planning, and more joint meetings.

Doug Riley stated that the joint meeting on February 4th is the start of working together on things such as traffic planning and infrastructure. All government units must work together.

Scott Emerson noted we need a common denominator to work with planning for a aesthetically pleasing commercial zone and landscaping ordinance. We have to have a high standard with landscaping.

Bill Sanders agreed with Emerson that landscaping and sprawl control are very important. He thinks the report should be circulated in the Township and to CABA members, along with all business owners.

Scott Emerson suggested that Chocolay Township find another township or city that has a similar "nature concept" on planning, and get information from them, and testimonies on how it has improved their area. We have a beautiful natural setting in Chocolay, we need to make the most of it.

Mike LaPointe made mention that there are no business owners at the meetings he goes to. It is important that they be informed.

Scott Emerson suggested that the Planning Commission make a presentation to all businesses in the area, possibly at a CABA meeting. Tourism is our major industry, we must make the best use of what we have.

Lee Snooks updated the Planning Commission on a grant application he is submitting regarding coastal restoration for the second turnout along M-28. If we get the grant, it will help to fill the gullies, replant vegetation on the dune, building fencing, steps and decking like the first turnout. We want people to stop there and enjoy the view.

Mike LaPointe made note of the section "Land Conservancy Component". He questioned the rock cut area, Willow Farm, and the open space bill regarding cluster zoning. He believes in preserving the open, green spaces, and feels that we should get more information about the organization.

Scott Emerson reminded everyone of the February 4th meeting, and how important it was to attend.

Doug Riley noted that the agenda was not yet formalized, but there was going to be a presentation for the three areas invited to the meeting.

Bill Sanders asked Doug Riley if he would contact the conservancy group and find out more regarding the presentation. They possibly could help get a presentation together for a CABA meeting.

VIII. SUB-COMMITTEE REPORTS

A. Recreation-Subcommittee Report - None

B. Ordinance Amendment Sub-Committee

Bill Sanders noted that the Sub-Committee reviewed garage heights, size limits on garages, and garage construction prior to a residence. The Sub-Committee reviewed this and believes that on height issues variances are the way to go instead of amending the ordinances.

Scott Emerson noted that amateur radio tower/antennas need to be studied closer. He feels that technology needs to be looked at. If smaller antennas are available, they should be recommended instead of high antennas.

Bill Sanders addressed the electronic message signs issue by saying that the Township does not allow these signs and determined that "static" electronic signs, however, would be allowed under our ordinance.

IX. PLANNING DIRECTOR'S REPORT

Doug Riley recommended all Commissioners and Board members to attend the Corridor Management Team presentation on February 4, 2002 at 7:00 PM at the Lakeview Arena.

Scott Emerson feels all should go to this presentation, and we should get on the agenda, if possible, to give a short presentation with a select issues to discuss. (Examples: curb/drainage, lighting, landscaping, parks, boulevard)

Due to the Corridor Management Presentation the next meeting, scheduled on February 11th, 2002, could be possibly canceled at this time, unless someone files an application 6 days prior to that date.

X. PUBLIC COMMENT. None

XI. COMMISSIONER COMMENT.

Discussion regarding the commercial area near ABC True Value ensued. The problem of a movie shop at the corner of Van Epps would cause a traffic problem. An access road behind the businesses for safety reasons was discussed as being a possibility. Possible installation of traffic lights would slow traffic in that area. Enforcing the already set speed limit would be helpful.

XII. ADJOURNMENT

Chair Sanders adjourned the meeting at 9:05 P.M.

Estelle DeVooght, Commission Secretary

Cathy Phelps, Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION
March 11, 2002

PRESENT: **Commissioners:** Mike LaPointe, Ken Tabor, Tom Shaw, Estelle DeVooght and Scott Emerson.

ABSENT: William Sanders and Steve Kinnunen.

OTHERS: Doug Riley, Director of Planning & Research, Denny Magadan, Supervisor DPW, and Cathy Phelps, Recording Secretary.

Acting Chairman, Mike LaPointe, called the Public Hearing to order at 7:37 PM. after waiting a short time for enough commissioners to arrive to have a quorum.

I. PUBLIC HEARINGS

Conditional Use #63 – Chocolay Township – Park – Fishing Access Site on Green Bay Street – Erosion Control Project

Mike LaPointe noted that he was involved in the planning of the Fishing Access Site so he will not vote on this issue.

A Conditional Use approval by the Planning Commission is needed to go forward with this project along with this public hearing. Doug Riley published a public notice in the paper and wrote letters to neighboring residents with no responses up to now.

Jude Emerson of 119 Lakewood Lane noted that the grant was to stabilize the area. She asked if the parking area needs to be part of the grant? She noted that the parking of cars causes more erosion.

Carl Lindquist, from the Central Lake Superior Watershed Partnership, stated that the parking of cars in that area would cause erosion, but also noted that there would be a limited number of vehicles parking there (2 or 3). He thought that having a designated parking area would cause less erosion than the way residents now parked. He stated that it would be no problem with leaving out the parking plans and just working on the fencing and stairs.

Doug Riley noted that the Road Commission recommended a parking area away from the intersection where people park at this time.

Bill Kessel asked why the parking isn't moved along Lakewood Lane? He noted that there are approximately 200 vehicles traveling through this area from 8:00 to 9:30 A.M. and 4:00 to 5:30 P.M.

John Sandin of 146 Lakewood Lane stated that the speed limit on Lakewood Lane is not enforced. He suggests that speed bumps be installed. He feels there has been erosion on his property. He feels that a parking lot would be an eyesore in that area. He thinks the people using this fishing site should park at the marina. He complained about the garbage left behind from people using this area.

Robyn Sandin of 146 Lakewood Lane asked if hauling in fill dirt for a parking lot would not also go into the river and cause problems? Doug Riley explained that no fill was proposed, only gravel. He noted that the gravel would actually help stabilize the site. He said there is plenty of room.

Jude Emerson asked if trees would be removed from the site? Mike LaPointe answered the question in saying that topsoil would be brought in to stabilize the bank and they would use indigenous species, which would enhance the already existing trees. No existing trees would be removed.

Discussion of the parking lot continued. Ken Tabor asked how many vehicles would fit in the planned parking lot? The answer was 2 or 3 at most. Parallel parking was planned to get the vehicles safely off the street. Scott Emerson stated if a parking lot is constructed, it would bring more people to the area and increase traffic even more.

Robyn Sandin suggested that two stairs be build, one on each side and then a have a boardwalk trail connecting the two.

Pete LaRue asked what the goal of the grant project was, if it was to stabilize the area or to improve the park? Mike LaPointe answered by saying it was to stabilize the riverbank.

Scott Emerson noted that the stairs were the key to stabilizing the riverbank, which is eroding badly.

Robyn Sandin said continuing the fencing which is there was also a key to keeping people off the riverbank.

Mike LaPointe thanked everyone for the good input. He then closed the Public Hearing at 8:12.

II. MEETING CALLED TO ORDER/ROLL CALL

Mike LaPointe called the meeting to order at 8:12 P.M.
He noted that William Sanders and Steve Kinnunen were absent.

III. APPROVAL OF THE MEETING MINUTES

The minutes of the regular meeting of the Chocolay Township Planning Commission dated January 14, 2002 were presented for approval.

Moved by Scott Emerson, supported by Estelle DeVooght, approving minutes of January 14, 2002. **Aye 5, Nay 0. Motion carried unanimously.**

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Scott Emerson wanted to add to New Business - Dr. John Sandin was having a problem with the snowmobilers and their maps.

Moved to accept addition to agenda by Ken Tabor, supported by Tom Shaw.

Aye 5, Nay 0. Motion carried unanimously.

V. PUBLIC COMMENT.

Robyn Sandin said snowmobilers have stopped her on her property asking for directions. She said they get lost coming from the trail near Prince of Peace Church. Some have maps that show a trail in that area. She noted that there are maps out there with incorrect information on them. She also noted that better signage needs to be posted near the Prince of Peach Church.

Mike LaPointe said they could discuss this issue during New Business.

VI. PRESENTATION BY THE CENTRAL LAKE SUPERIOR LAND CONSERVANCY

Three members of the conservancy were in attendance, Matt Sayles, Carl Lindquist, and Ron Sundell. They gave out two brochures, and stated that they were a non-profit group to help further environmental sustainability in the Central Upper Peninsula through the promotion of conservation-based land use and ownership. He explained the current projects and land donations they have at this time. He said they are not there to make money, but to protect land.

VII. OLD BUSINESS

REZONING #117 - LAKE SUPERIOR SHORELINE/DUNE PROTECTION OVERLAY DISTRICT – RECOMMENDATION TO BOARD ON VEGETATION SECTION.

Doug Riley gave the background on this issue. At the February 18, 2002 Board Meeting the Township Board tabled the adoption of the Overlay District at the request of Phil and Sally May. This was done to “allow the Board time to consider wording on including/excluding trees in Section B and including natural revegetation in Section C.”

Mike LaPointe noted that trees are a critical stabilizer of a dune. The Commissioners, in discussing this issue, agreed tree root systems are important and by pruning branches that the vision of the lake may be enhanced without removal of the whole tree. They also felt that they do not want to compromise any further regarding the revegetation. They felt that options were already in the language. They want to leave it as is.

Doug Riley will prepare a letter from the Planning Commission to the Board on this issue. Mike LaPointe again made the point that trees are important in stabilizing a dune, they can be pruned without removing them.

VIII. NEW BUSINESS

A. CONDITIONAL USE #63 – PARK –FISHING ACCESS SITE ON GREEN BAY STREET – EROSION CONTROL PROJECT

Estelle DeVooght and Tom Shaw agreed that there is too much traffic on Green Bay Street to install a parking lot. They felt it would only cause more problems. Parking along Lakewood Lane seems to be better. They agreed that signs are needed, and that stairs are crucial to stabilize the riverbank.

Mike LaPointe said they could approve the project and leave out the parallel parking area.

Scott Emerson noted the garbage problem. He wanted to know if the Township would maintain the clean up of this area? Doug Riley said yes, we would be maintaining this site now that it is under Township ownership and we can look at organizing a clean up. Emerson suggests tabling the parking lot until a later date when possibly the Township could purchase the Ameritech tract of land. He does not want to miss out on the opportunity of the grant. Carl Lindquist explained that they could leave out the parking lot and perhaps add an extra stairwell and trail along the river's edge and still stabilize the riverbank. Scott Emerson noted that some vehicles do get stuck in the sand when parking. Carl Lindquist stated that they could move the fence closer to the road so they cannot park there. Lindquist suggested more "no parking" signs.

Tom Shaw Moved, Ken Tabor Second, that after review of Conditional Use request #63; the standards of Section 701; and the STAFF/FILE REVIEW – SITE DATA AND ANALYSIS; and subsequently finding compliance with the standards for approval of the request; the Planning Commission approves Conditional Use Permit request #63 with the following conditions:

- 1) That a permit be obtained from the Marquette County Road Commission for all work within the road right-of-way.
- 2) That all signage be placed in accordance with the requirements of the Marquette County Road Commission.
- 3) That a zoning compliance permit be obtained from the Township Zoning Administrator.
- 4) That the parallel parking lot not be included in the project at this time.

Aye 4, Nay 0. Mike LaPointe abstaining from voting. Motion passed.

B. CHOCOLAY RIVER WATERSHED COUNCIL – REQUEST FOR AREAS OF CONCERN.

Doug Riley gave the Commissioners a copy of the current Plan's designated areas of concern in Chocolay Township to review.

Carl Lindquist said they have been doing inventory work on problem sites. He wants the Commissioners to let him know if there are areas adjacent to water that should be identified that are not listed on the sheets given to the Commissioners.

C. SNOWMOBILE MAPS IN ERROR

Scott Emerson stated that some snowmobile maps show the Ameritech right-of-way as a snowmobile route. Ameritech has not granted easement for any access on their right-of-way, and these maps are in error.

Doug Riley noted that three to five years ago there were some maps printed that showed this area as a snowmobile route, that maybe these maps were still in existence. He thought they may show a proposed or future route and people are misreading it. He stated that Ameritech will not let us enforce trespassing, but our police department may be able to help monitor this problem.

Tom Shaw suggested we get more signs near Prince of Peace Church to direct snowmobilers. He noted that there are snowmobile tracks everywhere from local riders, and it confuses the out-of-town snowmobilers and they get lost. Doug Riley noted that some residents want no signs for snowmobilers.

IX. SUB-COMMITTEE REPORTS

Doug Riley informed the Commissioners that the “contractor yard” issue is still tabled. The Zoning Board of Appeals is meeting March 28th. The court case regarding the Zoning Board of Appeals was adjourned until **March 22, 2002**.

X. PLANNING DIRECTOR’S REPORT/INFORMATIONAL ITEMS AND CORRESPONDENCE

Doug Riley gave an update on the following:

- 1) Community Center Zoning – future meeting
- 2) Rezoning #119 and #120 approved by Board on 1st reading.
- 3) ABC Hardware – Mark Maki met with owners pertaining to the site plan.
- 4) Van Epps/US 41 Corner – new buyer advised of zoning and access issues.
- 5) US 41 Corridor Plan Workshop – April meeting.
- 6) Message signs – Planning Commission agreed a letter should be sent to Cook Signs.
- 7) Street light replacement – Denny Magadanz gave update.

XII. COMMISSIONERS COMMENT

None.

XIII. ADJOURNMENT

Mike LaPointe adjourned the meeting at 9:28 P.M.

Estelle DeVooght, Commission Secretary

Cathy Phelps, Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION
April 8, 2002

PRESENT: **Commissioners:** Bill Sanders, Mike LaPointe, Ken Tabor, Tom Shaw, Estelle DeVooght and Scott Emerson, and Steve Kinnunen.

ABSENT: None.

OTHERS: Doug Riley, Director of Planning & Research, Lee Snooks, Grants and Recreation Director, and Cathy Phelps, Recording Secretary.

Bill Sanders called the Public Hearing to order at 7:30 PM.

I. PUBLIC HEARINGS

Conditional Use #64 – Fraco, Inc. – Construction of Office/Showroom Addition

Terry Bengry and Pete Frazier from Fraco, Inc. said they would answer questions when needed.

II. MEETING CALLED TO ORDER/ROLL CALL

Bill Sanders called the meeting to order at 7:33 P.M.

III. APPROVAL OF THE MEETING MINUTES

The Minutes of the regular meeting of the Chocolay Township Planning Commission dated March 11, 2002 were presented for approval.

Moved by Ken Tabor, supported by Estelle DeVooght, approving minutes of January 14, 2002. **Aye 6, Nay 0. Motion carried unanimously.** (Scott Emerson was entering the room at this time.)

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Moved to accept agenda by Bill Sanders, supported by Steve Kinnunen.
Aye 7, Nay 0. Motion carried unanimously.

V. PUBLIC COMMENT.

None

VI. NEW BUSINESS

A. CONSIDER – CONDITIONAL USE #64 –FRACO, INC. CONSTRUCTION OF OFFICE/SHOWROOM ADDITION

Doug Riley gave a brief explanation of the addition of showroom/office. He noted that the parking needs have already been met, and the buffer areas were not impacted. Additional landscaping is planned. Riley noted he had received no responses to letters he sent out or the ad in the Mining Journal. He noted Mark Maki's letter regarding the encroachment. He said this issue would be worked through and noted that it was not a major violation.

Pete Frazier mentioned that no trees would be cut down for this addition. It will be built where the grassy area is near the existing building. He noted that his sister owns the land that abuts to his land, and some of the items there belong to her. He said the materials in the buffer zone are loose storage, and it will be no problem to move.

Don Britton questioned the conditional use of the property regarding Mark Maki's letter.

Mike LaPointe Moved, Scott Emerson Second that after review of Conditional Use request #64; the standards of Section 701, and other applicable standards contained in the Township Zoning Ordinance; and subsequently finding

compliance with the standards for approval of the request, the Planning Commission approves Conditional Use request #64 with the following conditions:

- 1) That the conditions of operations from the previous Conditional Use Approvals remain in place.
- 2) That the applicant obtain a zoning compliance permit from the Township Zoning Administration.

Aye 7, Nay 0. Motion carried unanimously.

Pete Frazier, FRACO, questioned if he could proceed with this project, and deal with Mark Maki's letter later?

Bill Sanders said yes, but a zoning compliance permit has to be completed through Mark Maki.

Doug Riley noted that the new addition was in full compliance.

Scott Emerson suggested the Planning Commission put in writing that the 70 foot border can be handled administratively. All agreed.

B. WORKSHOP – US 41 CORRIDOR/ACCESS MANAGEMENT PLAN

Doug Riley explained that this is a follow-up after the Marquette City meeting. We will take a close look at our section of the corridor. Asked what the Planning Commission envisions for US 41 through Harvey? There are two areas they are working on: 1) inclusion – all corridor plan from M28 to M95; and 2) Our own use.

Riley said the commissioners should look at all options and make decisions on what to focus on. It is time to put plans on paper and begin to formalize this at future meetings. He has invited Greg Zybur, Chocolay Township Police Chief, to answer questions regarding problem areas.

Dave Gillis, CUPPAD, showed computerized areas throughout the Township along the corridor. Starting from the northern area, the rock cut, and moving through to the US 41/M-28 intersection.

Estelle DeVooght asked if MDOT and the County Road Commission will listen to our requests? She noted that the Commission tried before, but they didn't listen.

Doug Riley stated that there is never a guarantee, but the key is to review procedures now and to have a plan in place. We need to be ready for this opportunity.

Scott Emerson mention Bill #4022, and he felt that local police and community governments should have say in the speed limits. He thought maybe this bill would be brought up again in the future.

Dave Gillis, CUPPAD, has given maps to Doug Riley for the Township's use. He stated that the nine areas of government in this corridor need to generate a common language regarding land division, policies, and zoning. He felt an overlay zone for the corridor should be created. There were two things he felt these governmental areas should have organized:

- 1) Investment. A strategic plan for changes in the next fifteen years; and changes to be made from M-28 to M-95;
- 2) Implement Plans. Accident data (car/deer accidents and turning movements); Traffic volume (amounts on certain roads);
- 3) Soil Types;
- 4) Erosion Hazards;
- 5) Land use;
- 6) Geology;
- 7) Zoning;
- 8) Commercial areas, etc.

Doug Riley has all this information

Scott Emerson asked Greg Zyburt where the greatest accident areas are in Chocolay?

Greg Zyburt felt the hot spot was near the rock cut for winter accidents. Cars going too fast go out of control on the ice/snowy conditions. He mentioned that some accidents are caused because the drivers are looking out over the lake (Superior).

Mike LaPointe stated that having a boulevard in that area would cut down on two car accidents. Noting that a one-vehicle accident is better than two vehicles.

Scott Emerson stated that he thought the speed limit was too fast. He would like to see a limit of 35 mph through Harvey. He does not feel that is unreasonable. Then past the rock cut it could go back to 55 mph. He asked how much influence the commission has?

Doug Riley answered very little.

Pete Frazier noted that people while driving do not generally look at signs. There are so many and similar that they do not notice them. In Florida they have bright orange speed signs. Maybe here we could have big signs with red flags attached to them for people to comply with the local speed limit.

Bill Sanders said that a landscaped corridor/boulevard might slow the traffic.

Greg Zyburt noted that many tickets have been given to speeders through Chocolay Township, and said the drivers say they did not see the speed sign.

Tom Shaw said the area through Harvey was a short distance and people don't realize they have to slow down. He also mentioned that a narrower boulevard may be a problem with snow drifting. It would fill up faster than the wide 5 lane now there.

Scott Emerson noted the area west of the rock cut is an undeveloped commercial area with a short site distance along US 41. It would be hard to re-zone due to poor zoning designation in the past. If we had a access road from the south going behind the businesses.

Doug Riley said the existing curbcut is in a bad spot, and should be eliminated.

Tom Shaw mentioned the highway was built originally in 1876. He asked if access to an undeveloped area can be legally removed?

Adrian Stroupe, from MDOT, said if it is reasonable it can be removed when a major project is being done.

Dave Gillis, CUPPAD, noted that this whole area is troublesome as far as access management factors. The site plan must be looked at closely and reviewed.

Doug Riley stated the businesses could coordinate a curbcut location.

Mike LaPointe said the landowner has a right to have a curbcut, but MDOT decides the access point.

Scott Emerson noted that we must review this carefully to protect the public.

Adrian Stroupe noted that if it deemed unsafe, MDOT will check it and change it if necessary.

Doug Riley stated that the area near the rock cut was being offered to the state for a swap or trade for some Marquette City property (prison property) also near the rock cut. At this time he does not know where the issue stands.

Adrian Stroupe said that sounds like a good idea, but Chocoday would be losing that area that could be zoned commercial. The problem is that we would be losing tax revenue.

Scott Emerson noted that the Township could rezone other areas for commercial that would be in a better location.

Tom spoke of the area near Van Epps and Main Street. He mentioned the idea of checking on the possibility of purchasing Cliff Johnson's home and align Van Epps and Main Street for a safer area.

Bill Sander again mentioned designing a frontage road for the business in this area. He said we should not lose the opportunity to fix Van Epps.

Steve Kinnunen stated that the intersection of M-28/US-41/ and Cherry Creek Road was a problem with a bad bump going across 41 from 28 to Cherry Creek. He said we should summarize our suggestions to the corridor management team.

Estelle DeVooght suggested we talk to Cliff Johnson as soon as possible.

Doug Riley suggested we open a road behind the business along US 41 near Van Epps having one access to the highway. This project all comes down to cost.

Tom Shaw stated that this was a good investment for the community, as far as the public safety aspect and more business opportunity in that area.

Ken Tabor noted that Township money was tight right now with the other projects they are working on.

Dave Gillis mentioned there might be some incentive packages from the state on highway safety benefits. The corridor management team likes to see the local areas prioritize their needs; although they may not take the top priorities first. The needs change, and safety issues come into consideration. He suggests being creative.

Bill Sanders thought the rock cut, to Van Epps business area was a critical problem area now.

Dour Riley mention a resurfacing in the future plans. He thought if we could eliminate some of the curbcuts at that time, and combine some of the business access curbcuts that are very near each other. Example is Bayshore and the dentist office. Pot holes in the access sites are also a critical problem, and asked if they could be taken care of while the resurfacing was being done?

Adrian Stroupe said they do fill just a little past the hinge point, which is about 5 feet or so. He said they cannot do everything, but suggests to put the plans down on paper and list the critical areas first. Work on them when the opportunity comes around. He suggests less access sites along US 41 and more plantings.

Scott Emerson suggests incorporating access sites and putting in power lines underground at the same time.

Tom Shaw noted that in heavy rains the area in front of the Township Hall is a pond.

Greg Zyburt stated that many drivers lose control in the deep water. He knows of two fatalities because of the bad drainage in that area.

Scott Emerson stated that a boulevard in those areas would be helpful.

Adrian Stroupe agreed.

Steve Kinnunen noted that if a large/long semi comes from Cherry Creek turning north they have a problem. It is too narrow for them. The turn lane needs to be

widened. Could we put in a turn lane when the same time they resurface that area?

Adrian Stroupe explained the statewide road width policy.

Bill Sanders said we have to balance cost with benefits. The boulevard has twice the curbing but less pavement area. It would help with snow removal.

Scott Emerson said the plantings along the boulevard would also reduce traffic noise.

Adrian Stroupe said to get all the ideas on paper and give a copy to Andy Sikkema. He said to include all future road improvements, all access areas, resurfacing, and mention filling to potholes in access areas also.

Steve Kinnunen noted that all through the corridor of Columbus, Ohio they have traffic warning system. They have warning lights a certain distance from the actual traffic light that informs the driver of light changes. This system helps in keeping traffic moving smoothly, and there are no last minute braking problems at the intersections. He said there are yellow flashing warning lights when the lights change. He noted that stoplights are the greatest creator of accidents. A couple other areas in Southfield, MI and in Canada were also mentioned having a warning system.

Adrian Stroupe noted that when you have a boulevard, less lights are needed to control traffic.

Scott Emerson suggested a Planning Commission meeting to cover just this issue.

Doug Riley said they will format first, then review and make a recommendation to the Board.

Doug explained the traffic/parking problem near Walt's Auto and Drizzels.

Adrain Stroupe explained that if there are less access points, insurance rates are better and you are more inviting to businesses.

Doug explained the area near First of Negaunee Bank/Citgo/Pete LaRue's building. He thought we should eliminate at least one access road to those areas. Maybe consolidation of some of these access roads could be done. He also explained the Silver Creek/Corning Street area, noting that the Township access road was a problem. He has talked to the owner of neighboring land regarding moving the drive 80 to 100 feet to the west. He is still working on that issue.

Tom Shaw stated that he never sees anyone take a bike over the walkover. He mentioned building a new overwalk with a bike cross ramp near Snyders and Willow Farm. Moving it to that area would take it away from the intersection and light.

Greg Zyburt said the walkover was a sight problem with drivers seeing the light, even though there is a warning sign.

Adrain Stroupe noted that the walkover can be reused at another area.

Doug Riled said it is important to have a usable overpass especially now with the community center at the Silver Creek School building opening this summer.

The commissioners discussed the various areas a ramp could be installed. One was in front of the Township Hall, but the same problem would exist with the light sight problem. A tunnel was suggested, but a half of million dollars cost was given for a 12 x 12 tunnel.

The area near Wahlstoms/Township/Willow Farm was discussed. Access roads to Wahstroms Restaurant and Motel cannot be closed. Willow Farm may become

a commercial area in the future. Willow Farms consists of about 100 acres. A frontage road was suggested by Dave Gillis connecting Cherry Creek and US 41.

Steve Kinnunen stated we have to come up with a master plan.

Greg Zyburt stated that a big accident area was the south entrance to the Holiday Station, figuring it was probably the worst spot in the Township. Turning movement are the highest accident causes.

Steve Kinnunen suggested we close two of the four access roads in that area and maybe connect Snyders with the Holiday Station so vehicles do not have to drive out into US 41 to get to these businesses. Also when the road is being resurfaced to put in a frontage road at the northern most point of the business grouping.

Scott Emerson noted that a boulevard with a turning lane in that area would be beneficial.

Adrian Stroupe said the biggest problem with frontage roads is deciding who is going to maintain them? He said that a special assessment district could be developed to connect driveways with new developments.

Doug Riley suggested a frontage road running from US 41 to M 28 behind the businesses. They discussed the soil in that area as possibly being wetland. Riley also noted that the area near Van Epps and US 41 could have a frontage road that loops behind the businesses.

The area south of the US 41/ M 28 intersection was discussed. The soil in that area is wet but not considered wetland. It is sand, and would need fill before a road could be developed connecting US 41 and M 28.

Tom Shaw noted that the traffic in the Silver Creek/US 41 intersection is going to get busier as the Sands Township develops in that area. The Teaching Family Home is going to go into the old prison farm at the end of Silver Creek. At this time it is a seasonal road. Extra traffic in this area will put a burden on Silver Creek Road already having the school/community center and the church there. Tom Shaw also noted that manhole problems we had recently near the rock cut.

Doug Riley said he would write up a sub-plan and have a property owners' meeting as early as possible.

Dave Gillis and Adrian Stroupe thanked the planning commissioners for being so concerned with the Chocoday area, and said they were doing an excellent job.

VII. SUB-COMMITTEE REPORTS

RECREATION SUB-COMMITTEE

Lee Snooks reported:

- 1) 1500 of the recreation surveys were randomly mailed to Chocoday residents by Dr. Sherony's NMU business class. About 550 surveys have been returned for help in developing a 2003 recreation plan;
- 2) The Browers' Property has finally been given a name. Mr. Browers at first did not want the area named after him, but being asked again he gave approval to name it "Browers' Recreational Area." He explained the 4-H Grant and Forest Management Plan for this area;
- 3) The DEQ Grant for the 2nd turnout along M-28 looks good. This will be used to restore vegetation in the turnout area; and,
- 4) The new pavillion/parking in the Beaver Grove Recreation Area will be started as soon as possible this spring. A young man came to the last Recreation Meeting asking for lights in the soccerfield area. He was asked to come up with prices and come back to the committee with more information.

- 5) A permanent Community Center Committee is being formed to set policies. Eight members of the original committee will be staying on this new committee. They will act as an advisory board/policy maker to the Township Board.

VIII. PLANNING DIRECTOR'S REPORT/INFORMATIONAL ITEMS AND CORRESPONDENCE

Doug Riley noted that the Dune Overlay has been adopted by the Board and that he was going to a meeting regarding this issue on Tuesday, April 9, 2002 in Escanaba.

He also reported that the Board is asking the residents for 1 addition mill/5 years for the community center operations. The ballot language is being worked on and it will be on the August primary election ballot. Rezoning of the community center will be discussed at the next meeting.

VII. COMMISSIONERS COMMENT

None.

VIII. ADJOURNMENT

Bill Sanders adjourned the meeting at 10:28 P.M.

Estelle DeVooght, Commission Secretary

Cathy Phelps, Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION
April 8, 2002

PRESENT: **Commissioners:** Bill Sanders, Mike LaPointe, Ken Tabor, Tom Shaw, Estelle DeVooght, Scott Emerson, and Steve Kinnunen.

ABSENT: None.

OTHERS: Doug Riley, Director of Planning & Research, Lee Snooks, Grants and Recreation Director, and Cathy Phelps, Recording Secretary.

Chair Bill Sanders called the Public Hearing to order at 7:30 PM.

I. PUBLIC HEARINGS

Conditional Use #64 – Fraco, Inc. – Construction of Office/Showroom Addition

Terry Bengry and Pete Frazier from Fraco, Inc. said they would answer questions when needed.

II. MEETING CALLED TO ORDER/ROLL CALL

Chair Bill Sanders called the meeting to order at 7:33 P.M.

III. APPROVAL OF THE MEETING MINUTES

The Minutes of the regular meeting of the Chocolay Township Planning Commission dated March 11, 2002 were presented for approval.

Moved by Ken Tabor, supported by Estelle DeVooght, approving minutes of March 11, 2002. **Aye 6, Nay 0. Motion carried unanimously.** (Scott Emerson was entering the room at this time.)

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Moved to accept agenda by Bill Sanders, supported by Steve Kinnunen.
Aye 7, Nay 0. Motion carried unanimously.

V. PUBLIC COMMENT.

None

VI. NEW BUSINESS

**A. CONSIDER – CONDITIONAL USE #64 –FRACO, INC.
CONSTRUCTION OF OFFICE/SHOWROOM ADDITION**

Doug Riley gave a brief explanation of the showroom/office addition. He noted that the parking needs have already been met, and the buffer areas were not impacted. Additional landscaping is planned. Riley noted he had received no responses to letters he sent out or to the ad in the Mining Journal. He noted Mark

Maki's letter regarding the encroachment. He said this issue would be worked through and noted that it was not a major violation.

Pete Frazier mentioned that no trees would be cut down for this addition. It will be built where the grassy area is near the existing building. He noted that his sister owns the land that abuts to his land, and some of the items there belong to her. He said the materials in the buffer zone are loose storage, and it will be no problem to move.

Don Britton questioned the conditional use of the property regarding Mark Maki's letter.

Mike LaPointe Moved, Scott Emerson Second that after review of Conditional Use request #64; the standards of Section 701, and other applicable standards contained in the Township Zoning Ordinance; and subsequently finding compliance with the standards for approval of the request, the Planning Commission approves Conditional Use request #64 with the following conditions:

- 1) That the conditions of operations from the previous Conditional Use Approvals remain in place.
- 2) That the applicant obtain a zoning compliance permit from the Township Zoning Administrator.

Aye 7, Nay 0. Motion carried unanimously.

Pete Frazier, FRACO, questioned if he could proceed with this project, and deal with Mark Maki's letter later?

Bill Sanders said yes, but a zoning compliance permit for the addition has to be completed through Mark Maki.

Doug Riley noted that the new addition was in full compliance.

B. WORKSHOP – US 41 CORRIDOR/ACCESS MANAGEMENT PLAN

Doug Riley explained that this is a follow-up after the Corridor Management team meeting at the City of Marquette. He said we are taking a close look at our section of the corridor. Asked what the Planning Commission envisions for US 41 through Harvey?

Riley said the Commissioners should look at all options and make decisions on what to focus on. It is time to put plans on paper and begin to formalize this at future meetings. He has invited Greg Zyburt, Chocolay Township Police Chief, to answer questions regarding problem areas. Dave Gillis from CUPPAD was in attendance to present the GIS data of the Chocolay area, and Adrian Struope, Transportation Planner from MDOT, was present to answer questions and provide information.

Discussion of five main areas:

1) Section near the rock cut to Van Epps/Main Street

Scott Emerson asked Greg Zybert where the greatest accident areas are in Chocolay? Greg Zybert felt the hot spot was near the rock cut for winter accidents. Cars going too fast go out of control on the ice/snowy conditions. He mentioned that some accidents are caused because the drivers are looking out over the lake (Superior). Mike LaPointe stated that having a boulevard in that area would cut down on two car accidents. Noting that a one-vehicle accident is better than two vehicles. Scott Emerson stated that he thought the speed limit was too fast. He would like to see a limit of 35 mph through Harvey. He does not feel that is unreasonable. Then past the rock cut it could go back to 55 mph. Bill Sanders said that a landscaped corridor/boulevard might slow the traffic. Tom Shaw said the area through Harvey was a short distance and people don't realize they have to slow down. He also mentioned that a narrower boulevard may be a problem with snow drifting. It would fill up faster than the wide five lanes now there.

Scott Emerson noted the area west of the rock cut is an undeveloped commercial area with a short site distance along US 41. It would be hard to re-zone due to poor zoning designation in the past. If we had an access road from the south going behind the businesses it would be much safer. Doug Riley said the existing curbcut is in a bad spot, and should be eliminated. Tom Shaw mentioned the highway was built originally in 1876. He asked if access to an undeveloped area can be legally removed? Adrian Stroupe, from MDOT, said if it is reasonable it can be removed when a major project is being done. Doug Riley stated the businesses could coordinate a curbcut location. Mike LaPointe said the landowner has a right to have a curbcut, but MDOT decides the access point. Adrian Stroupe noted that if it is deemed unsafe, MDOT will check it and change it if necessary.

Doug Riley stated that the area near the rock cut was being offered to the State for a swap or trade for some Marquette City property (prison property) also near the rock cut. At this time he does not know where the issue stands. Adrian Stroupe said that sounds like a good idea, but Chocolay would be losing that area that could be zoned commercial. The problem is that we would be losing tax revenue. Scott Emerson noted that the Township could rezone other areas for commercial that would be in a better location.

Tom Shaw spoke of the area near Van Epps and Main Street. He mentioned the idea of checking on the possibility of purchasing Cliff Johnson's home and align Van Epps and Main Street for a safer area. Estelle DeVooght suggested we talk to Cliff Johnson as soon as possible. Doug Riley suggested we open a road behind the business along US 41 near Van Epps having one primary access to the highway. This project all comes down to cost. Tom Shaw stated that this was a good investment for the community, as far as the public safety aspect and more business opportunity in that area. Dave Gillis mentioned there might be some incentive packages from the State on highway safety benefits. The corridor management team would like to see the local areas prioritize their needs; although

they may not take the top priorities first. The needs change, and safety issues come into consideration. He suggests being creative. Doug Riley mentioned a resurfacing in the future plans. He thought we could eliminate some of the unused or poor curbcuts at that time, and combine some of the business curbcuts that are very near each other. Example is Bayshore and the Dentist office. Potholes in the access sites where they adjoin US 41 are also a critical problem, and asked if they could be taken care of while the resurfacing was being done? Adrian Stroupe said they do fill just a little past the hinge point, which is about five feet or so. He said they cannot do everything, but suggests to put the plans down on paper and list the critical areas first. Work on them when the opportunity comes around. He suggests less access sites along US 41 and more plantings. Scott Emerson suggests incorporating access sites and putting in power lines underground at the same time.

2) Walt's Auto/Drizzels Area

Doug Riley explained the traffic/parking problem near Walt's Auto and Drizzels. Adrain Stroupe explained that if there are less access points, insurance rates are better and you are more inviting to businesses. Doug explained the area near First of Negaunee Bank/Citgo/Pete LaRue's building. Maybe consolidation of some of these access roads could be done.

3) Silver Creek/ US 41/Corning Street Intersection

Doug Riley explained the Silver Creek/Corning Street area, noting that the Township access road was a problem. He has talked to the owner of neighboring land regarding moving the drive 80 to 100 feet to the west. He is still working on that issue

Tom Shaw stated that he never sees anyone take a bike over the walkover. He mentioned building a new overwalk with a bike cross ramp near Snyders and Willow Farm. Moving it to that area would take it away from the intersection and light. Greg Zybert said the walkover was a sight problem with drivers seeing the light, even though there is a warning sign. Adrain Stroupe noted that the walkover can be reused at another area. Doug Riley said it is important to have a usable overpass especially now with the community center at the Silver Creek School building opening this summer. The commissioners discussed the various areas a ramp could be installed. One was in front of the Township Hall, but the same problem would exist with the light sight problem. A tunnel was suggested, but a half of million dollar cost was given for a 12' x 12' tunnel.

Tom Shaw noted that the traffic in the Silver Creek/US 41 intersection is going to get busier as Sands Township develops in that area. The Teaching Family Home Project is going to go into the old prison farm at the end of Silver Creek. At this time it is a seasonal road. Extra traffic in this area will put a burden on Silver Creek Road already having the school/community center and the church there.

4) Township Hall/Wahlstroms/Willow Farm Area

Tom Shaw noted that in heavy rains the area in front of the Township Hall is a pond. Greg Zyburst stated that many drivers lose control in the deep water. He knows of two fatalities because of the bad drainage in that area. Scott Emerson stated that a boulevard in those areas would be helpful. Adrian Stroupe agreed.

Steve Kinnunen noted that all through the corridor of Columbus, Ohio they have a traffic warning system. They have warning lights a certain distance from the actual traffic light that informs the driver of light changes. This system helps in keeping traffic moving smoothly, and there are no last minute braking problems at the intersections. He said there are yellow flashing warning lights when the lights change. He noted that stoplights are the greatest creator of accidents. A couple other areas in Southfield, MI and in Canada were also mentioned having a warning system. Adrian Stroupe noted that when you have a boulevard, less lights are needed to control traffic.

Access roads to Wahstroms Restaurant and Motel probably cannot be consolidated. Willow Farm may become a commercial area in the future. Willow Farms consists of about 100 acres. A frontage road was suggested by Dave Gillis connecting Cherry Creek and US 41. Discussion centered on planning for the best access.

5) M-28/Cherry Creek area

Steve Kinnunen noted that if a large/long semi-truck comes from Cherry Creek turning north they have a problem. It is too narrow for them. The turn lane needs to be widened. Could we put in a turn lane the same time they resurface that area? Steve Kinnunen stated that the intersection of M-28/US-41 and Cherry Creek Road was a problem with a bad bump going across 41 from 28 to Cherry Creek. He said we should summarize our suggestions to the corridor management team. Adrian Stroupe explained the statewide road width policy. Bill Sanders said we have to balance cost with benefits. The boulevard has twice the curbing but less pavement area. It would help with snow removal. Scott Emerson said the plantings along the boulevard would also reduce traffic noise. Greg Zyburst stated that a big accident area was the south entrance to the Holiday Station, figuring it was probably the worst spot in the Township. Turning movements are the highest accident causes. Steve Kinnunen suggested we close two of the four access roads in that area and maybe connect Snyders with the Holiday Station so vehicles do not have to drive out into US 41 to get to these businesses. Also when the road is being resurfaced to put in a frontage road at the northern most point of the business grouping. Scott Emerson noted that a boulevard with a turning lane in that area would be beneficial.

Adrian Stroupe said the biggest problem with frontage roads is deciding who is going to maintain them? He said that a special assessment district could be developed to connect driveways with new developments. Doug Riley suggested a frontage road running from US 41 to M 28 behind the businesses. They discussed the soils in that area.

The area south of the US 41/ M 28 intersection was discussed. The soil in that area is wet but not considered wetland. It is sand, and would need fill before a road could be developed connecting US 41 and M 28.

General Info:

Adrian Stroupe said to get all the ideas on paper and give a copy to Andy Sikkema. He said to include all future road improvements, all access areas, resurfacing, and mention filling to potholes in access areas also. Scott Emerson suggested a Planning Commission meeting to cover just this issue. Doug Riley said he would work on a draft area sub-plan and have a property owners' meeting as early as possible.

VII. SUB-COMMITTEE REPORTS

RECREATION SUB-COMMITTEE

Lee Snooks reported:

- 1) 1,500 of the recreation surveys were randomly mailed to Chocolay residents by Dr. Sherony's NMU business class. About 550 surveys have been returned for help in developing a 2003 recreation plan.
- 2) The Browers' Property has finally been given a name. Mr. Browers at first did not want the area named after him, but being asked again he gave approval to name it "Browers' Recreational Area." He explained the 4-H Grant and Forest Management Plan for this area.
- 3) The DEQ Grant for the 2nd turnout along M-28 looks good. This will be used to restore vegetation in the turnout area.
- 4) The new pavillion/parking in the Beaver Grove Recreation Area will be started as soon as possible this spring. A young man came to the last Recreation Meeting asking for lights in the soccerfield area. He was asked to come up with prices and come back to the committee with more information.
- 5) A permanent Community Center Committee is being formed to recommend policies. Eight members of the original committee will be staying on this new committee. They will act as an advisory board to the Township Board.

VIII. PLANNING DIRECTOR'S REPORT/INFORMATIONAL ITEMS AND CORRESPONDENCE

Doug Riley noted that the Dune Overlay District has been adopted by the Board and that he and Bill Sanders were going to a Access Management Conference on Tuesday, April 9, 2002 in Escanaba.

He also reported that the Board is asking the residents for one additional mill/five years for community center operations. The ballot language is being worked on and it will be on the August primary election ballot. Rezoning of the community center will be discussed at the next meeting.

IX. COMMISSIONERS COMMENT

None.

X. ADJOURNMENT

Bill Sanders adjourned the meeting at 10:28 P.M.

Estelle DeVooght, Commission Secretary

Cathy Phelps, Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION
May 13, 2002

PRESENT: **Commissioners:** Bill Sanders, Ken Tabor, Tom Shaw, Estelle DeVooght, and Steve Kinnunen.

ABSENT: Mike LaPointe and Scott Emerson

OTHERS: Doug Riley, Director of Planning & Research, Lee Snooks, Grants and Recreation Director, and Cathy Phelps, Recording Secretary.

I. MEETING CALLED TO ORDER/ROLL CALL

Chair Bill Sanders called the Public Hearing to order at 7:30 PM.

II. PUBLIC HEARINGS

Chair Sanders stated the Commissioners would be discussing the two following items:

- A. Conditional Use #121 Chocolay Township – Silver Creek School and Silver Creek Recreation Area Property – R-3 to Public Lands
- B. Private Road #17 – Mary Lou Shimon – Shimon Trail

III. APPROVAL OF THE MEETING MINUTES

Ken Tabor Motioned, Steve Kinnunen Seconded that the April 8, 2002 Minutes be approved as presented.

Aye 5, Nay 0. Motion approved unanimously.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Steve Kinnunen Moved, Ken Tabor Seconded that the Agenda be approved as presented.

Aye 5, Nay 0. Motion approved unanimously.

V. PUBLIC COMMENT

John Smith brought a video to show the Commissioners before making their decision on rezoning the Silver Creek School (Community Center). Problems with the VCR recorder/tape did not enable him to proceed. Smith stated that he is not against the Community Center, but he feels the Township is being deceptive in the way it is being done. Smith felt an ordinary citizen would have a tough time changing the zoning, so why can the Township? Smith thinks the Community Center should not compete with the local businesses. He felt that a post office would be a retail business and it needs to have approximately 100 square feet of space to operate. He feels the Township should not be going into retail business. He feels there will be a parking problem at the Community Center. He would like to see the Community Center zoned C-1. It is zoned R-3 now, and he thinks that was also mis-zoned. He questioned the money issue regarding the post office. He heard the Township may get \$5,000 to \$7,000 per year from the post office for rent. He wanted the Commissioners to hear him before making their decision on zoning, and “not just ram the zoning through.”

Madeleine Zimmerman, 400 Little Lake Road, stated she was a friend and neighbor to Mary Lou Shimon for over 30 years. She has no objection to the road, but questioned if it had to be a cul-de-sac and also questioned the name of the extension. She felt it should be called Shimon Circle.

John Smith questioned the publishing of the Ordinance Amendment Sub-Committee Meetings. He felt there was a violation of the Open Meetings Act.

Chair Sanders closed the Public Comment at 7:43 P.M.

VI. NEW BUSINESS

A. CONSIDER – REZONING #121 – CHOCOLAY TOWNSHIP – SILVER CREEK SCHOOL AND SILVER CREEK RECREATION AREA PROPERTY – R-3 TO PUBLIC LANDS

Doug Riley said the Commissioners had in their packet the information on the rezoning issue. Everything was covered in the STAFF/FILE REVIEW – SITE DATA AND ANALYSIS.

Bill Sanders asked what site plans the Planning Commission would have to review? Would this be for additions, and not for things like painting? Doug Riley answered yes.

DeVooght questioned John Smith's comments regarding zoning. Doug Riley stated that changing the zoning to Public Lands would be needed for the community center. Bill Sanders agreed with the rezoning to Public Lands. He noted that the school was built before the Zoning Ordinance was in place. Doug Riley noted that in R-3 schools are a conditional use.

Bill Sanders asked what the size of the school was? Doug Riley noted it was approximately 29,000 square feet. Bill Sanders then stated that he felt having a post office in the community center with 100 square feet would be no problem as a typical use in a community center. He was comfortable in rezoning the Silver Creek School and Recreation area to Public Lands.

Steve Kinnunen stated that the community center plans look good. He felt when the Marquette Area Public School put the Silver Creek building up for sale the price was right for the Township to purchase it.

Bill Sanders noted that the Silver Creek School area should be zoned Public Lands as it has the recreational lands behind the school.

Estelle DeVooght feels it is a great idea to have a community center. The Township needs a place to have wedding receptions, showers and the like. She feels we need a building like this.

John Smith (**public comment**) was concerned that the community center would be in competition with local businesses. He feels Wahlstrom's would lose business if we had an area for weddings, etc. He thinks the Board is rubber-stamping and he is against the way it is being slid through. He feels it should have conditions put on it.

Estelle DeVooght again noted that she is in favor of the community center and resents the fact that John Smith feels the Planning Commission is doing something crooked.

Bill Kimmes, 313 Fernwood, (**public comment**) stated that it appears that there is a push regarding commercial vehicles in residential areas. He wants to be able to plan ahead, and look at what would be available for him to park his commercial vehicles. He asked if there is a possibility to park commercial vehicles at the community center in an enclosed, secure area?

Bill Sanders Motioned, Estelle DeVooght Seconded to add to New Business - item D – Commercial Vehicle Parking Information to the agenda. Aye 5, Nay 0. Motion approved unanimously.

Doug Riley, again getting back to Rezoning #121, wanted to give a clarification to John Smith's thoughts on the Township being in competition with local businesses. He noted that CABA has been in support of a community center. In fact they had raised \$34,000 toward the development of a community center. He does not think businesses feel threatened by the community center. This money was used toward the first payment.

Doug Riley also noted that there cannot be conditions placed on rezoning. The Planning Commission either has to recommend approval or denial of the rezoning.

Estelle DeVooght stated that Wahlstrom's room is not big enough for large wedding receptions and parties and that it would not be in direct competition with them.

Doug Riley felt that the community center would bring more people to our local businesses. It could be an anchor in our Township.

Bill Sanders said the Planning Commission was not a rubber stamp, and that the Silver Creek School area site plan was being reviewed, and matters like parking are being worked on.

Bill Sanders Motioned, Ken Tabor Seconded, that following the review of Rezoning request #121 and the STAFF/FILE REVIEW, the Planning Commission recommends approval of Rezoning #121 to the Township Board to rezone said property from R-3 to PUBLIC LANDS.

Aye 5, Nay 0. Motion approved unanimously.

Madeleine Zimmerman (**pubic comment**) questioned the use of alcohol at the Community Center. This is an important issue to be discussed. She is on the Fair Board, and it is a big issue.

B. CONSIDER PRIVATE ROAD #17 – MARY LOU SHIMON – SHIMON TRAIL

Doug Riley showed the Commissioners overheads regarding the Shimon property, stating that Mary Lou Shimon's west 20 acres has been rezoned RR-2, and the back 20 acres is zoned R-P. In April the Zoning Board of Appeals granted her the variance for the garage which is located within the 66' required roadway. To build a new home, she needs to have this private road approval. She also needed an easement from the neighbor to the south, Mr. Hendrickson. Doug Riley noted that a letter from Mr. Hendrickson is included in their packet with his approval.

Doug Riley noted that a name has to be given to the extension. Two suggestions were Shimon Circle or Shimon Trail. The commission discussed the naming of the extension. It was suggested that it be called Shimon Court, the same as the rest of the road. Doug Riley noted that the Township usually names the private section of streets differently. The Marquette County Road Commission will be asked if they have any objections to having it named Shimon Court.

Mary Lou Shimon explained to the commission that she has already taken many steps to get to this point, and has been given many conditions. She would like to build a house, and will spend the extra money for the road if she is able to build.

Steve Kinnunen Moved, Ken Tabor Seconded that after review of Private Road request #17; the standards of Section 402 D of Ordinance 34; and the STAFF/FILE REVIEW – SITE DADA AND ANALYSIS, and subsequently finding compliance with the standards for approval of the private road request, the Planning Commission recommends approval to the Township Board with the following conditions:

- 1) **A covenant be established on the deeds for any parcel created off from this private road identifying the private road status and which reference the Private Road Easement and a maintenance agreement which must be fully executed.**
- 2) **The applicant is required to provide certification from a surveyor/engineer that the private road standards of the Ordinance have been achieved at the conclusion of construction.**
- 3) **A zoning compliance permit shall be issued after all of the above conditions are met.**

Aye 5, Nay 0.

Motion Approved. This will be forwarded to the Board.

C. JUNK & JUNK VEHICLE ORDINANCE/ENFORCEMENT

Doug Riley indicated that staff was approached by a citizen that is probably going to circulate a petition requesting the Township to increase its junk and junk vehicle enforcement efforts. This person also requested the review of our junk vehicle ordinance to address some problems. The Ordinance Amendment Sub-Committee has initially discussed this.

Doug Riley noted that the ordinance is confusing. What has been discussed is the need to have a limit on the number of junk cars that can be stored in an area. At this time junk vehicles must be fenced/screened in, but the Ordinance does not limit the amount. Therefore, a junkyard situation can result. The Planning Commission will review the Ordinance in the future.

The issue of the Township expanding its spring clean up program to help people get rid of their junk was also discussed.

This is just a heads up. This issue will be discussed at a future meeting.

D. COMMERCIAL VEHICLE INFORMATION

Bill Kimmes asked the Commissioners what he would be able to do with his commercial vehicles if the Township/Zoning Administrator cracks down on commercial vehicle parking in residential zones?

Doug Riley noted that in cases where a home occupation approval was not obtained, commercial vehicles could be parked in C-3 zones, and that maybe a C-3 site could be developed to accommodate this need. The Township was not prohibiting anyone from parking a commercial vehicle that they drive home from work.

Bill Kimmes noted that he had received a letter from the Zoning Administrator stating that 313 Fernwood was not authorized for commercial vehicle parking use, and that the Zoning administrator suggested to him that he apply for a home occupation permit. Bill Kimmes feels that he does not run a business out of his home, and does not think he should have to apply for a home occupation permit.

Bill Sanders noted that the Township has issued two tickets in the last 20 years for commercial vehicle parking in residential districts. They were issued because they were operating out of area not zoned business and greatly exceeded customary commercial vehicle parking.

Doug Riley stated that the Zoning Board of Appeals is still reviewing this issue.

Bill Sanders feels that driving home a business vehicle is certainly not an issue.

Doug Riley mentioned that with home occupation approval, business vehicles and equipment is authorized if screened. Of course, this requires Zoning Board of Appeals review.

Bill Kimmes stated that he is confused. If he applies for a home occupation permit, is he then in part saying that he runs a business out of his home? And what if he is turned down by the Zoning Board of Appeals or has restrictions put on? Garage sizes are limited by the zoning ordinance, can he build it big enough? He is confused by what he hears on the street.

Bill Kimmes asked if the Planning Commission could give him a letter.

John Smith (**public comment**) said that in the Bob LaJuenesse's court case, he feels the judge went beyond what he should have. Bob LaJuenesse was ordered to remove personal items (vehicles).

Ken Tabor noted that it was not the intention of the Board not to let residents drive business vehicles home.

Bill Kimmes (**public comment**) questioned if he does file for a home occupation, will he be categorized? He is concerned about if he parks his business vehicles at his residence, that he will be ticketed and have to spend thousands of dollars to go to court.

Doug Riley stated that the Zoning Administrator determines this issue. If you do not agree with the Zoning Administrator, you can appeal to the Zoning Board of Appeals.

Bill Sanders noted that the Commissioners appreciate the questions. He noted that continued review of this issue will continue with the Planning Commission and the Ordinance Amendment Sub-Committee following the Court Cases and ZBA ruling. He asked Mr. Kimmes to stay involved and get the facts from the Township and not the “word of the streets.”

Steve Kinnunen agreed, and again mentioned to get the facts from the Township office, and not take the “word of the street” as fact.

V. SUB-COMMITTEE REPORTS

A. RECREATION SUB-COMMITTEE

Lee Snooks reported that the business class at Northern Michigan University did a great job on the Recreation Survey. They sent out 1500 random surveys and received about 450 back for the tabulation. In total about 500 came back, but many came back too late to be tabulated. This recreation survey will be used in developing the Recreation Update for 2003, which is used for grant requests.

Steve Kinnunen asked about the many comments on the marina.

Lee Snooks stated that the way the marina is situated, it is impossible to dredge to Lake Superior, since the sand fills in that area each year. The marina is not made for larger boats entering Lake Superior. It is just not financially feasible.

B. ORDINANCE AMENDMENT SUB-COMMITTEE

Doug Riley mentioned that the committee is reviewing the junk vehicle ordinance. He said the committee is made up of three people, they meet when it is convenient for the three. The meeting agendas are posted on the Township bulletin boards at the Township Hall. This Committee does not constitute a quorum of the Planning Commission. They are a working group that makes recommendations to the Planning Commission.

VI. PLANNING DIRECTOR’S REPORT/INFORMATIONAL ITEMS AND CORRESPONDENCE

Doug Riley reported on the corridor plan issue. Ideas are being put on paper at this time, and will be reviewed in the future.

Doug Riley noted that the Speed Limit Bill has been vetoed. But another bill has been introduced pretty much to do the same thing. It involves having a pilot program in six counties. Marquette County is one of them.

At a recent Regular Board Meeting a few people requested to have the Township Board meetings televised and for the Township to pay for the cost. The Board discussed the possibility, and were unsure if they should spend tax payers money for it. A decision was made to do a survey to see if the residents of Chocolay would support the cost of televising these meetings.

There will be a metal pick-up at curbside beginning on May 25th at 7:00 A.M. for all residents.

VII. PUBLIC COMMENT

John Smith said that in the 1976 Open Meetings Act, Section 16.265 states that all public meetings must be posted within 10 days of the 1st meeting. He felt that the Ordinance Amendment Committee has not complied with this.

Bill Sanders stated that if we are doing something wrong, we will have it rectified.

Tom Shaw stated that he hears the talk on the street everyday, and there are statements made that are not true. He wants to tell everyone to come to meetings or go to the Township and talk with the person in charge of the issue to get the facts and not listen to the talk on the street.

John Smith stated that it would be perceived that the Planning Commission added the commercial vehicle discussion to this meeting agenda without it being appropriately posted on the agenda.

Bill Sanders stated that a member of the public requested information, and he felt it was important to give him facts, and clarify some incorrect information the resident had received from other people. Bill Sanders asked Lee Blondeau and John Smith to inform others that this addition to the agenda was not improperly squeezed in and to please call him directly if they have concerns. Sanders felt it was appropriate to answer his questions at this meeting.

John Smith was filming the meeting, and said it was on camera. He mentioned that he felt the Board should pay for televising the meetings.

VIII. COMMISSIONERS COMMENT

Estelle DeVooght asked if anyone knew why airplanes were flying low near her home?

Doug Riley said the County was doing a study in a 3-mile radius of KI Sawyer.

IX. ADJOURNMENT

Bill Sanders adjourned the meeting at 9:17 P.M.

Estelle DeVooght, Commission Secretary

Cathy Phelps, Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION
June 3, 2002

PRESENT: **Commissioners:** Bill Sanders, Ken Tabor, Tom Shaw, Estelle DeVooght, Mike LaPointe and Steve Kinnunen.

ABSENT: Scott Emerson

OTHERS: Lee Snooks, Grants and Recreation Director, and Cathy Phelps, Recording Secretary.

I. MEETING CALLED TO ORDER/ROLL CALL

Chair Bill Sanders called the Public Hearing to order at 7:31 PM.

II. PUBLIC HEARINGS None

III. APPROVAL OF THE MEETING MINUTES

Ken Tabor Motioned, Tom Shaw Seconded that the May 13, 2002 Minutes be approved as presented.

Aye 6, Nay 0. Motion approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Steve Kinnunen Moved, Estelle DeVooght Seconded that the Agenda be approved as presented.

Aye 6, Nay 0. Motion approved.

V. PUBLIC COMMENT None

Chair Sanders closed the Public Comment at 7:35 P.M.

VI. NEW BUSINESS

A. CONSIDER – PRELIMINARY PLAN FOR CHOCOLAY WOODS – PROPOSED SITE CONDOMINIUM

Glen Van Neste handed out a map with additional information added to the map given to the commissioners in their packets. He noted that this area was located off M-28 (Wintergreen and Autumn Trail).

Bill Sanders stated that the preliminary review was straightforward.

Glan Van Neste gave a brief description of a site condo. He said in Marquette they have Lakeshore Park Place, where condominiums have been developed. They just own the interior of the building. Here in Chocoday they own the land, it looks much like a subdivision with the shaded area on the map to be common land and a walkway, all owned by the association. Units 1 & 2 are detached from the rest of the area. All the owners must sign a road agreement.

Bill Sanders noted Mark Maki, the Assessor, says there are no more allowable splits. Estelle DeVooght said she felt the flood plain goes further than shown.

LaPointe Moved, Tabor Seconded that the Planning Commission approve the Preliminary Plan for the Chocoday Woods Proposed Site Condominium and forward it to the Township Board with the following conditions:

- 1) That the development comply with the submittal requirements of Section 525 of Zoning Ordinance 60 and Condominium Act 59 for the Final Condominium Plans.**
 - 2) That the lots may need adjustment to comply with lot size requirements as determined by the Zoning Administrator.**
- Aye 6, Nay 0. Motion carried.**

It will now go to the Board. They meet on June 17, 2002.

B. ANNUAL ELECTION OF OFFICERS

Estelle DeVooght Moved, Tom Shaw Seconded that the Planning Commission keep the same officers as last year as follows:

**Chairperson: Bill Sanders
Vice Chairperson: Mike LaPointe
Secretary: Estelle DeVooght
Vice-Secretary: Steve Kinnunen
Aye 6, Nay 0. Motion Carried.**

C. CONSIDER – 2001 ANNUAL REPORT

Bill Sanders noted looking at the annual report that a lot of work was accomplished. There was a short discussion by the commissioners. Bill Sanders said the 2001 Annual Report would be given to the Board.

D. REVIEW/DISCUSS – PLANNING COMMISSION BY-LAWS

Bill Sanders noted that a 15-day commission notice would have to be made if any changes were made. He noted that the Planning Commissioners adhere to the policy, and he feels that it should even be tightened up now. Discussion centered on the public participation policy the Board recently put in place.

Ken Tabor stated that at some meetings the public comes in and takes over the discussion. We have a need to implement a time limit. The public should only speak if the Chairperson instructs them to speak.

Tom Shaw agreed that the time limit should be watched carefully.

Steve Kinnunen stated that the guidelines are in place if a meeting gets out of hand, and control is needed. He has seen the public speaking when there is a motion on the floor.

Mike LaPointe noted that he attends many meetings and they must be strict or the board would not get any work accomplished. We must use common sense in running a meeting. LaPointe suggested we attach “rules to speak” to the agenda.

Bill Sanders said it may be frustrating for the public, and at times it would be appropriate to let the public speak. We need to be flexible, but have control. We will ask Doug Riley to help with the implementation.

VII. SUB-COMMITTEE REPORTS

A. RECREATION SUB-COMMITTEE

Lee Snooks asked for guidance regarding the Recreation Committee status. The Recreation Committee has lost steam. It was an ad hoc committee for a special project, and at this time nothing is really happening. Attendance is low, they have no power to make decisions, and he feels there is a lack of interest. They have almost completed the Beaver Grove area, updated the recreation plan. There is no formal chairperson. Lee Snooks asked the Planning Commission for direction.

Steve Kinnunen stated that because of the Recreation Committee existing, the Township has received grants that we may not have otherwise received. He feels it should stay intact as a committee, and just meet when necessary.

Bill Sanders felt that since Lee Snooks has taken the new position, he thinks we could recall the recreation committee as is. If needed in the future, still under the Planning Commission, a group can be called to work on special projects. It does not have to be the same group, it can be a group that has a interest in the project.

Lee Snooks stated that he would like to work on valuable issues, right now it is slow, and there are no projects to work on. The Beaver Grove area is almost completed, the recreation report just needs to be published. He stated that the

members involved right now are very busy people and he is having a hard time getting more than a couple people to make it to a meeting.

Steve Kinnunen said with the community center opening shortly, we may have more recreational activities available. He would like to see more community members getting involved to make things happen. He is concerned with the millage, he hopes the community will support a children and senior citizens center.

Bill Sanders does not feel the committee should be dissolved. It is an ad hoc committee anyway, if needed just a couple of members could be called for a meeting.

Lee Snooks stated that the Community Center Committee is for inside activities, the outdoor activities are for the recreation committee. Don Britton is on both committees.

Ken Tabor felt it should be continued, but only call meetings when Lee Snooks feels it is necessary.

Mike LaPointe noted that he was on the committee, but it was a bad day for him to make the meetings.

Bill Sanders said to dissolve the committee as is, and call a group of interested people when a mission comes up. Then those people will be more involved, and that way different people in the community can get involved.

Steve Kinnunen noted that he does not want the community to feel that we are dropping plans for recreation. If anyone has recreation concerns they should see Lee Snooks.

Lee Snooks also noted that the Brower's Stewardship Plan is now available.

Mike LaPointe asked Lee Snooks if we got the turn-out dune restoration money? Lee said that the DEQ is trying to find money now for coastal restoration. He wanted to know what kind of timeframe we are looking at? Lee Snooks said it would probably be next season, if approved this month. Mike LaPointe noted that he would like to be involved.

Steve Kinnunen said he has contacted Christy Fox, from Land Management in Lansing. He said this organization was very happy that our Board accepted the dune ordinance, and they would like the Township to send them information regarding the ordinance.

B. ORDINANCE AMENDMENT SUB-COMMITTEE

Bill Sanders stated that there was a question brought up about posting the meeting. The meetings are posted on the bulletin board near the front door of the Township office.

VIII. PLANNING DIRECTOR'S REPORT/INFORMATIONAL ITEMS AND CORRESPONDENCE

Doug Riley was not in attendance, so there was no report.

IX. PUBLIC COMMENT None.

X. COMMISSIONERS COMMENT

Tom Shaw asked about when the Special Meeting could be held for the Dune Application? The Commissioners discussed dates and times. Lee Snooks suggested using the Teachers' Lounge at the Silver Creek School, since the Township meeting room was being used almost every night. The meeting would be to review the request only, and would be no longer than one hour. It was decided that June 13th, at the Silver Creek

School Teachers' Lounge would work for everyone at 6:00 P.M. Lee will check with the school for confirmation.

Mike LaPointe stated that everyone should take a ride and check out the Greenbay Street/Lakewood Lane River Access Project. He noted that it looks very good. He said he has had comments from residents suggesting handrails be installed on the steps.

Steve Kinnunen noted that it is a big improvement. He wants everyone going there to check out the dirt washing into the river from the bank near the north side of the bridge. He suggested filling in with rock, like the area near Cherry Creek area to stop the erosion.

Tom Shaw noted there are washouts near the Bayshore Vet Clinic near the sewer manholes.

Estelle DeVooght brought up the letter that was enclosed in the packets regarding Savola's property. She asked what Chocolay Township could do to clean up the mess? Tom Shaw stated that it was all in Sands Township and Marquette City, and they don't care. They feel it is someone else's responsibility. People think it belongs to Chocolay Township and make comments regarding their feelings toward the project.

Steve Kinnunen noted that the Michigan State Extension Service was having a class on understanding ordinances. It was a 40-hour class. He went to one in Marquette, which was only one day, but he felt it was very informative. It showed how people can maneuver around ordinances, and how agencies (townships) can be in control. For example, Marquette City had no tower ordinance in effect, so there was no ruling against what they did.

Tom Shaw mentioned that Northern Michigan Landbrokers opened up the road from 553 to Silver Creek Road. The area of 148 acres was rezoned residential from forest. This may cause a large increase in traffic along Silver Creek Road. US 41 and Silver Creek is a bad intersection, and Silver Creek Road is too narrow for increased traffic.

Mike LaPointe noted that secondary homes were on a rise in this area. Steve Kinnunen stated that development usually follows water. His thoughts were that it could be good for the Silver Creek Road residents to have another way to exit.

Ken Tabor said we should coordinate and work with Sands Township. Bill Sanders noted that Sands does not have a full time staff, which makes it harder for them.

Steve Kinnunen suggested the Planning Commission review the US 41 and Silver Creek intersection area. Silver Creek needs repair and with the added development it could cause an increase in through traffic.

Tom Shaw noted that you can now drive through the 80-foot wide flattened area.

Bill Sanders said that similar things happened in Traverse City with the traffic increase and road problems. We do not have that development pressure here, yet.

Steve Kinnunen said we should get our road requirements in place ahead of time.

Bill Sanders noted that new private roads are sprawl generators. Steve Kinnunen mentioned the Green Garden area, Vista Hills, and noted that a private road was created, and land splits were done.

Steve Kinnunen stated he had read in a magazine in the Township office regarding urban sprawl, and that MSU had a video available. Within the next ten years, tourism will be increased, and people will be buying up land and development will increase. We need to do some studying as we see it coming.

XI. ADJOURNMENT

Chair Sanders adjourned the meeting at 8:42 P.M.

**CHARTER TOWNSHIP OF CHOCOLAY
PLANNING COMMISSION
SPECIAL MEETING
June 13, 2002**

PRESENT: Commissioners: Ken Tabor, Tom Shaw, Mike LaPointe and Steve Kinnunen.

ABSENT: Scott Emerson, Bill Sanders and Estelle DeVooght

OTHERS: Doug Riley, Director of Planning & Research and Cathy Phelps, Recording Secretary.

I. MEETING CALLED TO ORDER/ROLL CALL

Vice-Chair Mike LaPointe called the Public Hearing to order at 6:00 PM.

II. PUBLIC HEARINGS

A. Conditional Use #65 – Joe Gasper – 3003 M-28 East
Dune Overlay District Application

Doug Riley reported that letters were sent out to all neighboring residents within 300 feet and he heard from several. (Three noted comments relayed to the Commissioners). No one had any objection. Some noted they were appreciative of the notice.

Joe Gasper apologized for coming to the meeting in uniform, but he was just taking time off work and had to return after the meeting. He also thanked the commissioners for the quickness of taking care of his request, and for answering all of his questions. He noted that there were no changes in his plans from what was turned into the commissioners.

Mike LaPointe closed the Public Hearing at 6:05 P.M., and called the Special Meeting to order. He noted that Bill Sanders, Estelle DeVooght and Scott Emerson were absent.

III. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Ken Tabor Moved, Tom Shaw Seconded that the Agenda be approved as presented. Aye 4, Nay 0. Motion approved.

IV. PUBLIC COMMENT None

V. OLD BUSINESS None

VI. NEW BUSINESS

A. CONSIDER – CONDITIONAL USE #65 – JOE GASPER – 3003 M-28 EAST – DUNE OVERLAY DISTRICT APPLICATION

Joe Gasper stated that he would not take any vegetation out except for what is needed for installing the foundation. They do want to clean up the dead trees. He will plant the dune grass as requested, and wants to leave the vegetation natural.

Mike LaPointe stated that he has been at the site and sees no problems.

Steve Kinnunen noted that Lake Superior is at a low level right now, and at some point it will rise, and by protecting the dune area Mr. Gasper will be thankful in the future. Protecting the dune is important.

Ken Tabor Moved, Tom Shaw Second that after review of Conditional Use request #65; the standards of Section 218 and 701, and subsequently finding compliance with the standards for approval of the request, the Planning Commission approves Conditional Use request #65 with the following conditions:

- 1) That the disturbed areas of the foredune be rehabilitated with dune grass plantings at a rate of 1 clum (clump) per square foot of disturbed area following completion of the home construction.
- 2) That the applicant obtain a Zoning Compliance Permit from the Township Zoning Administrator.

It is also a suggestion by the Planning Commission that the applicant utilize some type of stairway or wood pathway system for his beach access in order to limit foot traffic erosion.

Aye 4, Nay 0. Motion Carried.

Mike LaPointe noted that this system seems to be working, the neighbors appreciate the notification, and it educates the property owner on dune protection.

VII. PLANNING DIRECTOR'S REPORT

Doug Riley reported that Mark Maki has given his retirement notice to the Board with a June 27, 2002 date. It will be considered at the Board Meeting on Monday, June 17, 2002. Mr. Maki has stated that he will help out part-time during the transition period through July.

Doug Riley thanked the commissioners for coming to this Special Meeting. Riley also feels that this system is working great. The responses from the neighbors involved are very positive. Every situation they get will be different, and it helps if the commissioners are able to go to the site and look at it firsthand.

Steve Kinnunen noted that this was a unique situation and the neighbors are in close proximity. There was some confusion with taking the measurements. He suggested implementing some extra wording on the application regarding measuring the area with the Zoning Administrator.

Doug Riley agreed that the application should be changed.

Tom Shaw stated that we need to have someone measuring who is familiar with the erosion hazard line, whether it be the Zoning Administrator or someone else. He said in time (high water level) they will be glad they have trees in front of the house.

VIII. PUBLIC COMMENT None.

IX. COMMISSIONERS COMMENT None

X. ADJOURNMENT

Vice-Chair LaPointe adjourned the meeting at 6:20 P.M.

Estelle DeVooght, Commission Secretary

Cathy Phelps, Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION

July 8, 2002

PRESENT: **Commissioners:** Bill Sanders, Ken Tabor, Tom Shaw, Estelle DeVooght, Mike LaPointe, Scott Emerson and Steve Kinnunen.

ABSENT: None

OTHERS: Doug Riley, Director of Planning and Research, Cathy Phelps, Recording Secretary, and Mark Maki, Zoning Administrator.

I. MEETING CALLED TO ORDER

Chair Bill Sanders called the meeting to order at 7:30 PM.

II. PUBLIC HEARINGS None

III. APPROVAL OF THE MEETING MINUTES

Estelle DeVooght Motioned, Ken Tabor Seconded that the June 3, 2002 Minutes be approved with the deletion of the second sentence in VIII Planning Director's Report. Aye 7, Nay 0. Motion approved.

Mike LaPointe Motioned, Ken Tabor Seconded that the June 13, 2002 Minutes be approved as presented. Aye 7, Nay 0. Motion approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Steve Kinnunen Moved, Scott Emerson Seconded that the agenda be approved as presented. Aye 7, Nay 0. Motion approved.

V. PUBLIC COMMENT None

VI. NEW BUSINESS

A. CONSIDER –CHOCOLAY WOODS – PROPOSED SITE CONDOMINIUM- FINAL PLAN

Mike LaPointe asked if the Health Department has been notified regarding having the project approved for suitability of the soils and groundwater supply? Scott Hubbard said they were contacted about a week to ten days ago. He asked if the Planning Commission would consider having a Special Meeting for them one they have the Health Department approval. Bill Sanders asked the Planning Commissioners if they would be available in two weeks or so? Scott Emerson said he would be out of town, Mike LaPointe said he would meet if we could work around everyone's schedules. Ken Tabor said he would be available.

Steve Kinnunen questioned the review by the Township Attorney. Doug Riley asked if the commissioners want to meet before or after the attorney reviews the Master Deed and By-Laws? It has not been sent to the attorney as of this date. He noted that it should only take three or four days for the attorney to review it. Bill Sanders noted that it does not matter to him if the attorney has reviewed it before the special meeting. Mike LaPointe and Ken Tabor also stated that it does not matter to them.

Bill Sanders said when Glen Van Neste and Scott Hubbard have everything ready then the Planning Commission would have a special meeting. Glen Van Neste asked why the Planning Commission will not act before getting the okay from the Health Department? The Planning Commission is only interested in the layout and setbacks, so why the wait? Bill Sanders noted because the Ordinance says we cannot act without their approval. Scott Emerson noted that it would be a waste of their time if they had a special meeting and then the Health Department turned it down. It has happened before, but he does not remember the exact case. Glen Van Neste wants them to see the developer's view. Steve Kinnunen noted that these lots were approved months ago. He asked why they waited in

going to the Health Department? Scott Hubbard noted that the Health Department has some new rules they must follow.

Bill Sanders questioned who would be responsible for the sewer system? Glen Van Neste said each site would have their own individual septic system. He asked if other issues could be discussed to get them out of the way?

Bill Sanders mentioned the setbacks and where measurements should be taken from.

Glen Van Neste noted unit #1 and the encroachment. He said this affected the owner and the developer, they have met. They will be adding a long, narrow triangle to the owners parcel. Van Neste noted that surveying had been done incorrectly at one time, and the owner may have measured from old flagging. Scott Emerson noted that he is confused by where the buildings are plotted. Doug Riley said the dotted lines are the setback lines and show where the buildings can be built.

Bill Sanders mentioned that the Township is working on down-lighting. He said Doug Riley or Denny Magadanz could give them the specifications on the new lights and suggested these be incorporated into the project. Scott Emerson explained that the lights along Ontario Street in Marquette Township were the types of lights Chocolay Township would like to see installed. He asked if all the utilities would be underground? Scott Hubbard said yes, they were underground.

Scott Emerson questioned if the commons area was the shaded area? He asked if there would be a 100-foot waterfront setback and a 30-foot buffer strip from the water's edge? He noted that he would like to see the flood plain be part of the common's area. Scott Hubbard said there is a large area of access to the Chocolay River that is the commons area. Doug Riley noted that this is the first time we have worked with a site condo under our new regulations. We need to look at the Ordinance and what additions need to be made for site condos and common areas. He encourages the review along with cluster zoning. Bill Sanders said that it is up to the developer to decide how he wants the commons area used. It is his choice. He asked Scott Hubbard why he is choosing dusk to dawn lighting? He noted that Chocolay Township is trying to cut down on light pollution. He noted that he lives where there are few lights, and during the recent meteor shower, he was able to see it clearly. Scott Hubbard noted that his reasoning was that there are lots of kids out after dark. He said Alger Delta will install the lights, rather than putting in the more expensive types. Bill Sanders said the problem with them is that you cannot turn them off when not needed. Scott Hubbard agreed and said he understood. Scott Emerson suggested checking out the new lights, they look very nice, and are not glaring.

Bill Sanders questioned time-sharing and leases. He wondered if would be like a Bed and Breakfast arrangement? Doug Riley noted that the Condo Act required that this language must be included. Scott Hubbard said they are individual, single-family homes only.

Bill Sanders brought up the special meeting again. Doug Riley asked how long it would take for the Health Department to approve it? Scott Hubbard did not know how long it would take. Doug Riley noted that changing the meeting time might be an option also. Bill Sanders suggested either July 25th or the 29th at 5:30 at the Township Hall or at the Community Center.

B. CONSIDER – ANNUAL ROAD RANKINGS

Doug Riley noted that he and Denny Magadanz traveled about 100 miles looking at roads. Bill Sanders noted that the Green Garden/Greenfield Road project should be done at the same time as the Green Garden bridge replacement, unless the Planning Commission decides other roads are more important. This opportunity can save the Township money by piggybacking projects. Scott Emerson feels that West Main Street is in need of repair. Bill Sanders also noted that County Road 545 is in bad shape. Doug Riley noted that it is a high priority for the County and they get Federal Funds for it as it is a County Primary Road.

Mike LaPointe asked how far can we go with the Township match? If we did the piggybacking of Greenfield/Green Garden and Green Garden bridge, would that use all

of our funds? Denny Magadanz noted that it would be a big portion of the funds. Greenfield Road to Mangum Road is in terrible shape, and it would be a big savings if they were done at the same time. Mike LaPointe said it makes sense, and will save the Township money in the long run. He asked if we could do another project also (West Main Street)? Doug Riley said we can make the request. He noted that Denny Magadanz has all the preliminary numbers in his office. Scott Emerson suggested changing Green Garden to #1, and West Main to #2.

Bill Sanders suggested leaving them as is, and make the recommendation to the Board to do Greenfield/Green Garden roads along with the bridge if there is a significant cost savings.

Tom Shaw noted that Silver Creek and West Main are both narrow and bumpy. They are both high traffic roads.

Scott Emerson Motioned, Ken Tabor Seconded that the Planning Commission approves the road ranking for the 2003 budget as submitted with West Main Street having the top priority, unless Green Garden Road and Greenfield Road can be coordinated with the bridge replacement and significant cost savings can be realized, then this project would get first priority.

Aye 7, Nay 0. Motion approved.

C. CONSIDER – 2003 PLANNING COMMISSION BUDGET

Doug Riley noted that under the Professional Services category, the \$1,000 should be changed to \$3,000. All agreed raising it to \$3,000.00.

Scott Emerson noted that they have not been paid for sub-committee meetings. If it can be only one or the other, he would rather see the money used for professional services.

Bill Sanders asked if the GIS amount of \$750.00 was sufficient? Doug said yes, that there was a lot of help with that from CUPPAD. There was discussion regarding training courses and conference fees. Bill Sanders asked if we need more training to be able to use it? Steve Kinnunen and Bill Sanders suggested we raise it to \$1,000.00.

Doug Riley questioned the members regarding raising Publications and Memberships. Bill Sanders asked for recommendations of changing educational magazines. Doug Riley suggested the *Planning and Zoning News* instead of the *Michigan Planner*. Steve Kinnunen also recommended it, stating they had some great articles regarding junkyards and urban sprawl recently. Scott Emerson noted that one publication would be enough. Scott Emerson would like to see a pamphlet made up to preserve green areas. We could give them to developers, and it would be part of the educational process for all involved. They discussed and decided to increase Publications from \$150 to \$500 in order to obtain the *Planning and Zoning News*.

Aye 7, Nay 0. Motion approved.

VII. THANK YOU TO MARK MAKI

RESOLUTION

WHEREAS, Mark Maki has served the citizens of Chocolay Township for over 27 years in the capacities of Assessor, Director of Land Use Management and Zoning Administrator; and

WHEREAS, Mark Maki has been instrumental in the planning and zoning efforts of the Township while performing these duties and with his service as staff liaison to the Planning Commission for 14 years and to the Zoning Board of Appeals for 25 years; and

WHEREAS, Mark Maki was instrumental in completing the Township's Comprehensive Plan, Zoning Ordinance and numerous other planning documents and ordinances; and

WHEREAS, Mark Maki has also served on various Planning Committees such as the Ad Hoc Trails Committee and the Marquette County Planning Commission and Construction Board of Appeals; and

WHEREAS, the Chocolay Township Planning Commission extends to Mark Maki its sincere gratitude for his serving the Township faithfully and well and offers its heartfelt thanks for helping to improve the Chocolay Township Community.

THEREFORE, BE IT HEREBY RESOLVED, That this resolution of appreciation be presented to Mark Maki for his years of dedicated service to Chocolay Township.

All members of the Planning Commission signed the Resolution, and presented it to Mark Maki.

Bill Sanders presented the resolution in a frame to Mark Maki. He thanked Mark Maki, and noted how the Township appreciates all the work he has put in to keep this community a wonderful place to live.

Scott Emerson noted that being a zoning administrator is a tough job and can cause a lot of animosity towards you. He thanked Mark Maki for being so gracious under all that pressure. We will have some big shoes to fill now that Mark Maki is leaving. Scott Emerson stated that Mark Maki has had a powerful voice and hopes that Mark will continue to sound off that voice as a citizen of Chocolay Township.

Steve Kinnunen asked Mark Maki if he would be available if the Township needed to call on him. Mark said he would be available.

Mike LaPointe noted that it is a hard job, and you don't make many friends in the process

Mark Maki thanked the Planning Commission for their comments and the presentation. He noted that there is lots of work, and thanked the members of the Zoning Board of Appeals and the Planning Commission members for working with him. The Township needed a new plan back in the 60's and 70's. At that time many people worked to set down the foundation. They fought the earliest battles. Maki feels this is the nicest Township to live in and property values have risen. He has been given a great opportunity, and had to take advantage of it. The 27 years working for Chocolay Township has gone by very fast.

VIII. SUB-COMMITTEE REPORTS None

IX. PLANNING DIRECTOR'S REPORT

Doug Riley mentioned that at the next meeting we will discuss the guidelines for public participation at public meetings.

X. PUBLIC COMMENT None

XI. COMMISSIONER COMMENT

Mike LaPointe asked if the complaints that were brought up in court, noted in the Zoning Board of Appeals Minutes for June, had been followed up on and letters sent out?

Mark Maki said there were four or five complaints brought up as part of the defense in the court case. Some letters have gone out regarding the complaints, some had no merit, and he sent a few letters of inquiry.

XII. INFORMATIONAL ITEMS

Scott Emerson asked Mike LaPointe questions regarding indicators of pollutants to local waters.

XIII. ADJOURNMENT

Chair Sanders adjourned the meeting at 8:40 P.M.

Estelle DeVooght, Commission Secretary

Cathy Phelps, Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION
AUGUST 12, 2002

Present: Commissioners: Bill Sanders, Ken Tabor, Estelle DeVooght, Mike LaPointe, Scott Emerson and Steve Kinnunen

Absent: Tom Shaw

Others: Doug Riley, Director of Planning and Research

I. MEETING CALLED TO ORDER

Chairperson Sanders called the meeting to order at 7:33 p.m.

II. PUBLIC HEARINGS

Rezoning #122 - Wotring - M-28 East, west of Dana Lane - R-1 to C-3

Chairperson Sanders opened the public hearing at 7:33 p.m.

Planning Director Riley gave a brief overview of the proposed rezoning request. The request is to rezone four (4) vacant acres from R-1 (Residential) to C-3 (Commercial/Light Industrial). This property is located on the south side of M-28 between Timbercrest Nursery and Dana Lane. Planning Director Riley reviewed the map of the area noting the surrounding zoning and land uses. The applicant has indicated that he is seeking the C-3 zoning in order to construct mini-warehousing on the parcel, however, Planning Director Riley cautioned that the Township cannot condition a rezoning on a specific land use but that if the property is rezoned it would be eligible for any permitted C-3 uses.

Roger Wotring - (Applicant) - E-813 Hwy. M-28 - gave a lengthy presentation on his rezoning request. Mr. Wotring provided the rationale for his request and stated that his only interest in the parcel was for mini-warehousing. In order to demonstrate this he has also already submitted a conditional use application for mini-warehousing. Mr. Wotring presented a map showing the buffers he would leave to the adjoining residential neighborhood and a poster containing reasons why he believes the Planning Commission should recommend approval of his request. Mr. Wotring explained the improvements that he has made to his existing business in Deerton named Roger's Classic Cars. He stated that this proposed business will not be an eyesore. Mr. Wotring read from a handout he provided the Planning Commissioners and referred to the Planning Commission portion of the Township's website and their obligations as referenced there. Mr. Wotring also read the intent section of the R-1 District and indicated that he would even be in compliance with this. There would be no pollutants allowed on the property.

Mr. Wotring indicated that if he does anything other than mini-warehousing on the property, he would deed the property over to the Township.

Mr. Wotring reviewed his arguments for approval as contained on his poster which stated:

- Clean up property to compliment area.
- Preservation of trees on east property line.
- Privacy fencing - Colored green.
- Front entry gate with pass card security system.
- Very minimal traffic.
- No pollutants.
- On-site retention ponds.
- Night motion lighting - Defused away from residential properties.
- No septic or ground water usage.

Mr. Wotring read the recommendation from Planning Director Riley's memorandum and thought it was unfair that he recommended denial.

Charles Hudson - 104 Dana Lane - Mr. Hudson indicated that he has lived here for 23 years and previously cleaned up this property. He is 100% against the proposed rezoning. It is right behind his home and there is no buffer. He believes Mr. Wotring's business in

Deerton is an eyesore. Indicated that there is already enough noise and disruptions to the Dana Lane neighborhood.

Gordon Uren - 116 Dana Lane - Mr. Uren indicated that his property abuts the property in question. He is opposed to the request because he fears the applicant will do exactly as he proposes. Fencing does not screen. There would be no monitoring or regulating. There would be noise and lights 24 hours a day. He does not feel it would be in compliance with the Comprehensive Plan or the Zoning Ordinance. The second scenario is what if the applicant does not do what he says? Once it is zoned C-3 it is C-3 and can be used for many other uses. The Township can not contract zone. Mr. Uren presented photographs taken of other existing C-3 Districts and all of the photos were taken from R-1 District properties. All of these uses and outdoor storage would be permitted. Mr. Uren indicated that he had lived at his residence for 25 years. Most of the commercial in the area was not there, or has changed, since he moved there. Who knows what else might come to this property five to ten years in the future.

Bob Harrington - 1467 E. M-28 - Mr. Harrington indicated that he has lived here 29 years. He is concerned with the vehicle traffic. He lives straight across M-28 from the property and headlights would hit his house. Regardless of what is proposed now, businesses change over time.

Kim Erickson - 120 Dana Lane - Mr. Erickson presented photos to the Planning Commission of other existing C-3 Districts. This property can be sold or used differently than from what is proposed. He witnessed a meteor shower the other night and he could lose this ability if additional lighting is proposed on this property. This is really a quality of life issue.

Dale Ollila - 105 Dana Lane - Against the rezoning for the reasons given.

Paul Fleischman - 112 Dana Lane - Mr. Fleischman indicated that he just bought his property and would not have bought it if he had known this property would be rezoned to C-3.

Barbara Glass - 101 Dane Lane - Against rezoning.

Cecilia Fleischman - 111 Dana Lane - Ms. Fleischman indicated that she just bought her home and would not have bought it if she had known this property may go to C-3. Concerned about her property value.

William Beckman - (Property Owner) - 1719 Woodland, Marquette - Mr. Beckman indicated that it appears that all of the adjoining property owners want him to leave this property as is in order to protect theirs. There are still laws of review even if the property is rezoned. It certainly is not fair that he has to leave his trees.

With no further public comment, Chairperson Sanders closed the public hearing at 8:22 p.m.

Conditional Use #60A - Silta - Mini-Warehousing - Corner of US-41 and S. Big Creek - Request for amendment of original approval.

Chairperson Sanders opened the public hearing at 8:23 p.m.

Christal Silta (Applicant) gave a brief overview of her request to amend her original conditional use permit. She believes this new proposal is much more desirable because the buildings are away from the residential.

With no further public comment, Chairperson Sanders closed the public hearing at 8:26 p.m.

III. APPROVAL OF THE MEETING MINUTES

Estelle DeVooght moved, Ken Tabor seconded that the July 8, 2002 Minutes be approved as presented.
Aye 6, Nay 0. Motion approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Bill Sanders moved, Mike LaPointe seconded that the agenda be approved as presented. Aye 6, Nay 0. Motion approved.

V. PUBLIC COMMENT None

VI. OLD BUSINESS

A. CONSIDER –CHOCOLAY WOODS – PROPOSED SITE CONDOMINIUM- FINAL PLAN

Planning Director Riley indicated that Mr. Hubbard had obtained Health Department approval of the proposed Site Condominium project. The Township Attorney has also reviewed the project and his comments were forwarded to the Planning Commission. That review did not discover anything really new but indicated the items that needed to be addressed prior to final approval of the project by the Township Board.

Scott Emerson moved, Ken Tabor second, that the Planning Commission approve the final site condominium plan for Chocolay Woods with the following conditions:

- 1) That the developer address the points contained in the Township Attorney's letter of July 29, 2002, prior to Board approval of the Final Plan.
- 2) That the developer amend the By-Laws to encourage/require downward directed shielded dusk to dawn lights.

Aye 5, Nay 1, Motion Approved.

B. CONSIDER – AMENDMENT TO BY-LAWS - ADDITION OF PUBLIC PARTICIPATION POLICY (Handout for meetings)

Chairperson Sanders explained the rationale for the public participation policy and the need to make the rules clear and available to the public. Emerson indicated that these policies were largely a written document outlining the way meetings have been conducted by the Planning Commission. The key is to make them available as a handout, along with the agendas, for the meetings.

Ken Tabor moved, Steve Kinnunen second, that the Planning Commission amend Article XI (Rules of Order) of the Planning Commission By-Laws to add the attached Public Participation Policy which will be utilized for future meetings.

Aye 6, Nay 0. Motion Approved.

VII. NEW BUSINESS

A. Rezoning #122 - Wotring - M-28 East, west of Dana Lane - R-1 to C-3

Chairperson Sanders thanked Mr. Wotring for his presentation. He also stated that he does not doubt his stated intent for what he desires to construct on his property. However, Michigan law does not allow contract zoning, it is illegal and the Planning Commission must look at all allowed uses on the property. Stated that he believes that some of the permitted C-3 uses are not compatible to the residential abutting this property.

At the request of the Planning Commission, Planning Director Riley reviewed the Township Comprehensive Plan Decision Map and explained the overlay category of properties designated for "Intensive Use" and read page 140 of the Comprehensive Plan.

Steve Kinnunen moved, Mike LaPointe second, that following the review of Rezoning request #122, and the Staff/File Review, the Planning Commission recommends DENIAL of Rezoning #122 to the Township Board to rezone said property from R-1 to C-3 due to:

- 1) It would be contrary to the guidelines of the Comprehensive Plan.
- 2) The rezoning would allow light industrial in very close proximity to the existing residential development to the east.

3) The property can be reasonably utilized under the existing R-1 zoning.

Aye 6, Nay 0. Motion Passed

Scott Emerson indicated that a lot of very valid points have been made and he likes a lot of what Mr. Wotring proposes. We also need to give due consideration to the residents that live in this neighborhood 24/7. It is too bad that there is not some other alternative. If he lived in that neighborhood, however, he probably would not feel it is appropriate either.

Sharon Wotring (Applicant) - Stated that other trees could be planted, perhaps hardwoods. It will be very secure. They would provide extra buffers. Someone could build a house on it and cut down all the trees.

William Beckman (Property Owner) - If he cuts all the trees down on the property, the residents will already have the view of C-3.

Chairperson Sanders called a 5 minute recess at 8:50 p.m.

Chairperson Sanders called the meeting back to order at 8:55 p.m.

B. Conditional Use #60A - Silta - Mini-Warehousing - Corner of US-41 and S. Big Creek - Request for amendment of original approval.

Planning Director Riley reviewed the proposed changes from the original plan. Staff's only concern was in regards to drive access to the property. Planning Director Riley met with MDOT's Chuck Lindstrom at the property and reviewed the drive alternatives. The two best scenarios are to either construct the drive access off from Big Creek Road or utilize the existing drive to the north in front of the Manthey property. This would result in no new access being constructed off from US-41.

Mike LaPointe moved, Bill Sanders second, that after review of Conditional Use request #60A and the standards of Section 701 and subsequently finding compliance with the standards for approval of the request, the Planning Commission approves Conditional Use Permit request #60A with the following conditions:

- 1) That any lanes providing access to storage doors be left with a 20' unobstructed area to allow customer access/maneuvering as well as for providing access for emergency vehicles.
- 2) That the applicant provide the Fire Department with a final set of building plans detailing the fire breaks within the buildings.
- 3) That the proposed security lighting shall be designed to reflect light downward and away from adjoining residential properties in accordance with the requirements of Section 500 of the Zoning Ordinance.
- 4) That drive access shall be off from S. Big Creek Road via a frontage road concept or shall utilize the existing drive on the parcel to the north as permitted by the Michigan Department of Transportation or the Marquette County Road Commission as applicable.
- 5) That the applicant obtain a zoning compliance permit from the Township Zoning Administrator.

Bill Sanders asked to add a condition that the applicant submit the lighting fixture details for staff review against the Ordinance standards prior to placement. This additional condition was added to the motion.

Aye 6, Nay 0. Motion Passed.

C. Site Plan Review #02-1 - Parkway Motel - Renovation of Motel Site - Parking/Landscaping Modifications

Planning Director Riley provided a brief overview of the history of the project and why the site plan is now in front of the Planning Commission. Overall, staff is very pleased with the improvements to the property as part of the motel conversion to a Knights Inn franchise. There are three site plan elements that the Planning Commission is reviewing. The parking lot expansion, landscaping, lighting.

Scott Emerson indicated that he believes the changes that have been made are a positive addition to the US-41 commercial corridor. He also likes the idea of changing over all of the parking lot light fixtures to the new cut off style. Perhaps an agreement can be made to change over to the new style within 18 months.

Steve Wahlstrom (Applicant) - Stated that he could agree in principal to this but would need to know more of the details (costs, etc.).

Scott Emerson indicated that he was aware of some of the problems the large pines pose for buildings with falling limbs, etc.. Suggested the planting of some oak trees within some of the landscape areas.

Steve Wahlstrom indicated that he will do some more landscaping but it is a money issue at this point. He has a landscaping plan from Timbercrest that he would like to implement as money becomes available.

Bill Sanders suggested a condition that the lights should eventually change over.

Scott Emerson suggested changing over the new lights first.

Steve Wahlstrom stated that he would rather change over the old lights first since they were more visible.

Bill Sanders moved, Scott Emerson second, that after review of the standards of Section 504 and subsequently finding compliance with the standards for approval of the request, the Planning Commission approves Site Plan Review Request #02-1 with the following conditions:

- 1) No additional changes or expansions to the parking area are permitted without first going through site plan review.
- 2) No truck or vehicle parking other than what is ancillary to the motel or restaurant is permitted.
- 3) That the new parking lot lights will be converted within nine months.

Aye 6, Nay 0. Motion Passed.

VIII. SUB-COMMITTEE REPORTS: None

IX. PLANNING DIRECTOR'S REPORT

Planning Director provided updates on the following:

- 1) Corridor Plan - Maps displayed on wall.
- 2) Cluster Zoning - Private Roads
- 3) Revenue Sharing
- 4) Community Center Millage
- 5) Letter from MDNR Director regarding railroad grade.

X. PUBLIC COMMENT

Roger Wotring asked the Planning Commission why he was not given a chance for rebuttal to the property owners comments? Why wasn't I recognized? This was not fair. Mr. Wotring indicated that residents are using the property now. He hopes Mr. Beckman now chops every tree down on the property. That's his right. Mr. Beckman cannot use his property for commercial or residential. Mr. Wotring indicated that he will file a formal complaint because he could not offer rebuttal during the meeting. There are no other C-3 parcels for sale. He reviewed the other C-3 parcels in the Township. Chocoy Township is not a progressive community as they proclaim. All of the property owner responses were picky. Why is the Planning Director and the Department of Transportation doing engineering for the other applicant? Indicated that his stuff and cars at his business are not junk. Why did the Planning Commission allow a medical waste facility at the Varvil Center?

Sharon Wotring again asked for the rationale for the denial and reviewed their arguments for the commercial rezoning.

XI. COMMISSIONER COMMENT

Chairperson Sanders asked Planning Director Riley whether Mr. Wotring had paid for a conditional use application, and if so, should it be refunded? Mr. Riley indicated that he had not paid the fee he only submitted the application.

Discussion ensued regarding the Community Center and the millage defeat. Chairperson Sanders recommended Planning members attend the Board meeting on the 19th where this item will be discussed.

XII. INFORMATIONAL ITEMS

XIII. ADJOURNMENT

Chairperson Sanders adjourned the meeting at 10:20 p.m.

Estelle DeVooght, Commission Secretary

Douglas Riley, Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
OCTOBER 14, 2002**

Present: Commissioners: Ken Tabor, Estelle DeVooght, Mike LaPointe, Scott Emerson and Steve Kinnunen

Absent: Bill Sanders and Tom Shaw

Staff: Doug Riley, Director of Planning and Research, Lee Snooks, Director of Recreation and Grants Administration

I. MEETING CALLED TO ORDER

Vice-Chair LaPointe called the meeting to order at 7:30 p.m.

II. PUBLIC HEARINGS : None

III. APPROVAL OF THE MEETING MINUTES

Steve Kinnunen moved, Ken Tabor second, that the August 12, 2002 Minutes be approved as presented.

Aye 5, Nay 0. Motion approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Ken Tabor moved, Steve Kinnunen second, that the agenda be approved as presented. Aye 5, Nay 0. Motion approved.

V. PUBLIC COMMENT

Doug Riley read a letter dated October 7, 2002 from John Smith that was submitted to the Planning Commission that he requested be read during Public Comment. The letter pertained to contractor yards and commercial vehicle parking and complaints regarding the Township's handling of these issues.

Mark Maki, 370 Karen Road, Mr. Maki refuted several points made in Mr. Smith's letter regarding enforcement actions and costs. Mr. Maki also addressed additional zoning violations that still need to be addressed and that he would provide a list.

Cathy Peterson, 6341 US-41 South, Commented on Mr. Maki forgetfulness as related to his handling of her address for her home.

VI. OLD BUSINESS - None

VII. NEW BUSINESS

A. Presentation - Sam Ledebuhr - Eagle Scout Project - Brower Property

Sam Ledebuhr gave a 20 minute power point presentation on his Eagle Scout Project for the Brower property. Mr. Ledebuhr also presented a black bear informational display to the Planning Commission that will be put up on the Brower property.

The Planning Commission thanked Mr. Ledebuhr for all the hard work that he has completed in putting together a good plan for the Brower property. The Planning Commission complemented all those that were involved in this project.

B. Consider - Private Road Request #17 - Shimon - Waiver request to cul-de-sac requirement

Planning Director Riley gave a brief overview of Ms. Shimon's waiver request to reduce the standard cul-de-sac size as she can now only construct one home off the private road per the Zoning Board of Appeals condition. Therefore, the private road largely functions as a private driveway.

Ms. Shimon indicated that she proposes to construct a 40' x 40' gravel turnaround at the end of the road in place of the standard cul-de-sac.

Ken Tabor moved, Scott Emerson second, that the Planning Commission recommend approval of Ms. Shimon's cul-de-sac waiver request with the condition that the Fire Department comment on her proposal prior to Board action.

Aye 5, Nay 0, Motion Approved.

C. Update on DNR Planning Meeting for Railroad Grade

Scott Emerson gave the Planning Commission an update on the DNR's first "Advisory Committee" meeting regarding the Wisconsin Central Railroad grade that was held on October 10th. Mr. Emerson indicated that the meeting was not held in expected fashion according to the guidelines of the Michigan Trailways Act and the DNR's own promises. The advisory committee went into an "emergency mode" at the first meeting on the need for an East to West snowmobile route across the U.P.. The advisory committee made a quick vote to recommend that the grade through Chocolay Township be utilized as a snowmobile route yet this winter on a "test basis". This recommendation was made despite Mr. Emerson's objections as the representative from Chocolay Township on several grounds.

D. Update on Community Center

Lee Snooks gave the Planning Commission an update on the Community Center and the activities that are occurring. He also invited the Planning Commission to attend the public forum on the Community Center scheduled for Wednesday, October 23rd at 7:00 p.m.

E. Update on US-41 Corridor Plan

Planning Director Riley gave the Planning Commission a brief update on the Corridor Plan and the fact that U.P. Engineers and Architects has been selected to complete the mapping and design work based upon the two proposals that were submitted in response to the request for proposals. They will be working on the project over the next few months.

Cathy Peterson, 6341 US-41 South, expressed her concern that Planning Commissioner Bill Sanders works for U.P. Engineers and Architects and she believes this could be a conflict of interest.

Doug Riley indicated that Mr. Sanders would probably not be able to vote on the Corridor Plan decisions as a Planning Commission member while the project is being completed.

IX. PLANNING DIRECTOR'S REPORT

Planning Director provided updates on the following:

- 1) Rezoning #122 - Wotring
- 2) Gibbs Well Testing
- 3) Street Lights
- 4) LaJuenesse Home Occupation Application to ZBA
- 5) Request for review of 300' notification requirement for rural areas

X. PUBLIC COMMENT - None

XI. COMMISSIONER COMMENT

The Commissioner's discussed sending out appropriate thank you letters to Sam Ledebuhr and all others involved in the Browers Property project.

XII. INFORMATIONAL ITEMS

XIII. ADJOURNMENT

Vice-Chair LaPointe adjourned the meeting at 9:00 p.m.

Estelle DeVooght, Commission Secretary

Douglas Riley, Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
DECEMBER 9, 2002**

Present: Commissioners: Ken Tabor, Estelle DeVooght, Mike LaPointe, Bill Sanders and Tom Shaw

Absent: Scott Emerson and Steve Kinnunen

Staff: Doug Riley, Director of Planning and Research, Randy Yelle, Zoning Administrator and Denny Magadanz, DPW Supervisor.

I. MEETING CALLED TO ORDER

Chair Sanders called the meeting to order at 7:30 p.m.

II. PUBLIC HEARINGS: None

III. APPROVAL OF THE MEETING MINUTES

Ken Tabor moved, Mike LaPointe second, that the October 14, 2002 Minutes be approved as presented.
Aye 5, Nay 0. Motion approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Bill Sanders noted that in New Business he asked to be excused as Chair as he is presenting the US 41 Corridor Plan. At this time Mike LaPointe will take over as Chair for the Planning Commission meeting.

Doug Riley asked the Planning Commissioners if they would prefer to move the Planning Commission meetings for 2003 from 7:30 to 7:00 P.M? They discussed the change and decided to leave it at 7:30 P.M. for 2003.

Mike LaPointe moved, Estelle DeVooght second, that the agenda be approved as presented and the 2003 meeting schedule remain at 7:30 P.M.
Aye 5, Nay 0. Motion approved.

V. PUBLIC COMMENT

Bill Sanders asked if anyone wanted to reserve time, limited to 5 minutes, for any of the New Business items? John Smith asked for time to speak during (D) Joint Board/Planning Commission Meeting in January. John Sandin asked for time to speak during (C) Railroad Grade – Court Hearing.

VI. NEW BUSINESS

A. Presentation/Discuss – US 41 Corridor Plan

Mike LaPointe took over as Chair. Bill Sanders from UP Engineering presented the draft project plans for the US 41 Corridor. He stated that the reasons for looking at improving this corridor are safety, increase the capacity of the highway, aesthetics, and better snow removal. Bill Sanders explained the plans through the entire corridor. The primary focus would be on the left-hand turns, which are the main cause of car accidents in the Township. He stated they would have a five-year plan and a twenty-year plan. For the five-year plan, the north side of the highway 51 driveways would be reduced to 37. It would make this section of US 41 much safer. They are looking at developing a connecting road behind the businesses near the rock cut to make accessibility safer. Sanders also explained the possible frontage roads on the corner of US 41 and M-28. The MDOT highway engineer will review this plan for compliance before any further action is taken.

Tom Shaw asked about the width of the new projected corridor? Bill Sanders said the current width is 65' and the plans for the new road would be 105' at the widest section. Tom agrees with the plan to reduce left turns for safety reasons.

Doug Riley explained the conceptual plan is for twenty years, but UP Engineers were also asked to come up with a five-year plan. This plan will be forwarded to the County Road Commission and MDOT. Then the Township will look at the final draft and have a Public Hearing before considering adopting the plan. To get grant dollars, we must have a plan in place. It also helps us (the Township) as properties re-develop.

Mike LaPointe asked if MDOT would allow an access road within the right of way? Doug Riley said they could by going through a process.

Snow removal was discussed. Bill Sanders noted that we have good winter maintenance of the roads here, but as it is the center lane can be dangerous. With the boulevards it may be kept cleaner and safer.

Estelle DeVooght noted it would take longer to make these crossovers in comparison to just making a left turn. Bill Sanders said in making a left turn you have to wait for oncoming traffic, and in making a merge move with traffic it is much safer than crossing traffic.

Bill Kimmes stated that Marquette Township wishes they had some frontage roads connecting businesses. It is expensive to change the road system after the businesses have been developed.

Doug Riley noted that we are working closely with Marquette Township and MDOT as part of the Corridor Management Team. Doug Riley asked Lee Blondeau how this corridor plan would affect his trucking business? Lee Blondeau noted that it could be a traction problem for his trucks on the turns. He noted that frontage roads are the best solution and control on the number of access turns off the corridor.

Mike LaPointe thanked Bill Sanders for the presentation and said he thought we were off to a good start. Bill Sanders said any additional comments should go to Doug Riley before December 23rd. Doug Riley stated that he will give this information to Steve Kinnunen and Scott Emerson so they can comment before it goes to MDOT.

B. Introduction of New Zoning Administrator

Chair Bill Sanders introduced Randy Yelle as the new Zoning Administrator. Doug Riley noted that Randy has been working for about a month now, and was able to go to one Zoning Board of Appeals meeting. Randy Yelle is a good addition to the Township.

C. Update - Railroad Grade –Court Hearing

Doug Riley gave an update on the court hearing held Wednesday, December 4th. The Township requested a preliminary injunction, and the DNR was granted a week extension. On December 11th Judge Solka will make a decision. The Township presented a brief regarding local zoning. Testimony was given by Ivan Fende regarding other routes for the snowmobile trail, Mark Maki gave testimony regarding zoning and property values, and three other residents gave testimony regarding the nuisance elements. Doug Riley noted that the Michigan Townships Association may help us in this court matter as appropriate.

John Sandin stated there are 10 signs near his home for snowmobiles within a 800' span. He said it looks like a snowmobile freeway. This is in a residential area. He thinks it is ridiculous. We need to have some enforcement on our zoning laws. Can we propose speed bumps along the trail; after all automobile traffic has speed limits? It is not safe.

D. Joint Board/Planning Commission Meeting in January

John Smith stated that (1) Bob LaJeunesse, Jr. was not pleased regarding the motion approved by the Zoning Board of Appeals that the Township can give a short notice and show up to inspect his property. They could call at midnight and show up. If you own lots of land, you should be able to do anything you want with it. You should be able to park any vehicles as long as people cannot see them. (2) Regarding the complaints made during the trial; John Smith feels the person making the complaint should be made to sign their name. There may be a personal neighbor problem and people could make complaints without giving their name. Unless the Township gets two or three

complaints, he does not feel that action should be taken. John Smith does not like anonymous complaints. (3) Regarding Carlson Tree Service; the equipment has been moved to another site. The Township needs to discuss this issue with both the Board and the Planning Commission and come up with a solution. (4) There are many hard working business people in Chocolay, some have businesses like Mr. Kimmes and park their work vehicles at their homes. They should not have to have a home occupation permit.

The Planning Commission determined to suggest to the Board a joint Board /Planning Commission Meeting for January 13, 2003 at 7:30 P.M. It was suggested that the Township Supervisor and Planning Commission Chairman set the agenda.

E. Expanded public hearing notice requirement for certain zoning districts

Doug Riley explained that there was a suggestion from the Zoning Board of Appeals for the Planning Commission to discuss and decide on this issue. This would not include all zoning districts, only the large districts (e.g. RR-2). The current notice requirement is 300' and the proposed would include all properties within 600'.

Estelle DeVooght and Mike LaPointe disagree with expanding the notice requirement in the different zoning districts like RR-1. They think it should be left at 300'. All commissioners agreed.

VII. PLANNING DIRECTOR'S REPORT

Planning Director provided updates on the following:

- 1) DEQ Coastal Management Grant was received.
- 2) Winter recreation – Denny Magadanz said the ski trail has been groomed and there are now hockey boards around the hockey rink at the Lions Field.
- 3) Randy Yelle's schedule is Tuesday and Thursday 9:00 A.M. to 3:00 P.M. plus some floating hours.

VIII. PUBLIC COMMENT - None

IX. COMMISSIONER COMMENT

Estelle DeVooght asked why Bob LaJeunesse, Jr. doesn't park his vehicles in his back parcel?

Lee Blondeau stated it is not right that the Township can inspect Bob LaJeunesse's property any time with a very short notice. Estelle DeVooght said as a farmer she lives with inspections done by numerous agencies without notice.

Bill Sanders said this was Zoning Board of Appeals decision and not the Planning Commission.

Lee Blondeau said the Zoning Board of Appeals was given a petition from all of Bob LaJeunesse's neighbors that parking of his commercial vehicles did not bother them. Bill Sanders noted that there is a process for all residents to go through with the Zoning Board of Appeals in approving a home occupation permit. Estelle DeVooght thought maybe there was something the Planning Commission could do to help Bob LaJeunesse with this issue. Doug Riley said parking of commercial vehicles in residential areas should be discussed at the joint meeting in January.

Bill Kimmes said he was concerned because he has commercial vehicles parked at his home, and many other residents are also concerned. Kimmes said the Township should be here to serve the people, not be against the people. He said he watched a Zoning Board of Appeals tape and feels that Bob LaJeunesse was treated badly at the meeting. Bill Sanders was surprised at Kimmes' comment. Bill Sanders is on the Zoning Board and said he feels Bob LaJeunesse was treated fairly, and was not treated unfairly. John Smith noted that the Planning Commission can change the ordinance language. John Smith videotaped the ZBA meeting and has a number of copies if anyone wants to view it. Bill Sanders said the Zoning Board of Appeals has a process that everyone has to go through for a variance or special permit, the process works. Everyone is treated the same. Bob LaJeunesse obtained approval. He did get less than what he was asking for, but he was approved. This happens to residents who come to the Zoning Board of Appeals.

People don't always get what they ask for. Bob LaJeunesse was granted permission to do part of what he was asking for. The process is not terrible as is the perception being touted. If we significantly change or eliminate the zoning ordinance, this Township would be in trouble. Ken Tabor said the Township has set limits for the good of all residents. Bill Sanders noted that he believes persons coming to the Zoning Board of Appeals are treated with dignity. Sanders said he is not ashamed of how Bob LaJeunesse was treated at the meeting, people are making this out to be worse than it really was. He asked John Smith why he was spreading this misconception?

Tom Shaw ended the meeting by saying that he is glad that everyone in this Township cannot do as they please, we need to have rules and regulations to live together in harmony.

X. ADJOURNMENT

Chair Bill Sanders adjourned the meeting at 9:20 P.M.

Estelle DeVooght, Commission Secretary

Cathy Phelps, Recording Secretary

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
FEBRUARY 10, 2003**

Present: Commissioners: Bill Sanders, Ken Tabor, Estelle DeVooght, Steve Kinnunen and Tom Shaw

Absent: Scott Emerson and Mike LaPointe

Staff: Doug Riley, Director of Planning and Research, Denny Magadanz, DPW Supervisor, Lee Snooks, Director of Recreation and Grants and Cathy Phelps, Recording Secretary.

I. MEETING CALLED TO ORDER

Chair Sanders called the meeting to order at 7:30 p.m.

II. PUBLIC HEARINGS: None

III. APPROVAL OF THE MEETING MINUTES

Ken Tabor moved, Tom Shaw second, that the December 9, 2002 Minutes be approved as presented.

Aye 5, Nay 0. Motion approved.

Steve Kinnunen moved, Estelle DeVooght second, that the January 13, 2003 Joint Meeting Minutes be approved as presented. (See Board Minutes)

Aye 5, Nay 0. Motion approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Bill Sanders moved, Steve Kinnunen second, that the agenda be approved as presented.
Aye 5, Nay 0. Motion approved.

V. PUBLIC COMMENT – None

VI. NEW BUSINESS

A. Consider – Lot Split Request #14 Diloreto – Main Street

Doug Riley explained the request for this lot split on property located on the north side of Main Street west of the Chocoley Shores Apartments. He noted that ten years ago it was not approved for a lot split because it created a landlocked parcel, which is in violation of the lot split ordinance and zoning ordinance. This problem has been resolved. Proper notification was given to adjacent property owners. Only one comment was received from Dave and Alma Thomas with no objection. Randy Yelle, Zoning Administrator, gave a written memo stating he sees no reason not to allow the split.

Bill Sanders asked the commissioners for comments. Sanders felt it was straightforward. It would now go to the Board on Monday, February 17th. There was no further discussion.

Bill Sanders moved, Ken Tabor second, that the Chocoley Township Planning Commission recommend to the Chocoley Township Board that Lot Split #14 be approved.

Aye 5, Nay 0. Motion approved.

B. Discuss – Commercial Vehicle Parking in Residential Areas/Home Occupations – Follow up from the Joint Board/Planning Commission meeting

Doug Riley explained the draft language prior to scheduling the public hearing on a formal Zoning Ordinance text amendment with his memo and Section 107 Ordinance.

Steve Kinnunen noted that is was straightforward.

Doug Riley suggested that the Planning Commission round 26.3 feet to 27 feet, and the three places in the language would be replaced with 27 feet.

Bill Sanders questioned the fees for Home Occupation. Doug Riley said there will be a review of the fee schedule.

Bill Sanders noted in “d” under HOME OCCUPATIONS the specific examples of customary personal vehicles. He said it spells out clearly what low impact home occupations are allowed, and others will be reviewed individually. He questioned the amount of fees again and notifying neighboring property owners. He thought a small fee or no fee would be appropriate.

Steve Kinnunen stated that the fee covers the cost of the required publication notice.

Doug Riley said this language may not be perfect, but they want to keep it as simple as possible but yet understandable.

Tom Shaw noted it is much more flexible now.

Bill Sanders asked if everyone thinks this language looks okay, and if they want Doug Riley to proceed with the public notice for the next meeting for Public Hearing then a motion is needed.

Steve Kinnunen moved, Bill Sanders second, that the commissioners accept the proposal that Doug Riley has presented with the addition that he comes back with a recommendation on the fees and that there is a public notice for a Public Hearing at the next Planning Commission meeting including the amendment of vehicle length from 26.3 to 27 feet in three areas in the language.
Aye 5, Nay 0. Motion approved.

C. Discuss – Election Signs

Doug Riley said five suggestions were discussed at the joint meeting in January; having property owner’s permission to place a sign, limiting placed signs to 30 days, removal of signs within 3 to 5 days following the election, one identical sign per lot or property, and a sign deposit fee of \$100.00 prior to placing signs out.

Doug Riley noted that clean up of signs after elections has been a problem in the Township, along with multiple signs on one lot or property.

Don Britton said many signs are left in the Township from the August Primary to the November General Election.

Bill Sanders moved, Ken Tabor second, that we submit the election sign language that Doug Riley presented for Public Hearing at the next Planning Commission meeting.
Aye 5, Nay 0. Motion approved.

D. Discuss – Munising to Marquette Rail to Trail Advisory Committee – Chocloy Township Representative Recommendation

Doug Riley explained that Scott Emerson could not make this meeting and requested the Planning Commissioners review Scott Emerson’s recommendations regarding the uses of the railroad grade. There are a few typos in the draft that need to be corrected.

Steve Kinnunen moved, Bill Sanders second, that the Planning Commission support Scott Emerson’s recommendation from Chocloy Township after the typing corrections are made and this be sent to the Munising to Marquette Rail to Trail Advisory Committee prior to their February 26th meeting.
Aye 5, Nay 0. Motion approved.

E. Consider – Silver Creek Recreation Area – Recreation Plan Amendment and Grant Application

Lee Snooks explained that the current Recreation Plan does not expire until December 31, 2003. We need to update this plan now in order to apply for a DNR grant to be submitted before March 21st. This is a matching grant and the Township would be responsible for 25% to 35% of the total cost. The grant can be turned down if the Township decides against it. The change is a combination of the three following actions:

- 1) The Recreation Sub-Committee recommended changes at its January 8, 2002 meeting.
- 2) A survey research study of Chocolay Township Recreation Facilities conducted by NMU.
- 3) Chocolay Township staff recommendations.

Steve Kinnunen noted that once grant money is awarded it is available for two years.

The recommended amendment to the 1998 Recreation Plan:

Silver Creek Recreation Area

Short Term

- 1) Continue maintenance programs
- 2) Expand parking facility for the soccer field users
- 3) Expand the current irrigation system to the ball field
- 4) Relocate Tot-Lot from its present location to an area adjacent to the soccer field
- 5) Construct covered dug outs for ball field players
- 6) Construct toilet facilities near soccer field

Long Term

- 1) Review existing trail system for improvements and expansion
- 2) Develop a site for the trail system
- 3) Construct the trail system according to the site plan

Steve Kinnunen moved, Ken Tabor second, that the Planning Commission reviewed the proposed recreation plan amendment to the 1998 Chocolay Township Recreation Plan for the development of the Silver Creek Recreation Area and the Planning Commission supports the amendment changes and grant application.

Aye 5, Nay 0. Motion approved.

VII. PLANNING DIRECTOR'S REPORT

Planning Director provided updates on the following:

- 1) Railroad Grade – DNR has filed its appeal.
- 2) MTA – Temporary amended order to allow limited snowmobile use as part of the UP 200 Dog Sled Races.
- 3) Private Roads/Cluster Development – continue to work on.
- 4) Roger Wotring may make application shortly on a PUD.
- 5) 41 Corridor Plan. MDOT has received it, we have received no comments yet.

VIII. PUBLIC COMMENT - None

IX. COMMISSIONER COMMENT - None

X. ADJOURNMENT

Chair Bill Sanders adjourned the meeting at 8:08 P.M.

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
MARCH 10, 2003**

Present: Commissioners: Bill Sanders, Ken Tabor, Estelle DeVooght, Steve Kinnunen, Mike LaPointe and Scott Emerson (7:45)

Absent: Tom Shaw

Staff: Doug Riley, Director of Planning and Research, Denny Magadanz, DPW Supervisor, Randy Yelle, Zoning Administrator and Cathy Phelps, Recording Secretary.

I. MEETING CALLED TO ORDER

Chair Sanders called the meeting to order at 7:30 p.m.

II. PUBLIC HEARINGS: None. Bill Sanders noted that this meeting would function as a work session on the Commercial Vehicle Parking in Residential Areas/Home Occupations issue and on Election Signs.

III. APPROVAL OF THE MEETING MINUTES

Estelle DeVooght moved, Ken Tabor second, that the February 10, 2003 Minutes be approved as presented.

Aye 5, Nay 0. Motion approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Steve Kinnunen moved, Ken Tabor second, that the agenda be approved as presented. Aye 5, Nay 0. Motion approved.

V. PUBLIC COMMENT

Walt Racine- US 41 South – What is the deal with the election signs?
Bill Sanders noted he will explain the notice and the proposed changes.

Dick Arnold – West Branch Road – What is the status of his junk car petition?
Doug Riley said it was presented to the Board. The Board has decided to include that question on their community survey which will be discussed at their next meeting. They wanted to obtain some direct citizen opinion on that issue.

Elaine Hogan – US 41 South – Wants to speak on the election sign ordinance.

VI. OLD BUSINESS

Bill Sanders explained that the commercial vehicle parking/home occupation issue has been in front of the Planning Commission several times. It was on the agenda for the Joint Meeting. The language needs work, and this will be a work session to help make decisions on the confusing aspects of the ordinance. Also there is a concern with the language in the election sign ordinance. There is no good mechanism set up to have the election signs cleaned up at this time. A deposit system has been proposed. The deposit would only be made by a candidate or political party group, not individual residents. After the election is run, the group or candidate would pick up all their signs and their deposit would be returned to them.

A. Public Meeting – Commercial Vehicle Parking in Residential Areas/Home Occupations – (Follow up from Joint Meeting)

Doug Riley detailed the proposed ordinance changes. He noted no one has ever been cited regarding parking a commercially signed customary size vehicle at their home. Larger vehicles have caused many debates. The current proposal is to be able to park one 27' or smaller vehicle without approval (e.g. standard size UPS van). If you have more than one or if it is larger than 27' it would require review/approval by the Planning Commission. The Home Occupation language proposed would allow most home occupations that have no exterior evidence without any review. It would also provide a method of review for more intense

home occupations to be approved by the Planning Commission. If any Home Occupation does not comply with the four standards, it would require review and approval by the Planning Commission (taking into account the zoning district, size of the property, adjacent land uses, screening and other factors). The adjacent homeowners would be notified so they would have an opportunity to comment. This will create more flexibility than what the Ordinance currently allows.

Bill Sanders asked for comments from the public.

John Trudeau – Cedar Lane – He is concerned with permitting commercial vehicles up to 27' in a residential area. They must be hidden or screened in some way, it would be improper to leave the large vehicle in the open.

Dick Arnold agrees, but it should depend on the area. In residential areas they should be hidden.

Lee Blondeau said going by the GVW (Gross Vehicle Weight) makes sense to him. It is the carrying weight plus the vehicle weight and it is marked on each vehicle. A CDL license is needed to drive a vehicle over 26,000 GVW.

Ken Tabor suggested using both weight and length to make the determination.

Dick Arnold agrees. His truck would fit into that category by length, but not by the GVW.

Don Britton said the vehicle type can vary considerably if you just use one method to make a determination.

Bob LaJeunesse said the GVW is noted on each vehicle, and can be identified on the license plate.

Bill Sanders said if someone parked a large truck on a small lot in a residential neighborhood, the neighbors would be sure to complain. The size matters more than the weight.

Steve Kinnunen noted that the size and weight are not the real issue, it is whether the vehicle is compatible in the neighborhood.

Lee Blondeau said they are discriminating by not regulating motor homes – a use difference not a size difference. He said he just wants to see a fair shake. He provided a handout to the Planning Commissioners.

Bill Sanders said they would not get into the past issues that Lee Blondeau suggested. Bill Sanders stated that customary sized vehicles with commercial signage were not in violation of the zoning ordinance. When a vehicle parked in residential areas reaches a certain size or weight, that is the issue at hand.

Bob Attwell feels that the standard UPS van is too big to be parked in a residential area and that weight and length should both be considered.

John Trudeau referred to his memo. The Kodiak truck he used for an example is 16,000 lbs. and would be too large for a residential area, the zoning ordinance should not be that liberal. This larger vehicle would be offensive.

Bill Sanders thought there should be a different scale for the R-1 district.

Bob LaJeunesse agreed that there should be a different scale, it should depend on where you live.

Don Britton stated that a 27' vehicle is large, and it could incorporate a number of types of trucks.

Bill Sanders suggested in R-1 districts it should be reduced to a 25' vehicle and/or 16,000 GVW. In other districts, it should be limited to a 27' vehicle and no GVW limit.

Lee Blondeau gave an example of a Charter truck which is over 16,000 GVW, it is more like 22,000 to 22,500 GVW.

John Trudeau said he thinks if it is over 16,000 GVW it should be hidden.

Dick Arnold felt it should be determined by size not GVW.

Lee Blondeau wants Chocolay Township to be user friendly for people with businesses. If a vehicle is out of sight, what other limitations do we need? He said it was all about aesthetics.

Ken Tabor noted that the neighborhood input is needed, they have the right to make comments.

Bill Sanders gave an overall summary of the consensus of the Planning Commission:

It is to limit the size of commercial vehicles to one 25' or smaller truck or van not exceeding 16,000 GVW with no review process in the R-1, R-2 and R-3 Districts. If vehicles are larger than 25' and/or larger than 16,000 GVW it needs to be reviewed by the Planning Commission. In the other residential zoning districts leave at the 27' length.

Bill Sanders noted that there will be a public hearing as part of the formal Ordinance amendment process.

Estelle DeVooght said she believes the height of a vehicle should be taken into consideration also.

Steve Kinnunen said that it was straightforward. People will know what is permitted.

Bill Sanders asked for Home Occupation comments at this time. He said this would no longer be approved by the Board of Appeals. It will allow the Planning Commission more discretion.

Walt Racine asked a hypothetical question to clear it in his mind, if someone was building a hunting blind in their basement would they need to get a Home Occupation Permit?

Bill Sanders said that would not apply, unless they were making a number of them and selling them as a business.

Scott Emerson also added if they have a sales/retail display they would need a Home Occupation Permit.

Bill Sanders said if there is no exterior evidence that there is a business in the home, it does not apply.

Doug Riley noted if someone complains, Randy Yelle, the Zoning Administrator would investigate.

Lee Blondeau asked about enforcement, how we would go about checking into homes? Do you look into their records for employees? Doesn't the Township want economic activity?

Bob LaJeunesse thinks the 320 sq. ft. should be expanded in an accessory building.

Scott Emerson agreed. He thinks 600 sq. ft. is reasonable.

Doug Riley said that a Home Occupation is supposed to be a secondary use of your home and should not change the residential character of the area.

Ken Tabor said this needs more review but agreed with 1/4 of a family dwelling and 1/2 of a accessory building.

Steve Kinnunen thought it may open it up too much.

Don Britton said we want to be user friendly.

John Sandin asked if trailers were considered in the same category as commercial vehicles? If there is more than one, is a review by the Planning Commission needed? Don Britton said if they are licensed they are considered a vehicle. Walt Racine asked about campers and boats, and if there was a limit on size and numbers parked in your yard? Bill Sanders said this ordinance language is only for commercial vehicles parking in residential areas only

Bill Sanders brought up the Home Occupation Permit fee issue. He said they have been kicking around the fee amount. The neighboring property owners within 300 feet would be notified.

Doug Riley noted that it averages the Township between \$65 and \$85 to put the notice in the paper and complete the mailing to all property owners within the 300 feet area. The Township now recoups none of that money, as there is no fee for a Home Occupation Permit at this time. He noted that a Variance and Conditional Use Permit cost is \$75.

Dick Arnold said he feels the person applying for the permit should pay for all of it. He asked why the taxpayers should pay for getting their home business permit?

Bob LaJeunesse said that as a taxpayer too, he feels the person applying should pay perhaps \$50.00.

Walt Racine questioned if someone has a home business right now, do they have to get a permit?

Bob LaJeunesse asked whose job is it to check on these home businesses, is it the business owner or the Township?

Bill Sanders feels that it is the business owner who should come to renew his permit. He feels that a \$75 fee is too high. Estelle DeVooght agreed, saying that it may scare small business owners away.

Bob Attwell said he thinks \$75 is fair, if they have money to start a business they should have enough to pay for a permit.

Walt Racine suggested a \$75 fee for the initial permit and \$50 for the following permits every three years afterward.

Scott Emerson suggested an initial \$75 permit fee, and unless there was a change in the business, the owner could just renew by letter to the Township without a second fee. If there were a change, the owner would come in for a review.

B. Public Meeting -Election Signs

Doug Riley said this was an issue discussed during the Joint Meeting in January. He explained the current ordinance and the proposed changes.

John Trudeau agreed that the clean up of signs after an election is a problem, but he feels it is a freedom of speech issue and feels we could control it in other ways. He said there is no coordination within political party groups to put signs out. He suggests groups/political parties register their signs with the Township. The Township would give them stickers to put on their signs with their name and contact information on the stickers. He said there would be a problem controlling

groups from out of the area from coming in and putting up signs. In public areas, if the stickers were not on a sign, the Township could then remove the sign. To reclaim your sign put up improperly, the fee would be \$3.00 per sign fee.

Bob LaJeunesse asked who would be responsible for picking up the signs? He said the DPW Department is so busy working on other projects.

Bill Sanders suggested publishing our requirements in the local paper and going with the deposit. The checks would just be held by the Township, and the owners would get their check back if they properly took down their signs. He felt the sticker suggestion was too complicated and time consuming to be checking for stickers on every sign.

John Trudeau said it would not be fair if a political party paid their deposit and lost it because outside groups came in with the same type of sign and did not pick them up after the election.

Estelle DeVooght felt the deposit system would not work.

Scott Emerson said you must get permission for private landowners to put signs up on their property. The property owner will remove the sign or at least they will know whom to contact to have them removed.

Dick Arnold asked how many signs were left out after the last election?

Bill Sanders said Tom Shaw had picked up 75 signs himself and paid to have them taken to the dump.

Bob LaJeunesse said he doesn't want his tax money used for the Township to pick up signs.

Ken Tabor said we should go with the five days removal time after an election.

Bill Sanders said some things just cannot be fixed, and this may be one of them.

It was a consensus to make the following changes to the proposed amendment:

- a) A \$100 sign deposit feeomit it completely
- b) Approval of the landowner as proposed
- c) Signs may not exceed 32 sq. ft. as proposed
- d) Signs may not be placed any earlier than 30 days prior to the electionchange it to 45 days and to keep the removal within 5 days after the election.

John Trudeau noted that at intersections, height of signs is very important. He explained the sign size/dimensions he thought would work for the Township

Ken Tabor suggested changing the wording to c) Signs may not exceed 32 sq. ft. and no side can be longer than 8 ft. and it was suggested to omit the following wording "only one (1) identical sign shall be placed on any individual lot or property".

Bill Sanders complimented everyone on the comments given, and the helpful manner in which everyone participated and worked together.

Bill Sanders called for a two minute break at 9:26 P.M.

VII. NEW BUSINESS

A. Discuss – Cluster Development/Open Space Preservation Provisions – Public Act 177

Doug Riley explained Public Act 177 was State Legislation and we must include Open Space/ Cluster Zoning provisions into our Ordinance He would like to get the commissioners' ideas on six possible additions to our language in his memo. These are their ideas during the discussion:

- 1) Review Procedure: All thought the site plan submittal requirement and the conditional use review process were appropriate.
- 2) Density Determination: It is extra expense for the developer/the unbuildable area is not included in the plan/the parallel plan is good, they get a better analysis/get the best financial plan/needs more options/use a simple density calculation for plans of less than 6 homes.
- 3) Density Bonus: Do we need # 3 and #4? Either one/or both? Like density bonus for leaving forests for production/economic implications as large acreages have been broken down through the years.
- 4) Private Roads: Use a density bonus to affect roads-can make them shorter and improve the initial construction/decreases maintenance/sell more homes and preserve more land.
- 5) Recreational Amenities: All agreed that it could be used to promote nature trails, tennis courts, baseball fields as part of the larger developments.
- 6) Setbacks: Limit no homes closer than 300 ft./or have homes near the roads and the forested areas can be contiguous to other lots/every lot can be different, depends on lay of land/ have minimum size lots/need septic approvals, which problems may take care of themselves.

Doug Riley will put together language for the next meeting that the Commissioners can look at. The commissioners are asked to call him with their thoughts/comments for the draft.

VIII. PLANNING DIRECTOR'S REPORT

Planning Director provided updates on the following:

- 1) Corridor Plan
- 2) MDOT repairing the bridge on Big Creek on US 41 - US-41 will be closed this summer which may cause heavier traffic along Cherry Creek and Little Lake Road- Potential damage to Little Lake Road between 480 and 41.

IX. PUBLIC COMMENT

Walt Racine asked when Chocolay Township would be opened up to commercial development? He asked about a public water supply being put into the Township? If we do not have public water, we will not attract businesses. He has potential well contamination, but yet his taxes went up. He believes the State, Odovero, and the Indian reservation would have given money for the public water supply and along with the grants the Township turned down, we could have had public water in Chocolay.

Bill Sanders said Chocolay Township has always welcomed commercial businesses, and he knows nothing about money that was offered to pay for a water system. Cost is the factor in the public water supply.

Lee Blondeau asked about the Zoning Ordinance requirements regarding the DNR facility on Cherry Creek and Ford Road? He questioned the parking of commercial vehicles in the residential zoned area and their repair facility? Others questioned a chemical storage building and a fire hose drying facility.

X. COMMISSIONER COMMENT

Scott Emerson noted that the DNR Trail Advisory Committee meetings are done. Bill Sanders thanked Scott Emerson for all the time and work he put into it.

XI. ADJOURNMENT Chair Bill Sanders adjourned the meeting at 10:15 P.M.

Estelle DeVooght, Commission Secretary

Cathy Phelps, Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION

April 14, 2003

Present: Commissioners: Bill Sanders, Estelle DeVooght, Steve Kinnunen, and Scott Emerson

Absent: Tom Shaw, Ken Tabor and Mike LaPointe.

Staff: Doug Riley, Director of Planning and Research, Denny Magadanz, DPW Supervisor and Cathy Phelps, Recording Secretary.

I. PUBLIC HEARING CALLED TO ORDER

Chair Sanders opened the Public Hearing at 7:33 p.m.

II. PUBLIC HEARINGS:

A. Rezoning #123 – Zoning Ordinance Text Amendment – Commercial Vehicle Parking in Residential Areas/Home Occupations

Bill Sanders read a letter from Mark Maki of 370 Karen Road. He gave comments regarding the following: defining would be appropriate, retail businesses in residential areas is not in character, accessory buildings are not in character, parking commercial vehicles and businesses in residential zones.

John Smith of 2176 M-28 E. spoke regarding commercial vehicle definition, motor homes and that ordinary persons wouldn't know what the GVW is on their vehicles. He suggested keeping the ordinance simple and having it state "ordinary accessory use if properly screened". He was concerned who will make the determination.

John Trudeau of 216 Cedar Lane suggested that perhaps a clearer definition of a commercial vehicle was needed in the proposed changes.

B. Rezoning #124 – Zoning Ordinance Text – Election Signs

John Smith said he has not seen a sign problem. He feels the local people do a great job, that it is the outsiders that cause the problem. He reserved time during Old Business – Rezoning #124.

The Public Hearing was closed at 7:45 p.m.

III. MEETING CALLED TO ORDER

Chair Sanders opened the Meeting at 7:45 p.m.

IV. APPROVAL OF THE MEETING MINUTES

Steve Kinnunen moved, Scott Emerson second, that the March 10, 2003 Minutes be approved as presented. Aye 4, Nay 0. Motion approved.

V. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Bill Sanders moved, Scott Emerson second, that the agenda be approved as presented. Aye 4, Nay 0. Motion approved.

VI. PUBLIC COMMENT – None

VII. PRESENTATION – Noquemanon Trail Network

Craig Stien said their group has been in existence for three years, and they have been working on developing a regional non-motorized trail system. They work with all the non-motorized groups (hiking, biking, kayaking, cross-country skiing, etc.) They have received tremendous public support. They have raised \$80,000 and have about 300 members at this time. He said their master plan is the reason he is at the Choccolay planning meeting tonight. He explained what they could do for the Township, and we

could do for them. They have lots of experience in working on trails and they can help us plan and develop trails in Chocolay. They can also help us in getting grants. They are a voice for non-motorized sports. They spoke to the DNR as a non-motorized group regarding the railroad grade through Chocolay Township. We can work together in a master plan for clean, quiet sports. They have volunteers set to help work on trails. He asked the Planning Commissioners if they would give a Resolution of Support?

Mr. Stien was open to questions at this point. He was asked what the trail surfaces are? Mr. Stien said most were made of natural materials (road gravel). Some are paved, but this is very expensive. They work with volunteers in clearing and leveling the trails. They are not asking for money, but of course would take it if offered. They have received no government funding up to now. They have uniform signage along the trails. Asked if we could get the same type of signage here in Chocolay? Mr. Stien said. "yes we could get the same. It is a blue sign with an arrowhead used for directional signs. They also have welcome signs. They would love to connect the non-motorized trail system all the way to Munising. They have close ties to Michigan Rails to Trails. They do have a website, which will be updated shortly.

Scott Emerson Moved Bill Sanders Second that the Planning Commission adopts the following:

**CHOCOLAY TOWNSHIP PLANNING COMMISSION
RESOLUTION OF SUPPORT**

WHEREAS, defining and projecting an image of a livable physically active community is an essential component of economic and community development; and

WHEREAS, the Noquemanon Trail Network Foundation is a board comprised of local citizens interested in a regional, multi-use, year round, non-motorized land and water trail network for silent sport recreation; and

WHEREAS, the Noquemanon Trail Network Foundation board has demonstrated the importance of a livable physically active community to economic and community development.

NOW THEREFORE BE IT RESOLVED that the Chocolay Township Planning Commission fully supports the endeavors of the Noquemanon Trail Network Foundation to advance the regional, multi-use, year round, non-motorized land and water trail network project and will look to incorporate it's concepts into the Chocolay Township Recreation Plan and other planning documents.

Aye 4, Nay 0. Motion approved. A letter will be send to the Noquemanon Trail Network and also to the Board.

VIII. OLD BUSINESS

A. Consider – Rezoning #123 – Zoning Ordinance Text Amendment – Commercial Vehicle Parking in Residential Areas/Home Occupation

Sanders noted that after discussion, the Planning Commission will make a recommendation, which will go to the County for review and then to the Township Board.

Discussion centered on the public comments/suggestions from the public hearing. The Planning Commission determined it should retain language regarding "retail" not being permitted as part of a home occupation. Planning Director Riley recommended retaining the 1st sentence of item #4 of the existing home occupation language.

Scott Emerson Moved, Bill Sanders Second that the Planning Commission recommend approval of Rezoning #123 to the Township Board for a text amendment to Zoning Ordinance #34 under SECTION 107 ACCESSORY USES AND STRUCTURES to amend the Home Occupation Provisions and to establish a Commercial Vehicle Parking in Residential Districts section as follows:

Section 107 (A) - Home Occupation Provisions - The existing language shall be deleted and replaced with the following:

Section 107(A) - HOME OCCUPATIONS

Home occupations that are permitted without any Township review or approval required include any home occupation that does not have any exterior evidence, other than the permitted sign, and complies with all of the following:

- a) Is conducted entirely within an enclosed dwelling but does not occupy more than 1/4 of the floor area of the residential single family dwelling unit on the property or not more than 1/2 of the square footage of an accessory structure.
- b) Home occupations shall employ only those inhabitants residing on the premises.
- c) A sign shall not exceed four (4) sq. ft. in area and shall be attached to the building used for the home occupation or a two (2) sq. ft. sign may be placed in the yard.
- d) Commercial vehicles or personal vehicles with signage are permitted to be parked in association with the home occupation as long as they are of customary personal vehicle size (e.g. cars, trucks, vans, etc.). Up to one (1) 25 foot or smaller truck or van not exceeding 16,000 GVW (Gross Vehicle Weight) may be parked at a residence in the R-1, R-2, R-3 and R-4 Districts in conjunction with the home occupation. Up to one (1) 27 foot or smaller truck or van may be parked at a residence in all other residential zoning districts in conjunction with the home occupation.
- e) Specifically excluded is the storage and display of merchandise not produced by such home occupation or any activity similar to a generally recognized retail store or service establishment as permitted in any commercial district.

Any Home Occupation that does not comply with items a) through d) above requires review and approval by the Township Planning Commission under the provisions of Section 701 (Conditional Use Permits). Home Occupations reviewed by the Planning Commission shall be reviewed to assure that the use or structure does not become contrary to the public health, safety, or welfare or the spirit and purpose of this Ordinance. In completing this review, the Planning Commission shall take into account the zoning district, the size of the property, distance to adjacent land uses, screening, buffering, and other factors. The Planning Commission may attach conditions, including any time limit for future review, as warranted.

Section 107 - Add a new Section (D) - COMMERCIAL VEHICLE PARKING IN RESIDENTIAL DISTRICTS as follows:

COMMERCIAL VEHICLE PARKING IN RESIDENTIAL DISTRICTS

- 1) Commercial vehicles, or personal vehicles with signage, are permitted to be parked at a residence as long as they are of customary personal vehicle size (e.g. cars, trucks, vans, etc.) without any Township review or approval required.
- 2) Up to one (1) 25 foot or smaller truck or van not exceeding 16,000 GVW (Gross Vehicle Weight) may be parked at a residence in the R-1, R-2, R-3 and R-4 districts without any Township review or approval required.
- 3) Up to one (1) 27 foot or smaller truck or van may be parked at a residence in all other residential zoning districts without any Township review or approval required.
- 4) Any larger commercial vehicles or equipment, or for more than one (1) vehicle as specified in item 2) or 3) above requires review and approval by the Township Planning Commission under the Home Occupation provisions of the Ordinance. (This does not include equipment used for one's own snowplowing, farming, etc.).

During the discussion Bill Sanders noted that we have been working on this since January and had lots of participation from residents. The people that are affected by this seem to be supportive of the changes. Scott Emerson stated that John Smith's ideas could cause more problems. The amended rules and regulations are not arbitrary. John Smith wanted to simplify it. Steve Kinnunen said this controls the size and weight of vehicles being driven through

neighborhoods. It gives everyone a fair shake. A question was asked why a large size house (rich person) is able to use more space for business than a small house (poorer person), so only the rich get richer? Bill Sanders stated that Home Occupations are not for large businesses. This is just for small, non-evident home businesses. Scott Emerson noted that the IRS categorizes businesses in this same way (percentage of square footage).

Aye 4, Nay 0. Motion approved. This recommendation now goes to the County Planning Commission.

B. Consider – Rezoning #124 – Zoning Ordinance Text Amendment - Election Signs

John Smith spoke after reserving time. He feels the local (county) people are not the problem, but the outsiders are the cause of signs being left after elections. He feels this is an infringement on free speech. The State has a limit of 90 days and the Township is cutting the time in half. What right do we have to limit the time? Scott Emerson asked John Smith what his suggestion would be? John Smith suggested 60 days.

Scott Emerson does not feel this is a free speech issue; if we would not allow signs at all then it would be a free speech issue. We have the right to limit the time as the city of Marquette also limits signs to 45 days. He then asked John Smith that since he feels that 45 days is an arbitrary number, wouldn't 60 days also be?

Bill Sanders moved, Steve Kinnunen second that the Planning Commission recommend approval of Rezoning #124 to the Township Board for a text amendment to Zoning Ordinance #34 under SECTION 805 EXEMPTIONS FROM SIGN REGULATIONS to amend the Election Sign provisions as follows:

Section 805 - Election (Political) Sign Provisions - The existing language shall be deleted and replaced with the following:

Section 805 - Election Signs

Political signs which are intended to advertise a public election, issues to be balloted upon in that election, or to promote individuals and/or parties participating in an election are permitted as follows:

- a) Approval of the landowner or occupant must be obtained prior to sign placement. Signs must be placed in accordance to Michigan Department of Transportation or County Road Commission setback rules as applicable.
- b) Signs may not exceed 32 square feet and no side may exceed 8' in length.
- c) Signs may not be placed any earlier than 45 days prior to the election and must be removed within 5 days after the election.

Aye 4, Nay 0. Motion approved.

C. Discuss – Draft Cluster Development/Open Space Preservation Provisions – Public Act 177

Doug Riley stated that this draft language was a combination of actual language from Public Act #177, Marquette Township's adopted language and ideas that were discussed at the March meeting. This is a statewide promotion for efficient use of land.

Bill Sanders asked if feedback from other planning groups had been solicited on this specific language, specifically on the density bonus provisions? Riley indicated that he will send it out to other planning groups for their comments. All agreed to look at keeping it relatively simple; we do not want this to be cumbersome. We have non-commercial forests, a similar scenario to the farmland downstate, and perhaps the preservation of these forest areas can be tied into this.

Estelle DeVooght asked how this Cluster Development tied in with the land conservatories? Isn't this doubling up? Doug Riley said they may promote one another. Bill Sanders said we are moving in the right direction.

IX. NEW BUSINESS - None

X. PLANNING DIRECTOR'S REPORT

Doug Riley spoke on three items. 1) On April 21st there is a Land Use Leadership Meeting at 3:00 and 6:00 p.m. at NMU, 2) Agendas and Minutes for the Planning Commission, Zoning Board of Appeals and the Board meetings are now on our Township website. 3) The Little Lake Road will be an official detour while the County works on the bridge near County Road 480 and US 41 South scheduled for this summer. They will improve Little Lake Road to accommodate the increased traffic at MDOT expense.

IX. PUBLIC COMMENT

Randy Gentz asked what the website for the Township was? Doug Riley noted it was www.upsell.com/choctwp.htm

Doug Riley noted that we now have more frequent updates. Meeting schedules and Minutes are posted in the Township office, the community center, the Fire Hall, Northern Michigan Bank, Wells Fargo Bank, Jacks IGA, Kassel's Korner and First of Negaunee Bank.

X. COMMISSIONER COMMENT – None

XI. ADJOURNMENT Chair Bill Sanders adjourned the meeting at 8:50 P.M.

Estelle DeVooght, Commission Secretary

Cathy Phelps, Recording Secretary

CHOCOLAY TOWNSHIP PLANNING COMMISSION
May 12, 2003

Present: Commissioners: Bill Sanders, Estelle DeVooght, Tom Shaw, Mike LaPointe and Ken Tabor

Absent: Steve Kinnunen and Scott Emerson.

Staff: Doug Riley, Director of Planning and Research and Cathy Phelps, Recording Secretary.

I. PUBLIC HEARING CALLED TO ORDER

Chair Sanders opened the Public Hearing at 7:37 p.m.

II. PUBLIC HEARINGS:

A. Special Use Permit #3 – Carl Besola – Mining Permit (Sand) – Youn property at the end of Valley Road

Bill Sanders said this is a public hearing for a special use permit, a recommendation will be determined tonight and will be given to the Board on May 19th.

Doug Riley read over the application for the mining permit and showed the district zoning map explaining that this area is zoned RP (Resource Production) and the lots need to be 20 acres or larger. Proper notification has been made to the property owners within ¼ mile of the property. Doug Riley noted the problems involved with this operation in the past were primarily dust and noise. He read three letters from nearby property owners who were concerned about the sand mining and he also noted one phone call he received regarding the noise and dust. The Road Commission responded that they would like to see dust control measures implemented on the haul route (Valley Road). The Soil Conservation District indicated that a permit from their office is needed and they have been in contact with Mr. Besola.

Bill Sanders opened the public hearing to those attending.

Earl Yelle, Sands Township Supervisor, stated Sands Township has no problems with the mining permit.

Gretchen Preston of 993 Valley Road asked the people who opposed the permit to stand. Most of the audience stood.

Sam Mahoney of 981 Valley Road presented the Planning Commission with pictures of the existing area showing junk cars, oil cans, and miscellaneous debris. He stated there is no top soil left where Carl Besola had mined before. He asked if the water quality had been tested, how much oil is in the water supply? The noise can be heard ¼ a mile away. Neighbors cannot leave their windows open the dust is so thick and the noise is constant from the shaker. Who is going to pay for the damage it causes? Does the DEQ check on Mr. Besola? Could he put a bond down to cover damages he causes? What about lowering of their property values? Please invite Mr. Besola to leave.

Bill Sanders stated that we must have respect for one another at this meeting.

Carl Besola of 6262 US 41 South noted the oil cans were used to haul water and the shaker does not run continuously. There is a lot of top soil left, and he plants trees. The so called facts these people are telling the Planning Commission are not true. The mining pit has been there for years, he has purchased a larger truck than he used before. The Soil Conservation District has been there to check on the area. He does not speed along the road.

Fanice Wuepper of 1075 Cherry Creek Road stated that the fine sand dust could cause hardening of the lungs after long time exposure. She questioned the requirements of state regulations. She noted the Township can be more strict, but

cannot be more general. How many cubic yards does Mr. Besola haul per year? Is he 1500 feet from the nearest well and 500 feet from the nearest county road? What will the policy be for inspecting Mr. Besola? It will grow and property values will lessen. Will the Township be responsible for this? She would like to see a site plan and a survey done.

Joanne Clarke of 950 Valley Road noted that Valley Road is a dead-end road. She said she has a lung condition and her son is an asthmatic. The dust is a problem especially for them. Mr. Besola runs his trucks even when the road restrictions are on. He drives too fast, she has almost been run off the road. She does not want the noise from Mr. Besola's shaker. He runs it even on Sundays. She has fought for five years to keep him out. She said 1 or 2 of the people are here to make money, the others are here to protect the air they breathe. Joanne requested that the Planning Commission members go down Valley Road and see it for themselves. It is a country gravel road with blackberries and raspberries growing, kids playing; just a typical country setting. But what is it going to be like when Mr. Besola is done? Will the people have health problems caused from the dust? Please let it remain country.

Tracy Feliz of 996 Valley Road noted this is a neighborhood where they raise their children, have pets and entertain their friends. They like to hear the birds and see the deer. She wants the Planning Commission to keep this in mind when making their decision on the mining permit. Please do not allow him to get the permit.

Joan Mulder of 1034 Cherry Creek Road said she owns 40 acres and enjoys riding her horses. Mr. Besola's shaker is so loud that she has to wear earplugs. She said the shaker runs non-stop. She is sick of the noise. Mr. Besola is mining within 1500 feet of their well. They want to be able to enjoy their home.

James Youn of 998 Valley Road questioned the black topping of Valley Road? He also noted that even bikes kick up dust on the road.

Carl Besola noted he never runs the shaker on a Sunday, he obeys the Sabbath Day.

John Rhodes of 655 Cherry Creek Road said he has lived there for 19 years. Trucks travel that road every day of the week. Why has it taken so long to get to this point since Mr. Besola has not had a permit? He has several witnesses to the fact that Mr. Besola runs his shaker at 7:00 a.m. and drives his trucks too fast.

Carl Besola said not all the trucks on Valley Road are his. Between 7:00 and 8:00 a.m. he spends his time on the phone at home. He is not on the roads.

Tim Preston of 993 Valley Road said the traffic has accelerated lately. Where is the end? Will there be more trucks and more noise? What will happen to their property values?

Matthew DeBreuil of 975 Cherry Creek asked if the Township can verify the amount of sand removed by Mr. Besola? Will he be forced to clean up? What about posting a bond for expenses? He said he lives a half mile away and can hear the shaker. Can the shaker be insulated for sound? He asked about how many trips per day it would take to haul out 1000 cubic yards in a season, and asked how that could be measured and controlled? He asked what will the Township be left with in that area after ten or twenty years?

Larry Wilson of 600 Cherry Creek Road said a gravel road will kick out dust. He does not hear the shaker. He asked if the DNR flies over, and if they have taken any pictures of the area? He said the pictures would show if there is a problem.

Devin Mahoney of 981 Valley Road said there are many children in the area. Their health and safety should be taken into consideration. When a truck goes by and you are along the road, the dust hangs in the air for many minutes, it is hard to breathe.

The property owner to the southeast questioned mineral rights? He believes there are no mineral rights in the U.P. Why are gravel pits different? He believes you cannot sell minerals from your land for profit. It was never legal. He would like the board to address this.

Carl Besola noted that Mr. O'Dovero has his own gravel pit.

James Mager of 770 Lakewood Lane owns land in Sands Township near this area. He stated that someone is near his land looking for sand and leveling areas.

Sarah Clarke, daughter of Joanne Clarke of 950 Valley Road noted that buses go the speed limit on Valley Road, but the trucks hauling sand speed through the neighborhood and kick up lots of dust. It is a narrow road, which should be black topped.

Diane Mahoney of 981 Valley Road said the shaker is loud all day long. The dust is terrible, especially when the trucks with trailers travel along Valley Road. She cannot open the windows of her home. The truck drivers go way too fast along Valley Road.

Russell Prather and Carol Phillips of 990 Valley Road said that the shaker is very loud and goes for hours. The noise gets on your nerves. This is noise pollution. The quality of life is going down in that area. It is hard not to get emotional about it, our homes are a large investment.

Robin Rohoy of 975 Valley Road said she has three children and worries about the danger of them being hit by the trucks. The kids in that area have a false sense of security and she worries that something may happen if the trucks do not slow down.

Marvin Brewall of 682 Cherry Creek Road said Mr. Besola has the right to make a living.

James Youn said he moved here in 1936, they used to walk or ski out to catch the bus. The road was graveled at one time, but now the gravel is long gone.

Bill Sanders said the Planning Commission would decide on their recommendation tonight; whether to deny, approve or table the recommendation. The Township Board, after receiving the recommendation, will discuss and they will then be the final authority on the permit. If tabled, someone asked what happens then, does Mr. Besola have the right to mine the sand? Bill Sanders said not without a permit if more than 1000 cubic yards is removed. He closed the Public Hearing at 8:30 p.m.

III. MEETING CALLED TO ORDER

Chair Sanders opened the meeting at 8:30 p.m.

IV. APPROVAL OF THE MEETING MINUTES

Estelle DeVooght Moved, Tom Shaw Second, that the April 14, 2003 Minutes be approved as presented. Aye 5, Nay 0. Motion approved.

V. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Bill Sanders Moved, Estelle DeVooght Second, that the agenda be approved as presented. Aye 5, Nay 0. Motion approved.

VI. PUBLIC COMMENT

Carl Besola said he began his business with two trucks, and use generally just one at a time. He does not plan to add more trucks. County roads are not a place for children to be playing on. Drivers should always leave 500 feet of spacing between themselves and the truck in front, never tailgate. He could move his shaker closer to Roger Welchs'

property to try to help the noise pollution problem. He purchased a water tank to water Valley Road to keep the dust down.

Joanne Clarke asked about the assessments of their property. Will taxes be lowered because of the problems they have in that area? They also have to pay to keep their vehicles repaired from all the ruts, which are caused from the large trucks.

VII. NEW BUSINESS

A. SPECIAL USE PERMIT #3 –Carl Besola – Mining Permit (Sand) – Youn property at the end of Valley Road.

Bill Sanders said he understands that emotions are running high. But we must respect each other and try to come to some common ground that both sides can live with. Without a permit, Carl Besola was not regulated. He has now come in with a permit application to use the land as zoned. With the approval of this application, we can now put conditions on it.

Doug Riley explained the mineral rights issue. He said it was a private matter and it is in the deed of the owner of the land. The Township cannot legally get involved with that issue. How we can we enforce the limit of sand removed? He does not have an answer. The Zoning Administrator can work with Carl Besola, but there is no magic way to verify that amount. The 1500-foot distance to the nearest well will be looked into further. The reclamation plan could be reviewed after three years.

Carl Besola said his permit from the Conservation District is pending at this time.

Estelle DeVooght noted that the Planning Commission had a similar situation with Blondeau in the past. She could not remember the details.

Bill Sanders noted that Carl Besola signed the application and has agreed to maintain dust control. Asked if the mining permit transfers to new property owners if the land is sold, Bill Sanders said the special use permit is not forever. He said we must set conditions on this permit in the RP zoned district. But the owner has a right to mine it, especially since it has been previously mined for years. Let's try to find a common ground. He said the Zoning Administrator could try to measure the material hauled by the number of trucks. Carl Besola said many times he runs the truck with just a half a load. Estelle DeVooght suggested hiring a surveyor figure the amount of sand in an area. He can take less than 1000 cubic yards without a permit. Carl Besola stated that this pit has the best sand for backfill and septic fields. He said the maximum he could take per year would be 1500 to 2000 yards. He would probably average 1800 cubic yards per year. The old pit can be used as it is grandfathered in.

Carl Besola said that he uses the shaker for topsoil. He can move it if it upsets so many people. He can run it for three days a week; Monday, Tuesday and Wednesday only. If that doesn't work he will remove it.

Mike LaPointe recommended the following conditions:

1. Haul Monday through Friday 8:00 a.m. to 5:00 p.m. only. May to November only.
2. Shaker used Monday, Tuesday, and Wednesday 9:00 a.m. to 4:00 p.m. It will be moved to the center of the property within a month.
3. Watering the road to reduce the dust, at Carl's discretion.
4. Have a reclamation plan within 6 months.
5. Slope and re-seed, etc. (30% slope)
6. 500 foot buffer on all sides of the property.
7. 1500 feet from the nearest well.
8. Hire a surveyor to measure the pit once per year.

Discussion centered on the issue of topsoil removal and processing. The Planning Commission determined that this could best be controlled by limited shaker hours being permitted.

Bill Sanders asked Carl Besola if he would abandon the old pits? He said that may go a long way to mend the ill-feelings. Carl Besola said the old pit has some stone (pea-gravel) he does not want to abandon it because it is grandfathered. It insures his future. Bill Sanders said any complaints could be given to Randy Yelle at the Township office. Randy Yelle will give Carl Besola notice to correct the problem. If not corrected, the permit could be revoked.

Bill Sanders Moved, Ken Tabor Seconded, that after consideration of Special Use Permit #3 for a Mining and Mineral Extraction Permit for sand as provided in the standards of Section 407 of the Chocoday Township Zoning Ordinance, the Planning Commission recommends approval to the Township Board with the following conditions:

- 1) That the applicant complies with all elements of his application unless otherwise noted in these conditions.
- 2) That the applicant apply dust control measures as needed on the haul routes to prevent dust from impacting property owners.
- 3) That an 800' buffer be maintained along all property lines where no excavation shall take place and the buffer is left in its natural state including trees already on site.
- 4) The shaker shall only be utilized between the hours of 10:00 a.m. and 3:00 p.m. two days per week, not on weekends.
- 5) That excavated areas shall be reclaimed, per item 8 of the application, within 6 months after excavation in a particular area has ceased.
- 6) That the applicant obtains a soil erosion permit as required by the Soil Conservation District.
- 7) That the applicant have surveyed and submit to the Township once per year a certification of the volume of material removed.
- 8) That the maximum limit of material removed from the site is 1800 cubic yards per year.
- 9) The clearance to the nearest well be maintained at 1500 feet or must be approved by the Zoning Board of Appeals.
- 10) The shaker will be relocated to the approximate center of the property within 30 days after approval of the permit application.
- 11) That this permit is valid for a period of three (3) years after which time the Planning Commission shall review the permit to determine the need for new/amended conditions.

Aye 5, Nay 0. Motion approved. This recommendation will now go to the Township Board for their May 19, 2003 meeting at 7:00 p.m.

B. Lot Split Request #15 – David Bussier – 401 Green Bay Street

Doug Riley said this lot split request is very basic. This property is part of the original 1800's plat of the village of Harvey. Mr. Bussier of 401 Green Bay Street is requesting the split. Notification was sent to the adjacent property owners with no responses. This lot split will clear up some confusion between property owners. Both parcels will remain non-conforming based on lot area requirements.

Mike LaPoint Motioned, Ken Tabor Second that the Chocoday Township Planning Commission recommend to the Chocoday Township Board that Lot Split #15 be approved with the following conditions:

- 1) The Township is making no findings as to actual property line locations.
- 2) That the piece of property being split is combined into the legal description of the neighbor's parcel to the south.

Aye 5, Nay 0. Motion approved. This now goes to the Chocoday Township Board on May 19th at 7:00 p.m.

VIII. PLANNING DIRECTOR'S REPORT

A copy of the County Planning Commission recommendation on the recent zoning text amendments were provided to the Commissioners.

IX. PUBLIC COMMENT – None

X. COMMISSIONER COMMENT

Mike LaPointe inquired about potential corridor improvements on US 41 South. Doug Riley said there is a meeting on May 13, 2003 regarding the Corridor Plan.

XI. ADJOURNMENT Chair Bill Sanders adjourned the meeting at 9:55 p.m.

Estelle DeVooght, Commission Secretary

Cathy Phelps, Recording Secretary

Chocolay Township Planning Commission

Monday, July 14th, 2003

Present: Commissioners: Bill Sanders, Estelle DeVooght, Tom Shaw, Mike LaPointe, Steve Kinunen, and Ken Tabor

Absent: Scott Emerson

Staff: Doug Riley, Director of Planning and Research, Lee Snooks, Director of Recreation and Grants Administration, Kathleen Stiles, Recording Secretary

I. PUBLIC HEARINGS

A. **Rezoning #125 - Schaub - Terrace Street - C-2 (Commercial) and R – 1 (Residential) to R – 3 (Residential – Single and Multi – Family)**

Bill Sanders opened the public hearing at 7:35 p.m. Planning Director Riley provided an overview of the rezoning of the Schaub property. He also made reference to the current buildings on the property and how they would be torn down and replaced with three to four apartment buildings. The alley that still technically exists, though while not constructed, will also have to be addressed as part of the site plan process.

Bill Sanders opened the public hearing to those attending.

Jim Tonkin, 308 Corning, stated that he was concerned about the future use of the alleyway.

Mark Brandel, 201 Terrace, stated that he and his wife were concerned about how close the apartment buildings would be built to their existing home.

Doug Riley then showed drawn plans of what the apartment buildings would look like. There was then some discussion about if these apartments would be sold or used as rentals and the Schaub family stated that they would be sold. Doug Riley also stated that Planning Commissioner Emerson also called supporting the rezoning. (A letter was also submitted to the Planning Commission from Calvert and Rose Gentz, 234 Corning against the rezoning).

Bill Sanders then closed the public hearing at 7:45 p.m.

B. **Special Use Permit #4 – Wittler – U.S. 41 – Mining Permit for the excavation of sand**

Chairperson Sanders opened the public hearing at 7:45 p.m. Planning Director Riley provided an overview of the requested permit. Planning Director Riley indicated that this site had been approved for a mining permit for sand in both 1999 and again in 2001 in order to obtain sand for local road construction projects. The applicant would now like to obtain a 5 year permit, the maximum duration allowed under Ordinance before review is required again, in order to have the permit in place when sand is needed for a local road or other construction project. The Township has never received a complaint regarding sand excavation from this site.

No other public comment.

Chairperson Sanders closed the public hearing at 7:50 p.m.

II. MEETING CALLED TO ORDER/ROLL CALL

Chair Sanders then opened the regular meeting.

III. APPROVAL OF THE MEETING MINUTES

Steve Kinnunen moved, Estelle DeVooght second, that the May 12, 2003 minutes be approved. Motion approved

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Bill Sanders moved, Steve Kinnunen second, that the agenda be approved as presented. Motion approved

V. PUBLIC COMMENT

John Trudeau, 216 Cedar Lane, commended Bill Sanders for doing a great job as Chair.

Bill Sanders then closed public comment.

VI. OLD BUSINESS

None

VII. NEW BUSINESS

A. **Rezoning #125 - Schaub - Terrace Street - C-2 (Commercial) and R – 1 (Residential) to R – 3 (Residential – Single and Multi – Family)**

Bill Sanders asked for the overhead again for a review of which area is currently C-2. Discussion centered on whether the leg of property that fronts on Fairbanks (the portion currently zoned R-1) should be included in the rezoning. The Schaub's indicated that they would at least like to have the property up to the hill rezoned to R-3 and perhaps leave the property below the top of the hill zoned R-1 and left undisturbed. Planning Director recommended this option as this was the "usable" portion of the property that would not impact the single family homes on Fairbanks. Many of the site design elements would be reviewed as part of the required site plan review of actual building and parking layouts.

Mark Brandel asked how much of a set back from his property would the rezoning call for and it was determined that it would be ten feet from the property line (where 5' is the current setback under the C-2 zoning). It was also discussed if the remaining R-1 property would leave enough for a building. Mr. Schaub explained that the remaining property would not be developed and that it may be used as a commons area for the apartments.

Kinnunen moved, Shaw second, that following review of Rezoning request #125, and the Staff/File Review, the Planning Commission recommends APPROVAL of Rezoning #125, except that the northern section of property fronting on Fairbanks measuring 150' x 80' shall not be included and shall remain zoned R-1.

Motion Approved

B. **Special Use Permit #4 - Wittler - U.S. 41 - Mining Permit for the excavation of sand**

The Planning Commission discussed the aspects of the application and the fact that the site has operated in the past with no complaints and it is very well buffered from surrounding properties.

LaPointe moved, Tabor second, that after consideration of Special Use Permit #4 for a Mining and Mineral Extraction Permit for sand as provided in the standards of Section

407 of the Chocolay Township Zoning Ordinance, the Planning Commission recommends approval to the Township Board with the following conditions:

- 1) That the applicant complies with all elements of his application.
- 2) That the access road be adequately treated to prevent dust from impacting US-41.
- 3) That the permit is only valid for 5 years (until 2008) and the Zoning Administrator shall check the site annually for compliance with the mining standards of the Ordinance.
- 4) That the applicant obtain a soil erosion permit as required by the Soil Conservation District.

MOTION CARRIED

C. ANNUAL ELECTION OF OFFICERS

DeVooght moved, Shaw second, to keep the same officers for another year.

Motion approved.

D. 2002 ANNUAL REPORT

Bill Sanders moved, Kinnunen second, to approve the annual report as presented.

Motion approved.

E. 2004 PLANNING COMMISSION BUDGET RECOMMENDATION

Doug Riley indicated that he had discussed having the Clerks office take over the financial aspect of the web site, under the Township Board fund category, instead of it being strictly the Planning Commission Department's budgeting responsibility. He also recommended to again request the three thousand dollars for professional services for needed corridor or comprehensive plan update services.

Chair Sanders and Doug Riley will prepare the final proposed Planning Commission budget.

F. REVIEW/DISCUSS- DRAFT RECREATION PLAN UPDATE

Lee Snooks talked about the need to have a new recreation plan for 2005. He and Doug Riley thought that the plan could be presented to the Planning Commission for review a couple of chapters at a time. The first chapters largely stay the same. The majority of change is to the census data from 1990 to 2000. More significant changes will be in the future chapters. This will be used for the purpose of writing grants.

The Planning Commission was encouraged to contact Mr. Snooks with any suggested changes they may have.

PLANNING DIRECTORS REPORT

Update on Corridor Plan

Update on the Community Center and possible move of Township Offices to that facility.

Doug introduced Kathleen Stiles, new Recording Secretary.

VIII. PUBLIC COMMENT

John Trudeau voiced his concerns about changing yet another commercial zoned area into a residential area. He suggested that the township should be trying to get

businesses to come to the Chocolay area and losing commercially zoned property for more residential areas could hurt the possibilities of that.

The Planning Commission discussed the pros and cons of the rezoning with Mr. Trudeau.

IX. COMMISSIONER COMMENT

DeVooght asked whether the Township had heard anything about the State not using and potentially selling off the Prison Farm properties. Perhaps we need to start planning for this possibility.

Planning Director Riley stated that he would check into this and provide a report at the next meeting.

X. INFORMATIONAL ITEMS AND CORRESPONDENCE

XI. ADJOURNMENT

Estelle DeVooght, Commission Secretary

Kathleen Stiles, Recording Secretary

Charter Township of Chocolay

Planning Commission Minutes

Monday, August 11, 2003

7:30 P.M.

Present: Bill Sanders, Estelle DeVooght, Tom Shaw, Mike LaPointe, Steve Kinunen, Scott Emerson

Absent: Ken Tabor

Staff: Doug Riley, Director of Planning and Research, Lee Snooks, Director of Recreation and Grants Administration, Kathleen Stiles, Recording Secretary

I. Public Hearings – None

II. Meeting Called to Order at 7:30 p.m.

III. Approval of Minutes

Mike LaPointe moved, Tom Shaw second, that the July 14th 2003 minutes be approved. Motion approved.

IV. Approval of Agenda

Bill Sanders moved, Steve Kinunen second, that the agenda be approved as presented. Motion approved.

V. Public Comment – None

VI. Old Business – None

VII. New Business

A. Recreation Plan - Review of Chapter 6 (Forwarding of Chapter 7)

Discussion was made regarding incorporating the Noquemanon plan into our Recreation Plan and the possibility of incorporating a Noquemanon sprint ski race on the railroad grade in the Township. There was also discussion about incorporating the proposed Noquemanon Water Trail into the Township for kayaking and canoeing.

B. Land Use Leadership Council

Discussion on Michigan's Land Use Leadership Council's draft recommendations. Discussion centered on how the discussion points apply to Chocolay Township.

VIII. Planning Directors Report

Special Board Meeting - August 13th to determine whether to appoint an interim Supervisor or to delegate the duties until the October 7th Special Election.

Update on the Prison Farm Property.

IX. Public Comment

John Smith - 2176 M-28 E - Commented that there might be some money for a bike lane on M-28 when MDOT does their scheduled improvements. He also added comment, regarding the Land Use Leadership's Council report, on reducing taxes for large landowners to keep large parcels intact.

X. Commissioner Comment

Bill Sanders mentioned that Mike LaPointe and Scott Emerson would be joining him for a Michigan Society of Planning meeting on the 15th in Marquette.

XI. Informational Items and Correspondence

XII. Adjournment

Estelle DeVooght, Commission Secretary

Kathleen Stiles, Recording Secretary

Charter Township of Chocolay
Planning Commission Minutes
Monday, September 8, 2003
7:30 P.M.

Present: Commissioners: Bill Sanders, Estelle DeVooght, Mike LaPointe, Steve Kinnunen and Ken Tabor

Absent: Tom Shaw and Scott Emerson.

Staff: Doug Riley, Director of Planning and Research, Cathy Phelps and Lori DeShambo, Recording Secretaries.

I. PUBLIC HEARING CALLED TO ORDER

Chair Sanders opened the Public Hearing at 7:30 p.m.

II. PUBLIC HEARINGS:

A. Rezoning #126- Ward – R-1 (Residential) to R-3 (Residential-Single and Multi-Family)

Bill Sanders read into the record a letter that was received following distribution of the agenda packet authored by the property owners that border the Frank Ward property.

Bill Sanders opened the public hearing to those attending.

Carol Henry, 1019 Ortman, stated she was against the zoning.

Kris Willard, 105 Veda, stated she was against the zoning as the property is currently zoned for single-family dwellings.

Ron Raisanen, 109 Veda, is against changing the zoning and would like it to stay residential.

Jim Peck, 104 Veda, owner of lots #8 and 9, which are located across from the proposed rezoned property stated he would like the zone to remain single family.

Bill Sanders explained the rezoning 126 issue and the difference between R-1, being zoned as a single family dwelling and R-3, which is for single and multi-family dwellings. R-3 zoning could include apartment buildings and condominiums.

Bill Sanders acknowledged and read the Deerview Trail residents' correspondence into the record.

Bill Sanders closed the Public Hearing regarding the R-3 issue at 7:40 p.m.

B. Conditional Use #66 – William Kimmes – Home Occupation/Parking of Commercial Vehicles

Mike Gschwind, 321 Fernwood, lives near the Kimmes' property stated that Mr. Kimmes keeps his equipment and property in good clean condition. He stated that "his street supports Kimmes." He noted that there are motor homes and such in the area that are the same size as the trucks Mr. Kimmes uses for his business.

Bill Sanders closed the Public Hearing regarding the Home Occupation/Parking of Commercial Vehicles issue at 7:42 p.m.

III. MEETING CALLED TO ORDER

Chair Sanders opened the meeting at 7:42 p.m.

IV. APPROVAL OF THE MEETING MINUTES

Steve Kinnunen Moved, Estelle DeVooght Second, that the August 11, 2003 Minutes be approved as presented. Aye 5, Nay 0. Motion approved.

V. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Bill Sanders Moved, Estelle DeVooght Second, that the agenda be approved as presented. Aye 5, Nay 0. Motion approved.

VI. PUBLIC COMMENT No comments.

VII. OLD BUSINESS None.

VIII. NEW BUSINESS

A. Rezoning #126 – Ward – R-1 (Residential) to R-3 (Residential- Single and Multi-Family)

Frank Ward addressed the Commission regarding his request. He referenced Randy Yelle's comments regarding spot zoning. Mr. Ward quoted excerpts from the Commissioner's packets referencing compatibility requirements. He stated that he has 23.5 acres which is enough property to allow the proposed multi-family buildings to have character and the required buffer zone.

He remarked on how accommodating he was to his neighbor regarding snowmobiles on his property but yet this same owner now objects to his zoning request.

Mr. Ward pointed out that several multi-family buildings have been built in Chocolay Township in the past several years pointing out the senior housing located on Cherry Creek Road and the fact that the Commission has rezoned a parcel of property located on Terrace. He also referenced Willow Road, which has two structures, which have had no adverse effect.

Mr. Ward stated he understood homeowners' concerns about their property being devalued, but again assured the proposed property would have a buffer zone and character.

The fact that the Board had denied his request for rezoning in the past due to sewer issues was addressed wherein Mr. Ward pointed out that the Ewing subdivision was approved and developed after his request was denied.

Mr. Ward advised the Commission that the Stenglein family had concerns in the past regarding the property and the fact that future home owners would have a problem with their farm and the smells emitted from farming but yet they have sold property in the past few years and now have residential homes built close to their farm.

Mr. Ward advised the Commission that he was awarded the Businessman's Award in Munising for his renovations to the Navigator Restaurant located in Munising.

Mr. Riley then brought the overhead into use with the map and zones of property in question being shown. The requested rezoned property was pointed out and the comparison parcels earlier indicated by Mr. Ward (R-3 on Willow Road, and other R-3 zones abutting C-2 parcels) were also pointed out.

Estelle DeVooght asked for the private drive of Deerview Trail to be indicated to her. The issue of spot zoning was again addressed.

Mr. Ward again referenced comments of Mr. Yelle (contained in the packet to the Planning Commission) regarding spot zoning. Estelle DeVooght stated that the Commission does not have to agree with Mr. Yelle.

Is spot zoning a legal issue?

Mr. Ward went into detail regarding how many units could be built on his property if he built the minimal requirement of 800 square feet (35 residential units) and what that would look like.

Steven Kinnunen then addressed the Commission stating that his son lives on Deerview Trail. He has no financial interest in his son's property and wanted this issue brought before the Commission to decide whether his voting would create a conflict of issue. Mr. Sanders voiced the opinion of the Commission that it would not.

Mr. Sanders made it clear that rezoning the property to R-3 not only opens up the property to build multi-family dwellings, it could include nursing homes, day care, hotels, clinics and the like.

Estelle DeVooght noted that she thought spot zoning was an issue here.

Sam Elder then addressed the Board with the development made to the Ewing subdivision and Carmen Drive additions. He stated that 2 lots had been kept open on U.S. 41 and 2 lots on Juliet as R-3 to be used as a buffer zone. The proposed church to be built on 8 acres was to have access from Cherry Creek (not through the residential home area) and the sewer system would be built through Jean Street. He pointed out that conditions were made to buffer commercial and residential buildings.

Mr. Sanders pointed out that he agreed with Estelle DeVooght in the questions of "what is spot zoning and what is not?" He stated he did not think it was proper to create R-3 zoned property surrounded only by R-1 zoned property. Most all of the Township's R-3 property abuts C-2 and acts as a transition to R-1.

Steve Kinnunen made the motion that following the review of zoning request #126 and the staff file review that the planning commission recommends denial of rezoning #126 to the Township Board to rezoned said property from R-1 to R-3 for the following reasons:

1. The requested R-3 zoning is not reasonably adjacent or linked to the Township's commercial or service corridor.
2. It remains a viable piece of property that could be developed under the existing R-1 zoning designation.
3. The requested R-3 zoning designation would allow other land uses that would not fit in with the character of the surrounding area.

The Motion was Seconded by Estelle DeVooght. Aye 5, Nay 0. Motion approved. This recommendation will now go to the County Planning Commission.

B. Conditional Use #66 – William Kimmes – Home Occupation/Parking of Commercial Vehicles

Mr. Kimmes addressed the Commission regarding his application for home occupation and parking of commercial vehicles. He advised he owns three lots of property and provided photographs to the Commission of his property, where his trucks are parked and his home. Mr. Kimmes purchased his home in 1976 or 1977. The home was built in 1980. He stated he keeps all of his business activity to the center of his lots to ensure privacy for surrounding homeowners.

Mr. Kimmes explained in detail the devices he has installed into his business vehicles and the precautions taken when approaching and leaving his property, again in respect to his neighbors.

During the winter months, the removal of snow is piled in an effort to hide his business vehicles from view.

Mr. Kimmes stated that he had received correspondence from the Zoning Administrator requesting he submit his application. He has done so now and asked if the Commission had any questions of him.

Mr. Sanders asked that Mr. Kimmes describe what his business is.

Mr. Kimmes owns Snap-On-Tools. He went on to explain that his business trucks go from business to business selling tools. All his inventory is kept on his trucks. The only activity in and out of his home/occupational use would be an occasional UPS truck. He does his ordering from home with the use of a computer and uses a laptop when on the road. He has no ads in the local newspapers advertising his product. He has no billboard signs advertising his products. Mr. Kimmes pointed out that he does not conduct retail sales through his home.

Mr. Sanders then asked the Commission if they had any questions.

Mr. LaPointe asked Mr. Riley if a notice had been sent regarding Mr. Kimmes' application for which Mr. Riley replied an ad had been run in the Mining Journal newspaper. 31 property owners within 300 feet were notified in the surrounding area of Mr. Kimmes regarding his application and there was no response to this notification, either in writing or verbal received by the Commission.

Mr. LaPointe stated that Mr. Kimmes' neighbors must not find him a nuisance then.

Mr. Sanders then read the general standards with regard to what "home occupation" means and what "conditional use" is. The issue of whether conducting business from Mr. Kimmes three lots would be contrary to the public's health and welfare for which it was stated no as he has three lots to use as a buffer zone.

Mr. Sanders again offered to the Commission if there were any concerns. Mr. Tabor supported the application stating perhaps a review of the application should be conducted in five years and that Mr. Kimmes would have to keep his business size as is, i.e.: number of trucks, size of trucks. Mr. Sanders stated you can not change the rules in five years. Mr. Kimmes would have to re-apply to the Commission to upgrade/change the size of his business with respect to the number of vehicles and their size.

Again, the issue of the property and its character and buffer zone was addressed. The photographs provided earlier show that Mr. Kimmes' business trucks are largely blocked from view. Looking at the photographs, Mr. Kinnunen voiced concern over the size of trucks in and out of residential sites and what certain items represented in the pictures. Mr. Kimmes indicated personal buildings (storage), snowmobile trailer(s), etc.

Mr. Kimmes advised the Commission that his two employees live on the property.

Mr. Kinnunen stated his concerns that the Commission be consistent with the ordinance so in the future others will not have the "okay for him but not for me" argument.

Mr. Sanders states that the home occupation ordinance states it is okay to conduct business from your homes, however, each conditional use issue is different, as in this case, the number and size of business trucks being used. He stated that each home occupation application/permit will be individually reviewed. In Mr. Kimmes' case, there was a question as to his trucks being contrary to the public's health and welfare and that is why he was required to submit an application.

Ken Tabor then moved that after review of Conditional Use request #66, the standards of Section 107 (A) and 701, and subsequently finding compliance with the standards for approval of the request, the Planning Commission approves Conditional Use request #66 with the following conditions:

1. That a total of three (3) trucks (of larger than personal vehicle size) may be kept on the site with a not to exceed the size of three trucks he now operates, which are: 1) Van 16,000 GVW 24'; 2) Van 26,000 GVW 30'; and 3) Van 32,000 GVW 36'.

2. That the applicant shall not have any employees that do not reside on the premises.

Mike LaPointe Seconded. Aye 5, Nay 0. Motion approved.

C. Preliminary Site Plan Review – Schaub – Apartment Project on Terrace Street

Bill Sanders said this issue is for discussion only during this evenings meeting.

Mr. Riley indicated with the use of the overhead the location of the proposed apartment project and a “draft” site plan.

Issues addressed during this preliminary review were as follows:

1. That an alley shown on map/plat/paper is only on paper and does not exist of which the process to abandon; currently being worked on.
2. All property owners abutting the proposed alley have “signed off” on its abandonment.
3. There are several issues to be finalized and that the site plan is only a draft.
4. Concerns were raised regarding the proximity of the units to the east property line, removal of snow during the winter months, spring water runoff, landscaping issues, lay-out of each unit and sewer leads, i.e.: what direction will they come from?

Mr. Kinnunen asked if there was a projected date for the buildings. Mr. Schaub stated perhaps next year (2004) the first unit will be built with another to follow.

Mr. Sanders asked if the Fire Department has review it yet? Mr. Riley replied a formal review has not been made yet but is being worked on.

Mr. Schaub stated that he would make any adjustments necessary to coincide with the Fire Department’s recommendations.

D. Discuss – Habitat for Humanity-Request for potential home sites

Mr. Riley stated that he had been approached about adding the request for potential home sites for Habitat for Humanity to the agenda for the Commission to consider and to bring the issue to the residents advising them that lots are sought in Chocolay Township.

IX. PLANNING DIRECTOR’S REPORT

Doug Riley discussed the following items:

- 1) Special Election for Supervisor – October 7, 2003
- 2) Michigan Society of Planning Meeting
- 3) Update on Corridor Plan
- 4) Community Center closure

X. PUBLIC COMMENT

Dick Arnold addressed the Board and asked of the status of the junk vehicle ordinance.

Mr. Riley replied that the survey was completed and information obtained and the police department was going to review and check with other departments regarding potential changes to the ordinance. There has been no time frame set for an answer, however, Mr. Riley did tell Mr. Arnold he would let Chief Zybert know that this topic was raised at this meeting.

No further public comments.

XI. COMMISSIONER COMMENT None

XII. ADJOURNMENT Chair Bill Sanders adjourned the meeting at 9:03 p.m.

Estelle DeVooght, Commission Secretary

Lori DeShambo, Recording Secretary

**Charter Township of Chocoday Planning Commission
Monday, October 13, 2003**

Present: Bill Sanders, Estelle DeVooght, Mike LaPointe, Steve Kinnunen, Tom Shaw, Scott Emerson and Ken Tabor
Absent: None.
Staff: Doug Riley, Director of Planning and Research and Lori DeShambo, Recording Secretary.

I. PUBLIC HEARINGS CALLED TO ORDER

Chair Sanders opened the Public Hearings at 7:30 p.m.

A. Rezoning #127 – O’Dovero – R-1(Residential) to C-2 (Commercial)

Christine Croschere from O’Dovero Properties introduced herself.

Dan DiLoreto (301 W. Main Street) requested time later in the meeting to address this issue.

B. Conditional Use #67 – Nivison – Home Occupation – No comments

C. Conditional Use #68 – Hirvonen – Dune Overlay District Application
No comments

Public hearings closed.

II. MEETING CALLED TO ORDER/ROLL CALL

III. APPROVAL OF THE MINUTES OF THE SEPTEMBER 8, 2003 MEETING

Steve Kinnunen said the Minutes should read Steve Kinnunen Moved (not Bill Sanders) and Estelle DeVooght Seconded with respect to Rezoning #126 – Ward.

Steve Kinnunen moved to approve a motion to correct the August 11, 2002 minutes as indicated, Ken Tabor Seconded. Aye 7, Nay 0. Motion approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Bill Sanders Moved, DeVooght Second, that the agenda be approved as presented. Aye 7, Nay 0. Motion approved.

V. PUBLIC COMMENT – no comments.

VI. OLD BUSINESS – no comments.

VII. NEW BUSINESS

A. Rezoning #127 – O’Dovero – R-1 (Residential) to C-2 (Commercial)

Mr. Riley noted that he had received correspondence late and that a copy of the letter was provided to the Commission. Mr. Riley then read a letter from Cindy Barbieri (341 W. Main) that she opposes the rezoning request and provided the opposition in writing as she could not attend this meeting.

Christine Croschere of O’Dovero Properties again introduced herself and provided a short history on the property in question. It was purchased from Mr. Menze and that the intent of O’Dovero Properties is to hold onto the property. They do not intend to sell the property immediately.

Steve Kinnunen asked that the bayou buffer areas be identified.

Estelle DeVooght asked how close are the nearest residents to the property in question?

Discussion ensued on the following issues:

- Verified the property is currently vacant.
- Specifics were discussed regarding the possibility of a driveway for the property, could one be built?
- GIS survey shows that there would be problems with traffic near this intersection.
- That access to the highway from a driveway at that location would be a concern.

Bill Sanders asked about the waterfront set back. Is this property exempt? A 30-foot set back must be preserved.

Estelle DeVooght asked about flooding of the property in the spring.

Bill Sanders noted the bayou is currently buffered by R-1 strip for the neighbors of this property and that if the property were rezoned to commercial, there is still a required 30 foot buffer strip from the edge of the water.

Discussion ensued regarding someone being able to place a home on the residentially zoned portion of the property.

Doug Riley advised of the specifics regarding road frontage and private driveways.

Bill Sanders stated that the Commission cannot deny the application due to the possibility of future development.

Steve Kinnunen stated there should be a site plan review.

Further discussion on the property ensued regarding the following issues:

- Safety aspect – ingress and egress to the property
- There will be interest in this property and development in the future

Scott Emerson asked if this parcel could be made a PUD parcel of which Doug Riley replied it would require variances.

Dan DiLoreto (301 W. Main) then advised the Commission that he had issues with two items on the Rezoning Application provided by O'Dovero Properties.

#9. Are there any negative impacts which will result from the proposed rezoning? Mr. DiLoreto stated there would be as this would create a spot zone. He has lived at his current address since 1985 and feels the wildlife can tolerate neighbors due to the buffer zone. If the property is rezoned, this would expose the river to commercial use and disrupt the wildlife setting.

#7. Are there any alternatives to the rezoning request to accomplish any specific proposal you may have? Mr. DiLoreto states, in his opinion, that there are two options. One would be rezone and grant the application or allow the property to remain residential and grant a variance to allow commercial building away

from the Bayou. The R-1 piece is not a property that could be built on. Mr. DiLoreto advised that he has spoken with Mr. O'Dovero and that Mr. O'Dovero stated he wanted a variance on his property to enhance its "sale ability."

David Thomas (311 W. Main). He and his wife oppose the application. They have two lots and concur with Mr. DiLoreto's objections.

Mike LaPointe asked what type of commercial activities could be developed on this property if it were rezoned. He noted reference had been made to a boat rental, sales and/or service.

Doug Riley then advised the Commission on what permitted uses would be as stated in the zoning ordinance.

Discussion was held regarding rezoning the property with the following topics addressed:

- How much building area would be gained by rezoning?
- If a variance was granted, could it be an open ended variance?
- What could you build specifically?
- Variance limits were questions as to exactly how much building area would be gained
- Would it be possible to build a home if a variance were obtained and a driveway installed?
- What will the restrictions be if this is rezoned commercial?

Steve Kinnunen again stated that the application did not include a development plan and that with the negative response from the residents, he believes the parcel should be left "as is."

Steve Kinnunen remarked that the property has some existing commercial zoning and could be built on now. We do not have a site plan in front of us. There should be a more comprehensive plan. The bayou is zoned to be kept in its natural state. There should be special attention paid to environmental areas.

Scott Emerson remarked that this needs a comprehensive plan regarding a buffer zone. If this area were rezoned, it puts a wedge between residentially zoned areas with a waterfront. He agrees with Steve Kinnunen that this needs a more specific plan and that just rezoning and not knowing a plan is not good.

Christine from O'Dovero Properties stated that she talked with Randy Yelle and that Mr. Yelle advised her that she should file for this rezoning. She reiterated that their plan was not to go commercial. Yes we would like to sell the land at a later date, however, our business interests are primarily in Negaunee Township.

Bill Sanders and Steve Kinnunen debated the issue of rezoning and the potential to build if rezoned or not rezoned.

Bill Sanders stated that the bayou needs to be researched as to what it was initially zoned. Steve Kinnunen stated he believed this was all R-1 and Estelle DeVoght agreed that she believed it was all R-1.

Steve Kinnunen Moved, Tom Shaw Second, that following the review of Rezoning request #127, the Planning Commission recommends denial of Rezoning #127 to the Township Board to rezone said property from R-1 to C-2 for the following reasons:

1. The parcel is buildable without rezoning.

2. The comprehensive plan includes goals to protect the waterways as areas of particular concern.
3. The existing R-1 zoning maintains a buffer between commercial and residential.

Aye 5, Nay 2 (Sanders and Tabor). Motion approved.

B. Conditional Use #67 – Nivison – Home Occupation

Russell and Amy Nivison of 250 Foster Creek Road requested conditional use approval for a home occupation under the terms of the zoning ordinance to have one non-resident employee and to post a sign 6 square feet larger than is allowed.

Doug Riley laid out the site plan and described the property in question. He stated that the Nivisons' home is located in a rural area. He pointed out that there are two driveways to the Nivisons' home; one from Foster Creek and the other from U.S. 41. The Nivisons' propose to erect this sign on U.S. 41. Mr. Riley did not receive any verbal or written opposition to the Nivisons' request.

Russell Nivison advised the Commission what his business is (heating and cooling business). He has difficulty receiving deliveries via semi truck as they can not access Foster Creek Road. Having a sign on US 41 would have directional value for his business, however, he does not receive much business at his home as he works at other homes and/or businesses.

Discussion was had regarding semi truck deliveries and service drives which do not belong in a neighborhood. Tom Shaw volunteered that with the road restrictions as they are, Mr. Nivison has limited time during a year for semi truck deliveries. Mr. Nivison pointed out the safety aspect of having his deliveries routed as he is requesting to avoid children and potential harm in a neighborhood.

Steve Kinnunen asked if the driveway on U.S. 41 was recognized by the Michigan Department of Transportation of which Mr. Nivison replied yes.

Mr. Nivison stated he would post a professional sign; the same being purchased through Signs Unlimited.

Mr. Nivison was asked if he planned on utilizing lighting for his requested sign. He assured the Planning Commission he was not.

The Commission discussed exactly what size the sign requirements are now and the size of the sign that Mr. Nivison is proposing.

Bill Sanders asked what is the area zoned? Doug Riley replied RR-2.

Bill Sanders remarked that the Nivisons' property is five (5) acres and the home occupation intent is not for the property to look commercial in nature.

Mr. Nivison stated that there is 500 feet between he and his next neighbor. He has a buffered tree zone (an individual would not be able to see the sign through the tree line) and that his neighbors consist of his in-laws and family.

Mike LaPointe stated he had no problem with the non-resident employee request but needed clarification of the size of the proposed sign.

Again, Mr. Nivison assured the Commission the sign was intended primarily for deliveries, not as advertising.

Ken Tabor asked what is the size of the sign on your truck? Mr. Nivison replied 2 x 4 feet.

Mr. Nivison stated he would place the sign near his driveway but couldn't respond exactly where until he checked on the required footage necessary from the road.

The Commission discussed in detail the size of the sign and supported a compromise as to the size of the sign going with no larger than 6 square feet.

Tom Shaw Moved, Ken Tabor Second that after review of Conditional Use request #67, the standards of Section 107 (A) and 701, and subsequently finding compliance with the standards for approval of the request, the Planning Commission approves Conditional Use request #67 with the following conditions:

1. That a sign is to be placed on the side of Mr. Nivison's U.S. Highway 41 property and is not to exceed the size of 6 square feet.
2. The applicant is allowed to have one non-resident employee.

The reasons for allowing the size of the sign and its placement on U.S. 41 are as follows and were reiterated for clarification in the event another resident would want to place a sign on their property:

- Safety of neighborhood children with respect to home deliveries
- The Nivisons' own five (5) acres of property
- They are 500 feet from the nearest resident
- There is a buffered tree line

Aye 5, Nay 2 (Sanders and DeVooght). Motion approved.

C. Conditional Use #68 – Hirvonen – Dune overlay District Application.

Mel and Claire Hirvonen have requested conditional use approval (Dune Overlay District Application) in order to construct a new home on a parcel they own.

Doug Riley addressed the issue that the Hirvonens are looking for a decent place to build a house on their parcel. Mr. Riley showed the site plan and stated that the plan meets all the requirements and the side yard set backs are adhered to. Mr. Riley stated he received no objections from residents to this application.

Bill Sanders asked to be shown on the site plan the dune versus erosion hazard line. Mr. Riley explained the slope area and indicated the dune area.

Bill Sanders asked if there would be bulldozing done of which the response was no, only a hole for the foundation was to be dug (response by Kim Young).

Kim Young then addressed the Commission stating the property has been in their family since 1927 and they want to keep the dunes stable.

Steve Kinnunen stated that a root system was needed for stabilization for which Kim Young responded they understood this.

Mike LaPointe Moved, Scott Emerson Second that after review of Conditional Use request #68; the standards of Section 218 and 701, and subsequently finding compliance with the standards for approval of the request, the Planning Commission approves Conditional Use request #68 with the following conditions:

1. That the disturbed areas of the foredune be rehabilitated with dune grass plantings at a rate of 1 culm (clump) per square foot of disturbed area following completion of the home construction.
2. That the applicant obtain a zoning compliance permit from the Township Zoning Administrator.

Aye 7, Nay 0. Motion approved.

D. City of Marquette – Notification for comments on the Whetstone Brook and Orianna Creek Watershed Management Plan and the McClellan Avenue South area Land Use Plan

Doug Riley briefed the Commission that the State of Michigan had passed planning amendments, which requires any master plan amendments be sent to adjoining municipalities for comment and/or review. Any comments by the Township are non-binding.

Discussion was had with Doug Riley and the Commissioners as to whether there was anything disturbing in the proposed changes of which he replied no, he liked option #3 of what was proposed and that it follows a development plan yet relates to environmental issues.

Bill Sanders suggested that the Commission put together a letter addressing issues for the Township. Doug Riley believed they had forty (40) days from the date of receipt of the amendments to the City Master Plan.

E. Update to Comprehensive Plan

The memorandum dated 10/09/03 by Greg Seppanen, Supervisor addressed the issue of the need and support to update the Township's Comprehensive Plan.

Doug Riley pointed out that under the new State Planning Act, the plan is to be updated every five (5) years. He discussed hiring an outside consultant to assist us with this and that the Township had earmarked some funds for this. Additional support would be necessary from the Board. It was suggested that the Township address the Board next Monday (10/20/03) to obtain preliminary approval to obtain proposals from consultants.

Ken Tabor asked where the cost would come into play requiring additional funding.

Doug Riley stated man hours, map work/graphics, demographics and meetings.

Scott Emerson remarked that it has been thirteen (13) years since the plan was updated.

Doug Riley volunteered to do most of the "grunt work" in an effort to keep the consultants fees down.

Steve Kinnunen asked where do we obtain a consultant for which Doug Riley responded with advertising.

Discussion was had regarding interviewing prospective consultants before the Commission to obtain a qualified consultant, not just accept a consultant for their

“low bid” and that it would be important to hire the right person. Doug Riley would prepare a draft Request for Proposals (RFP).

Mike LaPointe Moved, Scott Emerson Second that the Planning Commission proceed to the Township Board to look for preliminary approval and funding to hire a consultant for the update to the Township's Comprehensive Plan.

Aye 7, Nay 0. Motion approved.

VIII. PLANNING DIRECTOR’S REPORT

Rezoning #126 – Ward application was reviewed by the County Planning Commission and they also recommended denial of the application. It will be brought before the Board on 10/20/03.

Attendance at the Ivan Fende dinner discussed.

Court of Appeals reviewing the snowmobile trail issue was discussed in detail. End of discussion was Doug Riley’s response that neither side had a feeling which way the ruling would go.

IX. PUBLIC COMMENT – None

X. COMMISSIONER COMMENT

Estelle DeVooght voiced a concern as to why Christine from O’Dovero Properties said Mr. Yelle told her to come to this meeting.

XI. INFORMATIONAL ITEMS AND CORRESPONDENCE

A. Minutes – Township Board – September 15, 2003

B. Minutes – Zoning Board of Appeals – September 25, 2003

XII. ADJOURNMENT Chair Bill Sanders adjourned the meeting at 9:29 p.m.

Estelle DeVooght, Commission Secretary

Lori DeShambo, Recording Secretary

Charter Township of Chocolay Planning Commission

Monday, December 8, 2003

7:30 P.M.

Present: Bill Sanders, Estelle DeVooght, Steve Kinnunen, Tom Shaw, Scott Emerson and Ken Tabor.

Absent: Mike LaPointe

Staff: Doug Riley, Director of Planning and Research, Lee Snooks, Director of Recreation and Grants Administration, Lori DeShambo, Recording Secretary.

I. PUBLIC HEARINGS – None.

II. MEETING CALLED TO ORDER/ROLL CALL

III. APPROVAL OF THE MINUTES OF OCTOBER 13, 2003 MEETING

An addition/correction was made to the October 13, 2003 minutes by adding a paragraph to VII New Business, B. Conditional Use #67 Nivison Home Occupation (page 4) that Mr. Nivison was asked if he planned on utilizing lighting for his requested sign and that he assured the Planning Commission he was not.

Steve Kinnunen moved to approve the minutes with above referenced addition/correction, Estelle DeVooght Seconded. Motion Approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Ken Tabor Moved, Steve Kinnunen Second, that the agenda be approved as presented. Motion approved.

V. PUBLIC COMMENT

Dick Arnold of 312 County Road 545, Marquette, MI asked the Planning Commission as to the status of the junk ordinance revision(s). Doug Riley advised that the Police Department was researching other Ordinances that could be used as a model. Chief Zyburt was in attendance at the meeting and advised that the research, unfortunately, had been put on the back burner due to the recall and election with the Township Board. Mr. Sanders asked if this project could be moved along and can Mr. Arnold be given a time frame in which to anticipate a response

Stan Hubert of 5029 S. U.S. 41, Marquette, MI addressed the Planning Commission stating that some of the Harvey businesses were willing to contribute funds for the required grant match available through the Department of Natural Resources (hereinafter referred to as DNR) for snowmobile enforcement as the business owners are aware that Chocolay Township does not have the funds to match the available grants. Mr. Sanders advised Mr. Hubert that this issue would be addressed later in the meeting.

VI. OLD BUSINESS – None.

Closed – no comments.

VII. NEW BUSINESS

A. Discuss – Snowmobile Trail Opening – Discussion of mitigating measures with the Michigan Department of Natural Resources

Mr. Sanders asked the DNR people in attendance at the meeting to introduce themselves and give a general outline as to what they wished to discuss during this meeting and that discussion could be held between the DNR and the Commission following their presentation.

Michael L. Paluda, U.P. Field Coordinator, Forest, Mineral & Fire Management was the spokesperson for the group. Other DNR staff in attendance at this meeting were introduced as Terry Popour, Debbie Begalle, Bill Brondyke and Ron Yesney.

Mr. Paluda explained that the DNR in the State of Michigan is comprised of seven (7) unit organizations and that the unit located in Gwinn, MI will be responsible for the snowmobile trail in Chocolay Township. Terry Popour is in charge of day to day operations and can be contacted at the Gwinn office. Debbie Begalle is the Western U.P. Supervisor. Ron Yesney is the individual within the Gwinn unit that is the recreational specialist who does the planning, public relations, parks, etc. He is one of the primary contacts for Chocolay Township regarding the snowmobile trail and is the point person.

Mr. Paluda explained to the Commission that funds for the snowmobile trail are generated by a user's fee and a portion of gas tax funds. These funds are protected and the State of Michigan does not have access to the money. He advised that there is money available in the form of grants for enforcement by the police department and for trail construction and development.

Mr. Paluda asked that the Planning Commission assist the DNR in what direction it should take regarding mitigating sound from the trail in a residential area and steps to take to keep Chocolay Township residents safe and happy.

He stated that Hiawatha Trails does the trail grooming through grants and that the DNR are very happy with the services of Don Britton.

Mr. Paluda advised that a discussion was had with Gary Walker, Prosecuting Attorney for Marquette County and that this year, with having a trail in Chocolay Township, snowmobiles will have to abide by the law and travel in the direction of traffic along the highway. Although the rules were different last year, now that there is a trail, he feels he has to vacate his old decision and revert to the law. The Michigan Department of Transportation (hereinafter referred to as MDOT) was not happy with snowmobiles using the bike path as a trail in Chocolay Township.

Debbie Begalle spoke next advising the Commissioners that the DNR has two trail counters to place on the snowmobile trail with their purpose being to collect data, i.e.: speed of sleds, time of day when speed a factor, time of the day when sleds are used, etc. The DNR has selected a site for one of the counters, however, they are looking for an advantageous spot for the other. She advised the Commissioners that the DNR will be gathering complaints and accident information to compile a report. This information will be collected on a weekly basis with the final report being compiled at the end of the season. This will help to assess what is working on the trail and what is not.

Don Britton of 121 Deerview Trail, Marquette, MI advised that they will be logging any complaints through the police department, information the groomers will gather and look for trouble spots on the trail.

Signs have been posted through each segment of the trail which have been paid for by the Convention and Visitors Bureau which advise the snowmobilers to move slowly, respect the residential area they are traveling through and watch for children. These signs are found on each end of the trail.

Ron Yesney will do a weekly trail inspection.

Bill Sanders asked if the Chocolay Township Snowmobile Trail Information Sheet dated December 1, 2003 which is a one page – two sided document- listing five telephone numbers was provided to property owners affected by the trail.

Scott Emerson pointed out that there should be one number that can be called for complaints and that accidents should be reported through the 911 telephone number.

Doug Riley asked if a standard form could be utilized by all agencies so that the information compiled is uniform.

Police Chief Zyburt advised that the police department for the City of Marquette has received a grant for funds regarding policing the snowmobilers and that the Chocolay

Township police department and the City of Marquette police department would be working together to keep an eye on safety issues. Mr. Zyburt explained his intention on policing a particular area in Chocolay Township that he believes will be misused, i.e. speed and noise and, hopefully, this will curb further abuse. He states for enforcement purposes, he must have a restricted area to monitor.

Lee Snooks, Director of Recreation and Grants Administration stated that 100 hours total have been mandated and that the DNR has picked up the tab for 87 hours.

Discussion ensued regarding the fact that grants are available through the DNR and that funds must be made available to match the DNR grants. This funding would go toward purchasing another snowmobile for the police department to use and for man hours.

Steve Kinnunen questioned how long it would take to get this funding and have more police man power.

Steve Kinnunen asked that an expedited order be initiated to have Greg Zyburt able to put in extra man hours to police the snowmobile season. He also noted that there is wildlife in the bayou area of Chocolay Township and that the DNR needs to be aware of this and address this issue. Extra care is needed in that area.

Mike Paluda stated that the issue of wildlife and snowmobilers has been a controversial subject for years for the DNR. Their experience has been that animals are not bothered by snowmobilers unless the animals are chased.

Doug Riley raised the issue of funds collected by Chocolay Township businesses to match the DNR grants being authorized legally. The auditors stated yes, the businesses in the area can donate money to the Township to match the grants.

Mike Paluda pointed out that the Township will have to ask for the grants from the DNR.

Greg Zyburt advised that the grant does not pay for training of police officers to attend a week's long class on policing a snowmobile trail. The fee is \$500.00 and his budget will not allow for said training fee(s).

Debbie Begalle asked if this training was specifically for trails and enforcement of which Mr. Zyburt stated it was. Mr. Paluda stated he would check into this matter with the DNR to see if anything could be done.

Tom Shaw asked Mike Paluda specifics regarding his conversation with Gary Walker and the use/non-use of the bike path. Discussion ensued regarding right of way issues, crossing the highway in downtown Harvey to gain access to restaurants, bars and gas stations.

Steve Kinnunen again asked how quickly funds could be made available to apply to the police force.

Mike Paluda states that once Chocolay Township has its matched funds, the DNR will expedite the request.

Ron Yesney stated he hoped it could be within one week.

Doug Riley asked if the contributing business owners would have signs on the trails to direct snowmobilers to their establishments.

Ron Yesney stated no they could not as the trail is state regulated property. He will, as the Recreational Manager, erect generic signs that state food, lodging and gas but not list a specific entity.

Terry Popour stated that at map stops along the trail, there will be arrows directing the flow of traffic and will lay out access to businesses in Chocolay Township. He suggested an enlargement of the township map to keep the snowmobilers out of what could be problem areas.

Scott Emerson addressed the fact that there are going to be complaints not only from the official trail but from the community as well. The thrust of the conflict within this community has been that the trail is populated with families. He stated if snowmobilers start driving their sleds through Harvey as directed by map stops and signs, there will be problems. He also pointed out that funding should be obtained for an air quality study. He pointed out that carbon monoxide from snowmobiles can be deadly. Data needs to be collected and studied on this subject.

He also pointed out to the DNR that they have been granted a privilege and with authority comes responsibility. They may need to reset their "standards" as a rural trail area has many different issues than a residential area.

Mike Paluda pointed out that the DNR has 6,100 miles of trail and that communities such as Traverse City and Cadillac have not reported problems. Steve Kinnunen pointed out that the two referenced cities do not have major businesses in the thorough fare as Chocolay Township does.

Mike Paluda stated that Chocolay Township will have to decide where traffic enters the Township business corridor and the DNR will follow their directions.

The issue was brought up regarding building a bridge over the Chocolay River. Also addressed was utilizing the trail during the summer months as a bike path and hiking path.

John Smith of 2176 M-28 East, Marquette, MI suggested creating another ad hoc trails committee to look into these questions with the MDOT and DNR coming up with ideas and solutions.

Mike Paluda stated that crossing the Chocolay River to get traffic across it would not fit into the snowmobile trail program. If the plan was for a multi-purpose trail, this might be a possibility under a trust fund grant.

Doug Riley asked the DNR if there is a time frame to follow for funding assistance for next year to utilize the data gathered this year i.e.: how many snowmobilers used the trail, how many were off the trail, etc.

Debbie Begalle stated the application deadline is April 1, 2004.

The issue of the second counter was raised again. Terry Popour stated that the counters are laser and would not work on a public road due to snow, sanders and plows.

Stan Hubert who resides at 104 Ridgewood volunteered his property to place the second counter. His property is located 60 feet off the trail.

Terry Popour pointed out that this year will be a learning experience for the DNR.

Bill Sanders questioned the DNR regarding the construction of the trail. Is there a design in place? Are there ways of designing the trail to cut down on snowmobile speed and the noise generated?

Mike Paluda stated the DNR is in the business of maintaining trails, not designing them. He was not sure that they had the expertise to do design work. He stated the DNR is willing to plant trees, etc. to help reduce the noise level. Again, he stated the DNR is looking to the Township for proposals and direction.

Ron Yesney suggested that the grant sponsor (Hiawatha Snowmobile Club) could work with an architect to build the trail.

Scott Emerson suggested that if the people of the community were asked to become involved in the designing of the trail, perhaps this would soothe ruffled feathers.

Ron Yesney also suggested utilizing college students to become involved in a community project such as designing a snowmobile trail.

Steve Kinnunen asked Don Britton about the size of the trail. Mr. Britton replied that the trail will be solid groomed by 12 feet except for bridges. The sign/map areas are groomed to 20 feet to allow snowmobiles to stop safely. There are posted signs prior to these areas that state "slow down."

The subject of encroachments was brought up and Debbie Begalle stated there are a few encroachments to address. The DNR will alert the homeowners that the DNR owns the grade and they must remove anything in the way.

Scott Emerson questioned what the season deadline is for the use of the trail.

Terry Popour stated the grooming will stop on March 31, 2004.

Scott Emerson requested that the DNR close the trail to the residential area on March 31, 2004. Ron Yesney replied that historically, if the area receives a snowfall at the end of March, they will extend the season by two more weeks. Mike Paluda stated that if the Township wants this deadline to the residential area considered, it should be put in writing to the DNR.

Bill Sanders asked Mike Paluda if he would return to address questions and discuss the trail at another Planning Commission meeting. He responded that contact should be made with Debbie Begalle in the Gwinn office.

Doug Riley advised that a joint Board/Planning Commission meeting would be held on Monday, December 15, 2003 to review the issues raised in the Planning Commission meeting.

B. Discuss – Update to Comprehensive Plan – Review of Draft RFP

The draft of the RFP was reviewed by the Planning Commission and questions/comments were directed to Doug Riley. Doug Riley suggested to the Planning Commission that a score sheet be drafted to utilize when interviewing consultants.

Ken Tabor asked Doug at what point do you think the Township would receive proposals and Doug thought February of 2004 as long as the Board gives its approval to seek proposals.

The Commission agreed that the draft flowed well and that it was approved to present to the Board at the joint meeting.

VIII. PLANNING DIRECTOR'S REPORT

Joint Township Board/Planning Commission Meeting - December 15

IX. PUBLIC COMMENT – None.

X. COMMISSIONER COMMENT

- Estelle DeVooght stated she was not happy with the snowmobile trail plans.
- Steve Kinnunen reiterated the need to have adequate policing of the snowmobile trail.
- Scott Emerson believes the DEQ should be involved in this issue as it related to air quality control.
- Scott Emerson stated there needs to be one telephone number to lodge a complaint regarding snowmobiles and use the 911 telephone number for accidents/emergencies.
- It was noted that Terry Popoure's telephone number was not reflected on the informational sheet provided by the DNR to homeowners.
- Estelle DeVooght asked if the trail issue would still be presented to the Court of Appeals?
- Doug Riley responded that the first step is to ask for a rehearing by the Court of Appeals, which is most likely going to be denied, however, this possibly sets up the Supreme Court to review the case.

XI. INFORMATION ITEMS AND CORRESPONDENCE

- A. Minutes – Township Board – October 20 and November 20, 2003
- B. Minutes – Zoning Board of Appeals – October 23, 2003
- C. Correspondence – Maki to Board/PC et al. – ZBA Hearing on Waselesky

XII. ADJOURNMENT. Bill Sanders adjourned the meeting at 9:55 p.m.

Estelle DeVooght, Commission Secretary

Lori DeShambo, Recording Secretary

Charter Township of Chocolay Planning Commission

Monday, June 7, 2004
7:30 P.M.

Present: Estelle DeVooght, Steve Kinnunen, Scott Emerson, Ken Tabor, Mike LaPointe and Tom Shaw.

Absent: Bill Sanders

Staff: Dennis M. Stachewicz, Jr., Director of Planning and Research and Lori DeShambo, Recording Secretary.

I. PUBLIC HEARINGS

- A. Text Amendment #04-01: a request to change the R-1 District in Sec. 10 T47N-R24W, parcel number 52-02-110-063-00, 3.67 acres, located between Timbercrest Garden Center to the west (C-3) and Residential (R-1) to the east to a Planned Unit Development District for the purpose of constructing a mini-storage complex.

Mike LaPointe open the public hearing advising those in attendance at the June 7, 2004 meeting that they will all have a chance to speak. He reiterated the request outlined in I. A. regarding text amendment. Mr. LaPointe then asked Dennis Stachewicz to provide an overview.

Mr. Stachewicz referred to his memorandum dated June 4, 2004 where he laid out the issues as to whether the Planning Commission should consider whether or not the PUD District will allow enough control over the proposed development to support the standards outlined in Section 508 of the Zoning Ordinance and not have a detrimental affect on the resident neighborhood to the east.

Mr. Stachewicz pointed out the following issues:

- The parcel is currently vacant and serves as a buffer to the residential area.
- The parcel has natural gas and electricity available there now.
- Water would be via private well; however, this is not needed for a mini-storage complex.
- The soil type information has been provided and if the request is granted, landscaping will have to be done to the parcel.
- The Comprehensive plan was cited as the site design is critical to this request.
- Another issue raised was future land use allocation.
- The history of requests for use of this parcel was discussed (more particularly the request by Roger Wotring in 2002) and the point made that the Planning Commission should discuss whether or not conditions have changed from previous denials for use of this property.
- There is not a landscaping or lighting plan outlined in this request of which Mr. Stachewicz believes is important.
- The site plan does not include building elevations, which should be addressed.
- "Spot" zoning was discussed.
- There has been no feedback from the residential area located near the parcel of land in question; nothing positive or negative in writing.
- Winter maintenance should also be considered.

Mr. Darwin Britton then addressed the Commissioners regarding his request. He provided photographs of what the proposed storage buildings would look like. He described the building materials, drainage and proposed landscaping. He outlined the proposed phases of building storage compartments. Mr. Britton is a grade foreman for Lindberg Gravel and, therefore, is knowledgeable of grading easement. He would like to put up an illuminated sign and use 2 lights with 50 watt bulbs per building, which will deflect to the buildings. The summer hours for the proposed mini-storage buildings would be 8:00 a.m. (EST) to 8:00 p.m. (EST). Mr. Britton owns a snow removal business and would take care of the snow removal himself at 8:00 a.m. or shortly thereafter.

Mr. Britton has an architect “standing by” and would provide the Commissioners with a plan within 2 weeks of approval. He stated that the elevation of the proposed mini-storage buildings would be comparable to Timbercrest.

Mr. LaPointe opened discussion to the public at this time.

Charles Hudson – 104 Dana Lane. His home would be located closest to the proposed buildings. His drain field is located close to the property in question. He stated that there is too much activity on Dana Lane as it is now. The jack pine trees to be used as a buffer for noise have very little branches. He is against building commercial on this property and would prefer to see a home built there.

Gordon Uren – 116 Dana Lane. Mr. Uren had several concerns. He quoted from the Zoning Ordinance that an R-1 zone is intended to be used for family housing. He quoted from Section 215 and 505 (Planned Unit Development) that the request does not meet the intent of zoning. He again quoted Section 1, 9 and 11 does not meet the standards for PUD. He referenced ground water contamination from misuse of the storage buildings, i.e.: changing oil on vehicles, etc. He believes this area to be “spot” zoning.

Charles Hudson – 104 Dana Lane. Mr. Hudson pointed out that he does not believe the footage for the parcel in question is correct.

Kim Erickson – 120 Dana Lane. Mr. Erickson also does not believe the footage outlined in this request is correct. He pointed out that he has attempted to purchase this parcel of land, however, it is priced as “commercial” property, thus too expensive.

Bill Beckman - 1719 Woodland in Marquette. Mr. Beckman said this parcel of land has been in the family for 100 years. He and his brother, Glen Beckman, would like to sell the property to Darwin Britton. They understand the concerns of the neighborhood, however, they feel they have the right to sell this property.

Glen Beckman addressed the issue of the footage in question and gave history as to the property lines for this parcel. He stated that they have been trying to sell that parcel for years and that no one wishes to purchase it to build a home next to Timbercrest.

There is 100 feet in question that is owned by Dana Varvil that was discussed with no resolution.

Estelle DeVooght asked if this land has been surveyed. Glen Beckman affirmed.

Mr. LaPointe agreed that there was a discrepancy in the footage of this parcel and this will be addressed. Public comment regarding this item was closed.

- B. Private Road #04-01: a request to construct and maintain a private road in Sec. 9 T47N-R24W off of Jennifer Lane across from Candee Lane, to serve development of 20.1 acres, parcel number 52-02-109-128-00.

Mr. LaPointe reiterated the request outlined in I. B. then requested that Dennis Stachewicz provide an overview.

Mr. Stachewicz pointed out the following issues:

- Eric Keough is the applicant.
- There is an area in the proposed cul-de-sac which is 5 feet lower than the grade of Jennifer Lane.
- Naming the private drive “Pine Cone Trail” has been researched and approved by the State Police Central Dispatch.
- The applicant is responsible for easements.
- This application is purely for the use as a private road and not a subdivision.
- Applicant will attempt to obtain a permit to construct at least one home. Said property would allow for four parcels to be purchased for constructing homes.
- Mr. Keough’s proposal meets the necessary requirements.
- The proposed road does not appear to have an impact on the neighborhood.

- Private roads usually get turned over to the municipality in the long run, which is why the design should be critically reviewed.

Mr. LaPointe asked if the applicant was in attendance and if he would like to address the Commissioners.

Eric Keough advised he owns 20.1 acres of land and provided photographs of the property. He is a licensed builder and realtor. The land is currently used by people for recreational purposes, i.e. dirt bikes, ATV's, etc.

The grade of the proposed road and cul-de-sac will be addressed by Smith Paving.

The Marquette County Sanitation Department has been to his property. The Health Department has approved the well and septic system.

He intends to only cut down ½ acre of trees to build homes. He currently has 2 individuals interested in having a home built on this property which Mr. Keough believes will sell in the \$195,000.00 range and generate revenue for Chocolay Township.

Mike Mileski, Geometric Services and project surveyor, was with Mr. Keough and verified boundary limits.

Public comment regarding this item was closed.

II. MEETING CALLED TO ORDER/ROLL CALL

Mike LaPointe called the meeting to order at 7:30 p.m.

III. APPROVAL OF THE MINUTES OF APRIL 12, 2004 and MAY 18, 2004 MEETINGS

Scott Emerson moved to approve the minutes of the April 12, 2004 meeting, Estelle DeVooght Seconded. Aye 6, Nay 0. Motion Approved.

Steve Kinnunen moved to approve the minutes of the May 18, 2004. Ken Tabor Seconded. Aye 6, Nay 0. Motion Approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Scott Emerson moved that 1 B. (Private Road #04-01) be moved to be heard first and 1 A. (Text Amendment #04-01) be held second in Public Comment. Ken Tabor supported. Aye 6, Nay 0. Motion Approved.

V. PUBLIC COMMENT

A. Private Road #04-01. Clarification was made regarding the grade concern and size of the cul-de-sac. It was discussed that if this road/cul-de-sac may ever be turned over to the Marquette County Road Commission, it should meet the County standards.

Steve Kinnunen stated he had looked at and measured the property of Mr. Keough and believes that a wider road, i.e. 24 feet would be more appropriate as four houses are proposed to be built on the 20.1 acres of land and consideration should be made for the amount of vehicles that will eventually use this road. Mr. LaPointe questioned whether the cul-de-sac specifications were taken from the Marquette County Road Commission specification booklet.

Mike LaPointe asked that the proposed restrictions be clarified which included grade/drainage, extra width to road, gravel to cul-de-sac (accessibility for emergency vehicles).

Steve Kinnunen Moved _____ Second that after review of Private Road Request #04-01 (Private Road #18); the standards of Section 402, D of Ordinance 34; and the STAFF/FILE REVIEW – SITE DATA AND ANALYSIS, and subsequently finding compliance with the standards for approval of the private road request, the Planning Commission recommends approval to the Township Board with the following conditions:

- 1) The base of the cul-de-sac area is to be filled to meet the elevation of the road profile where it connects with Jennifer Lane.
- 2) The applicant shall provide access to township vehicles as well as other public/private utility companies to provide services.
- 3) A covenant be established on the deeds for any parcels created off from this private road identifying the private road status and which reference the Declaration of Private Road Easement which must be fully executed.
- 4) The applicant pay for and install a road sign identifying the private road as "Pine Cone Trail" at the intersection with Jennifer Lane and the applicant is to pay for and install a stop sign at the same intersection.
- 5) The applicant comply with the conditions and requirements of all other agency regulations.
- 6) The applicant is required to provide certification from a surveyor/engineer that the private road standards imposed by the Planning Commission indicating a twenty-four foot road width, two foot shoulders, and adjustments to the cul-de-sac entrance radii that will allow for construction of a cul-de-sac in accordance with the Marquette County Road Commission standard detail, have been achieved at the conclusion of construction.
- 7) A zoning compliance permit shall be issued after all of the above conditions are met.
- 8) The applicant is strongly encouraged to obtain Marquette County Health Department review of well and septic considerations for the proposed lots prior to road construction.
- 9) Land Division Approval is required from the Assessor for the creation of individual parcels off from the road and may require the modification of the lots as shown.

Aye 6, Nay 0. Motion approved.

Text Amendment #04-01. After much discussion by the Commissioners, Dennis Stachewicz, the applicants and concerned parties, it was suggested by the Planning Commission that this issue could not be addressed at this time until the question of the property line be resolved.

Mr. Stachewicz pointed out that this issue could be tabled for 45 days to allow the time necessary to research the property lines.

Darwin Britton was concerned with that timetable as this request needs to be presented to the Chocolay Township Board for approval. This would put any construction of the mini-storage buildings into late Fall which would not be conducive to Mr. Britton's plans.

Scott Emerson suggested the site plans be addressed and re-evaluate the lay out of the proposed buildings.

Ken Tabor asked what would happen to the property years down the road. Would this parcel revert back to residential?

Mike LaPointe advised Mr. Britton that the Commissioners do not like to table issues, however, in this case, there are specific questions that need to be addressed.

Dennis Stachewicz stated a special meeting could be held to speed up the process in an effort to help with Mr. Britton's time table concerns.

Scott Emerson would like to see alternatives to PUD.

Dennis Stachewicz stated the preliminary plans are close to final plans so any plans presented in the future must be close to final. This is to be presented to the Planning Commission and then the Chocolay Township Board. Time table of two months.

Darwin Britton quoted Randy Yelle as stating this is a PUD, not a variance, thus this issue does not have to go through both entities.

Dennis Stachewicz suggested he work with the applicants and Randy Yelle, research the property lines and ensure all requirements are met.

Mike LaPointe stated Mr. Stachewicz is to work out the details and a special meeting will be scheduled.

Aye 6. Nay 0. Motion carried.

Meeting break at 9:41 p.m. Resumed at 10:05 p.m.

VI. OLD BUSINESS

A. Discussion – Update of Comprehensive Planning Process.

Estelle DeVooght stated she was not impressed with the planning process. She believes this requires too many meetings, too many people involved and too much time.

Scott Emerson pointed out that multiple people are needed for their input.

Dennis Stachewicz advised the Commissioners that on August 5, 2004, a meeting will be held at the Cherry Creek School beginning at 7:00. This meeting is an attempt to get the community to come together with their ideas and thoughts regarding the Township. He plans on sending out packets and “case” the neighborhood. A list of people was read (leaders of the community, business owners, etc.) that were going to be asked to become involved.

The September 2004 Planning Commission meeting date was discussed. Dates were suggested but nothing verified. This meeting will involve the consultant.

The November 2004 Planning Commission meeting date was discussed.

VII. NEW BUSINESS

A. Annual Election of Officers.

Estelle DeVooght moved that the current status of officers remain. Ken Tabor Seconded. Aye 6. Nay 0. Motion carried.

B. Discussion – US 41 Corridor Access Management Subcommittee.

This will become part of the Comprehensive Plan and will be addressed in the fall. There is no great urgency at this time for adopting the corridor. Steve Kinnunen pointed out that grants are being researched at this time. Mike LaPointe suggested this issue be tabled to be discussed at another time.

VIII. PLANNING DIRECTOR’S REPORT

Mr. Stachewicz has had this position for seven days. He is happy to be involved with the Township.

IX. PUBLIC COMMENT – None.

X. COMMISSIONER COMMENT

The Commissioners welcomed Dennis Stachewicz and complimented him on his thorough presentation of the items on the agenda for this meeting.

XI. INFORMATIONAL ITEMS AND CORRESPONDENCE

- A. Minutes – Township Board
- B. Minutes – Marquette Township Planning Commission
- C. Publication: *Planning and Zoning News*

XII. ADJOURNMENT. Mike LaPointe adjourned the meeting at 10:15 p.m.

**Charter Township of Chocolay
Planning Commission**

Monday, August 9, 2004
7:30 P.M.

Present: Estelle DeVooght, Steve Kinnunen, Scott Emerson, Ken Tabor, Mike LaPointe ,Tom Shaw and Bill Sanders

Absent: None

Staff: Dennis M. Stachewicz, Jr., Director of Planning and Research and Lori DeShambo, Recording Secretary

I. PUBLIC HEARINGS – None.

II. MEETING CALLED TO ORDER/ROLL CALL

Bill Sanders called the meeting to order at 7:32 p.m.

III. APPROVAL OF THE MINUTES OF JULY 12, 2004 MEETING

Scott Emerson moved to approve the minutes of the July 12, 2004 meeting, Bill Sanders Seconded with the corrections that follow. Aye 7, Nay 0. Motion Approved.

Date of the submitted minutes should read July 12, 2004 – not June 7, 2004.

Under VIII. Public Comment, page 5, paragraph one; delete sentence “most accidents happened between midnight and 8 a.m.

Under IX. Commissioners Comments, page 6, paragraph four should read “Scott Emerson suggests the Planning Commission recommend to the Board that a letter be sent to our Representatives, Governor, and Michigan Township Associates that the Snowmobile Act be mandate residential areas of certain population density be subject to local zoning

Under IX. Commissioners Comments, page 6, paragraph six should conclude with “which was an oversight in the original law.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Under XI. Informational Items and Correspondence; Add Item F. Results of Comprehensive Plan Survey (which are distributed and to be reviewed by the Planning Commission Members at their leisure).

Bill Sanders discussed the agenda which included the park issue. The Zoning Administrator has made his decision and if Mr. Maki does not agree with this decision, then he can appeal it to the Board of Zoning Appeals.

Estelle DeVooght asked if the new consultant can address the issues of Mr. Maki?

Mike LaPointe stated that the ordinance sub-committee should be assigned these issues.

Steve Kinnunen asked if the issues raised by Mr. Maki are in violation of the ordinances?

Scott Emerson pointed out that some issues can be addressed as an ordinance issue but not a zoning issue with regard to the Zoning Administrator.

Bill Sanders pointed out that there must be a time limit on how far back an individual can point out an error made in making a decision.

Dennis Stachewicz, Jr., stated that the Land Division Ordinance states that an aggrieved person has 30 (thirty) days to file a complaint/appeal and the 30 (thirty) day period has elapsed.

Dennis Stachewicz also stated to the Planning Commission that he did not feel comfortable discussing reprimands or the like without the Township Assessor in attendance at the meeting.

Mr. Maki addressed the Planning Commission regarding the Keough private road application and land division splits. He stated that he got the run around when looking for information/answers and he was not able to file an appeal within the stated 30 days because he was not given the information needed. He had to file a FOIA request and meet with Attorney Mike Summers to get the information he needed. By then, the 30 day limit was up.

Mr. Maki pointed out that, in his interpretation, the assessor had granted more splits for this particular private road than were available.

Bill Sanders asked Dennis Stachewicz who approves the lots? Mr. Stachewicz said the Township Assessor approves land division applications.

Bill Sanders suggested that the other issues be referred to the ordinance sub-committee to address. This can be discussed further under Item X. Commissioner Comment.

Scott Emerson moved to Approve the Agenda with the addition of Item F. Estelle DeVooght supported. Aye 7, Nay 0. Motion Approved.

V. PUBLIC COMMENT

Mark Maki of 370 Karen Road. Discussed the Lakenen sign issue with Randy Yelle. He stated that he had inquired of Mr. Yelle regarding the Lakenen sign in the fall of last year, then again in April of this year. He finally received an answer from Mr. Yelle recently in which he was told that Mr. Lakenen had obtained a permit for the sign in February of 2004. Mr. Maki states that Randy Yelle lied to him.

Mr. Maki advised the Planning Commission that he, Mike Summers, Dennis Stachewicz and Randy Yelle had a meeting recently at Attorney Mike Summers' office.

Mr. Maki states that he believes Randy Yelle has committed intentional fraud with regard to zoning ordinances.

Mr. Maki pointed out that Bill Todd was granted a permit to construct a garage which is in violation of the ordinance.

He stated that the new "café" coming to Chocolay Township is in violation with not enough parking spaces and no building plan.

Mr. Maki stated that Walt's Auto Body has been in violation for years with the Carlson Tree Service trucks.

The restaurant on M-28 is in violation; this is zoned industrial but yet there is a gift shop at that location.

Mr. Maki pointed out to the Planning Commissioners that they are wrong in allowing Mr. Yelle to not give him the requested information he asks for. He stated that no one is following the ordinances.

End Public Comment at 7:56 p.m.

VI. OLD BUSINESS

A. Discussion – Junk Car Ordinance.

Attention was directed to the August 4, 2004 memo by Mr. Stachewicz regarding the revisions to the ordinance being worked on by Kristin Thorrington, NMU student. The suggestion was made in this memo to allow for a work session to amend the ordinance.

This was agreed upon by the Planning Commission. The comment was made that an ad could be placed in the local newspaper advising the public of this upcoming work shop. Another idea was to provide a fact sheet to the public so they are aware of the issues.

Old Business closed at 8:00 p.m.

VII. NEW BUSINESS

A. Consideration – Review and Distribution of 2003 Annual Report

The 2003 Annual Report was provided to the Planning Commission by Dennis Stachewicz, along with a letter which provides a cover for submittal. This cover letter was signed by chair, Bill Sanders.

Ken Tabor Moved, Estelle DeVooght Second, to authorize the Director of Planning and Research to distribute the Year 2003 (Annual) Report to the Township Board.

B. Consideration – Reschedule November 2004 Meeting

After much discussion regarding upcoming meetings and schedules, the following was proposed:

September 8, 2004 @ 5:30 p.m. A joint meeting with the Township Board is scheduled.
November 4, 2004 @ Planning Commission meeting with Planning Consultant.
November 8, 2004 @ 7:30 – regular meeting of the Planning Commission.

Mr. Stachewicz asked that the Planning Commissioners provide to him any critical areas they believe need to be incorporated into the agenda for meetings referenced above. He laid out the proposed route to be taken with the Planning Consultant pointing out that the Community Center property was very important, as is the snowmobile trail, commercial development, natural landscapes and transportation in general.

C. Discussion – Possible Zoning Ordinance Amendments

Mr. Stachewicz recommended to the Planning Commission that a committee be formed to look at the issues and incorporate into the implementation of the Comprehensive Plan Update.

Scott Emerson agreed saying that it is a good idea to wait and have the sub-committee meet to discuss the issues.

Mr. Stachewicz suggested that the sub-committee review one chapter/section at a time, identify the problems, provide guidance and/or solution to fix the problem and then submit a blanket amendment to solve the problems. He stated that the Planning Commission should not cover what the Zoning Administrator did by ordinance.

Estelle DeVooght asked if the Planning Commission can address Mr. Maki's issues so he is being recognized?

Mr. Stachewicz suggested that the sub-committee should do this.

The issues that the Zoning Administrator must address in the short amount of hours mandated to him was discussed at length.

Bill Sanders stated that the Planning Commission should not get involved in the grievances of Mark Maki with Randy Yelle.

The sub-committee will consist of Estelle DeVooght, Scott Emerson and Bill Sanders. This sub-committee will review their schedules and decide on a date to meet in November of 2004. Mike LaPointe volunteered to be a back up for the committee if needed. It was noted that this committee has held meeting at noon in the past.

VIII. PLANNING DIRECTOR'S REPORT

Mr. Stachewicz advised the Planning Commission of such subjects, including but not limited to the feasibility of land survey applications and looking at limiting costs. The snowmobile trail was a topic of conversation.

Scott Emerson again reiterated his concern of speed violation of snowmobiles and the need to enforce a curfew on when sleds can be on the trails located near residential areas in Chocoday Township. This was discussed in detail between Scott Emerson and Mr. Stachewicz.

Steve Kinnunen pointed out that the City of Ironwood has a decibel ordinance and suggested that the Township put in an ordinance with a decibel restriction to keep the noise level down. If the local police are stopping snowmobiles on a route basis, they can be checked at that time for a noise level.

Mr. Stachewicz stated he would follow up with the City of Ironwood to see what standards they currently have in place regarding the use of snowmobiles and noise levels.

A survey was conducted regarding the property on M-28 that Mr. Britton previously requested a variance for to construct storage units. The original map was correct. A quit claim deed between the property owners and Timbercrest has rectified this problem.

The Community Center being for sale was discussed. Mr. Stachewicz advised the Planning Commission that they should think about how they will address the zoning of the property.

IX. PUBLIC COMMENT – None.

X. COMMISSIONER COMMENT

Mike LaPointe remarked on an erosion issue regarding the Chocoday River near the M-28 public access site location. Mr. LaPointe said he asked Mr. Stachewicz to research the property ownership in the location of the site. He pointed out that there are grants available to fund the restoration of the river bank. Mr. LaPointe asked the Commissioners if he could bring this topic to the Chocoday Township Watershed Partnership on behalf of the Chocoday Township Planning Commission. The Planning Commission agreed to support the efforts of Mr. LaPointe.

Scott Emerson asked if the Planning Commission needed to forward correspondence to the Chocoday Township Watershed Partnership in support of Mr. LaPointe's request.

Scott Emerson moved, Seconded by Steve Kinnunen that the Planning Commission supports addressing concerns regarding erosion occurring along the Chocoday River at the M-28 public access site and seeks assistance from the Chocoday Township Watershed Partnership in obtaining funding to rectify this problem.

Aye 7, Nay 0. Motion Approved.

XI. INFORMATIONAL ITEMS AND CORRESPONDENCE

- A. Minutes – Township Board
- B. Correspondence – Mark Maki, 370 Karen Road to Planning Commission: Agenda Request
- C. Correspondence – Mark Maki, 370 Karen Road to Planning Commission: Agenda Request
- D. Correspondence – Mark Maki, 370 Karen Road to Planning Commission: Complaint
- E. Correspondence – Mark Maki, 370 Karen Road to Planning Commission: Appeal Request
- F. Review of results of Comprehensive Plan Survey

XII. ADJOURNMENT. Bill Sanders adjourned the meeting at 8:56 p.m.

Estelle DeVooght, Commission Secretary

Lori DeShambo, Recording Secretary

Charter Township of Chocolay Planning Commission

Monday, January 12, 2004

7:30 P.M.

Present: Bill Sanders, Estelle DeVooght, Mike LaPointe, Tom Shaw and Scott Emerson

Absent: Steve Kinnunen and Ken Tabor

Staff: Doug Riley, Director of Planning and Research, Lee Snooks, Director of Recreation and Grants Administration.

I. PUBLIC HEARINGS – None.

II. MEETING CALLED TO ORDER/ROLL CALL

III. APPROVAL OF THE MINUTES OF THE DECEMBER 8, 2003 MEETING AND DECEMBER 15, 2003 JOINT BOARD/PLANNING COMMISSION MEETING

Shaw moved, Sanders second, to approve the December 8, 2003 minutes as presented. Motion Approved.

DeVooght moved, LaPointe second, to approve the December 15, 2003 Joint Board/Planning Commission minutes as presented. Motion Approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Sanders moved, LaPointe second, that the agenda be approved as presented. Motion Approved.

V. PUBLIC COMMENT

None

VI. OLD BUSINESS

A. Discuss Update to Comprehensive Plan - Consultant Selection Process

The Planning Commission reviewed the final Request for Proposals (RFP) that was mailed out to 28 different planning consulting firms and the general timetable for the selection of a consultant. The Planning Commission also reviewed a draft proposal evaluation worksheet to be utilized by each Planning Commission member in preparation of the February meeting where the consultants to be interviewed will be selected.

Once all proposals are received, (after the January 30th deadline has passed), they will be immediately delivered to each Planning Commissioner along with the evaluation worksheets for review and evaluation in preparation of the February meeting.

VII. NEW BUSINESS

A. Discuss – Central Lake Superior Watershed Partnership - Request for sites of concern in Chocolay River Watershed

The Central Lake Superior Watershed Partnership requested Township input on sites of concern in the Chocolay River Watershed for possible inclusion in an updated Watershed Plan. The Planning Commission identified the following sites or issues that they would like communicated to the Watershed Partnership:

- Severe erosion of the bank of the Chocolay River just downstream of the DNR fishing access site on M-28.
- Foot traffic erosion on the bank of the Chocolay River just downstream of the Township's fishing access site on the corner of Green Bay Street and Lakewood Lane. Perhaps a need for steps to minimize future erosion.
- Erosion at Green Bay Street bridge. Road integrity impacts.
- Potential erosion from logging activity in the "Big Hole" area.
- Development near Silver Creek in Sands Township. Potential for downstream impacts.

- Need for monitoring of Green Garden Road bridge reconstruction.
- Are the existing sediment traps being maintained?
- Does the education/nature trail or Big Creek at the Beaver Grove Recreation Area need any attention?
- Can the Township provide direct or indirect assistance on any implementation or grant projects (now or in the future)?

These sites/issues will be forwarded to the Board at their next meeting for their input and then a letter will be forwarded to the Watershed Partnership.

VIII. PLANNING DIRECTOR’S REPORT

- 1) A 2003 Comprehensive Zoning Report is being completed by the Zoning Administrator and will be presented to the Planning Commission and Board in February.
- 2) Chair Sanders and staff will be meeting with the Noquemanon Water Trail organizers on Thursday to discuss Chocolay Township's participation in the water trail network.

IX. PUBLIC COMMENT – None.

X. COMMISSIONER COMMENT

- Emerson inquired as to the status of the screening fence at the end of Green Bay street. Upset that it had not been corrected yet. Sanders concurred.
- Emerson suggested that the Township evaluate its legal options under the Snowmobile Act if the Snowmobile Trail does not get closed for the season by March 31st.
- Discussion ensued regarding the City of Marquette's recent decision to charge non-residents higher fees for use of City parks and facilities.

XI. INFORMATION ITEMS AND CORRESPONDENCE

- A. Memorandum – Riley to Planning Commission – Re: Update on Snowmobile Trail/Issues
- B. Correspondence – Maki to Zoning Administrator/PC – Re: Zoning Issues
- C. Information - 2004 Meeting Dates

XII. ADJOURNMENT. Bill Sanders adjourned the meeting at 9:15 p.m.

Estelle DeVooght, Commission Secretary

Douglas Riley, Recording Secretary

Charter Township of Chocolay Planning Commission

Monday, February 9, 2004

7:30 P.M.

Present: Estelle DeVooght, Steve Kinnunen, Tom Shaw, Scott Emerson,
Ken Tabor and Mike LaPointe. (Bill Sanders arrived at 8:15 p.m.)

Absent: None.

Staff: Doug Riley, Director of Planning and Research; Lee Snooks, Director of
Recreation and Grants Administration; Randy Yelle, Zoning Administrator and
Lori DeShambo, Recording Secretary.

I. PUBLIC HEARINGS

- A. Conditional Use #69 – Kinnunen – 105 Deerview Trail – Home Occupation/Parking
of a 30' Commercial Vehicle.

Doug Riley advised the Commissioners that ten letters had been sent to the
Kinnunen's neighbors within 300 feet of their residence requesting input. There were
no telephone calls or written responses received.

Mike LaPointe asked the Kinnunen's if they had anything they wished to add to their
application of which Mr. Kinnunen stated they did not. Mike LaPointe then opened
discussion to the public.

Frank Ward of 1401, Co. Rd. 545, Skandia, MI and Mitch Lazeren of 2372 U.S. 41
West, Marquette, MI spoke. Mr. Ward pointed out that Mr. Kinnunen is requesting
parking of a 30' commercial vehicle in a residential area. At one time, an issue was
addressed to the Commissioners regarding multi-family dwellings versus single
family dwellings in this area. Others were denied multi-family dwellings in this area.
How is it that this area can now be used as a commercial area? Mr. Lazeren
concurred.

- B. 2004 Recreation Plan Update.

Lee Snooks advised that the last five-year plan had expired (adopted in 1998) and for
the township to be able to apply for MNRTF grants, the plan has to be updated. What
he is proposing is simply an update to the 2003 plan.

Mike LaPointe opened discussion to the public of which there was none.

II. MEETING CALLED TO ORDER/ROLL CALL

III. APPROVAL OF THE MINUTES OF JANUARY 12, 2004 MEETING

Scott Emerson moved to approve the minutes, Estelle DeVooght Seconded.
Aye 6, Nay 0. Motion Approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

The agenda for the Planning Commission meeting of February 9, 2004 was amended to move Old Business item VIA after the 2 public hearing items under New Business.

Ken Tabor Moved, Estelle DeVoight Second, that the agenda be approved as amended. Aye 6, Nay 0. Motion approved.

V. PUBLIC COMMENT

Mark Maki of 370 Karen Road, Marquette, MI stated that the court order regarding the junk yard issue with Mr. Waselesky is not being followed. Another issue he raised was the fact that Carlson Tree Service commercial vehicles are being stored at Racine's Auto Body shop. He believes they are there under the premise of auto repair. He also pointed out that the ZBA ignored his correspondence and concerns and that was a violation of the Open Meetings Act.

John Trudeau of 216 Cedar Lane, Marquette, MI spoke in support of Mr. Waselesky's junkyard and the approval.

Dick Arnold of 312 County Road 545, Marquette, MI asked the Planning Commission to clarify what the restrictions are for a commercial vehicle. Does it involve a length restriction, a weight restriction or a combination of both? He also pointed out that he submitted a petition months ago requesting an update to the junk vehicle ordinance.

Mark Maki again addressed the Commissioner's wanting to clarify his comments regarding the junk yard.

Randy Yelle advised that the Zoning Board has given Mr. Waselesky until May of 2004 to comply with the ZBA approval.

VI. OLD BUSINESS – Now incorporated into VII. New Business.

VII. NEW BUSINESS

A. Conditional Use #69 – Kinnunen – 105 Deerview Trail – Home Occupation/Parking of a 30' Commercial Vehicle.

Steve Kinnunen pointed out that Chris Kinnunen is his son; Carrie is his daughter-in-law. He asked the Commissioners how they felt about his involvement in this discussion and vote. The Commissioners agreed he could participate in the discussion but it would be prudent if he did not vote.

Doug Riley answered Mr. Arnold's inquiry of what the restrictions are for a commercial vehicle, which includes a length of 25' and not exceeding 16,000 gross vehicle weight. Mr. Kinnunen's commercial vehicle is exceeding the 25' restriction and that is why he is asking for this approval.

Discussion ensued by the Commissioners as to how this application is similar to another granted to Mr. Kimmes previously.

Chris Kinnunen stated that the commercial vehicle must be parked outdoors as of now due to the sudden on-set of his new business. He does not have the ability to park the vehicle on the north side of his garage as this contains a septic field. He is pursuing other options, i.e.: park on the east side of the house, extend fencing and plant vegetation. He also pointed out that his business is new and as it grows, he will house the commercial truck.

Estelle DeVooght asked Chris Kinnunen how often he would be moving this commercial vehicle to which he answered Monday through Friday with his work day starting at approximately 7:30 a.m. and ending by 6:30 p.m.

Estelle DeVooght advised the Commissioners that she did not believe granting the approval was a good idea as Bob LaJanesse was denied.

Steve Kinnunen asked if any negative feedback has been received by the township regarding Mr. Kimmes' activities on his property with three commercial trucks. Doug Riley and Randy Yelle both stated there have not been any negative comments received.

Scott Emerson Moved Ken Tabor Second that after review of Conditional Use request #69, the standards of Section 107 (A) and 701, and subsequently finding compliance with the standards for approval of the request, the Planning Commission approves Conditional Use request #69 with the following conditions:

- 1) That the applicant shall not have any employees that do not reside on the premises.
- 2) That the truck be parked on the **east** side of the garage.

Discussion ensued regarding the conditions to the requested approval. One issue was the planting of screening trees at the Kinnunen residence. Estelle DeVooght stated that these conditions have not been followed up by the Commissioners, thus the motion was amended to read as follows:

Scott Emerson Moved, Ken Tabor Second, that after review of Conditional Use request #69, the standards of Section 107 (A) and 701, and subsequently finding compliance with the standards for approval of the request, the Planning Commission approves Conditional Use request #69 with the following conditions:

- 1) That the commercial truck may be parked until June of 2004 at which time there will be a progress check and that vegetative screening must be planted by this time.
- 2) That the applicant shall not have any employees that do not reside on the premises.
- 3) That the truck be parked on the east side of the garage.

Aye 7, Nay 0. Motion approved.

B. 2004 Recreation Plan Update.

Mike LaPointe asked Lee Snooks if there had been any major changes made to the plan from the plan of five years ago. Mr. Snooks advised that there had been too many projects listed in the old plan to realistically address them all. He stated that the action plan is now shorter and more doable with only two new items added to the plan. All others are a carry-over from the previous plan.

Scott Emerson discussed the marina issue in many respects. One item that was of concern is the dredging of the river. Mr. Snooks pointed out that it is the public that seems to think this needs to be done, however, there isn't an understanding of the cost of such a venture. It was suggested that the word "marina" be changed to "access site."

Steve Kinnunen Moved and Bill Sanders Seconded that the wording be changed. Aye 7, Nay 0. Motion approved.

C. Selection of firms to interview - Comprehensive Plan.

At this time Bill Sanders suggested that he leave the room as he has a conflict of interest as working for one of the firms submitting a proposal, therefore, he should not discuss or vote on this issue. (The Planning Commission briefly discussed and Mr. Sanders left the meeting room).

Mike LaPointe advised the Commissioners that he has worked with some of the firms that have submitted a proposal. The Commissioners discussed the proposals and facts, i.e.: some firms are local and familiar with the area, some firms have prepared comprehensive plans for other townships similar to this townships needs and environmental issues.

The Commissioners at this time individually reported to Doug Riley their top three choices of firms to be interviewed based upon the scoring criteria.

The top three firms selected were the following:

- ✓ Beckett-Raeder
- ✓ Planning & Zoning Center
- ✓ U.P. Engineering

Doug Riley is to contact two of the firms (Beckett-Raeder and U.P. Engineering) and request they interview with the Commissioners at the Planning Commission Meeting of March 8, 2004. Planning & Zoning Center will have to be interviewed at another time as they have a conflict with the March 2004 date.

It was noted that Greg Seppanen should be in attendance at these meetings.

Doug Riley volunteered to the Commissioners that he would be happy to prepare a question format for use during the upcoming interviews. This will keep all questions similar yet allow each Commissioner to initiate questions as the interview progresses.

The Planning Commission will suggest to the Township Board what firm they approve, however, it is up to the Board to make the final decision/approval.

D. MNRTF Grant Application.

Lee Snooks referred to his January 21, 2004 memorandum regarding the Noquemanon Trail Network project and explained how the group is looking for a spot to camp, etc., at the bayou in Chocolay Township. Discussion ensued regarding the placement of lockers, tent platforms and signage.

Steve Kinnunen Moved Mike LaPointe Seconded that the Planning Commission reviewed the above request and recommends that the Chocolay Township Board submit a grant application to the Department of Natural Resources to fund the development of a Hiawatha Water Trail Access Site at the Chocolay Township Marina.

Aye 7, Nay 0. Motion approved

This will go before the Township Board next week.

VIII. PLANNING DIRECTOR'S REPORT

The City of Marquette provided correspondence to Chocolay Township regarding their draft master plan. An error was noted by Mr. Riley and brought to the City's attention. An update on the corridor plan was provided. There will be a meeting held by the Michigan Department of Transportation at the Negaunee Township Hall on March 31, 2004 from 7:00 p.m. to 9:00 p.m. and at the Lakeview Area in Marquette on March 30, 2004 from 7:00 p.m. to 9:00 p.m. to discuss the corridor plan. Of the 13 top crash intersections identified in the corridor; two are found in Chocolay Township (US-41/M-28/Cherry Creek and US-41/Silver Creek).

Steve Kinnunen asked if the Planning Commission can place this boulevard/corridor issue into the comprehensive plan of which Doug Riley stated he would be sure to include the commissioners' comments and concerns. This topic will be on the March 2004 Planning Commission meeting agenda.

IX. PUBLIC COMMENT

Chris Yuill of 158 Riverside, Marquette, MI spoke to the Commissioners regarding the snowmobile trail commenting on the speed of the sleds, the noise, the fume smells and timing of sleds passing.

Scott Emerson commented on the repeated trespassing of snowmobiles onto private property which is clearly marked as such.

Dick Arnold's concerns about the junk yard were discussed by the Commissioners.

Sanders Moved, Kinnunen Seconded, to ask the Board to direct staff to prepare an updated junk vehicle ordinance. Aye 7, Nay 0. Motion approved.

X. COMMISSIONER COMMENT

Scott Emerson believes Mr. Yelle is doing a good job as the Zoning Administrator.

XI. INFORMATION ITEMS AND CORRESPONDENCE

- A. Memorandum – Yelle to Board/PC/ZBA – Zoning Report/Issues
- B. Correspondence – City to Marquette to Riley/PC – City Master Plan
- C. Minutes – Township Board – January 19, 2004

XII. ADJOURNMENT. Bill Sanders adjourned the meeting at 9:28 p.m.

Estelle DeVooght, Commission Secretary

Lori DeShambo, Recording Secretary

Charter Township of Chocolay Planning Commission

Monday, March 8, 2004

7:30 P.M.

Present: Estelle DeVooght, Steve Kinnunen, Tom Shaw, Ken Tabor, Mike LaPointe and Scott Emerson (came in during Old Business)

Absent: Bill Sanders

Staff: Doug Riley, Director of Planning and Research and Cathy Phelps, Recording Secretary.

I. MEETING CALLED TO ORDER

Mike LaPointe called the meeting to order at 7:30 P.M.

II. PUBLIC HEARINGS – None

III. APPROVAL OF THE FEBRUARY 9, 2004 MINUTES

Under New Business-C. Selection of firms to interview – Comprehensive Plan
In the first sentence add “NOT” (he should NOT discuss or vote on this issue.)

Motion by Ken Tabor, Tom Shaw Seconded that the minutes of the February 9, 2004 meeting be approved with the above correction. Aye 5, Nay 0. Motion approved.

IV. APPROVAL OF AGENDA

Motion by Ken Tabor, Estelle DeVooght Seconded that the agenda be approved as presented. Aye 5, Nay 0. Motion approved.

V. PUBLIC COMMENT – None

VI. OLD BUSINESS

A. DISCUSS – UPDATE TO COMPREHENSIVE PLAN – Format for interviewing of selected firms.

Mike LaPointe reminded Planning Commission members of the special meeting on March 30th at 3:00 P.M. Each consultant interview will be 45 minutes. There will be three questions asked to the applicants, and then there will be 15 minutes for general questions.

Comments from Planning Commission members:

Doug Riley said he will send the consultants the questions, so they are prepared in advance. The Board has been informed and invited to the special meeting.

Mike LaPointe asked if the Board can ask questions? Will there be public at the meeting?

Doug Riley noted the short time limit for each consultant.

Scott Emerson said this special meeting must be carefully controlled because of the time limit.

Steve Kinnunen said if public is in attendance, can the consultants sit in for the other interviews?

Doug Riley said he would have them wait in another room until their interview time.

Doug Riley said this special meeting is not a public hearing.

Steve Kinnunen said since there is a time limit, the public cannot ask direct questions of the consultants.

VII. NEW BUSINESS

A. Consider Minor Amendment to Chocolay Woods Site Condominium Project

Doug Riley reported that the Chocolay Woods Site Condominium Project was approved by the Planning Commission and Board in 2002. They now would like to make a minor amendment to the project by adding land to Unit #2 and by creating a Unit #13. Randy Yelle and Doug Riley have no concerns with this amendment. If the Planning Commission recommends this amendment, it will then go back to the Board for approval. Doug Riley reported that about half of the lots are sold, and most of the homes are close to the road. He said it is looking nice.

Commissioners Comments:

Ken Tabor asked if lot #13 was included in the project originally?

Doug Riley said that it was not. Someone wanted it at first, but has since changed their mind. Doug Riley said that he told Glen Van Neste that it was not crucial that he be in attendance.

Steve Kinnunen asked if they would build on the backside of this lot?

Doug Riley said they could put a house in the front area. The lot meets the minimum width and it would be purchased by one owner, not split.

Scott Emerson Moved, Ken Tabor Seconded, that the Planning Commission recommends approval of the minor amendments to the Chocoley Woods Site Condominium Project titled "First Amendment" to the Chocoley Township Board. Aye 6, Nay 0. Motion approved.

B. Discuss MDOT Draft Corridor Plan

Doug Riley mentioned there is a public meeting on the draft US 41-M-28 Corridor Plan at the Lakeview Arena on Tuesday, March 30, 2004 at 7:00 P.M. He gave the Planning Commissioners copies of parts of the draft plan relating to Chocoley Township. He noted the one major item not included in the plan is the boulevarding for Chocoley Township. They (the consultant and MDOT) said it was not physically or financially feasible. They are reviewing other possible ideas to address some of the aesthetic issues. The whole plan is huge; from M-28 in Chocoley to Ishpeming. Doug Riley also noted to the Commissioners the crash analysis of 2000 to 2002, showing the top 13 top crash locations. Chocoley Township has 2 of the 13 crash locations; US 41/M-28 at Silver Creek Road and US 41/M-28 Junction and Cherry Creek Road. He also noted the 17 issues identified in Chocoley Township, these projects are classified under one of the following: L = long-term project; O = opportunity; or S = short-term. These projects include a bike path to connect the City of Marquette through Chocoley Township on the west side of the road with a tunnel to cross the road for pedestrians, bikes, and snowmobiles. It also includes closing and combining driveways, constructing a rear service road, improving turning radius on diagonal roads, intersection improvements, and identifying safer left-turns.

Commissioners Comments:

Scott Emerson asked how landscaping can be too expensive, but they can afford to put in a tunnel?

Tom Shaw suggested a foot/bike ramp instead of a tunnel.

Steve Kinnunen noted they should be looking at safety.

Doug Riley said they should coordinate the aesthetic treatment through Chocoley, Marquette, and Marquette Township.

Scott Emerson still believes we need boulevarding. When there is a white-out, you have no idea where you are on the road, it would be better to hit bushes/trees than oncoming traffic. We really need to push for boulevarding and landscaping. Safety should come first. He feels MDOT is wrong in wanting snowmobile trails away from the highways. We need to keep snowmobiles at 10 to 15 mph through residential areas and keep their speed down along highways where they are visible to police and laws can be enforced. Speed kills. Snowmobiles run through subdivisions at 70 mph. He disagrees with MDOT's plan. He thinks their guidelines are out of date. Snowmobiles are safer being along roadways, just look at the crash facts. They have it backwards.

Doug Riley said many projects are mentioned in this draft, they are not real specific. They are still exploring concepts. He noted that the reasons MDOT gave for no boulevarding was right-of-way area and cost.

Steve Kinnunen said Chocoley Township should put that in our Comprehensive Plan. We need to keep the door open for the safety aspects (boulevarding).

Scott Emerson hoped we could at least do partial boulevarding. We need to keep traffic in their specified lanes and eliminate head-on accidents.

Doug Riley noted this is a twenty-year plan, it has major reconstruction. They want to keep traffic free flowing. We are in the B-level, with a 30 crash rate.

Steve Kinnunen highlighted the fact that Chocoley had 2 of the 13 highest crash sites. And they say it is safe and our roads don't need boulevarding?

Scott Emerson said the access road project is great. How can they say a tunnel is cheaper than partial boulevarding?

Tom Shaw said once it was put in, who would maintain the boulevards? They are interested in traffic flow.

Scott Emerson noted that the City of Marquette has so many volunteers to plant the flowers, we could also find volunteers.

Tom Shaw agrees, but states MDOT wants to move traffic.

Steve Kinnunen said there are two groups; safety and MDOT. He feels we should eliminate left turn lanes from the rock cut to the motel.

Scott Emerson said boulevards slow down traffic, they do it in California and Colorado. How can MDOT say it is too expensive? Eliminating accidents is worth the money.

Steve Kinnunen again noted to implement it in our Comprehensive Plan.

Doug Riley said it could be written in the Zoning Ordinance. He said MDOT is starting to plan now. The engineers and planners do not agree. It is a battle for them to look outside of the box.

Steve Kinnunen said that traffic is building all the time. With all this truck traffic, something has to give. With all of the development in Marquette and Marquette Township, let's preserve our intent.

Tom Shaw noted that many cities have working boulevards.

Estelle DeVooght mentioned the boulevarding in Gwinn.

Mike LaPointe said we need to get this in their plan.

Steve Kinnunen suggested we get another name for boulevard. They just don't like that word. Maybe narrow-width boulevards, medians or green space barriers.

Scott Emerson noted that there should be a loop near the Welcome Center, where left-turn there is a safety issue.

Doug Riley said he would make some calls to see what he could come up with.

Scott Emerson said we need to find out what their biggest problems with boulevards are and we can give them solutions. We may have to change our terminology.

Doug Riley noted that the timing is right now.

Scott Emerson said he feels Chocolay Township presented the most organized corridor plan. Scott said he would like to present a proposal to MDOT.

Steve Kinnunen noted that time was limited, it must be point-specific from Chocolay Planning Commission.

Doug Riley said they already know we are passionate about the boulevards.

Steve Kinnunen said the safety aspect of the project must be looked at. He asked what the timeline for adoption was?

Doug Riley said it was early this summer.

Estelle DeVooght asked about the Big Creek Bridge plans?

Doug Riley said it is planned for this summer.

Doug Riley said he would do part of his Planning Director's Report now. He said MDOT is planning to refurbish the M-28 bridge in 2005, widening it by 5 ½ feet, not enough for snowmobiles to really use it safely, at a cost of \$832,000.00. He noted that Greg Seppanen wrote a letter to MDOT to have this bridge widened enough for snowmobile crossing and is also working with Adamini and Prusi in this matter. It could be a win-win situation for all.

Steve Kinnunen asked about the possibility of moving the crosswalk from Silver Creek Road since he feels it is a safety hazard.

Tom Shaw says that he has observed many problems because of the crosswalk.

Steve Kinnunen suggested relocating the crosswalk.

Tom Shaw said MDOT wants Chocolay Township to take the lead, let's get it out now. It is no longer useful as it is. Let's approve the removal and pass it to the Board tonight.

Scott Emerson started to make a motion, and then suggested we move it near Willow Farm/Mr. Movies and rebuild it so it is useful for bike and pedestrian traffic to cross the highway, making it handicap accessible. As it is now, very few people use it. He favors an attractive ramp for use in summer and winter. A tunnel will not work.

Steve Kinnunen said we should make note that it would connect the east side of Harvey to the bike path. At this time there is no safe way for bikers or hikers to cross the highway.

Tom Shaw noted that the crosswalk cannot be positioned near the intersection/stop lights. He wants to move it as soon as possible.

VIII. PLANNING DIRECTOR'S REPORT

Doug Riley reported on the Recreation Plan being state approved and that Dr. English owns land east and north of the Kawbawgam Pocket Park. Dr. English is interested in developing cluster condos and would like railroad grade access. He is looking to pull in second-home buyers. He would also look at integrating a trail to our cross-country trail. They will get a sketch plan for the Planning Commission.

IX. PUBLIC COMMENT - None

X. COMMISSIONER COMMENT

Scott Emerson stated that his neighbors that live along the snowmobile trail have been very frustrated with enforcement. The behavior of some snowmobilers is still bad; driving recklessly and trespassing are the main complaints. The Chocolay Police are also frustrated since there are no rules to enforce. Scott Emerson would like to see more tickets issued instead of warnings. High speeds are a big problem. Eleven tickets have been issued and 36 warnings; he thinks it should be the opposite. There is no speed limit for snowmobiles. They "rev" their engines at 2:00 in the morning, and people along the trail are fed up with it.

Doug Riley said he and Greg Seppanen have discussed the problems. They are looking at a workshop/open house with the DNR in April to get input from the residents. After compiling the complaints/comments, they will recommend to the Board what to report to the DNR. Greg Seppanen wants the residents to know that the Township does care, and are trying to do everything to help the situation. This is the monitoring year for the DNR.

Steve Kinnunen asked how many properties are along the trail, and if it would be possible to do a mailing asking for their input? Doug Riley stated 270 parcels, and said we could do a mailing. Residents could put in writing their concerns so the Township has it all on paper. Residents could come to the meeting in April to drop off their letters and make comments. Now that residents have experience with the trail, they can make objective recommendations. We need all comments in writing for documentation.

Doug Riley asked where should the impact line be (who should be sent the letter)? Scott Emerson said all villagers are actually impacted in some way or another. People adjacent to the trail know how it was before and after and they are the most affected. Compared to residents along County Road 480, for example, they are not really directly affected. Doug Riley suggested using the list the DNR used to send out a mailing.

XI. INFORMATION ITEMS AND CORRESPONDENCE - None

XII. ADJOURNMENT. Mike LaPointe adjourned the meeting at 9:00 P.M.

Estelle DeVooght, Commission Secretary

Cathy Phelps, Recording Secretary

Charter Township of Chocolay Planning Commission

Tuesday, March 30, 2004 SPECIAL MEETING
3:00 P.M.

Present: Steve Kinnunen, Tom Shaw, Mike LaPointe, and Scott Emerson
Absent: Estelle DeVooght and Ken Tabor. (Bill Sanders was presenting - UP Engineers)
Staff: Doug Riley, Director of Planning and Research, Lee Snooks, Recreation and Grants and Cathy Phelps, Recording Secretary.

I. MEETING CALLED TO ORDER

Mike LaPointe called the meeting to order at 3:00 P.M. He explained the Special Meeting was for interviewing three companies for updating the Comprehensive Plan. The Planning and Zoning Center will be at 3:00, Beckett and Raeder at 3:45, and U.P. Engineers at 4:30. This will be a very structured format, with two public comment times.

II. PUBLIC COMMENT

Cathy Peterson had Mike LaPointe read the letter she presented to the Planning Commission and said she also wanted it given to the Board. She thought the Planning Commission should not consider UP Engineers since Bill Sanders is on the Planning Commission and Zoning Board of Appeals. She felt it was a conflict of interest.

III. COMPREHENSIVE PLAN UPDATE – CONSULTANT INTERVIEWS

A. PLANNING AND ZONING CENTER

Mark Wyckoff, President of PZC and editor of Planning and Zoning News, gave a PowerPoint presentation. He gave their qualifications working with transportation/land use, topical experience, design guidelines and community character enhancement, farmland and open space preservation, environmental and natural resources, public facilities and services, group facilitation, special problem solving, and training. He noted they have the largest in-house database of any firm in Michigan. He noted the awards and special services they offer, including his Planning and Zoning News, which is the only state specific monthly magazine on planning and zoning in the country. He described the current planning projects they are now working on all across the state.

He answered the three questions asked of all the consultants:

- 1) **Why we should select PZC?** They do great work, are familiar with the Township, as they are working on the US 41/M-28 corridor project. It is an opportunity to begin implementation of the corridor plan, and they are already working in the area, which spreads the travel costs among several clients.
- 2) **How does PZC plan to involve the public/why will their approach be successful?** They will send out a survey to local leaders (50 maximum), have a two hour public vision meeting, take walking/driving tours of key spots, have town meetings on draft plans, review plan with adjoining jurisdictions, have more public meetings. He feels good project management will make it successful.
- 3) **What is your overall impression of Chocolay Township?** He feels we are missing opportunities (community character, commercial, rock overlook potential). US 41/M-28 corridor is visually uninspiring. It could look much better. There is a need for careful land use planning and an interconnected street pattern (continuing the US 41/M-28 intersection design), and to build on the good framework of the current plan.

Commissioners questions:

Scott Emerson asked what their timeframe was? Mr. Wyckoff said that would depend on the Planning Commission, but it usually is 12 months with 5 or 6 special meetings.

Tom Shaw asked if there were grants to purchase property? Mr. Wyckoff answered no, unless there are some through MDOT to increase jobs (not retail but wholesale or industrial jobs).

Steve Kinnunen stated that he saw they were involved in Leelanau County where congestion control is important, could he bring those concepts to Chocolay? Mr. Wyckoff said they have done lots of transportation planning.

Scott Emerson stated that many residents in Chocolay have not lived anywhere else and have not seen other road patterns. Mr. Wyckoff said it is pay now or pay later! Later is always more expensive. Do the residents want to do it now the right way, or leave it to the future residents to pay more later? He noted the Planning and Zoning News that is going into publication now will have an article on this subject.

B. BECKETT AND RAEDER

John Iacoangeli said he wanted an informal meeting with the Planning Commission. He brought three hard copies of projects they are working on for the commissioners to look at. He explained when Beckett and Raeder was founded, and what they have done locally. He said he has knowledge of the local area from working in Marquette and he knows what balance of quality of life and natural resources the people in the area want. He understands the population base, employment and dynamics of the area. By working with the county he is familiar with the Chocolay Watershed. He figures the timeline would be about six months. He made mention of his website: ourcommunityplan.com for the city of Marquette. He accepts emails from residents from that site. He feels there should be three or four community vision sessions, 2 to 3 hours each to find the critical issues. They would meet with the Planning Commission six or seven times. His bid is within the budgeted amount.

Mike LaPointe asked if he is in the area frequently? Mr. Iacoangeli said lots lately. They have been working with the city of Marquette since 1996 and will be for a couple more years. They also have projects in Petoskey, Alpena, and near the straits, so they can structure time for Chocolay accordingly. Mike LaPointe also asked him about the three questions given prior to the interview.

- 1) **Why should your firm be selected to complete our Comprehensive Plan?** Mr. Iacoangeli said they are familiar with the particulars of the area, and have working knowledge of the area and know of the special interest groups.
- 2) **What is your overall impression of Chocolay Township?** Mr. Iacoangeli said it is a large area, with lots of natural beauty. The eastern side is mostly the Escanaba State Forest which is unbuildable. The western part is buildable, holding the highest concentration of the population. He has knowledge of the Chocolay River /Watershed. The area has seasonal tourists that hunt and fish. It has small villages and public parks, which have to be taken into consideration when planning the priorities in the future. The typical resident is 38 years old, with an income of \$55,000 in allied business. Only 3% of the residents are living in poverty.

The commissioners had no questions.

Mr. Iacoangeli concluded by saying he is very interested in doing the Comprehensive Plan, he knows the other two applicants and has worked with them. The Township has three good firms to choose from. They are equipped to help the Township.

C. U.P. ENGINEERS

Pat Coleman and Bill Sanders made the presentation. Mr. Coleman gave the history of the firm, stating they have been in the U.P for 25 years. They have experience working in the northern Lower Peninsula and the U.P. with small communities whose residents want to know their neighbors, love nature, and do not want to live where there is heavy traffic. They were part of the team developing the Marquette Master Plan. They have been involved with a steering committee, doing traffic studies, and traffic corridors. They were involved with MGH expansion and the Lower Harbor planning. They worked with Calumet Township with their land use plan, zoning ordinance, six-month moratorium on US 41 development, and down zoning of some commercially zoned land, along with their Site Plan Review. In Ontonagon Township they developed a future land use map, made zoning ordinance revisions and Site Plan Review. For the City of Escanaba they defined future residential growth area, worked on highway corridor issues, neighborhood preservation, redevelopment and mapping. They know Chocolay Township concerns of commercial areas, rural land preservation and cluster zoning. He knows that some people think there may be a conflict of interest with Bill Sanders being on the Planning Commission, but they have everything on the table. Bill Sanders will not be voting on this issue. Mr. Coleman described the approach they would take to complete the Comprehensive Plan. They will collect information, get the public

involved, summarize and develop a plan and have workshops with the Planning Commission. Bill Sanders will play a key role, as he is here all the time. This benefits us all. He can give updates at every meeting. They will analyze population characteristics and trends, housing data, commercial and economic development, public facilities and utility plans. Then they will implement what the community wants. Their project fee is \$38,132 total.

Pat Coleman answered the three interview questions:

- 1) **Why should they be hired?** Mr. Coleman said they understand what Chocolay Township wants. Bill Sanders has the insight, and has the background working with the Township. Bill Sanders said this will give Chocolay the opportunity to apply out-of-the-box planning. Mr. Coleman noted that Mr. Sanders has recently received his landscaping certification. U.P. Engineers understands the Chocolay area's winters and their special culture.
- 2) **How will they involve the public and obtain their support?** We have special challenges before us. Bill Sanders is a local resident and Pat Coleman is close (Houghton). They have a multi-disciplinary team of professionals, extensive community planning and design experience along with a track record of creativity and problem solving. They know Chocolay wants to maintain our rural sense of place. They want to have informal neighborhood meetings and break down into focus groups (example: recreation, village, and farmers). They would have some brainstorming sessions, have idea competitions with prizes, using the local media, internet, and getting the youth to participate.
- 3) **Their impression of Chocolay Township?** It is a rural area, close to Marquette City, has lots of open space, close knit neighborhoods with long-time residents who like the small town image and have a sense of belonging. They feel residents want harmony with the environment and development. Bill Sanders said the residents like Harvey the way it is, and we should make an effort to keep things that way.

Commissioners questions:

Steve Kinnunen asked who will be doing the hands-on work? Mr. Coleman said he and Bill Sanders will be doing it, except for the data collection. They will conduct the meetings. Their hours planned may be moved from one area to another as they go through the plan. This planning process has bumps and turns as they work.

Steve Kinnunen also asked what the timeline would be? Mr. Coleman said approximately one year, with 8 public meetings planned.

Mike LaPointe concluded the interview section at 5:12 by asking the Planning Commission members to take time and digest all the information given by the three candidates, and at the next meeting on April 12, they will vote by ballot. If they need more information from any of the candidates, they are to contact Doug Riley. He asked if anyone had any questions now? Steve Kinnunen wanted to know who would implement the work from each firm? Doug Riley said he has that information on the proposals, and would include that in the next packet.

VI. PUBLIC COMMENT

Cathy Peterson feels Scott Emerson should not talk with the other Planning Commission members to influence their vote. She still feels Bill Sanders (U.P. Engineers) should not be given the job, as it is a conflict of interest. He was part of developing the parking lot in Beaver Grove, and that area is a problem. She wants her letter to go to the Board.

VII. COMMISSIONER COMMENT

Mike LaPointe thanked Doug Riley for all the work he put into planning this interview.

VIII. ADJOURNMENT

Mike LaPointe adjourned the meeting at 5:18 P.M.

Charter Township of Chocolay Planning Commission

Monday, April 12, 2004

7:30 P.M.

Present: Estelle DeVooght, Steve Kinnunen, Scott Emerson, Ken Tabor and Mike LaPointe.

Absent: Bill Sanders and Tom Shaw.

Staff: Doug Riley, Director of Planning and Research and Lori DeShambo, Recording Secretary.

I. PUBLIC HEARINGS – None.

II. MEETING CALLED TO ORDER/ROLL CALL

Mike LaPointe called the meeting to order at 7:34 p.m.

III. APPROVAL OF THE MINUTES OF MARCH 8, 2004 MEETING AND MARCH 30, 2004 SPECIAL MEETING

Ken Tabor moved to approve the minutes of the March 8, 2004 meeting, Estelle DeVooght Seconded. Aye 5, Nay 0. Motion Approved.

Scott Emerson moved to approve the minutes of the March 30, 2004 meeting, Steve Kinnunen Seconded. Aye 5, Nay 0. Motion Approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Motion by Steve Kinnunen, Ken Tabor Seconded that the agenda be approved as presented. Aye 5, Nay 0. Motion Approved.

V. PUBLIC COMMENT – None.

VI. OLD BUSINESS

A. Consider – Update to Comprehensive Plan – Recommendation of Consultant to Township Board

Mike LaPointe reiterated to the Commission the previous meeting wherein potential consultants interviewed. The Commissioners were asked to submit to Mike LaPointe their top choices for recommendation to the Township Board. How the voting process was to work was clarified. The Commissioners were asked if they would like to discuss the interviews/potential consultants before voting to which the response was that there was no need.

Doug Riley advised the Commissioners that Tom Shaw had remarked that he was to drop off his choices prior to the meeting as he knew he would not be in attendance, however, he did not provide the Commissioners with that information.

Scott Emerson remarked that the presentation provided by the Planning and Zoning Center indicated confidence and experience. He believes that the process will go smoothly with this group.

Estelle DeVooght was not in attendance at the interviews and, therefore, stated she could only vote according to the paperwork/proposals she had read.

Steve Kinnunen remarked that he liked the Planning and Zoning Center as well as they follow ordinances and will help with the comprehensive plan.

Ken Tabor stated that he also was unable to attend the actual interviews. He favored U.P. Engineers and Architects, however, he was happy with the Planning and Zoning Center as well.

Doug Riley reminded the Commissioners that their first and second selections were merely a recommendation to present to the Township Board.

Scott Emerson Moved, Ken Tabor Seconded, that the Planning Commission recommends that the Township Board hire the firm of Planning and Zoning Center based upon the content of their proposal and interview to complete the update to the Township Comprehensive Plan. The Planning Commission also recommends that the firm of U.P. Engineers and Architects be considered its second choice in the event that the Planning Commission's first choice cannot complete the project for some reason. Aye 5, Nay 0. Motion Approved.

VII. NEW BUSINESS – None.

VIII. PLANNING DIRECTOR'S REPORT

Doug Riley advised that on April 28, 2004 from 4:00 p.m. to 7:00 p.m at the Township Hall, entities such as the Township Board, DNR, local law enforcement, Chocolay Township administration and recreation specialists would be on hand to address the communities concerns and comments regarding the past snowmobile season and the outcome of the newly provided trail. A newsletter has been provided to the residents (joint letter by Township and DNR) inviting people to stop by or drop off a written comment to let these entities know how the season fared.

Scott Emerson asked if these questions/comments/responses were to be recorded of which Mr. Riley responded yes. A standard comment sheet is being devised which will be consistent for reporting purposes.

A meeting has been scheduled for April 14, 2004 at 6:00 p.m. at the Township Hall with the Michigan Department of Transportation to discuss the Little Lake Road detour this summer. Little Lake Road is being upgraded and all property owners on Little Lake Road were invited to this meeting.

Mr. Riley commented on the follow up to the corridor meeting stating that Mark Wyckoff has reviewed this matter and will have a discussion with MDOT. Access management regulations were addressed and Mr. Wyckoff is to look at Chocolay Township in this regard. Mr. Riley thought perhaps a special meeting could be held in May or June of 2004 regarding this matter.

The terms of Mike LaPointe and Scott Emerson as members of the Planning Commission are up in May of 2004. They are to advise Greg Seppanen whether they wish to be reappointed.

Randy Yelle has volunteered to cover the vacancy of the Director of Planning and Research until a Director has been hired to replace Doug Riley. Lee Snooks is to assist Greg Seppanen for the Township Board. The deadline for applying for the Director of Planning and Research is next week and Chocolay Township was in the process of interviewing.

The Planning Commission discussed how fast the past five years have gone by that Doug Riley was the Director of the Planning and Research for the township. He was much appreciated and wished the best of luck. Mr. Riley stated it was a hard decision to make but feels he is making the right move.

IX. PUBLIC COMMENT

Mark Maki addressed Doug Riley with a "good luck" and thank you for all you have done for the township.

X. COMMISSIONER COMMENT

Again, the Commissioners thanked Mr. Riley for a job well done and asked that he "send pictures."

Scott Emerson remarked that ORV's are now using the snowmobile trail(s) and that the local ordinances should be checked regarding usage and fines in that regard.

Mr. Riley stated the stage has been set for that and that Chocoday Township specifically asked to be excluded from the ordinance that allows ORV on streets. This may extend to the use of the snowmobile trail.

Estelle DeVooght asked if this issue could be addressed in the meeting wherein the township discusses with the DNR the past snowmobile season.

Scott Emerson stated he would like to see fines endorsed regarding ORV's on the snowmobile trails and Doug Riley suggested this could be addressed at the April 28th meeting as law enforcement would be in attendance as well.

There has been no word from the Supreme Court as of this date.

XI. INFORMATIONAL ITEMS AND CORRESPONDENCE

- A. Correspondence – Riley to Board/PC – Re: Resignation – Accepted position in Colorado.
- B. Minutes – Township Board March 15,2004
- C. Information – Police Department – Re: Report on Township Snowmobile Patrol and Complaints.

XII. ADJOURNMENT. Mike LaPointe adjourned the meeting at 8:10 p.m.

Estelle DeVooght, Commission Secretary

Lori DeShambo, Recording Secretary

CHARTER TOWNSHIP OF CHOCOLAY PLANNING COMMISSION
SPECIAL MEETING
Tuesday, May 18, 2004
7:30PM

Present: Bill Sanders, Ken Tabor, Steve Kinnunen, Estelle DeVooght, & John Trudeau

Absent: Mike LaPointe, Scott Emerson & Tom Shaw

Staff: Randy Yelle (Zoning Administrator), Dennis Magadanz (Public Works Director), Dennis Stachewicz (future Director of Planning & Research) & Mary Kratzke (Recording Secretary)

- I. Mark Wyckoff stated that the purpose of this special meeting was two reasons:
- A. Review of the Draft Access Management Regulations
 - B. Start the Updating of the Township's Comprehensive Plan

Draft Access: where you put driveways and/or other means of access on the property and how access is controlled from on the property relative to other public roads. Can be in the form of shared access, frontage roads, rear service roads, parking lot connections, no direct access...there are lots of different ways in which access can be controlled. This is done because scientific evidence shows that crash rates are dramatically higher when you have a large number of driveways in relatively short distances due to the number of conflict points that exist where people want to turn off of the roadway into driveways of interest. In Chocolay Township, we don't have very high crash incidents along the corridor except at the M-28/US-41 intersection and US-41/Silver Creek Rd.

There are two fundamental challenges in going ahead with the plan:

1. MDOT owns/controls only the right-of-way and no one is permitted to make connection to any state highway without MDOT's permission. This works okay where land has not been developed.
2. Local zoning has exclusive jurisdiction up to the right-of-way and this could have a huge impact on the road.

Conflicts were starting to occur along the corridor and based on experience, the Access Management Guidebook explains all this. MDOT realized that the only way to control this was with a coordinated process of decision making between the local government and MDOT along US-41 and a common set of regulations.

Mark Wyckoff reviewed a "draft model ordinance" that is in the Access Management Guidebook...marked up for jurisdictions that have not started the process yet....where zoning ordinances would fit, what section numbers it would be and what parts/pieces may be missing from the ordinances that need to be added.

Chocolay Township has already signed the memorandum of understanding w/MDOT to participate in this process and ultimately adopt an ordinance to implement it.

This is the 2nd to the last step that is identified in that memorandum of understanding. The last step is to participate with a site plan review committee that meets with the 7 other jurisdictions on the corridor and MDOT to go over any projects that are proposed on US-41.

Overview of what's in the document:

Shaded text: standards we may need to look at....need to be particularized to Chocolay Township.

Red text: Adaptation of the "model" to fit our area.

Page 1 – Transmittal of the elements that are included.

Page 2 – Sample paragraphs that could be added to our Master/Comprehensive Plan to adopt by reference the US-41 plan as part of our Master Plan. Since Chocolay Twp. Is at the start of our update plan process, this should make it easier to us. It'll just be a part of the plan; not an amendment.

Draft Access Plan Amendments: 3 categories:

1 – Section 905 Fees in Escrow for professional reviews. Gives the township the authority to require a developer to provide escrow money for professional reviews. Local governments can require a developer to pay costs of analyses (ie, traffic impact) for projects but only if the ordinance requires. Most communities that have this threshold do not use it often, but when they do need it, it's there.

2- Section 906 Access Mgmt. Regulations: Detailed information on how land is used relative to roadways.

Almost all jurisdictions, once they have gotten in to this, have wanted to adapt this to roads other than on the corridor. We have a choice as to whether we want to apply this to anything other than US-41 and this can be done on (Page 4; paragraph 1...)

List of Definitions only apply to *this section* of the ordinance.

Detailed provisions. (driveways, frontage roads, service roads, etc.) These are techniques that have a huge, huge ability to allow traffic to move back and forth between places w/o putting it on the roadway. MDOT cannot require these because it is o/s the scope of their authority; but it's fully w/in our authority.

Pg. 28 – Incentives: (Sec. 2) Some townships have dropped this section completely, re-numbering #3 to #2. Mark wants us to consider doing that when we are doing this one.

Waiver: Mark feels this is much more effective. Variances are purposely drafted so that they are very, very, very hard to get because the Board of Appeals can undermine the integrity of what you are trying to accomplish. But, waivers are not as difficult to get as long as certain circumstances are met.

3 - (last 2 pages): Pretty important for Choc. Twp. – Not so important if you only apply it to US-41 up to M-28. If we choose to include other county primaries, then it becomes very important. Where you have large sections of undeveloped property, the fastest way to “loose the war” is. (Locks in the access as of the date that you adopt this ordinance...it will guarantee one point of access and it will save lives by preventing accidents/injuries.)

- Preserve right of access for number of smaller lots
- Preserve plat process of subdivisions
- ie, Has only one access road vs. 5 frontage lots each w/their own driveway.

Commissioner Comments –

Estelle – How can you talk a property owner into making one d/w – he'd have to have a cul de sac, etc. – when all he would have to do is sell 5 lots – how would you talk a property owner in to going that way? (Would not have to talk him in to that; it would be a regulation and we are just trying to preserve our investment in that road for our use and for future use along with trying to protect lives and property damage & injury). Mark noted that MDOT has a brochure available for commercial development. At present, there is not one available for residential development. MDOT also has a brochure available on Driveway Permits.

Kinnunen – States that proof by example, there isn't anybody in this area that won't admit that the development that they pursued in Marquette Township that causes all those road problems, know of access management problems...are the same typical ones that you are going to be creating with the develop. Along any main artery thru our twp. Or anybody else's, we don't even have to educate them; just tell them what we are trying to prevent.

Mark: Takes an education process. It should be noted that there are a total of 13 high crash intersections on this corridor, two of which are in Choclay Twp.

Kinnunen – Concerned about presenting this to the public; possibility of having something drafted for use by all areas in educating citizens. Also stated that we should stress safety issues, too.

Kinnunen: Suggested that this may be the time to consider including a portion of M-28 in this plan also to make sure that commercial development is done with an access road.
(major commercial development corner)

Mark: US41 – M-28 is **the** lifeline for all 8 jurisdictions along this corridor – this is the trunkline that connects us to everything else and everybody is trying to make that corridor do everything for them instead of building parallel roads/access roads for them.

ACTIVITIES RE: PLAN UPDATE:

Dennis Stachiewicz needs to create a sub-committee from the planning committee, zoning administrator and preferably a board member or two, to focus on this. (Mark does not recommend the entire planning committee, however).

Sanders - Feels that we should include all roads in this plan. Kinnunen agreed, stating that it wouldn't hurt residential development at all. John Trudeau also mentioned that there is a real problem in on US-41 in Beaver Grove at 480.

Included on Dennis's "**to do**" list of activities related to the plan:

1 – **Leadership survey** from up to 30 persons (members of the Planning Commission, Township Board, Zoning Board of Appeals, the Zoning Admin and Public Works Director) Also should include local leaders such as the clergy, parks & rec director, etc.) Mark gave the survey packets to Dennis to be distributed. Mark also noted that these surveys are due back to him by **June 25 and it is critical that he gets them back**. Dennis should maintain record of who these were given out to.

2 – **Conduct Visioning Town Meeting** - Everyone in the township is invited to participate and give feedback. 6-8 people/round table with a recorder (planning commissioner) who will record observations being made by the public on that particular element. First session will be "Prouds/Sorries" exercise. This will probably be the only activity in this planning process that will actually be fun. EVERY idea is recorded; nothing is censored. People will identify people/places/things/events/activities within twp of which they are proud and the same for which they are sorry (wish they were offered, but currently are not).

At end, 3 proudest "prouds" and 3 "sorriest" sorries will be chosen and recorder will present.

After that, a brief trends/conditions report will be given to tell the citizens about sign. Trends that are taking place.

Break: serve refreshments...keeps enthusiasm high.

Main exercise: Visioning – Ask people to go 20years in to the future, ie 2025 – describe people/places/things/events/activities as they want it to be 20 years from now. Record info and vote what they want to become a reality for each group. This is valuable for Mark to give direction as to what they need to look at. However, this is only valuable if you get people to participate.

Package includes techniques that you can use to get people to come to this session:

1 – Pick date that does not have a lot of local conflicts

- Estelle mentioned that July would be better than August due to all the local fairs and fests.

- Sanders suggested that we could possibly piggyback this with the Chocoday Summerfest as people will be out and about anyway.
- Mark stated their preference would be to have it in July, however Mark will be on vacation the first two weeks in July.
- Kinnunen suggested holding it at the Cherry Creek School for this “new” beginning rather than holding it at the old Silver Creek School, which has caused a lot of contention in the past.
-
- 2 – “Talk it up” big time to neighbors, friends and ask them to bring a friend and/or enemy. (Cross-section is most valuable); it would be ideal to get 150 people in attendance. Phone tree network would work best.

“Help Plan Chocoday for 2025”...you have a chance to make a difference.

Same day we do JOINT VISIONING TOWN MEETING, Mark would like to do a co-ordinating walking/driving tour of key places in Chocoday Township.

Need to secure a photographer to take ***digital*** photos of great views, fall pictures, winter pictures before & after plows; need to include all four seasons. Sanders mentioned Jim Carter, former Choc. Twp. Resident.

Sanders asked about the possibility of using the webpage for the public to submit their pictures and suggestions. Mark reminded us that when photos are submitted, the submitter should be identified so that credit can be given.

John Trudeau and Bill Sanders both mentioned that they want to be involved when Dennis makes plans on this project.

Next Planning Committee meeting is scheduled for June 7.

Randy Yelle, Zoning Administrator

Mary Kratzke, Recording Secretary

Charter Township of Chocolay Planning Commission

Monday, June 7, 2004
7:30 P.M.

Present: Estelle DeVooght, Steve Kinnunen, Scott Emerson, Ken Tabor, Mike LaPointe and Tom Shaw.

Absent: Bill Sanders

Staff: Dennis M. Stachewicz, Jr., Director of Planning and Research and Lori DeShambo, Recording Secretary.

I. PUBLIC HEARINGS

- A. Text Amendment #04-01: a request to change the R-1 District in Sec. 10 T47N-R24W, parcel number 52-02-110-063-00, 3.67 acres, located between Timbercrest Garden Center to the west (C-3) and Residential (R-1) to the east to a Planned Unit Development District for the purpose of constructing a mini-storage complex.

Mike LaPointe open the public hearing advising those in attendance at the June 7, 2004 meeting that they will all have a chance to speak. He reiterated the request outlined in I. A. regarding text amendment. Mr. LaPointe then asked Dennis Stachewicz to provide an overview.

Mr. Stachewicz referred to his memorandum dated June 4, 2004 where he laid out the issues to the Planning Commission and advised them to consider whether or not the PUD District will allow enough control over the proposed development to support the standards outlined in Section 508 of the Zoning Ordinance and not have a detrimental affect on the resident neighborhood to the east.

Mr. Stachewicz pointed out the following issues:

- The parcel is currently vacant and serves as a buffer to the residential area.
- The parcel has natural gas and electricity available there now.
- Water would be via private well; however, this is not needed for a mini-storage complex.
- The soil type information has been provided and if the request is granted, landscaping will have to be done to the parcel.
- The Comprehensive Plan was cited as the site design is critical to this request.
- Another issue raised was future land use allocation per the Comprehensive Plan.
- The history of requests for use of this parcel was discussed (more particularly the request by Roger Wotring in 2002) and the point made that the Planning Commission should discuss whether or not conditions have changed from previous denials for use of this property.
- There is not a landscaping or lighting plan outlined in this request of which Mr. Stachewicz believes is important.
- The site plan does not include building elevations, which should be addressed.
- "Spot" zoning was discussed.
- There has been no feedback from the residential area located near the parcel of land in question; nothing positive or negative in writing.
- Winter maintenance should also be considered.

Mr. Darwin Britton then addressed the Commissioners regarding his request. He provided photographs of what the proposed storage buildings would look like. He described the building materials, drainage and proposed landscaping. He outlined the proposed phases of building storage compartments. Mr. Britton is a grade foreman for Lindberg Gravel and, therefore, is knowledgeable of the requirements for a grading easement. He would like to put up an illuminated sign and use 2 lights with 50 watt bulbs per building, which will deflect to the buildings. The summer hours for the proposed mini-storage buildings would be 8:00 a.m. to 8:00 p.m. Mr. Britton owns a snow removal business and would take care of the snow removal himself at 8:00 a.m. or shortly thereafter.

Mr. Britton has an architect “standing by” and would provide the Commissioners with a plan within 2 weeks of approval. He stated that the elevation of the proposed mini-storage buildings would be comparable to Timbercrest.

Mr. LaPointe opened discussion to the public at this time.

Charles Hudson – 104 Dana Lane. His home would be located closest to the proposed buildings. His drain field is located close to the property in question. He stated that there is too much activity on Dana Lane as it is now. The jack pine trees to be used as a buffer for noise have very little branches. He is against building commercial on this property and would prefer to see a home built there.

Gordon Uren – 116 Dana Lane. Mr. Uren had several concerns. He quoted from the Zoning Ordinance that an R-1 zone is intended to be used for family housing. He quoted from Sections 215 and 505 of the Zoning Ordinance and said the request does not meet the intent of zoning. He said standards 1, 9 and 11 are not being met. He referenced potential ground water contamination from misuse of the storage buildings, i.e.: changing oil on vehicles, etc. He believes this area to be “spot” zoning.

Charles Hudson – 104 Dana Lane. Mr. Hudson pointed out that he does not believe the square footage for the parcel in question is correct.

Kim Erickson – 120 Dana Lane. Mr. Erickson also does not believe the square footage outlined in this request is correct. He pointed out that he has attempted to purchase this parcel of land, however, it is priced as “commercial” property, thus too expensive.

Bill Beckman - 1719 Woodland. Mr. Beckman said this parcel of land has been in the family for 100 years. He and his brother, Glen Beckman, would like to sell the property to Darwin Britton. They understand the concerns of the neighborhood, however, they feel they have the right to sell this property.

Glen Beckman addressed the issue of the footage in question and gave history as to the property lines for this parcel. He stated that they have been trying to sell that parcel for years and that no one wishes to purchase it to build a home next to Timbercrest.

There is 100 feet in question that is owned by Dana Varvil that was discussed with no resolution.

Estelle DeVoght asked if this land has been surveyed. Glen Beckman affirmed.

Mr. LaPointe agreed that there was a discrepancy in the footage of this parcel and this will be addressed. Public comment regarding this item was closed.

- B. Private Road #04-01: a request to construct and maintain a private road in Sec. 9 T47N-R24W off of Jennifer Lane across from Candee Lane, to serve development of 20.1 acres, parcel number 52-02-109-128-00.

Mr. LaPointe reiterated the request outlined in I. B. then requested that Dennis Stachewicz provide an overview.

Mr. Stachewicz pointed out the following issues:

- Eric Keough is the applicant.
- There is an area in the proposed cul-de-sac which is 5 feet lower than the grade of Jennifer Lane.
- Naming the private drive “Pine Cone Trail” has been researched and approved by the State Police Central Dispatch.
- The applicant is responsible for easements.
- This application is purely for the use as a private road and not a subdivision.
- Applicant will attempt to obtain a permit to construct at least one home. Said property would allow for four parcels to be purchased for constructing homes.
- Mr. Keough’s proposal meets the necessary requirements.
- The proposed road does not appear to have an impact on the existing neighborhood.

- Private roads usually get turned over to the municipality in the long run, which is why the design should be critically reviewed.

Mr. LaPointe asked if the applicant was in attendance and if he would like to address the Commissioners.

Eric Keough advised he owns 20.1 acres of land and provided photographs of the property. He is a licensed builder and realtor. The land is currently used by people for recreational purposes, i.e. dirt bikes, ATV's, etc.

The grade of the proposed road and cul-de-sac will be addressed by Smith Paving.

The Marquette County Sanitation Department has been to his property. The Health Department has approved the well and septic system.

He intends to only cut down ½ acre of trees to build homes. He currently has 2 individuals interested in having a home built on this property which Mr. Keough believes will sell in the \$195,000.00 range and generate revenue for Chocolay Township.

Mike Mileski, project surveyor, was with Mr. Keough and verified boundary limits.

Public comment regarding this item was closed.

II. MEETING CALLED TO ORDER/ROLL CALL

Mike LaPointe called the meeting to order at 7:30 p.m.

III. APPROVAL OF THE MINUTES OF APRIL 12, 2004 and MAY 18, 2004 MEETINGS

Scott Emerson moved to approve the minutes of the April 12, 2004 meeting, Estelle DeVooght Seconded. Aye 6, Nay 0. Motion Approved.

Steve Kinnunen moved to approve the minutes of the May 18, 2004. Ken Tabor Seconded. Aye 6, Nay 0. Motion Approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Scott Emerson moved that I. B. (Private Road #04-01) be moved to be heard first and 1 A. (Text Amendment #04-01) be held second in Public Comment. Ken Tabor supported. Aye 6, Nay 0. Motion Approved.

V. PUBLIC COMMENT

A. Private Road #04-01. Clarification was made regarding the grade concern and size of the cul-de-sac. It was discussed that if this road/cul-de-sac may ever be turned over to the Marquette County Road Commission, it should meet the County standards.

Steve Kinnunen stated he had looked at and measured the property of Mr. Keough and believes that a wider road, i.e. 24 feet would be more appropriate as four houses are proposed to be built on the 20.1 acres of land and consideration should be made for the amount of vehicles that will eventually use this road. Mr. LaPointe questioned whether the cul-de-sac specifications were taken from the Marquette County Road Commission specification booklet.

Mike LaPointe asked that the proposed restrictions be clarified which included grade/drainage, extra width to road, and accessibility for emergency vehicles.

Steve Kinnunen moved, Scott Emerson second, that after review of Private Road Request #04-01 (Private Road #18); the standards of Section 402, D of Ordinance 34; and the STAFF/FILE REVIEW – SITE DATA AND ANALYSIS, and subsequently finding compliance with the standards for approval of the private road request, the Planning Commission recommends approval to the Township Board with the following conditions:

- 1) The base of the cul-de-sac area is to be filled to meet the elevation of the road profile where it connects with Jennifer Lane.
- 2) The applicant shall provide access to township vehicles as well as other public/private utility companies to provide services.
- 3) A covenant be established on the deeds for any parcels created off from this private road identifying the private road status and which reference the Declaration of Private Road Easement which must be fully executed.
- 4) The applicant pay for and install a road sign identifying the private road as "Pine Cone Trail" at the intersection with Jennifer Lane and the applicant is to pay for and install a stop sign at the same intersection.
- 5) The applicant comply with the conditions and requirements of all other agency regulations.
- 6) The applicant is required to provide certification from a surveyor/engineer that the private road standards imposed by the Planning Commission indicating a twenty-four foot road width, two foot shoulders, and adjustments to the cul-de-sac entrance radii that will allow for construction of a cul-de-sac in accordance with the Marquette County Road Commission standard detail, have been achieved at the conclusion of construction.
- 7) A zoning compliance permit shall be issued after all of the above conditions are met.
- 8) The applicant is strongly encouraged to obtain Marquette County Health Department review of well and septic considerations for the proposed lots prior to road construction.
- 9) Land Division Approval is required from the Assessor for the creation of individual parcels off from the road and may require the modification of the lots as shown.

Aye 6, Nay 0. Motion approved.

Text Amendment #04-01. After much discussion by the Commissioners, Dennis Stachewicz, the applicants and concerned parties, it was suggested by the Planning Commission that this issue could not be addressed at this time until the question of the property line be resolved.

Mr. Stachewicz pointed out that this issue could be tabled for 45 days to allow the time necessary to research the property lines.

Darwin Britton was concerned with that timetable as this request needs to be presented to the Chocolay Township Board for approval. This would put any construction of the mini-storage buildings into late Fall which would not be conducive to Mr. Britton's plans.

Scott Emerson suggested the site plans be addressed and re-evaluate the lay out of the proposed buildings.

Ken Tabor asked what would happen to the property years down the road. Would this parcel revert back to residential?

Mike LaPointe advised Mr. Britton that the Commissioners do not like to table issues, however, in this case, there are specific questions that need to be addressed.

Dennis Stachewicz stated a special meeting could be held to speed up the process in an effort to help with Mr. Britton's time table concerns.

Scott Emerson would like to see alternatives to PUD.

Dennis Stachewicz stated the preliminary plans should be somewhat detailed in order to meet the requirements of the ordinance. Mr. Stachewicz also said the process includes the Planning Commission, the County Planning Commission, and then the Chocolay Township Board. He said this is a minimum time table of two months.

Darwin Britton quoted Randy Yelle as stating this is a PUD, not a rezoning, thus this issue does not have to go through both entities.

Dennis Stachewicz referenced the Zoning Ordinance and advised the Planning Commission that the request is a rezoning and must be reviewed by the County Planning Commission. Mr. Stachewicz suggested he work with the applicants and Randy Yelle, research the property lines and ensure all requirements are met.

Mike LaPointe stated Mr. Stachewicz is to work out the details and a special meeting will be scheduled.

Aye 6. Nay 0. Motion carried.

Meeting break at 9:41 p.m. Resumed at 10:05 p.m.

VI. OLD BUSINESS

A. Discussion – Update of Comprehensive Planning Process.

Estelle DeVooght stated she was not impressed with the planning process. She believes this requires too many meetings, too many people involved and too much time.

Scott Emerson pointed out that multiple people are needed for their input.

Dennis Stachewicz advised the Commissioners that on August 5, 2004, a meeting will be held at the Cherry Creek School beginning at 7:00 p.m. This meeting is an attempt to get the community to come together with their ideas and thoughts regarding the Township. He plans on sending out packets and canvassing the area businesses. Mr. Stachewicz read a list of people that were going to be asked to complete the background survey.

Dates were suggested and a meeting with the consultant and Township Board was tentatively scheduled for September 8, 2004, 5:30 p.m. at the Township Hall. A second date for a meeting with the consultant and the Planning Commission was tentatively set for November 4, 2004 @ 7:30 p.m. at the Township Hall.

VII. NEW BUSINESS

A. Annual Election of Officers.

Estelle DeVooght moved that the current status of officers remain. Ken Tabor Seconded. Aye 6. Nay 0. Motion carried.

B. Discussion – US 41 Corridor Access Management Subcommittee.

This will become part of the Comprehensive Plan and will be addressed in the fall. There is no great urgency at this time for adopting the corridor. Steve Kinnunen pointed out that grants are being researched at this time. Mike LaPointe suggested this issue be tabled to be discussed at another time.

VIII. PLANNING DIRECTOR'S REPORT

Mr. Stachewicz has had this position for several days. He is happy to be involved with the Township.

IX. PUBLIC COMMENT – None.

X. COMMISSIONER COMMENT

The Commissioners welcomed Dennis Stachewicz and complimented him on his thorough presentation of the items on the agenda for this meeting.

XI. INFORMATIONAL ITEMS AND CORRESPONDENCE

- A. Minutes – Township Board
- B. Minutes – Marquette Township Planning Commission
- C. Publication: *Planning and Zoning News*

XII. ADJOURNMENT. Mike LaPointe adjourned the meeting at 10:15 p.m.

**Charter Township of Chocolay
Planning Commission**

Monday, July 12, 2004

7:30 P.M.

Present: Estelle DeVooght, Steve Kinnunen, Scott Emerson, Ken Tabor, Mike LaPointe and Bill Sanders.

Absent: Tom Shaw

Staff: Dennis M. Stachewicz, Jr., Director of Planning and Research, Denny Magadanz, DPW Supervisor, and Cathy Phelps, Recording Secretary.

I. PUBLIC HEARINGS

A. Rezoning #129 – A Request to Rezone Parcel 52-02-007-014-00 from OS (Open Space) to R-1 (Residential)

Dennis Stachewicz gave a quick overview and said the staff recommends denial of the request.

Mark Maki of 370 Karen Road said he was Zoning Administrator from 1977 to 2002. He gave a history of that area when he was at the Township.

Janet Amundson of 2029 M-28 East said some people did not get notification because their addresses were not updated with the Township. Can the Township send letters return receipt or registered mail?

Gale Manosky of 2025 M-28 East bought this house to retire in, it is a tiny house. They just want to improve the house, which would increase the attraction of the neighborhood.

Public Hearing was closed at 7:45.

II. MEETING CALLED TO ORDER AT 7:47 P.M.

Approval of Minutes. Estelle DeVooght Motioned, Scott Emerson Seconded to approve the June 7, 2004 Minutes. Aye 6, Nay 0. Motion passed.

III. APPROVAL OF AGENDA

Steve Kinnunen Motioned, Ken Tabor Seconded that the Agenda be approved as presented. Aye 6, Nay 0. Motion passed.

IV. PUBLIC COMMENT

Mark Maki of 370 Karen Road. Mr. Maki asked the Commissioners if they received a copy of his letters. Bill Sanders said he has the copies. Mark Maki

then passed out other correspondence. He said he has a complaint to file against Randy Yelle regarding information he asked for regarding the permit for a sign in a RP district he believes was issued in violation to the Zoning Ordinance along M-28 East last fall. He has received no response from Randy Yelle. In March/April a permit was issued by Randy Yelle for a park in violation of the Zoning Ordinance. Mr. Maki requested to be put on the June 25, 2004 Agenda, but was not. He said Randy Yelle violated the site plan review section also. Mr. Maki said he talked to Dennis Stachewicz today informing him that Randy Yelle is not following the Zoning Ordinance.

Public Comment closed at 7:50 p.m.

V. OLD BUSINESS

A. Text Amendment #04-01 (Rezoning #128)

The previous meeting identified a property line dispute, and a certified survey must be done.

Mr. Britton was asked to withdraw until the lot lines were cleared up. At this time Dennis Stachewicz will recommend to the Planning Commission to deny the application.

Estelle DeVooght asked if there were steel posts found at the property corners. Mr. Beckman said there were posts on the corners and he has hired a surveyor to make a drawing.

Dennis Stachewicz explained the 200' parcel on a map shown and the 100' buffer. He said if a certified survey was not produced, the Township could be sued if they proceeded because they could be held liable for knowingly allowing the applicants to build on property they may not own. He stated that it would invalidate the application if the parcel lines are different than the original application.

Bill Sanders asked if it moved 40' east, it would make the lot line closer to Dana Lane, and then it could be that more property owners on the other side of Dana Lane would need to be notified by law.

Darwin Britton showed a change in the site plan to the Commissioners. He wants to continue the process and handle the questionable issues as they come up.

Scott Emerson said the buffer would then be moved to the east if the 100' parcel in question was different. He agrees with Dennis Stachewicz that we need a certified survey. If it includes more parcels, the owners have to be notified by law.

Gordon Uren said the circumstances of the application have changed. People within 300' must be notified. Those people on the other side of Dana Lane care about what is happening in their neighborhood.

Dennis Stachewicz said the applicant has paid \$250.00 to be heard. If they withdraw, there may be no charge for re-opening it. If they want to move forward, the Planning Commission must make a recommendation.

Bill Sanders does not feel the site plan is detailed enough. It should be denied.

Darwin Britton said he had an architect draw up the site plan and it shows all the details.

Bill Sanders said the Zoning Ordinance is clear as to what is needed for a PUD. Bill Sanders explained that Dennis Stachewicz was not yet hired by the Township at that time. If they do not have a certified survey, the Planning Commission cannot approve it.

Darwin Britton said Randy Yelle told him he did not need a detailed site plan.

Darwin Britton felt that the site plan was complete, and the lighting was discussed at the last meeting. They would have down-lighting or whatever the Township suggests and plant whatever kinds of trees the Township wants. They are open for discussion, and will work with the Board. He said he moved the buildings on the site plan, has parking and signs drawn in along with the berms with trees and shrubs. He wants to go over everything as a group.

Scott Emerson said the site plan has been tweaked and they had a general discussion at the last meeting. He feels the cart is before the horse at this point.

Darwin Britton said they can make changes, but he needs input from the Commissioners.

Gordon Uren feels that generally the public was objecting to the warehouse coming into that area. If it does go forward, he feels the public wants input in the planning. He wants to know exactly how close it is to his property.

Bill Sanders said Darwin Britton can withdraw his application or he would be denied tonight.

Darwin Britton said he would withdraw his application at this time.

Dennis Stachewicz said he would speak to the Supervisor regarding the application fee. He suggested that Darwin Britton come into the office on Tuesday and that the Beckmans bring him a certified survey.

VI. NEW BUSINESS

A. REZONING #129 –Requested Rezoning from OS to R-1

George Manosky said OS (Open Space) must have 20 acres. He thinks this was an oversight by the Planning Commission. He wants to enlarge his house, and already is 6 to 7 months behind in his plans. His neighbor to the east at first said they did not want to be involved, and then wrote letters of protest. His house is now 864 square feet; he just wants to build a decent house.

Janet Amundson said if they build a house as planned, the Manoskys will see right into their windows and that the sand dunes are very fragile.

Gale Manosky showed the Commissioners pictures of their present house and the Amundson's A-frame house in relation to theirs and said the east and west roof had no windows for them to look into. She argued the distance to the lot lines, explaining that there is a well in between the houses.

Dennis Stachewicz explained that there is one vacant lot left in that area, and most of the houses are nonconforming.

Bill Sanders feels this would be spot zoning. If they change this lot, all of the lots should be changed. Maybe they should ask for a variance instead.

Dennis Stachewicz explained that in the Comprehensive Plan this area was identified as an area with development limitations. Based on his interpretation, the Planning Commission, at the time the property was zoned, was hoping the area would eventually revert back to Open Space.

Scott Emerson said this area is prime real estate due to the lake views. He feels the best thing would be to rezone it all. As a developed area, it should be considered for rezoning. He asked the Manoskys if they could design something compatible with the neighbor's wants/needs. He would hope they could negotiate and find something mutually compatible.

Mike LaPointe said he would not approve spot zoning for the one lot.

Scott Emerson questioned the rezoning of the whole area to R-1, as half of the property owners do not want to have it rezoned.

Estelle DeVooght said there were just camps when the Planning Commission first zoned that area open space. The Planning Commission hoped the camps would just deteriorate and not be improved. People passed the property to children and now they want larger houses. This area could be destroyed with a bad storm and there would be nothing left.

Mike LaPointe Moved Sanders Seconded, that following the review of Rezoning Request #129, and the Staff/File Review, the Planning Commission recommends DENIAL of Rezoning #129 to the Township Board to rezone parcel 52-02-007-014-00 from OS to R-1 due to:

- 1) The rezoning would grant a special privilege to a single property owner that is not available to others in the surrounding area.
- 2) The property can be reasonably utilized under the current zoning designation.

Aye 6, Nay 0. Motion passed.

B. Junk Car Ordinance Update

Dennis Stachewicz reported that this is one of the top ten projects the Township is working on. A junk car survey was done along with the Community Center survey. The Township needs to have clear language because this is a big issue. Greg Seppanen has obtained an intern to do a study on junk cars. Dennis introduced Kristin Thorrington, who is doing the study.

Kristin Thorrington gave an update. She has done some research on other area junk car ordinances. Clear language and enforcement is very important.

Bill Sanders said he looks at it logically, and can see a health side to collecting junk cars.

Kristin wanted to know what the Commissioner's felt was the Township's primary reason for a junk car ordinance. Was it aesthetic or health issues?

Dennis Stachewicz felt both issues were important to residents.

Estelle DeVooght asked why vehicles need to be licensed if they were sitting in someone's yard and not being used.

Kristin Thorrington asked about trucks used only in the winter months for plowing. Should they be licensed, as they are driven on the road?

Dennis Stachewicz asked about stock cars on trailers? Is this an aesthetic or health issue? We need to get feedback from the Planning Commission.

Steve Kinnunen felt they are both important.

Estelle DeVooght felt that aesthetics were more important.

Bill Sanders feels that environmental issues were a no-brainer. He does not want to see Chocoley Township to become too strict, where we cannot even have a

clothesline in your yard. He feels residents should be able to have a couple cars (fix-up cars) on their property, but not 40 cars.

Ken Tabor agrees.

Scott Emerson agrees with the health issue and does not want this Township to become too strict.

Steve Kinnunen said he does not want to have too complex language where we lose focus.

Dennis Stachewicz suggested tightening up outdoor storage to allow requirements by district.

Bill Sanders feels health and environmental issues covers outdoor storage. He does not want to see Chocolay Township heavily regulated, zoning is for land use.

Kristin Thorrington said she wanted to finish in September, and will keep the Planning Commission updated.

Bill Sanders thanked Kristin for all the work and appreciates the time she has put into it.

C. Lake Superior Watershed Partnership

They will come at a later date.

D. Joint Meeting with Township Board

Ken Tabor Motioned, Bill Sanders Seconded, to invite the Township Board to attend a joint meeting with the Planning Commission to be held on September 8, 2004, 5:30 p.m. at the Township Hall, facilitated by Planning and Zoning Center, Inc. to discuss the results of the Town Meeting /Visioning Session and go on a tour of key areas identified in the Township. Aye 6, Nay 0. Motion passed.

E. Access Management Training

Dennis Stachewicz reported that it will be on September 9, 2004, no time or place decided upon at this time. It will last 2 to 3 hours, and you will get a manual, which is great reference material. Mark Wyckoff will present the training.

Bill Sanders noted he went to a training session in Escanaba, which lasted all day.

Dennis Stachewicz said this is a condensed version. It will probably be either at the Lakeview Arena or the Negaunee Township Hall. Dennis said he would

contact all the Commissioners to possibly car pool together. Dennis also noted that he needs an updated e-mail address from all the Commissioners.

VII. PLANNING DIRECTOR'S REPORT

Comprehensive Plan- Dennis Stachewicz will get the Commissioners copies of the background information if they want it. Needs more recorders for the Town Meeting on August 5th, Thursday, at 7:00 p.m. at the Cherry Creek School. Mike LaPointe will not be there. The Township staff has been handing out fliers to residents coming in to pay taxes or pick up absentee ballots. Dennis Stachewicz said he plans to get fliers out to businesses this week.

Planning meeting requested by the consultant has been scheduled for November 4th 7:30 p.m., at the Township Hall to review draft materials related to the plan. Dennis Stachewicz said the Planning Commission may reschedule their regular to November 4th. Scott Emerson will be gone for the September and November meetings. Dennis Stachewicz said he would keep him informed.

The County Health Department asked us to look at our land use applications and to notify applicants of County requirements.

The Zoning Administrator has given a Dennis a list of violations as of June 2004, a letter to Tom Waselesky, and the Waselesky lab report regarding water testing.

Meeting with Attorney Summers, Mark Maki, Randy Yelle and Dennis Stachewicz on July 14th regarding Maki's complaints.

Snowmobile Trail – The Township is trying to set up a meeting with the DNR regarding speed, and hours of use, and a business route.

VIII. Public Comment

Mark Maki stated he is suspicious of the Waselesky water testing results. He wants more information. He feels the Waselesky junkyard has not been cleaned up as per the court order and feels this must be enforced. He also feels that the Keough private road request doesn't have 5 splits. The he thinks the assessor gave 6 splits. He believes she is not following the State Land Division Act. Mark Maki said the Township tried to give away some land to Habitat for Humanity. He believes they cannot do that. Bill Sanders said the Planning Commission was involved in the early stages of identifying potential sites for the Habitat for Humanity project. Regarding the memo on campgrounds and parks, Maki requests that the Planning Commission appeal the Zoning Administrator's decision to the Zoning Board of Appeals. He has requested copies of meetings. He feels the Board must deal with these issues.

IX. Commissioners Comments

Scott Emerson thinks the Planning Commission should get a letter written regarding the Snowmobile Act. He feels the DNR is not pushing the ORV's because they do not have the backing that the snowmobiles had. He wants the Planning Commission to address issues for the trail in a letter. A curfew should be in place from midnight to 8:00 a.m. and a speed limit of 30 mph through residential areas. These are based on the complaints received during the winter of 2003- 2004. Noise and speed complaints made up 70% of the complaints. Also he would like to see improvements of the trail itself so it can be used as a bike and hiking trail spring through fall. He would like to see blacktop put on the trail.

Bill Sanders asked if there are any grants available. He would like to see more interesting trails (curves), which would require slower speeds. He suggests a limestone trail.

Scott Emerson said the majority of the year it is not used for snowmobiles, but instead could be a non-motorized trail. He would like to see speed limits posted and enforced. He believes the noise all night long, keeping people from getting good sleep, is a health issue to the residents who live along the trail. He would like to see the DNR working with Chocolay Township to reduce the negative impacts of the snowmobiles, enhance the non-motorized use on the trails, and lessen the impacts snowmobiles have on neighborhoods and wildlife. We need to tell the DNR what we as a Township want.

Scott Emerson suggests the Planning Commission recommend to the Board that a letter be sent to our Representatives, Governor, and Michigan Township Association that the Snowmobile Act be amended to mandate that residential areas of a certain population density be subject to local zoning. Snowmobiles are hazardous in residential areas. These two letters need to be written and sent out.

Bill Sanders, Mike LaPointe and Ken Tabor noted their support. Mike LaPointe questioned who would do the enforcing of the laws? There must be adequate enforcement for speed limits and curfews in order for this to do any good. Right now there are no rules or regulations along the snowmobile trail through Chocolay Township. All of the Planning Commissioners supported that these letters be written.

Bill Sanders Motioned Steve Kinnunen Seconded, that the Planning Commission authorize Scott Emerson to write a letter to submit to the Township Board, the DNR, Michigan Townships Association, and the Governor that includes a suggested speed limit and curfew limits on the snowmobile trail through Chocolay Township and promotes a change in legislation regarding the Snowmobile Act to include establishment of local government zoning authority, which was an oversight in the original law.

Aye 6, Nay 0. Motion passed.

Bill Sanders gave information about sound decibels relating to the snowmobiles.

Scott Emerson noted that snowmobiles in packs had even higher decibels. The DNR needs to work with the Township.

Steve Kinnunen suggested we remind the DNR that they would give the Township a copy of the data they gathered regarding the trail. Dennis Stachewicz said he would check into getting that information.

Steve Kinnunen suggested we add a requirement for a certified survey to be part of the Township Rezoning and PUD applications. The boards need this information before making decisions so problems like this current one do not happen again.

Dennis Stachewicz feels that this should be taken care of in the Township office before coming to the boards. This incident caused Darwin Britton to be backed up all summer and a certified survey should have been requested right away. He will research this issue.

Steve Kinnunen wondered what would have happened if this PUD would have gone through? Could the Township be sued? He feels the certified survey requirement should be on the application. He does not want to go through this situation again. It makes the Township look bad.

Dennis Stachewicz noted that the City of Marquette requires a survey for Zoning Board of Appeals applications.

Steve Kinnunen suggests putting the requirement of a certified survey on the PUD at least to start with. The Township would be more professional with that information.

Mark Maki stated the Planning Commission makes rules, and a PUD gives a way to go around the rules. He said a PUD is spot zoning.

Bill Sanders adjourned the meeting at 9:55 p.m.

Respectfully submitted by:

Estelle DeVooght, Secretary

Cathy Phelps, Recording Secretary

**Charter Township of Chocolay
Planning Commission**

Monday, September 13, 2004
7:30 P.M.

Present: Estelle DeVooght, Steve Kinnunen, Ken Tabor, Mike LaPointe, Bill Sanders (Tom Shaw arrived at V. Public Comment)

Absent: Scott Emerson

Staff: Dennis M. Stachewicz, Jr., Director of Planning and Research, Lori DeShambo, Recording Secretary and Kristen Thorrington.

I. PUBLIC HEARINGS – None.

II. MEETING CALLED TO ORDER/ROLL CALL

Bill Sanders called the meeting to order at 7:30 p.m.

III. APPROVAL OF THE MINUTES OF August 9, 2004 MEETING

Ken Tabor moved to approve the minutes of the August 9, 2004 meeting, Estelle DeVooght Seconded. Aye 5, Nay 0. Motion Approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Bill Sanders moved to Approve the Agenda. Mike LaPointe supported. Aye 5, Nay 0. Motion Approved.

V. PUBLIC COMMENT – None.

End Public Comment at 7:32 p.m.

VI. OLD BUSINESS

A. Work Session – Review and Comment on Draft Junk Car Ordinance

Open for discussion. Dennis Stachewicz began overview, introduced Kristen Thorrington, NMU student involved in the draft junk car ordinance.

Topics covered by Mr. Stachewicz:

- ✓ Met with Zoning Administrator and Greg Zybert of the Chocolay Township Police Department to review who is responsible for enforcement of the ordinance.
- ✓ A draft of the Junk Car Ordinance was provided to the Township attorney, Mike Summers, who has approved the same.
- ✓ The community survey that was sent out included the junk car ordinance and a large response was received in that regard.
- ✓ Section III of the draft junk car ordinance was referenced and Mr. Stachewicz laid out the definition of motor vehicles and how they pertain to the ordinance.

Goals covered by Mr. Stachewicz:

- Review ordinance
- Ensure language is correct
- Define the number of vehicles allowed per location
- Residential R1, R2 or R3
- Provisions, variances and the like

Dick Arnold of 312 Co. Rd. 545, Marquette, MI addressed the Commissioners stating that the draft does not address farming equipment, i.e.: tractors. Also referenced the term “in-operable vehicle”, does this mean non-drivable vehicles? He stated he believed it will be difficult to enforce this draft ordinance. There were 115 signatures turned in by Mr. Arnold.

Reference was made to relegating the enforcement of the ordinance to the Zoning Administrator. Mr. Stachewicz advised that Mr. Yelle is willing to become the enforcement officer of the junk car ordinance.

Mr. Stachewicz asked Dick Arnold if his question regarding “in-operable vehicles” was in regard to licensed vehicles.

Bill Sanders asked Mr. Stachewicz about paragraph one which lists property sections. Mr. Stachewicz stated starting with residential homes, a certain amount of vehicles are permitted unless parked in a covered structure – see Section IV for exceptions.

Mike LaPointe asked about the residential homes and what this all entails.

Mr. Stachewicz stated that starting with R1, that section would be allowed X amount of vehicles with certain rules applying. Then R2 would be allowed X amount of vehicles with certain rules applying and soon.

Steve Kinnunen stated that this issue has been discussed regarding those residents with more property have room to “screen” their vehicles.

Ken Tabor agreed that there must be some flexibility to the ordinance and allow screening of vehicles.

Bill Sanders asked if the draft junk car ordinance included variances.

Mr. Stachewicz pointed out that this will be a very difficult ordinance.

Frank Thomas of 2995 M-28 East asked the Commissioners with respect to vehicles, “if you can hide it, can you have it”

Bill Sanders stated that if you go over the vehicle limit, it must be in a closed structure, i.e.: garage.

Frank Thomas asked what an appropriate screen is; trees, snow?

Mr. Stachewicz stated that the junk car ordinance is in a “draft” form at this time and the proper language is being addressed during this “draft” stage. However, the draft now states if not visible from the right of way.

Bill Sanders pointed out that there are two important issues that this ordinance will address; environmental hazards (leaking oil from a non-used vehicle, etc.) and how your property will look with the clean up.

Frank Thomas asked if an ugly private fence is an adequate screen.

Dick Arnold asked if an enclosure for a vehicle should be a permanent building, not a “super plastic” enclosure.

Estelle DeVooght pointed out that the ordinance can not dictate to a home owner what they can do with/on their property, i.e.: hobby of restoring old cars, painting tractors, etc.

Ken Tabor agreed that the ordinance needs to be adhered to but be flexible.

Bill Sanders pointed out that the draft has merits but need a threshold.

Frank Thomas asked if a vehicle is not licensed with the State of Michigan, is it determined to be “in-operable?” Mr. Stachewicz responded affirmatively stating that currently, the ordinance does not allow for vehicles that are not licensed. He states that the community survey response showed 70% of the community favors such an ordinance limiting vehicles. He stated that 2,700 survey forms were sent out with 1,500 forms returned.

Mr. Stachewicz advised that an ad had been run in the local newspaper stating that information regarding the draft junk car ordinance is available at the Chocolay Township Hall and that the meeting would be taking place inviting the public to join in the discussion.

Steve Kinnunen stated that he thought there must be discretion/variances to the ordinance allowing Mr. Yelle to monitor residents who have a hobby such as painting/restoring old vehicles, tractors, etc.

Mr. Stachewicz asked “how do you define a hobby?”

Mike LaPointe asked if there are conditional uses for a vehicle such as a snow plow?

Randy Yelle, Zoning Administrator for Chocolay Township, stated that some of the terminology used in the draft would cause problems.

Steve Kinnunen thought that fines/civil infractions would be warranted to those that do not adhere to the ordinance.

Mr. Stachewicz states that currently, the draft does not contain a section of administrative standards allowing the Zoning Administrator the discretion to monitor issues such as noise and dust.

Steve Kinnunen asked if the law enforcement agency for the township is not going to enforce this, then who will.

Tom Shaw pointed out that those residents in a R1 district with an allowance of X amount of vehicles can not be permitted to use a friend/relatives property to park excess vehicles.

Mr. Stachewicz addressed the Commissioners at this point stating that they had contributed many issues/topics to be followed up on and that more insight would be put into the draft with this information. He asked that should any member have further input, questions or concerns, to please contact him via telephone or e-mail.

B. Consideration – Schedule Ordinance Subcommittee Meetings

Estelle DeVooght and Bill Sanders are in agreement to hold the subcommittee meetings on the first Tuesday of each month at noon at the Chocolay Township Hall. There will be no agenda, just a working/organization meeting. The first meeting will take place on Tuesday, October 5, 2004 at 12:00 noon. Subject to change should Scott Emerson not be able to attend.

VII. NEW BUSINESS

A. Consideration – Letter supporting additional hours for Zoning Administrator

A request has been made that the Zoning Administrator (Randy Yelle) have his hours increased. Bill Sanders asked how many hours is Mr. Yelle working now. Mr. Yelle responded with 18 hours per week. Mr. Stachewicz advised that the requested increase is to 25 hours per week from 18 hours per week. The hours used will fluctuate during the year, i.e.: less time needed to supervise during the winter months as versus the summer months. All in all, the average hours worked during a week (yearly) would be 25 hours per week.

Mike LaPointe Motioned for an increase of working hours for the Zoning Administrator with Ken Tabor in Support. Aye 6, Nay 0. Motion approved.

B. Consideration – 2005 Planning Commission Budget Recommendation

Mr. Stachewicz advised that he has until September 30, 2004 to submit the budget. He is looking for input and/or suggestions from the Planning Commission in this respect.

Steve Kinnunen stated he supports continuing to receive the publications the Commissioners currently receive. They are informative.

Mr. Stachewicz advised the Commissioners that he is looking into a web site and do the Commissioners feel this is feasible?

Bill Sanders pointed out that with a web site in use, the zoning ordinance could be available and those seeking a variance could apply on-line. Mr. Sanders asked if other entities would be using the web site, i.e.: Zoning Board of Appeals, would they contribute to funding this web site?

Mr. Stachewicz stated this is also part of the comprehensive plan that is being worked on at this time.

C. Consideration – US-41 Corridor Plan

Mr. Stachewicz stated that he thinks it is time to put the corridor plan back in motion and that by December of 2004, the Commissioners could adopt the corridor.

Steve Kinnunen pointed out that this issue was discussed during the recent tour with the new consultant, Mark Wyckoff.

Estelle DeVooght asked if a public hearing was needed first to begin adopting the corridor plan. Mr. Stachewicz stated a plan would have to be adopted first before a public hearing.

Steve Kinnunen Moved, Ken Tabor Supported, to authorize the Director of Planning and Research to begin the process of preparing the Comprehensive Plan amendment language for the adoption of the US-42/M-28 Comprehensive Corridor & Access Management Plan in accordance with the Township Planning Act. Aye 6, Nay 0. Motion approved.

VIII. PLANNING DIRECTOR'S REPORT

Mr. Stachewicz stated he thought the meeting held recently with the consultant wherein a site visit was undertaken had a good result. There is another meeting with Mr. Wyckoff scheduled for November 4, 2004 at the Township Hall. They will be looking at scheduling a meeting to be held in January-March of 2005.

The Minoski rezoning issue was discussed – the denial was supported.

The bulletin board at the Township Hall has many postings keeping the public advised.

Mr. Stachewicz stated that an amendment is being looked at for private roads, in more particular, the Wintergreen Trail.

IX. PUBLIC COMMENT

Dick Arnold asked if any discussion has been made regarding farming lots that are now residential. Is there a set limit as to farming acreage in Chocolay Township?

Mr. Stachewicz stated this would be addressed as part of the comprehensive plan.

Public comment closed at 8:35

X. COMMISSIONER COMMENT

Steve Kinnunen talked about the insert to this agenda regarding the City of Ironwood's Noise Ordinance.

Mike LaPointe asked how long has this program been in place.

Mr. Stachewicz stated it has not been enforced for political reasons.

Steve Kinnunen seems to think that if the rule is out there (in Chocolay Township), this will give the snowmobilers something to think about.

Steve Kinnunen suggested to Bill Sanders that Mr. Stachewicz research this topic and adopt it to the township's ordinance.

Mr. Stachewicz agrees that this should be researched, however, at this point in time, the junk car ordinance should take priority.

Tom Shaw pointed out that there is a barrel in Big Creek.

Mr. Yelle stated he was aware of that and the problem is being taken care of.

XI. INFORMATIONAL ITEMS AND CORRESPONDENCE

- A. Minutes – Township Board
- B. Correspondence – Marquette Township Planning Commission
- C. Correspondence – Stachewicz to Planning Commission re: City of Ironwood Noise Ordinance
- D. Publication – Planning and Zoning News
- E. Publication – Establishing Realistic Speed Limits

XII. ADJOURNMENT. Bill Sanders adjourned the meeting at 8:46 p.m.

Estelle DeVoght, Commission Secretary

Lori DeShambo, Recording Secretary

Charter Township of Chocolay
Planning Commission
Monday, October 11, 2004
7:30PM

Present: Estelle DeVooght, Steve Kinnunen, Mike LaPointe, Ken Tabor, Bill Sanders and Tom Shaw

Absent: Scott Emerson

Staff: Dennis M. Stachewicz, Jr., Director of Planning & Research, Dennis Magadan, Director of Public Works, Greg Zyburt, Chief of Police and Mary Kratzke, Recording Secretary

I. PUBLIC HEARING

Bill Sanders stated that there would be a public hearing on Private Road #19 and asked Dennis Stachewicz to give a briefing.

Dennis Stachewicz received a request submitted by Glenn Van Neste, on behalf of Hubbard Properties, to construct and maintain a private road off Wintergreen Trail that would serve an amended lot #13 of the Chocolay Woods Site Condominium Project. He said that all lots must have frontage on a public or private road, therefore we have asked the developer to construct a private road in order to provide access to this parcel. Dennis states that there is a conflict using the same name as Wintergreen Trail for the prefix of this proposed road and there is the issue of a turnaround on this road also. Dennis recommends nine conditions that should be considered when approving this.

II. MEETING CALLED TO ORDER/ROLL CALL

Bill Sanders called the meeting to order at 7:30PM.

III. APPROVAL OF THE MINUTES OF SEPTEMBER 13, 2004 MEETING

Estelle DeVooght moved to approve the minutes of the September 13, 2004 meeting; Ken Tabor seconded. Aye 6; Nay 0. Motion approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Bill Sanders said that he would like to add Item D under New Business for a CABA presentation.

Bill Sanders moved to approve the Agenda; Mike LaPointe seconded. Aye 6, Nay 0. Motion approved.

V. PUBLIC COMMENT

Don Britton stated he was there on behalf of the Hiawatha Snowmobile Club.

VI. OLD BUSINESS

None.

VII. NEW BUSINESS

A. Consideration – Minor Amendment to Chocolay Woods Site Condominium Project

Mike LaPointe asked why the change is needed.

Applicant Scott Hubbard stated that the lot line got too close to the houses.

Ken Tabor moved that the Planning Commission recommends approval of the minor amendment to the Chocolay Woods Site Condominium Project titled "Superceding Marquette County Condominium Subdivision Plan #12, Exhibit "B" to the Superceding Master Deed of Chocolay

Woods Condominium, Chocolay Township, Marquette County, Michigan, “dated September 27, 2004 with the condition that the developer must obtain private road approval for access to Unit #13. Bill Sanders seconded. Aye 6, Nay 0. Motion Approved.

B. Consideration – Private Road #19

Dennis Stachewicz said that the zoning ordinance does require an easement. The land could be further subdivided. There must be a turn-around for emergency vehicles.

Steve Kinnunen thinks that it makes good sense to make the road accessible through the property and stated that there’s no requirement in the ordinance to provide for future development.

Dennis Stachewicz says this is an excellent idea. With the way traffic patterns are laid out in Chocolay Township, this proposal gives people other alternatives as well as safety issues.

Bill Sanders agreed it’s more convenient for the people.

Dennis Stachewicz said that the board could approve this tonight and Scott Hubbard could meet with Staff to work out the details.

Bill Sanders moved that after review of Private Road Request #19, the standards of Section 402.D of Ordinance 34; and the STAFF/FILE REVIEW – SITE DATA AND ANALYSIS, and subsequently finding compliance with the standards for approval of the private road request, the Planning Commission recommends approval to the Township Board with the following conditions (in this case the word “developers” means Hubbard Properties):

- 1) The developers shall provide an easement at the end of the private road that meets the Marquette County Road Commission standards for a cul-de-sac.
- 2) The developers shall select an alternate name for the private road and that name shall be reviewed by the Michigan State Police Central Dispatch and the Chocolay Township Fire Department before being approved. The approval of the road name shall be the responsibility of the Chocolay Township Director of Planning and Research.
- 3) The developers shall allow access to township vehicles as well as other public/private utility companies to provide services.
- 4) A covenant shall be established on the deeds for any parcels created off from this private road identifying the private road status and which reference the Declaration of Private Road Easement which must be fully executed.
- 5) The developers pay for and install a road sign identifying the approved name of the private road at the intersection with Wintergreen Trail.
- 6) The developers shall comply with the conditions and requirements of all other agency regulations.
- 7) The developers are required to provide certification from a surveyor/engineer that the private road standards of the Zoning Ordinance have been achieved at the conclusion of construction.
- 8) A zoning compliance permit shall be issued after all of the above conditions are met.
- 9) The developers are strongly encouraged to obtain Marquette County Health Department review of well and septic considerations for the proposed Unit #13 prior to road construction.

Ken Tabor seconded. Aye 6, Nay 0. Motion Approved.

C. Consideration – Annual Road Rankings

Dennis Stachewicz presented a listing of individual road evaluations/rankings throughout Chocolay Township that need work. He asked that the Planning Commission members look at these roads and make a recommendation to the Township Board.

Bill Sanders commented that #3 Riverside Road should be taken in to consideration in dealing with the snowmobile trail issue. He feels it would be nice to move the trail to the north as where it presently crosses Riverside Road at Lakewood Lane. He said it would be good to get some distance between the trail and the houses. He says if the snowmobile group could come up with the money to move the trail, the township/county could take care of the road.

Dennis Stachewicz said that all property north of Riverside Road is State property. He asked about moving the intersection to the east – it would have to be a couple hundred yards as there's a pump station at that intersection. Thought maybe something could be worked out with the DNR.

Don Britton (representing the Hiawatha Snowmobile Club) said the club is presently working on Phase I in construction of the snowmobile trail. He said Phase III isn't too far down the road.

Bill Sanders asked if it's possible to rearrange the ranking on these roads.

Dennis Magadanz said that it's been done in the past depending on monies in the budget. He stated that there's a pump station at the intersection in question.

Tom Shaw feels that we need time to do research on this issue of possibly relocating the intersection of Lakewood Lane and Riverside Road. Dennis Stachewicz said the best way to address the road was to leave it in the top three and allow staff to contact the County Road Commission.

Ken Tabor moved that the Planning Commission recommend the recommendation (ranking) as presented by Dennis Stachewicz to the Board. Tom Shaw seconded. Aye 6, Nay 0. Motion Carried.

D. Consideration – CABA Proposal on Snowmobile Signs

Jim Manyen presents that CABA would like to organize the way snowmobiles come through Harvey. Their system will make it safer and more organized. They would like to designate a route using "diamond" shaped signs that snowmobilers would recognize as a route.

The route would be from the trail to Green Bay St to Wright Place to Corning over to the light; then on to the bike path to the Welcome Center where they'd meet up with the DNR trail.

He states that snowmobilers would only be going through a residential area once.

He said that the business district will raise monies for patrols but only if the township is willing to direct snowmobiles to the business area.

Don Britton says the signs are well known to snowmobilers and that the green "diamonds" indicate an ungroomed trail (trail to bike path). He says that these would keep people moving in one-way travel and deter people from going back. They would also be using decals indicating lodging, food and gas.

Greg Zyburt feels this would be a good idea as snowmobilers coming from Munising will be in need of gas and would be directed to the business area. He says this would be cutting down on traffic and people would know where they were going. He says it's not a solution but it's the best working route now. He also stated that the major concern was near Walt's.

Jim Manyen said that some control is better than no control.

Mike LaPointe asked if a conditional use permit would be required if they are designating trails and this comes under an ordinance.

Tom Shaw said that many snowmobilers are confused. They don't know where they're going. He thinks this idea will be better all the way around and that there will be a less amount of disturbance for homeowners.

Steve Kinnunen Motioned that the Chocolay Township Planning Commission suggests to the Township Board that they review the CABA plan for non-groomed business route for snowmobiles as outlined pending staff review. Mike LaPointe Seconded. Aye 6; Nay 0. Motion Carried.

Stan Hubert added that the least impact on residents is best.

Steve Kinnunen said that law enforcement personnel will now be able to do their job rather than directing people.

VIII. PLANNING DIRECTOR'S REPORT

Dennis Stachewicz said that he will have the revised draft on the car ordinance update at the next meeting.

He also said that the Comprehensive Planning Meeting will be held on November 4 at 7:00 PM.

The Ordinance Subcommittee Meetings are held on the 1st Tuesday of each month at noon at the Chocoley Township Hall.

Meetings scheduled with Mark Wyckoff are temporarily set for Jan. 6, March 3 and May 10, 2004. If anyone has a problem with these dates, please advise Dennis Stachewicz within the next week.

Dennis will be recommending spending \$750 for updated GIS parcel layers.

There is money available in the budget for Training for Planning Commission members. Contact Dennis if interested.

Dennis said Greg S. submitted a request to the County Board that Chocoley Township be included in any plans regarding the development at the old Honor Camp in Sands Township if it ties in to Silver Creek because it could have an impact on the Township.

Dennis has received an application for rezoning a 200-acre parcel from RP to R1 for development of a subdivision

IX. PUBLIC COMMENT

None.

X. COMMISSIONER COMMENT

Tom Shaw said that he appreciates CABA doing what they're trying to do.

Bill Sanders mentioned that at the last Board of Appeals Meeting the issue of a race track/ORV trail on residential property came up and a ZBA member asked if the Planning Commission should look at it.

XI. INFORMATIONAL ITEMS AND CORRESPONDENCE

- B. Minutes – Zoning Board of Appeals – August 26, 2004 & September 23, 2004
- C. Publication – Planning and Zoning News
- D. Publication – “What is a Taking?”

XII. ADJOURNMENT

Bill Sanders adjourned the meeting at 8:29PM.

Estelle DeVoght, Commission Secretary

Mary Kratzke, Recording Secretary

Charter Township of Chocolay
Planning Commission
Monday, November 1, 2004
7:30PM

Present: Scott Emerson, Estelle DeVooght, Steve Kinnunen, Mike LaPointe, Ken Tabor, Bill Sanders, and Tom Shaw

Absent: None

Staff: Dennis M. Stachewicz, Jr., Director of Planning & Research and Dennis Magadanz, Director of Public Works

I. PUBLIC HEARING

Mike LaPointe stated that there would be a public hearing on Conditional Use #70 and asked Dennis Stachewicz to give a briefing. Bill Sanders arrived.

Dennis Stachewicz said that CABA has pulled their request for a Conditional Use Permit because of the correspondence from the Marquette County Road Commission that indicated CABA would not be able to place signs in the requested road right of ways.

II. MEETING CALLED TO ORDER/ROLL CALL

Bill Sanders called the meeting to order at 7:30PM.

III. APPROVAL OF THE MINUTES OF OCTOBER 11, 2004 MEETING

Ken Tabor moved to approve the minutes of the October 11, 2004 meeting; Tom Shaw seconded. Aye 7; Nay 0. Motion Carried.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Bill Sanders moved to approve the Agenda; Steve Kinnunen seconded. Aye 7; Nay 0. Motion Carried.

V. PUBLIC COMMENT

Elwin Leach of 425 Green Bay Street asked if there will still be snowmobiles on Green Bay Street even though the request has been cancelled. Dennis Stachewicz said that snowmobiles are allowed on County road right of ways.

VI. OLD BUSINESS

None.

VII. NEW BUSINESS

A. Consideration – Conditional Use #70 – CABA Traffic Control Signs

Bill Sanders said that the Planning Commission should still use this time as a planning session even though the request was cancelled. Scott Emerson spoke about the CABA proposal and said it was not a good idea because of the residential density in the area. He said the traditional route was along M-28 and less people would be affected there. Scott Emerson said the previous proposal presented to the DNR was for M-28 and he believes CABA should be directed to pursue that route again. He said the problem lies between Walt's and the Visitor Center and that the couple of house there could eventually be rezoned at some point in the future.

Scott Emerson said there are technical difficulties with the proposed route including the narrowness of the bridge on Green Bay Street. He said that people on M-28 bought their houses with the understanding that snowmobiles could travel in front of their houses. He said it is unfair to people

who bought homes not expecting snowmobile traffic to suffer. He also said he is surprised that the Police Chief is buying into this proposal. Scott Emerson said he believes that CABA should understand that people living here support the businesses also. He asked the Planning Commission to consider directing CABA to pursue an alternate route along M-28.

Bill Sanders asked Dennis Stachewicz what he thought about the proposal being offered by Scott Emerson. Dennis Stachewicz spoke about the history of the current trail proposal and the steps being taken by the Township Supervisor to work towards a true business route. He recommended that the Planning Commission consider that any recommendation to CABA be as an “option” rather than cornering them with only one proposal. Scott Emerson said he agreed.

Steve Kinnunen said the M-28 proposal has been looked at before and he believes it is time to move forward with pursuing the bridge across the Chocolay River. He recommended sending a letter to CABA as previously discussed. Bill Sanders asked if it would be appropriate for the Planning Commission to ask Dennis Stachewicz to write a letter to CABA and the Planning Commission concurred.

Scott Emerson asked the Planning Commission if they should also approach the Marquette County Road Commission and ask them to place a curfew on Green Bay Street and thus place a curfew on the snowmobile trail. He referenced a conversation with Dennis Stachewicz regarding how Ironwood handles their snowmobile trail. Bill Sanders said he was concerned that a curfew would cut-off snowmobilers or send them to M-28. Tom Shaw said he felt it was inappropriate to send all snowmobile traffic to M-28. Scott Emerson said he believes a curfew should protect the highest density residential areas.

Bill Sanders said he agrees but feels it would be better to let the Township Supervisor and Staff continue to work with other groups and agencies before moving forward and possibly derailing any of their efforts. The Planning Commission agreed and asked Dennis Stachewicz to continue keeping them informed of the situation.

B. Consideration – Marquette County Housing Plan

Dennis Stachewicz said the Planning Commission has been asked to review the County Housing Plan. He said this was being done in accordance with the new Coordinated Planning Act. He asked Commissioners if they had any comments.

Steve Kinnunen said it was very interesting to notice how the demographics show that people are moving all around the County. He also said it was interesting to see how K.I. Sawyer was growing. Dennis Stachewicz noted the comments regarding construction codes and local zoning. He said the current situation at the County level could have a major impact on the Townships also.

Ken Tabor moved to concur with the draft Marquette County Housing Plan and allow the Director of Planning and Research to prepare correspondence to the Marquette County Planning Commission that reflects the discussion regarding the Marquette County Housing Plan held by the Chocolay Township Planning Commission at their November 1, 2004 meeting. Scott Emerson seconded. Aye 7; Nay 0. Motion Carried.

C. Consideration – Marquette County Forestry Plan

Dennis Stachewicz said the Planning Commission has also been asked to review the County Forestry Plan. Mike LaPointe said he knows that several local foresters have reviewed and concurred with this plan.

Scott Emerson moved to concur with the draft Marquette County Forestry Plan as presented. Bill Sanders seconded. Aye 7; Nay 0. Motion Carried.

VIII. PLANNING DIRECTOR’S REPORT

Dennis Stachewicz reminded the Planning Commission that there is a meeting with Mark Wyckoff on Thursday November 4th at 7:00 PM. He asked if all Planning Commissioners had received their packets from Mr. Wyckoff. All Planning Commissioners had received their packets.

He also said that he has been working with the intern and she has finished making the changes to the draft Junk Car Ordinance. He said they were planning on bringing it to this meeting but he had to leave town due to a death in the family. He said the draft will be given to the Planning Commission for the next meeting.

Dennis Stachewicz said the proposed Township Budget for fiscal year 2005 is available for public viewing at the Township Offices.

He handed out a letter from the Township Supervisor and said that he will be filling in for Randy Yelle until January 1, 2005.

Dennis Stachewicz informed the Planning Commission that they will hear an appeal of a Land Division Application at their next meeting. Bill Sanders asked what the procedure for the appeal was. Dennis Stachewicz said there is no formal procedure for the appeal, however he believes that the review of the appeal is purely technical with regards to the Assessor following the Land Division Ordinance and the Land Division Act.

IX. PUBLIC COMMENT

None.

X. COMMISSIONER COMMENT

None.

XI. INFORMATIONAL ITEMS AND CORRESPONDENCE

- A. Minutes – Marquette Township Planning Commission Minutes – 8/25/04 to 9/29/04
- B. Publication – Planning and Zoning News

XII. ADJOURNMENT

Bill Sanders adjourned the meeting at 8:30 PM.

Estelle DeVooght, Commission Secretary

Dennis Stachewicz, Recording Secretary

**Charter Township of Chocolay
Planning Commission**

Monday, December 6, 2004
7:30 P.M.

Present: Steve Kinnunen, Mike LaPointe, Bill Sanders, Scott Emerson and Ken Tabor (arrived late)

Absent: Estelle DeVooght and Tom Shaw

Staff: Dennis M. Stachewicz, Jr. (Director of Planning and Research), Lori DeShambo (Recording Secretary), Tina Fuller (Township Assessor) and Denny Magadanz (DPW Supervisor).

I. PUBLIC HEARINGS

A. Rezoning #130 – A request by Paul Smith to rezone 199.7 acres in Sec. 14, T47N-R24W, from RP to RR-2.

Public comments regarding rezoning request #130 included the following:

Kathy Peterson, 6341 U.S. 41 South, Marquette stated that this request has a right of way issue involved.

Paul Smith who requested the rezoning is not in attendance; however, Larry and Frances Wilson of 600 Cherry Creek Road attended *not representing Paul Smith* but for informational purposes.

Susan Ballreid, 447 Mangum Road, Marquette stated that her property abuts the proposed rezoned property and she had questions regarding roadways and the involvement of subdivisions to this property.

Bill Sanders advised that these issues would be addressed according to the forum.

II. MEETING CALLED TO ORDER/ROLL CALL

Bill Sanders called the meeting to order at 7:36 p.m.

III. APPROVAL OF THE MINUTES OF NOVEMBER 1, 2004 MEETING

Steve Kinnunen moved to approve the minutes of the November 1, 2004 meeting, Mike LaPointe Seconded. Aye 4, Nay 0. Motion Approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Bill Sanders moved to Approve the Agenda, Steve Kinnunen supported. Aye 4, Nay 0. Motion Approved.

V. PUBLIC COMMENT

Kathy Peterson, 6341 U.S. 41 South, Marquette stated there is a rail road grade issue regarding Paul Smith's rezoning request; coupled with her earlier remark regarding a right of way problem.

Mark Maki of 370 Karen Road requested that his appeal be tabled until all Planning Commission Board Members were in attendance.

Ken Tabor arrived.

End Public Comment at 7:40 p.m.

VI. OLD BUSINESS – None.

VII. NEW BUSINESS

A. Consideration – Rezoning #130

Bill Sanders turned the meeting over to Dennis Stachewicz at this point for his comments.

Mr. Stachewicz reiterated from his December 1, 2004 memo which advised that Rezoning #130 is a request from Paul Smith for the rezoning of an approximately 199.7 acre size parcel from RP (Resource Production) to RR-2 (Rural Residential Number Two). This property is located south of the Chocolay Downs Golf Course and is bisected by the Chocolay River.

The property is located in a 100 year flood plain and contains soils that are not very suitable for residential development. A check with the Marquette County Health Department and MDEQ was discussed. Also, there is an access issue with this parcel that would require property purchase or an easement to develop a private road.

Paul Smith is current in Texas and will be not in attendance for the PC meeting. Bill Sanders was concerned that Mr. Smith was not given the information/memo and maps detailing the suggested outcome of his rezoning request. Mr. Stachewicz advised that he had called Mr. Smith's cellular phone and left a message; however, he had not heard back from him.

Discussion was had between the PC Board Members, Mr. Stachewicz and Larry Wilson who would be in contact with Mr. Smith. It was emphasized to Mr. Wilson that it was important that Mr. Smith receive the information that the Director of Planning and Research had compiled. Bill Sanders asked that Larry Wilson please be sure to give Mr. Paul Smith the staff review notes.

Mike LaPointe Moved, Bill Sanders Seconded that following the review of Rezoning request #130, and the Staff/File Review, the Planning Commission recommends DENIAL of Rezoning #130 to the Township Board to rezone parcels 52-02-114-001-00 and 52-02-114-003-00 from RP to RR-2 due to:

1. The Comprehensive Plan recommends that major flood areas remain zoned for Open Space or Resource Production;
2. The rezoning would allow a higher density of development in a flood area which is discouraged in the Comprehensive Plan;
3. The rezoning would allow a higher density of development in an "Area of Particular Concern" which is discouraged in the Comprehensive Plan;
4. The property can be reasonably utilized under the current zoning designation.

Aye 5, Nay 0. Motion Approved.

B. Consideration – Land Division Act Appeal #04-01

Bill Sanders asked Mr. Stachewicz if there is a protocol to follow regarding Mr. Maki's earlier request to table Land Division Act Appeal #04-01. Mr. Stachewicz outlined Mr. Maki's request to appeal the decision of the Township Assessor to approve a land division for Parcel 52-02-007-049099, specifically appealing the lot "depth to width ratio" and verification of well and septic approval.

Mr. Stachewicz referred to his November 30, 2004 memo regarding Ordinance #52 and the State Land Division Act which provide guidelines for the division of land in Chocolay Township and the State of Michigan respectively. Specifically, Ordinance #52 provides for "any aggrieved person" to file an appeal with the Chocolay Township Planning Commission, however, no protocol for such an appeal exists.

The Township Assessor had provided a detailed response to Mr. Maki.

Given that no protocol for an appeal exists, it is the belief of Mr. Stachewicz that the Planning Commission should make a decision whether or not the Township Assessor's decision correctly followed the State Land Division Act and Ordinance #52 with respect to the appeal written by Mr. Maki.

Tina Fuller, Township Assessor, is in attendance at this meeting to answer questions and address the issues raised by Mr. Maki.

Bill Sanders asked Mr. Maki if he wanted to address the Board. He responded again that he wished the appeal to be tabled until a full board was present. Mr. Sanders asked the Planning Commission Board how they felt about this. Mr. Stachewicz asked that the appeal proceed as the assessor is in attendance and may not be available at the next PC meeting.

Mr. Sanders acknowledged that Mr. Maki would prefer to table the appeal, however, the Planning Commission has decided to proceed with the appeal during this meeting. The PC members felt there were enough members in attendance to make a decision. Mr. Maki was asked to give his presentation.

Mr. Maki stated that this was the first time in 29 years that a Board would not allow an individual to table a decision.

Bill Sanders pointed out that there were enough members present who volunteer their time to participate in the meetings and that there were no guarantees that all members would be present at the next scheduled PC meeting.

Kathy Peterson remarked that it shouldn't matter when the issue was heard as the members get paid to be at the meetings.

Mr. Maki asked if the Planning Commission made a decision and the vote was, for instance, 3 to 2, could he come back to the Planning Commission when all board members were in attendance and have this appeal reheard?

Mr. Sanders pointed out that five board members in attendance is a sufficient amount of members to make a decision. Scott Emerson advised Mr. Maki that the PC is not being discriminatory. After further discussion, it was decided that the appeal would be heard.

Mr. Maki provided information to the PC members and discussed the Land Division Act and the Township Zoning Ordinance Law with respect to lot width and depth.

Following Mr. Maki's presentation to the PC members, Mr. Sanders asked if Tina Fuller had any comments, remarks or questions regarding Mr. Maki's presentation. She stated that she had already given Mr. Maki her response to his appeal and she reiterated paragraph two from her 10/29/04 letter.

Mr. Maki is stating that the Township is proposing to sell a parcel of land that fails to comply with the depth to width ratio which is contained in the State Land Division Act and the Township Land Division Ordinance.

Much discussion was had between the PC members, Mr. Maki, Mr. Stachewicz and Ms. Fuller regarding this issue.

Steve Kinnunen suggested that this matter be referred to the Township attorney for his review as the PC members are not comfortable with making a decision at this time as both parties are stating what they believe to be valid issues.

Mr. Stachewicz stated he was concerned with "what if" the Township is selling a lot that fails to comply with the depth to width ration which is contained in the State Land Division Act and the Township Land Division Ordinance.

Steve Kinnunen again pointed out that this was his basis as to why he felt legal counsel should be consulted for a determination.

Steve Kinnunen Motioned, Scott Emerson Seconded that the Planning Commission submit this appeal language to the Township attorney for review and obtain a report so the Planning Commission would be more informed to make a decision.

Bill Sanders noted that language needed to be added to this Motion regarding the actual appeal, therefore, Steve Kinnunen Motioned, Ken Tabor Seconded that Land Division Act Appeal #04-01 is to be tabled at this time.

Aye 5, Nay 0. Motion Approved.

C. Consideration – Joint Meeting with Township Board

The Planning Commission consultant has requested that both the Planning Commission and Township Board attend a meeting on January 6, 2005 to seek consensus and input on the preferred future land use alternative and key recommendations and strategies. In the past, it has been proper protocol for the Planning Commission to invite the Township Board to attend.

Mike LaPointe Moved, Bill Sanders Second, to invite the Township Board to attend a joint meeting with the Planning Commission to be held on January 6, 2005 at 7:00 p.m. at the Township Hall, facilitated by Planning and Zoning Center, Inc., to discuss future land use alternatives and key recommendations and strategies.

Aye 5. Nay 0. Motion Approved.

D. Consideration – Onota Township Policy Plan Comments

The Planning Commission has been provided an opportunity to comment on the Onota Township Policy Plan and copies of the plan were mailed out to Planning Commissioners in November of 2004.

Steve Kinnunen remarked on how Onota Township should focus more attention on recycling. He remarked that they are having difficulties with the garbage/refuse drop off site. Onota Township is also dealing with private road issues. He also commented on the amount of discussion had regarding land preservation. The population of the Township is growing.

Kathy Peterson questioned why the Planning Commission was discussing Onota Township and she was advised that Chocolay Township is required to under the Coordinated Planning Act which is a state law in conjunction with a comprehensive plan. Onota Township has asked Chocolay Township to review their policy plan.

Steve Kinnunen Moved, Ken Tabor Second, to allow the Chocolay Township Director of Planning and Research to prepare correspondence to the Onota Township Planning Commission that reflects the discussion held by the Chocolay Township Planning Commission regarding the Onota Township Policy Plan during their December 6, 2004 meeting.

Aye 5, Nay 0. Motion Approved.

E. Consideration – US 41 Corridor Project Rankings

MDOT has asked that the Planning Commission rank the recommended improvements outlined in the US-41/M-28 US 41 Corridor Project Rankings. The ranking will be used to assist MDOT in applying for project funding and for the development of their future plans.

There were 17 issues identified within Chocolay Township. Chocolay Township currently has two intersections within the top ten crash locations in the corridor study area, Silver Creek Road and Cherry Creek Road. Several access management recommendations were presented.

Bill Sanders pointed out to the members that they could re-rank or concur with staff ranking regarding the recommendations that were listed and provided to the Planning Commission members. He then went on to read the first four recommendations for a change.

Kathy Peterson remarked that the four recommendations listed all sound pretty expensive and she wanted to know who was going to pay for this?

John Trudeau of 216 Cedar Lane, Marquette remarked to the members regarding the intersection of U.S. 41 and M-28 and what a hazard it is to drive here during the morning hours. This prompted detailed discussion regarding possible changes and how this issue could be addressed to MDOT prior to approving the US 41 Corridor Project Rankings, thus covering one of the most expensive avenues to be corrected within Chocolay Township at this time.

Mr. Stachewicz volunteered to bring this issue up at the next meeting.

No motion was required; concurred with staff ranking.

F. Work Session – Review of Comprehensive Plan Draft Chapters 1-6

Review of Comprehensive Plan Draft Chapters 1-6. The Planning Commission reviewed draft chapters one through six and took comment from the staff and citizens present. A few minor changes were recommended and Mr. Stachewicz will forward the same to Mr. Wyckoff.

VIII. PLANNING DIRECTOR’S REPORT

There are Northern Michigan University students involved in a planning project regarding Chocoday Township. Mr. Stachewicz has assisted the students with submitting a proposal to present the project at the 2005 American Planning Association Annual Conference this spring.

IX. PUBLIC COMMENT – None.

X. COMMISSIONER COMMENT – None.

XI. INFORMATIONAL ITEMS AND CORRESPONDENCE

- A. Information – Township 2005 Meeting Dates
- B. Information – Township Board Minutes – 11/08/04
- C. Information – Marquette Township Planning Commission Minutes 08/25/04 to 10/27/04
- D. Correspondence – Stachewicz to CABA

XII. ADJOURNMENT. Bill Sanders adjourned the meeting at 10:15 p.m.

Estelle DeVooght, Commission Secretary

Lori DeShambo, Recording Secretary

**CHOCOLAY TOWNSHIP
PLANNING COMMISSION MINUTES
FEBRUARY 14, 2005**

Present: Bill Sanders, Tom Shaw, Estelle DeVooght, Mike LaPointe, Ken Tabor
Steve Kinnunen and Scott Emerson
Absent: None
Others: Dennis Stachewicz, Director of Planning and Research

I. MEETING CALLED TO ORDER

Chairperson Bill Sanders called the meeting to order and noted that Scott Emerson will arrive shortly.

II. APPROVAL OF THE MINUTES OF DECEMBER 6, 2004

The Minutes of the December 6, 2004 regular meeting were presented for approval.

Moved by Bill Sanders, Supported by Estelle DeVooght, that the December 6, 2004 Minutes be approved as presented. Aye 6 Nay 0. **Motion carried.**

III. APPROVAL OF AGENDA

Moved by Bill Sanders, Supported by Estelle DeVooght, that the Agenda be approved as presented. Aye 6, Nay 0. **Motion carried.**

IV. PUBLIC COMMENT

Bill Sanders noted the person making comment must give their name and address and they are limited to 5 minutes.

- A. Mark Maki, 370 Karen Road.** Mr. Maki noted that facts were left out from his presentation in the minutes. He reserved time to clarify his presentation to the commissioners absent. He says the Assessor is not aware of the Zoning Ordinance. He also stated that there was not a quorum present at the January meeting and he was not told who was absent. He feels the Township is ignoring the Waselesky issue. He thinks the Township has struck a deal with Mr. Waselesky to cut up cars. Continued questions of zoning permits that have not been answered.
- B. Cathy Peterson, 6341 US 41 South.** Reserved time to speak for whatever.
- C. Dick Arnold, 312 West Branch Road.** Reserved time to speak on Junk Vehicle Ordinance.

V. OLD BUSINESS

A. Consideration – Land Division Appeal #04-01

Bill Sanders introduced Mr. Stachewicz. Mr. Stachewicz had nothing to add.

Mark Maki said the Assessor approved a land division and the Township Board made motion that was against the law. He said the Assessor made up a new term “average width.” Mr. Maki said he read the attorney’s opinion and he took the side of the Township. Mr. Maki said he posed the question to other professionals; Joe Lavey and Dick Graybill and they said depth and width ratio is 9 to 1.

Mr. Maki said he wrote a letter to the Department of Commerce and they said depth to width is 9 to 1. Mr. Maki said the Township Attorney is wrong and Mark Maki said he wants a written letter from the Assessor before the Planning Commission takes action.

Bill Sanders Moved, Scott Emerson Second, after reviewing the documentation provided by the Township Staff, Township Attorney, and Mark Maki, the Planning Commission accepts the opinion of the Township Attorney and the rescinding of the Application by the Township Assessor, which voids Land Division Appeal 04-01.
Aye 7, Nay 0. **Motion carried.**

B. Discussion – Junk Vehicle Ordinance

Dick Arnold asked about Section 4 regarding canvas (temporary) garages. Mr. Stachewicz said accessory structures should be addressed in the Zoning Ordinance.

Dick Arnold asked about Section 3 and why do we have it in there. He spoke about front end loaders. He said old ordinance in Section 46.4 allowed vehicles to be repaired. There are 19 unlicensed vehicles sitting in Beaver Grove for two years now. He thanked the Planning Commissioners for doing a good job.

John Dawydko, 109 Alderbrook, asked about the definition of “house trailers”, said we need to clarify many other things. He started speaking about freedom, camp vehicles and time it takes to order parts for vehicles. His definition of junk cars is a car on blocks. He said if you can move a vehicle and it starts it should not be a junk vehicle.

Cathy Peterson asked if someone had to have a garage for repairing a vehicle? She said the Township is getting too involved in people’s lives. She said some junk or antique cars are a form of art. She said that Kinnunen’s tool truck is always in front of the house, not on the east side where he is supposed to have it parked.

They discussed camp and snow removal vehicles that may be licensed only for a part of the year and parking vehicles in garages or screened areas.

Tom Shaw said he is concerned about the uncontrolled accumulation of iron that will not be used. Scott Emerson said environmental threats (battery acid and leaking oil contaminating the neighbors’ wells) are also a problem.

Other comments were made unrelated to junk vehicles. Bill Sanders had to calm the public down at this point as they were arguing among themselves and with the commissioners.

Mark Maki said the problem is ground water contamination. He said if there is no limit on how many vehicles can be screened, the Township is right back where they were with the old ordinance. Bill Sanders responded saying if there is no limit it devalues property and can be a pollution problem. Richard Arnold wants to protect of property and limit the vehicles allowed outside.

Bill Sanders answered questions that were asked during public comment. The person who would enforce the Junk Vehicle Ordinance would be the Zoning Administrator and the truck repair in Beaver Grove is zoned commercial. He said we have to fix the old Junk Vehicle Ordinance.

The commissioners then went through the problem portions of the ordinance and made changes they thought appropriate as they discussed it.

Ken Tabor suggested that large lots should have different rules than small lots in subdivisions. Bill Sanders said it has to be the same across the board. Mike LaPointe feels there needs to be a number to limit vehicles. Estelle DeVooght questioned agricultural vehicles. Ken Tabor said if the vehicles are screened, he thinks it is alright to have them unlimited. Steve Kinnunen recommends limiting junk vehicles, saying that 70% of the residents on the survey wanted a junk car ordinance with very small number of vehicles allowed, if any. Scott Emerson said there should be an agricultural exemption. Bill Sanders said this draft will go to the Board to the March or April meeting. Bill Sanders said it was all about being good neighbors to one another.

Steve Kinnunen Moved, Scott Emerson Second, that the Planning Commission advise the Director of Planning and Research to present the Draft Inoperable Vehicle Ordinance to the Township Board for adoption as presented with changes discussed at the 2-14-05 Planning Commission Meeting.

Aye 7, Nay 0. **Motion carried.**

VI. NEW BUSINESS

A. CONSIDERATION – JOINT WORK SESSION INVITATION TO TOWNSHIP BOARD

Ken Tabor Moved, Bill Sanders Second, to invite the Township Board to attend a joint meeting with the Planning Commission to be held on March 3, 2005 at 6:00 p.m. at the Township Hall, facilitated by the Planning and Zoning Center, Inc., to discuss the draft Chapters 10 through 12 regarding Future Land Use, Zoning Recommendations, and Implementation of the Plan.

Aye 7, Nay 0. **Motion carried.**

B. DISCUSSION – PLAN ADOPTION PROCEDURE

Planning Director to write letter.

C. DISCUSSION – FUTURE LAND USE AND ZONING OF SILVER CREEK SCHOOL

Planning Director to write letter.

VII. PLANNING DIRECTOR'S REPORT

VIII. PUBLIC COMMENT

Mark Maki complained that he did not get an answer from Dennis Stachewicz regarding who was not going to be present at the January meeting. Members of the Planning Commission responded and asked why is he so concerned where they are at? Mr. Maki also spoke about Waselesky, Togo's, sign in Beaver Grove, mini-warehouses being used for commercial. Mr. Stachewicz advised Mr. Maki that all of these issues have been answered in a meeting with the Township Attorney. Mark Maki continued to make numerous complaints and raised his voice. Bill Sanders asked him to finish. Mr. Maki continued. Bill Sanders again asked Mr. Maki to finish.

Dick Arnold said he is not completely satisfied with the ordinance language. He said he was disappointed at the length of time that it took to work on the ordinance. If he was a member of the Board he would quit.

Bill Sanders spoke in support of the Board and is not ashamed of the Planning Commission and is proud of them.

John Dawydko thanked the Board for their professional handling of the controversial meeting and people.

Chief Zyburt spoke about TV6 coverage of the snowmobile trail and invited the Planning Commission members to view it after the meeting.

IX. COMMISSIONER COMMENT

X. INFORMATIONAL ITEMS AND CORRESPONDENCE

XI. ADJOURNMENT

Estelle DeVooght, Commission Secretary

Dennis Stachewicz, Recording Secretary

**CHOCOLAY TOWNSHIP
SPECIAL PLANNING COMMISSION MEETING MINUTES
MARCH 3, 2005**

Present: Bill Sanders, Estelle DeVooght, Mike LaPointe, and Steve Kinnunen **Absent:**
Tom Shaw, Scott Emerson and Ken Tabor
Others: Dennis Stachewicz, Director of Planning and Research

I. MEETING CALLED TO ORDER

Chairperson Bill Sanders called the meeting to order at 6:10 P.M.

II. APPROVAL OF THE MINUTES OF FEBRUARY 14, 2005

Moved by Estelle DeVooght, Supported by Steve Kinnunen, that the February 14, 2005 Minutes be approved as presented.
Aye 4 Nay 0. **Motion carried.**

III. PUBLIC COMMENT No public comments.

IV. NEW BUSINESS

A. Consideration – Amendment to 2005 Planning Commission Meeting Schedule

Bill Sanders Moved, Mike LaPointe Second, to cancel the March 14, 2005 regular Planning Commission meeting and to ask the Director of Planning and Research to notice the change to the meeting schedule.
Aye 4, Nay 0. **Motion carried.**

B. Work Session – Comprehensive Plan

Mark Wyckoff led the discussion regarding the Comprehensive Plan.

Cathy Peterson does not want 1 house per 20 acres. She is also opposed to the entire Comprehensive Plan; it is a fraud and a joke.

V. PUBLIC COMMENT

Cathy Peterson asked why Mark Wyckoff sent surveys to all Township affiliated people and none to anyone else? Mark Wyckoff said the survey was a local leaders' survey so the consulting firm would have an initial set of issues to bring to the Town Meeting. Cathy Peterson asked what law is open space law? Mark Wyckoff said amendment to Township Zoning Act. Cathy Peterson said smart growth is a copy cat. Mark Wyckoff said it is a professional planning tool.

Dan Hockin asked if the new streets may go through wetlands? Bill Sanders said it is just a broad overview.

VI. COMMISSIONER COMMENT

Steve Kinnunen said visual handouts would be good to have on hand. Mark Wyckoff said he would try to put it in the plan.

VII. ADJOURNMENT

Bill Sanders closed the Special Meeting at 8:50 P.M.

Estelle DeVooght, Commission Secretary

Lori DeShambo, Recording Secretary

**Charter Township of Chocolay
Planning Commission**

Monday, April 11, 2005
7:30 P.M.

Present: Steve Kinnunen, Mike LaPointe, Bill Sanders, Scott Emerson, Ken Tabor, Estelle DeVooght and Tom Shaw

Staff: Dennis M. Stachewicz, Jr. (Director of Planning and Research), Lori DeShambo (Recording Secretary)

I. MEETING CALLED TO ORDER/ROLL CALL

Bill Sanders called the meeting to order at 7:30 p.m.

II. APPROVAL OF THE MINUTES OF MARCH 3, 2005 MEETING

Estelle DeVooght moved to approve the minutes of March 3, 2005 meeting, Bill Sanders Seconded. Aye 7 Nay 0. Motion Approved.

III. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Ken Tabor moved to Approve the Agenda, Scott Emerson supported. Aye 7, Nay 0. Motion Approved.

IV. PUBLIC COMMENT

Mark Maki of 370 Karen Road brought up the issue of the land division appeal on Kawbawgam Road, his appeal of the Planning Commission's decision, and the involvement of correspondence from the State Land Division. He asked that this correspondence be reviewed.

End Public Comment at 7:35 p.m.

V. OLD BUSINESS

A. Future Land Use at Silver Creek School

Dennis Stachewicz repeated the main points from the previous discussion last month. He said it would be appropriate to decide on a land use and zoning prior to receiving a purchase offer on the school and property. Bill Sanders discussed some zoning issues. Estelle DeVooght asked about the playground. Mr. Stachewicz said the playground could be included in any sale of the building.

The PC Board members discussed zoning pro's and con's, types of businesses, etc. that could utilize the building, the uses allowed by PUD and R-3 zoning designations and what direction they would like to see the township take regarding the usage of this building and land that is for sale.

Bill Sanders asked Dennis Stachewicz for his input as to what steps the Planning Commission should take regarding the review/change of the zoning.

Bill Sanders moved to send a letter to the Township Board asking the Township Supervisor to begin the rezoning process to change Silver Creek School from PL to R3, Ken Tabor supported. Aye 7, Nay 0. Motion Approved.

VI. NEW BUSINESS

A. Consideration – Recommendation to Township Board – Distribution of Comprehensive Plan Draft

Dennis Stachewicz said a recommendation is needed for the Township Board to approve the draft plan for distribution to adjoining jurisdictions.

Ken Tabor Moved, Scott Emerson Seconded, that after review of the draft Plan, the Chocolay Township Planning Commission submits the draft Comprehensive Plan Update to the Chocolay

Township Board for review and Comment and recommends that the Chocloy Township Board authorize the distribution of the draft plan to adjoining jurisdictions and schedule a public hearing for August 4, 2005. Aye 7, Nay 0. Motion Approved.

B. Consideration – Chocloy River Watershed Sites of Concern

Dennis Stachewicz said the Chocloy River Watershed Council's is requesting the Township's recommendations for locations of concern in the watershed. The Planning Commission discussed the status of the list from last year, the effect of snow melt, current sedimentation in the river, and any upcoming plans for development. The Planning Commission asked Mr. Stachewicz to add the Voce Creek sediment trap to last years list and present it to the Township Board for their input and comments. Mike LaPointe also asked that the Watershed Council provide an annual report and presentation to the Planning Commission.

C. Consideration – Possible Relocation of Playground Equipment at Kawbawgam Pocket Park

Dennis Stachewicz said the Township Supervisor had asked him to get the Planning Commission's thoughts regarding the possible relocation of the Kawbawgam Pocket Park playground equipment. After discussion, the Planning Commissioners suggested that a letter be sent to the Township Supervisor identifying the property south of the KBIC Community Center as the preferred area for relocation.

VII. PLANNING DIRECTOR'S REPORT

Dennis Magadanz is retiring. The position is currently open and it is hoped to be filled soon.

Estelle DeVooght's term is expiring soon. She was asked if she would like to remain on the Planning Commission Board of which she stated she did.

There is a Township meeting coming up on May 12th, 2005 at 7:00 p.m. at the Cherry Creek School. The Planning Commission will still meet on May 9th, 2005 at the regular time as the meeting on the 12th is a township meeting, not a PC meeting.

There will be a public hearing on April 18th, 2005 regarding land division ordinances and junk yard issues.

VIII. PUBLIC COMMENT – None.

IX. COMMISSION COMMENT

The Planning Commission discussed the status of the junk vehicle issues with Mike LaPointe asking if the number of junk vehicles a person may have was determined. Another issue brought up was the new "tent-like" parking structures that are being used to house boats, motor homes and such. These structures can be moved, eye sores and their ecological impact.

The Commissions would like a letter to be sent to Dennis Magadanz to thank him for doing a great job as Department of Public Works Supervisor.

Scott Emerson asked if the Commissioners should address the issue brought up earlier by Mark Maki. Bill Sanders recommended that the Dennis Stachewicz ask the Township Supervisor to review land division correspondence with attorney Mike Summers.

Lori DeShambo, Recording Secretary

**Charter Township of Chocolay
Planning Commission**

Monday, May 9, 2005
7:30 P.M.

Present: Steve Kinnunen, Mike LaPointe, Bill Sanders, Scott Emerson, Ken Tabor, Estelle DeVooght and Tom Shaw

Staff: Dennis M. Stachewicz, Jr. (Director of Planning and Research)

I. MEETING CALLED TO ORDER/ROLL CALL

Bill Sanders called the meeting to order at 7:30 p.m.

II. APPROVAL OF THE MINUTES OF THE APRIL 11, 2005 MEETING

Estelle DeVooght moved to approve the minutes of the April 11, 2005 meeting, Bill Sanders Seconded. Aye 7 Nay 0. Motion Approved.

III. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Tom Shaw moved to approve the agenda, Estelle DeVooght supported. Aye 7, Nay 0. Motion Approved.

IV. PUBLIC COMMENT

Bill Sanders read a letter submitted to the Planning Commission by Mark Maki of 370 Karen Road. In his letter Mr. Maki said that the Zoning Administrator has not given him a response regarding the well testing at the golf courses, structures have been put up by Don Anderson at the corner of M-28 and Superior Street, someone changed the requirements of the Junk Ordinance before it was presented to the Township Board, and he inquired as to what the status was regarding the review of correspondence from the State Land Division Office.

End Public Comment at 7:35 p.m.

V. OLD BUSINESS

A. Discussion – Junk Car Ordinance

Dennis Stachewicz presented a memorandum and a marked-up copy of the proposed ordinance that showed comparisons with the old ordinance (Ordinance #46) to the Planning Commission. Ken Tabor spoke about what concerns the Township Board had with the proposed ordinance language and said the Board was split over the idea of the Township regulating how many vehicles a person could have on their property.

There was a lengthy discussion by the Planning Commission regarding whether or not it would be appropriate to try and regulate the number of inoperable vehicles a person could have. A majority of the Planning Commission felt that as long as the vehicles were inside a building, the Township should not place a number on how many a person could have.

Dick Arnold, 312 West Branch Road, said that he didn't like the idea that someone could have an unlimited number of vehicles even if they were inside. He also said the Township would have a hard time enforcing the provision for a hobby car because the Township would be unable to determine if it is being worked on. He said the proposed ordinance should be for the health of all of the Township Residents and a majority of them do not want an accumulation of junk. Several Planning Commissioners reminded Mr. Arnold that there have been very few other residents that have attended any of the publicly noticed work sessions regarding this ordinance and that the Planning Commission is looking out for the good of the entire Township rather than a few residents.

There was further discussion by the Planning Commission about how to balance the environmental protection and aesthetic expectations of Township Residents versus the

expectations of residents that moved here to be able to have a number of vehicles and live a more rural lifestyle.

Mr. Stachewicz proposed a couple of alternatives to the Planning Commission and the Planning Commission discussed those options which included the possibility of a joint meeting and presentation with the Township Board or sending the proposed ordinance back to the Township Board with the changes discussed at this meeting.

Bill Sanders moved, Ken Tabor Supported, that the Planning Commission recommend that the Director of Planning and Community Development present the draft Inoperable Vehicle Ordinance to the Township Board for consideration and adoption as presented with the following changes:

1. The title be changed to "Vehicle and Trailer Parking and Storage Ordinance;"
2. Move the language requiring vehicles to be "wholly contained" from section 4.A.7 to section 4.A;
3. Revise section 4.A.7 to provide an allowance of 3 inoperable vehicles provided they are completely screened using the screening language currently in section 4.A.7.

Aye 7, Nay 0. Motion Approved.

VI. NEW BUSINESS

A. Discussion – Firearms Ordinance

Dennis Stachewicz said the Township had received a letter from Judd Johnston, 1943 M-28 East, requesting an expansion of the Firearms Restriction Zone that is outlined in the Charter Township of Chocoy Firearms Ordinance. Mr. Stachewicz recommended that the Planning Commission consider the Comprehensive Plan Update and the possibility of future changes to the Zoning Districts per the recommendations in the Plan.

There was discussion by the Planning Commission regarding the current ordinance and the correspondence from the Zoning Administrator that identified the need to either rezone a number of properties or make considerable amendments to the Firearms Ordinance.

There was a consensus by the Planning Commission to allow the Director of Planning and Community Development draft a letter to the Township Board asking them for direction based upon a set of proposed solutions.

VII. PLANNING DIRECTOR'S REPORT

Dennis Stachewicz said the Township has entered into an agreement with Faith Assembly of God for the sale of the old Silver Creek School and property. He also said that the Township Board authorized the submission of a rezoning application prior to the purchase agreement.

Mr. Stachewicz said the Planning Commission will be reviewing a site plan for the Marquette Motor Lodge at their next meeting.

He also reminded the Planning Commission that there is a Town Hall meeting coming up on May 12th, 2005 at 7:00 p.m. at the Cherry Creek School.

VIII. PUBLIC COMMENT

Denny Magadanz, 158 West Main Street, said that the water testing at the golf course has been done by the Township every year as required.

IX. COMMISSION COMMENT

Estelle DeVooght inquired about whether or not the potential owners of the school would have to pay taxes. Dennis Stachewicz said he believes that they are tax exempt for both real and personal property and he would confirm with the Township Assessor.

(Recording Secretary)

I. PUBLIC HEARINGS

1. Rezoning #131 – Chocolay Township – Public Lands to R-3

II. MEETING CALLED TO ORDER/ROLL CALL

Meeting called to order by Bill Sanders at 7:30 p.m. Missing from the Planning Commission meeting were Scott Emerson, Steven Kinnuen and Tom Shaw

III. APPROVAL OF THE MINUTES OF MAY 9, 2005

Ken Tabor moved to Approve the Minutes of May 9, 2005 meeting with Estelle DeVooght supporting. Aye 4, Nay 0. Motion Approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

Ken Tabor moved to Approve the Agenda for the June 13, 2005 meeting with Bill Sanders Seconding. Aye 4, Nay 0. Motion approved.

Bill Sanders noted that he accidentally missed the Public Hearing and opened the Public Hearing for Rezoning #131.

Dennis Stachewicz reiterated his memo dated June 1, 2005 with his recommendations regarding the rezoning of an approximately 10 acre size parcel of PL (Public Lands) to R-3 Residential Three having to do with what is commonly known at the Silver Creek School.

It was discussed that the township would have access to some areas of the parcel.

At this time, Bill Sanders directed questions/input for public comment.

Mark Maki of 370 Karen Road asked if the new Comprehensive Plan included this building as a community center?

The Public Hearing was closed at 7:37 p.m.

V. PUBLIC COMMENT

Mark Maki lodged a complaint against the Planning Commission and said he was not provided an agenda to review prior to arriving at this meeting. He states this is against the law. He remarked that it was nice to see that water testing was being administered as he has asked for this to be completed for 3 years now.

Mr. Maki also commented on the agenda, Item X. C. Information – Township Attorney Opinion re: Parcel Split. It is his contention that Attorney Michael Summers did not have opportunity to review the correspondence (2 letters) that Mr. Maki had received from the State in response to his inquiry/complaints. He also added that he believes the land division issue is in violation of the law.

Public Comment closed.

VI. OLD BUSINESS - None

VII. NEW BUSINESS

A. Consideration – Rezoning #131

After discussion, the Planning Commission agreed that it make good sense to rezone #131 to R-3 for further use. The Planning Commission agreed that the outcome of their previous work sessions concluded a rezoning to R-3 would be appropriate given the proximity to residential areas.

Bill Sanders Moved, Ken Tabor Second, that following the review of Rezoning request #131, and Staff/File Review, the Planning Commission recommends APPROVAL of Rezoning #131 to the Township Board to rezone parcel 52-02-106-040-00 from PL to R-3 to recognize that the property will no longer meet the requirements of the PL zoning district and that a zoning designation of R-3 is more appropriate given the close proximity to residential land uses.

Bill Sanders asked if there were parcels available to the public of which Dennis Stachewicz stated yes.

Motion carried. Dennis Stachewicz said that this will be presented to the County Planning Commission, then to the Township Board in July of 2005.

B. Consideration – Site Plan Review #05-01

Dennis Stachewicz remarked that this plan had already been put in front of the ZBA and the ZBA granted a “Class A” designation and approval to expand a Class “A” non-conforming use. Now the plan must be presented to the Planning Commission for approval for the site renovation.

The developer and owner, using sketches and diagrams, showed the Planning Commission the façade appearance they propose to build, explained plans regarding a courtyard, an enclosed patio, and adding landscaping. There had been changes from the original site plan regarding parking change this to angle parking. There has been an adjustment made to the bike path making it narrower which has been approved by the MDOT Corridor Management Team. The sign will remain the same.

Bill Sanders asked about the carriage lights and the potential glare onto the highway.

Estelle DeVooght asked about the cabins that are located in the back of the motel property and was told they were the property of Wahlstrom’s.

Mike LaPointe Moved and Bill Sanders Seconded that after review of the standards of Section 504 and other applicable standards contained in the Township Zoning Ordinance; and the STAFF/FILE REVIEW – SITE DATA AND ANALYSIS; and subsequently finding compliance with the standards for approval of the request, the Planning Commission approves Site Plan Review Request #05-01 with the following conditions:

- 1) That the applicant obtain a permit from the Michigan Department of Transportation for the right of way improvements in front of the parcel along US-41; and
- 2) The above condition is subject to review and approval of the Zoning Administrator, prior to the application obtaining a Zoning Compliance permit.

Aye 4, Nay 0. Motion approved.

C. Discussion – Township Welcome Signs

Mark Wyckoff suggested that the Township should consider Welcome signs to create an identity. Greg Seppanen asked if the Planning Commission would look at this issue.

An example was shown to the Planning Commission which is the same layout that is seen at the soccer field and the township buildings. Mr. Stachewicz suggested that the Planning Commission take their time and brain storm of idea’s and lay-outs and come back with some information at a later time. After much discussion on whether to hold a contest for a logo or have an informal township meeting to get the community involved it was thought

that the current layout/design works well for the Township. Night lights and landscaping could be added.

Estelle DeVooght asked where the money would come from to pay for the new Welcome signs with lights and landscaping. Mr. Stachewicz said money was budgeted for Comprehensive Plan implementation.

Dennis Stachewicz will draft a letter to the Township Supervisor and let the Planning Commission review the letter.

VIII. PLANNING DIRECTOR'S REPORT

Mr. Stachewicz stated that he has received one written comment regarding the Comprehensive Plan. A Public Hearing will be held on August 4, 2005.

It was questioned whether the August 4th meeting would supersede the planned August 8, 2005 Planning Commission meeting. The PC will still meet on August 8, 2005.

The Chocoday River Watershed Council meeting was discussed.

IX. PUBLIC COMMENT – None

IX. COMMISSION COMMENT – None

XI. INFORMATIONAL ITEMS AND CORRESPONDENCE

- A. Correspondence – Supervisor to Chocoday river Watershed Council
- B. Correspondence – Yelle to Stachewicz re: Water Testing
- C. Information – Township Attorney Opinion Re: Parcel Split Complaint
- D. Information – Marquette City Planning Commission Minutes – 4/19/05 and 5/03/05
- E. Information – Marquette Township Planning Commission Minutes – 4/13/05

XII. ADJOURNMENT. Bill Sanders adjourned the meeting at 8:34 p.m.

Estelle DeVooght, Commission Secretary

Lori DeShambo, Recording Secretary

**Charter Township of Chocolay
Planning Commission**

Monday, July 11 2005
7:30 P.M.

Present: Mike LaPointe, Estelle DeVooght, TomShaw and Scott Emerson

Absent: Ken Tabor, Bill Sanders and Steve Kinnunen

Staff: Dennis M. Stachewicz, Jr. (Director of Planning and Research), Lori DeShambo (Recording Secretary)

I. PUBLIC HEARINGS (begun at 7:36 p.m.)

1. Conditional Use #71 – Magadanz – Home Occupation
2. Conditional use #72 – Hockin – Recreational Structure in RP District

Dennis Stachewicz gave a quick overview regarding the requests listed above under public hearings. Conditional Use #71 involves the application for a day care center to be utilized from a home located on Lakewood Lane. Per Mr. Stachewicz, here are four conditions cited to be adhered to before the Planning Commission should consider approval of this request which in essence was building a fence, hours of operation, permit will be reviewed in one year and the applicant must obtain a permit from the Zoning Administrator.

Mr. Stachewicz pointed out the potential concern regarding increased traffic using M-28 to obtain access to Lakewood Lane. He checked with MDOT who gave their approval.

Mike LaPointe asked the applicant if she had anything to add to the discussion of which she did not.

Dennis Stachewicz went on to review Conditional Use #72 which involves building a recreational structure/camp on a 40 acre parcel located near Shot Pointe off of M-28. Mr. Stachewicz provided site data and analysis and the gist of the overview involved the fire department having access to this structure should a fire occur. In other words, the applicant must be aware that there is the possibility that the department could not gain access to his structure should there be a fire. The Chocolay Fire Department had no problem with the building of this structure as long as the applicant was fully aware of the limitation. Mr. Hockin indicated he understood. Dennis Stachewicz went on to state that the key to conditional use is that the structure was to be used only as recreational and not a permanent residence. The health department must also okay the structure which involves obtaining a permit. The applicant must go to the Zoning Administrator for a permit as well.

Mike LaPointe asked the applicant if he had anything to add of which he did not.

II. MEETING CALLED TO ORDER/ROLL CALL

Meeting called to order by Mike LaPointe at 7:45 p.m.

III. APPROVAL OF THE MINUTES OF JUNE 13, 2005 MEETING

Estelle DeVooght moved to Approve the Minutes of June 13, 2005 with Tom Shaw supporting. Aye 4, Nay 0. Motion Approved.

IV. APPROVAL OF AGENDA/ADDITIONAL ITEMS FOR AGENDA

For the convenience of those listed under public hearings that were waiting for their applications to be heard, the agenda was changed slightly in that VII New Business superseded VI Old Business.

Scott Emerson moved to Approve the Agenda with the aforementioned change for the July 11, 2005 with Tom Shaw Seconding. Aye 4, Nay 0. Motion approved.

V. PUBLIC COMMENT

Lee Blondeau of 30 N. Traci Lane, Marquette, MI asked that he, at some point, be given time to address the Planning Commission.

Public Comment is closed.

VI. NEW BUSINESS (AGENDA CHANGE AS APPROVED ABOVE)

- A. Consideration – Conditional Use #71
 - B. Consideration – Conditional Use #72
 - C. Discussion – Jurisdictional Transfer of County Road 480 from MCRC to MDOT
 - D. Discussion – Relocation of Tot Lot at Silver Creek Recreation Area
- Discussion – Comprehensive Plan Comments

A. Conditional Use #71. Tom Shaw directed a question to Mr. Stachewicz regarding the neighbors’ response to the request. Mr. Stachewicz advised that 25 notices were sent within 800 feet. Mr. Stachewicz pointed out to the applicant that her daycare facility would be reviewed on a yearly basis and should it prove to be a nuisance, then the conditional use would be withdrawn.

Scott Emerson Moved, Tom Shaw Second, that after review of Conditional use request #71, the STAFF.FILE REVIEW – SITE DATA and ANALYSIS, Section 107 (A) of the Zoning Ordinance, the site plan and application provided and subsequently finding compliance with the standards for approval of the request found in section 701 of the Zoning Ordinance, the Planning Commission approves Conditional Use Request #71 with the following conditions:

- 1. The applicant shall construct a fence as indicated on the site plan, a minimum of 4 feet in height and constructed of materials that will provide a visual screen of the rear yard activity from the view of the surrounding property and
 - 2. The operation of outdoor day care activity shall be limited to the hours of 7:30 a.m. to 10:00 p.m.; and
 - 3. the permit shall be subject to review one year from the date of approval and
 - 4. the applicant shall obtain a Zoning Compliance permit from the Zoning Administrator which indicates the above conditions.
- Aye 4, Nay 0. Motion Approved

B. Conditional Use #72. Estelle DeVooght asked if this was the same road that had problems with wetlands in years past? Mr. Stachewicz advised that it doesn’t matter if the road is gravel, it is a private road. Scott Emerson advised that the wetland/road problem was years ago and has been resolved. Mr. Stachewicz stated that Randy Yelle from the Zoning Board of Appeals had traveled to this site to check on access. Scott Emerson asked the applicant if he was totally aware that the fire department may not be able to get to his structure in case of a fire of which the applicant stated he did.

Scott Emerson Moved, Tom Shaw Second, that after review of the Conditional Use request #72 the STAFF.FILE REVIEW – SITE DATA AND ANALYSIS, Section 212 of the Zoning Ordinance, and subsequently finding compliance with the standards for approval of the request found in section 702 of the Zoning Ordinance, the Planning Commission approves Conditional Use Request #72 with the following conditions:

- 1. The applicant shall obtain a permit from the Marquette County Health Department for waste disposal/septic system; and
- 2. The permit is granted with the understanding that the recreational structure shall at no time be utilized, or ever converted to a permanent home without the permission of the Charter Township of Chocolay; and
- 3. The applicant shall obtain a Zoning Compliance permit from the Zoning Administrator once the first condition is met, which also indicated the second condition of approval.

Aye 4, Nay 0. Motion Approved

- C. Transfer of County Road 480 from MCC to MDOT. Jim Iwanicki of the Marquette County Road Commission (hereinafter referred to as MCRC) handed out paperwork to the Planning Commission members for review. A request was made to the Planning Commission of Chocolay Township by MCRC regarding the possibility of a jurisdictional transfer of County Road 80 to the Michigan Department of Transportation (hereinafter referred to as MDOT). Mr. Stachewicz stated there were six areas of concern regarding this transfer. They may be found in the agenda packet. Of main concern was access to a fire hydrant of which does not appear to be a conflict.

Mr. Iwanicki pointed out that they would like to make county road 480 a state road and that several meetings have taken place regarding this issue. This would all the communities of Negaunee and Ishpeming to be included. MDOT would write to all of the boards concerned. Mr. Iwanicki read a power point sheet he created which addressed the potential increase in traffic, improvements that will be made to 480 at the cost of MCRC and the fact that the state would be picking up the tab for fixing the road, not Chocolay Township.

This subject was brought up at this meeting for the first time and there are many meetings to be had. Mr. Stachewicz asked Mr. Iwanicki what route should the Chocolay Township PC be taking?

Scott Emerson brought up the subject of increased traffic on Cherry Creek Road. He also pointed out that there is a lot of truck traffic on this road. Could this be stopped with a truck through road?

Dennis Stachewicz pointed out that this issue should remain in the comprehensive plan now and MDOT can be addressed later.

Estelle DeVooght was concerned about the amount of truck traffic this would generate.

There were several ideas bounced around regarding new routes for traffic/trucks and such. Mr. Iwanicki again pointed out that this is the first time this is being addressed and there will be many kinks and issues to work out.

Scott Emerson stated that good things could come from this proposed change as there is a need to divert truck traffic.

Dennis Stachewicz stated he would attend the next corridor management meeting to see what other counties are looking at.

After several comments were made, Mike LaPointe thanked Mr. Iwanicki for his time and information regarding this request

- D. Relocation of the tot lot. The soccer field located in Beaver Grove was decided to be the best option of relocating playground equipment. Some of the equipment will be destroyed as they are old. Tom Shaw suggested that Dennis Stachewicz address a letter requesting the play ground equipment be relocated. Estelle DeVooght thought the Lions Club could come and move the equipment.
- E. Comprehensive Plan Comments. Lee Blondeau of 30 N. Traci Lane asked the Planning Commission about the non-conditional uses in Harvey under Chapter 10. If it includes terminology that businesses must be set back, does that mean all businesses on the highway must fit the same standard?

Tom Shaw suggested that this topic be addressed to Mr. Wycoff as he was the individual who drafted this plan. After discussions regarding this issue, it was decided that this would be addressed at the August 4th, 2005 meeting regarding the Comprehensive Plan. It was stated that the plan could be amended.

Dennis Stachewicz advised the Planning Commission that he has received e-mails, U.S. mail and conversations with individuals who are mostly positive about the proposed plan.

Mike LaPointe stated that Mr. Wycoff should take the lead during the August 4th meeting.

VII. OLD BUSINESS

- A. Discussion – Township Owned Signs
- B. Discussion – Firearms Ordinance
